<td>DEPARTMENT OF DEFENSE</td>
<td>DoD/CDMRP - COVID-19 Impact on Research Awards [No Link Provided] CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation</td>

This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round. For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if
| NIH FELLOWSHIPS | [1] Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship (Parent F31) PA-21-051 | National Institutes of Health (NIH) | the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting |

**Additional Information:** For, Training Grant PIs and Administrators. There is a series of trainings we are kicking off next week related to NIH institutional training grants. Below are the dates and registration links.; In addition, we just added a fourth session that will be a panel discussion with PIs about their highly scored, recently submitted grant applications. Read below the email I just sent to Deans and Chairs for more information about this special session, which I’m opening up to a wider audience than just to those who are currently preparing training grants. You must register for each session separately.; Please feel free to ask me any questions, or specific questions you’d like addressed during these webinars.; **Session 1:** Monday, February 8th, 12 – 1:30pm EST – focused on proposal preparation; **Session 2:** Thursday, February 18th, 3 – 4:30pm EST – focused on the Data Tables; **Session 3:** Monday, February 22nd, 12 – 1:30pm EST – continues to focus on the Data Tables, and anything else not already covered; **NEW Session 4:** Thursday, March 18th, 2:30 – 4:00pm - NIH Training Grant Success: A Panel Discussion; [brought to our attention by] Stephanie Scott, sfs2110@columbia.edu, NIH Training Grant Success: A Panel Discussion; Dear Colleagues, Sponsored Projects Administration (SPA) will be hosting a panel discussion via Zoom with three NIH training grant Project Directors, each with highly scored, recently submitted grant applications. Their grants represent a full range of training program types: Pre-doc only, pre-doc and post-doc (Ph.D.) and post-doc only (M.D.); Long-standing training grant, relatively new training grant; Submitted to three different NIH Institutes; Intended for those currently preparing NIH institutional training grant applications, but will also be valuable for those considering preparing an NIH training grant in the future. Discussion will include the areas peer reviewers paid particular focus, addressing reviewer comments for resubmissions, and other lessons learned. This is the fourth installment of a webinar series to help prepare PIs for their upcoming submissions. However, this newly added session is being made available to a broader audience. Please feel free to share within your departments as appropriate.; When: Thursday, March 18,
2021; Time: 2:30pm – 4:00pm; To register, click here using a Columbia-affiliated email address.; Q&A: We would love to gather any questions you have related to training grant proposals ahead of the webinar. Please feel free to email me questions at sfs2110@cumc.columbia.edu; Speakers: David A. Fidock, Ph.D., C.S. Hamish Young Professor of Microbiology & Immunology and Medical Sciences (in Medicine); NIAID Training Grant: Columbia University Graduate Training Program in Microbiology and Immunology; Stavroula Kousteni, Ph.D., Professor of Physiology and Cellular Biophysics; NIDDK Training Grant: Hormones: Molecular Mechanism of Action and Functions; Steven Owen Marx, MD, Herbert and Florence Irving Professor of Cardiology (in Medicine) to Honor Dr. Le Roy E. Rabbani (in Pharmacology); NHLBI Training Grant: Postdoctoral Training in Cardiovascular Disease; MODERATOR: Jaime Rubin, Ph.D., Professor of Medical Sciences (in Medicine) at the Columbia University Irving Medical Center; Vice Chair for Investigator Development; If you have any questions, feel free to reach out to me at sfs2110@cumc.columbia.edu. DoD/CDMRP - COVID-19 Impact on Research Awards
[No Link Provided]
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation

**Sponsor:** Department of Defense  
**Deadline(s):** NA  
**Contact:** For questions concerning this notice, please contact the Grants Specialist and Science Officer or Grants Officer’s Representative listed in your award

Current, FY 2020 Department of Defense Funding Opportunities

**Sponsor:** Department of Defense

**Deadline(s):** Please see piecemeal programs and their individual opportunities for Deadlines

**Contact:** CDMRP Help Desk, help@ebrap.org

**Link(s):** https://cdmrp.army.mil/funding/prgdefault

**Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil. Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

Opportunities for postdocs through full professors.; Remember, these are anticipated funding opportunities. We do not yet know when these opportunities will be officially released. This pre-announcement gives researchers time to plan and develop ideas for proposals as we wait for the official announcements to be released.; DoD Peer Review Medical Research Program Anticipated Funding Opportunities; Defense Health Program; Department of Defense Peer Review Medical Research Program; Anticipated Funding Opportunities for Fiscal Year 2021 (FY21); Although the Fiscal Year 2021 (FY21) Defense Appropriations Bill has been signed into law, the FY21 appropriation for the Department of Defense Peer Reviewed Medical Research Program (PRMRP) is contingent upon the outcome of a pending rescissions request. The PRMRP is providing the information in this pre-announcement to allow investigators time to plan and develop ideas for submission to the anticipated FY21 funding opportunities. This pre-announcement should not be construed as an obligation by the Government.; The FY21 Defense Appropriations Act is anticipated to provide funding to the Department of Defense PRMRP to support research that will improve the health, care, and well-being of all military Service members, Veterans, and beneficiaries by encouraging, identifying, selecting, and managing medical research projects of clear scientific merit and direct relevance to military health. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency J9, Research and Development Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program; Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP) at the U.S. Army Medical Research and Development Command (USAMRDC).; Subject to the FY21 Congressional appropriation for PRMRP funding, FY21 PRMRP Program Announcements and General Application Instructions for the following award mechanisms will be posted on the Grants.gov website. Pre-application and application deadlines will be available when the Program Announcements are released.; Congressionally Directed Topic Areas: Applications submitted to the FY21 PRMRP must address at least one of the FY21 PRMRP Congressionally directed topic areas. As of the release date of this pre-announcement, the FY21 PRMRP Topic Areas have not been finalized. This pre-announcement should not be construed as an obligation by the Government to include any of these Topic Areas or others in the FY21 PRMRP. Please see the announcement for the potential FY21 PRMRP Topic Areas as follows: https://cdmrp.army.mil/pubs/press/2021/21prmrppream; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP and other USAMRDC extramural funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission deadlines are not available until the Program Announcements are released. For email notification when Program Announcements are released, subscribe to program-specific news and updates under “Email Subscriptions” on the eBRAP homepage at https://eBRAP.org. Additional Information: NIH’s New COVID-19 Research Website; Below is an announcement from Dr. Mike Lauer of NIH announcing their new NIH COVID-19 website. See below for more details.

We are pleased to announce that the new NIH COVID-19 website launched earlier this week. The site provides a central location for trusted, up-to-date, accurate information about NIH research and our strategic role in COVID-19 research. The site complements information made available on our COVID-19 Information for NIH Applicants and Recipients of NIH Funding webpage. The new site includes information about key programs such as the Accelerating COVID-19 Therapeutic Interventions and Vaccines public-private partnership and the Rapid Acceleration of Diagnostics initiative to develop state-of-the-science diagnostic tests for COVID-19. Users are also able to search information on funded research by state, institution, Congressional district, and more.

To support ongoing efforts to direct the public to critical information on COVID-19, the website also includes links to information on: Vaccines, treatments, and testing; Clinical trials and how to participate; How to donate plasma; Resources from NIH’s Community Engagement Alliance Against COVID-19 Disparities and Federal agencies such as the Centers for Disease Control and Prevention and Department of State.

**Additional Information:** Dear Fellow Members of the Columbia Community, As we approach 2021, I write to update you about an important requirement for Spring Term 2021 SARS-CoV-2 Gateway testing. Effective January 4, 2021, a NEW gateway test is required for all faculty, staff, and students accessing Columbia campuses and other facilities. This includes individuals who have been on a campus throughout 2020 and who previously complied with the requirements of the gateway testing program. This gateway test must be administered by Columbia University's COVID Testing Program starting January 4, 2021 through January 25, 2021. Due to our stringent quality and data management systems, the only acceptable tests will be conducted by Columbia's COVID Testing Program at one of our five approved testing sites (Monday to Friday in Morningside Lerner Hall & CUIMC Black Building Schaeffer Gallery; Select dates at West 51st St, Lamont Doherty Earth Observatory, or Tarrytown Columbia Doctors). Tests submitted from other locations, including NYP or WHS, will not be accepted. Access to all Columbia campuses and facilities via the ReOpenCU app (symptom checker app) and Columbia University ID card swipe system will only be permitted for those faculty, staff, and students who have completed the repeat gateway test requirement by January 25, 2021. Register for this gateway test online beginning December 23rd, 2020. The schedule opens 10-14 days in advance. During the gateway period, there will be more than sufficient schedule capacity in the Morningside and CUIMC locations to accommodate all those requiring testing; however, schedule availability in each site will depend on the demand for specific appointment dates and time slots. We encourage you to plan ahead, schedule in advance, and consider all testing sites if a particular date and time is preferred. For those who do not complete a new SARS-CoV-2 PCR test between January 4th and January 25th, access to the campuses and facilities will be reinstated within 48-72 hours of completion of a gateway test at an approved site. More information regarding the testing plan for the Spring Term can be found online. We thank you for your continuing commitment to participating in the University testing program and the steps you take each and every day to keep our community safe. With care for our community, Melanie J Bernitz, MD, MPH; Associate Vice President & Medical Director, Columbia Health; Associate Clinical Professor of Medicine (in the Center for Family and Community Medicine); More Information: covid19.columbia.edu

Additional Information: An Update from the Columbia University Biobank (CUB) and COVID-19 research; This message is sent on behalf of the Columbia University Biobank (CUB) from Dr. Muredach Reilly, Director, Irving Institute for Clinical and Translational Research, and Dr. Michael Shelanski, Senior Vice Dean for Research, at the Columbia University Irving Medical Center; For questions, contact: General questions: Danielle Pendrick, dp2657@cumc.columbia.edu; Researchers can contact - PS-Officeforresearch@cumc.columbia.edu; Participants can contact - CUBiobankCOVID19@cumc.columbia.edu; As you will remember, the Columbia University Biobank (CUB) quickly pivoted in April 2020 in response to the urgent needs surrounding the coronavirus pandemic. Since then CUB has collected biospecimens from Columbia University Irving Medical Center/NewYork-Presbyterian Hospital (CUIMC/NYP) patients who tested positive for SARS-CoV-2, and re-distributed samples to researchers across campus. Currently we have over 90,000 biospecimens banked from more than 14,000 patients (both COVID-19 positive, and negative) including DNA, RNA, serum, plasma, urine, and other tissue samples. Given the number of patients treated for COVID-19 at CUIMC/NYP and the diversity of our patient population, Columbia's COVID-19 biobank is arguably the largest and most distinct in the United States. Additionally, CUB has consented more than 2,400 patients for genomic research and future research studies to further advance our understanding of COVID-19 and its devastating clinical consequences.; Since our last update, whole exome sequencing data has been generated on more than 1,000 patients diagnosed with SARS-CoV-2, and is currently available in AWS for download with the appropriate IRB and CUB approvals. Host and virome RNA sequencing and microbiome data generation is ongoing, and will soon be available to investigators with CUB approval. We are also excited to announce that Dr. David Goldstein has partnered with Vanda Pharmaceuticals to perform whole genome sequencing on 1,000 CUB COVID+ patients. Once generated, this data will also be available to CUIMC researchers for their own analyses.; Dr. Krzysztof Kiryluk in the Department of Medicine is spearheading an effort to generate SARS-CoV-2 genome-focused clinical phenotypes, which will then be combined with sequencing data generated by the Institute for Genomic Medicine, into a single dataset that will be available centrally through CUB. We hope that this data will be useful to any Columbia investigator performing genetics and genomics analyses to address SARS-CoV-2-related research. Additionally, the CUB Clinical Phenotype Committee (CPC), led by Dr. Mitchell Elkind, has been established to oversee efforts related to the generation of broader COVID-19 clinical phenotypes. The CPC is multidisciplinary working group which includes experts from the Departments of Anesthesiology, Surgery, Pediatrics, Emergency Medicine, Biomedical Informatics, Obstetrics and Gynecology, and Medicine (Pulmonary, Cardiology, Nephrology and Transplant). The CPC has focused initial efforts on standardizing, validating, and refining core SARS-CoV-2 related phenotype definitions, which will be made widely available when completed.; As of October 2020, over 140 requests to the biobank were reviewed by the CUB Sample and Data Committee, and more than 22,000 samples have been disbursed to support a wide range of research studies across the CUIMC community. With assistance from Drs. Kevin Roth, Eldad Hod, and Susan Whittier in the Department of Pathology and Cell Biology, we are able to continue residual clinical sample collections, which will be critical as the coronavirus continues to spread.; While CUB has initially focused on COVID-19 due to obvious needs, it continues to look past the pandemic and begin University-wide recruitment efforts with multiple partners and across multiple domains towards the ultimate goal of enrolling all CUIMC/NYP patients. To this end, we are excited to be partnering with the IGM's All of Us team. The Columbia University Biobank is now being offered to All of Us participants during their enrollment and retention activities. CUB looks forward to applying the lessons learned from the All of Us Research Program to the CUB
recruitment efforts. We encourage you to use the research resources offered through the CUB website. As we enter another chapter in the COVID-19 pandemic and again brace ourselves for potential challenges ahead, it is with great thanks that we acknowledge the strength of the Columbia community. Having the Columbia University Biobank now in full operation will significantly benefit the vital research yet to come.

Stay safe,
Muredach Reilly, MBBCh; Director, Irving Institute for Clinical and Translational Research; Michael Shelanski, MD, PhD; Senior Vice Dean for Research; On behalf of the Columbia University Biobank

**Sponsor:** [https://evansmds.org](https://evansmds.org)  
**Deadline(s):** 02/01/2021 (LOI); 04/2021 (Invited Applications)  
**Contact:** All documents must be submitted in electronic form, as a single pdf file, by email, to grants@epefoundation.org. Applicants selected to submit a full proposal will be notified in early March 2021. The deadline for submission of the full proposals will be in early April 2021. It is intended that funding will be initiated by September 1, 2021.  
**Additional Information:** 2021 FIRE Grant Program; Deadline: February 1; The RUNX1 Research Program (RRP) and the Edward P. Evans Foundation are pleased to announce their joint RRP & EvansMDS 2021 FIRE Grants on Inflammation and Clonal Hematopoiesis. The Edward P. Evans Foundation is a non-profit Charitable Trust dedicated to funding research on Myelodysplastic Syndromes (MDS) through its EvansMDS initiative. EvansMDS is seeking to fund the discovery of new knowledge that will lead to the development of better MDS therapies and ultimately, disease cures. The RUNX1 Research Program (RRP), is a non-profit organization with the mission to improve the quality of life and prevent cancer in RUNX1 familial platelet disorder. RRP pursues its mission through funding world-class, collaborative research, and building an empowered patient network integrated within the medical research community. EvansMDS and RRP are working together to multiply our impact on a highly specific area of research that will benefit patients if given focused attention.; The joint FIRE Grant Program is particularly interested in funding projects that are considered high-risk/high reward. Priority will be given to projects that focus on RUNX1-FPD but other projects are welcomed. If submitting a project without focus in RUNX1-FPD, it is imperative the investigators clearly communicate how a proposed study has direct relevance to, or potential impact on RUNX1-FPD.; Other immediate priorities include: Strategies for therapeutic intervention in high-risk patient populations with germline mutations that predispose to MDS/AML; Leveraging FDA-approved or advanced investigational agents that target proinflammatory pathways to determine if such agents can halt disease progression; Inclusion of data derived from patient specimens to inform hypothesis-driven translational studies directed toward future clinical studies; Investigator-initiated proof-of-concept clinical trials.; Formation of multidisciplinary teams that include expertise in basic, translational and clinical research.; Through this
funding mechanism, RRP and EvansMDS have allocated approximately $800,000 to this grant program. Each proposal can request funding for 2 years. We will support approximately two (2) studies. We anticipate this to be a highly selective and highly competitive process. Applications will be peer-reviewed by an independent review panel led by both RRP and EvansMDS. For more information and to apply, follow the link here; Request for Letters of Intent for Studies of Inflammation and Clonal Hematopoiesis; Award amount: Up to $200,000 per year for up to two years; Letter of Intent Submission Deadline: February 1, 2021; Letters of intent are due February 1, 2021 and will be reviewed by a Joint Reviewing Committee comprised of Scientific Advisors from each Foundation. All documents must be submitted in electronic form, as a single pdf file, by email, to grants@epefoundation.org. Applicants selected to submit a full proposal will be notified in early March 2021. The deadline for submission of the full proposals will be in early April 2021. It is intended that funding will be initiated by September 1, 2021.

Additional Information: K Award Course; 2020 – 2021; We are pleased to announce that the 2020 - 2021 cycle of the K Award Development Seminars will begin on Thursday, October 15th, 2020 and will run through Thursday, May 20th, 2021. As of now, seminars will be held virtually on the 3rd Thursday of every month from 10:00 am-11:00 am (with the exception of the May seminar which will be Thursday, May 20th; 10:00 am – 11:30 am); These seminars are to assist research fellows and junior faculty with preparing their proposal for a K Award, but also to expose the application process to those who are interested in learning more. Each monthly seminar has a faculty presenter or panel and focuses on a component of the K Award application. One of the seminars is a mock review, where seminar participants volunteer to have their applications reviewed by faculty and the class experiences a simulated review committee meeting. If you are interested in registering (or if you will be recommending others to take the course), please note that we are expecting participants to commit to the full cycle by attending each monthly seminar and be willing to share interim drafts for constructive comments. To register, please complete this survey form: https://www.surveymonkey.com/r/X5K8893.; Catherine Monk, PhD (Professor of Medical Psychology (in Psychiatry and Obstetrics and Gynecology) has joined me again this in co-leading the seminar; If you have any questions, please feel free to email either of us.; If you know of anyone who could benefit from this class, please forward this email; Thank you!; Best Regards, Harold and Catherine; Best regards, Harold [brought to our attention by] Harold Alan Pincus, M.D.; Professor and Vice Chair; Department of Psychiatry; Co-Director, Irving Institute for Clinical and Translational Research; Vagelos College of Physicians and Surgeons; Columbia University; New York State Psychiatric Institute; Email: Harold.Pincus@nyspi.columbia.edu; Senior Scientist, RAND Corporation; National Program Director, Health and Aging Policy Fellowship ; www.healthandagingpolicy.org

HICCC seeks to support investigators actively involved in cancer research and to encourage others in the biomedical community to enter cancer research. The goal of the competition is to support bi-directional translational research that drives basic, translational, clinical trials, clinical care, and population science, generating novel hypothesis-testing research questions. Up to five VELOCITY Fellows will be selected to lead teams consisting of one lead Principal Investigator and co-investigators and/or collaborators with complimentary expertise. Interdisciplinary teams are strongly encouraged. At least one population science or community based project will be awarded.; HICCC encourages research projects that address and accelerate progress in understanding and reducing cancer health disparities. We are particularly interested in proposals that directly relate to the cancer burden in the HICCC catchment area and potential applicants are expected to reach out to the HICCC Community Outreach and Engagement (COE) office in writing the proposal.; Questions: contact Tanisha Jackson at tj2325@cumc.columbia.edu.; For more information, eligibility requirements, and to apply, click the button below.

**Additional Information:** CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching; Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/experience. I am also attaching a PDF document with all the information about the grants.; **Eligibility:** All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.; **Amount:** Funding of up to $1,500 per proposal is available.; **Deadline:** Applications for the grants are open via rolling submission throughout the 2020-21 academic year.; **Description:** With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task.; To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical structures and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.; Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.; We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply.; Best, Jozef; [brought to our attention by] Jozef Sulik; Senior Project Manager; Presidential Scholars in Society and Neuroscience; The Center for Science and Society; Columbia University in the City of New York; presidentscholars.columbia.edu; scienceandsociety.columbia.edu

Additional Information: [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott ; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects. ; Users with records currently in progress will need to modify the records to meet new FORMS-F requirements.; The changes listed below include items released by eRA in March and items released on June 13.; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.A.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.A.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen
— Section 4.6 asks 'Is this an applicable clinical trial under FDAAA?'; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS.; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3.; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4.; Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116.; For more information, see: [*] Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template ; [*] The eRA Human Subjects System (HSS) information page ; [*] Information about the PHS Human Subjects and Clinical Trials Information form ; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? Additional Information: Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. [NTW] [SPA TRAINING GRANT RPPRS AND SURVEY]

Training Grant RPPRs and Survey
Sponsor: SPA/HICCC
Deadline(s): 10/01/2020 (Release Date)
Contact: [brought to our attention by Stephanie Scott, SPA], sfs2110@cumc.columbia.edu ; If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu ; For inquiries concerning the policy described in the NOT-OD-20-178 Notice, contact: NIHTrain@mail.nih.gov
https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJOq5kp

Additional Information: Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJOq5kp ; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPRR with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJOq5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal
Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our meeting on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@cumc.columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html ; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@cumc.columbia.edu ; Thank you!; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; sfs2110@cumc.columbia.edu ; Website: https://spa.columbia.edu/

Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

**Sponsor:** National Institutes of Health

**Deadline(s):** This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Additional Information:

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline** — Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.
Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

[RFA provided for reference, this is a Limited Submission Initiative]
Additional Information: Limited Submission; Carnegie Corporation - The Domestic-International Connection; Internal Proposal due 9:00 a.m. on Monday, February 15; Program: Experts, political leaders, and voters are increasingly calling for the United States to reorient its foreign and national security policies to better reflect connections between international and domestic concerns. They argue that economic, health, education, and social problems cannot be addressed by separating foreign and domestic policies and that greater integration would lead to more effective U.S. policies at home and abroad. Given the heightened interest in these issues, there is a need to explore the key factors underlying the importance of the domestic-international connection and what an integrative policy approach might look like in practice.; Through this Request for Proposals, Carnegie Corporation of New York seeks projects that provide new and actionable insights on these issues. More specifically, we are seeking project ideas that will address one or more of the following questions: Why would a better alignment between domestic and foreign policy lead to better outcomes for the United States?; What specific goals might be advanced through better aligned domestic and foreign policies in key areas, and what would be the trade-offs?; How should U.S. spending and policy priorities be adjusted to better achieve outcomes that make Americans more secure in their daily lives?; What roles should the Executive and Legislative branches play in managing these efforts?; How should the composition, organization, and functioning of federal agencies be adapted to achieve these objectives?; How should other domestic stakeholders, including state/local government, civil society organizations, as well as the business and academic sectors, be engaged in these conversations and efforts?; How can the views of underrepresented domestic constituencies be more meaningfully included in these foreign policy and national security debates?; What lessons can be learned from past efforts to integrate concepts such as “human security” or “global security” into the foreign policy and national security space, and how should they inform new efforts?; Award: Applicants may submit a proposal in one of two categories: grants of up to $200,000 or grants for between $200,000 and $500,000. Projects may run for up to 24 months.; Eligibility: Proposals must be led by Columbia-based Centers. Individual researchers working on their own projects are not eligible. Special consideration will be given to institutions and experts not currently funded by the Carnegie Corporation. Projects may build on past or current work but must represent an expansion or evolution of that work. All proposals must: Involve collaborations between domestic and foreign policy experts within the same or different institutions.; Include participation by experts from underrepresented communities in the project team and/or project activities. We also encourage inclusion of early-career and/or mid-career experts.; Demonstrate practical significance and a viable path for policy adoption.; Clearly identify stakeholders and key audiences with a dissemination plan that uses appropriate channels.; Internal Proposal: The internal proposal must be submitted online at https://columbia.infoready4.com/#competitionDetail/1834948 by 9:00 a.m. on Monday February 15, and must include following.; Online Application Form; Project Overview (1-2 pages) summarizing the project approach, goals, and workplan; Biographic Summaries (one-page double-spaced) for the principal investigator and anticipated key personnel; Questions: Greg Culler

Additional Information: Limited Submission; Carnegie Corporation – Reimagining Multilateralism; Internal proposal due: 9:00 a.m. on Monday, February 15; Program: From pandemics and climate change, to disruptive technologies and other emerging risks, it is a truism that most of today’s global threats cannot be addressed effectively without collective action. Through this Request for Proposals, Carnegie Corporation of New York invites projects that provide insights and practical approaches for addressing one or more of the following questions: How might the system of international institutions be reimagined and/or reinvigorated to better respond to 21st-century security challenges, including those that threaten global health, climate, privacy, and civic well-being? What are the pros/cons/utility of different forms of multilateralism for different purposes (e.g. formal vs. informal, small vs. large, narrow vs. broad, regional vs. global, like-minded vs. mixed, major powers only vs. a broader set of powers)? How could international institutions adapt to better reflect and manage ongoing shifts in economic, military, and political power among global actors, especially in the context of China’s rise? What lessons should be learned from high-functioning regional organizations or international accords? How might critical, yet underappreciated, flashpoints (geographic, economic, technological, etc.) be managed through multilateral approaches? Could these approaches be applied more broadly? How should potential tradeoffs between national interests and collective security be managed? Award: Applicants may submit a proposal in one of two categories: grants of up to $200,000 or grants for between $200,000 and $500,000. Projects may run for up to 24 months; Eligibility: A proposal must be led by Columbia-based Center. Individual researchers working on their own projects are not eligible. Special consideration will be given to institutions and experts not currently funded by the Carnegie Corporation. Projects may build on past or current work but must represent an expansion or evolution of that work. Additionally, all proposals must: Involve collaborations between U.S. and foreign experts; Include participation by experts from underrepresented communities in the project team and/or project activities. Carnegie also encourages inclusion of early-career and/or mid-career experts; Demonstrate practical significance and a viable path for policy adoption; Clearly identify stakeholders and key audiences with a dissemination plan that uses appropriate channels; Internal Proposal: The internal proposal must be submitted online at https://columbia.infoready4.com/#competitionDetail/1834942 by 9:00 a.m. on Monday February 15, and must include following: (1) Online Application Form; (2) Project Overview (1-2 pages) summarizing the project approach, goals, and workplan; (3) Biographic Summaries (one-page double-spaced) for the principal investigator and anticipated key personnel; Questions: Greg Culler at limitedsubmissions@columbia.edu

Additional Information: Feldstein Medical Foundation Research Grants; Reply-To: Limited Submissions limitedsubmissions@columbia.edu; Limited Submission; Feldstein Medical Foundation Research Grants; Internal proposal deadline: 9:00 a.m. on Thursday, February 25.; WHAT The Feldstein Medical Foundation (FMF) is a private foundation, created to promote and advance previously neglected areas of medical research. FMF is particularly focused on funding: Junior investigators, at the assistant professor level, with a history of some prior independent funding; Research projects that are novel, and innovative to the field of study—the research should potentially represent a significant advancement in scientific knowledge; Research in areas where FMF funding will have the maximum beneficial impact on health or healthcare practice for significant populations; The Foundation will not accept proposals for already funded projects or bridging support for projects for which funding has lapsed. FMF will fund projects with a total annual cost of up to $80,000 (a maximum of 10% indirect costs may be included) for a period of one year.; Potential applicants are strongly encouraged to review FMF awards to gain insight into funding priorities: https://feldsteinmedicalfoundation.org/prior-funding/; Each institution may submit only one application in each of the following two categories: Basic science research; Translational research / clinical research / medical education research, which will include: T1 (developing treatments and interventions in early clinical trials), T2 (testing the efficacy of interventions), T3 (dissemination and implementation research for system wide change), T4 (dissemination and implementation research for population change).; WHO Applicants must: Hold a full-time appointment as Assistant Professor in VP&S, MSPH, or Nursing; Have secured some prior independent funding from external sources; Due to the focus on independence, projects that are an extension of senior faculty work are not eligible for support; Publications independent of former mentors, and some level of independent funding, as PI, are both significant signs of independence and will factor in the internal selection process.; WHEN Internal Proposal due – 9:00 a.m. on Thursday, February 25, 2021; Sponsor Proposal due – March 31, 2021; HOW For more information, please view the internal application; page https://research.columbia.edu/content/limitedsubmissions#table-1834275; Please direct questions to Greg Culler at limitedsubmissions@columbia.edu; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://research.columbia.edu/content/limitedsubmissions#table-6029; COLUMBIA | RESEARCH

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page

NIH eSubmission Items of Interest - July 31, 2018

Additional Information: NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new NIH Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention.; I highlighted what I thought were the key points below. [brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it's a real thing. And, why shouldn't it be? I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new "daddy." "She's two dogs long and one dog tall and looks like she's made from spare parts," Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn't going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn't trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I've at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you'll find this edition to have an interesting mix ... not unlike your favorite mutt.; Where Do I Put the Information I Know You'd Want, But Didn't Ask For?; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, there are page limits you must stay within to convey the requested information.; If you have information that doesn't fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn't have a "natural home" based on our instructions, don't include it.; There are several form fields with tempting names like "Appendix," "Other Attachments," "Other Requested Information," and "Other Clinical Trial-related Attachments." DO NOT use those fields unless requested to do so in the application guide or announcement.; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn't belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them.; The Duplication Balancing Act: The application guide statement "do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form" appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a "Brief Summary" of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don't want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it's not just extra space to expound on the research strategy).; The Brief Summary in the Protocol Synopys section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full...
It should hit the key points at a very high level in as close to plain language as possible.; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.

**Space-Fill Compulsion:** My mother, an interior designer, never saw a horizontal surface she didn't want to decorate. For years I encouraged her to declutter and often she'd begrudgingly remove a knock-knock from a table of shelf. But the next time I'd visit a new knock-knock was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we've learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?.; If you've covered what you need to say in a few paragraphs, then stop. You don't need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It's, OK. Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don't bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can't independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor's oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It's fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It's not OK for them to be off on their own shouldering all the responsibility themselves.; Dog Days of Summer: "Be the person your dog thinks you are."; ~ George Eliot aka Mary Ann Evans; Stay cool and if you're lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Additional Information: NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic.; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019.; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies.; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see https://research.columbia.edu/content/good-clinical-practice-training or email NIH-GCP@columbia.edu.; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; or sf2110@cumc.columbia.edu; Website: https://spaprojects.cumcolumbia.edu/; NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; Dear COGR Members, NIH issued the following Guide Notice this morning, Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants.; As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency’s definition of “clinical trial” to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input “on registration and results reporting standards best suited for prospective basic science studies involving human participants.”; The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates that the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details.; Lisa Nichols, Ph.D.; Council on Governmental Relations; 1200 New York Avenue, N.W., Suite 460; Washington, D.C. 20005; lnichols@cogr.edu; 202-289-6655

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** —Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** —For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us **prior to these deadlines**.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

Pam Factor-Litvak

**NIH single IRB (sIRB) policy**

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after) 01/25/2018

**Contact:** If you are preparing an NIH Funding application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Link(s):**

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps; In addition, we are offering several options to learn more about the sIRB process. **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol”; If you have any questions, please contact irboffice@columbia.edu; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template);

Additional Information: HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements. Status of the Revised Common Rule: The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information... Revised Policies: Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!!! Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be accessed here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; Upcoming HRPO Education Sessions: Monthly IRB- Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you!: Please send us your questions as well as suggestions for topics for future education sessions!; We look forward to hearing from you!; https://research.columbia.edu/irb/ Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu; Columbia | Research Human Research Protection Office; Institutional Review Boards

**Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH...
clinical trial definition; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants? (2) Are the participants prospectively assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov; Doing human subjects research? **Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that
an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R2, and is entirely optional; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu; I hope I will be requesting advantage of these new services and that you find them helpful; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Contact: Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.
Link(s): http://finance.columbia.edu/content/fringe-benefit-rates http://spa.columbia.edu/proposals/institutional-information

Additional Information: To Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; For information regarding student employees working during the academic year or summer,

NIH to Limit Total Grant Support to PIs

Sponsor: NIH
Deadline(s): NA

http://www.nature.com/news/nih-grant-limits-rie-biomedical-research-community-1.21949
Additional Information: NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants.

PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

**Additional Information:** All, I wanted to bring a resource to your attention. WNYC is launching a new project called “The Privacy Paradox.” To quote its Website, it is for those of us who “...love the convenience of living online. But you want more control over where your personal information goes and who can see it.” This initiative combines a podcast, newsletter and even a “privacy quiz” designed to help you make more informed choices about who you allow to access your digital information.; If you are interested, you can check it out at: [http://www.wnyc.org/story/privacy-paradox-launch/](http://www.wnyc.org/story/privacy-paradox-launch/)

The Fringe Rate Applicable to Government Grants and Contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%.; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; **Steph:** We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this
We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.) (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;

Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals; Sponsor: National Institutes of Health; Deadline(s): NA Release Date: 10/13/2015; Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov; Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html; Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria; (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System; Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality; Deadline(s): NA Release Date: 10/13/2015; Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov; Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html; Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests; Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality; Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdrfr@mail.nih.gov; Phone: 301-435-0715; Email: csdrfr@mail.nih.gov;

Link(s): http://grants.nih.gov/grants/guide/notice-files/NCT-008.008.html

Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form. The forms included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) Form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment may still be used to communicate a variety of other issues, as specified in application guides. (e.g., reason for late submission);

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;

Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;

Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714.;

Link(s): http://grants.nih.gov/grants/guide/notice-files/NCT-008.008.html

Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

Inclusion of Children in Clinical Research: Change in NIH Definition;

Sponsor: National Institutes of Health;

Deadline(s): NA Release Date: 10/13/2015;

Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov; Phone: 301-435-7124; Email: inclusion@od.nih.gov;

Link(s): http://grants.nih.gov/grants/guide/notice-files/NCT-008.008.html

Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH's long-standing policy has been that children must be included in all human subjects' research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects' research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; What's Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of
Implementing Rigor and Transparency in NIH & AHRQ Career Development Award Applications; 
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;  
**Deadline(s):** NA Release Date: 10/13/2015;  
**Contact:** Please direct all inquiries to: reproducibility@nih.gov;  
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-012.html;  
**Additional Information:** This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* Career Development Award applications submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables; and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*)  
*Notes & Exceptions: (*) Career Development Award activity codes excluded from this policy include K02, K05, K23, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made.; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Notice to Extend Eligibility for Submission to PAR-19-371, NIAID Career Transition Award (K22 Independent Clinical Trial Not Allowed) due to COVID-related Disruptions

**Sponsor:** National Institute of Allergy and Infectious Diseases (NIAID)

**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2022 (Expiration) [for PAR-19-371]; Though subject to future updates, NIAID now will provide at least a 2-receipt cycle extension (roughly 8 additional months) of eligibility for individuals whose eligibility to apply for the K22, under normal eligibility rules (including the resubmission policy as defined in NOT-OD-18-197), is expiring between June/July 2020 and February/March 2021 (inclusive of these dates). In addition, those who normally would have been eligible to apply for the June/July 2021 receipt date will have a 1-receipt cycle (roughly 4 months) extension.

Temporary Extension of Applicant Eligibility in PAR-19-343 "Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00 - Independent Clinical Trial Not Allowed)"

**Sponsor:** National Institute of General Medical Sciences (NIGMS)

**Deadline(s):** Standard dates; Standard AIDS dates; 11/15/2022 (Expiration) [for PAR-19-343]; Under normal circumstances, individuals must have no more than four years of postdoctoral research experience to be eligible to apply for the MOSAIC Postdoctoral Career Transition Award to Promote Diversity. The purpose of this Notice is to inform the extramural community that due to disruptions caused by the COVID-19 pandemic, the NIH will be providing up to a two-receipt date cycle extension of eligibility (roughly eight additional months) for prospective applicants meeting the requirements for submission of a K99/R00 application from the time period covered by the June/July 2020 due dates through the February/March 2021 due dates.

ZIKA
Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.

At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low. Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in this commitment.

Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.

Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe; it’s critical to bear in mind what our public health and infectious disease experts have emphasized—that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590. We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials; Sincerely, Lee C. Bollinger;

**CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097:**

**Sponsor:** NIH

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University: Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);

**Link(s):** NOT-OD-13-097;

[http://spa.columbia.edu/](http://spa.columbia.edu/); Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have **participated at least one person month** on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found
Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;

Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr;

Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

at: http://grants.nih.gov/grants/rppr/rprr_instruction_guide.pdf. ; TIP – when preparing your RPPR, click "Check for Errors" prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report that have missing eRA Commons IDs, with complete eRA Commons Personal Profiles. Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.; **Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. **New Program for NIH-funded Grad Students and Postdocs; Sponsor: NIH; Deadline(s): Open Ended;**

**Contact:** Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program;  
**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an...
individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (r2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.;

Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons;

NEW ITEMS FROM THE NIH

NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles; Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; if you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

The Research Performance Progress Report (RPPR);

Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097; Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for...
Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it somewhere else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-Competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, ... Continue reading →

**You Ask, We Answer:**

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

---

**NIH REVISED SUBMISSION RULES**

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. **Stephanie F. Scott, M.S., CRA**

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g. now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#shash.013doSVZ.dpuf;

FEDERAL FUNDING TRAVEL POLICY

**NIH-Investigators New Policy on Fly America Act;** Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains:*  
- Full policy text, including links to resources;  
- *FAQs;*  
- A Decision Tree Diagram;  
- A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:  
http://spa.columbia.edu/policies/us-flag-carrier-policy;  

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

Policy on Charging and Documentation of Personnel Costs Charged to Sponsored Projects

Sponsor: COLUMBIA UNIVERSITY
Deadline(s): Information Sessions are offered to ensure clear understanding of this policy. Attendance is strongly encouraged. Information sessions will be held in October on both the CUMC and Morningside campuses: (*) CUMC – Alumni Auditorium, Black Building, 650 W. 168 St.; (**) Tuesday, October 11, 11:00-12:30; (***) Thursday, October 13, 10:30-12:00; (*) Morningside – Schapiro
Dear Colleague,

We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.

Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included:

(*) Sub recipient/Contractor Classification Form - NEW FORM;
(*) Subaward Face Page - REVISED FORM;
(*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM;
(*) International Research Questionnaire (IRQ), if applicable;
(*) Subawardee Financial Conflict of Interest Policy Form –
