NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

[NTW CATEGORIES]: WEEKLY HIGHLIGHT; ANNOUNCEMENTS; NIH; DEPARTMENT OF DEFENSE (DOD); COLUMBIA; GLOBAL POLICY INITIATIVE; HIV; AIDS; BEHAVIORAL SCIENCES; CLINICAL TRIALS; SUBSTANCE USE DISORDERS; PAIN; MOZAMBIQUE; SOUTH AFRICA; BIG DATA; PRIZE; NEUROLOGY; EARLY CAREER; GENOMICS; FOUNDATION FUNDING; GENETICS; INTELLECTUAL DISABILITIES; MATERNAL AND CHILD HEALTH (MCH); SODIUM; NATIVE AMERICAN; USAID; ENVIRONMENTAL; DISASTERS; GULF; HEPATITIS; ADMINISTRATIVE SUPPLEMENTS; SEX/GENDER DIFFERENCES; TRANSLATIONAL; EDUCATION; POSTDOCTORAL; ASPPH WEEKLY NEWSLETTER; RESEARCH RESOURCES ANNOUNCEMENTS; SPRING 2016 R2 INFORMATION SESSIONS;

[NTW] [WEEKLY HIGHLIGHT/ANNOUNCEMENTS/NIH] Title: eRA Information: eRA Commons Status Screen for PIs Now Mobile Friendly ;
Sponsor: http://era.nih.gov;
Deadline(s): NA; 01/15/2016 (effective date);
Contact: http://era.nih.gov;
Link(s): https://m.era.nih.gov/cmb;
Additional Information: [NIH-Investigators] PIs: A New Mobile Friendly eRA Commons Status Screen
Of interest to NIH applicants and awardees. eRA Information: eRA Commons Status Screen for PIs Now Mobile Friendly; Wednesday, January 13, 2016; Beginning on January 15, 2016, a new URL will be available to PIs for mobile access to their status information in eRA Commons. The new URL will be: https://m.era.nih.gov/cmb; This new mobile access means it will be significantly easier for PIs to track and manage grant applications and awards because the Status screen will be easily viewable on a range of devices such as tablets and smartphones. PIs can simply go to the eRA Commons mobile login page and provide their credentials as they normally would when accessing eRA Commons.; The mobile site is designed to provide the basic and necessary information PIs need to track their application submissions and awards. The status screen, resizable due to responsive design, provides a table of all their applications. The applications are grouped based on status, going from Received, Awarded, Pending, Withdrawn, to Not Funded. The column headings are Project Number, Status, Project Title and Date.; Each application can be expanded to show important information such as Priority Score, Percentile, Scientific Review Group (SGR) information and links to other resources, such as the application image and/or summary statement. There is also a Contact section that provides access to a PI’s assigned Scientific Review Officer (SRO), Grants Management Specialist (GMS) and Program Official (PO).; Additionally, at the top of the screen is a large search/filter field. When a PI simply starts to type in any information from any of the columns, the results will be dynamically updated as they type.; Joseph K Schumaker; eRA Communication Specialist, Communications and Documentation; OD/OER/ORIS/eRA; Direct Line: 301.451.5958; Cell: 240.383.7653; email:joseph.schumaker@nih.gov; Electronic Research Administration (eRA); New eRA Commons Online Help System is now available;
[NTW] [ANNOUNCEMENTS/NIH] Title: Updates to NIH and AHRQ RPPR to Address Rigor and Transparency
Sponsor: NIH;
Deadline(s): NA; updated ~ 01/25/2016;
Contact: Questions about rigor, transparency and reproducibility are to be sent to reproducibility@nih.gov;
Additional Information: Please read the full announcement from NIH and AHRQ at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-031.html regarding addressing rigor and transparency in progress reports.; By January 25, 2016, the RPPR instructions will be updated to include additional guidance for Section B – Accomplishments of the RPPR, in addition to the existing instructions. Progress reports submitted on or after January 25, 2016 that are initiated prior to the instruction updates may use the current forms while following these additional instructions. The instructions that will address rigor are listed below for your convenience.; B.2 What was accomplished under these goals?; Include the approaches taken to ensure robust and unbiased results.; B.6 What do you plan to do for the next reporting period to accomplish these goals? Discuss efforts to ensure that the approach is scientifically rigorous and results are robust and unbiased.; The following resources are the best places to go for rigor and transparency guidance: (*) Website describing reproducibility efforts for NIH applicants and grantees; (*) Principles and Guidelines for Reporting Preclinical Research; (*) General Policy Overview (~30 minute narrated presentation); (*) Frequently Asked Questions; NIH wants your questions about rigor, transparency and reproducibility to be sent to reproducibility@nih.gov.

[NTW] [DEPARTMENT OF DEFENSE (DOD)/ANNOUNCEMENTS] Title: DoD Preannouncement for Peer Reviewed Medical Research (UNCLASSIFIED); The Defense Health Program; Department of Defense Peer Reviewed Medical Research Program; Funding Opportunities for Fiscal Year 2016;
Sponsor: Department of Defense (DOD);
Deadline(s): NA; likely posting date (on grants.gov) ~ March 2016;
Contact: Point of Contact: CDMRP Public Affairs; 301-619-9783; mailto:usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil;

Opportunities for Fiscal Year 2016; The Fiscal Year 2016 (FY16) Defense Appropriations Act provides $278.7 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP). The vision of the PRMRP is to improve the health and well-being of all military Service members, Veterans, and beneficiaries. The PRMRP challenges the scientific and clinical communities to address one of the FY16 congressionally directed topic areas with original ideas that foster new directions in basic science and translational research; novel product development leading to improved therapeutic or diagnostic tools; synergistic, multidisciplinary research programs; or clinical trials that address an immediate clinical need.; As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency, Research, Development and Acquisition (DHA RDA) Directorate manages the Defense Health Program (DHP) Research, Development, Test and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP). The PRMRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY16 PRMRP Program Announcements and General Application Instructions are anticipated to be posted on Grants.gov by late March 2016. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Congressionally Directed Topic Areas. The FY16 PRMRP will solicit research applications for the following 39 topics areas: (*) Acute Lung Injury; (*) Antimicrobial Resistance; (*) Chronic Migraine and Post-Traumatic Headache; (*) Congenital Heart Disease; (*) Constrictive Bronchiolitis; (*) Diabetes; (*) Dystonia; (*) Emerging Infectious Diseases; (*) Focal Segmental Glomerulosclerosis; (*) Fragile X Syndrome; (*) Hepatitis B; (*) Hereditary Angioedema; (*) Hydrocephalus; (*) Inflammatory Bowel Disease; (*) Influenza; (*) Integrative Medicine; (*) Interstitial Cystitis; (*) Lupus; (*) Malaria; (*) Metals Toxicology; (*) Mitochondrial Disease; (*) Nanomaterials for Bone Regeneration; (*) Nonopioid Pain Management; (*) Pancreatitis; (*) Pathogen-Inactivated Dried Plasma; (*) Polycystic Kidney Disease; (*) Post-Traumatic Osteoarthritis; (*) Psychotropic Medications; (*) Pulmonary Fibrosis; (*) Respiratory Health; (*) Rett Syndrome; (*) Rheumatoid Arthritis; (*) Scleroderma; (*) Sleep Disorders; (*) Tinnitus; (*) Tuberculosis; (*) Vaccine Development for Infectious Disease; (*) Vascular Malformations; (*) Women’s Heart Disease; Military Relevance: Relevance to the healthcare needs of the military Service members, Veterans, and beneficiaries is a key feature of each FY16 PRMRP award mechanism.; Clinical Trial Award: Assistant Professor level or above (or equivalent); Supports the rapid implementation of clinical trials of novel interventions with the potential to have a significant impact on patient care in the topic area(s) of interest.; Proposed projects may range from small proof-of-concept trials through large-scale, definitive trials.; Investigational New Drug or Investigational Device Exemption applications, if needed, should be submitted to the Food and Drug Administration before the PRMRP Grants.gov application submission deadline.; Preproposal submission is required; application submission is by invitation only; Funding limit not defined; requested funding must be appropriate for the scope of work proposed Maximum period of performance is 5 years; Discovery Award: All Investigators; Supports the exploration of a highly innovative new concept or untested theory.; Not intended to support the logical progression of an already established line of questioning.; Clinical trials will not be funded.; Reviewers will be blinded to the identity of the Principal Investigator (PI), collaborators, and their organization(s); Maximum of $200,000 for direct costs (plus indirect costs); Maximum period of performance is 18 months; Focused Program Award: Full Professor level or above (or equivalent); Supports a synergistic, multidisciplinary research program of at least four distinct but complementary projects addressing an overarching goal in one of the topic areas listed directly above. Projects should work together to answer critical questions, resolve differing hypotheses, and translate laboratory findings to clinical applications. Projects may range from exploratory/hypothesis-developing through small-scale clinical trials that together will address the overarching goal/question. Research team of highly qualified, multidisciplinary project leaders should be led by a PI with demonstrated
success in directing large, focused projects.; Preproposal submission is required; application submission is by invitation only.; Maximum of $10 million for total costs (includes direct and indirect costs); Maximum period of performance is 5 years; Investigator-Initiated Research Award: Assistant Professor level or above (or equivalent); Supports research that will make an original and important contribution to the field of research or patient care in the topic area(s) of interest.; Partnering PI Option available.; Clinical trials will not be funded.; Preproposal submission is required; application submission is by invitation only.; Maximum of $1.2 million for direct costs (plus indirect costs); Maximum of $1.5 million for direct costs (plus indirect costs) for applications including a Partnering PI Option; Maximum period of performance is 3 years; Technology/Therapeutic Development Award: Assistant Professor level or above (or equivalent); Supports the development of diagnostics or therapies that have the potential to make a strong impact on patient care in the topic area(s) of interest.; Product-oriented (e.g., device, drug, clinical guidelines).; Clinical trials will not be funded.; Preproposal submission is required; application submission is by invitation only.; Maximum of $3.0 million for direct costs (plus indirect costs); Maximum period of performance is 3 years; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Applications must be submitted through the federal government’s single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements’ release may be sent to help@ebrap.org. For more information about the PRMRP or other CDMRP-administered programs, please visit the CDMRP website http://cdmrp.army.mil; Point of Contact: CDMRP Public Affairs; 301-619-9783; mailto:usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil; Classification: UNCLASSIFIED; Caveats: NONE;

[NTW] [COLUMBIA/GLOBAL POLICY INITIATIVE] Title: Request for Proposals: Columbia Global Policy Initiative;
Sponsor: http://globalpolicy.columbia.edu;
Deadline(s): 01/25/2016; Applications are due by Monday, January 25, 2016.; Selected semi-finalists will be notified in February 2016 and invited by the Columbia Global Policy Initiative to submit a full project proposal by March 21, 2016; Grant Application Timeline – Columbia Global Policy Initiative; (*) January 25, 2016: Project Briefs are due.; (*) February 2016: Semi-finalists are notified and invited to submit project proposals.; (*) March 21, 2016: Project Proposals are due.; (*) June 1, 2016: Grant start date.;
Contact: Please submit completed project brief forms with CVs of all principal investigators via the Columbia Global Policy Initiative website at http://globalpolicy.columbia.edu/faculty-grants; For further information related to the Columbia Global Policy Initiative or the grant application process, please email globalpolicy@columbia.edu;
Additional Information: GLOBAL POLICY INITIATIVE; COLUMBIA UNIVERSITY; Request for Proposals (RFP) for Global Policy Faculty Grants; $100,000 Award Available from Columbia Global Policy
Initiative; RFP Issue Date: December 18, 2015; Project Brief Due: January 25, 2016; The Columbia Global Policy Initiative seeks to foster research on global problems and to find effective ways of influencing global policy by engaging stakeholders and public policymakers. The Initiative aims to combine the best academic research with the best policy analysis, thereby helping to bridge the gap between scholarship and global policy-making. (*) To this end, the Columbia Global Policy Initiative administers an annual Faculty Grant program to support research that addresses global policy issues. Three Global Policy Faculty Grants are awarded annually. All grants are made on a competitive basis. Award amounts are determined individually by project, with a maximum of $100,000 per year. Depending on annual reviews of benchmarks achieved, selected projects may be renewed for up to three years. All projects should seek to forge interdisciplinary and inter-school faculty collaborations. Projects that collaborate with other universities and institutes, nationally and globally, are also encouraged to apply.; What kinds of projects are eligible for funding? (*) Applied, searching for effective solutions that can be implemented; (*) Research-based, drawing on in-depth, rigorous analyses; (*) Multidisciplinary, bridging departments and schools; (*) Having two principal investigators, from two separate disciplines, at least one of whom must be a member of the Columbia University faculty; (*) Global in nature, having cross-border origins, consequences, or implications; (*) Responsive to the needs and voices of stakeholders; (*) Provide meaningful opportunities for students to engage and collaborate with faculty in research, education, or training; (*) Already have or are currently seeking matching funding opportunities; (*) Have the potential to grow into sustainable initiatives independent of the Columbia Global Policy Initiative that can be implemented by relevant actors or agencies; (*) Provide realistic budgets that effectively leverage the modest funding that is available.; How to apply for funds? To apply, submit a project brief that identifies the policy issues and describes the research strategy and policy outputs of your proposed project, using the template available on our website. Project briefs should not exceed 2500 words. To access the application form and submit completed project briefs with the CVs of all principal investigators, please visit http://globalpolicy.columbia.edu/faculty-grants. Applications are due by Monday, January 25, 2016.; Selected semi-finalists will be notified in February 2016 and invited by the Columbia Global Policy Initiative to submit a full project proposal by March 21, 2016; Grant Application Timeline – Columbia Global Policy Initiative; (*) January 25, 2016: Project Briefs are due.; (*) February 2016: Semi-finalists are notified and invited to submit project proposals.; (*) March 21, 2016: Project Proposals are due.; (*) June 1, 2016: Grant start date.; Submission: Please submit completed project brief forms with CVs of all principal investigators via the Columbia Global Policy Initiative website at http://globalpolicy.columbia.edu/faculty-grants; For further information related to the Columbia Global Policy Initiative or the grant application process, please email globalpolicy@columbia.edu:

[NTW] [HIV] Title: Targeting Persistent HIV Reservoirs (TaPHIR); (R21/R33); 
Sponsor: National Institute of Allergy and Infectious Diseases/NIH/DHHS; Deadline(s): 04/07/2016; 04/07/2017; Contact: E-mail: salzwedelkd@mail.nih.gov; 
Additional Information: SYNOPSIS: National Institute of Allergy and Infectious Diseases (NIAID) and National Institute of Mental Health (NIMH) invite applications designed to stimulate the development of innovative tools and strategies for curing HIV infection. HIV establishes latent infection in long-lived cells that form a reservoir of virus that persists in infected individuals even after years of treatment with highly active antiretroviral therapy (HAART). Curing HIV infection requires innovative strategies to identify and eliminate these reservoir cells. The task is especially difficult given the lack of HIV protein expression during latency and the low frequency of latently infected cells during treatment. Novel approaches are therefore sought to efficiently monitor and specifically target reservoirs of latently infected cells to facilitate the testing of strategies to cure HIV infection in vivo. This FOA will utilize the NIH R21/R33 Phased Innovation Award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted through Grants.gov on or after March 7, 2015. The sponsor will not accept letters of intent under this FOA. The deadline for receipt of full applications is April 7 annually. This FOA will expire on April 8, 2017.;

**Research Resources**

- NIDA, NIAAA and OBSSR invite applications for behavioral intervention development research to test efficacy, conduct clinical trials, examine mechanisms of behavior change, determine dose-response, optimize combinations, and/or ascertain best sequencing of behavioral, combined, sequential, or integrated behavioral and pharmacological (1) drug abuse treatment interventions, including interventions for patients with comorbidities, in diverse settings; (2) drug abuse treatment and adherence interventions for use in primary care; (3) drug abuse treatment and adherence interventions that utilize technologies to boost effects and increase implementability; (4) interventions to prevent the acquisition or transmission of HIV infection among individuals in drug abuse treatment; (5) interventions to promote adherence to drug abuse treatment, HIV and addiction medications; and (6) interventions to treat chronic pain. Research of interest includes but is not limited to Stage II and Stage III efficacy research. This program will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after January 8, 2016. The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2019.;

---

**Additional Information**: SYNOPSIS: NIDA, NIAAA and OBSSR invite applications for discrete well-defined projects that can be completed within two years. Projects of interest fall within the research domain of behavioral or integrated (e.g., behavioral and pharmacological) interventions targeting: (a) substance abuse; (b) prevention of acquisition or transmission of HIV infection among individuals in drug abuse treatment; (c) promotion of adherence to drug abuse treatment, HIV and addiction medications; and (d) chronic pain. Specific examples include, but are not limited to studies focusing on: 1) Stage I intervention generation; 2) Stage I pilot or feasibility and both should include the development of putative moderators, mediators, and change mechanisms; (3) Stage I studies to generate or refine drug abuse treatment or adherence interventions; (4) Stage I research to boost effects and increase implementability of interventions with creative use of technology or through other means. This program will use the NIH R03 Small Grant Program award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Additional Information: SYNOPSIS: National Institute of Dental and Craniofacial Research (NIDCR) invites applications for meritorious research projects that involve statistical analysis of existing genome-wide data (e.g. genome-wide SNP genotyping; DNA sequencing; transcriptomic, metagenomic, epigenomic, or gene expression data) relevant to human dental, oral, or craniofacial conditions or traits. Development of statistical methodology appropriate for analyzing genome-wide data, relevant to human dental, oral, or craniofacial conditions or traits, may also be proposed. This program will use the NIH Small Research Grant (R03) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after January 16, 2016. The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2019.;

[NTW] [PRIZE/NEUROLOGY/EARLY CAREER] Title: Rudel Prize for Neuropsychology Research;
Sponsor: Columbia University;
Deadline(s): 03/04/2016; Proposals must be received by Friday, March 4, 2016;
Contact: For any questions, please email Dr. Yaakov Stern at ys11@columbia.edu; E-mail proposals to: Anke Freude at af2409@columbia.edu;
Link(s): NA;
Additional Information: Rudel Prize for Neuropsychology Research; This prize is awarded to individuals in the early stages of their careers in human neuropsychology or cognitive research. It is designed to help investigators collect pilot data for subsequent research proposals. This prize provides support of $10,000 over one year. The award is supported by the Rita G. Rudel Foundation. Dr. Rudel’s research emphasis was on developmental neuropsychology, so applications in this area are particularly welcome. The prize recipient will be presented at the annual Rudel Lecture; Eligibility: Applications are restricted to early career investigators at CUMC within 5 years of their degree, particularly postdoctoral fellows. Assistant professors without other support may also apply; Applying: (*) The entire proposal should be submitted as a single pdf file; (*) The application should be in the form of a four-page proposal, using at least 11-point font size and .5 inch margins in all directions, consisting of the following: Page 1: (*) Please provide a cover page containing all of the following: (*) Write "Rudel Award", followed by: project title; investigator name, title, phone and fax numbers, e-mail, and street addresses. Postdoctoral fellows, also include the mentor’s name, title.; Pages 2-4: (*) Section I: A brief abstract ending with clearly and succinctly stated hypothesis; (*) Section II: The aims of the proposed research project; (*) Section III: The research significance and potential clinical application(s) of the research; (*) Section IV: The methods. Please clearly describe the research design and specify tests and analyses proposed to develop the pilot data; (*) Section V: A brief statement about the use of the funds; Additional Pages: (*) Appendix A: Provide a standard NIH biosketch for the investigator, and mentor if applicable; (*) Appendix B: For postdoctoral fellows, please include a one-page letter of support from the mentor that includes a brief description of the mentoring plan; Proposal Review and Notification of Grant Awards: Proposals must be received by Friday, March 4, 2016; late submissions will not be considered; For any questions, please email Dr. Yaakov Stern at ys11@columbia.edu; E-mail proposals to: Anke Freude at af2409@columbia.edu;

**Additional Information:** WHAT: The Feldstein Medical Foundation (FMF) is a private foundation, created to promote and advance previously neglected areas of medical research. FMF is particularly focused on funding: Research in previously underfunded areas; Promising junior investigators (assistant professor level) with a history of some prior funding; New or innovative research; and, Research where FMF grants will have the maximum beneficial impact. The FMF’s grants will be made in varied areas of medical research, including: Basic science; Translation/implementation studies; Medical Education Research; and, Early clinical research. The Foundation will not accept proposals for already funded projects or bridging support for projects for which funding has lapsed. Matching monetary or non-monetary resources are encouraged.
A letter of support is required for all matching resources. FMF will fund projects with a total annual cost of up to $75,000 (a maximum of 10% indirect costs may be included) for a period of one year.; INSTITUTIONAL LIMIT: Each institution may submit only one application in each of the following categories (two total): (*) Basic science research; (*) Translational research/clinical research/medical education research; (**) Translational research will include T1 (developing treatments and interventions in early clinical trials), T2 (testing the efficacy of interventions), T3 (dissemination and implementation research for system wide change); WHO: The following eligibility terms apply. (*) The Feldstein Foundation prioritizes funding junior investigators at the assistant professor level who have secured some prior independent funding.; (**) Due to the focus on independence projects that are an extension of senior faculty work are not appropriate.; (**) Publications independent of former mentors, and some level of independent funding, as PI, are both significant signs of independence and will factor in the internal review.; WHEN: Internal Proposal due – 9:00 a.m. on Wednesday, January 27, 2016; Sponsor Proposal due – Friday, March 4, 2016; HOW: The internal proposal must include the following: (1) Cover Sheet with PI’s name, title, department and contact information. Also include a project title and research category (Basic or Translational/Clinical/Medical Education); (2) Project Narrative (Limited to 6 pages, single-spaced using Arial 11-point font with one-inch margins all around. The 6-page limit does not include references), The narrative should be structured in the following sections: (a) Specific Aims, including clear measurable objectives; (b) Background and Significance; (c) Preliminary Studies (if warranted); (d) Research Design and Methods; (a) Timeline (completion of project is expected to occur within 12 months from start date); (1) Letter of Support from Department Chair.; (2) Biosketch in NIH format; (3) Other Funding – please provide a list of current and pending grants; Please combine the five parts of the internal proposal in a single PDF file and email to gcc19@columbia.edu and mb3952@columbia.edu by 9:00 a.m. on Wednesday, January 27, 2016. Deadline(s): 01/12/2016 (LOI); 03/11/2016 (Invited Applicants); Applicants must first submit a three-page letter of intent through RWJF’s online system by January 12, 2016. Only those projects that align with the CFP will be invited to submit a full proposal, which will be due March 11, 2016;
Contact: http://www.rwjf.org/en/contact.html;
Additional Information: Call For Proposals: Systems for Action - Systems and Services Research to Build a Culture of Health; Systems for Action (S4A) is a national program of the Robert Wood Johnson Foundation (RWJF) that studies novel ways of aligning the delivery and financing systems that support a Culture of Health. Building on a foundation of scientific progress from both health services research and public health services and systems research, S4A uses rigorous methods to test strategies for improving the reach, quality, efficiency, and equity of services and supports that promote health and well-being on a population-wide basis. Studies funded through this call for proposals (CFP) will identify system innovations and interactions that drive collaboration and integration across the multiple financing and delivery systems that support a Culture
of Health. Applicants must first submit a three-page letter of intent through RWJF’s online system by January 12, 2016. Only those projects that align with the CFP will be invited to submit a full proposal, which will be due March 11, 2016. For more information, visit the RWJF website.

[NTW] [GENOMICS] Title: Centers of Excellence in Genomic Science (CEGS); (RM1); Sponsor: National Human Genome Research Institute/NIH/DHHS; Deadline(s): 04/20/2016; 05/20/2016; Contact: E-mail: schlossj@mail.nih.gov; Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PAR-14-195.html; Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?40103; Additional Information: SYNOPSIS: National Human Genome Research Institute (NHGRI) and National Institute of Mental Health (NIMH) invite applications for the Centers of Excellence in Genomic Sciences (CEGS) program. The program establishes academic Centers for advanced genome research. Each CEGS grant supports a multi-investigator,
interdisciplinary team to develop innovative genomic approaches to address a particular biomedical problem. A CEGS project will address a critical issue in genomic science or genomic medicine, proposing a solution that would be a very substantial advance. Thus, the research conducted at these Centers will entail substantial risk, balanced by outstanding scientific and management plans and very high potential payoff. A CEGS will focus on the development of novel technological or computational methods for the production or analysis of comprehensive data sets, or on a particular genome-scale biomedical problem, or on other ways to develop and use genomic approaches for understanding biological systems and/or significantly furthering the application of genomic knowledge, data and methods towards clinical applications.; Exploiting its outstanding scientific plan and team, each CEGS will nurture genomic science at its institution by facilitating the interaction of investigators from different disciplines, and, by providing training to new and experienced investigators, it will expand the pool of highly-qualified professional genomics scientists and engineers. This FOA will utilize the Specialized P50 Center grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is thirty days prior to the application deadline(s); The deadline for receipt of full applications is May 20, 2016, by 5:00 PM local time of applicant organization. This program will expire on May 21, 2016.; [*]

**Additional Information:** SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications to develop, adapt, and test the effectiveness of health promotion and disease prevention interventions in Native American (NA) populations. NA populations are exposed to considerable risk factors that significantly increase their likelihood of chronic disease, substance abuse, mental illness, oral diseases, and HIV-infection. The intervention program should be culturally appropriate and promote the adoption of healthy lifestyles, improve behaviors and social conditions and/or improve environmental conditions related to chronic diseases, the consumption of tobacco, alcohol and other drugs, mental illness, oral disease, or HIV-infection. The intervention program should be designed so that it could be sustained within the entire community within existing resources, and, if successful, disseminated in other Native American communities. The long-term goal of this FOA is to reduce mortality and morbidity in NA communities. For the purposes of this FOA Native Americans include the following populations: Alaska Native, American Indian, and Native Hawaiian. The term “Native Hawaiian” means any individual any of whose ancestors were natives, prior to 1778, of the area which now comprises the State of Hawaii. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is 30 days before the application due date. The deadline for receipt of standard full applications is May 12 annually. The deadline for receipt of AIDS-related applications is August 24 annually. This FOA will expire on August 25, 2017.;

[NTW] [USAID] **Title:** Saving Lives at Birth: A Grand Challenge for Development (Round 6);
**Sponsor:** U.S. Agency for International Development;
**Deadline(s):** 02/29/2016;
**Contact:** E-mail: cbrown@usaid.gov;

**Additional Information:** SYNOPSIS: USAID, in collaboration with the Government of Norway, the Bill & Melinda Gates Foundation, Grand Challenges Canada, UK’s Department of International Development (DFID), and the Korea International Cooperation Agency (KOICA) calls for Groundbreaking prevention and treatment approaches for pregnant women and newborns in poor, hard-to-reach communities around the time of childbirth.; The sponsors call for groundbreaking prevention and treatment approaches for pregnant women and newborns in poor, hard-to-reach communities around the time of childbirth. The estimated 2.6 million stillbirths, 2.7 million neonatal deaths and 303,000 maternal deaths that occur globally each year signal a major gap for intervention specifically around childbirth and the early postnatal period, a time when mothers and babies are most vulnerable and global progress in reducing mortality has been particularly poor. This gap in interventions is particularly acute in poor, underserved communities and among women who
are disadvantaged.; DEADLINE NOTE: Expressions of Interest (EOI) shall be submitted by February 29, 2016; 2:00 p.m. EST.;

[NTW] [ENVIRONMENTAL] Title: Research to Action: Assessing and Addressing Community Exposures to Environmental Contaminants; (R01);

Additional Information: SYNOPYSIS: National Institute of Environmental Health Sciences (NIEHS) and National Institute of Nursing Research (NINR) invite applications using community-engaged research methods to investigate the potential health risks of environmental exposures of concern to the community and to implement an environmental public health action plan based on research findings. The overall goal is to support changes to prevent or reduce exposure to harmful environmental exposures and improve the health of a community. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after May 5, 2016. The deadlines for receipt of standard R01 non-AIDS applications applications under this announcement are: February 5, June 5, and October 5 annually. This program will expire on May 8, 2019.;

Additional Information: New ways to learn more about 2016 Gulf Research Program fellowships (apply by Feb. 17); Dear Colleagues, We encourage you and your colleagues to take advantage of two new ways to learn more about the 2016 Gulf Research Program Early-Career Research Fellowships and Science Policy Fellowships for early-career researchers and professionals in the social and behavioral sciences, health and medicine, engineering, earth and life sciences, and relevant interdisciplinary fields.; First, we invite you to watch our fellowship tutorial videos, which provide an overview of the Early-Career Research Fellowships and Science Policy Fellowships and introduce the application process.; Second, we welcome you to attend one of our informal Q&A sessions with 2015 Gulf Research Program fellows and staff at the 2016 Gulf of Mexico Oil Spill & Ecosystem Science Conference in Tampa this February. The sessions will take place at the Gulf Research Program’s conference booth in the Grand Ballroom Foyer at the Tampa Marriott Waterside.; (*) Science Policy Fellows Q&A
session: Wed., Feb. 3, 10-10:30am; (*) Early-Career Research Fellows Q&A session: Thurs., Feb. 4, 10-10:30am; Applications for both fellowships are due on February 17, 2016 at 11:59pm ET. Full descriptions of these opportunities and links to the online application system are available on the Gulf Research Program’s website; Please share this message with your network and register for our email updates to receive reminders about upcoming deadlines and future funding opportunities.; Regards, The Gulf Research Program;

[NTW] [EARLY CAREER] **Title:** Mentored Research Scientist Development Award (Parent K01);  
**Sponsor:** NIH;  
**Deadline(s):** 01/07/2016; 02/12/2016; 05/07/2016; 06/12/2016; 09/07/2016; 10/12/2016; 01/07/2017;

**Additional Information:** SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for the NIH Mentored Research Scientist Development Award. The award provides support and “protected time” (three, four, or five years) for an intensive, supervised career development experience in the biomedical, behavioral, or clinical sciences leading to research independence. Although all of the participating NIH Institutes and Centers (ICs) use this support mechanism to support career development experiences that lead to research independence, some ICs use the K01 award for individuals who propose to train in a new field or for individuals who have had a hiatus in their research career because of illness or pressing family circumstances. Other ICs utilize the K01 award to increase research workforce diversity by providing enhanced research career development opportunities. This FOA will use the NIH K01 award mechanism.;  
**DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: February 12, June 12, and October 12 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2017.; [*]

[NTW] [EARLY CAREER] **Title:** NIH Pathway to Independence Award (Parent K99/R00); Grant; (PA-16-077);  
**Sponsor:** HHS; Department of Health and Human Services; National Institutes of Health; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of General Medical Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke National Institute of Nursing Research; National Library of Medicine; Office of Behavioral and Social Science Research; Office of Behavioral and Social Science Research; Office of Dietary Supplements Office of Dietary Supplements; Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs;  
**Deadline(s):** Application Receipt/Submission Date(s): Multiple dates, see announcement;  
[http://grants.nih.gov/grants/funding/submissionschedule.htm](http://grants.nih.gov/grants/funding/submissionschedule.htm);
Additional Information: The purpose of the NIH Pathway to Independence Award (K99/R00) program is to increase and maintain a strong cohort of new and talented, NIH-supported, independent investigators. This program is designed to facilitate a timely transition of outstanding postdoctoral researchers with a research and/or clinical doctorate degree from mentored, postdoctoral research positions to independent, tenure-track or equivalent faculty positions. The program will provide independent NIH research support during this transition in order to help awardees to launch competitive, independent research careers.

Title: NIH Announces Upcoming Changes to Post-Award Forms and Instructions;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: For general inquiries about the use of forms: GrantsInfo@nih.gov; For inquiries about this Notice: GrantsPolicy@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-005.html;
Additional Information: Purpose: This notice informs the biomedical and health services research communities of planned changes to policies, forms and instructions for interim and final progress reports, and other post-award documents associated the monitoring, oversight, and closeout of an award. This also applies to revised Ruth L. Kirschstein National Research Service Award (NRSA) forms.; Background: Some of the new policies require additional data collection and updates to our post-award forms. We have received approval from the Office of Management and Budget to make the needed form updates and we expect to have system support and guidance for these updates in place by the targeted effective dates listed. Current forms can be used until revised forms are available (see NOT-OD-15-146).

Title: Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;
Sponsor: NIH; Extramural Nexus Blog;
Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;
Contact: Please see appropriate links;
Electronic Research Administration: https://era.nih.gov/;
Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.: Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for
Title: Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;  
Sponsor: National Institutes of Health;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;  

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.  

- (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.  
- (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).  
- (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.  
- (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.  

Title: NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;  

**Additional Information:** This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.  

- Background and Related Information: In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015. In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to:  
  - (*) Reduce the number of tables from 12 to 8;  
  - (*) Minimize the reporting of individual-level information;  
  - (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.
Title: NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: Division of Receipt and Referral, Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csrdrr@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;
Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission.);

Title: NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;
Title: Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
For more information on the child inclusion policy: https://grants.nih.gov/grants/guide/children/children.htm;
Additional Information: The purpose of this notice is to notify NIH applicants/offerees and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerers conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;
What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerers for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.;
Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerers, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/guide/children/children.htm;
Title: Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these
areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Title: FY16 Fringe Rates; Sponsor: http://spa.columbia.edu; Deadline(s): FY16; Contact: Please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.; Link(s): http://spa.columbia.edu/proposals/institutional-information; Additional Information: Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.; Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments; [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.; Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you.; The Budget Tool Team;

DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS

Title: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS;
Sponsor: Mailman School Dean’s Initiative;
Deadline(s): 03/15/2016;
Contact: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7);
Link(s): https://r2eport.files.wordpress.com/2014/04/deans-r01-pilot-funding_precisionmedicine_submissiondeadline03-15-2016.pdf;
Additional Information: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS; PROPOSALS DUE MARCH 15, 2016; The Dean’s Office invites innovative and promising pilot proposals to assist in the preparation of applications for NIH R01 or equivalent grants. These funds are intended to increase the likelihood of federal funding success, and preference will be given to proposals focused on using public health science to advance precision medicine. Prioritized topics may include the use of environmental, behavioral, epidemiological, sociocultural and structural factors in parallel with genomics in personalized interventions; design and analysis of big data to inform individualized prevention and intervention strategies; tailoring methods to educate health providers and patients and to promote equity in access; and scalable implementation of precision medicine to reach a broad population. Priority will be given to pilot proposals that are interdisciplinary in nature and that cross departments within the Mailman School of Public Health. We encourage submissions with multiple PIs. Up to 4 proposals will be funded.; Pilot applications can request up to $25,000 and must be completed within one year. International collaborations are permitted but must be discussed with Pam Factor-Litvak (prf1) or Regina Santella (rps1) prior to submission. Since the major goal of this program is to facilitate the development of collaborations and pilot data in support of an R01 or equivalent application, applicants must have either a professorial or a Research Scientist title. Only one proposal will be accepted from an individual principal investigator.; Instructions for Submission: The written application should be no more than 5 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title Page (1 page maximum, title, investigators and affiliations, abstract); (B) Specific Aims (1 page maximum); (C) Background; (D) Research plan; (E) Future plans, including a timeline for submission to NIH; (F) Budget and Justification (may include reasonable salary support for the PI); (G) NIH Formatted Biosketches for all Key Personnel (in new NIH format); (H) Post award deliverables: Awardees will be required to submit a NIH grant application within 6 months upon completion of the pilot. The NIH grant must be submitted through the Mailman School. Progress report will be required at mid-year and end of year of the funding period.; Review Criteria and Mechanism: An Internal Review Committee will review all proposals. Awardees will be notified by April 15, 2016.; Contacts: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7);

Title: Message from President Bollinger relative to Ebola; Sponsor: Columbia University; Deadline(s): NA; Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment. Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

**Title:** CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs: The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097; 

**Sponsor:** NIH; 

**Deadline(s):** Starting in October 2014; 

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/); 

**Link(s):** NOT-OD-13-097; 

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – note some select NIH grant mechanisms may be exempt from reporting in this section. (§) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: [http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf](http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf). 

TIP — when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles. If you are requesting an eRA Commons ID from SPA-eBiz, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!

**Additional Information:** As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at [eRA Commons Manage Personal Profile](http://spa.columbia.edu/); If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at [SPA-eBiz@columbia.edu](mailto:SPA-eBiz@columbia.edu). Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See [NOT-OD-14-092](http://grants.nih.gov/grants/rppr/). If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/). Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer. 

**Stephanie F. Scott,** M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPRR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. … We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. **The Columbia University Medical Center IRB Office**

The Columbia University Medical Center IRB Office has a standing “**IRB Consultation Hour**”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at **154 Haven Avenue, 1st Floor**. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website:

http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

**Additional Information:**

Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. ADDITIONAL INFORMATION REQUIRED FOR F GRANT APPLICATIONS

Title: REMINDER & Clarification: New NIH Requirement for Fellowship Applications;
Sponsor: NIH;
Deadline(s): Standard Dates;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: Just a reminder and a clarification of the new NIH requirement for fellowship applications (see original notice below). The new “Additional Educational Information” requirement also applies to the Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research (Parent F31-Diversity) and the Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship (F30). I added these two programs, with links clarifying their instructions, to the list below. As always, if you have any questions regarding this new requirement, please contact your SPA Project Officer. Please forward this email to predoctoral and postdoctoral fellows whom you are aware are applying for these fellowships. Thank you.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
As the next NIH deadline for Predoctoral (F31) and Postdoctoral (F32) Fellowship applications approaches August 8th, I wanted to take this opportunity to remind applicants, their mentors, and administrators of the new “Additional Educational Information” document required in the applications. All applications lacking this attachment will be considered incomplete and will not proceed to review. Please refer to the following notices regarding this new requirement: (*) NIH Notice of Clarification (F31s); (*) NIH Notice of Clarification (F32s); (*) NIH Notice of Clarification (Parent F31-Diversity); (*) NIH Notice of Clarification (F30); (*) FAQs for Fellowships; Columbia University’s Office of Postdoctoral Affairs (OPA) provides template language you can include in the “Additional Educational Information” document for F32s. This language can be obtained from the OPA website at http://www.postdocs.columbia.edu/funding.html. If you have any questions regarding this new requirement, please contact your SPA Project Officer.

NEW ITEMS FROM THE NIH

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

NIH eSUBMISSION ITEMS OF INTEREST

Title: REVISED: New Biosketch Format Required 5/25/15;
Sponsor: NIH;
Deadline(s): 5/25/15; (The requirement is no longer January 25, 2015);
Contact: Grants Information Office of Extramural Research (OER) National Institutes of Health (NIH) Phone: 301-435-0714; Email: GrantsInfo@nih.gov: As always, [also] feel free to contact your assigned Project Officer in Sponsored Projects Administration (SPA) should you have any questions.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
**Don’t Forget the eSubmission Basics:** I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. _If you can’t view it, we can’t review it!_
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’
that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. … Continue reading →

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. …. Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

**New Website for iEdison Invention Reporting Information:**

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. .... **You Ask, We Answer:**

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf); [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf);

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:
http://spa.columbia.edu/policies/us-flag-carrier-policy.;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

**Additional Information:** The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/unsubscribe to program specific news and updates at https://ebrap.org.
