Fall 2019

Mailman School of Public Health Request for Proposals

CUIMC Grants Program For Junior Faculty Who Contribute to the Diversity Goals of the University
(Awards up to $25,000)

Description

This small-grants program is designed to support the Mailman School of Public Health’s diversity plans, by advancing the career success of outstanding junior faculty who contribute to the diversity goals of the University by their research, teaching, and mentoring activities.

Applications will be accepted for:

- Support of new or ongoing research and scholarship
- Seed funding for innovative research for which external funding would be difficult to obtain
- Curricular development projects that focus on issues of diversity

Requests for proposals occur twice a year (fall/spring). The maximum award is $25,000.

Department Chairs and Center Directors should alert eligible faculty members about this RFP. Given the limited number of slots, Schools are strongly encouraged to develop a process for determining which junior faculty proposals will be prioritized and put forward in this round. Departments/Centers planning to nominate a junior faculty member should coordinate with their Dean. Proposals must be submitted with the support and sign-off by the School’s Dean to the Office of Academic Affairs.

Eligibility

Support is intended for untenured faculty in the early stages of their careers who have strong support from their Department Chair or Center Director and who have demonstrated potential for long-term academic appointments. In most cases, this refers to tenure-track faculty members who are at least two years away from tenure review. Some Schools may choose to nominate clinical faculty or professors of practice, provided that these faculty members are in the early stages of their career, hold a full-time professorial appointment, have primary involvement in the conduct of original scholarship and research, and that their Departments are committed to their long-term development. He or she should also have a commitment to diversity as demonstrated in their research, teaching, or mentoring activities.

NOTE: Faculty members who have previously received this award, or a grant from Columbia University’s Professional Schools Diversity Research Fellowships, are not eligible to apply.

Scope of Commitments and Budget

Grants will provide up to $25,000 per successful junior faculty applicant. The typical project period will be 12 months, although projects lasting longer will be considered. The number of awards made will be contingent on the school.

Funds may be used for purposes that directly support a junior faculty member's new or ongoing research and scholarship, seed funding for innovative research for which external funding would be difficult to obtain, and/or curricular development projects that focus on issues of diversity. Budget
items may include, but are not limited to, research assistance, computational resources, procurement of research materials, equipment, travel to scholarly meetings or to conduct research, and supplies. The funds may not be used as salary support for the applicant, support for an unpaid leave of absence, summer salary, or housing supplement. MSPH funds should not be assessed administrative fees.

Application Requirements

The application package must include:
1) Completed cover page (attached), with all the necessary signatures
2) Letter of support from the Department Chair or Center Director that includes the following (each section denoted with a separate header):
   - the qualifications, accomplishments, and future promise of the applicant
   - the School’s/Department’s/Center’s long-term commitment to the applicant
   - how the proposed project will further the career goals of the applicant (e.g. progress toward tenure or promotion or generating additional funding from other sources)
   - how the applicant contributes to the diversity mission of the School/Department/Center
   - the mentoring and support efforts the School/Department/Center is undertaking to advance the applicant’s professional career development
   - the applicant’s commitment to diversity as demonstrated in their research, teaching, or mentoring activities
3) Applicant’s proposal (not to exceed 3 pages)
   - describing the planned project and anticipated outcomes
   - describing how the project will further the career goals of the applicant
   - NOTE: The proposal should be written in such a way that it is understandable to an interdisciplinary review panel
4) Budget and budget narrative, to include explanation of why central funds, as opposed to School, Departmental, or external funds, are needed for the planned activity
5) Applicant’s curriculum vitae

NOTE: The entire application must be submitted as one PDF file, in the order of the application requirements noted above.

Selection Criteria

A Mailman School of Public Health committee will review the applications and will make recommendations to the Dean of their school. Attention will be given to supporting applicants where the need to enhance diversity is most acute.

Proposals will be judged according to the following criteria:
- Scholarly excellence of the applicant
- Quality of the proposed project
- Potential for this award to have a notable impact on a candidate’s career success
- Potential for the proposed work to contribute to the diversity mission of the University, by advancing the career success of a faculty member in a department where the composition of the faculty is not reflective of the composition of the national pool of qualified applicants
- Mentoring and support efforts the School/Department is undertaking to advance the professional career development of the applicant
Reporting Requirements for Awardees

A report should be submitted to the Dean of the Faculties of Health Sciences and Medicine 12 months after the award is made. The report should include a summary of accomplishments (activities and outcomes); final budget report summarizing how funds were expended; and additional supporting materials (for example, publications, reports or conference presentations). Further details on reporting requirements will be provided at the time awards are made. Acceptance of the award indicates a willingness to be listed on our websites and in other Columbia University publications. Schools are asked to inform the Office of the SVP of Faculty Affairs and Career Development of newsworthy announcements related to work supported by the Grants Program for Junior Faculty.

Submission

The submission deadline is 10/25/19. Notifications will be made in December.

CUIMC:
Please submit the complete application with the subject line “Application for Grants Program for Junior Faculty” to Anne Taylor (ataylor@columbia.edu) and Dina Pruitt (dcp2122@columbia.edu).
