<td>We invite second &amp; third year doctoral students and faculty mentors to join Research Resources, and the Mailman School Doctoral Committee for a Workshop on Developing Dissertation Grant Applications - The F31 and R36, on Thursday 02/08/2018 and Monday 02/26/2018 in ARB SMS Conference Room 923 from 11:30 AM – 1:00 PM. This two session workshop moderated by Drs. Leslie Davidson, Professor of Epidemiology, and Pam Factor-Litvak, Professor of Epidemiology, and Associate Dean, Research Resources is designed particularly for second and third year doctoral students planning to submit F31 or R36 applications to the NIH for dissertation training funding. The workshop provides an overview of application requirements and addresses elements important in developing a compelling application. It provides useful information, which will facilitate the work a student undertakes with his or her mentor to develop specific aims, a training program and the scientific narrative. Mentors are also welcome to attend. We will repeat the workshop in the Fall of 2018. Topics covered will include overview of the F31 and the R36s, developing specific aims, working with an NIH program officer, choosing a mentor, developing a training program and grantsmanship in making your application compelling. The follow up session on 02/26/18 (which was previously scheduled on another day) will focus on Specific Aims. To RSVP, please email Craig Kandell at <a href="mailto:ckk7@columbia.edu">ckk7@columbia.edu</a></td>

[NTW] [WEEKLY HIGHLIGHT/NIH eSUBMISSION ITEMS OF INTEREST]

NIH eSubmission Items of Interest – February 14, 2018

**Sponsor:** NIH/SPA

**Deadline(s):** NA/Announcement(s)

**Contact:** NIH Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Just reach out to the eRA Service Desk; [CU] If you have any questions, please feel free to reach out to your SPA Project Officer.

**Link(s):**

**Additional Information:** [SPA News] More FORMS-E Guidance: NIH eSubmission Items of Interest - February 14, 2018; The NIH eSubmission Items of Interest provides a lot of tips, guidance, and clarifications today, so please do read it carefully. Our office has gotten many of these same FAQs.; A few things to note: SPA does not encourage Workspace, nor do we train on it. Presently, we encourage InfoEd or ASSIST for NIH applications.; Below more guidance is given on the definition of a “study” and how to know when to create multiple study records within the PHS Human Subjects and Clinical Trial Form.; They also add a blurb on what to do when you are collecting human specimens.; If you have any questions, please feel free to reach out to your SPA Project Officer.; Steph [brought to our attention by Stephanie Scott]; NIH eSubmission Items of Interest - February 14, 2018; Valentine’s Day Chocolate Heart of Truffles - $75.00... A dozen roses in a red vase - $82.99... Answers to nagging human subjects and clinical trials questions – PRICELESS! ; We’ve been accepting applications using FORMS-E forms for a few weeks now. It will take us all a bit of time to adjust to a new normal, but we’ll get there. The items below address the most common inquiries my Grants Information team has been fielding regarding human subjects, clinical trials and FORMS-E. Warning – this is a long one...there was just too much to say to be pithy.; Be a Lumper Not a Splitter; In many cases a single study record is all you need.; It is not uncommon for a single study record to cover multiple hypotheses, specific aims or processes. If you think multiple study records may be appropriate, look at the data fields collected in a study record and think about how much information would be virtually identical in each record. If you are proposing multiple, distinct protocols (for example, you know that multiple ClinicalTrial.gov report submissions will be needed down the line), then it may make sense to provide multiple study records at time of application. But, when in doubt be a lumper not a splitter to the extent it makes sense for your research.; Bottom line:
We will not turn away your application for the sole reason that we thought you should have split your information into multiple study records. As long as we have the information needed for review, we can adjust the structure of the information later, if needed.; Clinical Trial Questionnaire Questions Drive Data Collection for New Human Subjects Form; There are lots of resources on our Clinical Trial Requirements for Grants and Contracts page to help you determine if your application is a clinical trial including the NIH’s Definition of a Clinical Trial page and a clinical trial decision tool. It comes down to how you answer the 4 questions on the Clinical Trial Questionnaire.; (1) Does the study involve human participants?; (2) Are the participants prospectively assigned to an intervention?; (3) Is the study designed to evaluate the effect of the intervention on the participants?; (4) Is the effect that will be evaluated a health-related biomedical or behavioral outcome?; If you answer Yes to all 4 questions, your application will be considered a clinical trial (or clinical trial research experience in the case of Fellowship or Career Development applications to Clinical Trial Not Allowed FOA). Answer No to any of the 4 questions and your application will not be considered a clinical trial.; Answering the 4 questions in the Clinical Trial Questionnaire of a study record (items 1.4.a.-1.4.d) is key to providing the appropriate level of information for review of your application. Only clinical trial applications can provide information in study record sections 4 and 5. Misidentifying your application can lead to too much or too little information moving forward with your application. Reviewers can only evaluate what’s in front of them.; Here is a bit of advice I find myself repeating often...; When answering the 4 questions, base your answers on the application in front of you. Suppose you’re doing an ancillary study to an existing clinical trial. If your study adds an additional manipulation (prospectively assigned intervention) and all the elements of the NIH clinical trial definition are met then your application is likely a clinical trial. If your study simply adds measures to an existing clinical trial and doesn’t add a prospectively assigned intervention, then you’ll have at least 1 No answer and your application is not (by itself) considered a clinical trial. Reviewers don’t need to rehash the details of an existing study. They just need to know how your application fits in that bigger picture.; Done your homework and still confused?; If you’ve checked out the on-line resources and clinical trial decision tool and you still confused as to whether your research meets the NIH definition of a clinical trial, reach out to the Scientific/Research contacts listed in Section VII of your announcement. Sometimes you just need to talk scientist to scientist.; Do I Need to Create a Study For the Part of My Research that Uses Human Specimens?; Rules for Text Fields (part of our Rules for Text Fields page) for more information; Where can I find the PHS Human Subjects and Clinical Trials Information Form?; Like all NIH application forms, the new PHS Human Subjects and Clinical Trials Information form is accessed through the submission method you are using. ASSIST, Workspace and all system-to-system solutions provide a way to access and complete the forms.; Forms – E: (*) ASSIST allows you to complete the forms online within ASSIST or to download a study record form for offline completion and later upload the completed form into your ASSIST application.; (*) Workspace provides the ability to download and upload study record forms, but does not yet offer a webcam for online data entry.; (*) Forms downloaded from ASSIST can NOT be uploaded to Workspace and vice versa. Forms downloaded directly from the Grants.gov website form repository page can NOT be uploaded to either ASSIST or Workspace applications for submission, but may work with your system-to-system solution (check with your provider).; Goodbye FORMS-D; If you are submitting an Administrative Supplement, Successor-in-Interest (Type 6) or Change of Institution (Type 7) to a FORMS-D Parent Announcement you have until February 25 to complete your submission using FORMS-D.; Otherwise, FORMS-D should be nothing but a fond memory. “Fond memory” may be a stretch, but “dead to you,” “closed,” “finished,” “done,” “kapat,” or “a thing of the past” might work – you pick.; (*) Getting this message – “The Closing Date of the grant opportunity for which you have applied already passed and the grantor agency is no longer accepting applications.”; (1) Verify your funding opportunity announcement (FOA) is still open. Many FOAs expired early due to the form transition.; (2) Make sure you are using the correct application package (FORMS-E, not FORMS-D). This Grants.gov message can be misleading by indicating the “grant opportunity” is closed. It may just be the application package is closed, not the entire FOA.; (3) Still unsure – call the eRA Service Desk for assistance.; (*) Not sure which forms you’re using; (**) Do I Have The Right Forms For My Application?
R²report
Friday Newsletter 02/16/18

explains what a Competition ID is (FORMS-D, FORMS-E) and where to find it in ASSIST, Workspace and submitted applications. FORMS-E Parent Announcements; Most FORMS-E parent announcements are available. We hope to have the Fellowship parent FOAs posted by next week (a little behind our 60 day target, but ahead of the required 30 days). Many activity codes now have two parent announcements – one designated as Clinical Trial Not Allowed and one designated as Clinical Trial Required. Don’t forget to double-check the participating organizations since institutes may not participate on both.; Navigating the Human Subjects Form Using Workspace; We’ve heard some chatter that folks have had some trouble entering their human subjects information using Workspace. Grants.gov is continuously updating the Workspace service and has some enhancements planned to make working with subforms (think subaward budgets and study records) more intuitive. In the meantime, I did a quick video to walk you through the process of completing your human subjects information using Workspace. Don’t judge – I was going for function over production -value. Whatever it takes to help you get your applications in.; Don’t forget - if you download individual forms from Workspace for offline completion, you must use an Adobe Reader compatible with the forms. I was recently reminded of this fact after my machine was updated to Windows 10 and I could no longer open forms (Microsoft 10 uses Edge for its default browser). After a colleague helped me change my settings to always open PDFs in Adobe Reader I had no more trouble.; What to Do When Systems Leave You Broken Hearted; If you encounter an issue with a Federal system that is beyond your control and impacts your ability to submit your application on time, follow our guidelines for Dealing with System Issues.; We’ve run into a few minor FORMS-E bumps.; (*) Some system-to-system users encountered an unexpected message in section 5 of the study record in their application image (S2S solutions sending us unexpected information and us not handling it gracefully) – fix planned for late March.; (*) Some Workspace users received unexpected errors related to human embryonic stem cell information – shout out to the Grants.gov team who learned of the issue on February 5 and had a fix developed, tested and deployed in 4 days – wow! ; (*) ASSIST is limiting the study titles for delayed onset studies to 25 characters, when 600 should be allowed – fix planned for late March.; Are these examples, frustrating, nerve-racking and annoying? Absolutely. But, thankfully, we’ve not encountered any showstoppers to application processing. Just reach out to the eRA Service Desk by the deadline and, if they confirm a system issue, we’ll work with you to find a resolution.; Happy Valentine’s Day! Sheri; Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov; We are sorry if you receive duplicates. This notification was sent to multiple distribution lists. [NTW] [NIH SINGLE IRB (sIRB) POLICY REMINDER]

NIH Single IRB Policy Reminder

**Sponsor:** NIH

**Deadline(s):** Effective for NIH Funding submissions whose due dates are 01/25/2018 or after

**Contact:** If you have questions, please contact: https://research.columbia.edu/irb ; Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu ; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu ; Columbia | Research; Human Research Protection Office; Institutional Review Boards

**Link(s):** https://research.columbia.edu/content/single-irb-review-multi-site-research

**Additional Information:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application, it is important that you contact the HRPO immediately at irboffice@columbia.edu as soon as you begin working on your application if it proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be access here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; Please let us know if you have any questions; This message has been sent by the Columbia University Human Research Protection Office.
MAILMAN INTERDISCIPLINARY RESEARCH PILOT GRANT AWARDS; Pilot Funding in Preparation for submitting R01, P01, U01, and related NIH grants; LETTERS OF INTENT: DUE FEBRUARY 23, 2018; AWARDS PROPOSALS: DUE MARCH 16, 2018

**Sponsor:** Mailman School of Public Health

**Deadline(s):** 02/23/2018 (LOI); 03/16/2018 (Award Proposals)

**Contact:** Investigators interested in submitting applications are encouraged to discuss them with Associate Dean for Research Resources, Dr. Pam Factor-Litvak [prf1@cumc.columbia.edu] or Vice Dean for Faculty Affairs and Research, Regina Santella [rps1@cumc.columbia.edu]; For administrative issues contact Craig Kandell [ckk7@cumc.columbia.edu]

**Link(s):** [MAILMAN INTERDISCIPLINARY RESEARCH PILOT GRANT AWARDS; Pilot Funding in Preparation for submitting R01, P01, U01, and related NIH grants; LETTERS OF INTENT: DUE FEBRUARY 23, 2018; AWARDS PROPOSALS: DUE MARCH 16, 2018](https://r2report.files.wordpress.com/2014/04/interdisciplinary-pilot-grant-announcement-february-2018.pdf)

**Additional Information:** MAILMAN INTERDISCIPLINARY RESEARCH PILOT GRANT AWARDS; Pilot Funding in Preparation for submitting R01, P01, U01, and related NIH grants; LETTERS OF INTENT: DUE FEBRUARY 23, 2018; AWARDS PROPOSALS: DUE MARCH 16, 2018; Today’s challenging public health issues increasingly require contributions at the intersections of academic disciplines. For this reason, the Mailman School of Public Health launched an initiative to foster interdisciplinary research within the school and beyond and created the Interdisciplinary Research Task Force comprised of faculty from across the Mailman School’s academic departments and research centers. The Task Force identified four thematic areas for initial exploration and convened workshops on each for faculty from across Mailman departments and centers to present research and discuss synergies in expertise and interests. These topics were: (*) Substance Use and Misuse; (*) Brain Health and Mental Health; (*) Child and Adolescent Health; (*) Precision Health and Predictive Analytics for Disease Prevention; To build on the vast potential for interdisciplinary science in these areas that was evident during the workshops, the Dean’s Office has created a pilot grant program to help advance interdisciplinary research concepts to grant applications. The pilot program will support innovative proposals, which are interdisciplinary in scope and that will increase the likelihood of successful funding of NIH R01/P01/U01 or equivalent grants. The expectation is that funded projects will produce at least one NIH grant application per team.; Timeline and Deadlines: Letters of Intent: Due February 23, 2018 (02/23/2018); Proposals: Due March 16, 2018 (03/16/2018); Award notifications: April 1, 2018 (04/01/2018) (anticipated); Deadline for NIH submission: February 5, 2019 (02/05/2019); by selected pilot grant teams; Award Amounts and Selection Process: Pilot applications can request up to $30,000 to support grant development for projects that will produce an investigator-initiated grant application such as an R01 by no later than February 5, 2019. Funding of up to $75,000 will be available to support the development of large center grant applications (e.g., a P01), which will be submitted no later than February 5, 2019. PI applications should fully explain why funds are needed to amplify the ability to get a funded grant and justify the amount of funding requested. The Dean’s Office will fund up to one project that will lead to a large NIH center grant application and as many interdisciplinary investigator-initiated R01/U01-type grants as are meritorious.; An Internal Review Committee will rigorously evaluate all proposals and review criteria will mirror those used by NIH. Applicants are encouraged to include innovation in analytic methods, in collaboration with faculty from Biostatistics or other Mailman departments. Note that, if areas of expertise are needed and not readily identified, the Dean’s office and/or Biostatistics Chair Dr. DuBois Bowman, can assist in identifying potential experts. In considering proposals, emphasis will be placed on the degree to which the project advances Mailman’s interdisciplinary research goals and the likelihood of future NIH funding for the project and possibly its extensions.; Deliverables: As a condition of funding, awardees will be required to submit at least one NIH grant application by February 5, 2019. Quarterly progress reports are also required. Given this tight timeline, if the proposal requires IRB approval before starting, the process for obtaining approval should start as early as possible.; Submission Instructions: Letter of Intent: Prospective applicants should submit a letter of intent that includes the following information: (*) Descriptive project title; (*) Brief summary (1-2 paragraphs) of the project activity; (*) Name(s) and department(s) of the PI(s) (multiple PIs are permitted); (*) Names and departments of other key personnel.; The letter of intent should be sent to Craig Kandell at ckk7@cumc.columbia.edu by February 23. The letter of intent is not binding but will help the review committee to estimate its potential review workload and plan the review process.; Proposal: _The format for each project is as follows (page limits do apply): Sections for Each Project: (1) NIH Biosketch for all Key Personnel; (2) Specific Aims [1 page]; (3) (a) Significance, (b) Innovation, and (c) Overview of Research Team. Highlight the impact of interdisciplinary contributions [2 pages]; (4) Approach, including preliminary studies and a timeline for completion. Highlight the impact of interdisciplinary contributions [2 pages]; (5) References; (6) Detailed plans and timeline for NIH grant submission(s); (7) Budget and Justification (may include reasonable salary support for the PI); Contacts: Investigators interested in submitting applications...
are encouraged to discuss them with Associate Dean for Research Resources, Dr. Pam Factor-Litvak, or Vice Dean for Faculty Affairs and Research, Regina Santella. For administrative issues contact Craig Kandell; **Frequently Asked Questions:** (1) Can funding be used to develop non-NIH proposals? This pilot effort will maintain an NIH focus, since the school's grant funding objectives link directly to NIH; however, the program will consider projects geared toward other federal grant applications; (2) Is the program open to all NIH funding mechanisms? Yes, while the typical project will produce R01, P01, U01, or similar applications, the program is open to other mechanisms. Keep in mind, however, that this program is a Mailman School investment and the review committee will strongly consider likely return on investment in its work. Therefore, an R03 application may be viewed by the review committee as offering less compelling near-term return on investment than a strong R01 application; (3) Can the research team include investigators outside of Mailman or Columbia University? Yes, the research team may include faculty outside of the Mailman School. However, the proposal must include investigators spanning two or more Mailman School departments or centers, the PI must be a faculty member (professorial or research scientist title) with a primary appointment at the Mailman School, and the grant must be submitted through a Mailman School Department or Center.; (4) Are international projects permitted? Yes, with the same requirement as question 3 above; (5) Do projects have to address the topics covered in the workshops? Yes. This pilot program was designed to build on the work of the Interdisciplinary Research Task Force, which identified these four areas as ones for initial exploration. The funding will support the development of grant proposals based on conversations during and subsequent to the Mailman School's interdisciplinary workshops.

**Additional Information:** Dear Researchers, To ensure you do not miss any internal funding opportunity announcements, we wish to share several changes relating to the limited submission process.; Email announcements for limited submission funding opportunities formerly sent from gcc19@columbia.edu are now sent from a group email account limitedsubmissions@columbia.edu. This shared email account allows us to be more efficient and responsive by enabling more people in our office the ability to send announcements and respond to inquiries. Please add limitedsubmissions@columbia.edu to your contacts to ensure that limited submission announcements are not sent to your junk/spam folder.; A mobile friendly limited submission announcement format is being developed that will provide critical information needed to determine whether a program is of interest. Those interested in learning more will be directed to an internal announcement on our website. We hope this new format will make our announcements easier to scan on phone and tablet screens.; Please feel free to contact me if you have any questions or feedback.; Sincerely, Greg Culler; Associate Director | Research Initiatives; C O L U M B I A  |  R E S E A R C H; Office of the Executive Vice President for Research; Columbia University in the City of New York; 409 Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: 212-854-6285; Email: gregory.culler@columbia.edu;

Regenerative Medicine Stakeholders Meeting April 11-12, 2018 [no link supplied, email for rsvp provided]

Sponsor: Department of Defense

Deadline(s): 03/15/2018 (RSVP date); 04/11/2018 to 04/12/2018 (Meeting Dates)

Contact: If you are interested in participating in the regenerative medicine stakeholder meeting please email usarmy.detrick.medcom-usamrmc.list.crmrp-office@mail.mil, providing the names of interested attendees and their expertise in regenerative medicine. Please respond with your interest by 15 March 2018 (03/15/2018)

Link(s): None Supplied

Additional Information: The US Army Medical Research and Materiel Command (USAMRMC) is a major subordinate Command of the US Army Medical Command. The Clinical and Rehabilitative Medicine Research Program (CRMRP), a Program Area Directorate within the USAMRMC, is responsible for planning, programming, budgeting and execution oversight of biomedical research programs to develop knowledge and materiel products to reconstruct, rehabilitate, and provide definitive care for injured Service members. The CRMRP is organizing a Regenerative Medicine Stakeholders Meeting to be held on April 11 – 12, 2018 in the Washington, DC metropolitan area. The CRMRP expects to receive appropriations in the future specifically to advance the science and product development in regenerative medicine.; The objective of the stakeholder meeting is for CRMRP to gain an understanding of the current state of regenerative medicine science from various perspectives and to identify gaps related to regenerating lost or damaged tissue resulting from service-related injuries. The information gathered from the discussions will be utilized to facilitate the development of the program’s goals and objectives, and potential future award mechanisms.; This notification serves to determine interest in the stakeholder meeting and identify potential invitees. Due to space constraints, the number of attendees at the stakeholders meeting is limited to 300 government and non-government personnel. Formal meeting invitations will be extended to those selected for attendance. Invitations will be limited to subject matter experts from industry and academia. No more than two attendees will be invited from any organization and will be issued on a first come first serve basis. If you are interested in participating in the regenerative medicine stakeholder meeting please email usarmy.detrick.medcom-usamrmc.list.crmrp-office@mail.mil, providing the names of interested attendees and their expertise in regenerative medicine. Please respond with your interest by 15 March 2018.; Participation or non-participation in this Stakeholder Meeting will not impact your eligibility to apply to any future funding opportunity announcements in this area of research.
[NTW] [SEX AND GENDER]
Administrative Supplement for Research on Sex/Gender Influences (Admin Supp Clinical Trial Optional)

**Sponsor:** Office of Research on Women's Health (ORWH)

**Deadline(s):** 03/26/2018; 03/27/2018 (Expiration)

**Contact:** Scientific/Research Contact(s); Tamara Kees; National Institute of Mental Health (NIMH); Telephone: 301-443-8811; Email: tamara.kees@nih.gov

**Additional Information:** Administrative Supplement for Research on Sex/Gender Influences (Admin Supp - Clinical Trial Optional); I wanted to alert NIH Investigators of a new Administrative Supplement opportunity to support research highlighting the impact of sex/gender influences in human health and illness, including basic, preclinical, clinical, translational, and behavioral studies. Subsequent to when this announcement was released, NIGMS just issued an announcement that they, too, are participating in this opportunity, effective immediately (in case you were wondering why they weren't on the list of participating ICs); See link and announcement below; [brought to our attention by] Stephanie Scott; Administrative Supplement for Research on Sex/Gender Influences (Admin Supp - Clinical Trial Optional); Funding Opportunity PA-18-658 from the NIH Guide for Grants and Contracts. The Office of Research on Women's Health (ORWH) announces the availability of administrative supplements to support research highlighting the impact of sex/gender influences in human health and illness, including basic, preclinical, clinical, translational, and behavioral studies. Of special interest are studies relevant to understanding the significance of biological sex on cells and tissue explants; comparative studies of male and female tissues, organ systems and physiological systems; sex-based comparisons of pathophysiology, biomarkers, gene expression, clinical presentation and prevention and treatment of diseases. The most robust experimental designs include consideration of both sex and gender; therefore, applications proposing to investigate the influence of both sex and gender factors are highly encouraged. The proposed research must address at least one objective from Goals 1 through 3 of the NIH Strategic Plan for Women's Health Research.; [View article...]

**Workshop on Developing Dissertation Grant Applications - The F31 and R36**

**Sponsor:** Research Resources and Mailman School Doctoral Committee

**Deadline(s):** Thursday 02/08/2018 and Monday 02/26/2018 in ARB SMS Conference Room 923; 11:30 AM – 1:00 PM

**Contact:** To RSVP, please email Craig Kandell at ckk7@columbia.edu

**Spring 2018 Research Resources Information Sessions Brochure**

**Additional Information:** We invite second & third year doctoral students and faculty mentors to join Research Resources, and the Mailman School Doctoral Committee for a Workshop on Developing Dissertation Grant Applications - The F31 and R36, on Thursday 02/08/2018 and Monday 02/26/2018 in ARB SMS Conference Room 923 from 11:30 AM – 12:50 PM. This two session workshop moderated by Drs. Leslie Davidson, Professor of Epidemiology, and Pam Factor-Litvak, Professor of Epidemiology, and Associate Dean, Research Resources is designed particularly for second and third year doctoral students planning to submit F31 or R36 applications to the NIH for dissertation training funding. The workshop provides an overview of application requirements and addresses elements important in developing a compelling application. It provides useful information, which will facilitate the work a student undertakes with his or her mentor to develop specific aims, a training program and the scientific narrative. Mentors are also welcome to attend. We will repeat the workshop in the Fall of 2018. Topics covered will include overview of the F31 and the R36s, developing specific aims, working with an NIH program officer, choosing a mentor, developing a training program and grantsmanship in making your application compelling. The second date of this workshop has been changed to 02/26/18. To RSVP, please email Craig Kandell at ckk7@columbia.edu

[NTW] [RESEARCH SUPPORT SERVICES]

Update on Research Support Services

**Sponsor:** Mailman School

**Deadline(s):** relative to upcoming NIH Grant Submission Deadlines: 5 weeks prior to submission deadline (Inform R2 of intent to utilize services); 4 weeks prior to submission deadline (science draft for external review); 2 weeks prior to submission deadline (submission for editing services)

**Contact:** Pam Factor-Litvak (Associate Dean, Research Resources, and Professor of Epidemiology) prf1@columbia.edu; Craig Kandell (Project Coordinator, Research Resources) ckk7@columbia.edu

**Link(s):** https://r2eport.files.wordpress.com/2014/04/deanschargeexternalreviewfall2017aspostededited10-31-17pdf.pdf

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us **prior to these deadlines**.

Research Support Services are limited to first-time submissions of R01, P, K, Center, or other complex NIH proposals by full-time faculty with primary appointments in the School. For other grant types and resubmissions, Research Resources is available to provide feedback.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

Additional Information: Spring Program of Clinical and Translational Pilot Studies; Now Accepting Applications; Applications are now being accepted for the Spring Program of Clinical and Translational Pilot Studies supported by the Irving Institute for Clinical and Translational Research. This suite of Irving Institute pilot awards prioritizes early career investigators, but is open to any investigator who meets program specific eligibility criteria. U.S. citizenship or permanent residency status is not required. Focus of the application should be on new ideas and Pilot Studies which will lead to independent, external funding. The areas of research vary across the suite of programs. Each applicant is allowed to be PI on no more than one (1) application in a grant year. Multiple applications from the same PI will not be accepted. The Spring Program includes: (*) Irving Institute CTO Pilot Awards; (*) Imaging Pilot Awards: Deadline for submission of all applications is Friday, March 2.; Potential awardees will be chosen by May 1.; Visit irvinginstitute.columbia.edu for specific eligibility and scoring criteria related to each Pilot Award program.

NIH single IRB (sIRB) policy

**Sponsor:** NIH  
**Deadline(s):** (for NIH application submissions on or after 01/25/2018)  
**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites  
**Link(s):** https://grants.nih.gov/policy/clinical-trials/single-irb-policy-multi-site-research.htm  
**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the "same research protocol." Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the "same research protocol."; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by Stephanie F. Additional Information: HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.; Status of the Revised Common Rule: The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delayed the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information...; Revised Policies: Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans
Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy; Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at hrpofc@barnard.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be access here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; Upcoming HRPO Education Sessions: Monthly IRB-Investigation Monthly Meetings: [Session 1: February 22, 3:30-4:30pm, P&S Amphitheatre 1; Session 2: March 22, 3:30-4:30pm, P&S Amphitheatre 1; Session 3: April 26, 3:30-4:30pm, P&S Amphitheatre 1; Session 4: May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you!: Please send us your questions as well as suggestions for topics for future education sessions!; We look forward to hearing from you!; https://research.columbia.edu/irb; Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu; Columbia | Research Human Research Protection Office; Institutional Review Boards Assuring the Integrity of Peer Review Sponsor: NIH Deadline(s): 12/22/2017 (Release Date)}

NIH ANNOUNCEMENTS: On December 31, 2017

Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission

Sponsor: NIH
Deadline(s): 12/31/2017 (Effective Date)
Contact: Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@mail.nih.gov

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission. Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original; Hope you have a great holiday season! Changes to NIH policies and procedures related to human subjects research

Sponsor: NIH
Deadline(s): these proposal application changes in effect for proposals due January 25th, 2018 or later; 01/25/2018 (Effective Date)
Contact: [brought to our attention by] Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHTrials@nih.gov; [and Stephanie Scott; Director of Policy and Research Development; Sponsored Projects Administration; sfs2110@cumc.columbia.edu]
Additional Information: I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott; Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants? (2) Are the participants prospectively assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm.; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multi-site human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm.; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm.; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDtrials@nih.gov; Doing human subjects research? New policies will impact you! Learn more.; Updated application forms (FORMS-E) are required for due dates of January 25, 2018 and beyond — includes new Human Subject and Clinical Trial Information Form. Take a tour of the new form.; NIH FOAs with FORMS-E; Sponsor: NIH; Deadline(s): 01/25/2018 (FORMS-E to be used with application due dates January 25th, 2018 or later); Contact: [brought to our attention by] Stephanie F. Scott, MS, CRA ; Director of Policy and Research Development; Columbia | Research ; Sponsored Projects Administration; Phone: (212) 854-0606; Cell Phone: (646) 248-8573; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu; Link(s): https://grants.nih.gov/ct-decision/index.htm; https://grants.nih.gov/grants/guide/parent_announcements.htm; https://grants.nih.gov/policy/clinical-trials/new-human-subject-clinical-trial-info-form.htm; Additional Information: Update: NIH FOAs with FORMS-E; For those of you planning to submit NIH proposals in February, NIH has re-issued the Funding Opportunity Announcements (FOAs) for the Parent R01, R03, R21, and most Career Development Awards (K-series) with FORMS-E to be used with application due dates January 25th, 2018 or later. Before initiating an application package, you must first determine whether the study meets the definition of a clinical trial, and then select the appropriate FOA: https://grants.nih.gov/grants/guide/parent_announcements.htm.; If submitting an application with a due date before January 25th, 2018 (such as an AIDS-related application due January 7th), you must select an opportunity that supports FORMS-D. For example, if preparing an R01 application: (*) Use PA-16-160 (FORMS-D) for the January 7th 2018 AIDS-related deadline. (*) Use PA-18-345 (FORMS-E) for the R01 clinical trial February 5th deadline.; (*) Use PA-18-484 (FORMS-E) for an R01 application that is NOT a clinical trial due February 5th.; Due to the complexity of FORMS-E, in particular the new PHS Human Subjects and Clinical Trials Information Form, we very strongly suggest that you submit your proposals.
Be Careful to Pick the Right Funding Opportunity Announcement (FOA)

**Sponsor:** NIH, Extramural Nexus, National Institutes of Health, Office of Extramural Research

**Link(s):** https://nexus.od.nih.gov/all/2017/12/07/be-careful-to-pick-the-right-funding-opportunity-announcement-foa/

**Additional Information:** Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIHF OAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post;  
**Key takeaways:** (*) If any part of your study (the specific aims, components, studies, etc.) meets NIH's definition of a clinical trial, then you must select an FOA that allows for clinical trials; (*) If none of the aims or studies within your project meet the definition, select an FOA that says "Clinical trials not allowed" or "Clinical trials optional"; (*) "The participating organizations may vary between the "clinical trial not allowed" parent FOA and the "clinical trial required" parent FOA for the same activity code. Read the details of each FOA carefully;"; (*) "Note that some institutes that participate on a "Clinical Trial Required" parent may limit their participation to mechanistic studies."; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA; [brought to our attention by] Stephanie Scott, sfs2110@columbia.edu

**Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)**

**Sponsor:** Sponsored Projects Administration

**Deadline(s):** NA, FY2018 Announcements, brought to our attention on 07/06/2017

**Contact:** Any questions about the government fringe rate should be directed to AskRPC@columbia.edu.

**Link(s):** [http://finance.columbia.edu/content/ fringe-benefit-rates](http://finance.columbia.edu/content/ fringe-benefit-rates)

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; For information regarding student employees working during the academic year or summer, refer to [http://finance.columbia.edu/content/ fringe-benefit-rates](http://finance.columbia.edu/content/ fringe-benefit-rates).; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs.; The rate agreement is
available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

**Additional Information:** Dear Colleagues, We believe we can both help Columbia faculty and staff strengthen the outreach component of their research proposals and extend the impact and longer-term stability of our existing excellent outreach programs by creating a centralized database of such programs for researchers to consult when crafting their proposals. Leveraging our experience base and established partners as well as citing outcomes data of existing programs may strengthen the outreach components of new research grant proposals, and may create an opportunity to share mutual administrative costs.; However, at present no centralized source exists for PIs to identify programs to consider when developing extramural proposals. From community service, to public lectures, to tutoring and mentorship, we wish to catalogue information about all the ways in which Columbians directly interact with the outside community.; Please report the outreach programs that you administer via the following form by **Monday, July 31st:** [HTTPS://GOOGLE.FORMS/XR8V6QIFHTG4FHM1](https://grants.nih.gov/grants/index.htm)

**Additional Information:** NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded.; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site.
Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odah- Ramirez, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%; For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of

Additional Information: Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc). Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by Stephanie Scott, SPA Communications and Outreach Director, sfs2110]; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

Change is Coming: Updates to NIH Application Forms and New Policy Requirements;

**Sponsor:** NIH; Extramural Nexus Blog;

**Deadline(s):** 01/25/2016; effective for applications submitted on or after January 25, 2016;

**Contact:** Please see appropriate links;

**Additional Information:** Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more; *Steph.* We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening; *We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.* You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility; (We’ll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D;

**Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;**

**Sponsor:** National Institutes of Health;

**Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species,
strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: NIHTrain@mail.nih.gov;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;
**Additional Information:** This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards;

NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdrd@mail.nih.gov;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;
**Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016

Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH's long-standing policy has been that children must be included in all human subjects' research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects' research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; What's Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond. Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables; and; (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria.; Notes & Exceptions: (*) Career Development Award activity codes excluded from this policy include K02, K05, and K24, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made.; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

FY16 Fringe Rates;
Sponsor: http://spa.columbia.edu;
Deadline(s): FY16;
Contact: Please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd;
Link(s): http://spa.columbia.edu/proposals/institutional-information;
Additional Information: Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd; Thanks: Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.; Next Steps: When you open the Budget Tool, a message that says "You have unapplied payroll changes" will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC; If you have any questions, please contact the Finance Service Center, You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm; Thank you; The Budget Tool Team;

Additional Information: Dear Colleagues, We were pleased to see so many faculty and staff members at the annual HIPAA Privacy and Information Security Briefing. Those of you who were unable to attend the briefing can watch a video of it here: 2016 HIPAA Privacy and Information Security Briefing. The slides and video link are also on the CUMC HIPAA website under HIPAA Educational Information. Although the session was not mandatory, it outlined important information about CUMC’s privacy and information security programs. We encourage you to familiarize yourself with the material; Thank you for your commitment to safeguarding Protected Health Information at the medical center. Your partnership in this endeavor helps make CUMC one of the nation’s leading medical centers.; Sincerely, Karen Pagliaro-Meyer; Privacy Officer; Columbia University Medical Center

Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New York-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe. It’s critical to bear in mind what our public health and infectious disease experts have emphasized— that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.

We will also continue to keep the Columbia community informed as we learn more from this crisis, to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low. Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely,
Lee C. Bollinger;

CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH ERA Commons IDs, as per notice NOT-OD-13-097; Sponsor: NIH; Deadline(s): Starting in October 2014; Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Link(s): NOT-OD-13-097; http://grants.nih.gov/grants/rppr/rprp_instruction_guide.pdf; http://spa.columbia.edu/; Additional Information: This is to clarify the requirement for NIH ERA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person-month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.I) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rprp_instruction_guide.pdf. TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles. If you are requesting an ERA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role. Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned should also be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephen F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned should also be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: [http://www.cumc.columbia.edu/dept/irb/](http://www.cumc.columbia.edu/dept/irb/)

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

**TRAINING GRANTS, T32S, ETC.**

New Program for NIH-funded Grad Students and Postdocs; **Sponsor:** NIH; **Deadline(s):** Open Ended; **Contact:** Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.; **Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-092.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-092.html); [https://www2.gsas.columbia.edu/idp/](https://www2.gsas.columbia.edu/idp/); [https://www2.gsas.columbia.edu/idp/node/3#summary];

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 ([http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html)), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In
addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/#summary. Please contact Rory Flinn (r2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons;

**Link(s):** eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm; 
**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu;

See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rgppr/; Please share this information with your students and postdocs who are supported on NIH grants. NIH eSUBMISSION ITEMS OF INTEREST

REVISED: New Biosketch Format Required 5/25/15;

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA);

“NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics.’

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-AR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5 page warning, those applicants as well. In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly...
from your keyboard. Avoid cutting and pasting from Word and other word processors— they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CITY: Cover Your Application** – that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it somewhere else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPRR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, ... Continue reading →

You Ask, We Answer:
Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notices-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notices-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application ...
application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines.

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3d0SVZ.dpf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at:
The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Additional Information: JUST RELEASED! FY16 DOD BCRP, PRP, PRARP and ERP Program Announcements;
This e-mail is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities for the Department of Defense (DOD) Breast Cancer Research Program (BCRP), Parkinson’s Research Program (PRP), Peer Reviewed Alzheimer’s Research Program and Epilepsy Research Program (ERP) managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Breast Cancer Research Program; Breakthrough Award Levels 3 and 4; NOTE: A Breakthrough Award Levels 1 and 2 Program Announcement will be released in late August 2016.; Parkinson’s Research Program (formerly known as the Neurotoxin Exposure Treatment Parkinson’s Research (NETPR)); Focused Idea Award; Impact Award; Peer Reviewed Alzheimer’s Research Program; Convergence Science Research Award; Quality of Life Research Award; Epidemiology of Military Risk Factors Research Award; Translational Research Partnership Award; Epilepsy Research Program; Idea Development Award; Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://ebrap.org/);
All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil/); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org) and (2) application submission through Grants.gov (http://www.grants.gov). Refer to the General Application Instructions, Section IIA for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; Please do not respond directly to this message.
