Additional Information: The increasing availability of data in society is shaping our lives in profound ways. It influences the news we read, the communications we make, the way we track changes in the economy and environment, and how governments keep people safe. As digital data continues to grow exponentially, we are racing to develop the tools to organize and interpret it. The potential benefits are staggering. From health care to understanding our place in the cosmos, we are beginning to see things that were once invisible, and to make far better predictions and decisions than were once possible. It is vital that students at Columbia University are prepared for this new data-driven world. Whether undergraduates of the College, General Studies or the School of Engineering and Applied Science or graduate students within the professional
schools or PhD programs, they should have a basic level of data literacy and an understanding of how data science and computational tools are transforming their field of study. Their ability to succeed after Columbia will depend on it.; Jointly founded by the Data Science Institute and Columbia Entrepreneurship, The Collaboratory@Columbia is a university-wide program that seeks to provide the resources and tools required to ensure that all Columbia University students receive the education and training that they need to lead in today’s data-rich world.; Call for Proposals: The Collaboratory is pleased to announce a first call for proposals from Columbia University faculty. Aimed at advancing education that combines data science or computational expertise with domain expertise, the Collaboratory Fellows Grant is intended to support pairs of instructors (one with data science or computational expertise and the other with domain expertise) to develop and co-teach new educational offerings that can help fulfill the data literacy requirements of a discipline, specific cohort of students, or domain. Each pair of instructors will receive up to $150,000 together, to be used for the development and co-teaching of the new offering over the next three years. Instructional offerings must be introduced into Columbia University’s instructional offerings within two years of the granting of funding. Proposals from more than two instructors are welcome if a justification is provided, although the maximum funding per offering will remain at $150,000.; Eligibility: Applications must be submitted by individuals with the authority to serve as a principal investigator, who will assume primary scholarly, administrative, and financial responsibility for the project over its full duration. Those eligible to apply include faculty members with professorial titles (modified or unmodified), instructors, and lecturers; in addition, these officers of instruction may be appointed full-time or part-time. At least one member of the instructional team must be appointed full-time. All full-time members on the team must hold primary appointments at Columbia University.; Funding: During this first call for proposals, funding is available to support up to four new educational offerings. Additional calls for proposals will be announced during the Academic Year 2016/17. All funded instructors will become Fellows of the Collaboratory, and will form a cohort that will meet about two times each semester to exchange ideas and share experiences.; Information Session: If you are interested in learning more about the Collaboratory Fellows Grants, discussing proposals you might have for educational offerings and/or meeting potential collaborators for a grant, please attend our event at The Brown Institute, Pulitzer Hall, from 8:30am to 10:00 am, Monday May 16th, 2016. Please RSVP here.; To Apply: Application instructions can be downloaded here. Submit the materials requested in the application instructions via email as a pdf to collaboratory@columbia.edu; by the deadline. Proposals will be judged by a multi-disciplinary panel drawn from across the university.; Deadline: Monday June 27th, 2016, 4:00 PM (Neither incomplete nor late applications will be accepted); Award notifications: Friday July 22nd, 2016; Questions?: Please contact collaboratory@columbia.edu; [Forwarded to our attention by] Patricia J. [NTW] [USAID] **Title:** Enhanced Access to and Utilization of Quality Family Planning/Reproductive, Maternal, Newborn, Child and Adolescent Health (FP/RMNCAH) Services in Selected Counties and Sub-counties, Kenya;  
**Sponsor:** U.S. Agency for International Development;  
**Deadline(s):** 05/18/2016;  
**Contact:** E-mail: Namayo@usaid.gov;  
**Additional Information:** **SYNOPSIS:** The Government of Kenya’s Vision 2030 aims to “transform Kenya into a newly industrializing, middle-income country providing a high quality of life to all its citizens by the year 2030.” Its actions are grounded in the principles of the 2010 Constitution, including aiming to attain the right to health and to decentralize health services management through a devolved system of governance. This vision is set against the backdrop of a projected Kenyan population of 59 million in 2030, up from the current estimated 44 million. By 2030, it is also estimated that over 30 percent of the population will be below 15 years of age.; **DEADLINE NOTE:** Applications due May 18, 2016, 8:00 am Nairobi time.; [*]
[NTW] [USAID] **Title**: County Measurements, Learning and Accountability Program (CMLAP);

**Additional Information**: SYNOPSIS: This activity will focus its support in the following HIV, malaria and MNCH focal counties of Homabay, Migori, Kisii, Kakamega, Busia, Vihiga, Bungoma, and Kisumu. It will build on USG investments in monitoring and evaluation systems strengthening activities. This activity will take advantage of existing coordination and collaboration structures that the national and county governments have set up to reach out to many key stakeholders that work on strengthening monitoring and evaluation systems. There are a number of USG funded activities that support monitoring and evaluation at the national and county level. Some of these activities will be ending in 2016 while others will end in 2017. It is expected that CMLAP will develop or use existing learning forums to disseminate best practices emerging from focus counties to non-focus counties DEADLINE NOTE: Applications are due May 18, 2016, 8:00 am Nairobi time.; [*]

**Additional Information:** SYNOPSIS: National Institute on Aging (NIA) invites applications that propose basic, clinical, or translational research on non-healing ulcerative wounds and their consequences in aging and in older persons. Applications are encouraged which focus on the 1) biology, etiology and pathophysiology of non-healing ulcerative wounds in animal models and/or older adults; 2) translation of basic/clinical research into clinical practice and health decision-making; 3) diagnosis, prevention, management and clinical outcomes of non-healing wounds in older adults. Research
supported by this initiative should enhance knowledge of non-healing wounds and their consequences in older adults and provide evidence-based guidance in the diagnosis, evaluation, and/or treatment of non-healing wounds in older persons. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after September 16, 2016. The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2019.;

[NTW] [DEPARTMENT OF DEFENSE] **Title**: Peer Reviewed Medical Discovery Award;
**Sponsor**: Department of the Army;
**Deadline(s)**: 07/07/2016; 07/21/2016;
**Contact**: E-mail: help@eBRAP.org;
**Link(s)**: Web Site: http://www.grants.gov/web/grants/view-opportunity.html?oppId=283528;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?54514;
**Additional Information**: SYNOPSIS: The intent of the PRMRP Discovery Award is to support innovative, untested, high-risk/ potentially high-reward research that will provide new insights, paradigms, technologies, or applications.; Studies supported by this award are expected to lay the groundwork for future avenues of scientific investigation. The proposed research project should include a well-formulated, testable hypothesis based on a sound scientific rationale and study design. The proposed research project should be novel and innovative. Innovative research may introduce a new paradigm, challenge existing paradigms, look at existing problems from new perspectives, or exhibit other highly creative qualities. Research that is an incremental advance upon published data is not considered innovative and is not consistent with the intent of this award mechanism. Inclusion of preliminary data is strongly discouraged. The outcome of research supported by this award should be the generation of robust preliminary data that can be used as a foundation for future research projects to understand the mechanisms of initiation or progression and/or improving patient care for a disease or condition. The Discovery Award is not intended to support a logical progression of an already established research project or other types of ongoing work; therefore, inclusion of preliminary data other than serendipitous findings or in small amounts is not consistent with the exploratory nature of this award. The presentation of substantial preliminary data suggests that the proposed research project would be more appropriately submitted to a different award mechanism.; **DEADLINE NOTE**: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), July 7, 201. The invited application submission deadline is 11:59 p.m. ET, July 21, 2016;
[NTW] [DEPARTMENT OF DEFENSE] **Title**: Peer Reviewed Medical Research Program--Clinical Trial Award;  
**Sponsor**: E-mail: help@eBRAP.org;  
**Deadline(s)**: Department of the Army;  
**Contact**: 06/29/2016; 10/26/2016;

Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?54516;  
**Additional Information**: SYNOPSIS: The PRMRP Clinical Trial Award supports the rapid implementation of clinical trials with the potential to have a significant impact on a disease or condition addressed in at least one of the Congressionally directed FY16 PRMRP Topic Areas. Clinical trials may be designed to evaluate promising new products, pharmacologic agents (drugs or biologics), devices, clinical guidance, and/or emerging approaches and technologies. Proposed projects may range from small proof-of-concept trials to demonstrate feasibility or inform the design of more advanced trials (e.g., pilot, first in human, Phase 0), through large-scale trials to determine efficacy in relevant patient populations. All studies must be responsive to the healthcare needs of the military Service members, Veterans, and/or beneficiaries; however, the use of military or Veteran populations is not required.; DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), June 29, 2016. The invited application must be submitted by 11:59 p.m. ET, October 26, 2016.; [*]  

[NTW] [DEPARTMENT OF DEFENSE] **Title**: Neurofibromatosis Research Program--New Investigator Award;  
**Sponsor**: Department of the Army;  
**Deadline(s)**: 07/18/2016; 08/01/2016;  
**Contact**: E-mail: help@eBRAP.org;

**Additional Information**: SYNOPSIS: The intent of the NFRP New Investigator Award is to support the continued development of promising independent investigators and/or the transition of established investigators from other research fields into a career in the field of NF research. Prior experience in NF research is not required. However, Principal Investigators (PIs) with a limited background in NF research are strongly encouraged to have a collaborator who is experienced in the NF field. Research projects may focus on any phase of research, excluding clinical trials. Applications must include preliminary and/or published data that is relevant to NF and the proposed research project.; DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), July 18, 2016. The full application submission deadline is 11:59 p.m. ET, August 1, 2016.;
[NTW] [DEPARTMENT OF DEFENSE] Title: Neurofibromatosis Research Program--Investigator-Initiated Research Award;
Sponsor: Department of the Army;
Deadline(s): 07/18/2016; 08/01/2016;

Additional Information: SYNOPSIS: The NFRP Investigator-Initiated Research Award supports highly rigorous, high-impact research projects that have the potential to make an important contribution to NF research and/or patient care. Research projects may focus on any phase of research from basic through translational, including preclinical studies in animal models or human subjects, as well as correlative studies associated with an existing clinical trial. The rationale for a research idea may be derived from laboratory discovery, population-based studies, a clinician's firsthand knowledge of patients, or anecdotal data. Applications must include preliminary and/or published data that is relevant to NF and the proposed research project. All projects should adhere to a core set of standards for rigorous study design and reporting to maximize the reproducibility and translational potential of preclinical research.; DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), July 18, 2016. The application submission deadline is 11:59 p.m. ET, August 1, 2016.;

Additional Information: SYNOPSIS: The Exploration - Hypothesis Development Award supports the initial exploration of innovative, high-risk, high-gain, and potentially groundbreaking concepts in NF research. Studies supported by this award mechanism are expected to lay the groundwork for future avenues of scientific investigation. The proposed research project should include a well-formulated, testable hypothesis based on strong scientific rationale and study design. The presentation of preliminary and/or published data is encouraged, but not required. The proposed research project should be innovative. Innovative research may introduce a novel paradigm, challenge existing paradigms, look at existing problems from novel perspectives, or exhibit other highly creative qualities. Research that is an incremental advance upon published data is not considered innovative and is not consistent with the intent of this award mechanism.; DEADLINE NOTE: Pre-application Submission Deadline is 5:00 p.m. Eastern time (ET), July 18, 2016. Additional Information: SYNOPSIS: The NFRP Clinical Trial Award supports research with the potential to have a major impact on the treatment or management of NF. Clinical trials may be designed to evaluate promising new products, pharmacologic agents (drugs or biologics), devices, clinical guidance, and/or emerging approaches and technologies. Proposed projects may range from small proof-of-concept (i.e., pilot, first in human, or Phase 0) trials to demonstrate feasibility or inform the design of more advanced trials, through large-scale trials to determine efficacy in relevant patient populations. Funding from this award mechanism must support a clinical trial and may not be used for preclinical research studies. A clinical trial is defined as a prospective accrual of human subjects where an intervention (e.g., device, drug, biologic, surgical procedure, rehabilitative modality, behavioral intervention, or other) is tested on a human subject for a measurable outcome with respect to exploratory information, safety, effectiveness, and/or efficacy. This outcome represents a direct effect on the human subject of that intervention or interaction. Principal Investigators (PIs) seeking funding for a preclinical research project should consider one of the other award mechanisms/funding opportunities being offered by FY16 NFRP.; DEADLINE NOTE: Pre-application Submission Deadline is 5:00 p.m. Eastern time (ET), July 18, 2016. The Invited Application Submission Deadline is 11:59 p.m. ET, August 1, 2016.;

[NTW] [DEPARTMENT OF DEFENSE] Title: Tuberous Sclerosis Complex Research Program--Pilot Clinical Trial Award;
Sponsor: Department of the Army;
Deadline(s): 07/01/2016; 07/18/2016;
Contact: E-mail: help@eBRAP.org
Link(s): Web Site: http://www.grants.gov/web/grants/view-opportunity.html?oppId=283651;
Additional Information: SYNOPSIS: The TSCRP Pilot Clinical Trial Award mechanism supports exploratory studies involving limited human exposure that produce diagnostic or therapeutic information (e.g., screening studies, microdose studies), toxicity studies of an intervention, and studies to determine the mechanism of action and side effects of an intervention. These studies should be aimed at obtaining preliminary data leading to the development of interventions, as well as clinical biomarkers, and endpoints, with the potential to improve TSC outcomes.; Examples of studies include but are not limited to the following: Identification of an appropriate population; Identification of the dosage, duration, and/or delivery strategy of an intervention; Evaluation of the feasibility of the intervention in TSC; and Evaluation of efficacy and safety.; DEADLINE NOTE: The Pre-application submission deadline is 5:00 p.m. Eastern time (ET), July 1, 2016. Invited Applications must be submitted by 11:59 p.m. ET, July 18, 2016.;
[NTW] [DEPARTMENT OF DEFENSE/POSTDOCTORAL] Title: Tuberous Sclerosis Complex Research Program--Postdoctoral Development Award;
Sponsor: Department of the Army;
Deadline(s): 07/01/2016; 07/18/2016;
Contact: E-mail: help@eBRAP.org;
Link(s): Web Site: http://www.grants.gov/web/grants/view-opportunity.html?oppId=283653;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?54611;
Additional Information: SYNOPSIS: The TSCRP Postdoctoral Development Award mechanism is being offered for the first time in FY16. The Postdoctoral Development Award supports recent doctoral or medical graduates to conduct impactful research with the mentorship of an experienced TSC researcher (i.e., Mentor). This opportunity allows for junior investigators to develop and investigate a TSC research project and further their intellectual development as a TSC researcher of the future.; DEADLINE NOTE: The Pre-application submission deadline is 5:00 p.m. Eastern time (ET), July 1, 2016. Invited Applications must be submitted by 11:59 p.m. ET, July 18, 2016.;

[NTW] [DEPARTMENT OF DEFENSE] Title: Tuberous Sclerosis Complex Idea Development Award;
Sponsor: Department of the Army;
Deadline(s): 07/01/2016; 07/18/2016;
Contact: E-mail: help@eBRAP.org;
Link(s): Program URL: http://www.grants.gov/web/grants/view-opportunity.html?oppId=283646;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?54612;
Additional Information: SYNOPSIS: The IDA promotes new ideas that are in the early stages of development and have the potential to yield high-impact findings and new avenues of investigation. This award mechanism supports conceptually innovative, high-risk/potentially high-reward research that could ultimately lead to critical discoveries in TSC research and/or improvements in patient care. Research projects should include a well-formulated, testable hypothesis based on strong scientific rationale. The following are important aspects of the Idea Development Award: 1. Innovation: Innovative research may introduce a new paradigm, challenge existing paradigms, look at existing problems from new perspectives, or exhibit other uniquely creative qualities that may include high-risk/potentially high-gain approaches to TSC research. Research that is merely an incremental advance (the next logical step) is not considered innovative; 2. Impact: Applications should articulate both the short- and long-term impact of the proposed research. High-impact research will, if successful, significantly advance TSC research and/or patient care; 3. Preliminary Data: Preliminary data, unpublished results from the laboratory of the Principal Investigator (PI) or collaborators named on this application, and/or data from the published literature that are relevant to TSC and the proposed research project should be included. Research involving human subjects and human anatomical substances is permitted; however, clinical trials are not allowed under this funding opportunity.; DEADLINE NOTE: Pre-application Submission Deadline is 5:00 p.m. Eastern time (ET), July 1, 2016. The invited application submission deadline is 11:59 p.m. ET, July 18, 2016.;
[NTW] [DEPARTMENT OF DEFENSE] Title: Tuberous Sclerosis Complex Synergistic Idea Development Award;
Sponsor: Department of the Army;
Deadline(s): 07/01/2016; 07/18/2016;
Contact: E-mail: help@eBRAP.org;
Link(s): Program URL: http://www.grants.gov/web/grants/view-opportunity.html?oppId=283649;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?54613;
Additional Information: SYNOPIS: This Award mechanism is being offered for the first time in FY16. The Synergistic Idea Development Award supports new or existing partnerships between two or three Principal Investigators (PIs) who should utilize their complementary and synergistic perspectives to significantly accelerate advances in TSC research to support the TSCRP vision to lessen the impact of TSC.; DEADLINE NOTE: Pre-application Submission Deadline is 5:00 p.m. Eastern time (ET), July 1, 2016. The invited application submission deadline is 11:59 p.m. ET, July 18, 2016.;

[NTW] [TRANSATIONAL RESEARCH] Title: Translational Research Grant Program - HeART (Help Accelerate RTT Therapeutics);
Sponsor: http://rettsyndrome.org;

Additional Information: SYNOPIS: HeART (Help Accelerate RTT Therapeutics) grant awards are designed to promote the development and testing of therapeutics to treat and reverse Rett syndrome (RTT). Awards will be provided for cell-based assay development, early-stage drug discovery and development, early stage medicinal chemistry efforts on high value candidate therapeutics, cell-based screening of candidate therapeutics and follow-on early-stage in vivo testing. Grant applications for exploratory studies towards development of biomarkers or objective clinical outcome measures will also be considered.; DEADLINE NOTE: Letters of Intent are due June 4, 2016. Full applications are invited.;

[NTW] [TRANSATIONAL RESEARCH] Title: Centers of Research Translation (CORT) (P50); Grant;

[NTW] [OCCUPATIONAL HEALTH AND SAFETY] Title: Occupational Safety and Health Education and Research Centers (T42); 
**Sponsor:** National Institute for Occupational Safety & Health/CDC/DHHS;  
**Deadline(s):** 08/15/2016; 10/12/2016; 08/14/2017; 10/13/2017; 08/13/2018; 10/11/2018; 08/16/2019; 10/18/2019;  
**Contact:** E-mail: emaples@cdc.gov;  
**Additional Information:** SYNOPSIS: National Institute for Occupational Safety and Health (NIOSH) offers support for the establishment of Education and Research Centers (ERCs) that are focused on occupational safety and health training, research training, education and outreach. NIOSH is mandated to provide an adequate supply of qualified personnel to carry out the purposes of the Occupational Safety and Health Act, and the ERCs are one of the principal means for meeting this mandate. ERCs are academic institutions that provide high-quality interdisciplinary graduate training, research training, continuing education, and outreach in the core occupational safety and health disciplines of industrial hygiene (IH), occupational health nursing (OHN), occupational medicine residency (OMR), and occupational safety (OS), as well as closely related allied disciplines. Research and research training are integral components of ERCs, with ERC faculty and NIOSH trainees conducting research on issues related to the NIOSH National Occupational Research Agenda (NORA). The ERCs also serve as regional resources for industry, labor, government, and the public. This PAR will use the NIOSH T42 award mechanism.; DEADLINE NOTE: The deadlines for receipt of optional letters of intent are: August 15, 2016; August 14, 2017; August 13, 2018; August 16, 2019. The deadlines for receipt of full applications are: October 12, 2016, October 13, 2017, October 11, 2018, October 18, 2019 by 5:00 PM EST. 
This FOA will expire on October 21, 2019.; [*]

[NTW] [K-AWARDS] Title: Mentored Research Scientist Development Award (Parent K01);  
**Sponsor:** National Institutes of Health/DHHS;  
**Deadline(s):** 06/12/2016; 09/07/2016; 10/12/2016; 01/07/2017; 02/12/2017; 05/07/2017; 06/12/2017; 09/07/2017; 10/12/2017; 01/07/2018;

**Additional Information:** SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for the NIH Mentored Research Scientist Development Award. The award provides support and “protected time” (three, four, or five years) for an intensive, supervised career development experience in the biomedical, behavioral, or clinical sciences leading to research independence.; Although all of the participating NIH Institutes and Centers (ICs) use this support mechanism to support career development experiences that lead to research independence, some ICs use the K01 award for individuals who propose to train in a new field or for individuals who have had a hiatus in their research career because of illness or pressing family circumstances. Other ICs utilize the K01 award to increase research workforce diversity by providing enhanced research career development opportunities. This FOA will use the NIH K01 award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R)
Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after May 12, 2016. The deadlines for receipt of standard applications under this announcement are: February 12, June 12, and October 12 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This FOA will expire on January 8, 2018. [*]

[NTW] [FOUNDATION FUNDING/CANCER/CONFERENCE AND MEETING SUPPORT] **Title:** Grants for Support of Conferences and Meetings;

**Additional Information:** Dear Dr. Doctor/Scientist, The Howard Hughes Medical Institute (HHMI), the Bill & Melinda Gates Foundation, the Wellcome Trust, and the Calouste Gulbenkian Foundation announce the International Research Scholars Program which aims to support up to 50 outstanding early career scientists/physicians worldwide. The program's aim is to help develop scientific talent worldwide. Awardees will receive a total of $650,000 over five years, and they can do research in their own countries. Investigators from around the world can apply, but please review eligibility criteria. We are wondering if you would be willing to refer your fellows or junior investigators or past fellows to this program. **Additional Information:** SYNOPSIS: National Cancer Institute (NCI) invites applications that seek to integrate two or more independent data sets to answer novel cancer control and prevention questions. The goal is to encourage applications that incorporate Integrative Data Analysis (IDA) methods to study behavioral risk factors for cancer, including tobacco use, sedentary behavior, poor weight management, and lack of medical adherence to screening and vaccine uptake. It is important that the data being integrated are from different sources and types (including both quantitative and qualitative; data may span different levels such as genetic and environmental) and should include at least one source of behavioral data. Importantly, applicants should use existing data sources rather than collect new data. In addition, creating harmonized measures, developing culturally sensitive measures, replicating results and cross-study comparisons will be encouraged. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) invites innovative research applications on prescription drug abuse, including research to examine the factors contributing to prescription drug abuse; to characterize the adverse medical, mental health and social consequences associated with prescription drug abuse; and to develop effective prevention and service delivery approaches and behavioral and pharmacological treatments. Applications to address these issues are encouraged across a broad range of methodological approaches including basic science, clinical, epidemiological, and health services research to define the extent of the problem of prescription drug abuse, to characterize this problem in terms of classes of drugs abused and combinations of drug types, etiology of abuse, and populations most affected (including analyses by age group, race/ethnicity, gender, and psychiatric symptomatology). Studies on individual- and patient-level factors, prescriber factors, and/or health system factors are encouraged, as are studies on all classes of prescription drugs with high abuse liability, including analgesics, stimulants, sedative/hypnotics and anxiolytics. Researchers are further encouraged to study the relationship between the prescription medication, the indication for which the medication was prescribed (e.g., pain, sleep disorder, anxiety disorder, obesity), and the environmental and individual factors contributing to abuse. This program will use the NIH R01 award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) Invites innovative research applications on prescription drug abuse, including research to examine the factors contributing to prescription drug abuse; to characterize the adverse medical, mental health and social consequences associated with prescription drug abuse; and to develop effective prevention and service delivery approaches and behavioral and pharmacological treatments. Applications to address these issues are encouraged across a broad range of methodological approaches including basic science, clinical, epidemiological, and health services research to define the extent of the problem of prescription drug abuse, to characterize this problem in terms of classes of drugs abused and combinations of drug types, etiology of abuse, and populations most affected (including analyses by age group, race/ethnicity, gender, and psychiatric symptomatology). Studies on individual- and patient-level factors, prescriber factors, and/or health system factors are encouraged, as are studies on all classes of prescription drugs with high abuse liability, including analgesics, stimulants, sedative/hypnotics and anxiolytics. Researchers are further encouraged to study the relationship between the prescription medication, the indication for which the medication was prescribed (e.g., pain, sleep disorder, anxiety disorder, obesity), and the environmental and individual factors contributing to abuse. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after May 16, 2016. The deadlines for receipt of standard R01 applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2019.;

- [https://nexus.od.nih.gov/all/category/blog/open-mike/](https://nexus.od.nih.gov/all/category/blog/open-mike/); Series of recent NIH Guide Notices:  
  - Enhanced Rigor and Reproducibility:  
- Electronic Research Administration: [https://era.nih.gov/](https://era.nih.gov/);  
**Additional Information:** Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.;  
- Steph;  
- We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.;  
- We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.;  
- You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.;  
- We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.;  
- If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.;  
- So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;

**Title:** Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals; **Sponsor:** National Institutes of Health; **Deadline(s):** NA; **Release Date:** 10/13/2015; **Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov; **Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html); **Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.;

**Updated VAS Requirements:**

(*): **Description of Procedures.** Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.;

(*): **Justifications.** Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).;  

(*): **Minimization of Pain and Distress.** Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.;

(*): **Euthanasia.** State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

**Title:** NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System; **Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; **Deadline(s):** NA; **Release Date:** 10/13/2015; **Contact:** Please direct all inquiries to: [NIHTrain@mail.nih.gov](mailto:NIHTrain@mail.nih.gov); **Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html); **Additional Information:** This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: [http://grants.nih.gov/grants/funding/424/datatables.htm](http://grants.nih.gov/grants/funding/424/datatables.htm). Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.;

**Background and Related Information:** In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the [eRA Commons](https://era.nih.gov/) beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

<td>Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (<em>) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (&quot;assign to&quot;) and negative (&quot;do not assign to&quot;); (</em>) Study Section or Special Emphasis Panel Requests, both positive and negative; (<em>) List of potential reviewers in conflict, and why; (</em>) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&amp;R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;</td>

Title: Inclusion of Children in Clinical Research: Change in NIH Definition;  
Sponsor: National Institutes of Health;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;  
Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification. What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21. Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent.

and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention. The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;  

Title: Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): NA; Release Date: 10/09/2015;  
Contact: Please direct all inquiries to: reproducibility@nih.gov;  
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these
areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*)

*Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Dear All,

The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; if you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.

As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd:

Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, **FY16 Fringe Rates:** (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, thesplit between accounts 59010 and 59020 will shift; **The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments.** [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.

**Next Steps:** When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm; Thank you.

Deadline(s): NA;
Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low. Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely,

Linda P. Fried, MD, MPH

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (I) note some select NIH grant mechanisms may be exempt from reporting in this section. (I) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf. ; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; 
Sponsor: NIH; Deadline(s): Starting in October 2014; Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu; Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/; 
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; 

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. **Additional Information:** Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

Title: New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;
Deadline(s): Open Ended;
Contact: Please contact Rory Flinn (rf2531@columbia.edu);

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at http://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: Complete Profiles Required for Students and Postdocs: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Title: The Research Performance Progress Report (RPPR);

information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.
**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees
(graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. …. Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. …. Continue reading →

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. …. Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

**You Ask, We Answer:**

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html); I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change: [NIH Policy on Resubmission Applications](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); Science Magazine article: [NIH to Relax ‘Two Strikes’ Grant Submission Policy](http://www.sciencemag.org/content/343/6165/1594); Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html) Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines.

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards.

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:
http://spa.columbia.edu/policies/us-flag-carrier-policy.;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

### Title: FY16 DOD BMFRP Program Announcement;

**Sponsor:** Department of Defense;

**Deadline(s):** NA;

**Contact:** NA;

**Additional Information:** JUST RELEASED! FY16 DOD BMFRP Program Announcement; This is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities managed by the office of Congressionally Directed Medical Research Programs (CDMRP);. Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website [http://www.grants.gov](http://www.grants.gov/).

CDMRP website ([http://cdmrp.army.mil/funding/prgdefault.shtml](http://cdmrp.army.mil/funding/prgdefault.shtml)) and the electronic Biomedical Research Application Portal (eBRAP) [https://eBRAP.org](https://eBRAP.org); All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website [http://cdmrp.army.mil](http://cdmrp.army.mil); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) ([https://eBRAP.org](https://eBRAP.org)) and (2) application submission through Grants.gov ([http://www.grants.gov](http://www.grants.gov/)). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; To be added or removed from this email list please use the "Subscribe/unsubscribe to program specific news and updates at [https://ebrap.org](https://ebrap.org);
