[NTW] [REMEMBER/NEUROSCIENCE] Title: [Presidential Scholars] Final Call for Faculty Seed Grant Applications - Presidential Scholars in Society and Neuroscience; Presidential Scholars in Society and Neuroscience Program; Faculty Seed Grants for Interdisciplinary Projects in Society and Neuroscience;
Sponsor: Columbia University;
Deadline(s): Reminder: Applications for Faculty Seed Grants for Interdisciplinary Projects in Society and Neuroscience are due by 5:00 PM EST on Friday, February 20, 2015;
Contact: For more information, please contact Dr. Melinda Miller, Associate Director, PSSN, at melinda.miller@columbia.edu or x47211.;
Link(s): NA;
Additional Information: REQUEST FOR PROPOSALS – DEADLINE EXTENDED UNTIL FEBRUARY 20; Presidential Scholars in Society and Neuroscience Program; Faculty Seed Grants for Interdisciplinary Projects in Society and Neuroscience; The Presidential Scholars in Society and Neuroscience Program (PSSN) invites all full-time faculty at Columbia University and Barnard College to submit proposals for interdisciplinary projects that lie at the intersection of neuroscience, the humanities, and the social sciences.; Faculty Seed Grant Competition; The PSSN Program will offer annual seed/pilot grants to enable collaboration between Columbia and Barnard faculty in the humanities

Research Resources:
http://www.mailman.columbia.edu/faculty-staff/research-resources-r2-office
and/or social sciences, and faculty in the natural sciences whose primary focus is the empirical study of mind, brain, and behavior. This request for proposals is open to all full-time faculty at Columbia University and Barnard College that contribute to these interdisciplinary goals. Proposals should outline interdisciplinary research that involves either direct collaboration between neuroscientists and researchers from other disciplines, or traverses traditional disciplinary boundaries in order to investigate issues relevant to society and neuroscience. **Awards will be made of up to a total of $30,000 for projects 1–2 years in duration.** Proposals should describe clearly the research problem and its significance for society and neuroscience. Generally, proposals that involve research already in progress, or stand-alone curriculum development, will not be funded. Only proposals with detailed budgets and budget justifications will be accepted, and priority will be given to proposals with concrete plans for developing and expanding the research by obtaining additional external funding.

All seed grant applications must be received in full by **5:00 p.m. EST on Friday, February 20, 2015.** Eligible proposals will be evaluated based on the following criteria: (*) The intellectual merit and originality of the proposed project; (*) The extent to which the proposed research is interdisciplinary and collaborative; (*) The project’s feasibility, and the appropriate and judicious use of funds; (*) The investigators’ plan for seeking subsequent extramural funding beyond this pilot/seed grant; (*) The background and experience of the investigator(s) for the proposed research; Approximately 3–5 grants of up to $30,000 each will be awarded.

**Submitting Proposals:** To apply, please submit the following as a single PDF document by 5:00 p.m. EST on Friday, February 20, 2015 to Dr. Melinda Miller, Associate Director, PSSN, (melinda.miller@columbia.edu) with “Seed Grants for Interdisciplinary Projects in Society and Neuroscience” in the subject line of the email: (*) Cover page, including title of proposal, principal investigator(s) and departmental affiliations, an executive summary of the project, and the total funding amount sought; (*) Proposal narrative with timeline of research (no more than 10 pages double-spaced in 12-point font); (*) Itemized projected budget; (*) Budget narrative; (*) CVs for each investigator; (*) Figures or tables, if applicable; (*) Bibliography and references cited; (*) Plan for securing external funding; (*) Letters of support for the project from principal investigator(s)’ department, center, and/or institute chairs; (**Conditions of Receipt:** Grant recipients must provide annual reports on project activities, including updates on external funding proposals (successful or unsuccessful), and any papers, publications, and/or reports resulting from seed grant activities. When applicable, research projects involving human subjects and/or animals must obtain (and keep current) approval from the appropriate University regulatory offices; **Background:** The PSSN Program will foster innovative research that crosses traditional disciplinary boundaries between the natural and social sciences and the humanities. This Program will (1) provide seed funding for crosscutting research initiatives undertaken by Columbia and Barnard full-time faculty members, and (2) train and foster a new generation of scholars in interdisciplinary research and orientation. These new scholars—the Presidential Scholars in Society and Neuroscience—will be recent doctoral graduates from across the humanities and/or social sciences, who have critical understandings of the cultural and social dimensions of mind, brain, and behavior. The Presidential Scholars will be joined by a large group of mentors and affiliated faculty from the humanities, social sciences, and natural sciences. The Call for Applications for Presidential Scholars was publicized in Fall 2014, with three Scholars to be appointed in July 2015; For more information, please contact Dr. Melinda Miller, Associate Director, PSSN, at melinda.miller@columbia.edu or x47211.;
[NTW] [NEUROLOGICAL/FOUNDATION FUNDING] Title: David Mahoney Neuroimaging Program RFP: Using Brain and Immune Imaging Innovations to Improve Human Health; Sponsor: Dana (Charles A.) Foundation, Inc.
Deadline(s): 04/07/2015;
Contact: E-mail: kaguirre@dana.org;
Link(s): Web Site: http://www.dana.org/grants/imaging/;
Program URL: http://www.dana.org/grants/brain-and-immuno-imaging/howtoapply/;
Additional Information: SYNOPSIS: The Dana Foundation's neuroimaging research program focuses on improving human brain and brain-immune functioning to promote health, and prevent and treat disease. Funds support pilot-testing by investigators who are early in their research careers of promising, high-risk, and innovative ideas with a direct clinical application. Successful studies are then anticipated to be competitive for larger-scale support from other funders. Grant amounts for each study may be up to $200,000 total, payable over three years.; DEADLINE NOTE: Preliminary proposals received by the April 7th, 2015 at 3pm EST deadline will be reviewed for further consideration.;

[NTW] [BIG DATA/REMINDER] Title: REMINDER: Data Science Interdisciplinary ROADS Grant – Provost Ignition Funding Opportunity; Sponsor: Data Science Institute at Columbia University;
Deadline(s): Monday, February 16th, 2015, 4:00 PM. (Neither incomplete nor late applications will be accepted).;
Contact: Submit the following materials via email, in .doc or .pdf format, to Jonathan Stark, Director of Operations for IDSE, jrs2139@columbia.edu, by the Monday, February 16th, 2015, 4:00 PM deadline;
Link(s): Data Science Interdisciplinary ROADS Grant – Provost Ignition Funding Opportunity:
http://datascience.columbia.edu/provost-ignition-grants;
Additional Information: The Data Science Institute at Columbia University is a world-leading institution in research and education in the theory and practice of the emerging field of data science by advancing technology to unlock the power of global data to help solve some of society’s most challenging problems. We are developing the tools and talent needed to monitor and protect the critical infrastructure we depend upon, improve societal health and patient care, enhance communication and interactions within communities, predict financial failures, and keep personal data safe.; Equally important to this mission is supporting and encouraging interdisciplinary research between faculty from different backgrounds. The Institute aims to help forge closer relationships between faculty interested in data science and its applications across all domains, and to attract graduate students who want to do work within the intersection of data science and established domains. We have sponsored, and will continue to sponsor, events that have brought people together to meet and learn from each other. To further our goal of supporting data-centric interdisciplinary research, we are soliciting proposals for funds that will encourage faculty to work together on initial collaborations, helping to prepare them for proposal submissions to government, industry or foundations.; The Institute is pleased to announce our 2nd call for proposals from Columbia University faculty and research staff. Aimed at advancing research that combines data science expertise with domain expertise, the ROADS Provost Ignition grant is intended to assist researchers who are interested in this theme to come together. We are particularly drawn to faculty teams whose proposed project will enable them to develop successful proposals for large scale grants. We will look for applications that propose unique and novel approaches to bring scholars together to work on projects that cross traditional discipline boundaries. In essence, we are looking for methods that are not just "business as usual."; To post to our site to indicate that you are interested in working on a proposal and finding a
collaborator, please [click here]. To find collaborators who may be interested in working with you on a proposal, please [click here]. Funding: Funding is available for two projects, up to $100,000 annually, for a maximum of two years. As a condition of funding, awardees will be required to submit biannual progress reports. Eligibility for continued funding for a 2nd year, will also require a final report. All project reports must include progress on external funding proposal submission(s).

Proposal Submission Deadline: Monday, February 16th, 2015, 4:00 PM. (Neither incomplete nor late applications will be accepted). Anticipated Award notifications: April 1st, 2015.

Proposal Format: Submit the following materials via email, in .doc or .pdf format, to Jonathan Stark, Director of Operations for IDSE, jrs2139@columbia.edu, by the Monday, February 16th, 2015, 4:00 PM deadline: (*) Application Cover Page, Project Proposal & Budget; (*) CV’s for Faculty/Collaborators (2 page NSF style format); (*) Proposals must identify specific large-scale external funding opportunities for which the applicants will compete. Questions about this opportunity may also be addressed by contacting Jonathan Stark, jrs2139@columbia.edu, (212) 854-6370.

[NTW][MUSCULOSKELETAL] Title: Clinical Observational (CO) Studies in Musculoskeletal, Rheumatic, and Skin Diseases (R01)
Sponsor: National Institute of Arthritis & Musculoskeletal & Skin Diseases/NIH/DHHS;
Deadline(s): 07/01/2015; 11/02/2015; 03/01/2016; 07/01/2016; 11/01/2016; 03/01/2017; 07/03/2017; 11/01/2017;
Contact: E-mail: twitterj@mail.nih.gov;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?45717;
Additional Information: SYNOPSIS: National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS) invites applications to pursue clinical observational (CO) studies to obtain data necessary for designing clinical trials for musculoskeletal, rheumatic, or skin diseases or conditions. Research data from observational cohort studies can enhance clinical trial design by providing essential information about disease symptoms, stages and timing of disease progression, comorbid conditions, availability of potential clinical trial participants, and outcomes that are important to patients. CO studies also can facilitate efforts to develop and/or validate objective biomarkers or subjective outcome measures for use in a future trial or trials. Applicants to this FOA are encouraged to propose studies that address significant obstacles or questions in the design of a clinical trial, such as determining the appropriate primary or secondary outcome measures, or identifying the stages of disease during which patients are most likely to respond to an intervention. Only observational studies will be supported through this FOA. This program will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: The deadlines for receipt of full applications are: July 1, 2015; November 2, 2015, March 1, 2016, July 1, 2016, November 1, 2016, March 1, 2017, July 3, 2017, November 1, 2017, by 5:00 PM local time of applicant organization. This FOA will expire on November 2, 2017.;

2015-16 APHA Public Health Fellowship in Government;
Additional Information: Dear friend of public health, On behalf of the American Public Health Association, it is my pleasure to announce the call for applications for the 2015-16 APHA Public Health Fellowship in Government. This is the eighth year APHA is offering this fellowship, which has been described as an “amazing” and “phenomenal” experience by previous fellows. Candidates must have strong public health credentials and be interested in spending one year in Washington, D.C. working in a congressional office on legislative and policy issues related to health, the environment or other public health concerns. The fellowship will begin in September 2015 and continue through August 2016. The fellowship provides a unique learning experience and demonstrates the value and need for basing policy on sound science. Throughout the year, the fellow will gain a practical knowledge of government and how the public policy process works. All candidates must: (1) be an APHA member; (2) have a graduate degree in a public health or a related discipline; (3) have five years experience as a public health professional beyond graduate or medical training.; Applications, additional information and brief articles from
the previous fellows are available on APHA’s website. The application, including a CV and three letters of recommendation, is due to APHA by March 9, 2015. Please forward this email to anyone you believe may be eligible and interested. For more information, please feel free to contact me at susan.polan@apha.org or 202-777-2510. Sincerely, Susan Polan;

Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost’s approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: nr21@cumc.columbia.edu; Dear All: Additional clarification regarding the policy regarding research (proposals or MTA’s) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval. One prerequisite for the Provost’s approval will be a written evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission. Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement.; Odeh-Ramadan, Rudina; Associate Vice President For Research Administration; Clinical Trials Office; Office of Research Administration; 154 Haven Avenue; Mail Code: Third Floor; New York NY 10032; United States 212-305-5064; Ro133@columbia.edu;

Title: Message from President Bollinger relative to Ebola;  
Sponsor: Columbia University;  
Deadline(s): NA;  
Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;  
Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;  
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.

Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely,
Linda P. Fried, MD, MPH

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097;
http://spa.columbia.edu/;
Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the
Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf. 

Tip: when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Title: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; Sponsor: NIH; Deadline(s): Starting in October 2014; Contact: Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Link(s): eRA Commons Manage Personal Profile; NOT-OD-14-092: http://grants.nih.gov/grants/rppr/; Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
**Title:** Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;  
**Sponsor:** NIH;  
**Deadline(s):** Starting in October 2014;  
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;  
**Link(s):** NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/pppr/;  
**Additional Information:** This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be **required** for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

**People + Ideas + Time:** Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist).

Thank you.

The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website:
http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

**Don’t Forget the eSubmission Basics:** I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. **If you can’t view it, we can’t review it!**
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. …. Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, …. Continue reading →

You Ask, We Answer:

☐ Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

☐ What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html). I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074: [A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); NIH Policy on Resubmission Applications; Science Magazine article: [NIH to Relax ‘Two Strikes’ Grant Submission Policy](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html). Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. [Stephanie F. Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and Type-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

FOAs FROM AGENCIES REQUIRING INTERNAL COLUMBIA UNIVERSITY VETTING

**Title:** Presidential Scholars in Society and Neuroscience Program; Seed Grants for Interdisciplinary Projects in Society and Neuroscience; 

**Sponsor:** Columbia University, Presidential Scholars; 

**Deadline(s):** DEADLINE EXTENDED UNTIL FEBRUARY 20, 2015; 

**Contact:** For more information, please contact researchinitiatives@columbia.edu; 

**Link(s):** NA; 

**Additional Information:** REQUEST FOR PROPOSALS; Presidential Scholars in Society and Neuroscience Program; Seed Grants for Interdisciplinary Projects in Society and Neuroscience; The Presidential Scholars in Society and Neuroscience Program invites all full-time faculty at Columbia University and Barnard College to submit proposals for interdisciplinary projects that lie at the intersection of neuroscience and society and involve collaborative research among the humanities, social sciences, and natural sciences.; 

**Background:** Over the last decade, Columbia University has assembled a distinguished group of neuroscientific researchers in the Zuckerman Mind Brain Behavior Institute which, with the infusion of new funds and a new building, stands poised to become one of the most important loci of neuroscience research in the world. Columbia University now seeks to supplement the groundbreaking experimental inquiry of the neuroscience faculty with systematic investigation into the conceptual underpinnings and the social foundations and consequences of such newly obtained knowledge. To address this need, President Bollinger has announced the Presidential Scholars in Society and Neuroscience Program to foster innovative research that crosses traditional disciplinary boundaries between the natural and social sciences and the humanities. This Program will (1) provide seed funding for crosscutting research initiatives undertaken by Columbia and Barnard full-time faculty members, and (2) train and foster a new generation of scholars in interdisciplinary research and orientation. These new scholars—the Presidential Scholars in Society and Neuroscience—will be recent doctoral graduates from across the humanities and/or social sciences, who have critical understandings of the cultural and social dimensions of mind, brain, and behavior. They will bring the perspective of disciplines in the humanities and social sciences to intensify and broaden the neuroscientific research base and to bring about transformative interdisciplinary research throughout the University. The Presidential Scholars will be joined by a large group of mentors and affiliated faculty from the humanities, social sciences, and natural sciences. 

**Call for Applications for Presidential Scholars:** will be publicized in Fall 2014, with three Scholars to be appointed in July 2015. 

**Seed Grant Competition:** In order to further University-wide interdisciplinary research by Columbia and Barnard full-time faculty in these important subjects, the Presidential Scholars in Society and Neuroscience Program funds annual seed grants. These pilot grants are provided to enable collaboration among faculty in the humanities and/or social sciences, and those in the natural sciences whose primary focus is the empirical.
outline interdisciplinary research that involves either direct study of mind, brain, and behavior. We request proposals from full-time faculty at Columbia University and Barnard College that contribute to these interdisciplinary goals. These proposals should collaboration between neuroscientists and researchers from other disciplines, or traverses traditional disciplinary boundaries in order to investigate issues relevant to society and neuroscience. Proposals should include itemized budget projections. The Presidential Scholars Steering Committee (with input from appropriate scholars) will review submitted proposals. Awards will be made of up to a total of $30,000 for projects of one to two year’s duration.; Proposals should describe clearly the research problem and its significance for society and neuroscience. Generally, proposals that involve research already in progress, or stand-alone curriculum development (although this could be an outcome of the proposed research), will not be funded. Only proposals with detailed budgets and budget justifications will be accepted, and priority will be given to proposals with concrete plans for developing and expanding the research by obtaining additional external funding. ; All seed grant applications must be received in full by 5:00 p.m. EST on Monday, January 26, 2015. Eligible proposals will then be evaluated based on the following criteria: (*) The intellectual merit and originality of the proposed project; (*) The extent to which the proposed research is interdisciplinary and collaborative; (*) The project’s feasibility, and the appropriate and judicious use of funds; (*) The plausibility of the investigators’ plan for seeking subsequent extramural funding beyond this pilot grant; (*) Background and experience of the investigator(s) for the proposed research; For this inaugural year of seed grant-making, approximately 3-5 grants of up to $30,000 each will be awarded.; Conditions of Receipt: Grant recipients must provide annual reports on project activities, including updates on external funding proposals (successful or unsuccessful), and any papers, publications, and/or reports resulting from seed grant activities. When applicable, research projects involving human subjects must obtain (and keep current) approval from Columbia University’s Institutional Review Board (IRB). ; Submitting Proposals:

For more information, please contact researchinitiatives@columbia.edu. To apply, please submit the following as a single PDF document by 5:00 p.m. EST on Monday, January 26, 2015 to researchinitiatives@columbia.edu: mentioning “Seed Grants for Interdisciplinary Projects in Society and Neuroscience” in the subject line of the email: (*) Cover page, including title of proposal, principal investigators and their departments, an executive summary of the project, and the total funding amount sought; (*) Proposal narrative with timeline of research (no more than 10 pages double-spaced in 12-point font); (*) Itemized projected budget; (*) Budget narrative; (*) CVs for each investigator; (*) Figures or tables; (*) Bibliography and references cited; (*) Plan for securing external funding; (*) Letter of support for the project from principal investigators’ department, center

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government’s single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. *Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP).

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP.
