**Additional Information:** Forwarded to our attention by Stephanie Scott; sfs2110@cumc.columbia.edu; Proposals must be received by March 3rd; Applications are restricted to early career investigators at CUMC within 5 years of their degree, particularly postdoctoral fellows. Assistant professors without other support may also apply.; Call for Rudel Award Applications; Apologies in advance, this prize may not be applicable to everyone on this listerv but I wanted to reach a wide audience. Please do forward to anyone who may be interested. See below for all details.; Applications are restricted to early career investigators at CUMC within 5 years of their degree, particularly postdoctoral fellows. Assistant professors without other support may also apply.; Please direct all questions to Dr. Yaakov Stern at ys11@columbia.edu.; E-mail proposals to: Anke Freude at af2409@columbia.edu.; Rudel Prize for Neuropsychology Research; This prize is awarded to individuals in the early stages of their careers in human neuropsychology or cognitive research. It is designed to help investigators collect pilot data for subsequent research proposals. This prize provides support of $10,000 over one year. The award is supported by the Rita G. Rudel Foundation. Dr. Rudel's research emphasis was on developmental neuropsychology, so applications in this area are particularly welcome. The prize recipient will be presented at the annual Rudel Lecture.; Eligibility: Applications are restricted to early career investigators at CUMC within 5 years of their degree, particularly postdoctoral fellows. Assistant professors without other support may also apply.; Applying: The entire proposal should be submitted as a single pdf file.; The application should be in the form of a four-page proposal, using at least 11-point font size and .5 inch margins in all directions, consisting of the following: Page 1: Please provide a cover page containing all of the following: Write "Rudel Award", followed by: project title; investigator name, title, phone and fax numbers, e-mail, and street addresses. Postdoctoral fellows, also include the mentor's name, title. Pages 2-4: Section I: A brief abstract ending with clearly and succinctly stated hypothesis.; Section II: The aims of the proposed research project.; Section III: The research significance and potential clinical application(s) of the research.; Section IV: The methods. Please clearly describe the research design and specify tests and analyses proposed to develop the pilot data.; Section V: A brief statement about the use of the funds.; Additional Pages: Appendix A: Provide a standard NIH biosketch for the investigator, and mentor if applicable.; Appendix B: For postdoctoral fellows, please include a one-page letter of support from the mentor that includes a brief description of the mentoring plan.; Proposal Review and Notification of Grant Awards: Proposals must be received by March 3rd, 2017; late submissions will not be considered.; The award will be presented at the Rudel lecture on May 4, 2017; For any questions: please email Dr. Yaakov Stern at ys11@columbia.edu; E-mail proposals to: Anke Freude at af2409@columbia.edu [*]

**Additional Information:** Faculty Fellowship and Exchange Opportunities; Dear Colleagues: I am pleased to invite applications for the following faculty fellowship and exchange opportunities. Please note that the awards are not all for the same academic year. Some will be awarded for 2017-18, while others will be for 2018-19.; (*) Sovern/Columbia Affiliated Fellowship at the American Academy in Rome (2017-18 Academic Year): Deadline Monday, March 20, 2017; (*) Tsunoda Senior Fellowship Program at Waseda University in Tokyo (2017-18 Academic Year): Deadline Monday, March 20, 2017; (*) Alliance Visiting Professorships in Paris (2018-2019 Academic Year): Deadline Friday, June 30, 2017; Information on each of these programs is provided below.; [brought to our attention by] John H. Coatsworth; Provost; Applying for the 2017-18 Sovern/Columbia Affiliated Fellowship at the American Academy in Rome; Deadline: Monday, March 20, 2017; The American Academy in Rome [www.aarome.org] is a distinguished interdisciplinary center for advanced study that regularly houses about 75 scholars, many of them – like the Sovern Fellows – for periods of one to two months. Each year a full-time Columbia officer is selected as the Sovern/Columbia Affiliated Fellow. The Fellow receives a 4-6 week residency at the Academy which provides housing (single room with private bath); meals six days a week (lunch and dinner); the opportunity to participate in trips and tours organized for and by Academy Fellows; invitations to all Academy concerts, conferences, exhibitions, lectures, readings, and symposia; and access to all Academy scholarly resources, including the Library, Photographic Archive, Antiquities Collection and Archaeology Room. It is a non-stipendiary award, and the Fellow is responsible for all other costs associated with the fellowship, including travel and other living expenses.; The 4-6 week residency must be scheduled between September 11, 2017 and July 27, 2018.; The Sovern Fellow must be employed full-time at Columbia and can be a scholar or artist in any field, a curator, librarian or administrator. Individuals wishing to be considered for the 2017-18 or 2018-19 fellowship should submit a CV and a proposal of no more than two pages in length that: outlines what the applicant proposes to do in Rome; describes how the fellowship and the resources of the Academy will facilitate those endeavors; and gives the dates of the proposed residency.; The deadline for submitting applications for the Sovern Fellowship is Monday, March 20, 2017. Applications should be submitted to the Office of the Vice Provost for Academic Programs via e-mail at ovpap@columbia.edu; If you cannot access any of the links above, please visit the Provost website at http://provost.columbia.edu/.

DoD Lung Cancer Research Program Anticipated Funding

**Sponsor:** Department of Defense

**Deadline(s):** NA, Anticipated funding

**Contact:** Point of Contact: CDMRP Public Affairs; 301-619-9783; usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil

**Link(s):** For more information about the LCRP or other CDMRP-administered programs, please visit the CDMRP website [http://cdmrp.army.mil](http://cdmrp.army.mil)

**Additional Information:** DoD Lung Cancer Research Program Anticipated Funding; Here is another from DOD from their Lung Cancer Research Program (LCRP).; [forwarded to our attention by Stephanie Scott] DoD Lung Cancer Research Program Anticipated Funding; Defense Health Program; Department of Defense Lung Cancer Research Program; Anticipated Funding Opportunities for Fiscal Year 2017 (FY17); Due to the current Continuing Resolution, the Fiscal Year 2017 (FY17) Defense Appropriations bill has not been passed. Although funds have not been appropriated for the Department of Defense Lung Cancer Research Program (LCRP), the LCRP is providing the information in this pre-announcement to allow investigators time to plan and develop ideas for submission to the anticipated FY17 funding opportunities.; FY17 LCRP Program Announcements and General Application Instructions for the following award mechanisms are anticipated to be posted on Grants.gov in April 2017. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the Government, and funding of research projects received in response to these Program Announcements is contingent on the availability of Federal funds appropriated for the LCRP.; As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency (DHA), J9 Research and Development Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally
Directed Medical Research Programs (CDMRP); Applications submitted to the FY17 LCRP must address at least one of the seven Areas of Emphasis listed below: (*) Identify, develop, or optimize noninvasive or minimally invasive tools to improve the detection of the initial stages of lung cancer, such as, but not limited to, optimizing strategies for management of indeterminate nodules; (*) Identify, develop, and/or build upon already existing tools for screening or early detection of lung cancer. Screening may include, but is not limited to, imaging modalities, biomarkers, genetics / genomics / proteomics / metabolomics / transcriptomics, and assessment of risk factors; (*) Understand the molecular mechanisms of initiation and progression to clinically significant lung cancer; (*) Identify innovative strategies for prevention and treatment of early and/or localized lung cancer; (*) Understand predictive and prognostic markers to identify responders and nonresponders; (*) Understand susceptibility or resistance to treatment; (*) Understand contributors to lung cancer development other than tobacco; (*) Military Relevance: The FY17 LCRP seeks to support research that is relevant to the healthcare needs of military Service members, Veterans, and their families. Military relevance will be considered in determining relevance to the mission of the DHP and FY17 LCRP during programmatic review. Investigators are strongly encouraged to consider the following characteristics as examples of how a project may demonstrate military relevance: (*) Use of military or Veteran populations, biospecimens, data/databases, or programs in the proposed research; (*) Collaboration with Department of Defense or Department of Veterans Affairs (VA) investigators; (*) Involvement of military consultants (Army, Air Force) or specialty leaders (Navy, Marine Corps) to the Surgeons General in a relevant specialty area; (*) Description of how the knowledge, information, products, or technologies gained from the proposed research could be implemented in a dual-use capacity to address a military need that also benefits the civilian population; (*) Explanation of how the project addresses an aspect of lung cancer that has direct relevance to military Service members, Veterans, or other military health system beneficiaries, including environmental exposures other than tobacco; Concept Award: Investigators at all academic levels; Supports highly innovative, untested, potentially groundbreaking concepts in lung cancer; Emphasis on innovation; Clinical trials not allowed; Preliminary data discouraged; Military relevance strongly encouraged; Maximum funding of $100,000 in direct costs (plus indirect costs); Period of performance should not exceed 1 year; Career Development Award: Principal Investigator: Independent investigators at the level of Assistant Professor, Instructor, or equivalent; must be within 5 years of first faculty appointment; Mentor: At or above the level of Associate Professor (or equivalent); have a proven publication and funding record in lung cancer research; Supports early-career, independent researchers to conduct research under mentorship of an experienced lung cancer researcher; Clinical trials not allowed; Preliminary data not required; Military relevance strongly encouraged; Maximum funding of $250,000 in direct costs (plus indirect costs); Period of performance should not exceed 2 years; Idea Development Award: Established Investigators: Independent investigators at or above the level of Assistant Professor (or equivalent); or New Investigators: Investigators that meet the following criteria at the application submission deadline date: Have not previously received a LCRP Idea Development Award or Early Investigator Synergistic Idea Award; Are within 10 years of first faculty appointment (or equivalent); Supports new ideas in the early stages of development representing innovative, high-risk/high-gain research; Emphasis on innovation and impact; New Investigator category supports applicants early in their faculty appointments or in the process of developing independent research careers; Clinical trials not allowed; Preliminary data required, but may be from outside of lung cancer; Military relevance strongly encouraged; Maximum funding of $350,000 in direct costs (plus indirect costs); Period of performance should not exceed 2 years; Investigator-Initiated Translational Research Award: Independent investigators at or above the level of Assistant Professor (or equivalent); Supports translational research that will develop promising ideas in lung cancer into clinical applications. Translational research may be defined as an integration of basic science and clinical observations; This mechanism is intended to fund a broad range of translational studies, including, but not limited to, the following: Studies advancing/translating in vitro and/or animal studies to applications with human samples/cohorts; Late-stage preclinical work leading to/preparing for a clinical trial, e.g., Investigational New Drug submission; Correlative studies that are associated with an ongoing or completed clinical trial and projects that develop endpoints for clinical trials; Preliminary data required, but may be from outside of lung cancer; Military relevance strongly encouraged; Maximum funding of $400,000 in direct costs (plus indirect costs); Period of performance should not exceed 2
years; Translational Research Partnership Award; Investigators at or above the level of Assistant Professor (or equivalent); Supports partnerships between clinicians and laboratory scientists that accelerate ideas in lung cancer into clinical applications; One partner must be from either a Military Treatment Facility or a VA medical center; Non-Traditional Partnerships are encouraged Small-scale clinical trials allowed; Preliminary data required, but may be from outside of lung cancer Military relevance strongly encouraged; Maximum combined funding of $900,000 for direct costs (plus indirect costs); Maximum period of performance is 3 years; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420; Applications must be submitted through the federal government’s single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. For email notification when Program Announcements are released, subscribe to program-specific news and updates under “Email Subscriptions” on the eBRAP homepage at https://eBRAP.org. FY17 NFRP Program Announcements and General Application Instructions for the following award mechanisms are anticipated to be posted on the Grants.gov website in May 2017. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the Government, and funding of research projects received in response to these Program Announcements is contingent on the availability of Federal funds appropriated for the NFRP.; Areas of Emphasis: The NFRP encourages applications that specifically address the critical needs of the NF community in one or more of the FY17 Areas of Emphasis. Not all Areas of Emphasis are applicable to each award mechanism offered by the FY17 NFRP. If
The proposed research project does not address one of the FY17 Areas of Emphasis, justification that the proposed research project addresses an important problem related to NF research and/or patient care should be provided; Health services research; (*) Evidence-based clinical care pathways; (*) Innovative healthcare delivery systems; (*) Utilization of technology and informatics; Heterogeneity of neurofibromas and other NF-related tumors; Nontumor manifestations; (*) Sleep, pain, hypotonia, communication, etc., including quality of life measures, self-reported and otherwise; Novel disease and treatment response markers using genomics, epigenetics, systems biology, metabolomics, or similar approaches; (*) Transition from benign to malignant; Nutritional, environmental, and other modifiers of NF; Post-adolescent manifestations; Preclinical efficacy studies; Target identification, drug discovery, targeted and immunotherapies; Other; Clinical Trial Award; (*) Independent investigators at or above the level of Assistant Professor (or equivalent); (*) Fund Phase 0, I, or II clinical trials relevant to NF and/or schwannomatosis; combinations of phases are permitted; (*) Funding must support a clinical trial and may not be used for preclinical studies; (*) Scientific rationale and preliminary data required for Phase I, II clinical trial applications; (*) Maximum funding of $900,000 for direct costs (plus indirect costs); (*) Maximum period of performance is 4 years; Exploration – Hypothesis Development Award; (*) All academic levels (or equivalent); (*) Fund the initial exploration of innovative, high-risk, high-gain and potentially groundbreaking concepts in NF research; (*) Projects involving human subjects or human biological substances must be exempt under 32 CFR 219.101(b) or eligible for expedited review under 32 CFR 219.110 or 21 CFR 56.110; (*) Preliminary and/or published data is encouraged but not required; (*) Clinical trials not allowed; (*) Maximum funding of $100,000 for direct costs (plus indirect costs); (*) Maximum period of performance is 2 years; Investigator-Initiated Research Award; (*) Independent investigators at or above the level of Assistant Professor (or equivalent); (*) Fund highly rigorous, high-impact research projects that have the potential to make an important contribution to NF research and/or patient care; (*) Optional Feature: Applications that include a Qualified Collaborator who meets criteria identified in the announcement may apply for a higher level of funding; (*) Preliminary and/or published data required; (*) Clinical trials not allowed; (*) Maximum funding of $525,000 for direct costs (plus indirect costs); (*) Maximum funding of $575,000 for direct costs (plus indirect costs) for applications including an Optional Qualified Collaborator; (*) Maximum period of performance is 3 years; New Investigator Award; (*) Independent investigators at or below the level of Assistant Professor (or equivalent) or an established investigator at or above the level of Assistant Professor seeking to transition into a career in NF research; (*) Support the continued development of promising independent investigators and/or the transition of established investigators into a career in the field of NF research; (*) Experience in NF research is allowed, but not required; (*) Preliminary and/or published data required; (*) Clinical trials not allowed; (*) Maximum funding of $450,000 for direct costs (plus indirect costs); (*) Maximum period of performance is 3 years; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Applications must be submitted through the federal government’s single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. - **Letter of Intent Deadline**: 5/20/2017
- **Decision Date**: 10/2017

We invite the submission of ideas for a translational cancer research project that will address critical problems in pancreatic cancer and positively impact patients in the near future, with the goal of advancing innovative approaches to prevent or intercept the disease-causing process, and making data available in a format amenable to open access analytics. Prioritized areas of interest include both applied and fundamental research including: The discovery and implementation of innovative methods that effectively detects pancreatic cancer at an early and surgically curable stage; new tools for monitoring disease progression and therapeutic response, which could potentially serve as surrogate endpoints for clinical trials and regulatory approval; investigation of novel chemoprevention or immune prevention approaches; the development of risk prognostication methods for pre-invasive pancreatic neoplasms and other conditions that elucidates the molecular details underlying that increased risk; the understanding of immune suppression and inflammation mechanisms that promote pancreatic cancer and the design of methods to circumvent this; and more generally research targeted at generating sufficient knowledge to justify a clinical intervention to test novel hypotheses related to early detection and treatment of pancreatic cancer.

This proposed project is expected to benefit patients through investigation by a multidisciplinary, multi-institutional, synergistic Dream Team of expert investigators. Priority will be given to applications that are characterized by a diversity of team members, including those from fields outside the traditional realms of biomedical research (e.g. physics, mathematics, engineering, health policy, and communications). Specific aims of the project may include basic research, translational studies, and population studies but the overall proposal must have a strong clinical research component. Proposals for this Dream Team research project must present plans indicating how the work will be translated into clinical application. The concepts will be evaluated on innovation, feasibility, opportunities for success and further development, including improved long-term outcomes for patients.

Letters of Intent will be reviewed by the SU2C-Lustgarten Foundation Joint Scientific Advisory Committee (JSAC), and Teams with the most promising idea submissions will be invited to submit full proposals. The JSAC will select an SU2C-Lustgarten Foundation Pancreatic Cancer Interception Dream Team from the invited proposals. The SU2C-Lustgarten Foundation Pancreatic Cancer Interception Dream Team will be awarded up to $7 million over the four-year term of the grant.

Through a partnership with leading health care research and innovation collaborative OptumLabs, each team will...
have the ability to conduct research using OptumLabs’ proprietary database of de-identified claims and electronic health record data, analytic tools, and research support to pursue the proposed goals of the Dream Team. Collaboration with OptumLabs is optional, and anticipated participation should be delineated as part of the research proposal narrative in the Letter of Intent. OptumLabs will be conducting information sessions in late February for applicants who are interested in learning more about the OptumLabs Data Warehouse. A non-disclosure agreement will be required to participate in these sessions. If you would like more information or to register to attend, please email proposals.optumlabs@optum.com by February 15, 2017 and include your name, institution and dream team leader name. OptumLabs will contact interested parties about next steps, including dates and times of the information sessions; Letter of Intent Instructions: Letters of Intent must be submitted by 12:00 p.m. (noon) U.S. Eastern Time on March 22, 2017, using the proposalCENTRAL website at https://proposalcentral.altum.com; GETTING STARTED IN proposalCENTRAL; If you are a new user of proposalCENTRAL, follow the “REGISTER” link and complete the registration process. Dear fellow members of the Columbia Community:

I am pleased to share an upcoming set of funding opportunities for Columbia faculty aiming to integrate new educational methods and technologies into their classrooms and learning environments.

Please forward this reminder (see details below) to faculty and colleagues:

Soulaymane Kachani; Vice Provost for Teaching and Learning; Request for Proposals for the Provost's Online and Hybrid Learning Grants; Dear colleagues:

I am writing to remind you of two funding opportunities for Columbia faculty aiming to integrate new educational methods and technologies into their classrooms and learning environments. Please forward this reminder (see details below) to faculty in your school/department.

The Center for Teaching and Learning (CTL) will hold open office hours on Friday, March 10, 1pm - 5pm in Butler 212 for faculty members who are interested in the Provost's Request for Proposals for online and hybrid learning grants. Faculty members are welcome to walk in and receive consultation and feedback on their projects and applications. They can also schedule one-on-one consultations by emailing ColumbiaCTL@columbia.edu.

I would like to invite you to attend the Celebration of Teaching and Learning Symposium (RSVP here) on Monday, March 6 in Low Memorial Library. The day's agenda kicks off at 2:00 PM with panels and breakout sessions featuring innovative faculty and graduate student instructors at Columbia, including the Provost's previous Hybrid Learning Course Redesign and Delivery awardees.

Thank you.

Best regards,

Elizabeth

Thank you.
Columbia courses offered through MOOC platforms continue to attract and reach a large global learning community, stimulate curiosity and intellectual exploration, make teaching and research activities at the University more visible, and promote public engagement and dialogue through our open online courses. While the experience of developing and offering these courses can be rewarding, MOOCs require substantial time to prepare. Accepted courses will receive consultation services and hands-on support for instructional design and media production from the CTL. A limited number of grants of up to $25,000 each will be awarded. The deadline for submission of applications is Monday, April 24, 2017. The link to apply for the Request for Proposals for MOOCs is available here. The CTL will be holding a town hall on Tuesday, January 31st at 2pm in Butler 212 to give interested faculty members more information about the two RFPs and the application process. It will also hold open office hours the week of March 6, 2017 including Friday, March 10, 1pm - 5pm in Butler 212 where interested faculty members can walk in and receive consultation and feedback on their projects and applications. Finally, you can learn more about prior supported projects and interact with previous awardees at the Celebration of Teaching & Learning Symposium on Monday, March 6, 2017 in Low Library; Please visit online.columbia.edu to get an overview of Columbia’s initiatives and resources in teaching and learning and online education; We look forward to continuing to support Columbia faculty as they develop new and exciting ways to enhance teaching and learning at the University on campus and around the world.; John H. I’ll provide a separate email with this information.; Should you have any questions, please feel free to reach out to your SPA Project Officer. [brought to our attention by Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system.; Highlights of ASSIST’s January Software Release; (*) New Access Maintainer Role; (**) A new role called “ASSIST.ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (**) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization.; (**) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (**) Access Management within ASSIST for individual applications has not changed.; (*) Multi-Employment Functionality; (**) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (**) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate account and click the "Select” button.; (*) New Link for SOs from ASSIST to Commons Status Screen; (**) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page.; (**) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed.; (**) This link is only available to Signing Officials.; (*) A Warning if Appendix Material is Submitted in Applications; (**) Per the policy outlined in [NOT-OD-16-129](https://grants.nih.gov/grants/rppr/NOT-OD-16-129.html), the submission of most appendix materials has been eliminated from NIH applications.; (**) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (*) Form Lock Message Includes User Name; (**) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (**) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock.; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (**) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included.; (**) Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (*) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a provided picture has been linked at]: [https://r2eport.files.wordpress.com/2014/04/nihannouncementpicinpdfformat.pdf](https://r2eport.files.wordpress.com/2014/04/nihannouncementpicinpdfformat.pdf); *New Status Information screen with some sections expanded, other collapsed*.; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; (§) Expand All (default view).

Who At NIH Can Answer my Question About….?

**Contact:** Please see posting for individual contact links  
**Link(s):** https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm  
**Additional Information:** Contacting Staff at the NIH Institutes and Centers; In today's NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH's Center of Scientific Review. It explains each role's responsibility, when it is appropriate to contact them, and where to find their contact information.; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016  
**Sponsor:** NA  
**Deadline(s):** 07/01/2016 (effective)

Contact: Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.  
**Link(s):** http://spa.columbia.edu/proposals/institutional-information  
**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of  
**Sponsor:** NIH

**Additional Information:** Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc).; Anyone who started a grant application for any of these fellowship...
opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by Stephanie Scott, SPA Communications and Outreach Director, sfs2110]; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106).; (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cuminss@mail.nih.gov; 301-496-3405;

Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;
Sponsor: NIH; Extramural Nexus Blog;
Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;
Contact: Please see appropriate links;
Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still
using the standard downloadable forms; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.

Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;
Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;
Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csrdr@mail.nih.gov; [Link(s)](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html);

**Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: 

- (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); 
- (*) Study Section or Special Emphasis Panel Requests, both positive and negative; 
- (*) List of potential reviewers in conflict, and why; 
- (*) List of scientific expertise needed to review the application; 
The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);

**NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016**

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; 
**Deadline(s):** Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016; 
**Contact:** Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714; 

**Additional Information:** This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: 

- (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); 
- (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); 
- (*) Line spacing: must be no more than six lines per vertical inch; 
- (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements: 

* Arial; 
* Garamond; 
* Georgia; 
* Helvetica; 
* Palatino Linotype; 
* Times New Roman; 
* Verdana; 

Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

**Inclusion of Children in Clinical Research: Change in NIH Definition;**

**Sponsor:** National Institutes of Health; 
**Deadline(s):** NA Release Date: 10/13/2015;

For more information on the child inclusion policy: [https://grants.nih.gov/grants/funding/children/children.htm](https://grants.nih.gov/grants/funding/children/children.htm); 

**Additional Information:** The purpose of this notice is to notify NIH applicants/approves and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical...
Deadline(s): Deadline(s) to consider when reviewing applications: Due dates on or after January 25, 2016 and beyond.

Research Grant Applications:

Implementation Rigor and Transparency in NIH & AHRQ Career Development Award Applications;

Research Grant Applications:

Implementation Rigor and Transparency in NIH & AHRQ Career Development Award Applications;

Additional Information:

This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/or before January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.

Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Dear fellow members of the Columbia community, Now in its 12th year, the University’s Faculty Diversity Initiative continues to support our core values of inclusion and excellence. The Provost’s Grants Program for Junior Faculty Who Contribute to the Diversity Goals of the University is a key component of Columbia’s ongoing commitment to maintaining a diverse and thriving faculty body. I am pleased to write today to announce the Fall 2016 awardees of the Junior Faculty Diversity Grants program. Grantees were selected through a competitive process, with all applications reviewed by a committee of faculty from both the Morningside and Medical Center campuses.; This most recent round of funding follows seven prior rounds of support from this program. Since the Junior Faculty Diversity Grant was launched in 2013 it has supported eighty-two projects across the university. Information on the program and the previous rounds of funded projects can be found here.; Please join Vice Provost for Faculty Diversity and Inclusion Dennis A. Mitchell and me in congratulating the recipients of these grants.; John H. Coatsworth; Provost; List of Awardees-Fall 2016: (*) Localization of Stored Platelets to Sites of Active Bleeding Following Transfusion; Richard Francis; Assistant Professor of Clinical Pathology; College of Physicians and Surgeons; (*) In Vivo Imaging of Lung Apoptosis in Alpha-1 Antitrypsin Deficiency; Monica Goldklang; Assistant Professor of Medicine (in Anesthesiology); College of Physicians and Surgeons; (*) The Role of Essentialism in Social Perception; Larisa Heiphetz; Assistant Professor of Psychology; Faculty of Arts and Sciences; (*) Tools for Manipulating the Mechanical Forces that Drive Morphogenesis; Karen Kasza; Assistant Professor of Mechanical Engineering; Fu Foundation School of Engineering and Applied Science; (*) Infant Gastrointestinal Tract Microbiome Dysbiosis and its Impact on CD8+ T Cell Gene Transcription Regulation; Esi Lamousé-Smith; Assistant Professor of Pediatrics; College of Physicians and Surgeons; (*) Mapping Asian Diasporic Performances of Race, Gender and Nation; Ana Paulina Lee; Assistant Professor of Latin American and Iberian Cultures; Faculty of Arts and Sciences; (*) Molecular Changes Related to Infections and Relevant to Pubertal Timing; Jasmine McDonald; Assistant Professor of Epidemiology; Mailman School of Public Health; (*) Intimate Contract: Queer Attachment, Risk and the Word of Law; Tey Meadow; Assistant Professor of Sociology; Faculty of Arts and Sciences; (*) DISTANCED: Intersectionality & Gendered Experience of American Urban Space; Leah Meisterlin; Assistant Professor; Graduate School of Architecture, Planning and Preservation; (*) Textiles, Migration and Trade in Painting;

NIH seeks research applications to study Zika in pregnancy, developing fetus;
Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment; Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

**Additional Information:** Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe; it’s critical to bear in mind what our public health and infectious disease experts have emphasized—that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;

CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs: The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfss2110@columbia.edu; Website: http://spa.columbia.edu;
Link(s): NOT-OD-13-097;
http://spa.columbia.edu;
Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains...
Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf ; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; Sponsor: NIH; Deadline(s): Starting in October 2014; Contact: Stephanie F. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should
be completed. Beginning on **October 1, 2014**, those fields in the eRA Commons screens will be **required** for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at [SPA-eBiz@columbia.edu](mailto:SPA-eBiz@columbia.edu). In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at [eRA Commons Manage Personal Profile](http://era.nih.gov/era-frontend/personal-profile-family); RPPRs will be required for all Type 5 non-SNAP progress reports beginning **October 17th, 2014** (the paper PHS 2590 forms are being phased out). **Additional Information:** Formula for Innovation: People + Ideas + Time; Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. ... We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. ... Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, R01, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you; Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;
Deadline(s): Open Ended;

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that,
beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University's IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program. Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons; TAY-SACHS DISEASE

[NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
**Sponsor:** NIH eRA Commons IDs and Complete Profiles;
**Deadline(s):** Starting in October 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
**Link(s):** eRA Commons Manage Personal Profile; [http://era.nih.gov/reg_accounts/manage_personal_profile.cfm](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm);

**Additional Information:** Complete Profiles Required for Students and Postdocs: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at [eRA Commons Manage Personal Profile](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm). If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at [SPA-eBiz@columbia.edu](mailto:SPA-eBiz@columbia.edu).

The Research Performance Progress Report (RPPR);
**Sponsor:** NIH;

**Deadline(s):** starting October 17, 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
**Link(s):** NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
**Additional Information:** The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning **October 17th, 2014** (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/). Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; **Stephanie F. Scott, M.S., CRA;** Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/). This is a reminder that beginning **October 2014**, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at [NOT-OD-13-097](http://grants.nih.gov/grants/rppr/). Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on **October 1, 2014**, those fields in the eRA Commons screens will be **required** for individuals identified in any of those three roles. If you
have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at spa-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/pppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. NIH eSubmission Items of Interest

REVISED: New Biosketch Format Required 5/25/15; Sponsor: NIH; Deadline(s): 5/25/15; (The requirement is no longer January 25, 2015); Contact: Grants Information Office of Extramural Research (OER) National Institutes of Health (NIH) Phone: 301-435-0714; Email: GrantsInfo@nih.gov; As always, [also] feel free to contact your assigned Project Officer in Sponsored Projects Administration (SPA) should you have any questions.; Stephanie F. From Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically
validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-Competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP
progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it's official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, ... Continue reading →

You Ask, We Answer:

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications: Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy
details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantees, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0I3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;

Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; * These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices
created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**Additional Information:** JUST RELEASED! FY16 DOD BCRP, PRP, PRARP and ERP Program Announcements;

This e-mail is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities for the Department of Defense (DOD) Breast Cancer Research Program (BCRP), Parkinson’s Research Program (PRP), Peer Reviewed Alzheimer’s Research Program and Epilepsy Research Program (ERP) managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Breast Cancer Research Program; Breakthrough Award Levels 3 and 4; NOTE: A Breakthrough Award Levels 1 and 2 Program Announcement will be released in late August 2016.; Parkinson's Research Program (formerly known as the Neurotoxin Exposure Treatment Parkinson's Research (NETPR)); Focused Idea Award; Impact Award; Peer Reviewed Alzheimer’s Research Program; Convergence Science Research Award; Quality of Life Research Award; Epidemiology of Military Risk Factors Research Award; Translational Research Partnership Award; Epilepsy Research Program; Idea Development Award; Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org).

All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; Please do not respond directly to this message. **Additional Information:** Department of Defense Peer Reviewed Cancer Research Program; Funding Opportunities for Fiscal Year 2016 (FY16); The FY16 Defense Appropriations Act provides $50 million (M) to the Department of Defense Peer Reviewed Cancer Research Program (PRCRP) to support innovative, high-impact cancer research. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency, Research, Development, and Acquisition (DHA RDA) Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation

(RDT&E) appropriation. The managing agent for the anticipated Program Announcements/ Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP); FY16 PRCRP Program Announcements and General Application Instructions for the following award mechanism is posted on the Grants.gov website; Congressionally Directed Topic Areas: To be considered for funding, applications for the FY16 PRCRP must address at least one of the Topic Areas as directed by Congress. Research applications in the areas of breast, prostate, lung (excluding mesothelioma), or ovarian cancer will not be accepted.; The FY16 PRCRP Topic Areas are: Bladder cancer (New for FY16); Liver cancer; Pancreatic cancer; Colorectal cancer; Lymphoma (New for FY16); Pediatric Brain Tumors (New for FY16); Immunotherapy* (New for FY16); Melanoma and other skin cancers; Stomach cancer; Kidney cancer; Mesothelioma; Listeria vaccine for cancer; Neuroblastoma; *As derived from the National Cancer Institute Dictionary of Cancer terms: Immunotherapy is a type of biological therapy that uses substances to stimulate or suppress the immune system to help the body fight cancer. Cancers studied under this topic area should be within the scope of the Congressional language and the intent of the Program Announcement(s).; The FY16 PRCRP Military Relevance Focus Areas are: To address the cancer health needs of both deployed and non-deployed personnel, their dependents, retirees, and Veterans, the FY16 PRCRP seeks to support studies that are responsive to the Military Relevance Focus Areas listed below: (*) Militarily relevant risk factors associated with cancer (e.g., ionizing radiation, chemicals, infectious agents, and environmental carcinogens); (*) Gaps in cancer prevention, screening, early detection, diagnosis, treatment, and/or survivorship that may affect the general population but have a particularly profound impact on the health and well-being of military members, Veterans, and their beneficiaries; Applications that address exposures, conditions, or circumstances that are unique to the military, or disproportionately represented in a military beneficiary population, are the highest priority, though any applications that address the above focus areas will be considered.; http://cdmrp.army.mil/funding/prcrp.shtml;

Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.

Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included: (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form –
