NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

[NTW] WEEKLY HIGHLIGHT; PILOT STUDIES; NUTRITION; OBESITY; INFORMATION SESSION; FOUNDATION FUNDING; LIMITED SUBMISSION; EARLY INDEPENDENCE AWARD; BREAT CANCER; REMINDER; PARKINSON’S DISEASE; CARDIOVASCULAR; K-AWARDS; BIG DATA; MATERNAL AND CHILD HEALTH; NCI’S PROVOCATIVE QUESTIONS; USAID; INFLUENZA; CENTER GRANTS; SUBSTANCE USE DISORDERS; HIV; ENTREPRENEURSHIP; COURSE; DIVERSITY; ACADEMIC RESEARCH; SMOKING CESSATION; RESEARCH SCHOLARS; ALZHEIMER’S DISEASE; GENOMICS; CANCER; NEUROSCIENCE; MENTAL HEALTH; AWARD; SUICIDE PREVENTION; FOOD AND DRUG ADMINISTRATION; TRANSLATIONAL; DEPARTMENT OF DEFENSE; EXPLORATORY / DEVELOPMENTAL RESEARCH; SMALL RESEARCH GRANT; RESEARCH PROJECT GRANT; ASPPH; ASPPH WEEKLY NEWSLETTER; STANDARD DUE DATES; RESEARCH RESOURCES INFORMATION SESSIONS;

[NTW] [WEEKLY HIGHLIGHT/PILOT STUDIES/NUTRITION/OBESITY] Title: Pilot and Feasibility grants to support obesity-related research;

Sponsor: New York Obesity Nutrition Research Center (NYONRC);
Deadline(s): 05/09/2016 (LOI); 06/13/2016 (Complete Application, if requested);
Contact: Letters of intent should be addressed and e-mailed to: Judith Korner, MD, PhD; Director for Pilot & Feasibility Program; c/o Bernadette Spina; bs2839@columbia.edu;
Link(s): https://r2eport.files.wordpress.com/2014/04/nyonrc-pf-announcement.pdf;

Additional Information: The New York Obesity Nutrition Research Center (NYONRC) announces the availability of Pilot and Feasibility grants to support obesity-related research.; Eligibility: Three types of applications will be considered: (1) Proposals from Assistant Professors or Postdoctoral Fellows transitioning to FACULTY STATUS to carry out preliminary studies to be used for an NIH grant application. Applicants with prior funding through this or similar programs, graduate students, or Postdoctoral Fellows in their first 2 years, should not apply; (2) Proposals for innovative/high risk projects by established investigators in the field of obesity/ingestive behavior. Continuation of current work is not eligible; (3) Proposals from established investigators, without prior funding in obesity, who wish to undertake an obesity-related project.; Please note that graduate students and post-doctoral fellows in their 1st and 2nd year are NOT eligible to apply. ; Support: Applicants may request up to $50,000 per year for one year. Indirect costs are NOT applicable. A second year of funding may be considered based on demonstrated progress and availability of funds. The awards can be used for salary support and/or research expenses. Each proposal will be reviewed by two experts.; Deadlines: Letter of Intent: May 9, 2016; Completed application (if requested): June 13, 2016; Letter of intent: Please email a 1 page non-binding letter of intent stating the applicant’s name, campus address, title of project and brief outline of the proposed research, as well as other
pertinent information, such as current use of NYONRC facilities and current obesity-related funding. Append an NIH-type biographical sketch. Please submit the entire letter of intent as a single PDF file.; Letters of intent should be addressed and e-mailed to: Judith Korner, MD, PhD; Director for Pilot & Feasibility Program; c/o Bernadette Spina; bs2839@cumc.columbia.edu; Upon approval of the letter of intent, applications will receive an invitation to apply for funding.; Application: We use a simplified PHS 398 form for P&F applications. Complete the front page as usual; approval from Grants & Contracts Office is not required. ; (*) Use the five-page NIH biosketch format for all key personnel.; (*) The research plan should be limited to five (5) single-spaced pages, using 12-point type. Literature Cited and Budget are not included in space limitations.; (*) Please submit the entire application as a single PDF file.; (*) Where appropriate IACUC or IRB approval will need to be obtained prior to release of funds; Background: Provide a brief background and rationale for the proposed study. If available provide any preliminary data.; Specific Aims: State concisely the objectives of the proposed research and summarize the expected outcome(s), including the impact that the results of the proposed research will exert on the research field(s) involved. Specific objectives of the proposed research may include but are not limited to the following: to test a stated hypothesis, create a novel design, solve a specific problem, challenge an existing paradigm or clinical practice, address a critical barrier to progress in the field, or develop new technology.; Research Strategy: Organize the Research Strategy in the specified order using the instructions provided below. For each Specific Aim, include a description of: Significance, Innovation, and Approach. (a) Significance (*) Explain the importance of the problem or critical barrier to progress in the field that the proposed project addresses.; (b) Innovation: (*) Explain how the application challenges and seeks to shift current research or clinical practice paradigms.; (*) Describe any novel theoretical concepts, approaches or methodologies, instrumentation or intervention(s) to be developed or used, and any advantage over existing methodologies, instrumentation or intervention(s).; (c) Approach (*): Experimental Design (**) Briefly describe experimental design and methods.; (*) Statistical Analysis; (**) Briefly describe statistical methods that will be used for data analysis. If appropriate provide power analysis.; (*) Provide brief interpretation of expected results; Additional Information (*) Describe plans for seeking future funding after completion of this proposal; Literature Cited (*) References should be cited in this section; Budget (*) Provide a breakdown of how funds will be allocated in general categories such as salary support, reagents, etc.;

[NTW] [WEEKLY HIGHLIGHT/INFORMATION SESSION/FOUNDATION FUNDING] Title: Funding Opportunity and Information Session: Sanofi Innovation Awards;
Sponsor: Sanofi;
Deadline(s): 05/09/2016; Monday, May 9, 2016 from 4:00 PM to 6:30 PM (EDT) - Add to Calendar
05/13/2016 (pre proposal); Columbia University pre-proposals should be submitted to techventures@columbia.edu by 11:59pm on May 13.; REGISTER HERE;
Contact: Questions about the event or the Sanofi Innovation Awards (iAwards) program should be directed to techventures@columbia.edu.;
Link(s): You must register for this information session. Details can be found here: http://bit.ly/1rx3k8a and below;
Monday, May 9, 2016 from 4:00 PM to 6:30 PM (EDT) - Add to Calendar;
Additional Information: Dear Faculty and Fellows, I am sending this funding opportunity announcement and special event on behalf of Columbia Technology Ventures (CTV). Questions about the event or the Sanofi Innovation Awards (iAwards) program should be directed to techventures@columbia.edu. You must register for this information session. Details
can be found here: http://bit.ly/1rx3k8a and below. This program offers opportunities for a wide range of therapeutic areas, so I highly recommend you take a look at the pre-proposal criteria below and consider registering for the event. Learn about eligibility requirement, areas of interest, and more at this info session for the Sanofi Innovation Awards. Scientists from Sanofi’s therapeutic units as well as representation from Columbia Technology Ventures will be available to answer any questions about the application process. More information about the program (pre-proposal due May 13) can be find below.

Columbia University pre-proposals should be submitted to techventures@columbia.edu by 11:59pm on May 13.

WHEN: Monday, May 9, 2016 from 4:00 PM to 6:30 PM (EDT) - Add to Calendar; WHERE: Columbia University Faculty House, Skyline Dining Room - 64 Morningside Dr, New York, NY 10027 - View Map; REGISTER HERE; Attendees from Sanofi include: (*) James Burns, Head, N. America Hub; (*) Karen Chandross, Senior Director, Strategic Initiatives and Scientific Relations; (*) Seng Cheng, Global Head of Research, Rare Diseases; (*) Brendan Classon, Director, External Science & Partnering, Immunology; (*) Michael Draper, Senior Director, External Science & Partnering; (*) Andrea Edling, Associate Director, Neuroimmunology Research; (*) El-Bdaoui Haddad, R & D Director, Bio Innovation Group; (*) Amita Joshi, Alliance Manager, Sanofi iAwards Program; (*) Sridaran Natesan, VP of Strategic Initiatives and Scientific Relations, N. America; (*) Abraham Scaria, Head of Gene Therapy Research, Rare Disease Therapeutic Area; (*) Timothy Soos, Head of the Immune Tolerance Cluster, Immunology Research Therapeutic Area; (*) Christopher Winter, Head of Discovery Biology, Sanofi Oncology; Sanofi is a leading global healthcare company engaged in bringing innovative therapeutic solutions to meet the needs of patients.; The Sanofi Innovation Awards (iAwards) program was created in 2015 to:

(*) Identify and help develop innovative and translational research proposals that could lead to the development of effective and safer therapeutic solutions for patients;

(*) Provide one year seed funding of $125,000 to each selected proposal, a dedicated Sanofi project champion, in-kind resources and expertise deemed necessary by Sanofi;

(*) Build strong relationships within each partner institution to identify early research projects aligned with Sanofi’s strategic areas of interest;

Sanofi’s main objective in creating the iAwards program is to convert successful and promising iAward projects to sponsored research programs and subsequently create in-licensing and start-up opportunities with the potential to continuously enrich Sanofi’s early stage portfolio. The funding level and duration for iAwards which are chosen for conversion into sponsored research projects will be based on the project needs.

In 2015, the Joint Scientific Steering Committee (JSSC) awarded twenty-four awards which are currently ongoing. We expect to provide funding for up to 24 proposals in 2016.

Therapeutic Areas of Interest and Pre-proposal Criteria: The second round of the iAwards Program will focus on proposals within the following therapeutic areas - Cardiovascular Diseases, Diabetes, Immune diseases, Inflammation, Multiple Sclerosis, Oncology and Rare Genetic Diseases. Proposals must provide objectives and work-plan achievable in 12 months and strong rationale for benefit to patients.

Criteria for Pre-proposals within these therapeutic areas include:

(*) New and actionable knowledge about disease relevant targets, pathways and mechanisms;

(*) Early stage compounds or biologics targeting novel disease mechanisms;

(*) New models for validating disease relevant targets;

(*) Technology platforms with the potential to significantly improve drug discovery and development;
[NTW] [NUTRITION/OBESITY] **Title**: Nutrition Obesity Research Centers (NORCs) (P30) Grant;  
**Sponsor**: HHS; Department of Health and Human Services; National Institutes of Health;  
**Deadline(s)**: 11/23/2016;

[NTW] [LIMITED SUBMISSION/EARLY INDEPENDENCE AWARD] **Title**: NIH Director’s Early Independence Awards (DP5);  
**Sponsor**: NIH Director;  
**Deadline(s)**: 06/08/2016 (INTERNAL PROPOSAL DUE: 9:00 A.M. ON WEDNESDAY, JUNE 8, 2016); Sponsor Letter of Intent deadline – August 12, 2016; Sponsor Proposal deadline – September 12, 2016;  
**Contact**: Please PDF all items of the internal proposal in one document and email to gcc19@columbia.edu with a cc: to mb3952@columbia.edu by no later than 9:00 A.M. on Wednesday, June 8, 2016. The subject heading of the email should be "NIH Director’s Early Independence Awards".; For detailed information regarding eligibility and application guidelines, please read the Request for Proposals by linking to this URL: [http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-16-006.html](http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-16-006.html); Please direct questions to gcc19@columbia.edu or 212-854-6285.;  

**Additional Information**: Limited Submission;  
**RFA-RM-16-006**: INTERNAL PROPOSAL DUE: 9:00 A.M. ON WEDNESDAY, JUNE 8, 2016; IMPORTANT: Applicants must meet one of the following requirements to be eligible.; (1) Received a terminal doctoral degree, or completed a medical residency between September 12, 2015 and September 12, 2016; OR; (2) Will complete all requirements for a doctoral degree, or complete a medical residency between September 12, 2016 and September 12, 2017.; WHAT: The NIH Director’s Early Independence Awards provide an opportunity for exceptional junior scientists to accelerate their entry into an independent research career by forgoing the traditional post-doctoral training period. Though most newly graduated doctoral-level researchers would benefit by post-doctoral training, a small pool of outstanding junior investigators would benefit instead by launching directly into an independent research career. For these select investigators, who have established a record of scientific innovation and research productivity and who have demonstrated unusual leadership, drive, and maturity, post-doctoral training would unnecessarily delay their entry into performing independent research. The NIH Director’s Early Independence Awards also provide an opportunity for institutions to invigorate their research programs by bringing in the fresh perspectives of the awardee scientists that they host.; At the time of application, the Early Independence Award candidate must be within twelve months before or after the completion of their PhD (or equivalent) or for clinicians within twelve months before or after the completion of their medical residency (or equivalent) training. The medical fellowship period is NOT included as part of the medical residence or equivalent training. The date of degree receipt is that which appears on the official transcript for the degree. In addition, at the time of application, the Early Independence investigator must not have served as a post-doctoral fellow following a previous doctoral degree for more than one year. By the end of the award period, the Early Independence investigator is expected to be competitive for continued funding of his/her research program and for a permanent research position.; Applicants may request as much as $250,000 in direct costs per year, plus applicable Facilities and Administrative costs, for a five year period. Individuals must commit at least 9.6 person-months (80% effort) during the first two years of the project period to research supported by the Early Independence Award. In the final three years of the project period,
awardees may reduce effort toward the Early Independence Award, but the total effort towards independent research must still be at least 9.6 person-months (80% effort).; WHO: The following eligibility terms apply.: (*) At the time of application, the individual (Early Independence Researcher) must meet one of the two following eligibility requirements: (1) Must have received a terminal doctoral degree or completed medical residency within the preceding 12 months (between September 12, 2015 and September 12, 2016); OR; (2) Must complete all the requirements for a doctoral degree or complete a medical residency within the following 12 months (between September 12, 2016 and September 12, 2017); (*) Research independence at time of application: Individuals are eligible only if they, at the time of application submission, do not have research independence. Lack of research independence is defined functionally rather than by position title. Eligible individuals must have all the following characteristics: (1) The candidate's current research agenda is set through concurrence with mentors.; (2) The candidate's research is funded primarily through support to other investigators (mentored fellowships such as NIH F31/F32 Fellowships or NSF Graduate Research Fellowships do not preclude eligibility).; (3) The candidate does not have any space assigned directly by the institution for the conduct of his or her research.; (4) The candidate, according to institutional policy, cannot apply for an NIH R01 grant without special waiver or exemption from the institution.; WHEN: Internal Proposal deadline – 9:00 a.m. on Wednesday, June 8, 2016; Sponsor Letter of Intent deadline – August 12, 2016; Sponsor Proposal deadline – September 12, 2016; HOW: The internal proposal must include the following components.: PI (Early Independence Researcher) must provide: (*) Research challenge (3-page maximum): What is the scientific challenge that you wish to address in your research? Why is this challenge significant to the biomedical/behavioral research community? What is the expected impact of your research on this challenge? Why did you choose this particular challenge to begin your independent research career?; (*) Approach (2 page maximum): What is your experimental approach in addressing your research challenge? What is the logic that makes this scientifically compelling?; (*) Innovation (1 page maximum): What are the particularly innovative aspects of your proposed research?; (*) NIH Biosketch (2 page maximum); (*) List of achievements as a graduate student; Sponsoring Department / Faculty must provide: (1) Title Page with the following: (*) PI (Early Independence Researcher) name and contact information; (*) Department/Faculty contact person (name, title, department and contact information); (2) Summary of support for proposed Early Independence Researcher: (*) Describe in detail the position into which the Early Independence Investigator will be appointed and how the candidate's independence will be protected during the course of the award.; (*) Describe details of the laboratory space to be provided to the Early Independence Investigator including physical structure and space layout along with the availability of support staff.; (*) Describe the institutional commitment to the Early Independence Program. Matching funds are not required, however, an appropriate level of institutional support is expected. Institutional commitment to the development of the candidate as a successful and independent research scientist will be given considerable attention during the review and selection process. ; (**) Evidence of “Institutional Commitment” will be reviewed by the Dean’s Office in each school.; Please PDF all items of the internal proposal in one document and email to gcc19@columbia.edu with a cc: to mb3952@columbia.edu by no later than 9:00 A.M. on Wednesday, June 8, 2016. Additional Information: Dear All, Just a friendly reminder that he HICCC Inter-Programmatic Pilot Projects are due on Monday, May 23rd 2016.; Thank you, Richard; Subject: 2017 Solicitation for HICCC Inter-Programmatic Pilot Projects; Columbia University; Herbert Irving Comprehensive Cancer Center (HICCC); Solicitation for Inter-Programmatic Pilot Projects; April 20, 2016; Dear Program Members: The Cancer Center will fund one-year cancer research pilot projects that promote inter-programmatic interactions between Members from at least two HICCC Programs. The goal of this initiative is to support the initial stages of translational and/or interdisciplinary research that has the potential to develop into a long-term collaborative project that attracts national funding (e.g., NCI-supported R01 or P01 grants). Thus, successful applicants will be expected to apply for national funding to maintain the project subsequent to the initial year of HICCC pilot support.; The following guidelines apply: (*) Eligible applicants: Each proposal will represent a collaborative project involving HICCC Members from at least two HICCC Programs. Projects involving Members of a single HICCC Program may be considered eligible if the collaborative elements are exceptionally interdisciplinary; in such cases, the investigators must inquire about eligibility at least two weeks prior to submission.; (*) Subjects: novel, unfunded projects within the full spectrum of cancer research, including early detection and prevention; pathogenesis; therapeutic approaches to cancer; survivorship; and reducing cancer-related health disparities.; (*) Award: $60,000 to support personnel and supplies. Funds may not be used to support faculty salaries, capital equipment or travel.; (*) Application format: i) cover page with all investigators and HICCC programs; (ii) research proposal that includes background, specific aims and experimental plan within a four-page limit; (iii) references that include titles and full author lists, not included in the four-page limit; (iv) itemized budget with justification that denotes the distribution of funds between the different co-investigators on PHS forms; (v) NIH-formatted biosketches including research support for key personnel; (vi) a brief plan (less than half page) for
Submission of a national grant for continued support of the project (e.g., funding agency, grant type, date of submission, project title). (*) Application deadline: Monday, May 23rd, 2016; An internal committee organized by the HICCC Senior Leadership Team will review and select the proposals. Projects will be evaluated for scientific merit, feasibility, cancer focus, collaborative interactions, and potential for subsequent national funding. Translational and/or interdisciplinary efforts are strongly encouraged.; Applications should be submitted as a single pdf file to: Richard Arjune - email dra2112@columbia.edu; Regards, Richard; D. Additional Information: The National Institutes of Health (NIH) is continuing to make a special effort to stimulate research at educational institutions that provide baccalaureate and/or advanced degrees for a significant number of the Nation's research scientists, but that have not been major recipients of NIH support. Since Fiscal Year (FY) 1985, Congressional appropriations for the NIH have included funds for this initiative, which NIH has implemented through the Academic Research Enhancement Award (AREA) program. Based on the expectation that funds will continue to be available each year, NIH invites applications for AREA grants through this Funding Opportunity Announcement (FOA). AREA funds are intended to support new and renewal biomedical and behavioral research projects proposed by faculty members of eligible colleges, universities, schools, and components of domestic institutions.; [*]
[NTW] [SMOKING CESSATION] Title: Improving Smoking Cessation in Socioeconomically Disadvantaged Populations via Scalable Interventions (R21);
Sponsor: National Cancer Institute; NIH/DHHS;

Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications for innovative and promising intervention research designed to improve smoking cessation outcomes among socioeconomically disadvantaged populations. Specifically, this FOA is intended to stimulate research efforts aimed at the development of smoking cessation interventions that: 1) are targeted to socioeconomically disadvantaged populations, and 2) could be made scalable for broad population impact. Applicants may propose projects that develop and test novel cessation interventions with the potential to be scaled up, as well as projects that focus on enhancing the effectiveness, quality, accessibility, utilization, and cost-effectiveness of currently scaled smoking cessation interventions. This FOA provides funding for up to 2 years for protocol development and early phase, pilot, or exploratory projects. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after . NCI will not accept letters of intent under this FOA.; [*]

[NTW] [SUICIDE PREVENTION] Title: RFA-MH-17-350--Collaborative Hubs to Reduce the Burden of Suicide among American Indian and Alaska Native Youth (U19);
Sponsor: National Institute of Mental Health/NIH/DHHS;
Deadline(s): 06/07/2016; 07/07/2016;
Contact: E-mail: rocac@mail.nih.gov;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?53226;
Additional Information: SYNOPSIS: National Institute of Mental Health (NIMH) invites applications to establish Collaborative Hubs to conduct research focused on reducing the burden of suicide and promoting resilience among American Indian and Alaska Native (AI/AN) youth. This program aims to establish three collaborative research hubs to increase the reach and research base for effective, culturally relevant, preventive interventions that will increase resilience and reduce suicide in tribal or urban Indian communities. The goal of this program is to develop and test preventive strategies that could sustainably reduce the burden of youth suicide in AI/AN communities. Since each community has different strengths and challenges, cultural practices, and approaches, strong community and tribal partnerships will be essential to meeting this goal. This FOA will use the NIH U19 Research Program Cooperative Agreements award mechanism.; DEADLINE NOTE: Applications must be submitted through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST); Applications may be submitted in response to this announcement on or after June 7, 2016. The deadline for receipt of optional letters of intent is June 7, 2016. The deadline for receipt of full applications is July 7, 2016, by 5:00 PM local time of applicant organization.; [*]

Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?53629;
Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications for the development of new exploratory research in cancer diagnosis, treatment, imaging, symptom/toxicity, and prevention clinical trials; correlative studies associated with clinical trials; novel cancer therapeutic, symptom/toxicity, and preventive agent development, radiotherapy development activities, and mechanism-driven combinations; and innovative preclinical studies—including the use of new clinically-relevant models and imaging technologies—which could lead to first-in-human clinical trials. The R21 mechanism is intended to encourage exploratory and developmental research projects by providing support for the early and conceptual stages of these projects. These studies may involve considerable risk, but may lead to a breakthrough in a particular area, or to the development of novel techniques, agents, methodologies, models, or applications that could have a major impact on a field of cancer research (pre-clinical or clinical). This program will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST);.

Title: Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;

Sponsor: NIH; Extramural Nexus Blog;

Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;

Contact: Please see appropriate links;

Electronic Research Administration: https://era.nih.gov/;

Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;
Title: Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals; 
Sponsor: National Institutes of Health; 
Deadline(s): NA; Release Date: 10/13/2015; 
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov; 

Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; 

Updated VAS Requirements:

(*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.;

(*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).; 

(*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; 

(*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

Title: NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System; 
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality; 
Deadline(s): NA; Release Date: 10/13/2015; 
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov; 
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html; 

Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; 
Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; 

Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via eRA Commons beginning October 16, 2015.; 
In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: 

(*) Reduce the number of tables from 12 to 8; 

(*) Minimize the reporting of individual-level information; 

(*) Extend the tracking of trainee outcomes from 10 to 15 years; 
Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;
### Title: NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;  
**Deadline(s):** NA; Release Date: 10/13/2015;  
**Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdrr@mail.nih.gov;  
**Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html);  
**Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;  

### Title: NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;  
**Deadline(s):** Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;  
**Contact:** Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;  
**Additional Information:** This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;
The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification. What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21. Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention. The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design. For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm; Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these

Dear All,

The federal fringe rate has changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information. If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.

As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.

Thanks;

Rosa [Rivera, Director, Sponsored Projects Administration];
To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%. (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%. (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%. [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift. The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.

Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you;

Additional Information: I wanted to forward the latest NIH eRA Items of Interest to you to highlight a new video created by the NIH on using the eRA Commons for grants closeout. Closing out a grant properly is a very important part of the grants lifecycle, and there can be serious consequences if final progress reports, financial reports, and invention statements are not filed in a timely manner. The video is seven minutes long and demonstrates how to: (i) initiate the closeout process; (ii) access required reports; (iii) respond to Final Progress Report Additional Materials (FRAM) requests.; This video, as well as other NIH tutorials, can be found at http://era.nih.gov/era_training/era_videos.cfm#closeout;

Title: Message from President Bollinger relative to Ebola; Sponsor: Columbia University; Deadline(s): NA; Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Title: Note from Dean Fried;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment. ; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

SCHOLASTIC / SCHOLARLY FUNDING OPPORTUNITIES

Title: CLARIFICATION - RE: 3rd Reminder eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Link(s): NOT-OD-13-097;

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (3) note some select NIH grant mechanisms may be exempt from reporting in this section. (3) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog …. Continue reading →

**Additional Information:** Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hour session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

FUNDING OPPORTUNITIES RELATIVE TO TRAINING GRANTS, T32S, ETC.

Title: New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;
Deadline(s): Open Ended;
Contact: Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.

https://www2.gsas.columbia.edu/idp/node/3#summary;
Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at [https://www2.gsas.columbia.edu/idp](https://www2.gsas.columbia.edu/idp). Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at [https://www2.gsas.columbia.edu/idp/node/3#summary](https://www2.gsas.columbia.edu/idp/node/3#summary). Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons;

NEW ITEMS FROM THE NIH

**Title:** [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
**Sponsor:** NIH eRA Commons IDs and Complete Profiles;
**Deadline(s):** Starting in October 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
**Link(s):** eRA Commons Manage Personal Profile: [http://era.nih.gov/reg_accounts/manage_personal_profile.cfm](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm);
**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards **must** have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report that could delay issuance of the next year’s funding. **Complete eRA Commons profiles are just as important as the ID itself.** NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at [eRA Commons Manage Personal Profile](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm). If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

**Title:** The Research Performance Progress Report (RPPR);
**Sponsor:** NIH;
**Deadline(s):** starting October 17, 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
**Link(s):** NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
**Additional Information:** The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See [NOT-OD-14-092](http://grants.nih.gov/grants/rppr/). Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/); This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this.
information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’. 

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/Pis and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tildes, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.
Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees
(graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. …. Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. ….

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ….

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change: NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy ;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Additional Information: JUST RELEASED! FY16 DOD BMFRP
Program Announcement; This is to notify the research community of the
recently released Fiscal Year 2016 (FY16) funding opportunities
managed by the office of Congressionally Directed Medical Research
Programs (CDMRP). Detailed descriptions of the funding opportunity,
evaluation criteria, and submission requirements can be found in the
Program Announcements. The Program Announcements are available
electronically for downloading from the Grants.gov website
http://www.grants.gov/; CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic
Biomedical Research Application Portal (eBRAP) https://eBrap.org/
All CDMRP funding opportunities, both recently and previously
released, are available on the CDMRP website http://cdmrp.army.mil;
Subsequent notifications will be sent when additional funding
opportunities are released. A listing of all open CDMRP funding
opportunities can be obtained on the Grants.gov website by performing
a basic search using CFDA Number 12.420.; Submission is a two-step
process requiring both (1) pre-application submission through the
electronic Biomedical Research Application Portal (eBRAP)
(https://eBrap.org/) and (2) application submission through Grants.gov
(https://www.grants.gov/). Refer to the General Application Instructions,
Section II.A. for registration and submission requirements for eBRAP
and Grants.gov.; eBRAP is a multifunctional web-based system that
allows PIs to submit their pre-applications electronically through a
secure connection, to view and edit the content of their pre-applications
and full applications, to receive communications from the CDMRP, and
to submit documentation during award negotiations and period of
performance. A key feature of eBRAP is the ability of an organization’s
representatives and PIs to view and modify the Grants.gov application
submissions associated with them. eBRAP will validate Grants.gov
application files against the specific Program Announcement/Funding
Opportunity requirements and discrepancies will be noted in an email to
the PI and in the Full Application Files tab in eBRAP. It is the applicant’s
responsibility to review all application components for accuracy as well
as ensure proper ordering as specified in this Program
Announcement/Funding Opportunity.; To be added or removed from this
email list please use the “Subscribe/unsubscribe to program specific
news and updates at https://ebrap.org;

We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.

**Forms to be submitted to the SPA Project Officer,** accompanied with the grant proposal, if subrecipients are included: (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subwardee Financial Conflict of Interest Policy Form – only required when the proposed subrecipient is not included in the
