NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

[NTW CATEGORIES]: WEEKLY HIGHLIGHT ANNOUNCEMENTS; NIH; COLUMBIA; PILOT; GENETICS; PRECISION MEDICINE; LIMITED SUBMISSION; AGING; INFECTIOUS DISEASES; HIV; VACCINES; AIDS; IMMUNIZATIONS; INFuenza; AUTISM SPECTRUM DISORDER (ASD); GLOBAL HEALTH; HEALTHCARE ASSOCIATED INFECTIONS; BIG DATA; NUTRITION; CLINICAL TRIALS; NEUROLOGY; MALARIA; SOCIAL PROSTHETICS; CARE GIVER HEALTH; EARLY CAREER; CAREER DEVELOPMENT; TRANSLATIONAL; CANCER; SURVIVORSHIP; SUBSTANCE USE DISORDERS (SUDS); ENVIRONMENTAL ISSUES; FOUNDATION FUNDING; ASPPH WEEKLY NEWSLETTER; RESEARCH RESOURCES; INFORMATION SESSIONS;

[NTW] [WEEKLY HIGHLIGHT/ANNOUNCEMENTS (NIH)] Title: Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;
Sponsor: NIH; Extramural Nexus Blog;
Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;
Contact: Please see appropriate links;
Electronic Research Administration: [https://era.nih.gov/](https://era.nih.gov/);
Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph: We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are
updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;

[NTW] [WEEKLY HIGHLIGHT/COLUMBIA/PILOT/GENETICS/PECISION MEDICINE]
Title: Pilot Grant Program;
Sponsor: http://braingenethics.cumc.columbia.edu; Center for Research on Ethical, Legal and Social Implications (ELSI) of Psychiatric, Neurologic & Behavioral Genetics Columbia University Medical Center; Institute for Social and Economic Research and Policy Faculty of Arts and Sciences Columbia University;
Deadline(s): 12/01/2015;
Contact: Direct questions to Paul S. Appelbaum, MD, Director, Center for Research on Ethical, Legal and Social Implications (ELSI) of Psychiatric, Neurologic & Behavioral Genetics, at psa21@columbia.edu; or Jo-Ann Espaillat, Associate Director, Institute for Social and Economic Research and Policy at iserp-funding@columbia.edu;
Additional Information: Below is an announcement of a Pilot Grant opportunity sponsored by the Center for Research on ELSI of Psychiatric, Neurologic, and Behavioral Genetics and Institute for Social and Economic Research and Policy. For distribution to faculty in epidemiology, and also to the Mailman School more broadly.; [Gratefully brought to our attention by] Ruth Ottman, Ph.D.; Professor of Epidemiology (in Neurology and the Sergievsky Center); Deputy Director for Research, G.H. Sergievsky Center; Columbia University; 630 W. 168th Street, P&S Box 16; New York, NY 10032; Phone: 212.305.7892; FAX: 212.305.2526; Email: ro6@cumc.columbia.edu; Pilot Grant Awards for Columbia faculty and affiliates are available, up to a maximum of $20,000, from the Center for Research on Ethical, Legal and Social Implications (ELSI) of Psychiatric, Neurologic & Behavioral Genetics, Department of Psychiatry, Columbia University Medical Center and the Institute for Social and Economic Research and Policy, Faculty of Arts and Sciences, Columbia University. The awards are designed to support pilot work on ELSI issues related to genetics and precision medicine. Proposals addressing ELSI issues related to psychiatric, neurologic or behavioral genetics are especially encouraged. Studies addressing other areas of genetics and precision medicine are also welcome [emphasis added]. Examples of possible projects include implications of new genomic technologies for prenatal and neonatal screening; privacy and surveillance; genetic diagnosis and identity; social and psychological impacts of geneticization; legal and policy implications of precision medicine or
behavioral genetics; and the impact of genetics on the health insurance industry. Pilot Grant Program Projects can address ethical, social, legal, historical or philosophical issues, and should have the potential to lead to additional federal or foundation funding. If the PI is a faculty member within the Faculty of Arts and Sciences, he or she is required to submit future grants through ISERP. Involvement of faculty from more than one discipline is encouraged. Applicants should submit: • A 3-page research proposal that details the specific aims, background to the study, preliminary data (if any), research plan (including plan for data analysis), innovation/significance, and future plans. • An NIH-style biosketch or curriculum vitae for the PI and any associated investigators. • A detailed budget with justification. Proposals will be scored on the basis of: • Innovativeness and significance of the research. • Quality and intellectual merit of the project. • Likelihood of serving as the foundation for obtaining further funding and plan for seeking this funding. Studies “piggy-backed” on existing research projects are welcome. Priority will be given to junior faculty who are interested in research in this area. Both the Center and the Institute actively support diversity and welcome submissions from investigators that address diverse populations, and proposals from investigators of all backgrounds, especially those underrepresented in ELSI research. Proposals should be submitted electronically as a single PDF document to Laura Tejeda (ltejeda@nyspi.columbia.edu) by December 1, 2015. Funding will begin December 15, 2015 and funds must be utilized by May 31, 2016. A final project report will be required. Direct questions to Paul S. Appelbaum, MD, Director, Center for Research on Ethical, Legal and Social Implications (ELSI) of Psychiatric, Neurologic & Behavioral Genetics, at psa21@columbia.edu or Jo-Ann Espaillat, Associate Director, Institute for Social and Economic Research and Policy. at iserp-funding@columbia.edu; Additional information about the Center is available at: http://braingenethics.cumc.columbia.edu; and about the Institute at http://iserp.columbia.edu;

[NTW] [LIMITED SUBMISSION] Title: Limited Submission; NIH Director’s Early Independence Awards (DP5); Sponsor: NIH; Deadline(s): 11/20/2015; (Internal); 12/29/2015 (Sponsor LOI); 01/29/2016 (Sponsor Proposal Deadline); INTERNAL PROPOSAL DUE: 9:00 A.M. ON FRIDAY, NOVEMBER 20, 2015; WHEN: Internal Proposal deadline – 9:00 a.m. on Friday, November 20, 2015; Sponsor Letter of Intent deadline – December 29, 2015; Sponsor Proposal deadline – January 29, 2016; Contact: Please direct questions to gce19@columbia.edu or 212-854-6285.; Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 409A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu; Link(s): RFA-RM-15-006; http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-15-006.html; Additional Information: WHAT: The NIH Director’s Early Independence Awards provide an opportunity for exceptional junior scientists to accelerate their entry into an independent research career by forgoing the traditional post-doctoral training period. Though most newly graduated doctoral-level researchers would benefit by post-doctoral training, a small pool of outstanding junior investigators would benefit instead by launching directly into an independent research career. For these select investigators, who have established a record of scientific innovation and research productivity and who have demonstrated unusual leadership, drive, and maturity, post-doctoral training would unnecessarily delay their entry into performing independent research. The NIH Director’s Early Independence Awards also provide an opportunity for institutions to invigorate their research programs by bringing in the fresh perspectives of the awardee scientists that they host.; At the time of application, the Early Independence Award candidate must be within twelve months before or after the
completion of their PhD (or equivalent) or for clinicians within twelve months before or after the completion of their medical residency (or equivalent) training. The medical fellowship period is NOT included as part of the medical residence or equivalent training. The date of degree receipt is that which appears on the official transcript for the degree. The time of application is the date when the application is submitted electronically to NIH through Grants.gov. In addition, at the time of application, the Early Independence investigator must not have served as a post-doctoral fellow following a previous doctoral degree for more than one year. By the end of the award period, the Early Independence investigator is expected to be competitive for continued funding of his/her research program and for a permanent research position.; Applicants may request as much as $250,000 in direct costs per year, plus applicable Facilities and Administrative costs, for a five year period. Individuals must commit at least 9.6 person-months (80% effort) during the first two years of the project period to research supported by the Early Independence Award. In the final three years of the project period, awardees may reduce effort toward the Early Independence Award, but the total effort towards independent research must still be at least 9.6 person-months (80% effort).; WHO: The following eligibility terms apply.; (*) At the time of application, the individual (Early Independence Researcher) must meet one of the two following eligibility requirements: (1) Must have received a terminal doctoral degree or completed medical residency within the preceding 12 months (between Jan. 29, 2015 and Jan. 29, 2016); OR; (2) Must complete all the requirements for a doctoral degree or complete a medical residency within the following 12 months (between Jan. 29, 2016 and Jan. 29, 2017).; (*) Research independence at time of application: Individuals are eligible only if they, at the time of application submission, do not have research independence. Lack of research independence is defined functionally rather than by position title. Eligible individuals must have all the following characteristics: (1) The candidate's current research agenda is set through concurrence with mentors.; (2) The candidate's research is funded primarily through support to other investigators (mentored fellowships such as NIH F31/F32 Fellowships or NSF Graduate Research Fellowships do not preclude eligibility).; (3) The candidate does not have any space assigned directly by the institution for the conduct of his or her research.; (4) The candidate, according to institutional policy, cannot apply for an NIH R01 grant without special waiver or exemption from the institution.; WHEN: Internal Proposal deadline – 9:00 a.m. on Friday, November 20, 2015; Sponsor Letter of Intent deadline – December 29, 2015; Sponsor Proposal deadline – January 29, 2016; HOW: The internal proposal must include the following components.; PI (Early Independence Researcher) must provide: (*) Research challenge (3-page maximum): What is the scientific challenge that you wish to address in your research? Why is this challenge significant to the biomedical/behavioral research community? What is the expected impact of your research on this challenge? Why did you choose this particular challenge to begin your independent research career?; (*) Approach (2 page maximum): What is your experimental approach in addressing your research challenge? What is the logic that makes this scientifically compelling?; (*) Innovation (1 page maximum): What are the particularly innovative aspects of your proposed research?; (*) NIH Biosketch (2 page maximum); (*) List of achievements as a graduate student; Sponsoring Department / Faculty must provide: (1) Title Page with the following: (*) PI (Early Independence Researcher) name and contact information; (*) Department/Faculty contact person (name, title, department and contact information); (2) Summary of support for proposed Early Independence Researcher; (*) Describe in detail the position into which the Early Independence Investigator will be appointed and how the candidate's independence will be protected during the course of the award.; (*) Describe details of the laboratory space to be provided to the Early Independence Investigator including physical structure and space layout along with the availability of support staff.; (*) Describe the institutional commitment to the Early Independence Program. Matching funds are not required, however, an appropriate level of institutional support is expected. Institutional commitment to the development of the candidate as a successful and independent research scientist will be given considerable attention during the review and selection process.; (*) Evidence of “Institutional Commitment” will be reviewed by the Dean’s Office in each school.; Please PDF all items.
of the internal proposal in one document and email to gcc19@columbia.edu with a cc: to mb3952@columbia.edu by no later than 9:00 A.M. on Friday, November 20, 2015. ANNOUNCEMENTS (NIH and Other)

Title: NIH & AHRQ Announce Upcoming Changes to Policies, Instructions and Forms for 2016 Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-004.html;
Additional Information: This notice informs the biomedical and health services research communities of planned changes to policies, forms and instructions for grant applications submitted in 2016.; The planned changes focus on the following areas: (*) Rigor and transparency in research; (*) Vertebrate animals; (*) Inclusion reporting; (*) Data safety monitoring; (*) Research training; (*) Appendices; (*) Font requirements; (*) Biosketch clarifications; Some of the new policies require additional data collection and updates to our application forms. We have received approval from the Office of Management and Budget to make the needed form updates and we expect to have system support and guidance for these updates in place by March 25, 2016 (NOT-OD-15-146).; In order to move forward with the subset of policies which must remain consistent for all research applications in a funding year, we will implement the policy and guidance changes in two phases.; (*) Phase 1: Implements a subset of the policy changes using existing (FORMS-C) forms and updated instructions and will impact due dates on or after January 25, 2016.; (*) Phase 2: Completes the implementation with the introduction of new (FORMS-D) forms and instructions and will impact due dates on or after May 25, 2016.;

Title: NIH Announces Upcoming Changes to Post-Award Forms and Instructions;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: For general inquiries about the use of forms: GrantsInfo@nih.gov; For inquiries about this Notice: GrantsPolicy@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-005.html;
Additional Information: Purpose: This notice informs the biomedical and health services research communities of planned changes to policies, forms and instructions for interim and final progress reports, and other post-award documents associated the monitoring, oversight, and closeout of an award. This also applies to revised Ruth L. Kirschstein National Research Service Award (NRSA) forms.; Background: Some of the new policies require additional data collection and updates to our post-award forms. We have received approval from the Office of Management and Budget to make the needed form updates and we expect to have system support and guidance for these updates in place by the targeted effective dates listed. Current forms can be used until revised forms are available (see NOT-OD-15-146).;
Title: Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;
Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.

Updated VAS Requirements:
(*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.;
(*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).; (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

Title: NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;
Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs. ;

Background and Related Information: In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

<td><strong>Additional Information:</strong> Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (<em>) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (&quot;assign to&quot;) and negative (&quot;do not assign to&quot;); (</em>) Study Section or Special Emphasis Panel Requests, both positive and negative; (<em>) List of potential reviewers in conflict, and why; (</em>) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&amp;R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;</td>
<td><strong>Additional Information:</strong> This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (<em>) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (</em>) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (<em>) Line spacing: must be no more than six lines per vertical inch; (</em>) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (<em>) Arial; (</em>) Garamond; (<em>) Georgia; (</em>) Helvetica; (<em>) Palatino Linotype; (</em>) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;</td>

Title: Inclusion of Children in Clinical Research: Change in NIH Definition;  
Sponsor: National Institutes of Health;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;  
For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;  
Additional Information: The purpose of this notice is to notify NIH applicants/offerrors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerrors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;  
What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerrors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.;  
Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This sometimes led to confusion on the part of applicants/offerrors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.;  
The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.;

Title: Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): NA; Release Date: 10/09/2015;  
Contact: Please direct all inquiries to: reproducibility@nih.gov;  
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.;  
Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications;  
These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.;  
The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these
The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. *Notes & Exceptions: (*) Career Development Award activity codes excluded from this policy include K02, K05, and K24, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made.; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

FY16 Fringe Rates; 
Sponsor: http://spa.columbia.edu; 
Deadline(s): FY16; 
Contact: Please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd; 
Link(s): http://spa.columbia.edu/proposals/institutional-information; 
Additional Information: Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.; 
Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments; [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.; Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you.; The Budget Tool Team;

Title: Message from President Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.

Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely,

Linda

SCHOLASTIC / SCHOLARLY FUNDING OPPORTUNITIES

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs: The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (9) note some select NIH grant mechanisms may be exempt from reporting in this section. (8) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPRR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; 

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPRR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. **People + Ideas + Time:** Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for **every Tuesday from 10 am to 11 am**. No appointment is necessary. The IRB office is located at **154 Haven Avenue, 1st Floor**. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

**Additional Information**:

Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’
that includes adding the additional budget period information in the budget justification. eRA has just added system support
for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going
forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH
FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a
year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application
due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small
Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs
are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a
rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the
next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you
know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a
separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C
packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter
with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate
from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application
attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become
part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA
Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH
without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at
NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate
students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date
of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not
Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees
(graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where
it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be
required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, …. Continue reading →

**You Ask, We Answer:**

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html); I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html) Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;
FUNDING RELATIVE TO TRAVEL

NA at this point;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act: Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Title: Pilot awards for DBSR DataBase Shared Resource; 
Sponsor: The DataBase Shared Resource (DBSR) of the Herbert Irving Comprehensive Cancer Center; 
Deadline(s): 10/30/2015; 
Contact: Please direct any additional questions to our Database Manager, Natalie Peart, at (212) 305-7409 or email us at dbsr@columbia.edu; 
Link(s): https://r2eport.files.wordpress.com/2014/04/dbsr-fall-2015-pilot-research-award-2015-09-14pdf.pdf; To apply, complete the DBSR Request Form online at https://cumc.corefacilities.org/service_center/3509?tab=services; Additional Information: Subject: CALL FOR PILOT PROJECT APPLICATIONS!!!; The DataBase Shared Resource (DBSR) of the Herbert Irving Comprehensive Cancer Center is announcing their research initiative grant for five in-kind data and biospecimens requests to investigators to support pilot research projects in any cancer-related area.; As the newest shared resource of the cancer center, the DBSR serves to provide access to and storage of clinical information and biospecimens for research purposes by working in conjunction with the Biomarkers Shared Resource, Molecular Pathology Shared Resource, and Clinical Informatics Shared Resource. Centralized linkage of clinical data and cancer registry data to corresponding tissue and biospecimen data from these resources will be a huge asset to the organization, and prove to facilitate research.; The objective of this award is to provide non-salary support for new investigators to help establish their research careers or to support pilot projects that represent new research directions for established investigators. The intent of this award is to stimulate data-driven cancer research and translational research by providing access to CUMC, cancer center and NYP Cancer Registry data and cancer center biospecimens, including blood, urine, sputum, or tissue (fresh frozen or paraffin-embedded) for investigators to explore new outlets that can ultimately lead to subsequent grant applications for more substantial funding and duration.; To apply, complete the DBSR Request Form online at https://cumc.corefacilities.org/service_center/3509?tab=services. The application deadline is October 30, 2015. Award recipients will be notified on November 30, 2015. For more information, see the attached flyer. We will also be hosting an informational session on September 30th in ICRC 5th Floor Conference Room. Please direct any additional questions to our Database Manager, Natalie Peart, at (212) 305-7409 or email us at dbsr@columbia.edu;

**Additional Information:** The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*)  

**Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. Subject: Peer Reviewed Cancer Research Program Funds New Topic Areas

Good afternoon, New areas of interest for the Congressionally Directed Medical Research Programs Peer Reviewed Cancer Research Program:

1. Cancers related to radiation exposure: Investigations into cancers related to radiation exposure should include research directed to improve the understanding of elevated cancer risk among military service members exposed to increased levels of ionizing radiation including: * Modulation by host factors; * Occupational and environmental exposure; * Assessment of risk among active duty and Veterans; * Routes of exposure; * Dose and risk estimates;

2. Myeloproliferative disorders: Studies within the scope of myeloproliferative disorders as defined by the National Cancer Institute (http://www.cancer.gov/cancertopics/types/myeloproliferative) will be accepted. CDMRP has allocated $25M in funds to this program. Information on the submission process and details on the applications can be found at: http://cdmrp.army.mil/funding/prcrp.shtml; Preapplications are due by June 10, 2014. Be sure to submit on time. Feel free to share this information with those in your organization that might be interested. Thanks, Jennie Mettert-Young; Public Affairs; for the USAMRMC, CDMRP; Azimuth, Inc.; Fort Detrick, MD 21702-5024; usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil; Book mark the Congressionally Directed Medical Research Program

Autism Research Program (ARP); Clinical Trial Award; Idea Development Award; Gulf War Illness Research Program (GWIRP); Clinical Trial Award; Innovative Treatment Evaluation Award; Investigator-Initiated Research Award; New Investigator Award; Peer Reviewed Cancer Research Program (PRCRP); Career Development Award; Idea Award with Special Focus; Peer Reviewed Medical Research Program (PRMRP); Clinical Trial Award; Discovery Award; Focused Program Award; Investigator-Initiated Research Award; Technology/Therapeutic Development Award; Peer Reviewed Orthopaedic Research Program (PRORP); Clinical Trial Award; Clinical Trial Development Award; Idea Development Award; Outcomes Research Award; Translational Research Award; Prostate Cancer Research Program (PCRP); Biomarker Development Award; Idea Development Award; Synergistic Idea Development Award

*Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 – CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Therapeutic Development Award
Therapeutic Idea Award

Bone Marrow Failure Research Program (BMFRP)
Idea Development Award

Breast Cancer Research Program (BCRP)
Era of Hope Scholar Award
Innovator Award
Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

The Department of Defense (DoD) Peer Reviewed Medical Research Program (PRMRP) just released a pre-announcement to allow investigators time to plan and develop applications. The FY14 PRMRP will solicit research applications for 25 topic areas, listed below. The official funding announcements and application instructions will be released in April. See below for details.

Defense Health Program
Department of Defense Peer Reviewed Medical Research Program
Funding Opportunities for Fiscal Year 2014
The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $200 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP).

PRMRP pre-announcement
Congressionally Directed Topic Areas. The FY14 PRMRP will solicit research applications for the following 25 topics areas: Acupuncture; Arthritis; Chronic Migraine and Post-Traumatic Headaches; Congenital Heart Disease; DNA Vaccine Technology for Postexposure Prophylaxis; Dystonia; Epilepsy; Food Allergies; Fragile X Syndrome; Hereditary Angioedema; Illnesses Related to Radiation Exposure; Inflammatory Bowel Disease; Interstitial Cystitis; Lupus; Malaria; Metabolic Disease; Neuroprosthetics; Pancreatitis; Polycystic Kidney Disease; Post-Traumatic Osteoarthritis; Psychotropic Medications; Respiratory Health; Rheumatoid Arthritis; Segmental Bone Defects; Tinnitus

Military Relevance: Relevance to the healthcare needs of the military service members, veterans, and beneficiaries is a key feature of each FY14 PRMRP award mechanism.

**Additional Information:** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague. We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.; The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.;  
**Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included:** (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form – only required when the proposed subrecipient is not included in the

FDP Institutional Clearinghouse: In addition to the forms, a detailed budget, budget justification, statement of work and biosketch for each key personnel must be included in the proposal for each subrecipient.; Risk Assessment: SPA, in close collaboration with the Research Policy and Indirect Cost (RPIC) division of the Controller’s Office, will determine a subrecipient’s risk of noncompliance prior to issuing a subaward agreement. SPA will communicate with the PI should there be risks identified. Risks are addressed in a number of ways, and may include imposing specific subaward conditions or additional requirements in the subaward agreement. Risk assessments will not deter proposal submissions.; Should you have any questions about the Policy or forms, please feel free to contact your assigned SPA Project Officer.; Sincerely, Rudina Odeh-Ramadan; Associate Vice President for Research Administration; Sponsored Projects Administration; Carl Sparano; Executive Director, Indirect Cost Analysis; Research Policy and Indirect Cost; Controller’s Office;
