<td>Workshop on Developing Dissertation Grant Applications - The F31 and R36</td>
<td>Workshop on Developing Dissertation Grant Applications - The F31 and R36, on Thursday 02/08/2018 (ARB SMS Conference Room 923) and Wednesday 02/21/2018 (HPM Classroom 492) from 11:30 AM – 12:50 PM. This two session workshop moderated by Drs. Leslie Davidson, Professor of Epidemiology, and Pam Factor-Litvak, Professor of Epidemiology, and Associate Dean, Research Resources is designed particularly for second and third year doctoral students planning to submit F31 or R36 applications to the NIH for dissertation training funding. The workshop provides an overview of application requirements and addresses elements important in developing a compelling application. It provides useful information, which will facilitate the work a student undertakes with his or her mentor to develop specific aims, a training program and the scientific narrative. Mentors are also welcome to attend. We will repeat the workshop in the Fall of 2018. Topics covered will include overview of the F31 and the R36s, developing specific aims, working with an NIH program officer, choosing a mentor, developing a training program and grantsmanship in making your application compelling.</td>

**Spring 2018 Research Resources Information Sessions Brochure**

**Additional Information:** We invite second & third year doctoral students and faculty mentors to join Research Resources, and the Mailman School Doctoral Committee for a **Workshop on Developing Dissertation Grant Applications - The F31 and R36**, on Thursday 02/08/2018 (ARB SMS Conference Room 923) and Wednesday 02/21/2018 (HPM Classroom 492) from 11:30 AM – 12:50 PM. This two session workshop moderated by Drs. Leslie Davidson, Professor of Epidemiology, and Pam Factor-Litvak, Professor of Epidemiology, and Associate Dean, Research Resources is designed particularly for second and third year doctoral students planning to submit F31 or R36 applications to the NIH for dissertation training funding. The workshop provides an overview of application requirements and addresses elements important in developing a compelling application. It provides useful information, which will facilitate the work a student undertakes with his or her mentor to develop specific aims, a training program and the scientific narrative. Mentors are also welcome to attend. We will repeat the workshop in the Fall of 2018. Topics covered will include overview of the F31 and the R36s, developing specific aims, working with an NIH program officer, choosing a mentor, developing a training program and grantsmanship in making your application compelling.

**Additional Information:** HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.; Status of the Revised Common Rule: The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information...; Revised Policies: Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!; Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be access here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; Upcoming HRPO Education Sessions: Monthly IRB-Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you! Please send us your questions as well as suggestions for topics for future education sessions! We look forward to hearing from you!; https://research.columbia.edu/irb; Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu; Columbia | Research Human Research Protection Office; Institutional Review Boards
Update on Research Support Services

**Sponsor:** Mailman School

**Deadline(s):** relative to upcoming 02/05/2018 NIH Grant Submission Deadlines: 01/01/2018 (Inform R2 of intent to utilize services); 01/08/2018 (science draft for external review); 01/22/2018 (submission for editing services)

**Contact:** Pam Factor-Litvak (Associate Dean, Research Resources, and Professor of Epidemiology) prf1@columbia.edu; Craig Kandell (Project Coordinator, Research Resources) ckk7@columbia.edu

**Link(s):** https://r2eport.files.wordpress.com/2014/04/deanschargeexternalexternalreviewfall2017aspostededited10-31-17pdf.pdf

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. For those of you submitting grants for the February 5 NIH deadline, please keep in mind the following deadlines:

- **January 1**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **January 8**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **January 22**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services are limited to first-time submissions of R01, P, K, Center, or other complex NIH proposals by full-time faculty with primary appointments in the School. For other grant types and resubmissions, Research Resources is available to provide feedback.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

Pam Factor-Litvak
NIH single IRB (sIRB) policy

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after) 01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites.; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. An information session will be held on Wednesday, January 17th from 3:30 – 5:00 pm, which will include an overview of all the NIH Human Subjects and Clinical Trial policies affecting proposals due on or after January 25th, 2018. This session will include Columbia University’s implementation of the sIRB policy. It is open to all faculty and administrators. No RSVP required, and you can add this event to your calendar here.; On January 18th, our quarterly Research Administration Forums will also include sIRB on the agenda. More information about the Forums can be found here.; On January 25, 2018, the Monthly IRB-Investigator Meeting will also include information on requirements for and processes relating to the NIH Single IRB Policy.; **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template).; [https://research.columbia.edu/content/nih-proposal-information](https://research.columbia.edu/content/nih-proposal-information); As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by Stephanie F. While open to applicants from all P&S clinical departments, preference will be given to applicants from Dermatology, Medicine, Surgery, and Urology. Candidates should hold the rank of assistant professor and be starting a career in clinical research. Prospective applicants must consult with their departmental chair before completing these application materials; Named Professorship Tenure: Three (3) years; Annual Stipend Amount: $60,000; Quantity: Based upon availability of funds; Deadline: Friday, March 9, 2018 by 5:00pm EST; Further information can be found here.; Application Procedure and Deadline; Applications must be merged into one PDF document and emailed no later than 5:00p, Friday, March 09, 2018, to es3153@cumc.columbia.edu [*]

Reach for the First R01 Workshop

Sponsor: Irving Institute

Deadline(s): 02/07/2018

Contact: For questions about the application process, please contact Sophia Li Ferry, ssl2133@cumc.columbia.edu.

Link(s): http://www.irvinginstitute.columbia.edu/education/Reach_for_R01.html

Additional Information: Reach for the First R01 Workshop; Now Accepting Applications; The Irving Institute is pleased to offer the Reach for the First R01 workshop available twice a year to all promising junior faculty. Up to six junior investigators are selected for this workshop each term (Fall and Spring), across all departments. Specifically, successful applicants will receive free hours of biostatistical consulting, access to other Irving Institute Resources, 2 expert pre-reviews on an early draft of their R01 application, and bi-monthly, closely-monitored meetings to ensure structure and timeliness in completing the tasks required to successfully submit a first R01 application. These resources are intended to enhance, rather than replace, appropriate mentoring. An applicant without excellent mentoring cannot be seen as competitive for this Workshop.; To be eligible: (*) Must be an Early Stage Investigator by the NIH definition; (*) Must be supported/recommended by a senior faculty member (applicants must submit a letter from a senior faculty member who can speak to the applicant's ability to write an independent award and the faculty member's willingness to advise on substantive issues), as well as a letter from their Department Chair; (*) Must plan for their first submission to be June 5, 2018 (not before or after); (*) Must submit their application by 5:00pm EST on Friday, February 7, 2018 to be considered for this cycle; the workshop will start in early February 2018 and will be held on select Fridays from 3:00-4:00pm; (*) Receipt of a "K" award or equivalent is not required to be considered for this award. The application with further instructions and referee forms can be downloaded six to eight weeks prior to the start of each workshop. Please note, more than one junior faculty per Department may apply; Application deadline: Friday, February 7, 2018; (*) Learn more and submit an application.; For questions about the application process, please contact Sophia Li Ferry, ssl2133@cumc.columbia.edu. **Additional Information:** NCATS Funded Innovation Lab; Now Accepting Applications; Applications are now being accepted for the second NCATS funded Innovation Lab for early career researchers. The focus for developing research will be on "Staying Power: Developing Lifestyle Interventions that Last"; A focus on sustaining the effects of obesity, fitness, and lifestyle interventions is an essential extension of the majority of studies that focus on 12- to 16-week interventions in narrow populations, with comparatively short follow-up. This requires a next generation of research in promoting and sustaining healthy lifestyles. Completely new interventions, measurement approaches and collaborations across disciplines will be essential to promote breakthroughs. About 25 applicants who are within ten years of completing a terminal research degree or clinical training will be invited from the pool of applicants.; Application Submission Deadline: **February 9, 2018**; Innovation Lab in Warrenton, VA: **April 23-27, 2018**; Click here for more information. NIH ANNOUNCEMENTS: On December 31, 2017

Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission

**Sponsor:** NIH  
**Deadline(s):** 12/31/2017 (Effective Date)  
**Contact:** Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminsS@mail.nih.gov  
**Link(s):** https://grants.nih.gov/grants/how-to-apply-application-guide/prepare-to-apply-and-register/submission-options.htm

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission.; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH's ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more);
Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH's ASSIST a try. It's a user-friendly, online solution optimized for NIH applications.; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original.; Hope you have a great holiday season! Changes to NIH policies and procedures related to human subjects research
Sponsor: NIH
Deadline(s): these proposal application changes in effect for proposals due January 25th, 2018 or later; 01/25/2018 (Effective Date)

Contact: [brought to our attention by] Meredith D. Temple-O'Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@mail.nih.gov; [and Stephanie Scott; Director of Policy and Research Development; Sponsored Projects Administration; sfs2110@cumc.columbia.edu]

https://grants.nih.gov/policy/clinical-trials.htm
Additional Information: I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH's definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants?; (2) Are the participants prospectively assigned to an intervention?; (3) Is the study designed to evaluate the effect of the intervention on the participants?; (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm;
Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials; If selected for funding, you will need to...
designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov; Doing human subjects research? New policies will impact you! Learn more.; Updated application forms (FORMS-E) are required for due dates of January 25, 2018 and beyond – includes new Human Subject and Clinical Trial Information Form. Take a tour of the new form.

NIH FOAs with FORMS-E

https://grants.nih.gov/grants/guide/parent_announcements.htm

**Additional Information:** Update: NIH FOAs with FORMS-E; For those of you planning to submit NIH proposals in February, NIH has reissued the Funding Opportunity Announcements (FOAs) for the Parent R01, R03, R21, and most Career Development Awards (K-series) with FORMS-E to be used with application due dates January 25th, 2018 or later. Before initiating an application package, you must first determine whether the study meets the definition of a clinical trial, and then select the appropriate FOA: https://grants.nih.gov/grants/guide/parent_announcements.htm ; If submitting an application with a due date before January 25th, 2018 (such as an AIDS-related application due January 7th), you must select an opportunity that supports FORMS-D. For example, if preparing an R01 application: (*) Use PA-16-160 (FORMS-D) for the January 7th 2018 AIDS-related deadline. (*) Use PA-18-345 (FORMS-E) for the R01 clinical trial February 5th deadline.; (*) Use PA-18-484 (FORMS-E) for an R01 application that is NOT a clinical trial due February 5th. ; Due to the complexity of FORMS-E, in particular the new PHS Human Subjects and Clinical Trials Information Form, we very strongly suggest that you submit your proposals early to SPA and encourage submission five business days prior to the NIH deadline. ; We have begun testing the new forms in both ASSIST and InfoEd. Further guidance will be provided soon. Please feel free to reach out to me, or your assigned SPA Senior Project Officer, with questions. We will continue to update you. ; For more information on the release of Parent Announcements, see NIH Plans for Clinical Trial Specific Parent R01 and Parent R21 Funding Opportunity Announcements. ; [brought to our attention by] Stephanie F. **Additional Information:** Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post: Key takeaways: (*) If any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “clinical trials not allowed” or “Clinical trials optional”.; (*) “The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully.”; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.”; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed the

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed to Faculty]: Dear Mailman School faculty, In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R®, and is entirely optional; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due; [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. (3) to Four (4) weeks prior to submission; [in the case of the 10/05/2017 deadline, 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks)] the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission; [in the case of the 10/05/2017 deadline, 09/21/2017 – 09/25/2017], and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu; I hope you will consider taking advantage of these new services and that you find them helpful; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)
Sponsor: Sponsored Projects Administration
Deadline(s): NA, FY2018 Announcements, brought to our attention on 07/06/2017
Contact: Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.
Link(s): http://finance.columbia.edu/content/fringe-benefit-rates
https://spa.columbia.edu/proposals/institutional-information

Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates.; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates.; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

Dear Colleagues, We believe we can both help Columbia faculty and staff strengthen the outreach component of their research proposals and extend the impact and longer-term stability of our existing excellent outreach programs by creating a **centralized database of such programs** for researchers to consult when crafting their proposals. Leveraging our experience base and established partners as well as citing outcomes data of existing programs may strengthen the outreach components of new research grant proposals, and may create an opportunity to share mutual administrative costs.; However, at present no centralized source exists for PIs to identify programs to consider when developing extramural proposals. From community service, to public lectures, to tutoring and mentorship, we wish to catalogue information about all the ways in which Columbians directly interact with the outside community.; Please report the outreach programs that you administer via the following form by **Monday, July 31st**: HTTPS://GOO.GL/FORMS/XR8V6QIfHTG4PHWM1 ; Please submit this form once for each program. The Office of the Executive Vice President for Research will host the catalogued information on their new website, with the new page launched during the late summer months. You will have the annual opportunity to update previously entered information.; Should you have any questions regarding this request, please contact Marley Bauce, Manager of Community Affairs, to publicinput@od.nih.gov.

Dear ACD Colleagues, Today, NIH issued an NIH Director's Statement for Government and Community Affairs. This effort will only succeed with your participation.; Sincerely, G. Michael Purdy, PhD; Executive Vice President for Research; Maxine Griffith; Executive Vice President for Government and Community Affairs.

NIH to Limit Total Grant Support to PIs

http://www.nature.com/news/nih-grant-limits-nile-biomedical-research-community-1.21949

**Additional Information:** NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a "Grant Support Index" that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

When the system is available again, you will see new features and functionality that have been added to the system.; Highlights of ASSIST’s January Software Release: (*) New Access Maintainer Role; (***) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (***) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization.; (***) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (***) Access Management within ASSIST for individual applications has not changed.; (*) Multi-Employment Functionality; (***) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (***) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the “Select” button.; (*) New Link for SOs from ASSIST to Commons Status Screen.; (***) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page.; (***) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed.; (***) This link is only available to Signing Officials.; (*) A Warning if Appendix Material is Submitted in Applications.; (***) Per the policy outlined in NOT-OD-16-129, the submission of most appendix materials has been eliminated from NIH applications.; (***) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (*) Form Lock Message Includes User Name; (***) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (***) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock.; Highlights of eRA Commons January Software Release: (*) Final RPPR Section D.1 Added; (***) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included.; (***) § 8 Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (***) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a provided picture has been linked at];
https://2report.files.wordpress.com/2014/04/nihannouncemntpicnpdfformat.pdf; New Status Information screen with some sections expanded, other collapsed; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; (§) Expand All (default view) and Collapse All buttons show and hide the information on the screen; (*) New Text Filter; (§) A new field will allow you to enter text and display the results on those sections with matches; (§) Matching text will be highlighted, allowing you to quickly locate the information; (*) Important information is displayed

Link(s): https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm

Additional Information: Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff; Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information.; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016

Sponsor: NA
Deadline(s): 07/01/2016 (effective)
Contact: Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.
Link(s): http://spa.columbia.edu/proposals/institutional-information
Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%.; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH "Open Mike" Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements; Sponsor: NIH; Extramural Nexus Blog; Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016; Contact: Please see appropriate links; Link(s): https://nexus.od.nih.gov/all/category/blog/open-mike/; Series of recent NIH Guide Notices: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-004.html; Enhanced Rigor and Reproducibility: http://nexus.od.nih.gov/all/2015/06/09/enhancing-reproducibility-in-nih-supported-research-through-rigor-and-transparency; Electronic Research Administration: https://era.nih.gov/; Additional Information: Below is a nice summary from the NIH "Open Mike" blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Step; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount
of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We'll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden. For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We'll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven't tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.

Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;
Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via
the eRA Commons beginning October 16, 2015; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csrcr@mail.nih.gov;
**Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
**Deadline(s):** Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;
**Contact:** Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;

**Additional Information:** This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

**Inclusion of Children in Clinical Research: Change in NIH Definition:**
**Sponsor:** National Institutes of Health;
**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
**Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html);
**Additional Information:** The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;

**What’s Changing:** Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of
inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; **Reason for Change:** Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: [https://grants.nih.gov/grants/funding/children/children.htm](https://grants.nih.gov/grants/funding/children/children.htm);

**Additional Information:** This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* Career Development Award applications submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

**FY16 Fringe Rates;**  
**Sponsor:** http://spa.columbia.edu;  
**Deadline(s):** FY16;  
**Contact:** Please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd;  
**Link(s):** http://spa.columbia.edu/proposals/institutional-information;  
**Additional Information:** Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd; Thanks: Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16
fringe rate is 8.15%]; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.; Next Steps: When you open the Budget Tool, a message that says "You have unapplied payroll changes" will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC. If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you.; The Budget Tool Team;

**Additional Information:** Dear fellow members of the Columbia community, Now in its 12th year, the University’s Faculty Diversity Initiative continues to support our core values of inclusion and excellence. The Provost’s Grants Program for Junior Faculty Who Contribute to the Diversity Goals of the University is a key component of Columbia’s ongoing commitment to maintaining a diverse and thriving faculty body. I am pleased to write today to announce the Fall 2016 awardees of the Junior Faculty Diversity Grants program. Grantees were selected through a competitive process, with all applications reviewed by a committee of faculty from both the Morningside and Medical Center campuses; This most recent round of funding follows seven prior rounds of support from this program. Since the Junior Faculty Diversity Grant was launched in 2013 it has supported eighty-two projects across the university. Information on the program and the previous rounds of funded projects can be found here; Please join Vice Provost for Faculty Diversity and Inclusion Dennis A. Mitchell and me in congratulating the recipients of these grants; John H. Coatsworth; Provost; List of Awardees-Fall 2016:

Dear Colleagues,

We were pleased to see so many faculty and staff members at the annual HIPAA Privacy and Information Security Briefing. Those of you who were unable to attend the briefing can watch a video of it here: [2016 HIPAA Privacy and Information Security Briefing](http://grants.nih.gov/grants/multi_pi/sample_leadership_plans.pdf). The slides and video link are also on the CUMC HIPAA website under HIPAA Educational Information.; Although the session was not mandatory, it outlined important information about CUMC's privacy and information security programs. We encourage you to familiarize yourself with the material.;

Thank you for your partnership in this endeavor helps make CUMC one of the nation's leading medical centers.; Sincerely, Karen Pagliaro; Privacy Officer; Columbia University Medical Center

Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from medicine to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH.; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

EBOLA and ZOONOTIC DISEASE

Message from President Bollinger relative to Ebola;

Sponsor: Columbia University;
Deadline(s): NA
Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New York-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Additional Information: NIH recently announced its research priorities for studies to investigate how Zika virus infection affects reproduction, pregnancy, and the developing fetus. The virus has been linked to a spike in cases of microcephaly—an abnormally small head resulting from an underdeveloped or damaged brain—among newborn babies;

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: [http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf](http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf); TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. **Additional Information:** As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at
SPA-eBiz@columbia.edu; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr

Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. ... We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. ... Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P50, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you; Stephanie F. The **Columbia University Medical Center IRB Office** has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website:
http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

**New Program for NIH-funded Grad Students and Postdocs; Sponsor:** NIH; **Deadline(s):** Open Ended;
**Contact:** Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html; https://www2.gsas.columbia.edu/idp; https://www2.gsas.columbia.edu/idp/node/3#summary;
**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact
Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program;

REMINDER & Clarification: New NIH Requirement for Fellowship Applications;

Sponsor: NIH;
Deadline(s): Standard Dates;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

The new “Additional Educational Information” requirement also applies to the Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research (Parent F31 - Diversity) and the Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship (F30). I added these two programs, with links clarifying their instructions, to the list below. As always, if you have any questions regarding this new requirement, please contact your SPA Project Officer. Please forward this email to predoctoral and postdoctoral fellows whom you are aware are applying for these fellowships. Thank you;

Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

As the next NIH deadline for Predoctoral (F31) and Postdoctoral (F32) Fellowship applications approaches August 8th, I wanted to take this opportunity to remind applicants, their mentors, and administrators of the new “Additional Educational Information” document required in the applications. All applications lacking this attachment will be considered incomplete and will not proceed to review. Please refer to the following notices regarding this new requirement: NIH Notice of Clarification (F31s); NIH Notice of Clarification (F32s); FAQs for Fellowships; Columbia University’s Office of Postdoctoral Affairs (OPA) provides template language you can include in the “Additional Educational Information” document for F32s. This language can be obtained from the OPA website: http://www.postdocs.columbia.edu/funding.html

If you have any questions regarding this new requirement, please contact your SPA Project Officer. Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

[NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
**Sponsor:** NIH eRA Commons IDs and Complete Profiles;
**Deadline(s): Starting in October 2014;**
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
**Link(s):** eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year's funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); "NIH eSubmission Items of Interest" (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - "If you could tell the applicant community one thing about application submission what would it be?" I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

• Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
• Use PDF format for all attachments. Follow PDF Guidelines.
• Submit early – days, not minutes – to allow time to correct unforeseen errors.
• Track your submission in eRA Commons. Email can be unreliable.
• Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
• If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR Form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small
Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what I thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be **required** for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/ppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**Mentorship Matters for the Biomedical Workforce**

**Posted on June 6, 2014 by Sally Rockey**

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. … Continue reading →

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-
SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. .... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

New Website for iEdison Invention Reporting Information:

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. .... You Ask, We Answer:

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html. I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 submission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new US Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g. now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0I3.doSVZ.dpuf;  

TRAVEL / CONFERENCE / MEETING SUPPORT  

**FEDERAL FUNDING TRAVEL POLICY**  

[NIH-Investigators] New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;  

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.  

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.  

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project...

For both deployed and non-deployed, retirees, and Veterans, the FY16 PRCRP seeks to support studies addressing at least one of the Topic Areas as directed by Congress. Research applications in the areas of breast, prostate, lung (excluding mesothelioma), or ovarian cancer will not be accepted; The FY16 PRCRP Topic Areas are: Bladder cancer (New for FY16); Liver cancer; Pancreatic cancer; Colorectal cancer; Lymphoma (New for FY16); Pediatric Brain Tumors (New for FY16); Immunotherapy* (New for FY16); Melanoma and other skin cancers; Stomach cancer; Kidney cancer; Mesothelioma; *As derived from the National Cancer Institute Dictionary of Cancer terms: Immunotherapy is a type of biological therapy that uses substances to stimulate or suppress the immune system to help the body fight cancer. Cancers studied under this topic area should be within the scope of the Congressional language and the intent of the Program Announcement(s); The FY16 PRCRP Military Relevance Focus Areas are: To address the cancer health needs of both deployed and non-deployed personnel, their dependents, retirees, and Veterans, the FY16 PRCRP seeks to support studies that are responsive to the Military Relevance Focus Areas listed below: (*) Militarily relevant risk factors associated with cancer (e.g., ionizing radiation, chemicals, infectious agents, and environmental carcinogens); (*) Gaps in cancer prevention, screening, early detection, diagnosis, treatment, and/or survivorship that may affect the general population but have a particularly profound impact on the health and well-being of military members, Veterans, and their beneficiaries; Applications that address exposures, conditions, or circumstances that are unique to the military, or disproportionately represented in a military beneficiary population, are the highest priority, though any
applications that address the above focus areas will be considered.;

Dear Colleague,

We are writing to announce the release of the "Policy on Charging and Documentation of Personnel Costs Charged to Sponsored Projects," which has been updated to reflect the provisions of the Uniform Guidance. This Policy was recently revised to ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.

The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.
