NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

WEEKLY HIGHLIGHT; ANNOUNCEMENTS (NIH); NEUROLOGY; SPINA BIFIDA; EPILEPSY; SUBSTANCE USE DISORDERS (SUDS); PREGNANCY; MATERNAL AND CHILD HEALTH (MCH); DEPRESSION; SUICIDE PREVENTION; BIRTH DEFECTS; TEEN PREGNANCY; HEMATOLOGY; HEMOPHILIA; KIDNEY; HEALTH AND POLICY MANAGEMENT (HPM); CANNABIS; OBESITY; VIOLENCE PREVENTION; US DEPARTMENT OF JUSTICE (USDOJ); BEHAVIORAL; HIV/AIDS; LIMITED SUBMISSION; NATIVE AMERICAN; FOUNDATION FUNDING; VACCINES; ALZHEIMER’S DISEASE; EDUCATION; NSF; ASSAY DEVELOPMENT; CHEMISTRY; MENTAL HEALTH; BIG DATA; COLUMBIA UNIVERSITY FUNDING OPPORTUNITY; ASPPH FRIDAY NEWSLETTER; RESEARCH RESOURCES ANNOUNCEMENTS;

[NTW] [WEEKLY HIGHLIGHT/ANNOUNCEMENTS (NIH)] Title: NIH Issues Policy Notices on New Salary Cap and NRSA Stipend Levels, Restoration of Non-Competing Award Funding Levels/Fiscal Year Policy for FY 2015; Sponsor: NIH; Deadline(s): NA;
Contact: This information was forwarded to our attention by Rosa Rivera and Stephanie Scott; As always, feel free to contact your SPA Project Officer if you have any questions.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@cumc.columbia.edu;
Link(s): fiscal policy; salary cap; Executive Order; stipend levels; NOT-OD-15-049; The full range of NRSA stipend adjustments for FY 2015 is described at NOT-OD-15-048.; NOT-OD-15-050 – NIH Fiscal Policy for Grant Awards – FY 2015; Additional Information: The NIH has issued three important notices that will be of interest to all extramural awardees. (1) The NIH issued its FY 2015 fiscal policy for grant awards. It implements the Consolidated Appropriations Act, 2015 (H.R. 83/Public Law 113-235), signed by President Obama on December 16, 2014. The Act provides NIH with $30.31 billion, an increase of $240 million over FY 2014 final budget allocations.; As per Notice # NOT-OD-15-050 – NIH Fiscal Policy for Grant Awards – FY 2015: During the continuing resolution, non-competing continuation awards were generally funded at up to 90 percent of the previously committed level. With the passage of a full year funding bill, NIH now says, “Such reductions may be fully or partially restored, depending on the Institute or Center.; (-) Non-competing continuation awards that have already been issued for FY15 that were reduced up to 90% of the previously committed level may be fully or partially restored, depending on the NIH Institute or Center. Non-competing continuation grants (research and non-research) including those that remain to be issued in FY 2015 likely will be made within the range between the commitment level indicated on the Notice of Award and 3 percent below that level. Out-year commitments for continuation awards in FY
2016 and beyond will remain unchanged.; (-) New Investigators: The NIH “will continue to support new investigators on R01 equivalent awards at success rates comparable to that of established investigators submitting new (Type 1) R01 equivalent applications”. Achievement of comparable success rates should permit the NIH to support new investigators in accordance with the policies established in FY 2009 and subsequent years as described at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-09-013.html and at: http://grants.nih.gov/grants/new_investigators/index.htm.; (2) In a separate notice, the NIH announced that that the final FY 2015 appropriations bill maintained the existing salary cap tied to the Executive Level II salary. (-) NIH Salary Cap – The Executive Level II salary is currently set at $181,500, increasing to $183,300 effective January 11, 2015, per an Executive Order signed by President Obama on December 19.; The following notice, NOT-OD-15-049, provides specific instructions on how to use the salary cap, with several examples. It is a good resource which provides explanation on how the cap is used for proposal development and issuance of awards.; (3) The NIH also announced that stipend levels for NEW Ruth L. Kirschstein National Research Service Awards (NRSA) stipend levels: NIH will increase undergraduate and graduate student stipends by 2 percent on average. Entry level postdoctoral stipends will be increased to $42,840. In addition to affecting NRSA stipends directly, the NRSA stipend levels are used as a benchmark by various other programs and awards.; The full range of NRSA stipend adjustments for FY 2015 is described at NOT-OD-15-048.; Ruth L. Kirschstein National Research Service Awardees, will increase by two percent, on average.;

[NTW] [NEUROLOGY (SPINA BIFIDA)] Title: rfa-dd-15-001; Public Health Research on Modifiable Risk Factors for Spina Bifida; Grant; Sponsor: HHS; Department of Health and Human Services; Centers for Disease Control and Prevention; National Center on Birth Defects and Developmental Disabilities; Deadline(s): Feb 24, 2015 Letter of Intent Due Date: 01/23/2015 Application Due Date: 02/24/2015 NO LATER THAN 5PM; Contact: Daryl Barksdale Telephone: (770) 488-1087; Grants Management Officer; E-mail: ndarling@cdc.gov; Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=270778; [Please Note: the above link returns a null; searching at grants.gov for the title of the grant returns a page whose top link is likely the grant in question: http://www.grants.gov/web/grants/search-grants.html?keywords=%20Public%20Health%20Research%20on%20Modifiable%20Risk%20Factors%20for%20Spina%20Bifida; http://www.grants.gov/web/grants/view-opportunity.html?oppId=270791; Link to full program description: http://www.inofed.org/new_spin/spin_prog.asp?45094; Additional Information: SYNOPSIS: National Center on Birth Defects and Developmental Disabilities (NCBDDDD) invites applications to investigate potentially modifiable risk factors for spina bifida in the presence of adequate folate (i.e. where there is established mandatory folic acid fortification or among populations for which there is individual-level data on periconceptional folic acid use), including identification of novel risk factors, identification of factors that may alter the impact of established risk factors (e.g. physical activity and obesity), and replication of previously observed associations from population-based epidemiologic studies (e.g. National Birth Defects Prevention Study). A total of approximately $1.8 million is available. ; DEADLINE NOTE: The deadline for receipt of optional letters of intent is January 23, 2015. The deadline for receipt of full applications is February 24, 2015.;
[NTW] [NEUROLOGY (EPILEPSY)] Title: Improving Surveillance and Prevention of Epilepsy Burden in US Communities; Grant; 
**Sponsor:** HHS; Department of Health and Human Services; Centers for Disease Control and Prevention;

**Additional Information:** SYNOPSIS: National Institute on Drug Abuse (NIDA) invites innovative research applications on prescription drug abuse, including research to examine the factors contributing to prescription drug abuse; to characterize the adverse medical, mental health and social consequences associated with prescription drug abuse; and to develop effective prevention and service delivery approaches and behavioral and pharmacological treatments. Applications to address these issues are encouraged across a broad range of methodological approaches including basic science, clinical, epidemiological, and health services research to define the extent of the problem of prescription drug abuse, to characterize this problem in terms of classes of drugs abused and combinations of drug types, etiology of abuse, and populations most affected (including analyses by age group, race/ethnicity, gender, and psychiatric symptomatology). Studies on individual- and patient-level factors, prescriber factors, and/or health system factors are encouraged, as are studies on all classes of prescription drugs with high abuse liability, including analgesics, stimulants, sedative/hypnotics and anxiolytics. Researchers are further encouraged to study the relationship between the prescription medication, the indication for which the medication was prescribed (e.g., pain, sleep disorder, anxiety disorder, obesity), and the environmental and individual factors contributing to abuse. This program will use the NIH R01 award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2016.
[NTW] [SUBSTANCE USE DISORDERS (SUDS)] **Title:** Prescription Drug Misuse; (R21);
**Sponsor:** National Institute on Drug Abuse/NIH/DHHS;
**Deadline(s):** 01/07/2015; 02/16/2015; 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016;

**Additional Information:** SYNOPSIS: National Institute on Drug Abuse (NIDA) and National Institute on Alcohol Abuse and Alcoholism (NIAAA) invite applications that propose to study the developing brain or brain areas that play significant roles in mediating emotional and motivated behavior and in substance use and dependence. All stages of brain development are of interest, but a new emphasis of the current reissue of this initiative is to support basic neuroscience research on fundamental mechanisms of brain development during prepuberty and the adolescent period in relation to the problems of substance abuse and co-morbidity with psychiatric disorders. Topics of interest pertaining to brain development of this initiative include, but are not limited to, the euphoric properties of abused substances, actions of psychotherapeutic agents, and their consequences on memory, cognitive and emotional processes. An additional major goal of this initiative is to understand how exposure to substances of abuse affects the cellular and molecular mechanisms underlying nervous system development and neural circuit functions implicated in substance use and addiction.; This program will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.;

[NTW] [SUBSTANCE USE DISORDERS (SUDS)] **Title:** Women & Sex/Gender Differences in Drug and Alcohol Abuse/Dependence (R21);  
**Sponsor:** National Institute on Drug Abuse/NIH/DHHS;  
**Deadlines:** 01/07/2015; 02/16/2015; 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017;

**Additional Information:** National Institute on Drug Abuse (NIDA) and National Institute on Alcohol Abuse and Alcoholism (NIAAA) invite applications to advance research on male-females differences in drug and alcohol abuse and addiction and on factors specific to women. Both human and animal model studies are sought. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.;
[NTW] [SUBSTANCE USE DISORDERS (SUDS)] Title: International Research Collaboration on Drug Abuse and Addiction Research (R01);
Sponsor: National Institute on Drug Abuse/NIH/DHHS;
Deadline(s): 02/05/2015; 05/07/2015;

Additional Information: SYNOPSIS: The National Institute on Drug Abuse (NIDA) solicits collaborative research proposals on drug abuse and addiction that take advantage of special opportunities that exist outside the United States. Special opportunities include access to unusual talent, resources, populations, or environmental conditions in other countries that will speed scientific discovery. Projects should have relevance to the mission of NIDA and where feasible should address NIDAs scientific priority areas. While the priorities will change from year to year, in FY12 priority areas include: linkages between HIV/AIDS and drug abuse, and prevention, initiation, and treatment of nicotine and tobacco use (especially among vulnerable populations such as children, adolescents, pregnant women, and those with co-morbid disorders). This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This FOA will expire on May 8, 2015.;

Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?25977;
**Additional Information:** SYNOPSIS: The National Institute on Drug Abuse (NIDA) solicits collaborative research proposals on drug abuse and addiction that take advantage of special opportunities that exist outside the United States. Special opportunities include access to unusual talent, resources, populations, or environmental conditions in other countries that will speed scientific discovery. Projects should have relevance to the mission of NIDA and where feasible should address NIDAs scientific priority areas. While the priorities will change from year to year, in FY12 priority areas include: linkages between HIV/AIDS and drug abuse, and prevention, initiation, and treatment of nicotine and tobacco use (especially among vulnerable populations such as children, adolescents, pregnant women, and those with co-morbid disorders). This program will use the NIH Small Research Grant (R03) award mechanism.

**DEADLINE NOTE:** The deadlines for receipt of standard R01 applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This FOA will expire on May 8, 2015.

[NTW] [MATERNAL AND CHILD HEALTH (MCH)/DEPRESSION] **Title:** Evaluation of a Stepped Care Approach for Perinatal Depression Treatment in Obstetrics and Gynecology Clinics; Grant;
**Sponsor:** HHS; Department of Health and Human Services; Centers for Disease Control and Prevention;
**Deadline(s):** Feb 25, 2015  Key Dates: Letter of Intent Due Date: 01/26/2015 Application Due Date: 02/25/2015

This grant program is the second phase of the MCHB Perinatal and Infant Oral Health National Initiative. The goal of this grant program, as with this multi-phase initiative, is to reduce the prevalence of oral disease in both pregnant women and infants most at risk through improved access to quality oral health care. By targeting pregnant women and infants, during times of increased health care access, the expected result is improved oral health and oral health care utilization of the mother and her child throughout their lifespan. Ultimately, by linking the delivery of oral health with primary care, the overall well-being of pregnant women and infants will be improved. A total of approximately $1.75 million per year is available.;

The purpose of this cooperative agreement program is to improve the outcomes of individuals with hemophilia and other hereditary bleeding disorders and to facilitate, coordinate, and evaluate the activities carried out by the Regional Hemophilia Networks (RHNs);  

[NTW] [HEMATOLOGY] Title: New Directions in Hematology Research (SHINE-II) (R01);  
Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS  
Deadline(s): 02/05/2015;  
Contact: E-mail: daniel.wright@nih.gov;  
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?30698;  
Additional Information: SYNOPSIS: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites applications for innovative research initiatives that explore high impact, new directions of inquiry relevant to the hematology research mission of the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). This new Funding Opportunity builds upon the objectives of an on-going program defined by PAS-10-046: Stimulating Hematology Investigation: New Endeavors (or SHINE) (SPIN Program # 06030). With the SHINE-II program, NIDDK invites investigator-initiated grant applications for pre-clinical, proof of principle research projects that are tightly focused and directed at validating novel concepts and approaches that promise to open up new pathways for discovery. Research applications submitted under this FOA should be more limited in scope (a single central aim) and duration (1-3 years) than typical R01 grant applications. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE:
The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. This program will expire on May 8, 2015.

[NTW] [KIDNEY] **Title**: Advances in Polycystic Kidney Disease; (R01);

**Additional Information**: SYNOPSIS: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites applications for basic and applied investigations of the etiology and pathogenesis of Polycystic Kidney Disease (PKD), in both its autosomal dominant and autosomal recessive forms. The ultimate aim is to facilitate PKD-related research studies, which will provide the basis for new therapeutic approaches. This FOA will use the NIH Research Project (R01) award mechanism. DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2016.

[NTW] [KIDNEY] **Title**: Ancillary Studies of Acute Kidney Injury, Chronic Kidney Disease, and End Stage Renal Disease Accessing Information from Clinical Trials, Epidemiological Studies, and Databases (R01);  
**Sponsor**: National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS;  
**Deadline(s)**: 01/07/2015; 02/05/2015; 05/07/2015; 06/05/2015; 09/07/2015; 10/05/2015; 01/07/2016;

**Additional Information**: SYNOPSIS: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) and National Heart, Lung, and Blood Institute (NHLBI) invite investigator-initiated research project applications for ancillary studies to ongoing or completed clinical trials, existing administrative and clinical databases and epidemiological studies of kidney disease as well as clinical trials and epidemiological studies for other diseases or populations that lend themselves to the study of acute kidney injury and chronic kidney disease. These studies may range from new analyses of existing datasets of completed studies to additional collection of data and biological specimens in ongoing investigations. The goal of these studies should be to extend our understanding of the risk factors for developing kidney disease and their associated co-morbid illnesses such as malnutrition and cardiovascular disease, factors associated with rapid decline in kidney function among persons with chronic kidney disease, and the impact of these diseases on quality of life and mental and physical functioning. Investigations of acute kidney injury, including biomarkers are also an appropriate topic for investigation. Studies ancillary to both government and non-government supported clinical trials and epidemiological studies are encouraged. Analysis of large public access databases and other databases is also encouraged. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2016.

Additional Information: SYNOPSIS: SAMHSA is accepting applications for fiscal year (FY) 2015 Primary and Behavioral Health Care Integration (PBHCI) grants. The purpose of this program is to establish projects for the provision of coordinated and integrated services through the co-location of primary and specialty care medical services in community-based behavioral health settings. The goal is to improve the physical health status of adults with serious mental illnesses (SMI) [1]and those with co-occurring substance use disorders who have or are at risk for co-morbid primary care conditions and chronic diseases. The program’s objective is to support the triple aim of improving the health of individuals with SMI; enhancing the consumer experience of care (including quality, access, and reliability); and reducing/controlling the per capita cost of care;

**Additional Information:** Following is an updated announcement for the St. Baldrick’s Foundation Programs. Updated internal guidelines are attached as well. The original announcement contained errors concerning eligibility for the Scholars, Research Grants and Supportive Care Research Grants. For each of these programs applicants may hold Ph.D., M.D. or D.O. degrees.; Limited Submission: St. Baldrick’s Foundation Programs; INTERNAL PROPOSAL DEADLINE – TUESDAY, JANUARY 6, 2015 (9:00 AM); WHAT: The St. Baldrick’s Foundation provides funding through four programs to support pediatric oncology research.; (1) **St. Baldrick’s Fellowships:** The Foundation funds years 3-5 of a pediatric oncology research fellowship, with an opportunity for one additional year of funding. This mechanism is designed to support a Fellow’s salary and benefits only.; **Eligibility:** Applicants must be postdocs and hold an M.D. or D.O. with at least two years postdoctoral training.; (2) **St. Baldrick’s Scholars:** This career development award is to help develop the independent research of highly qualified individuals still early in their careers (no more than five years as a faculty member, post-fellowship). (Up to $110,000/year, three year minimum, with an opportunity for two additional years). This award is for a Scholar’s salary and benefits only; adjustments may be allowed if the Scholar receives other funds after applying, upon Foundation approval.; **Eligibility:** Applicants must hold a Ph.D., MD or D.O. and be in the first 5 years of their independent research career in an Assistant Professor position.; (3) **Research Grants:** These one-year grants are for specific research projects which are hypothesis driven and may be laboratory, clinical or epidemiological research. While the average grant is $100,000 or less, the proposed budget must be realistic for the project.; **Eligibility:** Applicants must hold a Ph.D., M.D. or D.O.; (4) **Supportive Care Research Grants:** These are for research projects which are hypothesis driven and focus on areas related to the supportive care of children and adolescents with cancer. Examples include studies related to symptom clusters, patient-reported outcomes/quality of life, health communication, health promotion, and psychosocial support across the trajectory from diagnosis to survivorship or end-of-life care. While the average grant is $50,000 or less, the proposed budget must be realistic for the project. **Eligibility:** Applicants must hold a Ph.D., M.D. or D.O.; **HOW:** Please see attached internal guidelines for information about the internal competition for each program.; For additional information please contact Greg Culler at gcc19@columbia.edu or (212) 854-6285; Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 408A Low Memorial Library, MC 4312; 535 West 116th Street New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu;

**Additional Information:** Dear Doctor/Health Professional, We are contacting you as we have a posting on Trialect at [www.Trialect.com](http://www.Trialect.com) soliciting Letter of Inquiry (LOI) for GTC Grant for Alzheimer’s Disease Research. The goal of the Global Alzheimer’s Challenge is to accelerate the development of treatments for Alzheimer’s disease by directly funding the world’s most promising clinical trials for Alzheimer’s. GTC targets Phase I and Phase II clinical trials that typically cost between $5 and $15M each. Proposed clinical trials must be testing biomedical (drugs, treatments, devices) interventions for Alzheimer’s disease. Repurposed treatments are acceptable. Proposed clinical trials must be ready to enter Phase I or Phase II trials within three months of receipt of initial funding. The deadline is two weeks away, and we are reaching out to see if your team, at an academic institute or an affiliated company (pharma/biotech/device), would be interested in this opportunity. They can peruse in detail at: [https://app.trialect.com/opportunity/1125/show](https://app.trialect.com/opportunity/1125/show);

Thanks, Trialect Support; +1.805.850.6002 (USA); Support@trialect.com;

**Disclaimer:** Trialect Inc. is a United States Incorporation, which posts grants, courses, fellowships, clinical trials, medical tourism and partnership opportunities exclusively for health professionals in industry and academia. [NTW] [ALZHEIMER'S DISEASE] Title: PILOT GRANT AWARDS for Research on ALZHEIMER’S DISEASE, AGING, AND RELATED DISORDERS

Sponsor: Taub Institute for Research on Alzheimer’s Disease and the Aging Brain;
Deadline(s): Tuesday, February 24, 2015; PROJECT START DATE: June 2015;
Contact: SUBMIT PROPOSALS (10 HARD COPIES AS WELL AS ONE ELECTRONIC COPY) to: Rosann Costa, MA; Taub Institute for Research on Alzheimer’s Disease and the Aging Brain; 630 W168th St, PH18-Rm304. 212-305-9346.; RC181@columbia.edu;
Link(s): http://www.cumc.columbia.edu/dept/taub/res-overview.html;
Additional Information: The Alzheimer's Disease Research Center (ADRC) of the Taub Institute for Research on Alzheimer's Disease and the Aging Brain has funds available for pilot grants. Grants will be considered that propose to investigate all aspects related to Alzheimer’s disease, aging, and related dementing disorders (i.e., vascular dementia, Lewy Body dementia, and fronto-temporal lobe dementia). The use of materials and/or tissues from the ADRC's clinical and neuropathology cores is strongly encouraged. These pilot grants are intended to support feasibility studies that will establish a basis for applying for further research funding. As such, we expect the pilot grants to turn into successful grant applications within two years.; ELIGIBILITY REQUIREMENTS - A full-time Columbia University appointment at the rank of Assistant Professor or the equivalent. In addition, postdoctoral research scientists or postdoctoral research fellows may apply together with their mentors, who must have a full-time, Columbia University appointment at any rank.; PROPOSAL FORMAT – A digital application and 10 hard copies are requested using the PHS 398 Forms, downloadable from: http://grants.nih.gov/grants/funding/phs398/phs398.html; (1) Four-page, maximum description of the project: (·) p. 1 - Aims and Background; (·) p. 2 - Preliminary Findings and Innovation; (·) pp. 3- 4 (1st half) – Methods; (·) p. 4 (2nd half) – Future Plans and Direction.; (2) NIH Biosketch (use link above to download “Biosketch Format Page” and “Biosketch Sample”. Follow provided instructions on Sample Page (i.e. include Personal Statement and a maximum of 15 publications, excluding those submitted or in preparation); (3) Detailed Budget for the first 12-month budget period including percent effort for all key personnel along with a Budget Justification; (4) Statement of Facilities (Resources and Environment Page) available for the research; (5) Other Support.; We ask that all applicants submit a CV together with the application. Applicants without independent space or appointment should also send mentor’s CV accompanied by a brief letter from the mentor stating approval of the application.; BUDGET: Up to approximately $30,000 in direct costs; APPLICATION DEADLINE: Tuesday, February 24, 2015; PROJECT START DATE: June 2015; SUBMIT PROPOSALS (10 HARD COPIES AS WELL AS ONE ELECTRONIC COPY) to: Rosann Costa, MA; Taub Institute for Research on Alzheimer’s Disease and the Aging Brain; 630 W168th St, PH18-Rm304. 212-305-9346.; RC181@columbia.edu; THESE FUNDS ARE AVAILABLE THROUGH NIH GRANT 2-P50 AG008702 FOR THE ALZHEIMER’S DISEASE RESEARCH CENTER, SCOTT SMALL, MD, PRINCIPAL INVESTIGATOR.;

**Link to full program description:** [http://www.infoed.org/new_spin/spin_prog.asp?35756](http://www.infoed.org/new_spin/spin_prog.asp?35756);
**Additional Information:** SYNOPSIS: NIH participating Institutes and Centers invite applications to develop assays for high throughput screening (HTS) for use in Probe and Pre-therapeutic Discovery. Through this FOA, NIH wishes to stimulate research in 1) developing assays for specific biological targets and disease mechanisms relevant to the mission of participating NIH Institutes with the intent to screen for small molecule compounds that show potential as probes for use in advancing knowledge about the known targets, identifying new targets, or as pre-therapeutic leads; and 2) establishing collaboration with screening centers that have the requisite expertise and experience needed in implementation of HTS assays for the discovery and development of small molecule chemical probes. This FOA seeks to establish a stream of scientifically and technologically outstanding assays for screening by the NIH Molecular Libraries Production Centers Network (MLPCN) in the Molecular Libraries Program (MLP) and other academic centers. One important criterion for this initiative is novelty, so applicants are therefore encouraged to avoid focusing on areas and approaches that have been extensively targeted in other settings. Assays should be relevant to the scope of research in at least one of the participating NIH Institutes. This FOA will use the NIH Research Project (R01) award mechanism.;
**DEADLINE NOTE:** The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.;

[NTW] [MENTAL HEALTH/BIG DATA] **Title:** New Computational Methods for Understanding the Functional Role of DNA Variants that are Associated with Mental Disorders (Collaborative R01);
**Sponsor:** National Institute of Mental Health/NIH/DHHS;

**Link to full program description:** [http://www.infoed.org/new_spin/spin_prog.asp?36575](http://www.infoed.org/new_spin/spin_prog.asp?36575);
**Additional Information:** SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for the development of advanced computational, bioinformatic and statistical tools to determine the functional relevance of genetic variants associated with mental disorders of complex etiologies identified through genome-wide association or sequencing studies. The overarching goal of this initiative is to support the development of innovative computational methods that facilitate the elucidation of the functionality of genetic variants associated with mental illness, taking into account the added complexities and nuances of brain diseases, and to ultimately inform the identification and validation of potential targets for novel treatment development. This FOA should be used when two or more sites are needed to complete the study. For a linked set of collaborative R01s, each site must have its own Program Director/Principal Investigator and the set of linked applications provide a mechanism for cross-site coordination, quality control, database management, statistical analysis, and reporting. This FOA will use the NIH Research Project (R01) award mechanism.;
**DEADLINE NOTE:** The deadlines
for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.;

Additional Information: SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for the development of advanced computational, bioinformatic and statistical tools to determine the functional relevance of genetic variants associated with mental disorders of complex etiologies identified through genome-wide association or sequencing studies. The overarching goal of this initiative is to support the development of innovative computational methods that facilitate the elucidation of the functionality of genetic variants associated with mental illness, taking into account the added complexities and nuances of brain diseases, and to ultimately inform the identification and validation of potential targets for novel treatment development. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.;

Additional Information: The Data Science Institute at Columbia University is a world-leading institution in research and education in the theory and practice of the emerging field of data science by advancing technology to unlock the power of global data to help solve some of society’s most challenging problems. We are developing the tools and talent needed to monitor and protect the critical infrastructure we depend upon, improve societal health and patient care, enhance communication and interactions within communities, predict financial failures, and keep personal data safe.; Equally important to this mission is supporting and encouraging interdisciplinary research between faculty from different backgrounds. The Institute aims to help forge closer relationships between faculty interested in data science and its applications across all domains, and to attract graduate students who want to do work within the intersection of data science and established domains. We have sponsored, and will continue to sponsor, events that have brought people together to meet and learn from each other. To further our goal of supporting data-centric interdisciplinary research, we are soliciting proposals for funds that will encourage faculty to work together on initial collaborations, helping to prepare them for proposal submissions to government, industry or foundations.; The Institute is pleased to announce our 2nd call for proposals from Columbia University faculty and research staff. Aimed at advancing research that combines data science expertise with domain expertise, the ROADS Provost Ignition grant is intended to assist researchers who are interested in this theme to come together. We are particularly drawn to faculty teams whose proposed project will enable them to develop successful proposals for large scale grants. We will look for applications that propose unique and novel approaches to bring scholars together to work on projects that cross traditional discipline boundaries. In essence, we are looking for methods that are not just "business as usual."; To post to our site to indicate that you are interested in working on a proposal and finding a collaborator, please click here.; To find collaborators who may be interested in working with you on a proposal, please click here. [inactive link at time of posting]; Funding: Funding is available for two projects, up to $100,000 annually, for a maximum of two years. As a condition of funding, awardees will be required to submit biannual progress reports. Eligibility for continued funding for a 2nd year, will also require a final report. All project reports must include progress on external funding proposal submission(s).; Proposal Submission Deadline: Monday, February 16th, 2015, 4:00 PM. (Neither incomplete nor late applications will be accepted); Anticipated Award notifications: April 1st, 2015.; Proposal Format: Submit the following materials via email, in .doc or .pdf format, to Jonathan Stark, Director of Operations for IDSE, jrs2139@columbia.edu, by the Monday, February 16th, 2015, 4:00 PM deadline: (*) Application Cover Page, Project Proposal & Budget; (*) CV’s for Faculty/Collaborators (2 page NSF style format); (*) Proposals must identify specific large-scale external funding opportunities for which the applicants will compete.; Questions about this opportunity may also be addressed by contacting Jonathan Stark, jrs2139@columbia.edu, (212) 854-6370.; This information is also available on the Institute’s webpage: http://datascience.columbia.edu/provost-ignition-grants; Forwarded from: Jonathan R. Additional Information: From Rudina Odeh-Ramadan, via Rosa Rivera; RE: Ebola Projects/ MTA's; Dear All, The University continues to closely monitor information and recommendations regarding travel to West Africa countries experiencing the Ebola virus outbreak. Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost’s approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.: Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@cumc.columbia.edu; Dear All: Additional clarification regarding the policy regarding research (proposals or MTA’s) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval. One prerequisite for the Provost’s approval will be a written evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission. Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement.; Odeh-Ramadan, Rudina; Associate Vice President For Research Administration; Clinical Trials Office; Office of Research Administration; 154 Haven Avenue; Mail Code: Third Floor; New York NY 10032; United States 212-305-5064; Ro133@columbia.edu;

| Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; |

| Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. ; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment. ; Sincerely, Linda; Linda P. **Title:** CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;  
**Sponsor:** NIH;  
**Deadline(s): Starting in October 2014;**  
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);  
**Link(s):** NOT-OD-13-097;  
**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have **participated** at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in **Participants Section (D.1)** in the
Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: [http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf](http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf).

**TIP** – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles. If you are requesting an eRA Commons ID from SPA, eBiz (http://spa.columbia.edu), please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role. Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!

**Link(s):** eRA Commons Manage Personal Profile: NOT-OD-14-092: [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/);

**Additional Information:** As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards **must** have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning **October 17th, 2014** (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/). Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; **Steph:** Stephanie F. Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey; Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog …. Continue reading →
Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.

Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

Title: New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at [https://www2.gsas.columbia.edu/idp](https://www2.gsas.columbia.edu/idp). Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at [https://www2.gsas.columbia.edu/idp/node/3#summary](https://www2.gsas.columbia.edu/idp/node/3#summary). Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles; Sponsor: NIH eRA Commons IDs and Complete Profiles
Deadline(s): Starting in October 2014;

Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.;

RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Current warnings in the eRA Commons screens alert undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status, and country of citizenship. Some fields have “I Do Not Wish to Provide” as an acceptable response. For those who have completed undergraduate or graduate degrees (grad students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/Pis and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors— they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Research Resources:
http://www.mailman.columbia.edu/faculty-staff/research-resources-r2-office
Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. … Continue reading →

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

**Keep Up With Grants Administration Changes With Our New Timeline**

Want to look into the future? We sure would. But in lieu of clairvoyant powers we’re trying the next best thing: a map to help navigate upcoming changes in grants administration. The grants policy page on grants.nih.gov is now home to an interactive timeline of upcoming changes in grants administration. … Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

**New Website for iEdison Invention Reporting Information:**

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html); I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html) Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;
FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;
Sponsored Projects Administration (SPA) and the
Accounts Payable (AP) department is happy to announce
the release of an updated version of the Fly America Act
policy, effective immediately. SPA and AP have partnered
together on this effort, resulting in a clearer, more
comprehensive policy to ensure compliance with the Fly
America Act. You can find the full policy in the
Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link
contains: * Full policy text, including links to resources; *
FAQs; * A Decision Tree Diagram; * A new form, the Fly
America Exception Checklist.; These resources can also be
found on the SPA website at:

The Fly America Act is a Federal regulation that states that
any foreign air travel that is financed by Federal funds
must be booked on U.S. Flag Air Carriers, regardless of
cost or convenience. Only Federally funded sponsored
projects are subject to this policy. The Fly America Act is
not a new policy. Rather, our offices updated our existing
policies, which now live in a central location in the Policy
Library.

There are specific exceptions to the Fly America Act that
allow travelers to use Federal funds on foreign carriers, but
only under certain circumstances. These exceptions can
be quite complex to interpret. Therefore, our offices
created a Fly America Exception Checklist and Decision
Tree Diagram to assist travelers when booking flights
internationally as part of the work to be done on a Federal
sponsored project. In cases of exceptions, the Fly America
Exception Checklist Form will need to accompany the
Columbia Travel & Business Expense Report (TBER) to
be submitted to AP. Appropriate back-up documentation
should accompany the Checklist. The full policy and
FAQs outline this process.

Anyone planning to travel internationally as part of work to
be done on a Federally sponsored project is responsible for
knowing and adhering to this policy. Please share this
information with all faculty, administrators, postdocs and
students who may be traveling internationally.

When questions arise that are related to the Fly America Act
(for example, what is allowable vs. unallowable, Open
Skies Agreement exceptions, etc.) you may contact your
SPA Project Officer or myself. However, if you have
specific questions about reimbursement of travel expenses
or regarding your supporting travel documentation, you
should contact AP through the Finance Service Center or call
212-854-2122. Thank you.

FOAs FROM AGENCIES REQUIRING INTERNAL COLUMBIA UNIVERSITY VETTING

**Title:** Presidential Scholars in Society and Neuroscience Program; Seed Grants for Interdisciplinary Projects in Society and Neuroscience;

**Sponsor:** Columbia University, Presidential Scholars;

**Deadline(s):** All seed grant applications must be received in full by 5:00 p.m. EST on Monday, January 26, 2015;

**Contact:** For more information, please contact researchinitiatives@columbia.edu;

**Link(s):** NA;

**Additional Information:** REQUEST FOR PROPOSALS;

Presidential Scholars in Society and Neuroscience Program; Seed Grants for Interdisciplinary Projects in Society and Neuroscience; The Presidential Scholars in Society and Neuroscience Program invites all full-time faculty at Columbia University and Barnard College to submit proposals for interdisciplinary projects that lie at the intersection of neuroscience and society and involve collaborative research among the humanities, social sciences, and natural sciences.;

**Background:** Over the last decade, Columbia University has assembled a distinguished group of neuroscientific researchers in the Zuckerman Mind Brain Behavior Institute which, with the infusion of new funds and a new building, stands poised to become one of the most important loci of neuroscience research in the world. Columbia University now seeks to supplement the groundbreaking experimental inquiry of the neuroscience faculty with systematic investigation into the conceptual underpinnings and the social foundations and consequences of such newly obtained knowledge. ; To address this need, President Bollinger has announced the Presidential Scholars in Society and Neuroscience Program to foster innovative research that crosses traditional disciplinary boundaries between the natural and social sciences and the humanities. This Program will (1) provide seed funding for crosscutting research initiatives undertaken by Columbia and Barnard full-time faculty members, and (2) train and foster a new generation of scholars in interdisciplinary research and orientation. These new scholars—the Presidential Scholars in Society and Neuroscience—will be recent doctoral graduates from across the humanities and/or social sciences, who have critical understandings of the cultural and social dimensions of mind, brain, and behavior. They will bring the perspective of disciplines in the humanities and social sciences to intensify and broaden the neuroscientific research base and to bring about transformative interdisciplinary research throughout the University. The Presidential Scholars will be joined by a large group of mentors and affiliated faculty from the humanities, social sciences, and natural sciences. The Call for Applications for Presidential Scholars will be publicized in Fall 2014, with three Scholars to be appointed in July 2015.;

**Seed Grant Competition:** In order to further University-wide interdisciplinary research by Columbia and Barnard full-time faculty in these important subjects, the Presidential Scholars in Society and Neuroscience Program funds annual seed grants. These pilot grants are provided to enable collaboration among faculty in the humanities and/or social sciences, and those in the natural sciences whose primary focus is the empirical...
outline interdisciplinary research that involves either direct study of mind, brain, and behavior. We request proposals from full-time faculty at Columbia University and Barnard College that contribute to these interdisciplinary goals. These proposals should collaboration between neuroscientists and researchers from other disciplines, or traverses traditional disciplinary boundaries in order to investigate issues relevant to society and neuroscience. Proposals should include itemized budget projections. The Presidential Scholars Steering Committee (with input from appropriate scholars) will review submitted proposals. Awards will be made of up to a total of $30,000 for projects of one to two year’s duration.; Proposals should describe clearly the research problem and its significance for society and neuroscience. Generally, proposals that involve research already in progress, or stand-alone curriculum development (although this could be an outcome of the proposed research), will not be funded. Only proposals with detailed budgets and budget justifications will be accepted, and priority will be given to proposals with concrete plans for developing and expanding the research by obtaining additional external funding. All seed grant applications must be received in full by 5:00 p.m. EST on Monday, January 26, 2015. Eligible proposals will then be evaluated based on the following criteria: (*) The intellectual merit and originality of the proposed project; (*) The extent to which the proposed research is interdisciplinary and collaborative; (*) The project’s feasibility, and the appropriate and judicious use of funds; (*) The plausibility of the investigators’ plan for seeking subsequent extramural funding beyond this pilot grant; (*) Background and experience of the investigator(s) for the proposed research; For this inaugural year of seed grant-making, approximately 3-5 grants of up to $30,000 each will be awarded.; Conditions of Receipt: Grant recipients must provide annual reports on project activities, including updates on external funding proposals (successful or unsuccessful), and any papers, publications, and/or reports resulting from seed grant activities. When applicable, research projects involving human subjects must obtain (and keep current) approval from Columbia University’s Institutional Review Board (IRB). Submitting Proposals: For more information, please contact researchinitiatives@columbia.edu. To apply, please submit the following as a single PDF document by 5:00 p.m. EST on Monday, January 26, 2015 to researchinitiatives@columbia.edu; mentioning “Seed Grants for Interdisciplinary Projects in Society and Neuroscience” in the subject line of the email: (*) Cover page, including title of proposal, principal investigators and their departments, an executive summary of the project, and the total funding amount sought; (*) Proposal narrative with timeline of research (no more than 10 pages double-spaced in 12-point font); (*) Itemized projected budget; (*) Budget narrative; (*) CVs for each investigator; (*) Figures or tables; (*) Bibliography and references cited; (*) Plan for securing external funding; (*) Letter of support for the project from principal investigators’ department, center

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. *Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)
For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process.
