<td>NIH DATA MANAGEMENT AND SHARING POLICY</td>
<td>NIH just released new guidance on budgeting and costs in their NIH Data Management and Sharing (DMS) Policy FAQs. A significant change SPA wishes to highlight: Personnel Effort: Per NIH’s Budget/Costs FAQ 6, “All costs for data management and sharing activities, including personnel costs, must be included in the single line item on the R&amp;R Budget Form in section F. Other Direct Costs. This includes the salary and fringe benefits corresponding to the time it takes personnel to undertake data activities (e.g., formatting, curating, developing supporting documentation). Do not include personnel costs related to data management and sharing activities in section A. Senior/Key Person or section B. other Personnel. Supporting details, including a breakdown of any personnel effort, must be included in the budget justification.”; This is a change from our previous guidance. Frequently Asked Questions (FAQs)</td>

| Additional Information: SPA provided two important clarifications for PIs regarding: (1) the use of DMPTool and NIH’s formatting requirements, and (2) when the Resource Sharing Plans are required in addition to the Data Management and Sharing Plan.; DMPTool - When using DMPTool to create the DMS Plan, the Plan must comply with all of NIH’s formatting requirements. Otherwise, the application is at risk of getting withdrawn. This includes font size, margins, and no URLs or hyperlinks are allowed. You should download the Pslan created in DMPTool as a Word document to make sure you can meet all formatting requirements. See this one-page DMPTool Formatting Guide for NIH Proposals.; Resource Sharing Plan(s) - When the new DMS Policy took effect on January 25, 2023, it eliminated the requirement to include a Data Sharing Plan (under the 2003 policy), or a Genomic Data Sharing Plan, in the Resource Sharing Plan(s) section of the application. Instead, only one DMS Plan is needed (even if subject to the Genomic Data Sharing Policy), which is included in the Other Plan(s) section of the application. See Writing a DMS Plan, which contains additional instructions for applications subject to the Genomic Data Sharing Policy.; A Resource Sharing Plan(s) is required only when the PI plans to create the following two items: Model Organisms – unique model organisms, including unique mammalian and non-mammalian models; and/or Research Tools – unique research resources that can be useful for many others and many projects.; See NIH

Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.;

The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.;

Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

[NTW] WEEKLY HIGHLIGHT/RESEARCH RESOURCES INFORMATION SESSION

Postponed: Our "How to collaborate with a biostatistician? Advantages of having a biostatistician on your team" Research Resources, Department of Biostatistics, and Irving Institute for Clinical and Translational Research (CTSA) Information Session, originally scheduled for Thursday February 23, 2023 (02/23/2023) from 12PM – 1:30 PM, with Drs. Shing Lee, Pam Factor-Litvak and Colleagues will be rescheduled in March on a tbd date and time, with a broadened subject scope to include: Reasons for, how to find, curate, and manage data, with updates on NIH sharing stipulations also. We will post updated information shortly!

Sponsor: Research Resources, Department of Biostatistics, and Irving Institute for Clinical and Translational Research (CTSA)
Deadline(s): 02/23/2023 (Postponed; will be rescheduled in March with a broader data subject scope)
Contact: ckk7@cumc.columbia.edu
Link(s): pending

NIH just released new guidance on budgeting and costs in their NIH Data Management and Sharing (DMS) Policy FAQs. A significant change SPA wishes to highlight: Personnel Effort: Per NIH’s Budget/Costs FAQ 6, “All costs for data management and sharing activities, including personnel costs, must be included in the single line item on the R&R Budget Form in section F. Other Direct Costs. This includes the salary and fringe benefits corresponding to the time it takes personnel to undertake data activities (e.g., formatting, curating, developing supporting documentation). Do not include personnel costs related to data management and sharing activities in section A. Senior/Key Person or section B. other Personnel. Supporting details, including a breakdown of any personnel effort, must be included in the budget justification.”; This is a change from our previous guidance.

NOT-OD-22-189: Implementation Details for the NIH Data Management and Sharing Policy

Sponsor: NIH; SPA
Deadline(s): 01/25/2023 (for NIH Deadlines on or after); update from SPA
Contact: data-management@columbia.edu
Link(s): https://sharing.nih.gov/faqs/#data-management-and-sharing-policy.htm

Additional Information: NIH just released new guidance on budgeting and costs in their NIH Data Management and Sharing (DMS) Policy FAQs.; A significant change we wish to highlight: Personnel Effort: Per NIH’s Budget/Costs FAQ 6, “All costs for data management and sharing activities, including personnel costs, must be included in the single line item on the R&R Budget Form in section F. Other Direct Costs. This includes the salary and fringe benefits corresponding to the time it takes personnel to undertake data activities (e.g., formatting, curating, developing supporting documentation). Do not include personnel costs related to data management and sharing activities in section A. Senior/Key Person or section B. other Personnel. Supporting details, including a breakdown of any personnel effort, must be included in the budget justification.”; This is a change from our previous guidance. We have revised our FAQ (under topic: Budget Issues) to align with NIH. You should discontinue using previously suggested template language in the budget justification; If you submitted a proposal to NIH on or after January 25, 2023 and have concerns about this change, note that NIH has stated regarding their assessment of the budget that “peer reviewers may provide comments on the reasonableness of the budget, but these comments will not impact the score. Peer reviewers will only use the information found in the budget justification to determine whether the requested DMS costs are reasonable and will not be provided with the separate DMS Plan attachment (see NOT-OD-22-189).” Therefore, the Just-In-Time (JIT) period will be used to correct or modify budgets and budget justifications. We expect NIH will continue to release additional budgeting guidance between now and prior to JIT; Please direct all questions regarding these changes to data-management@columbia.edu.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/

Deadline(s): 02/03/2023 (Release Date)
Contact: For questions, please reach out to data-management@columbia.edu
Link(s): https://datadryad.org/stash
https://datadryad.org/stash/terms#addl-charges
https://research.columbia.edu/content/research-data-storage

Additional Information: Given the number of NIH proposals planned for submission for NIH’s deadline on Monday, February 6th, we wanted to send a quick clarification regarding the costs associated with Dryad, a generalist digital data repository that is an option to meet the data sharing requirements under the NIH Data Management and Sharing (DMS) Policy. For Dryad, data deposit fees are waived for Columbia researchers, except for large datasets that exceed 50 GB. Costs for large datasets over 50 GB will vary depending on size of the data deposit. For more information, see Dryad’s terms. As reminder, it is best to follow NIH’s guidelines on selecting a repository, and take into consideration the following before selection: Does the NIH funding opportunity announcement (FOA), or NIH Institute, mandate a particular repository for data sharing? If no; Is there an NIH-supported data repository that is appropriate for your data type? If no; Consider a generalist repository, such as Dryad; or Columbia’s data storage options, some of which can act as repositories for data sharing. For questions, please reach out to data-management@columbia.edu.

**Additional Information:** SPA provided two important clarifications for PIs regarding: (1) the use of DMPTool and NIH’s formatting requirements, and (2) when the Resource Sharing Plans are required in addition to the Data Management and Sharing Plan.  

**DMPTool:** When using DMPTool to create the DMS Plan, the Plan must comply with all of NIH’s formatting requirements. Otherwise, the application is at risk of getting withdrawn. This includes font size, margins, and no URLs or hyperlinks are allowed. You should download the Pslan created in DMPTool as a Word document to make sure you can meet all formatting requirements. See this one-page DMPTool Formatting Guide for NIH Proposals;  

**Resource Sharing Plan(s):** When the new DMS Policy took effect on January 25, 2023, it eliminated the requirement to include a Data Sharing Plan (under the 2003 policy), or a Genomic Data Sharing Plan, in the Resource Sharing Plan(s) section of the application. Instead, only one DMS Plan is needed (even if subject to the Genomic Data Sharing Policy), which is included in the Other Plan(s) section of the application. See Writing a DMS Plan, which contains additional instructions for applications subject to the Genomic Data Sharing Policy. A Resource Sharing Plan is required only when the PI plans to create the following two items: Model Organisms –unique model organisms, including unique mammalian and non-mammalian models; and/or Research Tools – unique research resources that can be useful for many others and many projects.; See NIH Instructions on Resource Sharing Plans for FORMS-H.; For questions about DMPTool, or the contents of the DMS Plans, please contact data-management@columbia.edu. You can also contact your SPA Project Officer for questions concerning the preparation of your NIH applications.; [brought to our attention by] Stephanie F. Faculty Who Contribute to the Diversity Goals of the University. This small-grants program is designed to support Schools’ diversity plans, by advancing the career success of outstanding junior faculty who contribute to the diversity goals of the University by their research, teaching, and mentoring activities. Applications will be accepted for: support of new or ongoing research and scholarship; seed funding for innovative research for which external funding would be difficult to obtain; and curricular development projects that focus on issues of diversity. The RFP is attached. The deadline for submission of proposals is Wednesday, February 22, 2023.; Each CUMC school will support these grants and therefore should have an internal process to select awardees, as well as to decide how many awards will be made per semester.; Given the limited number of slots for these programs, Schools are strongly encouraged to develop a process for determining which proposals will be prioritized and put forward in this round. Departments planning to submit proposals must coordinate closely with their Dean. Proposals must be submitted with the support and sign-off by the School’s Dean.; Please note, applications must be submitted to me at ataylor@columbia.edu and Mandy Lin at ml4499@cumc.columbia.edu no later than Wednesday, February 22, 2023.; We look forward to working with you and appreciate your efforts to advance this important work.; Sincerely, Anne; Anne L. Taylor, MD; John Lindenbaum Professor of Medicine at CUMC; SrVP for Faculty Affairs and Career Development at CUMC; Vice Dean for Academic Affairs; Columbia University Vagelos College of Physicians and Surgeons

[NTW] [NYCEF 2023]
NYCEF Annual Conference- June 5, 2023 Call for Abstracts (google.com)
Save the Date!; The Icahn School of Medicine at Mount Sinai will host the Annual Conference NYCEF 2023 on Monday June 5, 2023 [links will be provided when available]
Sponsor: The Icahn School of Medicine at Mount Sinai
Deadline(s): 06/05/2023 (Event Date)
Contact: pending, will post when available
Link(s): https://docs.google.com/forms/d/e/1FAIpQLSChPoksXzKfLpCMsAY7Kltwv4yyBvqJLZUxx6ZB0PZQAOA/viewform
Additional Information: Save the Date!; The Icahn School of Medicine at Mount Sinai will host the Annual Conference NYCEF 2023 on Monday June 5, 2023; The annual NYCEF conference provides a forum for epidemiologists working in the New York City area to present their work and discuss opportunities for collaborations. The conference includes oral presentations, posters and discussion sessions. The conference is expected to lead to new collaborative activities, such as networks with shared resources, joint educational programs, etc.; NYCEF provides a forum for regular contact and exchanges between epidemiologists working in academic and other institutions in the New York City Metropolitan Area, with a special focus on junior researchers, including junior faculty, post-docs, fellows, and doctoral students. NYCEF fosters increased awareness about research conducted in other institutions in New York City and surrounding areas, and provide opportunities for researchers to present their work, with the overall goals of promoting bilateral or multi-site collaborative projects and enhancing career opportunities for junior investigators.; Participating Institutions: Albert Einstein College of Medicine, CUNY Graduate School of Public Health and Health Policy, CUNY School of Medicine, Hofstra Northwell School of Medicine, Icahn Medical School at Mount Sinai, Mailman School of Public Health at Columbia University, Memorial Sloan-Kettering Cancer Center, New Jersey Department of Health, New York Academy of Medicine, NYC Department of Health and Mental Hygiene, NYU College of Global Public Health, New York Medical College, New York University School of Medicine, Rutgers Cancer Institute of New Jersey, Rutgers University School of Public Health, SUNY Downstate Medical Center, SUNY at Stony Brook, and Weill Cornell Medical College.; Call for abstracts forthcoming; The New York City Epidemiology Forum (NYCEF) invites the submission of abstracts for consideration for oral or poster presentation at the 2023 annual conference to be held at the Icahn School of Medicine at Mount Sinai on Monday June 5 2023. The goals of the conference are to exchange knowledge regarding epidemiologic studies performed in and around the New York City area, to stimulate discussion and to encourage collaboration among institutions. Although both senior
and junior investigators are encouraged to submit abstracts, we particularly encourage submissions from junior investigators, postdoctoral fellows and graduate degree students.

https://research.columbia.edu/institutional-information
https://www.finance.columbia.edu/content/learn-about-fringe-benefit-rates

Additional Information: New Federal Fringe Rate FY23 of 29.30%; We are writing to inform you that we have received approval from the Federal government on the fringe rate applicable to government grants and contracts. This rate will increase from 28.2% to 29.3% retroactively and effective July 1, 2022. Adjustments will be reflected on your awards in ARC by December 23. For all funding sources other than government grants and contracts, the FY23 fringe benefits rate of 33.0% that took effect July 1 continues. Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel-related costs for the remainder of the grant life cycle. For information regarding student employees working during the academic year or summer, refer to Learn about Fringe Benefit Rates | Columbia Finance; The PAC team will process a fringe adjustment for all FY23 payroll activity recorded since July 1, 2022.; The rate agreement is available on the SPA website on the Institutional Information | Columbia | Research and Finance Site at Learn about Fringe Benefit Rates | Columbia Finance; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

Hello, all. I just wanted to share these training resources and videos from NIH dedicated to human subjects research. These were presented during their two-part webinar series in December. See below for the details. [brought to our attention by] Stephanie Scott; NIH Extramural Nexus; Your Questions on Human Subjects Research, Answered; If you’re conducting research with human subjects, you might have questions about HHS regulations and NIH policies and how you can prepare proposals and inclusion plans. HHS and NIH experts address many of these questions, along with resources, guidance, and case studies in a 2-part webinar series focused on Human Subjects Research Policies, Clinical Trials, and Inclusion (Day 1 and Day 2).; Feel free to break out the popcorn and binge the whole video or check out these sections for the information you need: How Do I Know If A Research Study Is Human Subjects Research?; What to Know About FWAs and IRBs to Get Your Grant Money?; An Overview of NIH Policies on Human Subjects: What are the Essentials of sIRB Requirements?; An Overview of NIH Policies on Clinical Trials: Including Diverse Populations in NIH Clinical Research: Using the eRA Human Subjects System (HSS); For presentation slides and other resources, see the event page. If you haven’t already, register for the 2023 Virtual NIH Grants Conference, February 1-2, for even more NIH policy guidance and resources. While in the grants conference center, be sure to visit the virtual Exhibit Hall and the booth, Human Subjects, Clinical Trials, and Inclusion for downloadable resources, links, and the opportunity to chat with experts during the event.

**[NTW] [EPISUMMER 2023]**

Registration for episummer@columbia 2023 is open! episummer@columbia offers condensed summer courses [that take place on a wide range of epidemiological topics for anyone interested in public health]. Register today! 06/01/2023 (Courses begin); 06/30/2023 (Courses end); [please check course listings for dates]

**Sponsor:** Department of Epidemiology, Mailman School of Public Health

**Deadline(s):** 06/01/2023 (Courses begin); 06/30/2023 (Courses end)

**Contact:** To learn more about scholarships and other episummer@columbia FAQs, visit episummer@columbia homepage.

**Link(s):**
https://www.publichealth.columbia.edu/research/episummercolumbia

**[NTW] [SHARP]**

**SHARP Training: Registration for Summer 2023 Skills for Health And Research Professionals (SHARP) Training at Columbia Public Health is now open**

**Sponsor:** [https://www.publichealth.columbia.edu](https://www.publichealth.columbia.edu)

**Deadline(s):** Winter, Spring and Summer 2023 Courses are posted; please see course links; Registration remains open until trainings reach capacity, or up until a few weeks before trainings begin, Summer 2023

**Contact:** Please see piecemeal training announcements for contact information; for general contact information for the SHARP program, please email Abby Welbourn, MA; Director, Special Projects; Department of Environmental Health Sciences; Columbia University Mailman School of Public Health; aj2730@cumc.columbia.edu; A.Welbourn@columbia.edu

**Link(s):** [https://www.publichealth.columbia.edu/research/precision-prevention/sharp-training-skills-health-and-research-professionals](https://www.publichealth.columbia.edu/research/precision-prevention/sharp-training-skills-health-and-research-professionals)
**Additional Information:** Skills for Health And Research Professionals (SHARP): Intensive boot camps led by field experts to teach in-demand research skills and methods to investigators at all career levels and from any organization. Short, intensive 1-4 day virtual and in-person boot camps (29 hot topics in research and education) led by field experts to teach in-demand research skills and methods to investigators at all career levels and from any organization.

[NTW] [COLUMBIA RESEARCH]

**Certification of current and pending/other support per Section 223**

Funding Applications and Progress Reports | Columbia | Research

Science & Security | Columbia | Research

Prohibition against use of certain telecom or video surveillance equipment (per Section 889 of the National Defense Authorization Act for Fiscal Year 2019)

Prohibition on Certain Chinese-origin Telecommunications Equipment or Services (NDAA 889) | Columbia | Research

**Sponsor:** Sponsored Projects Administration; Columbia Research

**Deadline(s):** NA; 12/14/2022 (Released Date)

**Contact:** CU SPA Project Officers Department Assignments | Columbia | Research; For Procurement-related questions, please contact Hugh Horowitz, Procurement Services, at hugh.horowitz@columbia.edu. For questions about this restriction more generally, please contact Michelle Avallone, Director of Export Controls and International Engagement, at mia25@columbia.edu

**Link(s):**

- https://research.columbia.edu/science-security
- https://www.congress.gov/115/bills/hr5515/BILLS-115hr5515enr.pdf
- https://research.columbia.edu/prohibition-certain-chinese-origin-telecommunications-equipment-or-services-ndaa-889

**Additional Information:** Two Important Federal Legal Requirements; Dear Members of the Research Community, We write to remind you of two important federal legal requirements related to sponsored projects: Certification of current and pending/other support (per Section 223 of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021); Federal law requires principal investigators and senior/key persons to: disclose the amount, type, and source of all current and pending research support received by, or expected to be received by, the individual as of the time of the disclosure; certify that the disclosure is current, accurate, and complete; and update such disclosure at the request of the agency prior to the award of support and at any subsequent time the agency determines appropriate during the term of the award. Currently, funding agencies vary in their implementation of the certification requirement. Information related to specific funding agency requirements is available on the Funding Applications and Progress Reports Disclosure page of the University’s Science and Security website. If you are uncertain whether to make a disclosure, we recommend that you err on the side of transparency. Please contact your Sponsored Projects Administration project officer with questions.; Prohibition against use of certain telecom or video surveillance equipment (per Section 889 of the National Defense Authorization Act for Fiscal Year 2019): The U.S. Government prohibits Columbia from using certain telecommunications or video surveillance equipment, produced by certain companies, as a substantial or essential component or as critical technology for any system. These rules, which apply to all recipients of federal funding, also prohibit the use of federal funds to procure or obtain covered telecommunications equipment or services. These restrictions apply to all purchases completed through a University Purchase Order, P-Card, AP Voucher or reimbursement of a personal charge through Concur.; “Covered telecommunications equipment or services” are:
Telecommunications equipment or services produced by Huawei Technologies Company, ZTE Corporation, or any subsidiary or affiliate of these entities; and Video surveillance technology and equipment or services used for certain public safety, physical surveillance, or national security purposes and produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, Dahua Technology Company, or any subsidiary or affiliate of these entities; For more information about this prohibition and to access lists of the prohibited companies and their subsidiaries and affiliates, please visit Research Compliance and Training’s Economic Sanctions and Restricted Parties webpage. ; For Procurement-related questions, please contact Hugh Horowitz, Procurement Services, at hugh.horowitz@columbia.edu. For questions about this restriction more generally, please contact Michelle Avallone, Director of Export Controls and International Engagement, at mla25@columbia.edu; Thank you for your attention to these important requirements.; Sincerely, [brought to our attention by] William Berger; AVP for Sponsored Projects Administration; Hugh Horowitz; AVP for Procurement; Naomi Schrag; VP for Research Compliance, Training and Policy

[NTW] [COURSES]
Cross-Disciplinary Frontiers Courses at Columbia | Office of the Provost

**Sponsor:** CU Office of the Provost

**Deadline(s):** 03/01/2023

**Contact:** For questions and inquiries, please contact crossdisciplinarycourses@columbia.edu

**Link(s):** [https://provost.columbia.edu/content/cross-disciplinary-frontiers-courses-columbia](https://provost.columbia.edu/content/cross-disciplinary-frontiers-courses-columbia)

**Additional Information:** The Office of the Provost is accepting proposals for the development of four interdisciplinary courses starting in Fall 2023 or Spring 2024. The application deadline is March 1, 2023.; New RFP for Cross-Disciplinary Frontiers Courses; Dear Colleagues, Columbia’s excellence spans 17 schools, and some of the University’s most vital scholarship emerges when members of different schools and disciplines come together to explore questions and challenges from multiple perspectives.; To encourage cross-pollination in the classroom, we invite proposals to create flagship Columbia Cross-Disciplinary Frontiers Courses, co-taught by faculty at different schools.; This initiative aims to provide faculty with opportunities to expand the reach of their teaching beyond their own school and department, and advances the frontiers of Columbia’s educational offerings by supporting the creation of cross-disciplinary courses that count toward the degree programs for students at two different schools. It responds to the interests of students in enriching their knowledge through courses addressing scholarship at the boundaries of distinct fields, and where they can learn alongside students from other disciplines.; Proposals selected for awards will receive up to $75,000 per year for two years.; The Office of the Provost will support the development of four courses starting in Fall 2023 or Spring 2024 in this initial RFP: Three graduate-level courses co-taught by a pair of faculty from different graduate or professional schools.; One undergraduate course co-taught by one Arts and Sciences faculty member and one Columbia Engineering faculty member.; You can access and complete the [RFP online](https://provost.columbia.edu/content/cross-disciplinary-frontiers-courses-columbia). The deadline for submissions is March 1, 2023.; It is my priority to offer faculty more opportunities to work across disciplines and propel Columbia’s interdisciplinary excellence, and this pilot initiative is one of the many ways the Office of the Provost plans to do so.; Sincerely, Mary C. Boyce; Provost; Professor of Mechanical Engineering

[NTW] [CU GRANTSMANSHIP COURSE]

**FUNDING AND GRANTSMANSHIP FOR RESEARCH AND CAREER DEVELOPMENT ACTIVITIES; A COURSE FOR COLUMBIA UNIVERSITY STUDENTS, RESIDENTS, POST DOCTORAL SCIENTISTS, CLINICAL FELLOWS, NEW INVESTIGATORS, FACULTY, &**
ADMINISTRATORS; Those not wishing to formally register are welcome to audit the course; M9780, Pass/Fail*, One Credit, Call; number 17152

Sponsor: Columbia
Deadline(s): 01/19/2023 – 03/30/2023 (Course Dates)
Contact: Those auditing should contact Dr. Jaime Rubin JSR9@columbia.edu requesting access.
Link(s): http://www.columbia.edu/cu/bulletin/uwb/subject/MED/M9780-2023-001/

Additional Information: FUNDING AND GRANTSMANSHIP FOR RESEARCH AND CAREER DEVELOPMENT ACTIVITIES; A COURSE FOR COLUMBIA UNIVERSITY STUDENTS, RESIDENTS, POST DOCTORAL SCIENTISTS, CLINICAL FELLOWS, NEW INVESTIGATORS, FACULTY, & ADMINISTRATORS; Those not wishing to formally register are welcome to audit the course; M9780, Pass/Fail*, One Credit, Call; number: 17152; The course will meet 7 evenings; Spring 2023, Thursdays, 5:30pm-7:30pm; This course will only be offered "in person" (i.e., no remote option); Hammer Health Sciences Center (HHHC), Room 301; Columbia University Irving Medical Center; Access to course resources, handouts, e-mail correspondence, etc. will be distributed to class participants via CourseWorks https://courseworks.columbia.edu/, Columbia’s online learning management system.; Formally registered students should automatically have access to the course in CourseWorks. ; Those auditing should contact Dr. Jaime Rubin (JSR9@columbia.edu) requesting access.

[NTW] [RESEARCH PROJECT GRANTS]

NOT-OD-23-034: Request for Information (RFI) on Proposed Simplified Review Framework for NIH Research Project Grant Applications

NIH Extramural Nexus Update on Simplifying Review Criteria: A Request for Information

Sponsor: National Institutes of Health
Deadline(s): 03/10/2023 (Response Date)
Contact: Please direct all inquiries to: simplifiedreview@nih.gov
https://nexus.od.nih.gov/all/2022/12/08/update-framework-for-nih-research-project-grant-applications

Additional Information: The purpose of this Request for Information (RFI) is to solicit public input on a proposed revised framework for evaluating and scoring peer review criteria for National Institutes of Health (NIH) research project grant (RPG) applications. NIH is proposing a revised simplified framework that will reorganize five major regulatory criteria under three scored categories and reduce the number of non-score driving review considerations that reviewers evaluate in judging the scientific merit of RPG applications. The proposed changes pertain to those RPGs with standard review criteria. All the factors required by regulation will continue to be evaluated. NIH is not proposing to revise the regulatory criteria. Rather, NIH is proposing to revise its policy of how peer reviewers score the criteria, and how NIH organizes the criteria for review purposes. NIH believes that these changes will allow peer reviewers to refocus on the critical task of judging scientific merit and will improve those judgments by reducing bias. [from Nexus] NIH has issued a request for information (RFI) seeking feedback on revising and simplifying the peer review framework for research project grant applications. The goal of this effort is to facilitate the mission of scientific peer review – identification of the strongest, highest-impact research. The proposed changes will allow peer reviewers to focus on scientific merit by evaluating 1) the scientific impact, research rigor, and feasibility of the proposed
research without the distraction of administrative questions and 2) whether or not appropriate expertise and resources are available to conduct the research, thus mitigating the undue influence of the reputation of the institution or investigator.; Currently, applications for research project grants (RPGs, such as R01s, R03s, R15s, R21s, R34s) are evaluated based on five scored criteria: Significance, Investigators, Innovation, Approach, and Environment (derived from NIH peer review regulations 42 C.F.R. Part 52h.8; see Definitions of Criteria and Considerations for Research Project Grant Critiques for more detail) and a number of additional review criteria such as Human Subject Protections.; NIH gathered input from the community to identify potential revisions to the review framework. Given longstanding and often-heard concerns from diverse groups, CSR decided to form two working groups to the CSR Advisory Council—one on non-clinical trials and one on clinical trials. To inform these groups, CSR published a Review Matters blog, which was cross-posted on the Office of Extramural Research blog, Open Mike. The blog received more than 9,000 views by unique individuals and over 400 comments. Interim recommendations were presented to the CSR Advisory Council in a public forum (March 2020 video, slides; March 2021 video, slides). Final recommendations from the CSRAC (report) were considered by the major extramural committees of the NIH that included leadership from across NIH institutes and centers. Additional background information can be found here. This process produced many modifications and the final proposal presented below. Discussions are underway to incorporate consideration of a Plan for Enhancing Diverse Perspectives (PEDP) and rigorous review of clinical trials RPGs (~10% of RPGs are clinical trials) within the proposed framework.; Simplified Review Criteria; NIH proposes to reorganize the five review criteria into three factors, with Factors 1 and 2 receiving a numerical score. Reviewers will be instructed to consider all three factors (Factors 1, 2 and 3) in arriving at their Overall Impact Score (scored 1-9), reflecting the overall scientific and technical merit of the application.; Factor 1: Importance of the Research (Significance, Innovation), numerical score (1-9); Factor 2: Rigor and Feasibility (Approach), numerical score (1-9); Factor 3: Expertise and Resources (Investigator, Environment), assessed and considered in the Overall Impact Score, but not individually scored; Within Factor 3 (Expertise and Resources), Investigator and Environment will be assessed in the context of the research proposed. Investigator(s) will be rated as “fully capable” or “additional expertise/capability needed”. Environment will be rated as “appropriate” or “additional resources needed.” If a need for additional expertise or resources is identified, written justification must be provided. Detailed descriptions of the three factors can be found here; The following “Additional Review Criteria” will remain largely unchanged, not scored individually but continue to affect the Overall Impact Score. A drop-down option of “Appropriate or Concerns” will be provided, with a justification narrative required for concerns.; Human Subject Protections; Inclusion of Women, Minorities, and Individuals Across the Lifespan; Vertebrate Animal Protections; Biohazards; Resubmission; Renewal – Evaluation of productivity during the previous project period will remain unchanged and will continue to affect the Overall Impact score; Revisions; Other minor changes to the peer review framework are proposed that will reduce time effort required by reviewers.; Additional Review Considerations” are items that peer review is currently tasked with evaluating, but which are not scored, and which do not affect the Overall Impact score. NIH proposes to move select Additional Review Considerations out of the initial peer review process. Under proposed framework, the remaining Additional Review Considerations are: Authentication of Key Biological and/or Chemical Resources: Drop-down option with a choice of “Appropriate” with no comments required, or as “Concerns,” which must be briefly described.; Budget and Period of Support: Rated as “Appropriate,” “Excessive,” or “Inadequate”; the latter two ratings require a brief account of concerns.; Through the RFI, NIH continues to seek further public input on the proposed changes before moving forward with implementation. The RFI will be open for a 90-day period, until March 10, 2023. We look forward to your comments.
NOT-AI-23-013: Notice of Special Interest (NOSI): Advancing Research for Tickborne Diseases (TBDs)

**Sponsor:** National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke

**Additional Information:** PAR-23-042: Implementation Research on Noncommunicable Disease Risk Factors among Low- and Middle-Income Country and Tribal Populations Living in City Environments (R01 Clinical Trial Optional); Dear Colleagues: NIEHS is excited to announce our participation in a new Funding Opportunity Announcement, Implementation Research on Noncommunicable Disease Risk Factors among Low- and Middle-Income Country and Tribal Populations Living in City Environments (R01 Clinical Trial Optional) [https://grants.nih.gov/grants/guide/pa-files/PAR-23-042.html](https://grants.nih.gov/grants/guide/pa-files/PAR-23-042.html); Please direct inquiries to Lindsey Martin Lindsey.Martin@nih.gov; Funding Opportunity Purpose: The National Institutes of Health (NIH) participating Institutes and Centers (ICs), in collaboration with the Global Alliance for Chronic Diseases (GACD), invite applications for implementation research focused on addressing risk factors for common noncommunicable diseases (NCDs) in World Bank-defined low- and middle-income countries (LMICs) and American Indian/Alaska Native (AI/AN) populations in the United States (US). Air, water, and soil pollution; lack of greenspace; urban heat islands; lack of safe infrastructure for walking, cycling, and active living; lack of access to healthcare facilities, lack of health insurance, and cost of medications; housing condition; and wide availability of tobacco, alcohol, and unhealthy foods and beverages contribute to the NCD epidemic in city environments. In the context of this Funding Opportunity Announcement (FOA), "cities" include urban centers, informal settlements, slums, and periurban areas. This FOA supports applications that propose implementation research to reduce the risks of NCDs in the context of cities in LMICs and/or among AI/AN populations in US cities, with the potential to equip policymakers and practitioners with evidence-based strategies for prevention and/or management of NCDs among disadvantaged populations globally. NIH defines implementation research as the scientific study of the use of strategies to adopt and integrate evidence-based health interventions into clinical and community settings to improve individual outcomes and benefit population health.; **Want to learn more about implementation science and environmental health? Check out this podcast, our website and resources from our workshop; [brought to our attention by] Lindsey Ann Martin, PhD; Program Officer; National Institute of Environmental Health Sciences (NIEHS); Division of Extramural Research & Training; Population Health Branch; Email: Lindsey.Martin@nih.gov; Pre-Application Technical Assistance Webinar PAR-23-042 - “Implementation Research on Noncommunicable Disease Risk Factors among Low- and Middle-Income Country and Tribal Populations Living in City Environments” - January 18th; Dear Colleagues, The National Institutes of Health (NIH) participating Institutes, Centers, and Offices (ICOs) will be hosting a Pre-Application Technical Assistance Webinar to aid potential applicants while preparing research applications for PAR-23-042 and PAR-23-043, “Implementation Research on Noncommunicable Disease Risk Factors among Low- and Middle-Income Country and Tribal Populations Living in City Environments.”; NIH ICOS, in collaboration with the Global Alliance for Chronic Diseases (GACD), invite applications for implementation research focused on addressing risk factors for common noncommunicable diseases (NCDs) in populations living in cities in World Bank-defined low- and middle-income countries (LMICs) and American Indian/Alaska Native (AI/AN) populations living in cities in the United States (US). Air, water, and soil pollution; lack of greenspace; urban heat islands; lack of safe infrastructure for walking, cycling, and active living; lack of access to healthcare facilities, lack of health insurance, and cost of medications; housing condition; and wide availability of tobacco, alcohol, and unhealthy foods and beverages contribute to the NCD epidemic in city environments.; In the context of this Funding Opportunity Announcement (FOA), "cities" include urban centers, informal settlements, slums, and periurban areas. NIH defines
implementation research as the scientific study of the use of strategies to adopt and integrate evidence-based health interventions into clinical and community settings to improve individual outcomes and benefit population health. These FOAs support applications that propose implementation research to reduce the risks of NCDs in the context of cities in LMICs and/or among AI/AN populations in US cities, with the potential to equip policymakers and practitioners with evidence-based strategies for prevention and/or management of NCDs among disadvantaged populations globally.; **Webinar Details:** Date/Time: January 18, 2023, 9:00-10:30am EST; Registration Link: https://nih.zoomgov.com/meeting/register/vJIsfumqrDgsHX6fyop-OL9r07nVkJLG9HA; This Webinar will be recorded and posted on the NIH/GACD Program Webpage (https://www.fic.nih.gov/Funding/Pages/collaborations-gacd.aspx) following the webinar.; Best, The NIH/GACD Program Team

[NTW] [FIREARM INJURY PREVENTION]

RFA-CE-23-006; Research Grants to Rigorously Evaluate Innovative and Promising Strategies to Prevent Firearm-Related Violence and Injuries (R01): 02/16/2023 (Deadline)

Sponsor: CDC
Deadline(s): 02/16/2023; 03/18/2023 (Archive)

Contact: If you have difficulty accessing the full announcement electronically, please contact: Celeste Sanders, PhD csanders4@cdc.gov

Link(s): https://www.grants.gov/web/grants/view-opportunity.html?oppid=343398

Additional Information: Research Grants to Rigorously Evaluate Innovative and Promising Strategies to Prevent Firearm-Related Violence and Injuries (R01): The CDC National Center for Injury Prevention and Control (NCIPC, Injury Center) is soliciting investigator-initiated research to rigorously evaluate the effectiveness of innovative and promising strategies to prevent all forms of firearm-related violence and injuries. For the purposes of this announcement, firearm-related violence includes mass shooting incidents, other firearm homicides/assaults, firearm suicides/self-harm, unintentional firearm deaths and injuries, and firearm-related crime. The intent of this announcement is to support research to evaluate the effectiveness of strategies to keep individuals, families, schools, and communities safe from firearm-related violence, injuries, deaths, or crime. The estimated total program funding is $15 million and the expected number of awards is 12. The proposal's due date is February 20, 2023.

[NTW] [FIREARM INJURY PREVENTION]

PAR-23-066: Research on Community Level Interventions for Firearm and Related Violence, Injury and Mortality Prevention (CLIF-VP) (UG3/UH3 Clinical Trial Required)

Sponsor: Office of Behavioral and Social Sciences Research; National Center for Complementary and Integrative Health; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Nursing Research; Office of Disease Prevention; Office of Research on Women's Health

Deadline(s): 03/17/2023; 03/18/2023 (Expiration)
Contact: Scientific / Research Contact(s): The Office of Behavioral and Social Sciences (OBSSR) does not accept assignment of applications or manage awards that are funded. Please contact one of the ICs listed below for inquiries regarding the suitability of the proposed project for the FOA and the IC’s research portfolio.; Dara Blachman-Demner, Ph.D.; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-496-8522; Email: dara.blachman-demner@nih.gov

[NTW] [VECTOR BORNE DISEASES]

CDC-RFA-CK-23-0005; Strengthening Training, Evaluation, and Partnerships in the Prevention and Control of Vector-Borne Diseases; Deadline 02/03/2023

Sponsor: Department of Health and Human Services; Centers for Disease Control - NCEZID

Deadline(s): 02/03/2023; 03/08/2023 (Archive)

Contact: If you have difficulty accessing the full announcement electronically, please contact: Susanna Visser, Dr.PH, MS, Associate Director of Policy and Extramural Program, DVBD sfv1@cdc.gov

Link(s): https://www.grants.gov/web/grants/view-opportunity.html?oppid=343705

Additional Information: Strengthening Training, Evaluation, and Partnerships in the Prevention and Control of Vector-Borne Diseases: The purpose of this Notice of Funding Opportunity (NOFO) is to improve our nation’s capacity to address the growing health threat of vector-borne diseases by building the vector-borne disease prevention and control workforce and its capacity, improving adoption and evaluation of vector-borne disease prevention control programs, tools, and technologies, and facilitating partnerships between academic institutions and federal, local, state, territorial, tribal public health agencies and/or other interested parties. The estimated total program funding is $43.75 million and the expected number of awards is ten. The proposal’s due date is February 3, 2023.

[NTW] [ANCILLARY STUDIES]

PAR-23-025: Ancillary Studies to Ongoing Clinical Projects (R01 Clinical Trial Not Allowed)

Sponsor: National Institute of Arthritis and Musculoskeletal and Skin Diseases

Deadline(s): 04/06/2023; 08/07/2023; 12/05/2025; 12/06/2025 (Expiration)

Contact: Scientific/Research Contact(s); Heiyoung Park, Ph.D.; National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS); Telephone: 301-594-5032; Email: parkh1@mail.nih.gov

[NTW] [ANCILLARY STUDIES]

PAR-23-026: Ancillary Studies to Ongoing Clinical Projects (R21 Clinical Trial Not Allowed)

Sponsor: National Institute of Arthritis and Musculoskeletal and Skin Diseases

Deadline(s): 04/06/2023; 08/07/2023; 12/05/2025; 12/06/2025 (Expiration)

Contact: Scientific/Research Contact(s); Heiyoung Park, Ph.D.; National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS); Telephone: 301-594-5032; Email: parkh1@mail.nih.gov
[NTW] [NIAID]
PAR-23-065: NIAID Resource-Related Research Projects (R24 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Allergy and Infectious Diseases

**Deadline(s):** 05/25/2023; 09/25/2025; 01/07/2026; 01/08/2026 (Expiration)

**Contact:** Scientific/Research Contact(s); For the Division of AIDS (DAIDS): Martin Gutierrez, Ph.D.; National Institute of Allergy and Infectious Diseases (NIAID); Telephone: 240-292-4844; Email: mgutierrez@niaid.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-23-065.html

**Additional Information:** The proposed resources should be relevant to the scientific areas of the NIAID mission including the biology, pathogenesis, and host response to microbes, including HIV; the mechanisms of normal immune function and immune dysfunction resulting in autoimmunity, immunodeficiency, allergy, asthma, and transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious, immune-mediated, and allergic diseases.

[NTW] [COLUMBIA SCHOLARLY PROJECTS PROGRAM]

The SPP, now in its 10th year, links 4th year Columbia medical students with faculty mentors to explore an area of medical practice or research with the aim of creating new knowledge.

**Scholarly Projects Program (SPP) | Vagelos College of Physicians and Surgeons**

https://cumc.co1.qualtrics.com/jfe/form/SV_eDVehU9mhmytGhg

**Additional Information:** [brought to our attention by Stephanie Scott]: Sending this announcement, campus-wide, on behalf of Dr. Utpal Pajvani, Director, Scholarly Projects Program, and Dr. Anil K. Lalwani, VP&S Associate Dean of Student Research. Please see solicitation below. For more information about the Scholarly Projects Program (SPP), click here. You may also email psspp@cumc.columbia.edu; Dear Faculty, We write to solicit Columbia faculty mentors for medical students involved in research through the Scholarly Projects Program (SPP). The SPP, now in its 10th year, links 4th year Columbia medical students with faculty mentors to explore an area of medical practice or research with the aim of creating new knowledge. The SPP aims to develop students’ abilities in the following School-Wide Learning Objectives: (i) generate hypotheses, exhibit curiosity and develop a pattern of life-long learning and (ii) participate in the process through which new knowledge is generated, and assess the importance of novel ideas. After students identify a faculty mentor, they co-develop project ideas and eventually spend 4-6 months working on their project with protected time in their 4th year of medical school; In order to facilitate matching students with mentors in their area of interest we are soliciting mentors and projects for the 2022-2023 academic year. If you are interested in serving as a mentor for the SPP, please click this link to provide a short description of your work: https://cumc.co1.qualtrics.com/jfe/form/SV_eDVehU9mhmytGhg; Students may apply for funding for their project, and mentors receive

---

mailman.columbia.edu/2
a $1000 stipend for their time and effort. Beyond these considerations, both students and mentors find the SPP experience highly rewarding. Thank you for your time and consideration. We will share your information with our students and advise them to reach out to you or your contact person as indicated on the form. If you have any questions, please email psspp@cumc.columbia.edu. Best, Utpal Pajvani, MD, PhD; Director, Scholarly Projects Program; Anil K. Lalwani, MD; VP&S Associate Dean of Student Research

[NTW] [PROVOST]
2023 Office of the Provost’s Teaching and Learning Grants | VPTLi; Deadline 05/01/2023
Register for an Office of the Provost RFP Town Hall offered on Thursday, March 9 from 11:00 A.M. -12:00 P.M. or Monday, April 3 from 12:00-1:00 P.M.

Sponsor: Provost’s Office
Deadline(s): 05/01/2023
Contact: A prior meeting and consultation with the Center for Teaching and Learning (CTL) is strongly recommended to help develop the project plan and the appropriate in-kind support level. Please contact ColumbiaCTL@columbia.edu to schedule a meeting

Link(s): https://vptli.columbia.edu/request-for-proposals/

Additional Information: 2023 Provost’s Teaching & Learning Grants + Funding for AI Innovation; Dear fellow members of the Columbia community: Since 2014, the Office of the Provost has funded 207 Teaching and Learning Grants involving faculty from all Columbia schools to further enhance learning environments for our students. I am pleased to share this year’s exciting set of funding opportunities for faculty who are looking to integrate new educational approaches and technologies into their classrooms. These grant programs support individual faculty as well as initiatives by schools and departments. The deadline for submission of applications to the Provost’s Teaching and Learning Grants is Monday, May 1, 2023. The Request for Proposal (RFP) details and application instructions are available here. A prior meeting and consultation with the Center for Teaching and Learning (CTL) is strongly recommended to help develop the project plan and the appropriate in-kind support level. Please contact ColumbiaCTL@columbia.edu to schedule a meeting. This year, the Office of the Provost has allocated additional funding to encourage faculty to innovate and experiment pedagogically with generative Artificial Intelligence (AI) tools (e.g. ChatGPT) in courses or curricula. Faculty are encouraged to consider how AI tools can be leveraged to enhance teaching and learning in all of the grant options included below. Other than an idea for pedagogical innovation, such as incorporating AI tools into assignment design, assessment practices, or classroom policies, there are no additional requirements to request a consultation with the CTL to discuss a potential project. Faculty who are already using or conducting research on the integration of AI tools like ChatGPT in their classes should reach out to the CTL to discuss additional support and potential funding by writing to ColumbiaCTL@columbia.edu. Register for an Office of the Provost RFP Town Hall offered on Thursday, March 9 from 11:00 A.M.-12:00 P.M. or Monday, April 3 from 12:00-1:00 P.M. At this Q&A event, CTL, CUIT, and SOLER staff will answer questions about the types of awards and the application process. Please visit https://vptli.columbia.edu/request-for-proposals to learn more about the resources available to applicants and to access the full Request for Proposal. Provost Boyce and all of us in the Office of the Provost look forward to continuing to support Columbia faculty as they develop new and exciting ways to enhance teaching and learning across the University and beyond.
[NTW] [POSTDOCTORAL]

NOT-OD-23-084: Request for Information (RFI): Re-envisioning U.S. Postdoctoral Research Training and Career Progression within the Biomedical Research Enterprise

**Sponsor:** Office of the Director, NIH  
**Deadline(s):** 04/14/2023 (Response Date)  
**Contact:** Office of the Director, NIH; Email: ACDPostdocInquiries4RFI@nih.gov  

**Additional Information:** RFI Announcement: Re-envisioning U.S. Postdoctoral Research Training and Career Progression within the Biomedical Research Enterprise; Dear Colleagues: I wanted to let you know that NIH welcomes community input on the status of the postdoctoral training system through a Request for Information (RFI) open February 14 through April 14, 2023.; Ensuring the future of U.S. competitiveness and innovation in biomedical research is of utmost importance to NIH. A new Advisory Committee to the NIH Director (ACD) Working Group was recently established to address growing concerns about the postdoctoral training system and recruiting qualified postdoctoral candidates in the future. The goal of this working group is to explore the status of the postdoctoral training system, identify and understand critical factors and issues relating to this perceived decline in the number of postdoctoral fellows in academia, and provide recommendations to address those factors. The working group has developed an RFI to get input from the extramural research community: [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-23-084.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-23-084.html); NIH is particularly interested in hearing about promising solutions to address current challenges affecting the postdoctoral trainee community. This RFI will assist NIH in hearing the voices of postdoctoral trainees along with others impacted by this unique and skilled training position, and in exploring ways to address some of the fundamental challenges faced by the postdoctoral trainee community.; The insights from the RFI responses will inform the working group to develop recommendations to address the challenges impacting the postdoctoral community. We would greatly appreciate your time and effort in responding to this RFI. Furthermore, we encourage you to share this RFI with other interested groups. Below is suggested language you may use: NIH is seeking input from the community, particularly trainees, early-stage faculty, and others invested in the biomedical workforce, about challenges faced by the postdoctoral trainee community. An NIH Advisory Committee to the Director Working Group has posted a Request for Information where you can share your insights on issues affecting and possible solutions to the recent decline in postdoctoral trainees. Your responses will be used to help develop recommendations to address this problem which impacts U.S. competitiveness in biomedical research and innovation. Please consider responding to the RFI, which closes on April 14, 2023.; You can also amplify NIH’s posts sharing the RFI on Twitter and LinkedIn.; Many thanks, Mike; Michael S Lauer, MD; NIH Deputy Director for Extramural Research; Michael.Lauer@nih.gov

[NTW] [NIH ANNOUNCEMENTS]

NOT-OD-23-005: NIH Operates Under a Continuing Resolution

**Sponsor:** National Institutes of Health  
**Deadline(s):** 10/24/2022 (Release Date)  
**Contact:** Questions regarding adjustments applied to individual grant awards may be directed to the Grants Management Specialist identified in the Notice of Award.  

**Additional Information:** The Department of Health and Human Services (HHS), including National Institutes of Health (NIH), operates under the Continuing Appropriations and Ukraine Supplemental Appropriations Act (Public Law 117-180) signed by
President Biden on September 30, 2022. This Act (CR) continues government operations through December 16, 2022, at the Fiscal Year (FY) 2022 enacted level, with no reduction.

[NTW] [NIH ANNOUNCEMENTS]
NOT-OD-23-075: Office of Research Infrastructure Programs (ORIP) implementation of NIH Policy on Acceptance for Review of Applications Requesting $500,000 or More in Direct Costs in Any One Budget Year

Sponsor: Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs
Deadline(s): 02/15/2023 (Release Date)
Contact: Please direct all inquiries to: Stephanie Murphy, VMD, PhD; Office of Research Infrastructure Programs; Telephone: 301-451-7818; Email: stephanie.murphy@nih.gov

[NTW] [NIH ANNOUNCEMENTS]
NOT-OD-23-076: Ruth L. Kirschstein National Research Service Award (NRSA) Stipends, Tuition/Fees and Other Budgetary Levels Effective for Fiscal Year 2023

Sponsor: NIH; National Institutes of Health; Agency for Healthcare Research and Quality
Deadline(s): 02/03/2023 (Release Date)
Contact: Please direct all inquiries to: Specific questions concerning this notice or other policies relating to training grants or fellowships should be directed to the grants management office in the appropriate NIH Institute or Center, AHRQ, or HRSA; General inquiries concerning NRSA stipend and tuition policies should be directed to: Division of Biomedical Research Workforce
Office of Extramural Research; Website: https://researchtraining.nih.gov; Email: NIHTrain@mail.nih.gov ; AHRQ: Division of Research Education; Office of Extramural Research, Education, and Priority Populations; Agency for Healthcare Research and Quality (AHRQ) Email: TrainingTA@ahrq.hhs.gov; HRSA: Paul Jung, M.D.; Director, Division of Medicine and Dentistry; Bureau of Health Workforce; Health Resources and Services Administration Email: pjung@hrsa.gov

Additional Information: NIH just released the FY23 NRSA stipend levels. See NOT-OD-23-076. The stipends, training related expenses, and institutional allowances all had slight increases; This Notice supersedes NOT-OD-22-132 and establishes stipend levels for fiscal year (FY) 2023 Kirschstein-NRSA awards for undergraduate, predoctoral, and postdoctoral trainees and fellows, as shown in the tables below which reflects the Consolidated Appropriations Act, 2023 (H.R. 2617, Public Law No: 117-328), signed into law on December 29, 2022. The Training Related Expenses and Institutional Allowances for predoctoral and
postdoctoral trainees and fellows reflect a moderate increase. The Tuition and Fees for all educational levels remain unchanged from the prior budget year. See NIH Funding Strategies for guidance on current NIH Fiscal Operations.

[NTW] [NIH ANNOUNCEMENTS]
NOT-OD-23-071: Notice of Fiscal Policies in Effect for FY 2023

Sponsor: NIH
Deadline(s): 02/03/2023 (Release Date)
Contact: National Institutes of Health; Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy; GrantsPolicy@OD.NIH.gov
Additional Information: This Notice provides guidance about the NIH Fiscal Operations for Fiscal Year 2023 and implements the Consolidated Appropriations Act, 2023 Public Law 117-328, signed into law on December 29, 2022.

[NTW] [NIH ANNOUNCEMENTS]
NOT-OD-23-072: Notice of Legislative Mandates in Effect for FY 2023

Sponsor: National Institutes of Health
Deadline(s): 02/03/2023 (Release Date)
Contact: NIH Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy; GrantsPolicy@OD.NIH.gov
Additional Information: The Consolidated Appropriations Act, 2023 Public Law 117-328, signed into law on December 29, 2022, provides funding to NIH for the Fiscal Year ending September 30, 2023. The intent of this notice is to provide current requirements outlined in the following statutory provision that limits or conditions the use of funds on NIH grant, cooperative agreement, and contract awards for FY 2023.

[NTW] [NIH ANNOUNCEMENTS]
NOT-OD-23-056: Guidance on Salary Limitation for Grants and Cooperative Agreements FY 2023; New NIH Salary Cap is $212,100

Sponsor: NIH
Deadline(s): 01/12/2023 (Release Date)
Contact: Department Assignments SPA Project Officer | Columbia | Research; https://research.columbia.edu/department-assignments
Additional Information: NIH just released their salary cap notice. See NOT-OD-23-056.; The new NIH salary cap is $212,100. You may begin to use this new salary cap in budgets in NIH proposals. Please read the notice above for more details, and if you have questions, please reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/; Related Announcements: NOT-OD-23-052 - NIH Operates Under a Continuing Resolution; NOT-OD-23-050 - NIH Operates Under a Continuing Resolution; NOT-OD-23-005 - NIH Operates Under a Continuing Resolution

[NTW] [NIH ANNOUNCEMENTS]
NIH Office of Intramural Training and Education (OITE) Raising a Resilient Scientist Series, Workshops and Training for Extramural Faculty; Fall 2022 and Spring 2023: Workshops and Trainings for Extramural Principal Investigators - Office of Intramural Training & Education at the National Institutes of Health
Friday Newsletter 02/17/2023

**Sponsor:** https://www.training.nih.gov

**Deadline(s):** 11/09/2022 – 03/08/2023 (Currently posted [as of 10/21/2023] Workshops and Training Session dates)

**Contact:** For questions regarding this series, please contact the OITE at OITE@mail.nih.gov Please include “Pl Series” in the subject line.

**Link(s):** https://www.training.nih.gov/workshops_and_trainings_extramural_principal_investigators

**Additional Information:** Dear All, The NIH OITE is pleased to offer the Raising a Resilient Scientist series for faculty, staff scientists, and administrators who mentor students and postdoctoral fellows in the biomedical, behavioral, and social sciences. A variety of topics will be covered with a specific focus on communication and shared problem-solving to help trainees deal with the inevitable setbacks experienced in high knowledge environments. The goal of the Raising a Resilient Scientist series is to promote the mental health and well-being of the academic research community by supporting faculty and administrators to develop self-management, relationship-management, and mentoring skills. There will be five units in the series and will **start on November 9th, 2022**; each unit will consist of a 75-minute lecture followed by a 1-hour facilitated discussion with peers; Previous participants found participation very valuable, and the tools presented practical and actionable. Here is what those who participated in series have to say: “Informative workshop that I think all faculty should be required to attend. Making this a requirement for mentoring teams for fellowship and training grants would be a great approach! They need to be invested in mentoring and training, as much as training fellows.”; “Thank you! I’ve done a lot of mentoring workshops/training but feel like this one is already taking things to another level.”; “This course needs to be offered again and again, such an important resource in any academic curriculum.”; There is no charge for participation, but advanced registration is required. For more information, and to register, please visit our [webpage](#). Participation in the entire series is recommended but is not required. Please do not hesitate to email us if you have any questions.; Sharon; [brought to our attention] Dr. Sharon L. Milgram; Director, NIH Office of Intramural Training & Education; NIH Office of the Director; https://www.training.nih.gov

**[NTW] [WINTER 2022 / 2023 GRANT WRITING GROUP]**

Please let Research Resources (ckk7) know if you are planning on submitting an R01 for the Winter Deadlines; Winter 2022 - 2023 Grant Writing Group; Research resources is pleased to coordinate grant type specific grant writing groups, pending faculty / researcher interest. Please let us know via email to ckk7@cump.columbia.edu if you are interested in such groups, along with the type of grant and proposed due date(s). We are planning to coordinate a writing group for this fall’s NIH deadlines.

Please join us.

**Additional Information:** Newly Funded New York City Center Aims to Reduce Health Disparities in Multiple Chronic Diseases; A multi-institutional group in New York City has united to address health disparities in multiple chronic diseases through the Center to Improve Chronic Disease Outcomes through Multi-level and Multi-generational Approaches Unifying Novel Interventions and Training for Health Equity (COMMUNITY Center). The vision of the center is rooted in public health tenets, recognizing that medical advances alone can only partially reduce the inequitable burden of disease in people of color. Reducing health disparities in chronic diseases requires multi-faceted approaches that intervene on structural, community, family and individual level determinants of health and well-being; Please note the Community Center's website where students, faculty and doctors may be interested in reviewing. It has links in which information for the IDC (Investigator Development Core) can be found. We will be starting a next cycle phase in a few months, which will also be announced. The research funded application is found within this link and we welcome applications from early-stage investigators from CUIMC, WE-CORN, Hunter or PAGNY that are post-doctoral fellows, junior faculty conducting research, or non-research track clinicians. Thank you for helping me disseminate this information! We will be in touch. [brought to our attention by Marisol Castellano mc4542@cumc.columbia.edu]

**Additional Information:** New NIH Structural Racism and Discrimination Funding Opportunity; Dear PEPH colleagues, NIEHS is thrilled to announce our participation in PAR-23-112, Addressing the Impact of Structural Racism and Discrimination on Minority Health and Health Disparities. This initiative will support intervention research that addresses structural racism and discrimination (SRD) in order to improve minority health or reduce health disparities.; Please share with your networks!; Please direct inquires to Lindsey Martin lindsey.martin@nih.gov.; Application Due Dates: March 24, 2023; October 10, 2023; October 9, 2024; October 9, 2025; NIEHS is interested in applications that are within scope of our 2018-2023 Strategic Plan, that meet the criteria established in this FOA, and focus on intervention research that mitigates or prevents the impacts of environmental exposures on communities due to structural racism and discrimination (SRD). Examples of environmental exposures which are considered of primary interest for NIEHS include but are not limited to: industrial chemicals or manufacturing byproducts,
metals, pesticides, herbicides, air pollutants and other inhaled toxicants, particulates, or fibers, fungal, and bacterial or biologically derived toxins. Applicants are strongly encouraged to utilize community engaged research approaches that ensure equity, such as including community partners as part of the research team along with letters of support from community partners. Applications that demonstrate collaborative (i.e., community-academic partnerships) intervention approaches to address the negative health effects of SRD across multiple populations with environmental health disparities will be prioritized. NIEHS is particularly interested in intervention research on a subtype of SRD - environmental racism. For the purposes of this FOA, environmental racism includes the use of racist and discriminatory practices in determining which communities receive health-protective (i.e., green space) or health-harming infrastructure (i.e., industrial complexes). Areas of specific interest to NIEHS include, but are not limited to: Interventions that prevent or mitigate single or combined environmental exposures disproportionately affecting the health of one or more communities impacted by environmental racism; Interventions that address the disproportionate health impacts of exposures due to climate change, extreme weather and natural or human caused disasters on communities affected by environmental racism; Interventions that prevent or mitigate disproportionate exposures in the built environment (e.g., mold or lead in housing, lack of greenspace) attributed to systemic neighborhood disinvestment; Interventions that address the role of environmental racism in occupational exposures; Interventions that promote the resiliency of communities experiencing environmental racism; Want to learn more about implementation science and environmental health? Check out this podcast, our website and resources from our workshop!; Lindsey Ann Martin, PhD; Program Officer; National Institute of Environmental Health Sciences (NIEHS); Division of Extramural Research & Training; Population Health Branch; Phone: (984) 287-4036; Email: Lindsey.Martin@nih.gov; PAR-23-112: Addressing the Impact of Structural Racism and Discrimination on Minority Health and Health Disparities (R01 - Clinical Trial Optional) (nih.gov); New NIH Funding Opportunity; Addressing the Impact of Structural Racism and Discrimination on Minority Health and Health Disparities ; The National Institute of Environmental Health Sciences (NIEHS) is announcing their participation in Addressing the Impact of Structural Racism and Discrimination on Minority Health and Health Disparities. This initiative will support intervention research that addresses structural racism and discrimination (SRD) in order to improve minority health or reduce health disparities.; Find more information and apply here.; Upcoming application due date: March 24, 2023 by 5:00 PM local time of applicant organization.; There is increasing recognition that racism and discrimination contribute to poorer health outcomes for racial/ethnic minorities and other populations that experience health disparities. Health research on racism and discrimination to date has largely focused on interpersonal interactions, and to a lesser extent, one specific form of SRD, residential segregation. Typically, such research focuses on the adverse health consequences of SRD exposures. Less research has explored the resilience among populations exposed to SRD or community strategies to resist or mitigate historic or contemporary SRD exposures. Additionally, intervention research has rarely emphasized reduction of SRD as a strategy to improve health and reduce disparities. Research on mitigation of SRD is needed to inform health care and social policies at all levels.; NIEHS is interested in applications that are within scope of their 2018-2023 Strategic Plan, that meet the criteria established in this funding opportunity announcement and focus on intervention research that mitigates or prevents the impacts of environmental exposures on communities due to SRD.; Applicants are strongly encouraged to utilize community engaged research approaches that ensure equity, such as including community partners as part of the research team along with letters of support from community partners.; Areas of specific interest to NIEHS include, but are not limited to: Interventions that prevent or mitigate single or combined environmental exposures disproportionately affecting the health of one or more communities impacted by environmental racism; Interventions that address the disproportionate health impacts of exposures due to climate change, extreme weather and natural or human caused disasters on communities affected by environmental racism; Interventions that prevent or mitigate disproportionate exposures in the built environment (e.g., mold or lead in housing, lack of greenspace) attributed to systemic neighborhood disinvestment; Interventions that address the role of environmental racism in occupational exposures; Interventions that promote the resiliency of communities experiencing environmental racism; Please direct inquiries to Lindsey Martin lindsey.martin@nih.gov

[NTW] [NIH VIRTUAL GRANTS CONFERENCE]

NIH Grants Conference & PreCon Events
NIH Grants Conference & PreCon Events; Calendar
NIH Grants Conference; Registration

Sponsor: NIH
Deadline(s): 08/25/2022 (First Event); 02/02, 03/2023 (Virtual Conference Dates)
Contact: ExtramuralNexus@mail.nih.gov; Event Questions and Special Requests: NIHGrantsEvents@nih.gov (Submit no less than 3 days prior to the event, if possible.)
https://grants.nih.gov/learning
https://grants.nih.gov/learning
https://nihgrantsconference.vfairs.com/en/registration

**Additional Information:** NIH is going to host a series of webinars on various topics on a monthly basis (what they’re calling ‘pre-conference’ events), as well as host the 2022-2023 Virtual NIH Grants Conference. You can register for these today! Go to their new NIH Grants Conference and PreCon Events webpage to register.; Below is their official announcement and schedule. It kicks off this month with a session on the NIH Loan Repayment Program (LRP) on Thursday, August 25th, from 2 – 3:30pm EDT.; These are open to anyone with all levels of experience: Research Administrators, Researchers, Grant Writers, PostDocs, Trainees, and others in the research community. See below for additional details. [brought to our attention by] Stephanie Scott; Mike Lauer;

**Subject:** 2022-2023 Virtual NIH Grants Conference and PreCon Events: New Name! New Approach! Deeper Dive!;
Reimagine: to reinterpret (an event, work of art, etc.) imaginatively; rethink; If you have followed my blogs through the years, you know I am a huge fan of an NIH event focused on bringing the extramural research community together with NIH experts to share knowledge, perspectives, guidance, and resources on the NIH grants process and policies. The event has evolved through the years in format, reach, and trans-NIH involvement. Each year, I thought its success would be hard to top...yet somehow it happened. For decades it was known as the “NIH Regional Seminar on Program Funding and Grants Administration.” We capped events at 900 attendees. In 2020, it was hosted online and became the “NIH Virtual Seminar.” Last year, over 15,000 attendees participated, representing every state, and over 100 countries. Yet here we are again...reimagining what it could be...reimagining what it should be.; For the past two years, our virtual seminar has spanned four days and included 50 sessions. That is a lot of information for attendees to digest in a short period of time! This year, we thought participants would appreciate the opportunity to get the content over a longer period, allowing time for the information to digest. In addition, by pulling select topics out of the larger conference and sharing them in monthly preconference events, there is the opportunity to dive deeper into issues and build time for additional Q&A, case studies, and conversation.; To this end, I’d like to introduce you to our new, NIH Grants Conference and PreCon Events... all hosted within our virtual conference center. Visit the Conference Calendar of Events to view the times and descriptions for each: August 25: NIH Loan Repayment Programs: Supporting the Next Generation of Researchers; September 15: Navigating Early Career Funding Opportunities; October 14: Research Misconduct & Integrity; November 9: Foreign Collaborations: Policies, Processes, & Partnerships; December 6 & 7: Human Subjects: Policies, Clinical Trials, & Inclusion; January 12, 2023 Making the Most of the 2023 NIH Grants Conference; February 1 & 2, 2023: 2023 Virtual NIH Grants Conference: Funding, Policies, & Processes; I am excited about the new opportunities this conference approach will provide everyone involved. Here are additional details about some of this year’s conference features.; All-Access Conference Pass: There are no fees for signing up. Once you register, your log-in and password provide you access to all of the PreCon Events, 2-Day Conference, On-Demand Library, Exhibit Hall, and additional opportunities to engage with NIH and your peers.; Virtual Conference Center: The conference and designated preconference events will take place on a single, online platform called vFairs, the same one used for the past two NIH Virtual Seminars. The Exhibit Hall will be available throughout the year for
perusing NIH Institute and program booths and collecting valuable information; booths will be staffed for the 2-day conference.; 

**Build Your Personalized Agenda.** Once you register to access our conference center, you can add any of the on-demand videos, PreCon Events, or NIH Grants Conference sessions to your agenda, guaranteeing that you won’t miss out!; 

**First Event:** Thursday, August 25, from 2:00 – 3:30 PM ET – We are pleased to kick off the PreCon Events with experts from the NIH Loan Repayment Program (LRP). This informative and interactive virtual event will provide participants a valuable opportunity to gain program information on how NIH can help pay off a researcher’s student debt, as well as guidance on the LRP application process.; 

We hope you are as excited as we are about the opportunities the virtual conference center and the planned events offer participants. Register today to get your All-Access Conference Pass. Within a couple of weeks, the conference center will open and be ready for you to explore and plan your NIH Grants Conference experience! ;

**NSF Researcher Disclosure Requirements Updated 01.31.2023 | Columbia | Research**

**CU SPA Department Assignments | Columbia | Research**

**Sponsor:** NSF, SPA

**Deadline(s):** 01/31/2023 (Update Release; re for proposals submitted or due on or after January 30, 2023)

**Contact:** https://research.columbia.edu/department-assignments

**Link(s):** https://research.columbia.edu/nsf-researcher-disclosure-requirements

**Additional Information:** Please see the important reminders from NSF outlined below. As a follow-up to this email, we will be sending additional communications regarding Columbia-specific resources to help you comply with NSF’s new requirements. Stay tuned!; ; NSF System Enhancements to Support the Revised PAPPG (NSF 23-1); Dear Colleagues: Effective
today, the National Science Foundation (NSF) made a number of system updates in Research.gov, FastLane, and Grants.gov in accordance with implementation of the revised Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 23-1) for proposals submitted or due on or after January 30, 2023. Please see the Summary of Changes to the PAPPG (NSF 23-1) and view the Fall 2022 PAPPG (NSF 23-1) Revisions presentation; Proposal Preparation and Submission in Research.gov; New proposals must be prepared and submitted in Research.gov. FastLane proposal preparation and submission functionality has been decommissioned. Grants.gov remains a submission option for most NSF proposals.; New supplemental funding requests must be submitted in Research.gov regardless of the system (Research.gov, FastLane, or Grants.gov) used for proposal submission.; Multiple Research.gov training resources are available: Visit the Research.gov About Proposal Preparation and Submission page for Frequently Asked Questions (FAQs), how-to guidelines, and the Research.gov About Supplemental Funding Request Preparation and Submission page for FAQs.; Explore preparing Research.gov proposals and supplemental funding requests on the Research.gov Proposal Preparation Demo Site and Research.gov Supplemental Funding Request Demo Site. All Research.gov automated compliance checks are enabled on the demo sites, and the sites can be used to verify proposal and supplemental funding request document compliance in Research.gov before uploading documents in the actual systems.; View the Fall 2022 Proposal Submission Modernization Update recording including a demo of Research.gov proposal preparation features.; Additional System Enhancements to Support the PAPPG (NSF 23-1); Biographical Sketch and Current and Pending (Other) Support; As of January 30, 2023, Research.gov and Grants.gov only accept the revised biographical sketch and current and pending (other) support formats. Research.gov and Grants.gov will generate a compliance error message if a proposer or grantee attempts to upload a prior version of either document.; The revised biographical sketch and current and pending (other) support formats are in SciENcv, and the fillable PDFs are available on the NSF biographical sketch and current and pending (other) support websites. Proposers currently may use either SciENcv or the fillable PDFs. Beginning October 23, 2023, use of SciENcv will become mandatory.; The Research.gov Project Reporting System will enforce use of the revised current and pending (other) support format when uploaded in annual and final project reports.; View the NSF Biographical Sketch and Current and Pending (Other) Support: SciENcv and NSF Formats webinar, NSF presentation, and NIH presentation.; Concept Outlines and ProSPCT; Emails generated by the Program Suitability and Proposal Concept Tool (ProSPCT) for the concept outline submission type can be uploaded in the Research.gov; Proposal Submission System. This applies to Rapid Response Research (RAPID), EARly-concept Grants for Exploratory Research (EAGER), Research Advanced by Interdisciplinary Science and Engineering (RAISE), and Planning proposals.; For additional guidance, refer to PAPPG Chapter I.D.1. and view the Concept Outlines at NSF webinar.; Additional Updates; A new checkbox has been added to the proposal Cover Sheet for Safe and Inclusive Working Environments for Off-Campus or Off-Site Research. Refer to the PAPPG Chapter II.E.9.; Functionality has been added in the Research.gov Proposal Submission System for proposers to provide updated current and pending (other) support information requested by NSF program officers prior to making funding recommendations. Refer to PAPPG Chapter II.D.2.h.(ii); A new Post Award Disclosure of Current Support and In-Kind Contributions notification has been added. Access this new request using the Notification & Requests link under Awards & Reporting on the Research.gov My Desktop page. Refer to PAPPG Chapter 9.C.; FastLane Decommissioning; · Limited FastLane proposal capabilities such as proposal file updates and budget revisions will remain available for FastLane-submitted proposals until September 29, 2023. This includes proposals submitted to NSF via Grants.gov on or before November 18, 2022.; Refer to the FastLane Decommissioning page for additional information. This page will be updated on an ongoing basis.; Questions?; For NSF technical questions or immediate assistance, please contact the NSF Help Desk (7:00 AM – 9:00 PM Eastern Time, Monday through Friday except for federal holidays): Email the NSF Help Desk: rgov@nsf.gov; Call the NSF Help Desk: 1-800-381-1532; For NIH SciENcv technical questions or immediate assistance, please contact the NIH Help Desk (7:30 AM – 5:30 PM Eastern Time, Monday through Friday except for federal holidays): Email the NIH Help Desk: info@ncbi.nlm.nih.gov; Create a ticket: https://support.nlm.nih.gov/support/create-case/; Policy-related questions should be directed to policy@nsf.gov.; My best regards, Jean; Jean Feldman; Head, Policy Office; Division of Institution and Award Support; Office of Budget, Finance and Award Management; · New resources to assist with the NSF biographical sketch and current and pending (other) support
forms; The new NSF Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 23-1) took effect this week for proposals submitted on, or due on or after, Monday, January 30, 2023. To assist with the creation of NSF’s new Biographical Sketches and Current & Pending (C&P) Support formats, we provide you with the following: Resources: Have I Included...? - a questionnaire to assist you with ensuring all projects and in-kind contributions are included in the C&P form.; The Rascal Other Support Tool - a starting point to assist researchers in identifying current and pending sponsored projects required to be disclosed in Other Support/Current and Pending Support forms for federal agencies. Researchers can download an Excel report to send to administrators assisting with C&P Support. The Other Support Tool contains only proposals from and awards to Columbia. It does not include other information required in C&P Support, such as in-kind contributions. The researcher is responsible for including all required information.; NSF's video and slide decks from their recent webinar on the revised Biographical Sketches and C&P formats, with a SciENcv demonstration.; View our last town hall slide decks and the latest information at NSF Researcher Disclosure Requirements.; Reminders: The Biographical Sketch and Current & Pending (Other) Support formats contain a new certification requirement, in accordance with Section 223(a)(1) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (42 USC 6605(a)(1)). Senior personnel are required to certify that the information provided in their Biographical Sketch and Current and Pending Support documents are accurate, current, and complete.; The signature requirement cannot be delegated and must be completed by the person submitting the biographical sketch or current and pending support.; You can use either NSF’s PDF-fillable Biographical Sketches and Current & Pending (C&P) Support formats, containing the revision date “rev. 01/19/2023”, or you can use SciENcv to create these forms. Earlier versions of these formats will not be accepted in Research.gov, and will cause compliance errors if a proposer attempts to upload a prior version of either document.; If using the PDF-fillable forms, you should not use DocuSign, or any other e-signature software. The certification requires a typed name and date only. Using an e-signature will generate errors upon proposal submission.; If you choose to use SciENcv, we strongly encourage you to view NSF’s webinar first to learn the latest information on how to use SciENcv to include the newly required certifications.; SciENcv will be required beginning October 23, 2023. At that time, the PDF-fillable versions will no longer be available or accepted.; Please feel free to contact your SPA Project Officer with questions.; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University & Columbia University Irving Medical Center; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/

Field and Offsite Research Resources including Template Plan for Ensuring a Safe and Inclusive Work Environment for Off-Campus or Off-site Research Activity AND Template Email to Disseminate Plan | Columbia | Research

NSF Webinar Registration – Zoom; Tuesday February 7, 2023, 3:30; Program Directors from BIO and GEO will hold a Virtual Office Hour (zoomgov.com)

Sponsor: NSF/SPA
Deadline(s): 01/31/2023 (Release Date)
Contact: CU SPA Department Assignments | Columbia | Research; https://research.columbia.edu/department-assignments
Link(s): https://research.columbia.edu/field-and-offsite-research-resources
https://nsf.zoomgov.com/webinar/register/WN_amsVTq1pTDCE8S2FU7mJoQ

Additional Information: Dear NSF-funded Researchers and Applicants, As we have previously communicated, as of today (January 30, 2023) all NSF proposals that include off-campus or off-site research must have a plan to ensure a safe and inclusive work environment for that specific project, and must share the plan with all participants. NSF defines “off-campus or off-site research” as “data/information/samples being collected off-campus or off-site, such as fieldwork on research vessels and
To support principal investigators in meeting this new requirement, we have created two templates that principal investigators can download, customize for their specific project(s), and then disseminate to their team members: **Template Plan for Ensuring a Safe and Inclusive Work Environment for Off-Campus or Off-site Research Activity.** This template plan ("Plan") includes a project-specific information sheet for the Principal Investigator to complete, plus a description of Columbia-wide policies, resources and information relevant to safe and inclusive research environments, and a place to add any school or departmental resources; **Template Email to Disseminate Plan.** NSF requires the Plan to be disseminated to all members of the team before they depart for field or off-site research activity. Principal investigators should use this template email to do so. It is important for principal investigators and/or their administrators to keep a copy of the email after it is sent, to document that this NSF requirement was fulfilled.; In addition, as of today, a new certification has been added to the Rascal Proposal Tracking Data Sheet, to confirm compliance with this requirement. The certification says: **"I/we certify that a plan has been developed for this proposal in accordance with NSF requirements on ensuring a Safe and Inclusive Working Environments for Off-Campus or Off-Site Research."; Please note:** In general, NSF does not require the plan to be submitted to NSF. However, several solicitations from the NSF Directorates for Biological Sciences (BIO) and Geosciences (GEO) will soon require the submission of a Safe and Inclusive Work Environments Plan that will be considered as part of the Broader Impacts criteria during the review process. Program Directors from BIO and GEO will hold a Virtual Office Hour on **Tuesday, February 7, 2023; 3:30 - 4:30 PM Eastern** on this new pilot effort regarding Safe and Inclusive Work Environments Plans. **Register here** for this webinar.; If you have questions about this new requirement, please contact your **SPA Project Officer.**; Thank you.; William Berger; AVP for Sponsored Projects Administration; Naomi Schrag; Vice President for Research Compliance, Training and Policy

**Additional Information:** Yesterday, NSF provided key updates regarding its new Biographical Sketch and Current & Pending (Other) Support formats. This is important information for those of you who may have started working on the new forms for upcoming submissions or are about to do so, as follows: Late yesterday, NSF replaced the PDF-fillable US NSF – About Biographical Sketches and US NSF – About Current and Pending (Other) Support formats on their webpages to correct the formatting in order to be...
compliant (see notice below). These formats now have a revision date, “rev. 01/19/2023” indicated on the bottom right footer.

You must use these latest versions of the PDF-fillable forms in order to be compliant. If you downloaded the forms within the last week, you must make sure to use this latest format with the rev. 01/19/2023 in the bottom right corner.; The use of these new forms, or SciENcv, is required for proposals submitted on, or due on or after January 30, 2023. You cannot upload these new forms prior to January 30th, there will be system errors. You can, however, start using the forms now, and upload to Research.gov on or after that date.; These clarifications were made during a webinar NSF conducted yesterday to review the new PDF-fillable Biographical Sketches and Current & Pending (Other) Support formats, as well as SciENcv. A video recording and slides will be available soon on their website at the Resource Center – NSF Policy Office Outreach (nsfpolicyoutreach.com). I will notify you when the materials become available.; [brought to our attention by Stephanie Scott]; Enhancements to the NSF biographical sketch and current and pending (other) support fillable PDF formats; Dear colleagues, NSF has recently made enhancements to the biographical sketch and current and pending (other) support fillable PDF formats. The updated formats are consistent with the Proposal and Award Policies and Procedures Guide (PAPPG) Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 23-1) | NSF - National Science Foundation and are available on the NSF US NSF – About Biographical Sketches and US NSF – About Current and Pending (Other) Support websites. NSF made the following enhancements in response to feedback received from the research community:

Current and Pending (Other) Support; Corrected the Status of Support radio button; Corrected fonts and margins for compliance with NSF policy; Included the revision date (rev. 01/19/2023) at the bottom of each page; Biographical Sketch: Corrected margins for compliance with NSF policy; Included the revision date (rev. 01/19/2023) at the bottom of each page; Staff from NSF and NIH conducted a webinar to discuss the revised formats and demonstrate the SciENcv system. A recording of the webinar will be made available in the coming days at: https://nsfpolicyoutreach.com/; NSF appreciates the feedback from the research community. Additional feedback and questions may be submitted to: policy@nsf.gov; Regards, Jean Feldman; Head, Policy Office; Division of Institution and Award Support; National Science Foundation; FAQs related to NSFS Proposal and Award Policy, PAPPG (NSF 22-1)

Dear Colleagues,

We will continue to post all updates and materials on the NSF website.

Regarding new NSF PAPPG requirements, as a follow up to the town hall we conducted on December 12, 2022.

The NSF webinar is Thursday, January 19th at 3:00 PM Eastern Time. Webinar registration is available now. Thank you to all who attended today's town hall.

Revised NSF Biographical Sketch and Current and Pending (Other) Support formats - Now Available in SciENcv and on the NSF Website; The National Science Foundation (NSF) just released revised versions of the Biographical Sketch and Current and Pending (Other) Support formats, for consistency with the Proposal and Award Policies and Procedures Guide (PAPPG) NSF 23-1. Senior/key persons must use the revised formats for proposals submitted or due on or after January 30, 2023. These revised formats are also now available in SciENcv; These new formats contain a new certification requirement, in accordance with Section 223(a)(1) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (42 USC 6605(a)(1)), senior personnel are required to certify that the information provided in their Biographical Sketch and Current and Pending Support documents are accurate, current, and complete.; We recommend you preview these new formats now. Next week staff from NSF will conduct a webinar to discuss the revised formats and demonstrate the SciENcv system on Thursday, January 19th at 3:00 PM Eastern Time. Webinar registration is available now. We highly recommend you attend this webinar.; As a reminder, today we are hosting a town hall regarding new PAPPG requirements, as a follow up to the town hall we conducted on December 12, 2022. Slides from Town Hall: NSF PAPPG Changes. See NSF’s announcement below.; Revised NSF Biographical Sketch and Current and Pending (Other) Support Formats - Now Available in SciENcv and on the NSF Website; Dear Colleagues: NSF implemented revised versions of the Biographical Sketch and Current and Pending (Other) Support formats, for consistency with the Proposal and Award Policies and Procedures Guide (PAPPG) NSF 23-1. The requirement to use the revised formats is effective for proposals submitted or due on or after January 30, 2023.; These revised formats are now available in SciENcv and on the NSF Policy Office website. As a reminder, the mandate to use SciENcv only for preparation of these senior personnel documents will go into effect for new proposals submitted or due on or after October 23, 2023.; Staff from NSF and NIH will conduct a webinar to discuss the revised formats and demonstrate the SciENcv system on Thursday, January 19th at 3:00 PM Eastern Time. Webinar registration is available now.; Regards, Jean Feldman; Head, Policy Office; Division of Institution and Award Support; National Science Foundation

Additional Information: See the announcement below from NSF with the latest information concerning the transition to Research.gov, and the decommissioning of FastLane. Research.gov can now accommodate supplemental funding requests, and the last day FastLane can be used to submit new proposals is January 27, 2023. NSF plans to issue more information soon, so please stay tuned. [brought to our attention by Stephanie Scott]; Preparing Supplemental Funding Requests in Research.gov and Upcoming FastLane Proposal Decommissioning Deadlines; Dear Colleagues: We are pleased to announce that supplemental funding requests, including Career-Life Balance requests, can now be prepared in Research.gov. Supplemental funding requests can be submitted in Research.gov regardless of the system used (Research.gov, FastLane, or Grants.gov) for proposal submission. FastLane supplemental funding request functionality will remain available in parallel for the preparation and submission of new requests until January 27, 2023.; In addition, the last two proposal types for the Small Business Innovation Research Program (SBIR) and the Small Business Technology Transfer Program (STTR) will be enabled in Research.gov for the fiscal year (FY) 2023 competitions. With all proposal and submission types soon fully supported in Research.gov, the system will be ready for the transition from FastLane for the preparation and submission of all new proposals in late January 2023, when the Proposal and Award Policies and Procedures Guide (PAPPG) (NSF 23-1) is effective. The last day to submit new proposals in FastLane is January 27, 2023.; Please see the table of important FastLane transition deadlines below. Additional information will be forthcoming on the transition of other FastLane functionality and a FastLane Decommissioning webpage is being developed.; Important FastLane Proposal Preparation and Supplemental Funding Request Transition Deadlines

Last day to submit new supplemental funding requests in FastLane | Friday, January 27, 2023 (5:00 PM submitter’s local time)

Last day to submit proposal file updates/budget revisions in FastLane | Friday, September 29, 2023 (5:00 PM submitter’s local time)

**New Supplemental Funding Request Functionality:** The Research.gov Supplemental Funding Request System has many features to help reduce administrative burden, including: Intuitive and dynamic interfaces which provide only relevant preparation options; Inline help features; Fast document uploads and immediate feedback within each section; and Automated compliance checks with specific, actionable warning and error messages. The new Research.gov Supplemental Funding Request Demo Site can be used to explore preparing supplemental requests and to check the compliance of uploaded documents. The supplemental funding request functionality and demo site are accessible from new links within the Awards & Reporting tile on the Research.gov My Desktop page after signing in to Research.gov. Topic-specific Frequently Asked Questions (FAQs) and demo site guidance are posted on the new Research.gov About Supplemental Funding Request Preparation and Submission page. Please refer to PAPPG Chapter VI.E.5. for supplemental funding request policy guidance; New SBIR and STTR Proposal Types; Proposers will prepare and submit SBIR and STTR Phase I and Phase II proposals in Research.gov for the FY 2023 competitions; SBIR and STTR proposal types will be available to try out on the Research.gov Proposal Preparation Demo Site (you will be prompted to sign in to Research.gov if you are not already signed in) after the SBIR and STTR program solicitations for the FY 2023 competitions are published; Research.gov Proposal and Supplemental Funding Request Feedback: NSF wants your feedback on the proposal preparation and submission functionality, as well as on the new supplemental funding request enhancements. Your input helps NSF to ensure the systems and demo site features are working as intended and to identify areas of improvement. Feedback may be submitted on the Research.gov Feedback page. Submitted feedback is reviewed on an ongoing basis by NSF’s Research.gov Business Office. Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via email to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov. Regards, National Science Foundation

**Additional Information:** Below is an update from NSF regarding the decommissioning of FastLane, with a table of important transition deadlines. We will continue to provide you with NSF updates in the coming weeks. For questions, please reach out to your Department Assignments | Columbia | Research SPA Project Officer; [brought to our attention by Stephanie Scott]; FastLane Proposal Decommissioning and Transition of Functionality to Research.gov; Dear Colleagues: Effective November 21st, Award Documents, Organizational Reports, and Grants.gov integration in FastLane were retired and will be decommissioned. Here’s what you need to know: The FastLane Award Documents functionality as well as all historical award documents moved to Research.gov and are accessible via a new Award Documents link on the Research.gov My Desktop page under Awards & Reporting.; The Continuing Grant Increments Report that was available under FastLane Organizational Reports moved to Research.gov and can be accessed using the new Continuing Grant Increments Reports link on the Research.gov My Desktop page under Awards & Reporting.; Information in the two other FastLane organizational reports was already available outside of FastLane.; Active Awards Report information can be found in NSF Award Search; Organization Permission Report information is in Research.gov Account Management.; Grants.gov applications are now processed in Research.gov instead of in FastLane. Corrections or additions to Grants.gov applications submitted to NSF on or after November 21st will also be made in Research.gov.; **Upcoming Transition Deadlines:** NSF is preparing to transition the preparation and submission of all new proposals from FastLane to Research.gov on January 30, 2023, when the Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 23-1) | NSF - National Science Foundation becomes effective. Please see the table of important FastLane transition deadlines below as well as the new FastLane Decommissioning webpage for a comprehensive list. Decommissioning deadlines for FastLane proposal review functions and panel review functions are being determined and will be added to the FastLane Decommissioning webpage when the information is finalized.; **Important FastLane Proposal Preparation and Supplemental Funding Request Transition Deadlines**

**Contact:** Please direct all inquiries to: Yvonne Owens Ferguson, Ph.D., MPH; Office of Strategic Coordination (OSC); Division of Program Coordination, Planning and Strategic Initiatives (DPCPSI); Office of the Director (OD), NIH; Telephone: 301-827-7136; Email: CFComPASS@od.nih.gov; Kristina Faulk Office of Strategic Coordination (OSC); Division of Program Coordination, Planning and Strategic Initiatives (DPCPSI); Office of the Director (OD), NIH; Email: CFComPASS@od.nih.gov

**Additional Information:** The Office of Strategic Coordination – The Common Fund, within the Office of the Director (OD), has issued a research opportunity announcement (ROA) to solicit applications from community organizations in support of the goals of the Community Partnerships to Advance Science for Society (ComPASS) Program’s CHESI Initiative. A ROA is a method of solicitation that announces the anticipated availability of Other Transactions (OT) awards, a special legal instrument other than contracts, grants, or cooperative agreements.; Technical Assistance Webinars: NIH staff will hold technical assistance webinars for the required Letter of Intent on October 4, 2022, and October 11, 2022, from 2:00 PM-3:00 PM ET. Registration is required. Register here: bit.ly/compass-roa-webinar. To help prepare a Letter of Intent for this ROA, applicants are encouraged to watch a pre-recorded technical assistance presentation and view slides. Additionally, answers to Frequently Asked Questions about OTA-22-007 are available on the ComPASS website.

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Special Interest (NOSI): Advancing Research on Early Pregnancy Loss

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development; Office of Research on Women’s Health

**Deadline(s):** 07/05/2022 (Release Date)

**Contact:** Please direct all inquiries to: Clara Cheng, PhD; Fertility and Infertility Branch; Eunice Kennedy Shriver National Institute of Child Health and Human Development; Telephone: 301-435-6992; Email: clara.cheng@nih.gov

**Additional Information:** Early Pregnancy loss (EPL), defined as a pregnancy loss occurring up to 20 weeks gestation, is a very common pregnancy complication, occurring in 12-15% of clinically recognized pregnancies, with increased prevalence associated with increasing maternal age. The use of highly sensitive hCG assays allows the detection of pregnancy earlier in gestation than the time of clinical recognition, and gives an even higher estimated loss of 50-70% of conceptions prior to the second trimester. To achieve a successful pregnancy, a series of strict embryonic and maternal conditions must be met, that include high quality embryos, favorable conditions for embryo implantation, receptive maternal endometrium and optimal uterine environment to sustain the conceptus to term. In addition, maternal immune tolerance and hormonal factors play a critical role. While approximately half of all cases of EPL appear to be due to embryonic aneuploidy, very little is known about the physiologic and pathophysiologic processes that underlie non-aneuploid EPL. As a result, there is also a lack of understanding for the underlying causes of recurrent pregnancy loss (RPL). This NOSI seeks to address these critical knowledge gaps by encouraging basic, translational and clinical studies on biological processes that may uncover potential etiologies of EPL and RPL. This includes research to understand implantation mechanistically and identify a range of key factors, involved in implantation and placentaation that are important for early pregnancy establishment, including abnormalities that contribute to sporadic EPL and recurrent pregnancy loss.

[NTW] [NEW YORK STATE]
NYS Health Research Science Board – Business Meeting & Public Hearing, 06/29/2022
Archival and other NYS Archived Webcasts (ny.gov)

**Sponsor:** [https://www.health.ny.gov](https://www.health.ny.gov)

[NTW] [NEW YORK STATE/CANCER]
The Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 9) Request for Applications (RFA) ; Live Webinars | Grants Management (ny.gov)
Sponsor: https://grantsgateway.ny.gov

Deadline(s): 12/06/2022 (LOI, strongly encouraged); 02/28/2023 (Application)
Contact: David Googins, 518-474-7002, hrsb@health.ny.gov

Link(s): https://grantsmanagement.ny.gov/live

Additional Information: Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 9) – Release; The Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 9) Request for Applications (RFA) has been released. The NYS Health Research Science Board wishes to encourage the development and implementation of innovative pilot projects in breast cancer risk reduction education with rigorous evaluation and revision. The projects will propose the design of new educational strategies to elicit behavior changes intended to reduce specific risk factors associated with developing breast cancer. Projects will be supported by the state’s Breast Cancer Research and Education Fund. Approximately $270,000 will be available through this RFA to support approximately one (1) award. Annual direct costs are capped at $75,000 for a single award. The contract term will be up to three years.; To download a copy of the RFA and instructions, visit the New York State Grants Gateway; IntelliGrants - Grant Opportunity Portal (ny.gov); https://grantsgateway.ny.gov/intelligrants_NYSBG/module/nysgg/goportal.aspx?NavItem1=4&ngoID=5002285; Letters of Intent are strongly encouraged and due by 12/6/2022. Applications are due by 4:00 PM EST on 2/28/2023 in the New York State Grants Gateway.; If you are unfamiliar with the New York State Grants Gateway, we strongly encourage you to participate in the "Grant Application" webinar hosted by the New York State Grants Gateway Team. The training schedule can be found here: https://grantsmanagement.ny.gov/live-webinars ; Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 9) - Due Date Reminder; The Patricia S. Brown Breast Cancer Risk Reduction Education Research Projects (Round 9) is due on Tuesday, February 28th by 4:00 pm in the NYS Grants Gateway. As a reminder, prospective grantees are strongly encouraged to submit their applications at least 48 hours prior to the due date and time. This will allow sufficient opportunity for the applicant to obtain assistance and take corrective action should there be a technical issue with the submission process. Failure to leave adequate time to address issues identified during this process may jeopardize an applicant's ability to submit their application.; Although NYSDOH and the Grants Gateway staff will do their best to address concerns that are identified less than 48 hours prior to the due date and time, 8am to 4pm Monday through Friday, there is no guarantee that they will be resolved in time for the application to be submitted successfully. Contact information for the Grants Gateway Team is available under Section IV. B. of this RFA.

[NTW] [NEW YORK STATE/CANCER]

https://grantsmanagement.ny.gov/live-webinars

Additional Information: The Peter T. Rowley Breast Cancer Scientific Research Projects (Round 8) Request for Applications (RFA) has been released; The Peter T. Rowley Breast Cancer Scientific Research Projects (Round 8) Request for Applications (RFA) has been released. This RFA provides funding for researchers to try new methods and approaches in breast cancer research. The NYS Health Research Science Board wishes to stimulate and support research related to breast cancer biology,
causation, prevention, detection or screening, treatment (including treatment of its effects), survivorship or cure. Any investigative approach appropriate to the application topic may be pursued, including, but not limited to, basic, translational, clinical, demographic, mapping, epidemiological, environmental, behavioral or psychosocial research. Projects will be supported by the state’s Breast Cancer Research and Education Fund. Approximately $1.8 million will be available through this RFA to support approximately five of these awards. Annual direct costs are capped at $150,000. The contract term will be up to two years. To download a copy of the RFA and instructions, visit the New York State Grants Gateway: IntelliGrants - Grant Opportunity Portal (ny.gov). The Letter of Intent is not required; but is strongly encouraged and due by 2/23/2023. Applications are due by 4:00 PM EST on 04/19/2023 in the New York State Grants Gateway. If you are unfamiliar with the New York State Grants Gateway, we strongly encourage you to participate in the "Grant Application" webinar hosted by the New York State Grants Gateway Team. The training schedule can be found here: Live Webinars | Grants Management (ny.gov)

**Additional Information:** Below is a reminder of the new look and feel coming on June 23rd of the RPPRs in the eRA Commons module, along with screen shots. Please see below additional action items you may need to take. [brought to our attention by Stephanie Scott] ; eRA Enhancements: Reminder that a New Visual Appearance is Coming June 23 to Research Performance Progress Report (RPPR) Module in eRA Commons; eRA Collaborating for a Transformative Tomorrow; eRA Enhancements: Reminder that a New Visual Appearance is Coming June 23 to Research Performance Progress Report (RPPR) Module in eRA Commons; We would like to remind you that the Research Performance Progress Report (RPPR) Module in eRA Commons is moving to the new visual appearance being adopted by other eRA modules, as a result of a required technology upgrade. The functionality and content will remain the same, except for new unique entity identifier (UEI) fields where applicable and other FORMS-G changes (e.g., updated budget forms); see Actions Required below.; Along with the screen refresh, a revised, updated RPPR Instruction Guide will be issued that builds on the instruction guide issued on May 13 and will reflect new screenshots as well as updated policy guidance on FORMS-G and UEI changes see NOT-OD-22-130 for details; All screens are being transitioned to the new look. The refreshed screens will be rolled out on Thursday, June 23, 2022. The release will take place with no downtime. The updates to the RPPR screens are designed to enhance the user experience. The new look is accompanied by changes that enhance the security and stability of the module.; **Actions Required:** See the prior messages appended at the bottom of this message for details on both actions below.; Submit in-progress budget forms by June 22. Budget forms for non-SNAP awards that are started, but not submitted, by June 23 will have to be re-filled out.; Obtain UEI numbers for performance sites listed in Section G.8 Project/Performance Sites, as the DUNS field will be removed and replaced with a UEI field effective June 23.; **Highlights of New Changes:** The screens will adopt the new standard features being incorporated in eRA modules, such as: Apps menu icon — The apps menu, located in the upper left of the new blue header, shows a dropdown menu of other eRA modules available to the user.
Buttons — If multiple buttons exist in a row, the primary button will be prominent and the secondary ones will either be outlined or have no border, to help highlight the options that are more likely to be used.

Header and Footer — An elegant header and footer take up less space, leaving more real estate for the functionality of the module.; Action Items — A three dot ellipses icon, when clicked, displays a dropdown menu of action items. This icon replaces the action column. See Figure 3.; Enhanced Table Tools — A set of tools enhances the ability to work with table data. See Figure 2.; For an explanation of all the new look and feel features, please see Navigating and Using the UI in eRA Modules in the eRA Commons online help.; New UEI Fields Added; For grant applications due on or after January 25, 2022, applicants must have a unique entity identifier (UEI) at the time of application submission, because the federal government has transitioned away from DUNS numbers. DUNS and UEI fields will co-exist on some grant forms during the transition.; New UEI fields appear anywhere that DUNS numbers previously appeared, and in some cases the DUNS was removed; see Figure 1, Figure 3, and Figure 4.; Also see these two articles for more information on UEI numbers:

Unique Entity Identifier Update ; Goodbye DUNS, Hello UEI

Figure 1: The new Cover Page screen, showing a new UEI field.

New Table Tools on Lists of Information; On lists of information, you can use new table tools to filter, download/print data, set the number of rows per page, navigate through pages of list data, and sort by columns. All user interface (UI) elements below are explained in Navigating and Using the UI in eRA Modules in the eRA Commons online help.
Figure 2: The new table tools, with a new UEI column for Performance Sites (DUNS has been removed).

**New Three-Dot Ellipsis Icon for Performing Actions on a Record:** When actions are available on data, look for the new three-dot ellipsis icon, which shows available actions; see Figure 3. The three-dot ellipsis menu is dynamic and shows only those actions that are currently available.

Figure 3: The new three-dot ellipsis icon showing a menu of available actions.

**Separate Popup Windows for Entering/Editing Details:** To reduce screen clutter, data entry fields have been moved to separate popup windows, available by clicking a button or the Edit option on a three-dot ellipsis menu; see Figure 4.
Figure 4: A new popup window for entering or editing data, showing the new UEI option for identifier.

(Message below sent Monday, May 26, at 10:06 a.m.); eRA Alert: Performance Sites of Research Performance Progress Report (RPPR) Require UEI Effective June 23; As of April 4, 2022, the unique entity identifier (UEI) replaced the Dun & Bradstreet (DUNS) number as the official identifier required for an organization/institution to apply for and receive federal funding from NIH and other federal agencies. See NIH Guide Notice NOT-OD-21-170. The UEI, a 12-character alpha numeric identifier, is issued as part of the System for Award Management (SAM) registration process.; As communicated in NOT-OD-22-130, the Research Performance Progress Report (RPPR) Module in eRA Commons is moving to the new visual appearance being adopted by other eRA modules, as a result of a required technology upgrade. The refreshed screens will be rolled out on Thursday, June 23, 2022.; All screens are being transitioned to the new look. The release includes the addition of the new UEI fields where applicable and required FORMS-G changes, including updated budget forms (see appended message).; We would like to inform you that RPPR Section G.8 Project/Performance Sites will no longer have a DUNS number field and will require a UEI instead of a DUNS number. This change will be effective on June 23.; If your organization is currently working on an RPPR with performance sites, please obtain the UEIs of the performance sites. Performance sites that do not have a UEI can obtain one through SAM.gov.; Resources: DUNS to Unique Entity ID (SAM) Transition; Reminder: Unique Entity ID (UEI) Required Starting January 2022

**Additional Information:** NIH just sent a reminder that the RPPR module in the eRA Commons will be upgraded on June 23rd. See email below. If you have an RPPR that is in-progress that requires a budget to be included, and you started entering in budget information, it’s best to prepare and submit that RPPR before June 23rd to avoid having to redo the budget forms. The upgrade on June 23rd will include FORMS-G budget forms. If you submit prior to June 23rd, you'll be using FORMS-F. If you have an RPPR due July 1st, it doesn’t matter if you submit early, before June 23rd, or on/after June 23rd by the July 1st deadline, and it doesn’t matter if the budget forms are FORMS-F or FORMS-G. NIH is just warning you about the transition so you don’t do double data entry of your budget! Feel free to reach out to your SPA Project Officer if you have any questions. [brought to our attention by Stephanie Scott] ; NIH Extramural Nexus – 2021; **Posted on:** Thursday, June 2, 2022 1:34 PM; **Author:** NIH Staff;

**Subject:** Reminder: Action Required for In-Progress RPPR Budget Forms By or Before June 22; Recipients with in-progress RPPR budget forms, remember to submit by June 22 to avoid having to redo the budget forms. The June 23 release of the RPPR module will include updates to the FORMS-G budget forms. See NOT-OD-22-130 for details.; RPPRs submitted on or before June 22 will reflect the FORMS-F budget forms. Due dates for submission of the RPPR remain unchanged. See https://grants.nih.gov/grants/rppr/index.htm; See also: Updated RPPR Instruction Guide Available.; View article...

Additional Information: The Research Performance Progress Report (RPPR) Module in eRA Commons is moving to the new visual appearance being adopted by other eRA modules, because of a required technology upgrade that enhances the security and stability of the module. The upgrade includes adding the new unique entity identifier (UEI) fields where applicable and required FORMS-G changes, including updated budget forms. These upgrades are expected to be released on June 23, 2022.; NIH & AHRQ issued announcement NOT-OD-22-130, as well as the announcement below containing details about upcoming changes to RPPRs. The modules in the eRA Commons are currently being modernized with a new visual appearance and enhances to security.; The Research Performance Progress Report (RPPR) Module in eRA Commons is expected to be upgraded by Thursday, June 23, 2022. Please note the following as some of you may need to take action prior to the release date of the upgrade: Non-SNAP awards only: Budget forms will be updated to a new format. Users with in-progress RPPR forms will be required to re-enter budget form data if the in-progress RPPR is not submitted by June 22, a day before the release. NIH recommends that in-progress RPPRs be submitted by Wednesday, June 22 to avoid having to redo budget forms after the cutover. If that is not possible, they recommend you delay completing the budget forms until after Thursday, June 23 to avoid re-work.; NIH published an interim RPPR instruction guide that incorporates critical changes to align with recently issued guide notices and policy changes. They include: Modified instruction language to align with the updated Other Support and Biosketch format pages and associated instructions.; Modified Question G.4. Human Subjects to incorporate Human Subjects System and Clinical Trials reporting language in line with NOT-OD-20-125.; For institutional research training, career development and research education awards: Question B.4 text modified to incorporate the electronic submission requirement for the Trainee Diversity Report.;
Added instructional language for Ruth L. Kirschstein National Research Service Award (NRSA) childcare costs reporting and requests in the RPPR, as per NOT-OD-21-074 and NOT-OD-21-177. AHRQ NRSA recipients should refer to NOT-HS-22-013 (Individual Fellows) and NOT-HS-22-014 (Institutional Research Training Awards).; A final RPPR Instruction Guide will be published on June 23, 2022, to reflect the revised screenshots accompanying the new look and feel of the RPPR module; Due dates for submission of the RPPR remain unchanged.; For questions, please contact your SPA Project Officer. See more details below.; eRA Alert: Action Required for In-Progress RPPR Budget Forms Due to RPPR Update June 23; Updated RPPR Instruction Guide Available; era Collaborating for a Transformative Tomorrow; eRA Alert: Action Required for In-Progress RPPR Budget Forms Due to RPPR Update June 23; Updated RPPR Instruction Guide Available; The Research Performance Progress Report (RPPR) Module in eRA Commons is moving to the new visual appearance being adopted by other eRA modules, because of a required technology upgrade that enhances the security and stability of the module. The refreshed screens will be rolled out on Thursday, June 23, 2022.; All screens are being transitioned to the new look. The upgrade includes the addition of the new unique entity identifier (UEI) fields where applicable and required FORMS-G changes, including updated budget forms.; An updated, initial RPPR Instruction Guide was issued on Friday, May 13 to reflect changes associated with recently issued guide notices on Other Support and Biosketch format pages, human subjects, Trainee Diversity Report and NRSA childcare costs reporting (see NOT-OD-22-130 for details). A final RPPR Instruction Guide will be published on June 23, 2022, to reflect the revised screenshots accompanying the new look and feel of the RPPR module.; Action Required for Budget Forms; Users need to be aware that budget forms (applicable to non-SNAP awards only) will be updated to a new format. As a result of this update, users with in-progress RPPR forms will be required to redo budget form data if the in-progress RPPR is not submitted by June 22, a day before the release.; We recommend that in-progress RPPRs be submitted by Wednesday, June 22 to avoid having to redo budget forms after the cutover.; If that is not possible, we recommend you delay completing the budget forms until after Thursday, June 23 to avoid re-work.; RPPRs submitted on or before June 22 will reflect the FORMS-F budget forms. Due dates for submission of the RPPR remain unchanged. See https://grants.nih.gov/grants/rppr/index.htm.; Forms-G and UEI Changes to Budget Form; These are the changes to the SF424 Research and Related Budget Form in the RPPR: Under Other Direct Costs, increased the number of available 'Other' direct costs lines from 3 to 10; A UEI field that replaces the previous 'Organizational DUNS' field Enhanced organization search — enter the organization name and the UEI, organization name and organization address will automatically populate the budget form.; The Training Budget form and the PHS Additional Indirect Costs form will also have the 'Organizational DUNS' field replaced by the UEI field, as well as move to the new format.; See Figure 1 for the location of budget forms.

**Additional Information:** NIH recently updated its NIH Pre-award and Post-award Disclosures Relating to the Biographical Sketch and Other Support table (rev. June 8, 2022). It contains additional clarifications of where certain types of activities should be disclosed on NIH forms (i.e. the Biographical Sketch, Other Support, Annual Project Reports, etc.). In addition, we recently posted new Columbia-specific FAQs to clarify the requirements for uploading supporting documentation to accompany NIH Other Support forms and be uploaded into Rascal's COI Module. Please see FAQs: Supporting Documentation Requirements for Rascal and Other Support. As a reminder, we have several resources to assist you with completing the NIH Biographical Sketches, Other Support forms, and the certification requirements: NIH Researcher Disclosure Requirements; Columbia’s FAQs on NIH Other Support and Biosketches; NIH’s FAQs - Other Support and Foreign Components; NIH’s FAQs - Biosketches; SciENcv – currently optional, a tool for creating NIH Biosketches; Request DocuSign in order to complete the certification requirements for NIH Other Support; Note that most NIH-funded PIs were already given access to DocuSign. If you are other senior key personnel on an NIH grant, or an administrator assisting with Other Support forms, you will need to request DocuSign. DocuSign user guides and videos are available on the NIH Researcher Disclosure Requirements webpage. To request DocuSign, use this Request DocuSign Qualtrics form. If experiencing technical difficulties, contact DocuSign-Support@columbia.edu.; For questions, reach out to your SPA Project Officer, [brought to our attention by] Stephanie F. [NTW] [MAXIMIZING INVESTIGATORS' RESEARCH AWARD (MIRA)]

Maximizing Investigators' Research Award (R35 - Clinical Trial Optional)

Sponsor: National Institute of General Medical Sciences
Deadline(s): 05/16/2025; 05/17/2025 (Expiration)
Contact: Scientific/Research Contact(s); Zhongzhen Nie, Ph.D.; National Institute of General Medical Sciences (NIGMS);
Email: MIRA2019RESEARCH@NIGMS.NIH.GOV

Additional Information: The Maximizing Investigators’ Research Award (MIRA) provides support for the program of research in an investigator’s laboratory that is within the mission of NIGMS. The goal of MIRA is to increase the efficiency and efficacy of NIGMS funding. This FOA allows applications from eligible NIGMS-funded investigators and from New Investigators proposing research within the scientific mission of NIGMS. The FOA also allows renewal applications from all current MIRA grantees (established investigators and those previously funded as early-stage investigators). PD/PIs who are currently Early Stage Investigators (ESIs) should apply through the ESI MIRA FOA and should not apply through this FOA.

NOT-PM-23-002: Notice of Future Research Opportunity Announcement for the All of Us Center for Linkage and Acquisition of Data

Sponsor: All of Us Research Project, Office of The Director, National Institutes of Health (OD)

Deadline(s): 12/12/2022 (Release Date)

Contact: Inquiries can be directed to AOU-DTPD-Notices@nih.gov using the subject line “CLAD Notice (NOT-PM-23-002).”

Additional Information: All of Us Research Program Outlines Future Funding Opportunity; Landmark precision medicine effort returns value to research participants by sharing tailored, actionable health-related reports; All of Us Research Program | National Institutes of Health (NIH); Future Research Opportunity Announcement to Support Data Linkages for All of Us Center for Linkage and Acquisition of Data (CLAD); The National Institutes of Health’s All of Us Research Program has published a new Notice of Future Research Opportunity Announcement (ROA). The ROA, expected to be published in January 2023, will solicit proposals to develop and implement the Center for Linkage and Acquisition of Data. This new award will increase research opportunities and scientific discovery by expanding data streams available to researchers using the Researcher Workbench through passive means to help minimize participant burden. Data would be acquired and curated in a manner consistent with the All of Us Research Program’s informed consent and privacy and security policies and regulations. The Notice was published to provide potential offerors time to engage with the All of Us Research Program in advance of the release of the ROA. Inquiries can be directed to AOU-DTPD-Notices@nih.gov using the subject line “CLAD Notice (NOT-PM-23-002).”; The National Institutes of Health is issuing this Notice to alert the community about an upcoming Research Opportunity Announcement (ROA) from the All of Us Research Program, a historic effort to gather data from at least 1 million people who reflect the diversity of the United States, with the goal of accelerating health research and medical breakthroughs, and enabling individualized prevention, treatment, and care.

All of Us Seeks Proposals to Support Future Participant Experience | All of Us Research Program | NIH

Pre-submission Webinar (Registration - Zoom zoomgov.com) 02/02/2023

Sponsor: All of Us Research Program | National Institutes of Health (NIH); https://allofus.nih.gov/

Deadline(s): 03/20/2023 (Initial White Papers due)

Contact: Contact Us | All of Us Research Program | NIH; https://allofus.nih.gov/about/contact-us

Link(s): https://allofus.nih.gov/news-events/announcements/all-us-seeks-proposals-support-future-participant-experience

Additional Information: All of Us Seeks Proposals to Support Future Participant Experience New Research Opportunity Announcement Details Research and Technology Needs for New Award to Support the Program’s Future Participant Experience;
New Research Opportunity Announcement Details Research and Technology Needs for New Award to Support the Program’s Future Participant Experience; The National Institutes of Health’s *All of Us* Research Program has released a new funding opportunity seeking technology and research services partners to help develop the program’s future participant experience. This effort will require strong expertise in designing engaging and accessible digital platforms, implementing research protocols that are carried out through different channels, and supporting a range of other activities to facilitate participants’ involvement in research.; The scope of work includes two core components. A research technology systems core will focus on developing a secure platform that is capable of facilitating nationwide participant involvement, including in their use of digital health technologies, connection of election health records, and access to returned personal health information. The platform will also be used to deploy surveys, and manage robust communications, marketing, and analytics support for program staff and partners.; A program management and delivery core will develop refined consent and data collection methods and tools, and multi-language services to support participants in at least three or more languages to go beyond English and Spanish. Additionally, this core will evaluate potential options to provide at-home and mobile technology to ensure more participants can fully participate in the program.; The selected offerors will also be expected to transition the program’s current participant and study staff services – supported by multiple awards, including the Participant Technology Systems Center | All of Us Research Program | NIH and Participant Center | All of Us Research Program | NIH – to this scope of work during the base period.; Proposals should also demonstrate capabilities and expertise to support cloud systems security and privacy implementation and compliance with National Institute of Standards and Technology (NIST) standards to a minimum Federal Information Security Management Act (FISMA) Moderate requirement. All partners in the *All of Us* Research Program are required to adhere to the policies and procedures to maintain compliance with the Precision Medicine Initiative: Data Security Policy Principles and Framework Overview | All of Us Research Program | NIH.; Initial white papers are due March 20, 2023 at 3 p.m. ET. Anyone interested in learning more about this opportunity are encouraged to join a pre-submission Webinar (Registration - Zoom zoomgov.com) on February 2, 2023 at 2 p.m. ET. Registration is required to attend the webinar.

[NTW] [DIVERSITY]
Research Funding Opportunities to Expand the Use of All of Us Data | All of Us Research Program | NIH
All of Us Research Hub (researchallofus.org)
Data Browser | All of Us Public Data Browser (researchallofus.org)
All of Us Research Program (list-manage.com)

**Sponsor:** All of Us Research Program | National Institutes of Health (NIH)

**Deadline(s):** 03/01/2023

**Contact:** Contact Us | All of Us Research Program | NIH; https://allofus.nih.gov/about/contact-us

**Link(s):** https://allofus.nih.gov/
https://allofus.nih.gov/news-events/announcements/research-funding-opportunities-expand-use-all-us-data
https://www.researchallofus.org/
https://databrowser.researchallofus.org/

**Additional Information:** New funding available to expand the use of All of Us Data; Landmark precision medicine effort returns value to research participants by sharing tailored, actionable health-related reports; NIH to award up to $4.75 million in Fiscal Year 2023 for research grants to advance use of All of Us data; The *All of Us* Research Program is working with 27 other institutes, centers, and offices from across the National Institutes of Health to support new research on the All of Us Researcher Workbench. These grants, solicited through R03 and R21 funding opportunities, will help support analysis of the Researcher Workbench data using
standard tools and methods, as well as the development and use of new tools or methods. The two companion Funding Opportunity Announcements (FOAs) seek discrete, well-defined projects that can realistically be completed in two years. Applications must make direct use of the rich data that is available through the cloud-based, All of Us Researcher Workbench. The integrated dataset includes data from nearly 100,000 whole genome sequences, survey responses from more than 372,000 participants, and information from more than 258,000 participants’ electronic health records (EHRs), alongside physical measurements and wearable device data; All of Us intends to commit up to $2 million in Fiscal Year 2023 (FY23) to fund up to 12 awards, subject to availability of funds and the quality of the applications. Additionally, the National Human Genome Research Institute, the National Institute on Drug Abuse, the National Heart, Lung, and Blood Institute, and the Office of Data Science Strategy intend to commit funding from FY23 for applications from either FOA that are within the scope of their missions, and the Office of Strategic Coordination intends to commit funding for one award from the R03 FOA. Other participating institutes, centers, and offices may use their own funds to make additional awards; Applications are due by March 1, 2023. Letters of Intent will be accepted until January 30, 2023. To stay up to date on the latest news and developments of the All of Us Research Program’s Researcher Workbench, subscribe to our Research Roundup newsletter.

[Administrators who need an account to DocuSign should continue to submit requests through the Qualtrics Form. The form can also be used to obtain accounts for faculty later on if we discover they need access]  

**Additional Information:** As a reminder, effective January 25, 2022, PIs and other senior/key personnel must electronically sign the NIH Other Support form to certify the accuracy of the information provided, and adhere to Columbia University’s Electronic Signature Policy.
**Signature Policy**

A typed name is not an electronic signature and is not acceptable. Certification cannot be delegated to administrators or other staff. NIH does not accept wet signatures, or pictures of wet signatures. The University recommends using DocuSign to electronically sign the Other Support forms. DocuSign is cloud-based and automatically retains the originally signed documents. Both faculty and administrators can use DocuSign.

CUIT is in the process of creating DocuSign accounts for PIs who have current active or pending NIH grants. Administrators who support faculty in creating and organizing Other Support forms and wish to have access to DocuSign will need to request an account. Please complete this Qualtrics form as soon as possible in order for CUIT to create an account. We only need the person’s name and UNI, and one person can complete forms for multiple individuals.

DocuSign training will be offered next week by CUIT and SPA, and will be recorded if you are unable to attend. A quick desktop reference guide and instructional video resources will also be forthcoming. Please register for the trainings by using a Columbia-affiliated email address here: Friday, January 21st, 2 - 3pm; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/

It is not yet available to the research community. However, they are looking for volunteers to work directly with them to test it out. Email your interest to Stephanie Scott, and your contact information with the person coordinating these efforts who is in direct contact with the SciENcv team; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University & Columbia University Irving Medical Center; Email: stephanie.scott@columbia.edu

Sponsor: SciENcv NIH

Deadline(s): Between April 4-15 (projected), approximately 45 minute sessions

Contact: Email your interest to Stephanie Scott, and your contact information with the person coordinating these efforts who is in direct contact with the SciENcv team; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University & Columbia University Irving Medical Center; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/

Additional Information: Opportunity related to NIH Other Support; I am writing to inform you that NIH recently developed a way for you to create your Other Support forms using SciENcv. It is not yet available to the research community. However, they are looking for volunteers to work directly with them to test it out. They want faculty and research administrators, but they especially want faculty from different scientific disciplines and career stages; This is a great opportunity for you to directly provide them with feedback. I do not yet know what kind of functionality they built in, but I do know the purpose of SciENcv is to streamline the creation of these forms and reduce burden. I also know that researchers will have the ability to electronically sign their Other Support forms in SciENcv (rather than use DocuSign); Here are the details: When: Between April 4-15 (projected), approximately 45 minute sessions; Who: Faculty and Research Administrators, with priority to Faculty from different disciplines, career stages; What: Test the new SciENcv interface and NIH Other Support forms, and provide feedback directly to the developers and NIH staff; Email your interest to me, and I will share your contact information with the person coordinating these efforts who is in direct contact with the SciENcv team. They will reach out directly to you to schedule a testing session.; If you are interested but not able to participate during the testing window, your name will be added to the list for future opportunities. This is not the first and only time we will be able to test SciENcv as they make improvements to the system and further develop it.; I learned of this opportunity through the Federal Demonstration Partnership (FDP), whose mission is to identify ways to reduce administrative burden for researchers receiving federal funding. Columbia is a member and very active in the FDP, and I am on the FDP Executive Committee.; Thank you.; [brought to our attention by]; Stephanie F. Scott, MS, CRA; Director of

Additional Information: NIH recently released new clarifications for the Other Support format pages and Biographical Sketches. Key clarifications include:

Signatures are not required on the Other Support format pages until January 25, 2022, regardless of whether you use the old or new formats.

Completed support from the last three years is no longer required in Other Support. Only include active and pending projects. Awardees must report significant changes in Other Support in RPPRs, such as a change in status of previously reported current or pending projects, or access to a new resource/in-kind contribution.

Only unique, high-value materials and data received within the past three years, that are still in use, must be included as in-kind contributions in Other Support.
Only current positions and scientific appointments are required in the Biosketch. Applicants may choose to include past appointments that they wish to highlight.
Consulting agreements must be included in Other Support only when the PD/PI or other senior/key personnel will be conducting research as part of the consulting activities. Non-research consulting activities are not Other Support. Include estimates for the amount paid, rather than time and effort reflected in calendar months, for consulting that is disclosed in Other Support.
Rather than simply updating a previously submitted Other Support form, we strongly recommend that you create a new form from scratch, to ensure that you are able to implement all changes.
To assist you further, we created additional FAQs based on questions collected from researchers and administrators at Columbia University. They are meant to supplement NIH’s FAQs. In addition, we will be hosting monthly webinars to walk you through the forms. Stay tuned for a separate communication with the webinar schedule.
All questions should be directed to your SPA Project Officer. Below is a listing of applicable resources:

[NTW] [CHANGES TO BIOGRAPHICAL SKETCH AND OTHER SUPPORT PAGES]
Announcing New Inbox for Inquiries Related to Changes to Biographical Sketch and Other Support Format Page
Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov
Updated Other Support resources, including FAQs and sample Other Support format pages
Implementation of Changes to the Biographical Sketch and Other Support Format Page
Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021
Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components

**Sponsor:** National Institutes of Health  
**Deadline(s):** 05/18/2021 (Release Date)  
**Contact:** Please direct all inquiries to: Office of Policy for Extramural Research Administration (OPERA); nihosbiosketch@nih.gov  
**Link(s):**  

**Additional Information:** This announcement informs the research community of the creation of a central email inbox for inquiries related to changes to the biographical sketch and other support templates in response to the high volume of inquiries received.; Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov.; NIH is diligently working to ensure complete and timely responses to inquiries received to date via existing email inboxes. The research community may elect to forward inquiries that are pending a response to the new central email inbox, as needed.; NIH encourages the research community to review the currently available resources related to this effort: Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Additional resources, including training videos and other materials will be posted on the pages above as they become available.; Related Announcements: NOT-OD-21-110 - Implementation of Changes to the Biographical Sketch and Other Support Format Page; NOT-OD-21-073 - Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021; NOT-OD-19-114 - Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components; It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Updated Other Support resources, including FAQs and sample Other Support format pages can be found here.; One of the most important changes in the Biosketch instructions is Section B: “List in reverse chronological order: all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”; This is critical. The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

### Biographical Sketch Format Page

Section B ‘Positions and Honors’ has been renamed ‘Positions, Scientific Appointments, and Honors’.

For the non-Fellowship Biosketch, Section D has been removed.
For the Fellowship Biosketch, Section D has been updated to remove ‘Research Support.’
As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A.

### Other Support Format Page

The format page has been re-organized to separate funded projects from in-kind contributions.

Signature block added, for Program Director/Principal Investigator or Other Senior/Key Personnel to certify the accuracy of the information submitted. Each PD/PI or senior/key personnel must electronically sign their respective Other Support form as a PDF prior to submission.

**Additional Information:** On Behalf of CUIMC Executive Leadership - Dean Armstrong, MD; **Subject:** New Physician-Scientist Pathway Initiative; **Sent:** Wednesday, December 21, 2022 3:59 PM; "I want to discuss a subject that will be a central focus for VP&S in 2023 and beyond: our global leadership in advancing biomedical research and maximizing its impact on human health. I am very pleased to be able to announce today the first major initiative in this long-term effort, a new physician-scientist pathway program supported by another transformative gift from Roy and Diana Vagelos, our indispensable benefactors."; "The Vagelos College of Physicians and Surgeons already attracts exceptionally talented graduate students, physicians in training, and early-career physician-scientists seeking the best environment for launching careers that will change medicine through scientific discovery. Extraordinary work in recent years on the medical school curriculum and in clinical departments reflects our faculty's commitment to these students, trainees, and early career faculty. Examples of this existing institutional commitment are the Moynihan Clinical Research Fellowship for psychiatry residents exploring clinical applications of neuroscience research; the Irving Institute's TRANSFORM program, offering career awards, resources, and peer programs for physician-scientists; the Allan Gordon Scholars Fund, providing critical support for early-stage investigators in the Department of Neurology; the Young Faculty Mentoring Program offering mentorship and career guidance for young investigators in the Department of Medicine; and many other initiatives of this type across the medical school."

**Deadline(s):** 01/03/2022 (Release Date)  
**Contact:** For questions concerning research: COVID19_research@columbia.edu; For general questions concerning University Covid-19 policies: covidresource@columbia.edu.  
**Link(s):** https://covid19.columbia.edu/news/update-start-spring-semester [Provost’s (Update on the Start of the Spring Semester, 12.22.2022)]  
Additional Information: COVID-19 Updates for the Research Community: January 3, 2022; Dear Members of the Research Community, We write to highlight key COVID-19 updates for the research community: First, as stated in the Provost’s (Update on the Start of the Spring Semester) December 22 message, faculty, researchers, staff, and students involved in research, administration and all other non-instructional activities should work remotely, if feasible, during the first two weeks of January. All in-person, indoor gatherings of any kind are prohibited during the first two weeks of January.; Second, research is not being paused or suspended at this time. However, to the extent feasible, research activities, including human subjects research, should be conducted virtually. Individual units and principal investigators may determine which team members are required to be in person versus remote. They should also take into account the needs and safety of research participants and study-specific requirements. As always when making such determinations, a precautionary approach is warranted and strongly recommended.; Third, the Research page of the University’s COVID-19 Resource Guide contains updated information specific to the research community. This page includes a new FAQ for principal investigators regarding steps to consider in the event that a team member tests positive for COVID-19.; Finally, below are important reminders: [1] If you are eligible, get a vaccine booster as soon as possible. Upload documentation no later than January 31, 2022 (details on upload to follow).; [2] Wear a properly-fitting face covering for all indoor activity on campus and outdoors in large gatherings.; [3] Comply with University testing requirements, including new recommendations as of December 29, 2021. Those who are returning to campus will please note that: all faculty and staff that have traveled, have been away for a period of time, or have participated in social events and gatherings are strongly recommended to get a PCR test from a local testing site 48 hours prior to returning to University facilities. There is no need to provide proof of this test, unless it is positive.; [4] All visitors, including those who enter any campus facility for any period of time, must be vaccinated and show proof of vaccination as part of visitor attestation. This vaccination policy does not apply to individuals accessing a facility for research screening or research participation.; [5] For in-person human subject procedures, research participants must comply with these guidelines and complete an attestation before entering campus spaces. The attestation is available in English and Spanish. As noted above, the visitor vaccine requirement is not applicable to research participants.; [6] If you have COVID-19 symptoms or test positive for COVID-19, you must stay home and isolate as directed by your provider or contact tracing outreach. If you test positive, irrespective of location of the testing, please notify covidtesttrace@columbia.edu.; [7] Close contacts who are fully vaccinated do not have to quarantine and can continue to work in-person, but should test between 5-7 days of exposure/notification.; [8] The Research Ramp-up Ambassadors continue to be a resource for individuals with concerns about on-campus research activities.; If you have questions, please feel free to send them to COVID19_research@columbia.edu.; As always, we thank you for your continued care and commitment to safety and to our research enterprise, and we look forward to a productive 2022.; Sincerely, Jeannette M. Wing; Executive Vice President for Research, Professor of Computer Science, and Chair, Research Working Group*; *The Research Working Group advises the President’s Task Force on COVID-19 and the Council of Deans and includes: Rui Costa, Director and Chief Executive Officer, The Mortimer B. Zuckerman Mind Brain Behavior Institute, Professor of Neuroscience; Garud Iyengar, Vice Dean of Research, The Fu Foundation School of Engineering and Applied Science, Tang Family Professor of Industrial Engineering and Operations Research; Arthur Lerner-Lam, Senior Advisor to the Co-Deans, Columbia Climate School, Lamont Research Professor; Robert Mawhinney, Dean of Science, Faculty of Arts and Sciences, Professor of Physics; Gerald Rosberg, Senior Executive Vice President; Naomi Schrag, Vice President for Research Compliance, Training and Policy; Michael Shelanski, Senior Vice Dean for Research, Vagelos College of Physicians and Surgeons, Henry Taub Professor of Alzheimer’s Disease and the Aging Brain

Additional Information: The NIH remains firmly committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to extend the guidance provided earlier NOT-OD-22-046 for applicants preparing applications for the January 2023 Council round, beginning with the May 25, 2022 due date.; Related Announcements; NOT-OD-22-046 - Clarification and Guidance for Applicants Preparing Applications for the Spring 2022 Due Dates During the COVID-19 Pandemic; NOT-OD-21-180 - RESCINDED - Clarification and Guidance for Applicants Preparing Applications for the Fall 2021 Due Dates During the COVID-19 Pandemic; NIH issued the following notice yesterday NOT-OD-22-112 for applicants preparing applications for the January 2023 Council round, beginning with the May 25, 2022 due date. I copied the notice, and highlighted the key points below.; Purpose: The NIH remains firmly committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to extend the guidance provided earlier NOT-OD-22-046 for applicants preparing applications for the January 2023 Council round, beginning with the May 25, 2022 due date.; Reviewers will continue to receive instructions to assume that constraints arising from the COVID-19 pandemic (e.g., lab occupancy restrictions, declines in patient accrual, etc.) will be resolved during the project period and thus should not affect their scores.; Therefore, NIH grant applications should NOT include contingency or recovery plans for problems resulting from the COVID-19 pandemic. However, applicants may address effects due to the...
pandemic on productivity or other scoreable issues in their Personal Statement in the NIH Biosketch. Reviewers will be
instructed to take these pandemic-related circumstances into account when assessing applicants’ productivity and other score-
driving factors.; As with previous instructions, if needed, NIH staff will request and assess plans to resolve specific problems
arising from the COVID-19 pandemic prior to funding.; Inquiries, Please direct all inquiries to: NIH Review Policy Officer;
ReviewPolicyOfficer@mail.nih.gov ; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research
Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu ; Website: https://spa.columbia.edu/

New York State Department of Health website Interim Updated Isolation and Quarantine Guidance Released 01.04.2022

Updated CU COVID-19 Policy Announcements December 20 and December 22
ReopenCU website
Students can currently upload their vaccine and booster information
For CUIMC students go here.
For all other students, go here
Sponsor: CUIMC
Deadline(s): 01/05/2022 (Release Date)
Contact: report any outside positive test results you do receive to covidtesttrace@columbia.edu
https://reopencu.covid19.columbia.edu/
https://cas.columbia.edu/cas/login?service=https%3a%2f%2fsecure.health.columbia.edu

Additional Information: Dear fellow members of the Columbia community, We are writing to provide updates on our
December messages regarding Columbia University COVID-19 policies and procedures. We are carefully monitoring the COVID-
19 pandemic status in the New York City metro area and among our affiliates.; While Columbia is doing its own asymptomatic
testing on campus, we also urge you to report any outside positive test results you do receive to covidtesttrace@columbia.edu so that
we have an accurate picture of COVID-19 positive cases amongst our affiliates and can provide you with information on available
resources. As you are aware, the Omicron variant has been shown to be more transmissible than prior virus variants. However,
there are reassuring data suggesting that this variant causes less severe illness and that our vaccines, and particularly once
boosted, also protect against symptomatic and severe COVID-19.; We have three important updates to share with you.; Changes
in isolation and quarantine guidelines: New York State, acting on guidance from the CDC, has modified isolation and quarantine
as follows.; Isolation: All individuals who test positive for COVID-19 can end their isolation after 5 days if they are asymptomatic.
Day 0 is considered the first day of symptom onset and/or the day of a positive test result.; Quarantine: Individuals who are fully
vaccinated and have received booster dose, do not need to quarantine. Such individuals are recommended to get tested on day
5-7 after last exposure.; Individuals who are not vaccinated or not fully vaccinated or are eligible for a booster but have not yet
received one should quarantine for 5 days – where day 0 is the last day of exposure – provided symptoms do not appear. Such
individuals are recommended to get tested on day 5-7.; Full details can be found on the New York State Department of Health website.;
Changes in gathering/events and dining policies: In addition to the policies that were announced on December 20 and December 22,
Columbia-related non-academic gatherings on and off campus are prohibited until the end of January.; In all dining halls, only
grab-and-go food will be available for the first week of the undergraduate return beginning January 18th; all affiliates are strongly urged to avoid indoor social gatherings wherever they are located, unless aware of vaccination and testing status of all attendees. Masking in these locations is also strongly recommended as well as in crowded outdoor social gatherings; Masking indoors at Columbia will continue through March 31, and we urge wearing of masks indoors in all public settings as well as in crowded settings when outdoors; Columbia athletic events will permit no fans for the first two weeks of January; Uploading vaccine and booster information: Next week, we will provide you with the links to be able to upload your booster information. New hires seeking to upload any vaccine (not booster) information may do so on our ReopenCU website; Students can currently upload their vaccine and booster information. For CUIMC students go here. For all other students, go here; Sincerely, Donna Lynne; Senior Vice President and Chief Operating Officer, CUIMC; University COVID Director; Gerry Rosberg; Senior Executive Vice President

Notice of Special Interest (NOSI) - Administrative Supplements for Research of Emerging and Existing Issues of COVID-19 Related to the Health and Well-Being of Women, Children and Individuals with Physical and/or Intellectual Disabilities

Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Alcohol Abuse and Alcoholism; National Institute on Drug Abuse; National Institute of Neurological Disorders and Stroke; Office of Behavioral and Social Sciences Research; Office of Research on Women’s Health

Deadline(s): 04/29/2022 (First Available Due Date); 06/06/2024 (Expiration)

Contact: Please direct all inquiries to: Robert Tamburro, MD, MSc; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-480-2619; Email: robert.tamburro@nih.gov

Additional Information: Related Announcements: PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional); The purpose of this funding opportunity is to provide an opportunity for funded researchers in these various fields to pursue supplemental funding to conduct research addressing these emerging and other existing COVID-related issues among pregnant and lactating people, infants, children and adolescents, and individuals with physical and/or intellectual disabilities. The goal of this NOSI is to not replace or to compete with the various COVID-related funding opportunities currently available. Instead, the purpose is to complement them by offering a funding opportunity for currently funded investigators to address key issues not currently covered by available COVID-related funding announcements among these populations.

**Additional Information:** NHLBI Funded Training and Mentoring Summer Institute with Possibility for Seed Funding; My name is Jenna Noray and I am the Program Manager for the Program to Increase Diversity Among Individuals Engaged In Cardiovascular Health-Related Research (PRIDE-CVD). PRIDE-CVD is a research career advancement opportunity sponsored by the National Heart, Lung, and Blood Institute (NHLBI) since 2006 at the State University of New York Downstate Health Sciences University at Brooklyn, NY. This mentored research program addresses the difficulties experienced by junior investigators in establishing independent research programs and negotiating through the academic ranks. The desired outcome is to accelerate the path to become independent investigator and improve the recruitment and retention of faculty from disabled, disadvantaged, and underrepresented minority groups in the study of heart, lung, and blood disorders.; The Summer Institute program provides an intensive didactic and mentored research training program in cardiovascular health disparities, grantsmanship and career development skills. The goal of this multidisciplinary research training program is to inspire scholars to conduct research in cardiovascular health disparities by employing techniques at the forefront of the field.; I am writing to you today on behalf of the PRIDE-CVD Director, Dr. Mohamed Boutijdir, to announce that our program is open for applications, and we are currently recruiting for Summer 2022’s Cohort 10 which begins on June 12th, 2022. I have attached our brochure which has more details about our program. I appreciate you sharing it with any of your Junior Faculty and colleagues.; I am happy to answer any questions you may have so, please do not hesitate to contact me.; Sincerely, [brought to our attention by] Jenna Noray; Program Manager; Program to Increase Diversity Among; Individuals Engaged in Cardiovascular; Health-Related Research (PRIDE-CVD); SUNY Downstate Health Sciences University; (Office) 718-836-6600 x 3810; (Cell) 347-342-7460; https://www.downstate.edu/pride/index.html

**Sponsor:** Office of the Director, NIH

**Deadline(s):** 07/14/2022 (Release Date)

**Contact:** All of Us Research Program; Awards Management Branch (AMB); All of Us ROA Inquiries: AOU-ROA@nih.gov

**Additional Information:** Related Announcements: OTA-22-006 - NIH All of Us Engagement, Communications, and Enrollment Partners Other Transactions (OT) Research Opportunity Announcement (ROA); The All of Us Research Program is a historic effort to gather data from at least 1 million people, with the goal of accelerating health research and medical breakthroughs, and enabling individualized prevention, treatment, and care. The program is creating a national research resource to inform thousands of studies, covering a wide variety of health conditions. Researchers will use data from the program to learn more about how individual differences in lifestyle, environment, and biological makeup can influence health and disease.; The purpose of this announcement is to fund organizations who can help All of Us build its cohort of volunteers who reflect the rich diversity of the United States and are actively engaged as partners. These funded organizations will help design and implement strategies to raise awareness of the program through community and health care provider organizations, drive increased enrollment of participants, foster regular communication with participants, and engage the research community to use the data being gathered.

NIDDK Encourages Research on Sex/Gender Differences, Sexual and Gender Minority-Related Research and Race/Ethnic Diversity

**Sponsor:** National Institute of Diabetes and Digestive and Kidney Diseases
Additional Information: Many different factors—biological, social, and environmental— affect human health. It is also increasingly recognized that interactions between these factors play a significant role in prevention, pathophysiology, and management of human disease. Sex/gender differences, being a member of a sexual and/or gender minority group, and race/ethnicity are among those factors with a significant impact on human health and disease. However, consideration of these factors in research projects remains limited.

**Additional Information:** The National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health (NIH), of the Department of Health and Human Services (DHHS) supports research related to the basic understanding of microbiology and immunology leading to the development of vaccines, therapeutics, and medical diagnostics for the prevention, treatment, and diagnosis of infectious and immune-mediated diseases. The NIAID, NIH, of the DHHS is soliciting proposals that possess the research and development (R&D) expertise necessary for successfully carrying out research toward meeting the program objectives of the Division of Microbiology and Infectious Diseases (DMID), NIAID.; The Omnibus BAA is governed by Federal Acquisition Regulation (FAR) 6.102(d)(2) and FAR 35.016, as well as the NIH Policy Manual, Manual Chapter 6035, Broad Agency Announcements. A BAA may be used as a solicitation mechanism for basic and applied research directed toward advancing the state-of-the-art or increasing knowledge or understanding and that part of development not related to the development of a specific system or hardware procurement. BAA is general in nature, identifying areas of research interest, and shall only be used when meaningful proposals with varying technical/scientific approaches can be reasonably anticipated.; Offers submitted in response to this BAA will be required to present separate detailed technical and business proposals designed to meet the Technical Objectives described for each Research Area proposed. The Statement of Work (SOW), including the specific technical requirements and performance specifications, shall be developed and proposed by the Offeror, not the Government.

[NTW] [NIH ANNOUNCEMENTS]

Notice of Change to NIHs Policy on Special Council Review of Research Applications

**Sponsor:** National Institutes of Health  
**Deadline(s):** 02/17/2022 (Release Date)  
**Contact:** NIH Office of Policy for Extramural Research Administration; Division of Grants Policy; grantspolicy@nih.gov  

**Additional Information:** Related Announcements: NOT-OD-12-140 - Notice of NIH Special Council Review of Research Applications from PDs/PIs with More than $1.0 Million Direct Costs in Annual NIH Support; NOT-OD-21-169 - New NIH "FORMS-G"
Grant Application Forms and Instructions Coming for Due Dates on or after January 25, 2022; Purpose: This Notice announces an update to the Special Council Review (SCR) policy in an effort to align SCR policy with updated Other Support disclosure requirements (see NOT-OD-21-169) and to increase the threshold from $1 million in direct costs, per year to $2 million in total costs (inclusive of direct and indirect), per year. This policy does not represent a cap on NIH funding.

**[FY 2022 Updated Guidance: Requirement for Instruction in the Responsible Conduct of Research]**

*Sponsor:* National Institutes of Health  
**Deadline(s):** 02/17/2022 (Release Date)  
**Contact:** Please direct all inquiries to: NIH; Division of Biomedical Research Workforce; Office of Extramural Research; National Institutes of Health; Website: [https://researchtraining.nih.gov](https://researchtraining.nih.gov); Email: NIHTrain@mail.nih.gov; AHRQ; Francis D. Chesley, Jr., M.D.; Director, Office of Extramural Research, Education, and Priority Populations; Agency for Healthcare Research and Quality; E-mail: Francis.Chesley@ahrq.hhs.gov  

**Additional Information:** Related Announcements: NOT-OD-10-019 - Update on the Requirement for Instruction in the Responsible Conduct of Research; NOT-RR-11-005 - Modification of PAR-10-206: NCRR Science Education Partnership Award (SEPA) (R25); NOT-OD-21-152 - Extension of COVID Flexibilities for Instruction in the Responsible Conduct of Research; Purpose: By way of this Notice, the National Institutes of Health (NIH), Agency for Healthcare Research and Quality (AHRQ), and Health Resources & Services Administration (HRSA) reaffirm the principle that education in the responsible conduct of research is a fundamental element of research training and announce updates to their existing policy and guidance for such instruction. In particular, this Notice provides new recommendations on the format, frequency, and timing of instruction in the responsible conduct of research (RCR) and suggests additional topics for consideration.

[https://research.columbia.edu/department-assignments](https://research.columbia.edu/department-assignments)  
**Additional Information:** Dear Departmental and Research Administrators, There has been an update to the non-government FY22 fringe rates. The update is for the six month period 1/1/2022 – 6/30/2022, originally planned for 31.5% will now be 32%; Please note that the fringe rate for government grants (GG) remains at 28.20% until further notice; SPA will work with the department on
a final budget for award setup prorating the rates in effect at the time of NOA issuance. If your award has already been set up during, SPA will not be rebudgeting to the new rate.; The new rate is reflected on the SPA Institutional Information page. If you have any questions, please contact your SPA Project Officer.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/; Are you ready for the new NIH Disclosure Requirements for the Biosketch and Other Support, effective January 25, 2022? View our Summary One-Pager, and feel free to distribute to other researchers and administrators at Columbia.

https://research.columbia.edu/nih-researcher-disclosure-requirements

**Additional Information:** Hello, all. With the standard due date coming up for NIH Research Career Development awards (K-awards), due Monday, February 14th (moved from the 12th since that falls on a weekend), our office has received a lot of questions about the requirements for Other Support forms for mentors and co-mentors, given the new NIH Other Support requirements that took effect January 25, 2022.; The instructions for Current & Pending Support (which is what it is called for mentors in K-awards, as opposed to Other Support) remain unchanged, with the exception of the change from 'annual direct costs' to 'total costs', and the addition of the electronic signature.; There is still a 3-page limit for each mentor, and it is limited to the mentor's/co-mentor's current and pending research support relevant to the candidate's research plan. In other words, the mentor includes selected projects and in-kind contributions in their Current & Pending Support that are relevant to the candidate's research plan. In addition, “percent effort/person months” and “overlap” should not be included. See page 61 of the new FORMS-G instructions for K-awards, which outlines what should be included in Current & Pending Support.; The new Other Support format pages should be used to create Current & Pending Support in K-award applications. Do not reuse and recycle old Other Support forms.; We recommend the use of DocuSign to meet NIH's electronic signature requirement. User guides and training videos on the use of DocuSign are on our website here.; NIH will request full Other Support forms, to include all resources made available to a researcher in support of and/or related to all of their research endeavors, during Just-in-Time (JIT), upon request.; Should you have any questions, please reach out to your SPA Project Officer.; *Important* Are you ready for the new NIH Biosketch and Other Support requirements, effective January 25, 2022? For resources and FAQs to assist you, please see NIH Researcher Disclosure Requirements.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia

Additional Information: Feldstein Medical Foundation Research Grants; Limited Submission; Feldstein Medical Foundation Research Grants; Internal proposal deadline: 9:00 a.m. on Monday, January 30, 2023; Internal Application and Instructions - Internal Applications must be completed on our InfoReady Review site at https://columbia.infoready4.com/#competitionDetail/1892231. Please click the “Columbia University Login” button to view instructions and begin your application; What The Feldstein Medical Foundation (FMF) is a private foundation, created to promote and advance previously neglected areas of medical research. FMF is particularly focused on funding: · Junior Investigators, at the assistant professor level, with a history of some prior independent funding; · Research projects that are novel, and innovative to the field of study—the research should potentially represent a significant advancement in scientific knowledge; · Research in areas where FMF funding will have the maximum beneficial impact on health or healthcare practice for significant populations; The Foundation will not accept proposals for already funded projects or bridging support for projects for which funding has lapsed. FMF will fund projects with a total annual cost of up to $70,000 (a maximum of 10% indirect costs may be included) for a period of one year. FMF encourages matching monetary or non-monetary resources. A letter of support is required for all matching resources; Potential applicants are strongly encouraged to review FMF awards to gain insight into funding priorities; https://feldsteinmedicalfoundation.org/prior-funding/ Each institution may submit only one application in each of the following two categories: Basic science research; Translational research/ clinical research/ medical education research, which will include: § T1 (developing treatments and interventions in early clinical trials). § T2 (testing the efficacy of interventions). § T3 (dissemination and implementation research for system wide change). § T4 (dissemination and implementation research for population change).; Who Applicants must: · Hold a full-time appointment as Assistant Professor in VP&S, MSPH, or Nursing; · Due to emphasis on independence, applicants must: o Have secured some prior independent funding from external sources; § Projects that are an extension of senior faculty work are not eligible for support.; o Have publications independent of former mentors; When Internal Proposal due – 9:00 a.m. on Monday, January 30, 2023; Sponsor Proposal due – March 31, 2023;
How To apply, please visit the internal application and instructions on our InfoReady Review site; at: https://columbia.infoready4.com/#competitionDetail/1892256; Questions: Please contact Greg Culler or Casey Rollins at limitedsubmissions@columbia.edu

**Additional Information:** Announcing Trainee Associate Member (TAM) Travel Awards Aug 2022; Dear All, This email is in behalf of the Herbert Irving Comprehensive Cancer Center (HICCC) Cancer Research leadership, Training and Education Coordination (CRTEC) Core is seeking applications to support the 2022 Trainee Associate Member (TAM) Travel Awards. Please find a link below for the detail.; https://columbia.infoready4.com/#competitionDetail/1880142; Best wishes, Sadiqa; Announcing Trainee Associate Member (TAM) Travel Awards Aug 2022; We are pleased to announce the launch of Trainee Associate Member (TAM) Travel Awards Aug 2022. Click on the link below to view more information. Thank you! Internal Submission Deadline: Thursday, September 8, 2022; Cycle: 2022; Discipline/Subject Area: Cancer Research; Funding Available: 1000; Description: The Herbert Irving Comprehensive Cancer Center (HICCC) Cancer Research Training and Education Coordination (CRTEC) Core is seeking applications to support the 2022 Trainee Associate Member (TAM) Travel Awards; Purpose: TAM Travel Awards are intended to support career development in cancer research by assisting early career scholars with expenses related to registration, travel, and lodging at conferences.; Eligibility: Only applicants who are giving a poster or platform presentation will be considered. Only Trainee Associated Members are eligible.; Amount of award: Up to $1,000 in travel reimbursement will be available per trainee per event. Only one presenter per abstract will be awarded travel expenses.; Submission: There are four application deadlines annually: February 1, May 1, August 1, and November 1. The application must be completed online in the InfoReady portal. All application materials must be completed as no later than midnight of the due date.; Award Criteria: Applications will be evaluated by an internal ad hoc committee. Awards will be based on the applicant’s research and the impact of meeting attendance on the trainee’s development. Award recipients will be announced within three weeks of the deadline dates. Members who are not funded are eligible to reapply in the next award cycle. Members may be funded for only one Travel Award in a 12-month period. Applications by Members who have received Travel Awards will be assigned a lower priority than applications from Members who have never been funded in the period from 12 - 24 months after their award.; The application packet will consist of: 1. Meeting information: Name of meeting, location, dates, cost of registration and estimate of your travel and lodging expenses.; 2. The abstract of your presentation; 3. Recommendation/approval memo from your mentor that specifies how attending the meeting benefits your career/research; 4. Proof/confirmation of being a presenter at the conference; 4. Curriculum vitae; Follow the Link here to Apply:

**Additional Information:** The purpose of this Notice of Special Interest (NOSI) is to encourage grant applications for the development of novel technologies to support the needs of cancer control and population sciences research including healthcare delivery research, surveillance research, behavioral research, cancer epidemiology, and population scale -omics research with the goal of driving innovation in this field.
Montefiore Einstein; Cancer Center ExCEL Scholars; Outstanding Postdoctoral Fellows in Cancer Research; Up to four exceptional postdoctoral investigators will be invited to visit Albert Einstein College of Medicine and the MECC on March 14, 2023 to share their work in a half-day research symposium; 01/24/2023 (Deadline); pls email application to excelsymposium@einsteinmed.edu

Sponsor: Montefiore Einstein; Cancer Center
Deadline(s): 01/24/2023 (Application Deadline); 03/14/2023 (Event Date)
Contact: pls email application to excelsymposium@einsteinmed.edu
Link(s): none provided, pls email application to excelsymposium@einsteinmed.edu

Additional Information: Montefiore Einstein; Cancer Center ExCEL Scholars; Outstanding Postdoctoral Fellows in Cancer Research
FROM: Excellence in Career Enrichment Leadership (ExCEL) Committee
SUBJECT: 2023 Einstein ExCEL; Scholar Award Competition
The Montefiore Einstein Cancer Center (MECC) ExCEL Committee is pleased to announce the inaugural ExCEL Scholar Award competition. Up to four exceptional postdoctoral investigators will be invited to visit Albert Einstein College of Medicine and the MECC on March 14, 2023 to share their work in a half-day research symposium. Scholars will have the opportunity to network with faculty and trainees to learn more about research at Einstein.

We seek candidates with outstanding research achievements who have research interests that align with the four core MECC Cancer Programs: Tumor Microenvironment and Metastasis; Stem Cell and Cancer Biology; Cancer Therapeutics; and Cancer Epidemiology, Prevention & Control. We specifically encourage women and candidates from historically underrepresented groups to apply. Current postdoctoral fellows at Albert Einstein College of Medicine are ineligible.

Applications must be received by January 24, 2023. Application components include (i) a letter of recommendation from the postdoctoral mentor or another faculty member with direct knowledge of the postdoc's research emailed directly to excelsymposium@einsteinmed.edu and (ii) a single PDF file from the candidate with the following materials: 1. A complete curriculum vitae, including a bibliography; 2. One-page summary (500 words maximum) of the candidate's research accomplishments and the significance of these accomplishments within the research field in which the candidate works.; 3. One-page summary (500 words maximum) of the candidate’s future research goals. The top of this page should explicitly state all the applicable MECC Research Program(s) that align with the candidate’s research interests.; Please send all documents to excelsymposium@einsteinmed.edu.

Questions regarding the application for the ExCEL Scholar Award competition should be addressed to: excelsymposium@einsteinmed.edu.

HICCC Irving Cancer Drug Discovery Program (ICDDP)

Sponsor: HICCC Irving
Deadline(s): 02/15/2023 (LOI/Internal); 03/15/2023 (Proposal)
Contact: If you have any scientific questions about the proposal, please contact Dr. Tannishtha Reya at tr2726@cumc.columbia.edu or Dr. Emer Smyth at es3551@cumc.columbia.edu and for application questions, please contact Dr. Sadiqa Quadri at skq1@cumc.columbia.edu
Link(s): https://columbia.infoready4.com/#competitionDetail/1894327

Additional Information: designed to provide the critical infrastructure and support needed to enable the development of key scientific discoveries into new approaches for the diagnosis and treatment of cancers.

[NTW] [HCCC PILOT]
Herbert Irving Comprehensive Cancer Center (HCCC) 2023 Inter/Intra-Programmatic Pilot Program (IPPP); 03/03/2023 Deadline

Sponsor: Herbert Irving Comprehensive Cancer Center (HCCC)
Deadline(s): 03/03/2023
Contact: Contact Dr. Sadiqa Quadri with any questions on the program, skq1@cumc.columbia.edu.

Link(s): https://columbia.infoready4.com/#competitionDetail/1894469

Additional Information: Announcing 2023 Inter/Intra-Programmatic Pilot Program (IPPP); Dear Colleagues, On behalf of the leadership of the Herbert Irving Comprehensive Cancer Center (HCCC), we are thrilled to announce the launch of a 2023 Inter/Intra-Programmatic Pilot Program (IPPP) grant supported by the HICCC Developmental program. The goal of this funding opportunity is to stimulate inter- and intra-programmatic research initiatives within the Cancer Center by funding pilot projects that involve Principal Investigators from at least two different Research Programs (i.e., inter-programmatic), with funding priority for projects spanning two research areas (e.g., basic/translational, basic/population science). In addition, applications for projects within a single Research Program (i.e. intra-programmatic) that are strongly interdisciplinary and/or clearly cut across programmatic themes are welcome. Please share the attached RFP with any of your faculty that might be eligible and interested. Applications should be submitted via InfoReady Portal: https://columbia.infoready4.com/#competitionDetail/1894469; The application deadline is Friday, March 3rd, 2023 at 11:59 pm EST. Contact Dr. Sadiqa Quadri with any questions on the program, skq1@cumc.columbia.edu.

Contact: Contact | Stand Up To Cancer (stopcancernyc.org) ; https://www.stopcancernyc.org/contact
Link(s): https://www.stopcancernyc.org/
Additional Information: Diversity and Inclusion in Scientific Research; Underpinning Prevention and Therapy Trials; We are currently seeking translational research projects from the areas of basic and clinical science related to cancer health disparities in clinical trials. We are specifically interested in proposals that address the cancers with the greatest health inequities and mortality in New York City: breast, liver and prostate. Our program stresses the need to engage community partners and/or community providers in the research process to develop novel and scalable approaches to address cancer health inequities. Thus, each proposal requires a community scientist as an integral part of the research team. A community scientist is a person from the community or community provider that directly participates in research projects. We are interested in applications that propose new approaches for persistent challenging problems.; Deadlines: PHASE 1 APPLICATION: Extended January 27, 2023 by 5:00pm; PHASE 2 APPLICATION: March 3, 2023 by 5:00pm; Apply Here

https://columbia.infoready4.com/#limitedsubmissions  
[https://greenwall.org/faculty-scholars-program/scholars-rfp-2023](https://greenwall.org/faculty-scholars-program/scholars-rfp-2023)

**Additional Information:** The Greenwall Foundation Faculty Scholars Program; Limited Submission

The Greenwall Foundation Faculty Scholars Program; Internal Deadline – 9:00 a.m. on Friday, August 19; Internal Application and Instructions – Internal Applications must be completed on our InfoReady site at [https://columbia.infoready4.com/#manageCompetitionsDetail/1877030](https://columbia.infoready4.com/#manageCompetitionsDetail/1877030); Please click the “Columbia University Login” button to view instructions and begin your application.; What: The Greenwall Faculty Scholars Program in Bioethics is a career development award to enable junior faculty members to carry out innovative bioethics research. It supports research that goes beyond current work in bioethics to help resolve pressing ethical issues in clinical, biomedical, and public health decision-making, policy, and practice, and creates a community that enhances future bioethics research by Scholars and Alumni/ae.; Each year, the Foundation selects approximately three Greenwall Faculty Scholars to receive 50 percent salary support for three years to enable them to carry out a specific research proposal and develop their research program. The Foundation provides $5,000 each year for limited project support and travel (no indirect costs are provided for these items); Approximately twelve applicants submitting letters of intent will be invited to submit full applications, which will be due January 9, 2023. Approximately six applicants will be invited to in-person interviews in March 2023. Note as of the last three award cycles three applicants have been awarded each year.; Program Emphasis: Demonstrated publication of bioethics research is given great weight, applicants who have not yet published an innovative bioethics article will not be successful.; In the case of proposals to carry out an empirical study of a topic that has a bioethics component, the most successful applicants have conducted enough empirical research to be able to discuss what conceptual or normative bioethics issues they will focus on and will need to summarize the methods for the empirical part of the project as well. Applicants who propose to carry out empirical work on a bioethics issue, without a strong conceptual framework, normative analysis, and methods are unlikely to be successful.; Who: Applicants must meet the following eligibility requirements.; **Applicants must hold a full time, tenure-track faculty appointment as Assistant**
The appointment must allow for at least 50 percent of the applicant’s effort to be dedicated to research. Priority will be given to applicants whose research will have an impact on clinical, biomedical, and public health decision-making, policy, and practice; and who will make important contributions to the field of bioethics over their careers. When: Internal Deadline – Friday, August 19 (9:00 a.m.); Sponsor Deadline – Monday, September 19; How: To apply, please view the internal application and instructions on our InfoReady site at: https://columbia.infoready4.com/#manageCompetitionsDetail/1877030; Summary of Previous Awards: 77.7% of awardees have a background overall in Health, Policy, and Ethics. While the majority hold a background in Health, Policy, and Ethics, 44.4% of awardees have a background in Philosophy and humanistic approaches; Questions: Casey Rollins at limitedsubmissions@columbia.edu; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://columbia.infoready4.com/#limitedsubmissions; C o l u m b i a | R e s e a r c h

**Deadline(s):** 03/15/2023 (LOI); 05/15/2023 (Application)  
**Contact:** Applications must be submitted via email to Daniel Krug at djk2178@cumc.columbia.edu; Questions should be directed to Drs. Peter St George-Hyslop ps2764@cumc.columbia.edu and Elizabeth Bradshaw emb2280@cumc.columbia.edu  

**Additional Information:** Sending this internal funding opportunity on behalf of the Department of Neurology for the 2023 Carol and Gene Ludwig Pilot Grant Program in Neurodegeneration; **Eligibility:** Columbia faculty members across all disciplines, from either the Morningside or CUIMC campuses, whose work addresses the development of new knowledge about the pathobiology of neurodegenerative disease and dementia. In order to promote research collaborations, applications must be submitted by research teams consisting of two or more faculty researchers with at least two fields of research experience and expertise; **Budget:** Proposals may be funded for up to $300,000 direct costs over 2 years; **Process:** Applications must be submitted via email to Daniel Krug at djk2178@cumc.columbia.edu; **Due Date:** March 15, 2023 for LOI; and May 15, 2023 for full application; Questions should be directed to Drs. Peter St George-Hyslop ps2764@cumc.columbia.edu and Elizabeth Bradshaw emb2280@cumc.columbia.edu; **Call for Proposals:** The Carol and Gene Ludwig Pilot Grant Program in Neurodegeneration (Deadline March 15, 2023); The Carol and Gene Ludwig Pilot Grant Program in Neurodegeneration will provide grants to support high-risk/high-reward research projects in promising areas of neurodegenerative disease, with the goal of building a cohort of researchers focusing on the mechanisms of neurodegeneration and translation of the new knowledge into clinically useful tools. For additional details, please see the attached FOA; **Eligibility:** In order to promote research collaborations, applications must.
be submitted by research teams consisting of two or more researchers with faculty appointments at Columbia University.; Research teams should have at least two fields of research experience and expertise.; Funding Amount: Up to $150,000 per year over 2 years. The committee is expecting to fund 2–4 projects annually. Funding will be based on merit.; Key Dates and Submission Information: Request for Application Open: January 1, 2023, and annually thereafter.; Letter of Intent: March 15, 2023, and annually thereafter (Invitations for full applications will be sent out in April.); Full Application: May 15, 2023, and annually thereafter.; Anticipated Award Decision: June 2023, and annually thereafter.; Project Duration: 24 months from July 1–June 30; Letters of intent and full application packages should be sent to Daniel Krug djk2178@cumc.columbia.edu prior to the application deadline.; Key Contacts: Peter St George-Hyslop ps2764@cumc.columbia.edu; Betsy Bradshaw emb2280@cumc.columbia.edu; Daniel Krug djk2178@cumc.columbia.edu; Topics of Interest: The Ludwig Family Foundation Pilot Research Program seeks applications focused on developing new knowledge about the pathobiology of neurodegenerative disease, and dementia in particular, that will enable the development of innovative tools and molecules to diagnose, monitor, and treat these diseases.; The proposed work program must focus on neurodegenerative disease, and an emphasis on neurodegenerative dementias is especially encouraged.; The proposed work program should be multidisciplinary, and should contain at least two independent laboratories with naturally complementary skills.; Investigators with projects that are directed towards delivering actionable biomarkers or novel therapies in any stage of development that are based upon a valid target and have a translational/commercialization trajectory are encouraged to apply.; Therapeutic strategies including small molecules, biologics, novel delivery approaches, gene therapy, and cell therapeutics will be considered; While all applications in this area are welcome, a non-restrictive set of examples include: Artificial Intelligence/Machine Learning (AI/ML) approaches and coupled validating biological studies that identify resilience factors that might: i) lead to novel biomarkers or; ii) to therapeutically actionable targets; The exploitation of recent genetic studies that identify resilience alleles in risk genes; Exploration of recent cellular, biological and clinical studies relating to microglial proteins with potential protective effects.

Notice of High Priority Research Areas for NIDA T32 Training Grants

Sponsor: National Institute on Drug Abuse

Deadline(s): 10/21/2021 (Release Date);

Contact: Please direct all inquiries to: Lindsey Friend, PhD; Office of Research Training, Diversity and Health Disparities; National Institute on Drug Abuse (NIDA); Telephone:301-402-1428; Email: lindsey.friend@nih.gov

Additional Information: Notice of High Priority Research Areas for NIDA T32 Training Grants; Just passing along this notice from NIDA, issued today, announcing their High Priority Areas for NIDA T32 Training Grants. See the full announcement: https://grants.nih.gov/grants-guide/notice-files/NOT-DA-21-087.html; Data Science: The goal is to prepare trainees to apply data science strategies including computational modeling, machine learning, analysis of large data sets, and artificial intelligence to substance use questions.; Translational Science: The goal is to move from discovery science to the development of medications and devices (including regulatory science.); Human Immunodeficiency Virus (HIV) and Drug Use/Addiction: The goal is to foster a dynamic workforce equipped to use novel approaches to address the intersection of HIV and substance use, prevention, treatment, and cure, including a special emphasis on addressing health inequities. [brought to our attention by] Stephanie Scott; NIH Funding Opportunities (Notices, PA, RFA); Subject: Notice of High Priority Research Areas for NIDA T32 Training Grants; Notice NOT-DA-21-087 from the NIH Guide for Grants and Contracts; The National Institute on Drug Abuse (NIDA) has
a robust training program with a broad range of scientific topics related to substance use and addiction; however, gaps remain. As always, we encourage increasing the pool of nationally underrepresented trainees, including individuals from underrepresented racial and ethnic groups. See, Notice of NIH’s Interest in Diversity. In addition, three specific areas of training have been identified for emphasis.; Strong applications will include a team of mentors in 1 or more of the research areas listed below: **Data Science**: The goal is to prepare trainees to apply data science strategies including computational modeling, machine learning, analysis of large data sets, and artificial intelligence to substance use questions.; **Translational Science**: The goal is to move from discovery science to the development of medications and devices (including regulatory science).; **Human Immunodeficiency Virus (HIV) and Drug Use/Addiction**: The goal is to foster a dynamic workforce equipped to use novel approaches to address the intersection of HIV and substance use, prevention, treatment, and cure, including a special emphasis on addressing health inequities.

[mailman.columbia.edu](http://mailman.columbia.edu/2)
Parent T35 for short term trainees FOA PA-23-080: Ruth L. Kirschstein National Research Service Award (NRSA) Short-Term Institutional Research Training Grant (Parent T35)

**Sponsor:** NIH  
**Deadline(s):** new issues of Parent T32 and Parent T35, released 01/27/2023  
**Contact:** Please let me know if you have any questions; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu;  
**Website:** https://spa.columbia.edu/  
**Link(s):**  

**Additional Information:** Please see the new NIH Parent T32 FOA PA-23-048: Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Research Training Grant (Parent T32), and the Parent T35 for short term trainees FOA PA-23-080: Ruth L. Kirschstein National Research Service Award (NRSA) Short-Term Institutional Research Training Grant (Parent T35), both released today!; NIH just released the Parent T32 FOA, which is a reissue PA-20-142: Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Research Training Grant (Parent T32) (which expires on May 8, 2023). They also released the new Parent T35, which is a re-issue of PA-20-162: Ruth L. Kirschstein National Research Service Award (NRSA) Short-Term Institutional Research Training Grant (Parent T35) (also expires May 8, 2023); Therefore, if you are planning to prepare a NEW or COMPETING RENEWAL application for the May 25, 2023 deadline or later, you would use this new FOA PA-23-048 for T32s, and PA-23-080 for T35s.; This is timely, because I was about to ask the PIs and training grants administrators via these listservs who is planning to submit an institutional training grant this year in 2023. Please reply to me if you plan to submit this year. Every year I take inventory, and then strategize about how to roll out training and consultations for those of you planning to submit; Please indicate: The name of the PI(s); Department; The training grant title; The grant #, if one exists (for example, T32CAXXXXXX); New or Competing Renewal. Also indicate if it is a resubmission.; Due Date; The names of the administrative points of contacts; I have not even had a chance to review the differences between the old funding announcements and the new ones, but will soon. Once I get the inventory of planned proposal submissions, I will be reaching out with additional information.

**[NTW] [NIH ANNOUNCEMENTS]**

**[NTW] [NIH ANNOUNCEMENTS]**

**NIH Operates Under a Continuing Resolution**

**Sponsor:** National Institutes of Health  
**Deadline(s):** 12/15/2021 (Release Date)  
**Contact:** Questions regarding adjustments applied to individual grant awards may be directed to the Grants Management Specialist identified in the Notice of Award.  

**Additional Information:** The Department of Health and Human Services (HHS), including National Institutes of Health (NIH), operates under the Further Extending Government Funding Act (Public Law 117-70) signed by President Biden on December 3, 2021. This Act (CR) continues government operations through February 18, 2022 at the FY 2021 enacted level, with no reduction. Continuing the procedures identified under [NOT-OD-21-058](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-058.html) and consistent with NIH practices during the CRs of FYs 2006 - 2021, NIH Institutes and/or Centers may, at their discretion, issue non-competing research grant awards at a level below that indicated on the most recent Notice of Award. Upward adjustments to awarded levels will be considered after FY 2022 appropriations are enacted, but NIH expects institutions to monitor their expenditures carefully during this period. All legislative mandates that were in effect in FY 2021 (see [NOT-OD-21-056](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-056.html)) remain in effect under this CR, as well as the salary limitation set at Executive Level II of the Federal Pay Scale (see [NOT-OD-21-057](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-057.html)) and the Ruth L. Kirschstein National Research Service Award predoctoral and postdoctoral stipend levels and tuition/fees as described in [NOT-OD-21-049](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-049.html).

**Policy and Regulation on ClinicalTrials.gov Registration and Reporting | grants.nih.gov**

**Additional Information:** Last week, the NIH implemented new system validations for Research Performance Progress Reports (RPPR) for clinical trial registration and results reporting. RPPRs that have associated clinical trials that are non-compliant with these requirements will receive errors preventing submission of the RPPR. See NOT-OD-22-008 for more details. As a reminder, failure to register or report results data for an Applicable Clinical Trial (ACT) as per FDAAA 801 and the Final Rule or the NIH Policy on the Dissemination of NIH-Funded Clinical Trial Information can result in immediate suspension or termination of funding, monetary civil penalties of up to $10,000 per day of non-compliance, criminal or civil prosecution, and/or a permanent notice of non-compliance publicly posted on the ClinicalTrials.gov record for a study. Of note, the FDA issued its first Notice of Noncompliance to an individual investigator conducting a trial sponsored by an academic institution. The Principal Investigator (PI) failed to submit required results data to ClinicalTrials.gov. As a result of this noncompliance, the ClinicalTrials.gov record for the study will be permanently marked with and searchable by the "FDAAA 801 Violations" field, even though results were posted a day after the Notice was issued. The requirements for registration and results reporting are as follows: Applicable studies must be registered no later than 21 days after enrollment of the 1st participant (i.e., date of when the 1st participant signs a study consent form); Results information for applicable studies must be submitted to ClinicalTrials.gov no later than one year after primary completion date (with limited exceptions) for the primary outcome measure, and one year after the study completion date for all other outcome measures, including safety data.; If you require assistance with ClinicalTrials.gov registration or results reporting, please contact the University’s system administrators at ClinicalTrialsGov@cumc.columbia.edu. International Bioethics Research Training Program (D43 Clinical Trial Optional)

**Sponsor:** John E. Fogarty International Center; National Human Genome Research Institute

**Deadline(s):** 06/06/2023; 06/06/2024; 06/07/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Barbara Sina Ph.D.; Fogarty International Center (FIC); Telephone: 301-402-9467; Email (preferred): sinab@mail.nih.gov
Dear Colleagues,

NIH is participating in a new Administrative Supplement Opportunity through the NIH Office of Science Policy (OSP/OD). The Notice of Special Interest (NOSI) is published on Thursday, November 24, 2022 and announced in the Federal Register on December 7, 2022. The NOSI describes this opportunity as-

**Sponsor:** Bioethics Research – Office of Science Policy (nih.gov); Office of the Director, NIH; John E. Fogarty International Center; National Center for Advancing Translational Sciences; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Library of Medicine; Office of Research on Women’s Health

**Deadline(s):** 12/16/2022 (First Available Due Date); 02/17/2023 (Expiration Date)

**Contact:** Scientific/Research Contact(s) ; Shari Feirman, PhD ; Office of Science Policy, Office of the Director (OSP/OD) ; Telephone: 301-435-6350 ; Email: shari.feirman@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OA-23-018.html

**Additional Information:** Related Announcements: NOT-OA-22-026 - Notice of Special Interest (NOSI): Administrative Supplement for Research and Capacity Building Efforts Related to Bioethical Issues (Admin Supp Clinical Trial Optional) ; PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional) ; [also brought to our attention by NIH Office of Science Policy] Administrative Supplement Opportunity on Bioethical Issues and Bioethics Research Capacity; Dear Colleagues: NIEHS is participating in a new Administrative Supplement Opportunity through the NIH Office of Science Policy on Research and Capacity Building Efforts Related to Bioethics: https://grants.nih.gov/grants/guide/notice-files/not-od-23-018.html ; Please direct inquiries to Lindsey Martin Lindsey.Martin@nih.gov ; News from the NIH Office of Science Policy; November 29, 2022; NIH Seeks to Fund Innovative Research and Capacity Building Efforts Related to Bioethics; NIH, through the Office of Science Policy, is announcing the availability of administrative supplements to support research on bioethical issues that either inform future policy directions or augment bioethics research capacity. For more information, including special areas of interest and application instructions, please visit https://grants.nih.gov/grants/guide/notice-files/not-od-23-018.htm Applications will be accepted until 5:00pm (applicant local time) on February 17, 2023.; For more information on prior supplements, see here.; Questions about specific IC research priorities should be directed to the contact listed in the notice.; General questions may be sent to SciencePolicy@od.nih.gov.

Deadline(s): 09/24/2021 (Release Date)

Contact: ExtramuralNexus@mail.nih.gov

https://nexus.od.nih.gov/all/author/lauerm/

Additional Information: By Mike Lauer; When the public health emergency was first declared, NIH, working with OMB and HHS, quickly identified a long list of flexibilities to support the research community. The list has evolved since the pandemic began, so we would like to take this opportunity to remind the community of many of the current flexibilities we have in place.

NIH Extramural Nexus, Clarifying NIH’s Approach to Granting ESI Extensions

Sponsor: https://nexus.od.nih.gov

Deadline(s): 09/17/2021 (Release Date)

Contact: ExtramuralNexus@mail.nih.gov

Link(s): https://nexus.od.nih.gov/all/2021/09/17/clarifying-nihs-approach-to-granting-esi-extensions/
Additional Information: By Mike Lauer; There has been a lot of focus on early stage investigator (ESI) extension requests in the community recently. And we certainly understand why. The experience of the COVID-19 public health emergency has brought into sharp focus that the effects of the pandemic on careers and life in general may continue for years to come. This fact has led us to revisit our approach to granting ESI extension requests.

NIH Extramural NEXUS; 02.09.2022: New NIH Administrative Supplements Available to Support Diversity Mentorship

NIH mentorship initiatives and resources

**Sponsor:** NIH Office of Extramural Research

**Deadline(s):** 02/09/2022 (Release Date)

**Contact:** ExtramuralNexus@mail.nih.gov

**Link(s):** https://nexus.od.nih.gov/all/2022/02/09/new-nih-administrative-supplements-available-to-support-diversity-mentorship/

Please see below article from today’s NIH Extramural News on new NIH administrative supplements to support diversity mentorship. You can also read the article here if you’re having trouble seeing it below. [brought to our attention by Stephanie Scott]; NIH Extramural Nexus – 2021; Posted: Wednesday, February 9, 2022 by Marie A. Bernard; Subject: New NIH Administrative Supplements Available to Support Diversity Mentorship

Marie A. Bernard, M.D., NIH Chief Officer for Scientific Workforce Diversity; I am pleased to announce the availability of a new NIH administrative supplement that recognizes the crucial role outstanding mentors play in fostering future leaders in the biomedical research enterprise.; Qualified investigators can now submit proposals in response to the Chief Officer for Scientific Workforce Diversity (COSWD)-led xxx, Notice of Special Interest (NOSI) NOT-OD-22-057: Administrative Supplements to Recognize Excellence in Diversity, Equity, Inclusion, and Accessibility (DEIA) Mentorship. Proposals are due by April 7, 2022.; Mentorship is a critical part of recruiting and retaining an inclusive scientific workforce. Evidence suggests mentorship helps foster scientific identity and career progression in science, technology, engineering, mathematics, and medicine (STEMM) disciplines. For example, research shows that grant-writing mentorship for early-career biomedical investigators from underrepresented groups can foster increased publication productivity, a key contributor to scientific career advancement.; Based on this evidence, one goal of my office is to support and amplify the impact of programs that develop scientific talent through training and mentorship. Thus, this new NOSI is part of our commitment to enhancing mentorship within NIH-supported research, with an emphasis on scientists from underrepresented groups.; The participating NIH Institutes and Centers will supplement the existing awards of scientists who have demonstrated a commitment to exceptional training and mentorship, especially to individuals from groups identified as underrepresented in the biomedical sciences.; Supplements are available for various grant types, including career development, training, cooperative, and Research Project Grants (R01). They will provide up to $250,000 in direct costs, not to exceed the direct costs of the parent award. Investigators may use the funds to perform additional research within the parent grant’s scope, develop curricula or training activities to strengthen mentor training, or help foster the research career development of additional students, post-doctorates, or other trainees.; The NIH has an array of mentorship initiatives and resources, and I am excited about this addition to the agency’s offerings. I encourage all eligible investigators to take advantage of this opportunity to be recognized for outstanding mentoring, and for promoting inclusive excellence.

NIH Implementation of the Revised Common Rule Provision Regarding Public Health Surveillance Activities Deemed Not to Be Research

[NTW] [LIMITED COMPETITION/K-AWARDS]
PAR-22-129: Limited Competition: Small Grant Program for NIDDK K01/K08/K23/K25 Recipients (R03 Clinical Trial Optional)

**Sponsor:** National Institute of Diabetes and Digestive and Kidney Diseases  
**Deadline(s):** 02/16/2023; 02/16/2025; 06/16/2025; 09/07/2025; 09/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Lisa M. Spain, Ph.D.; Division of Diabetes, Endocrinology, and Metabolic Diseases; National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK); Telephone: 301-451-9871; Email: SpainL@niddk.nih.gov  

**Additional Information:** The National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) announces a program that provides NIDDK-supported K01, K08, K23, and K25 recipients the opportunity to apply for Small Grant (R03) support during the latter years of the award period of their K award. Through the use of this mechanism, the NIDDK is seeking to enhance the capability of its K01, K08, K23, and K25 award recipients to conduct research as they complete their transition to fully independent investigator status. The R03 grant mechanism supports different types of projects, including pilot and feasibility studies; secondary analysis of existing data; small, self-contained research projects; development of research methodology; and development of new research technology. The R03 is, therefore, intended to support research projects that can be carried out in a short period of time with limited resources and that may provide preliminary data to support a subsequent R01, or equivalent, application.

RFA-DE-23-014: Planning for the TMD Collaborative for IMproving PAtient-Centered Translational Research (TMD IMPACT) (R34 Clinical Trial Not Allowed)

**Sponsor:** National Institutes of Health (NIH); U.S. Food and Drug Administration (FDA); Components of Participating Organizations; National Institute of Dental and Craniofacial Research (NIDCR); National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS); National Institute of Biomedical Imaging and Bioengineering (NIBIB); National Institute of Neurological Disorders and Stroke (NINDS); National Center for Complementary and Integrative Health (NCCIH); All applications to this funding opportunity announcement should fall within the mission of the Institutes/Centers. The following NIH Offices may co-fund applications assigned to those Institutes/Centers.; Office of Behavioral and Social Sciences Research (OBSSR); Office of Research on Women's Health (ORWH)

**Deadline(s):** 04/14/2023; 04/15/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Melissa Ghim, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-529-6570; Email: melissa.ghim@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/rfa-files/RFA-DE-23-014.html

**Additional Information:** This Funding Opportunity Announcement (FOA) invites Planning Grant applications that conceptualize the design and implementation of a future national, interdisciplinary, patient-centered research collaborative that will advance Temporomandibular Disorders (TMDs) basic and clinical research, research training, and translation to evidence-based treatments and improved clinical care. The planning grants are intended to enable institutions to develop partnerships, infrastructure, and capabilities needed to address the major goals of a future Collaborative and develop a Collaborative-wide research framework and strategies to support coordination among studies, research projects, and sites, and thereby enhance competitiveness for future participation in TMD Collaborative for Improving Patient-Centered Translational Research (TMD IMPACT). The planning grant will not be a prerequisite for submission of a TMD IMPACT application.

CTSA Compendium of D&I Catalogs | Irving Institute for Clinical and Translational Research

Sponsor: CTSA; https://www.irvinginstitute.columbia.edu
Deadline(s): 11/07/2022 (Release Date)
Contact: Contacts | Irving Institute for Clinical and Translational Research ; https://www.irvinginstitute.columbia.edu/contact
Link(s): https://www.irvinginstitute.columbia.edu/about/initiatives-and-committees/implementation-science/ctsa-compendium-d-i-catalogs
Additional Information: CTSA Compendium of D&I Catalogs; Led by the national D&I CTSA working group; This resource was developed by the Clinical & Translational Science Awards (CTSA) Program’s “Advancing Dissemination and Implementation Sciences in CTSAs” working group. This group focuses on meeting both the conceptual as well as practical challenges to advancing the utilization of D&I across the translational science spectrum.

[NTW] [COLLABORATIVE]
PAR-23-077: Collaborative Program Grant for Multidisciplinary Teams (RM1 - Clinical Trial Optional)

Sponsor: National Institute of General Medical Sciences
Deadline(s): ; 05/26/2023; 01/26/2024; 05/28/2025; 01/27/2026; 01/28/2026 (Expiration)
Contact: Scientific/Research Contact(s); Please direct all inquires to: RM1mailbox@nigms.nih.gov
Additional Information: This Funding Opportunity Announcement (FOA) is designed to support highly integrated research teams of three to six Program Directors/Principal Investigators (PDs/PIs) to address ambitious and challenging research questions that are within the mission of NIGMS. Project goals should not be achievable with a collection of individual efforts or projects. Collaborative program teams are expected to accomplish goals that require considerable synergy and managed team interactions. Teams are encouraged to consider far-reaching objectives that will produce major advances in their fields.; This FOA is not intended for applications that are mainly focused on the creation, expansion, and/or maintenance of community resources, creation of new technologies, or infrastructure development.

[NTW] [NIH ANNOUNCEMENTS/COVID-19/BIG DATA]
The National Institutes of Health’s All of Us Research Program has announced a significant increase in the COVID-19 data available in its precision medicine database

All of Us Research Program
Apply for Access to the All of Us Research Program Database

Sponsor: https://allofus.nih.gov/
Deadline(s): 09/2021 (Release Date)
Contact: https://allofus.nih.gov/about/contact-us
https://www.researchallofus.org/apply/
**Additional Information**: All of Us Research Program; The Future of Health Begins With You; Now Available: All of Us Research Program Expands Dataset to Fuel New Discoveries; The National Institutes of Health's All of Us Research Program has announced a significant increase in the COVID-19 data available in its precision medicine database, adding survey responses from more than 37,000 additional participants, and virus-related diagnosis and treatment data from the nearly 215,000 participant electronic health records (EHRs) that are currently available. The program has also expanded its collection of wearable data to now include 11,670 paired participant Fitbit records, a 42% increase from its last update, making this one of the largest publicly-available sets of digital health technology data available.; Researchers interested in exploring the data and conducting analyses can apply for access after their institutions have signed a data use agreement with the program. At this time, any U.S.-based academic, nonprofit, or health care organization can enter into a data use agreement with the program.; The program anticipates releasing the first set of genomic data in the next refresh, anticipated this winter.

Additional Information: Infectious Disease Fund Developed to Support and Accelerate Growth in New York’s Life Science Industry and Combat Public Health Threats like COVID-19; Fund Will Fast Track Qualified Startups, Early Stage Companies and Late Stage Academic Research in New York Institutions to Commercialize Efforts to Combat Infectious Disease; Applications and Fund Guidelines Available Here; Short Proposal Instructions: Short proposals are due by 5:00 PM EDT on September 27, 2021. Short proposals should be completed and submitted through an online form found at NYSBiodefenseFund.submittable.com. Information included in the Short proposal should be non-confidential. Applications received after the September 27 deadline
will be rolled into the next application cycle. Please allow time to create a Submittable account if you do not already have one. Columbia led this effort. We encourage you to apply; New York State Spearheads Defense Against the Next Pandemic by Launching a $40M Biodefense Fund for Startups and Academic Researchers. Applications are now available for New York State’s new $40 million Biodefense Commercialization Fund that will provide grants of as much as $4 million to startups and academic research projects to help accelerate the development and commercialization of life science research that addresses serious infectious disease threats, including COVID-19 and its variants. Eligible companies that are developing promising diagnostics, therapeutics, vaccines, and other innovations to prevent, treat or mitigate serious infectious disease threats may apply for grants of up to $4 million. New York’s academic research institutions will be able to apply for grants of up to $500,000 to help fast track advanced intellectual property that is on the cusp of moving to a commercial phase and university exit. An emphasis will be placed on supporting the development of innovations with the highest potential for commercial viability. To submit an application or learn more about the Fund, please visit the program’s website at https://esd.ny.gov/biodefensefund, or email BiodefenseFund@esd.ny.gov.

**Deadline(s):** 08/25/2021 (Release Date)

**Contact:** NIH Review Policy Officer; ReviewPolicyOfficer@mail.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-180.html

**Additional Information:** Last week, NIH issued announcement NOT-OD-21-180, which provides additional guidance related to COVID-19 for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings. Please see text of the announcement below, especially highlighted section.; Purpose: The NIH remains firmly committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to clarify the guidance provided earlier NOT-OD-21-026, for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings.; Reviewers will continue to receive instructions to assume that constraints arising from the COVID-19 pandemic (e.g., lab occupancy restrictions, declines in patient accrual, etc.) will be resolved during the project period and thus should not affect their scores.; Therefore, NIH grant applications should NOT include contingency or recovery plans for problems resulting from the COVID-19 pandemic. However, applicants may address effects due to the pandemic on productivity or other scoreable issues in their Personal Statement in the NIH Biosketch. Reviewers will be instructed to take these pandemic-related circumstances into account when assessing applicants’ productivity and other score-driving factors.; As with previous instructions, if needed, NIH staff will request and assess plans to resolve specific problems arising from the COVID-19 pandemic prior to funding.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University; Columbia University Irving Medical Center; sfs2110@cumc.columbia.edu

Additional Information: NIH’s August issue of their newsletter, the NIH extramural NEXUS August 2021, was released. It contains a number of announcements, reminders, and blog posts. To note is the Save the Date for the 2021 NIH Virtual Seminar, taking place November 1 – 4. It’s a great opportunity for researchers and administrators to learn about NIH’s processes.; There are also new FAQs related to the Other Support format pages and Biographical Sketches (our office will provide further guidance on that in
the coming week). See below for more information.; [brought to our attention by Stephanie Scott]; Data on NGRI, Biosketch/Other Support Resources, Demographic Analyses of R01 Grant Outcomes of T32 Postdocs

[NTW] [NIH STRATEGIC PLAN 2021-2025]

NIH-Wide Strategic Plan for Fiscal Years (FYs) 2021-2025 is now available
Extramural Nexus Framework of three key objectives of the NIH 2021-2025 NIH-Wide Strategic Plan, Archival 02.18.2020
Archival NIH-Wide Strategic Plan for Fiscal Years (FYs) 2016-2020

Sponsor: NIH
Deadline(s): 07/30/2021 (2021-2025 plan; Release Date)
Contact: ExtramuralNexus@mail.nih.gov
https://nexus.od.nih.gov/all/2020/02/18/seeking-thoughts-on-the-framework-for-the-next-nih-wide-strategic-plan/

Additional Information: NIH-Wide Strategic Plan for FY 2021-2025 Now Available; We are pleased to announce that the NIH-Wide Strategic Plan for Fiscal Years (FYs) 2021-2025 is now available. This updated plan articulates NIH’s highest priorities over the next 5 years, outlining our vision for the future direction, capacity, and stewardship of biomedical and behavioral research.; The plan is organized around a framework of three key objectives: [1] Advancing Biomedical and Behavioral Sciences; [2] Developing, Maintaining, and Renewing Scientific Research Capacity; [3] Exemplifying and Promoting the Highest Level of Scientific Integrity, Public Accountability, and Social Responsibility in the Conduct of Science.; The plan weaves five cross-cutting themes across these objectives, centered around minority health and health disparities, women’s health, public health challenges across the lifespan, collaborative science, and data science. The plan also mentions several achievements made during the previous FY 2016-2020 plan, but please recognize that this plan is not meant to describe everything NIH does.; As Dr. Francis Collins, the NIH Director, notes in the opening statement, “NIH will [invest] efficiently and effectively in a wide range of basic, translational, clinical, and applied research, while at the same time supporting the workforce and infrastructure required for a sustainable research enterprise. As outlined in this Strategic Plan, this approach will enable NIH to build a solid foundation of fundamental knowledge about living systems that will serve to accelerate research aimed at addressing our most pressing health needs.”; We appreciate members from the research community, professional societies, advocacy groups, and the public who worked with us and provided feedback throughout the process to develop this plan.

[NTW] [FORMS-G]

New NIH "FORMS-G" Grant Application Forms and Instructions Coming for Due Dates on or after January 25, 2022
High-level Summary of Form Changes in FORMS-G Application Packages

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality; Food and Drug Administration
Deadline(s): 01/25/2022 (Forms-G must be used for grants submitted on or after this date)
Contact: Please direct all NIH inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA); Systems Policy Branch; Email: OPERAsystemspolicy@nih.gov; Please direct all AHRQ inquiries to: Division for Policy, Coordination and Analysis; Office of Extramural Research, Education, and Priority Populations; Agency for Healthcare Research and Quality,
HHS; Email: Grant_Queries@ahrq.hhs.gov; Please direct all FDA inquiries to: Food and Drug Administration (FDA); Office of Acquisitions and Grants Services (OAGS); Grants Management Branch; Email: OAGSGrantsPolicy@fda.hhs.gov

**Additional Information:** See High-level Summary of Form Changes in FORMS-G Application Packages for a full list of form changes. Participating agencies will notify the community if it is determined additional changes are needed. These changes will be implemented with application form packages identified with a Competition ID of "FORMS-G" and associated application guide instructions. Additional guidance and confirmation of implementation plans will be provided in Fall 2021.

**Effective Date:** Applicants must use FORMS-G application packages for due dates on or after January 25, 2022 and must use FORMS-F application packages for due dates on or before January 24, 2022. Applications submitted using the wrong forms for their intended due date may be withdrawn and removed from funding consideration.

---

Policy-related questions should be directed to policy@nsf.gov.

**Link(s):** [https://beta.nsf.gov/funding/opportunities](https://beta.nsf.gov/funding/opportunities)  
[https://research.columbia.edu/department-assignments](https://research.columbia.edu/department-assignments)  
[https://www.research.gov/research-portal/appmanager/base/desktop?_nfpb=true&_pageLabel=research_node_display&_nodePath=/researchGov/Service/Desktop/ProposalPreparationandSubmission.html#capabilities](https://www.research.gov/research-portal/appmanager/base/desktop?_nfpb=true&_pageLabel=research_node_display&_nodePath=/researchGov/Service/Desktop/ProposalPreparationandSubmission.html#capabilities)  

**Additional Information:** NSF announced today a number of system enhancements for proposals submitted in Research.gov and FastLane, and upcoming revisions to the NSF-approved Biographical Sketch and Current and Pending Support SciENcv and fillable PDF formats that fall under the revised Proposal & Award Policies & Procedures Guide (PAPPG) NSF 22-1 will be available to preview by September 17, 2021.; We are also excited to announce enhanced NSF Funding Opportunity Search functionality and revamped program pages on nsf.gov and beta.nsf.gov, the new version of the NSF website. As NSF builds its new nsf.gov website in small, iterative pieces using the [https://beta.nsf.gov/](https://beta.nsf.gov/) platform, we are not simply moving existing content from nsf.gov to the new site. Rather, the new website will improve how information is presented for use by various audiences including prospective proposers, grantees, and the general public.; Here’s what to know.; **Research.gov Proposal Submission System Enhancements:** Research.gov proposal features continue to expand to support the transition of all proposal preparation and submission functionality from FastLane to Research.gov by a target date of
December 31, 2022. Many NSF funding opportunities are supported in Research.gov and clearly specify whether submission via Research.gov is available or required.; Effective August 30, 2021, Conference and Ideas Lab proposal types, renewal and accomplishment-based renewal submission types, and preliminary proposals for Ideas Lab solicitations are all now available for submission in Research.gov. FastLane must be used to submit preliminary proposals for proposal types other than Ideas Lab until that functionality is available in Research.gov.; The proposal preparation landing page has been revised, and Principal Investigators will now first select the proposal submission type from the drop-down options and then will follow the proposal setup wizard to create a new proposal. In progress and submitted proposals are accessible from the tiles on the revised proposal preparation landing page, after first selecting the submission type from the drop-down options.; New automated compliance checks and associated error and warning messages for the enabled proposal and submission types were also implemented. Error messages will prohibit proposal submission to NSF, whereas warning messages still permit proposal submission.; New Frequently Asked Questions (FAQs) were added to the Research.gov About Proposal Preparation and Submission page, and the Proposal Submission Capabilities page has been updated to reflect the latest development updates.; All supported proposal and submission types as well as associated compliance checks are also enabled in the Research.gov Proposal Preparation Demo Site.; Refer to the PAPPG NSF 20-1 for current proposal requirements. Guidelines in the revised PAPPG NSF 22-1 will apply for proposals submitted or due on or after October 4, 2021.; NSF-approved Biographical Sketch and Current and Pending Support Format Updates; Current and Pending Support Fillable PDF Updates; Based on feedback from the research community and NSF Program Officers, NSF has incorporated functionality as of August 30, 2021, in FastLane and Grants.gov to remove any pages which do not contain data entered by users (i.e., blank pages) from the NSF-approved current and pending support fillable PDF. This trimming functionality will be integrated in Research.gov on October 4, 2021, in coordination with implementation of the revised PAPPG NSF 22-1 for proposals submitted in Research.gov and project reports submitted in the Research.gov Project Reporting System.; The trimming service only applies to the NSF-approved current and pending support fillable PDF and not to any other uploaded PDFs. Current and pending support PDFs generated in SciENcv do not include blank pages.; The current and pending support fillable PDF document is paginated, and the PDF page numbers will not be updated during the trimming process. This means that it is possible for the trimmed PDF to have skipped page numbers corresponding to the blank pages removed from the fillable PDF. NSF Program Officers are aware of this potential occurrence in proposals submitted to NSF.; Proposers with in progress proposals as of August 30, 2021, can delete previously uploaded current and pending support fillable PDFs from their FastLane or Grants.gov proposals and then re-upload them to trigger the trimming service.; Updated Biographical Sketch and Current and Pending Support SciENcv and Fillable PDF Formats; The updated NSF-approved biographical sketch and current and pending support formats will be available in September 2021 to preview before they are required on October 4th. The updated fillable PDF formats will be available for download from the NSF biographical sketch and current and pending support websites by September 3rd. Updated SciENcv formats will be available on the SciENcv Create a New Document screen by September 17th.; Biographical sketch format updates include increasing the page limit from two to three pages; Current and pending support format updates include the addition of new sections for information on objectives and overlap with other projects to help NSF and reviewers assess overlap/duplication.; Although submission of the updated NSF-approved formats is not permitted (i.e., Research.gov, FastLane, and Grants.gov will not allow the 22-1 forms to be uploaded) until implementation of the revised PAPPG NSF 22-1 on October 4, 2021, NSF is encouraging proposers and grantees to begin familiarizing themselves with the updated NSF-approved formats when they are available.; Enhanced Funding Opportunity Search Functionality and Revamped Program Pages; Based on extensive research with external and internal stakeholders, NSF has made significant improvements to the NSF Funding Opportunity Search functionality to help researchers and prospective researchers quickly and easily find relevant programs and NSF-funded projects in specified disciplines. Funding Search results now include short program descriptions, programs incorporated in core program solicitations with links to the relevant guidelines, and Dear Colleague Letters.; The revamped program pages include significant content and navigation improvements including information previously only viewable in solicitations.; For more information about NSF’s beta site, please visit https://beta.nsf.gov/about-beta. NSF will continue to enhance the site, and ongoing feedback from external and internal stakeholders is vital to the process. Feedback
on the updated Funding Search and program page enhancements or any other aspect of the site may be directed to beta-nsf-feedback@nsf.gov; Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov; Regards, National Science Foundation

**Additional Information**: A bold new initiative of the U.S. National Science Foundation, the Regional Innovation Engines (NSF Engines) program catalyzes innovation ecosystems across the United States to advance critical technologies, address societal challenges, nurture diverse talent, and promote economic growth and job creation. With the potential for each Engine to receive up to $160 million for up to 10+ years, the program supports the development of regional coalitions, spanning academia, industry, nonprofits, government, civil society, and communities of practice, to engage in use-inspired research, translation of research results to society, and workforce development. The NSF Engines program uniquely harnesses the Nation’s geography of innovation, unleashing a new era of innovation and competitiveness for the U.S. Learn more about the NSF Engines program at [https://beta.nsf.gov/funding/initiatives/regional-innovation-engines](https://beta.nsf.gov/funding/initiatives/regional-innovation-engines); **Events**: Attend an upcoming webinar and/or virtual roadshow to meet fellow potential applicants in their region. To register, visit: [https://nsfengines.eventbrite.com](https://nsfengines.eventbrite.com); More below.; The NSF Directorate for Technology, Innovation and Partnerships, or TIP, is pleased to announce the launch of a bold, new initiative, the Regional Innovation Engines, or NSF Engines, program. This new program harnesses the Nation’s science and technology research and development enterprise and regional-level resources to: Advance critical technologies; Address national and societal challenges; Foster partnerships across industry, academia, government, nonprofits, civil society, and communities of practice; Promote and stimulate economic growth and job creation; Spur regional innovation and talent; **IMPORTANT RESOURCES; NSF Engines**

**Additional Information**: Please see announcement from NSF below regarding important Research.gov enhancements, as well as NSF Public Access Repository (NSF-PAR) enhancements that took effect today. As a reminder, FastLane will no longer be an
option for proposal preparation and submission beginning January 2023.; Questions concerning NSF policies should be directed to your SPA Project Officer. [brought to our attention by Stephanie Scott] ; New Research.gov Proposal Preparation Functionality and NSF-PAR Enhancements; Dear Colleague: We are excited to share the latest Research.gov proposal preparation functionality updates, together with information about NSF Public Access Repository (NSF-PAR) enhancements.; Beginning in January 2023, all new proposals must be prepared and submitted in Research.gov or Grants.gov. FastLane will no longer be a preparation and submission option. The National Science Foundation strongly urges proposers to prepare and submit all eligible proposals in Research.gov now, to support a smooth transition from FastLane proposal preparation and submission to Research.gov in January 2023.; New Research.gov Proposal Preparation Functionality Available May 2nd; New Postdoctoral Fellowship Proposal Type; The Postdoctoral Fellowship proposal type is available in Research.gov for proposals submitted in response to postdoctoral fellowship solicitations that do not contain reference letter requirements. The postdoctoral fellowship solicitations will be updated to include information about proposal preparation and submission in Research.gov.; To initiate a postdoctoral fellowship proposal in Research.gov, the proposer must first have the Postdoctoral Scholar/Principal Investigator (PI) role, which is different from the PI role.; Refer to the Postdoctoral Fellowship Proposals topic Frequently Asked Questions (FAQs) on the Research.gov About Proposal Preparation and Submission page for instructions to add the Postdoctoral Scholar/PI role. Additional guidance is available in the Add a New Role – Postdoctoral Fellowship Principal Investigator section of the Account Management Guide on the Research.gov About Account Management page. ; · Postdoctoral fellowship program solicitations will only display in Research.gov and be available for selection for proposers preparing a proposal as a Postdoctoral Scholar/PI.; New Research.gov Proposal Features; · Expanded Where to Apply Options: Proposers now have the ability to choose additional Directorate/Division/Program options (i.e., secondary units of consideration) to direct proposals to NSF. Refer to the Managing Where to Apply topic FAQs on the Research.gov About Proposal Preparation and Submission page for additional information.; · Project Data Form: The Project Data Form is now available in Research.gov and must be included in proposals for selected funding opportunities in the Directorate for Education and Human Resources (EHR)/Division of Undergraduate Education (DUE). See the Project Data Form topic FAQs on the Research.gov About Proposal Preparation and Submission page for details.; · Separate Uploads of Multiple Supplementary Documents: Proposers can now upload multiple PDF documents in the Other Supplementary Documents proposal section and will no longer need to combine documents into a single PDF prior to uploading.; NSF Public Access Repository (NSF-PAR) Enhancements Effective May 2nd; PIs and co-PIs can now remove research datasets from NSF-PAR without assistance from the NSF Help Desk by disassociating the NSF award(s) from the dataset. Disassociating all NSF awards from a dataset removes the dataset from the NSF-PAR publicly facing search.; Deposit of dataset information in NSF-PAR remains optional, and there are no changes at this time to NSF’s Public Access policy or project reporting requirements.; Training resources are available on the Research.gov About Public Access page. Information about the NSF Public Access Initiative including FAQs is available on the NSF Public Access Initiative page. Feedback about the PAR 2.0 pilot may be submitted to publicaccess@nsf.gov. For information about Research.gov proposal functionality planned for release in the coming months, please see the Proposal Submission Capabilities on the Research.gov About Proposal Preparation and Submission page. All enabled proposal and submission types are also available to try out on the Research.gov Proposal Preparation Demo Site (you will be prompted to sign in to Research.gov if you are not already signed in). Demo site FAQs can be found on the Research.gov About Proposal Preparation and Submission page left navigation menu.; Questions? If you have IT system-related questions regarding the new functionality and enhancements, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via email to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.; Regards, National Science Foundation

Additional Information: Please see this important announcement from NSF regarding the required use of Research.gov, and the decommission of FastLane. Policy-related questions should always be directed to your SPA Project Officer. See Program Descriptions that Require Proposal Preparation and Submission in Research.gov or Grants.gov, a document that identifies program descriptions requiring Research.gov preparation and submission and the associated effective date. This document will be updated on an ongoing basis.; Please see NSF’s full announcement below, which contains training resources to assist you. For questions, please contact your SPA Project Officer.; Required Use of Research.gov for Preparation and Submission of Proposals in Response to Program Descriptions; System Update; Dear Colleague: In accordance with Important Notice No. 147, many National Science Foundation (NSF) program solicitations now require the use of Research.gov for the preparation and submission of proposals. Please be advised that NSF will now start requiring the use of Research.gov for the preparation and submission of proposals in response to program descriptions. As a reminder, FastLane is targeted to be removed as a submission option from all funding opportunities by December 31, 2022. Grants.gov will remain a submission option for most NSF proposals.; To assist the research community, NSF developed a dynamic listing of program descriptions that require submission in Research.gov. Follow these steps to determine if your proposal for a specific program description must be prepared and submitted in Research.gov: Access the relevant NSF.gov program description page (e.g., Magnetospheric Physics, PD 98-5750); View the advisory in the Program Guidelines section on the right side of the program description page and click on the link in the advisory: Alert: Many NSF programs are only accepting proposals in Research.gov or Grants.gov. FastLane may no longer be a submission option. For more information, please visit Program Descriptions that Require Proposal Preparation and Submission in Research.gov or Grants.gov.
Descriptions that Require Proposal Preparation and Submission in Research.gov or Grants.gov: The document will identify program descriptions requiring Research.gov preparation and submission and the associated effective date. This document will be updated on an ongoing basis as FastLane will be removed from all program descriptions as a proposal preparation and submission option by December 31, 2022. Since many program solicitations also require submission in Research.gov, proposers should pay close attention to the requirements identified in those specific funding opportunities. Research.gov Proposal Capabilities and Transition from FastLane Proposal Preparation: Nearly all FastLane proposal preparation and submission capabilities are now available in Research.gov. For details about the remaining proposal features that will soon be added to Research.gov, please see the Proposal Submission Capabilities table on the Research.gov About Proposal Preparation and Submission page. To stay informed about Research.gov and FastLane changes, we invite you to join our System Updates listserv. Sign up by sending a blank email to system_updates-subscribe-request@listserv.nsf.gov. NSF strongly encourages proposers to prepare and submit all supported proposals in Research.gov now, to facilitate a smooth transition from FastLane proposal preparation to Research.gov over the next several months. In addition, NSF relies on your vital feedback to help ensure the system is working as intended and to identify areas of improvement. Feedback may be submitted at https://www.research.gov/research-web/feedback. Research.gov Proposal Preparation and Submission Training Resources: Research.gov About Proposal Preparation and Submission page; Frequently Asked Questions (FAQs) by topic; Video Tutorials; How-to Guides; Research.gov Proposal Preparation Demo Site (See the demo site FAQs on the Research.gov About Proposal Preparation and Submission page for access information and demo site features.); Research.gov Update and Demonstration presentation from the Fall 2021 NSF Virtual Grants Conference; Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or via rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov; Regards, FastLane and Research.gov Teams at the National Science Foundation.
Dear Colleague:

Effective October 4, 2021, the National Science Foundation (NSF) made a number of system updates for proposals submitted in Research.gov, FastLane, and Grants.gov in accordance with the implementation of the Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 22-1). Please see the list of PAPPG (NSF 22-1) significant changes and clarifications for all of the updates. New proposal and submission types were also enabled in the Research.gov Proposal Submission System.; New Proposal Types in the PAPPG; The PAPPG (NSF 22-1) incorporates two new "Other Types of Proposals": Planning Proposals; Planning proposals must be prepared and submitted in Research.gov.; Refer to PAPPG Chapter II.E.1. for planning proposal requirements.; Career-Life Balance (CLB) Supplemental Funding Requests; CLB supplemental funding requests must be prepared and submitted in FastLane.; Refer to PAPPG Chapter II.E.8. for CLB supplemental funding request requirements.; Updates to NSF-approved Biographical Sketch and Current and Pending Support Formats; The NSF-approved biographical sketch and current and pending support formats were updated to incorporate revisions in the PAPPG (NSF 22-1) and must be used for proposals submitted or due on or after October 4, 2021.; The current formats are posted on the NSF biographical sketch and current and pending support websites. Updated system-related Frequently Asked Questions (FAQs) are also available: FAQs on using SciENcv and FAQs on using NSF fillable PDF. SciENcv documents created using the previous version (i.e., NSF 20-1) prior to October 4th are automatically converted in SciENcv to the current version after October 4th.; Biographical sketch format updates include increasing the page limit from two to three pages.; Current and pending support format updates include the addition of new sections for information on objectives and overlap with other projects to help NSF and reviewers assess overlap/duplication.; Biographical sketches and current and pending support information also must be uploaded with Change of Principal Investigator (PI) and Add/Change co-PI requests in FastLane.; When notifying NSF that active other support has changed since the award was made, or since the most recent annual report, current and pending support information must be uploaded in annual and final project reports in the Research.gov Project Reporting System.; Research.gov, FastLane, and Grants.gov will generate a compliance error message if a proposer or grantee attempts to upload a prior version of the biographical sketch or current and pending support formats on or after October 4th.; Removal of Blank Pages from the Current and Pending Support Fillable PDF; Research.gov, FastLane, and Grants.gov will remove any pages which do not contain data entered by users (i.e., blank pages) from the NSF-approved current and pending support fillable PDF.; The trimming service is triggered in Research.gov and FastLane during document upload and during proposal submission in Grants.gov.; The trimming service only applies to the NSF-approved current and pending support fillable PDF and not to any other uploaded PDFs. Current and pending support PDFs generated in SciENcv do not include blank pages.; The current and pending support fillable PDF document is paginated, and the PDF page numbers will not be updated during the trimming process. This means that it is possible for the trimmed PDF to have skipped page numbers corresponding to the blank pages removed from the fillable PDF.; Research.gov Proposal Submission System Enhancements; The Grant Opportunities for Academic Liaison with Industry (GOALI) and Planning proposal types and the Letter of Intent submission type are now available for submission in Research.gov.; New automated compliance checks and associated error and warning messages for the enabled proposal and submission types were also implemented. Error messages will prohibit submission to NSF, whereas warning messages still permit proposal.
submission.; All supported proposal and submission types as well as associated compliance checks are also enabled in the Research.gov Proposal Preparation Demo Site.; New FAQs were added to the Research.gov About Proposal Preparation and Submission page, and the Proposal Submission Capabilities page has been updated to reflect the latest development updates.; Research.gov proposal features continue to expand to support the transition of all proposal preparation and submission functionality from FastLane to Research.gov by a target date of December 31, 2022. Many NSF funding opportunities are supported in Research.gov and clearly specify whether submission via Research.gov is available or required.; Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov. Regards, National Science Foundation

National Science Foundation NSF Policy Outreach Webinar Series Beginning 01/31/2022

National Science Foundation NSF Policy Outreach Resource Center
National Science Foundation NSF Policy Outreach YouTube Channel

Deadline(s): 01/31/2022 (First Webinar)
Contact: grants_conference@nsf.gov
Link(s): https://nsfpolicyoutreach.com/
https://nsfpolicyoutreach.com/resource-center/
https://www.youtube.com/c/nationalsciencefoundationpolicyoffice

Additional Information: Please see announcement from NSF below about a new webinar series, kicking off on Monday, January 31, 2022 at 2:00 pm EST. The first session will be dedicated to Current and Pending Support policy and frequently asked questions.; You can register HERE, or below. I strongly encourage faculty and administrators to attend this event to hear the latest on NSF Current & Pending support if you prepare NSF applications. This webinar will be recorded.; [brought to our attention by Stephanie Scott]; 2022 NSF Policy Office Webinar Series - Current and Pending Support – Registration Is Open!; The National Science Foundation (NSF) is pleased to announce that it will be launching a 2022 NSF Policy Office Webinar Series, that will focus on specific topics of interest to the research community. We will begin with a webinar covering NSF's Current and Pending Support policy and frequently asked questions. This virtual webinar will take place on January 31, 2022 at 2:00 pm EST. There is no cost to participate.; Registration is open! To register for this event, visit our website: https://nsfpolicyoutreach.com/ ; We are encouraging attendees to submit questions ahead of time so that our speakers and panelists may tailor their remarks to answer the audience’s most pressing questions. Please submit your current and pending support questions when you register or email them here: grants_conference@nsf.gov. Feel free to check https://nsfpolicyoutreach.com/ for the most up-to-date webinar information. You can view recordings from previous webinars and conferences on our Resource Center or YouTube page.; For those who cannot attend the live webinar, all recorded sessions will be available on-demand shortly after the event and posted on our Resource Center or YouTube page. If you require any accommodation, such as closed captioning, or if you have any logistical questions about the webinar, please contact us at: grants_conference@nsf.gov ; We look forward to seeing you! Sincerely, The National Science Foundation

https://research.columbia.edu/nih-researcher-disclosure-requirements

Additional Information: NSF recently issued an announcement, Coming February 2022: Implementation of the New SAM UEI to Replace DUNS in NSF Systems. In summary, there is a government-wide initiative to phase out Dun & Bradstreet (DUNS) numbers, to be replaced with Unique Entity Identifier (UEI) numbers. These numbers are entity registration numbers required by the federal government in order to receive federal funds. Most electronic proposal submission systems request our DUNS numbers, either upon registering in that system, or on the cover page of a grant application. These systems will now require UEI numbers. Columbia already has UEI numbers for the Morningside and CUIMC campuses. This information can be obtained on our Institutional Information webpage.; NSF's announcement provides an overview of how their proposal systems are transitioning to accommodate the new UEI numbering system. While these changes do not directly impact Columbia because we already have UEI numbers, any proposed subrecipients in NSF grant applications will need to have either DUNS or UEI numbers if they don't already have them. Beginning February 28th, subrecipients need to have UEI numbers and be registered in NSF systems, or you will be unable to include them as subawardees in the budget when preparing a proposal.; Attached you will find a two-page guidance document to assist you when preparing an NSF proposal containing subrecipients.; The second important item related to this is we have updated our outbound and inbound Subawards Face Pages to include the UEI numbers, with additional minor revisions. Please begin using these forms anytime you propose subrecipients, regardless of sponsor. These updated forms can be found on our Internal Forms webpage, or you can access the following webpages containing the updated forms with more specific instructions about subawards: Subawards - Proposal Preparation (Columbia as Prime Recipient); Inbound Subawards (Columbia as Subrecipient); If you have questions concerning the attached guidance document, you can contact me.; If you have IT system-related questions regarding NSF's transition to the SAM UEI, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov;
Questions concerning grants policies and required subaward forms for proposals should be directed to your SPA Project Officer.

*Important* Are you ready for the new NIH Biosketch and Other Support requirements, effective January 25, 2022? For resources and FAQs to assist you, please see NIH Researcher Disclosure Requirements; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia Research; Sponsored Projects Administration; Columbia University & Columbia University Irving Medical Center; Email: stephanie.scott@columbia.edu; Website: https://spa.columbia.edu/; [02/28/2022 Reminder/Update] I just wanted to send a reminder that beginning 02/28/2022, subrecipients need to have UEI numbers and be registered in NSF systems, or you will be unable to include them as subawardees in the budget when preparing an NSF proposal. See original announcement below, and attached guidance document; NSF released another press release today to remind the research community of this. You may see emails from them. Our attached guidance document summarizes what you need to know and what to do.; If you have IT system-related questions regarding NSF's transition to the SAM UEI, please contact the NSF Help Desk at 1-800-381-1532 or rgov@nsf.gov; Questions concerning grants policies and required subaward forms for proposals should be directed to your SPA Project Officer. [brought to our attention by Stephanie Scott]

**[NTW] [NATIONAL SCIENCE FOUNDATION]**

**Issuance of NSF Proposal and Award Policies and Procedures Guide (NSF 22-1)**

**Sponsor:** National Science Foundation

**Deadline(s):** 10/04/2021 (Effective Date)

**Contact:** If you have any questions regarding these changes, please contact the DIAS/Policy Office at policy@nsf.gov.; Regards, Jean Feldman; Head, Policy Office; Division of Institution and Award Support; Office of Budget, Finance & Award Management; CU SPA Project Officer

**Link(s):** https://www.nsf.gov/pubs/policydocs/pappg22_1/nsf22_1.pdf
https://www.nsf.gov/pubs/policydocs/pappg22_1/sigchanges.jsp
https://nsfpolicyoutreach.com/get-notified/

**Additional Information:** Issuance of NSF Proposal and Award Policies and Procedures Guide (NSF 22-1); See below announcement from NSF. They have released the latest version of the NSF Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 22-1), effective for proposals submitted or due on or after October 4, 2021. While this version of the PAPPG becomes effective on October 4, 2021, in the interim, the guidelines contained in the current PAPPG (NSF 20-1) continue to apply.; A listing of significant changes can be found here, and a condensed list of major changes are below. NSF will be hosting a webinar to review the significant changes, date to be determined. However, you can sign up here to be notified immediately when registration for the webinar is open. I’ll also provide that information once it becomes available.; One thing I’d like to highlight is that NSF will be increasing the page limit for the biographical sketch from two to three pages, effective for proposals submitted or due on or after October 4, 2021. Stay tuned for more information about that.; As always, feel free to contact your SPA Project Officer should you have any questions, and we’ll keep you posted of new developments.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu/; Dear Colleagues; We are pleased to announce that a revised version of the NSF Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 22-1) has been issued.; The new PAPPG will be effective for proposals submitted or due on or after October 4, 2021. Significant changes include: A new section covering requests for reasonable and accessibility accommodations regarding the proposal process or requests for accessibility accommodations to access NSF’s electronic systems, websites and other digital content; A table entitled, NSF Pre-award and Post-award Disclosures Relating to the Biographical Sketch and Current and Pending Support. This table identifies where...
pre- and post-award current and pending support disclosure information must be provided. Proposers and awardees may begin using this table immediately; Increasing the page limit for the biographical sketch from two to three pages; Updates to the current and pending support section of NSF proposals to require that information on objectives and overlap with other projects is provided to help NSF and reviewers assess overlap/duplication; Adding planning proposals and Career-Life Balance supplemental funding requests as new proposal types; Updates to travel proposals will require that AORs certify that prior to the proposer’s participation in the meeting for which NSF travel support is being requested, the proposer will assure that the meeting organizer has a written policy or code-of-conduct addressing harassment.; You are encouraged to review the by-chapter summary of changes provided in the Introduction section of the PAPPG.; NSF plans to conduct a webinar covering these changes. Visit the NSF policy outreach website to sign up for notifications about this and other outreach events.; While this version of the PAPPG becomes effective on October 4, 2021, in the interim, the guidelines contained in the current PAPPG (NSF 20-1) continue to apply.; If you have any questions regarding these changes, please contact the DIAS/Policy Office at policy@nsf.gov.; Regards, Jean Feldman; Head, Policy Office; Division of Institution and Award Support; Office of Budget, Finance & Award Management

Statement by NSF Director Sethuraman Panchanathan on the President’s FY22 Budget Request

Sponsor: NSF
Deadline(s): 05/28/2021 (Release Date)
Contact: https://www.nsf.gov/help/contact.jsp
https://www.whitehouse.gov/omb/budget/
https://beta.nsf.gov/budget

Additional Information: May 28, 2021; Statement by NSF Director Sethuraman Panchanathan on the President’s FY22 Budget Request; President Proposes Crucial Investments to Advance the Frontiers of U.S. Science and Technology; The Biden-Harris Administration today submitted to Congress the President’s Budget for fiscal year 2022. As the Administration continues to make progress defeating the pandemic and getting our economy back on track, the Budget makes historic investments that will help the country build back better and lay the foundation for shared growth and prosperity for decades to come.; “This request will bolster the U.S. economy and our leadership in critical and emerging areas of research and technological advancements, which are essential to our long-term economic and national security,” said NSF Director Sethuraman Panchanathan. “NSF’s mission is unique in supporting research across all fields of science, technology, engineering, and mathematics, and all levels of STEM education. Seven decades of experience building the necessary partnerships between federal, state, and local government, academia, and industry have produced remarkable results for the country. With this budget, we can rapidly scale our investments and build even stronger bridges between discovery, innovation, and commercialization.”; The Budget includes more details on what is proposed in the two historic plans the President has already put forward — the Americans Jobs Plan and the American Families Plan – and reinvests in education, research, public health, and other foundations of our country’s strength. At the U.S. National Science Foundation, the Budget would: Enhance Fundamental Research and Development. $9.43 billion, an increase of $1.55 billion above 2021 enacted level will support research across the spectrum of science, engineering and technology. This includes biological sciences; computer and information sciences; engineering; geosciences; math and physical sciences; social, behavioral, and economic sciences; and education. With this additional funding, NSF will continue to be the champion of basic and fundamental research and will strengthen it at speed and scale.; Strengthen U.S. Leadership in Emerging Technologies. Includes the establishment of a new directorate for technology, innovation and partnerships within NSF to help translate research into practical applications. The directorate will work with programs across NSF and with other federal and
non-federal entities to expedite technology development in emerging areas that are crucial for the United States’ technological leadership.; Advances Equity in Science and Engineering. +$100 million, an increase of about 50 percent, in funding for programs that aim to increase participation in science and engineering of individuals from racial and ethnic groups underrepresented in these fields. Funding will support curriculum design, research on successful recruitment and retention methods, development of outreach or mentorship programs, fellowships, and building science and engineering research and education capacity at historically black colleges and universities, and other minority-serving institutions.; Advances Climate Science and Sustainability Research. $1.2 billion for climate and clean energy-related research will fund a broad portfolio of research related to climate science and clean energy, including research on atmospheric composition, water and carbon cycles, modeling climate systems, renewable energy technologies, materials sciences, and social, behavioral, and economic research on human responses to climate change.; Continues Construction of Forefront Research Infrastructure. Invests in the continued construction of major NSF research facilities, including long-term upgrades of NSF’s major Antarctic infrastructure. It also supports construction of the Vera C. Rubin Observatory to enable astronomy research. In addition, the budget request seeks funding for the construction and procurement of smaller research facilities and equipment across the nation.; Enacting the Budget policies into law this year would strengthen our Nation’s economy and lay the foundation for shared prosperity, while also improving our Nation’s long-term fiscal health.; For more information on the President’s FY22 Budget, please visit: https://www.whitehouse.gov/omb/budget/; For more information on the NSF budget, please visit: https://beta.nsf.gov/budget ; - NSF- [brought to our attention by Stephanie Scott / SPA]

Dyadic Interpersonal Processes and Biopsychosocial Outcomes (R01 Clinical Trials Not Allowed)

**Sponsor:** NIH Basic Behavioral and Social Science Opportunity Network; National Cancer Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Dental and Craniofacial Research; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Behavioral and Social Sciences Research; Office of Research on Women's Health
**Deadline(s):** 02/05/2023; 05/08/2023 (Expiration)

**Contact:** William Elwood, PhD; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-402-0116; Email: william.elwood@nih.gov

**Additional Information:** This FOA invites basic and/or methodological research projects that seek to illuminate or measure independent and interdependent health-related effects within dyads. For the purpose of this FOA, a **dyad** is a unit of two individuals whose interactions and influences on one another are nested within larger social contexts and networks. Both animal and human subjects research projects are welcome. Types of projects submitted under this FOA include but are not limited to, observational studies involving humans, or existing/synthesized datasets studies. Researchers proposing basic science experimental studies involving human participants (i.e., experimentally manipulate independent variables) should consider the companion FOA **PAR-21-280** "Dyadic Interpersonal Processes and Biopsychosocial Outcomes (R01 Basic Experimental Studies with Humans)."

**[NTW] [REENTRY]**

**Notice of Special Interest (NOSI): Research Supplements to Promote Reentry and Reintegration into Health-Related Research Careers” (NOT-OD-21-134)**

**Sponsor:** NIH Office of Research on Women's Health

**Deadline(s):** 08/26/2021 (First Available Due Date); 10/07/2023 (Expiration)
**Additional Information:** NIH NOSI supports returning biomedical researchers; NIH Office of Research on Women’s Health; NIH NOSI Supports Returning Biomedical Researchers; NIH has announced a new supplements program for researchers returning to biomedical careers after a qualifying absence. Under “Notice of Special Interest (NOSI): Research Supplements to Promote Reentry and Reintegration into Health-Related Research Careers” (NOT-OD-21-134), successful applicants will be able to participate in full- or part-time mentored research experiences through existing NIH research grants. Eligible for these reentry supplements are individuals whose research careers have been interrupted for at least 6 months because of family responsibilities or other qualifying circumstances. The reintegration supplements will enable individuals to find supportive scientific environments after departure from an unsafe or discriminatory environment resulting from unlawful harassment.; Most candidates for the reentry supplements will have a doctoral degree or equivalent; however, some awarding NIH Institutes and Centers may enable predoctoral students, including those enrolled in dual-degree programs, to apply. Postdoctoral and predoctoral students are eligible to apply for reintegration supplements to allow them to transition to a safe, supportive research environment and complete their graduate degrees.; Click here for more information, including detailed eligibility requirements and staff contacts. The first available due date for submissions is August 26, 2021, and the supplements program is set to expire on October 7, 2023.; Related Announcements: PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional)

**[NTW] [CANCER]**

**Integrating Biospecimen Science Approaches into Clinical Assay Development (U01 Clinical Trial Not Allowed)**

**Sponsor:** National Institutes of Health NIH; National Cancer Institute NCI  
**Deadline(s):** 06/07/2024; 09/13/2024; 09/14/2024 (Expiration)  
**Contact:** Scientific/Research Contact(s); Lokesh Agrawal, PhD; National Cancer Institute (NCI); Telephone:240-276-5718; Email: lokesh.agrawal@nih.gov  
**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-134.html

**Additional Information:** New Funding Opportunity Announcement: Integrating Biospecimen Science Approaches into Clinical Assay Development; NIH National Cancer Institute www.cancer.gov ; Announcement: Integrating Biospecimen Science Approaches into Clinical Assay Development – PAR 22-049 (Re-issue of PAR 18-947); Includes small biopsies (core biopsies, small excision samples), blood utilized for liquid biopsies, tissue swabs, tissue secretions, pleural and esophageal aspirates, feces, or bodily fluids like sweat, urine, CSF, breast milk and saliva.; This FOA seeks to: Support research to investigate and mitigate challenges facing clinical assay development due to biopsy specimen preanalytical variability in liquid biopsies and tissue biopsies ; Improve understanding of biopsy collection, processing, and storage procedures that may affect analytical performance for current and emerging clinical biomarkers; Serve to facilitate the development of clinical biomarker assays through evidence-based standardization of biopsy handling; Next Application Due Date: January 11th, 2022; Future Application Dates: June 7th, 2022, September 13th, 2022; For more information, please contact the program directors: Lokesh Agrawal, Ph.D.; Phone: (240) 276-5718; Email: lokesh.agrawal@nih.gov; Abhi Rao, PhD; Phone: (240) 276-5715; Email: abhi.rao@nih.gov ; Visit us on the web at http://biospecimens.cancer.gov
NOT-CA-23-004: Notice of Special Interest (NOSI): Utilization of Cohorts and Prospective Study Designs for Liquid Biopsy Assay Validation for Early Detection of Cancers

**Sponsor:** National Cancer Institute

**Deadline(s):** 01/05/2023 (First Available Due Date); 07/02/2025 (Expiration Date)

**Contact:** Please direct all inquiries to the Scientific/Research, Peer Review, and Financial/Grants Management contacts in Section VII of the listed funding opportunity announcements.; Scientific/Research Contact(s): Matthew Young, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-5846; Email: matthew.young@nih.gov

[NTW] [CLINICAL TRIALS]
NOT-OD-22-205: Continued Extension of Certain Flexibilities for Prospective Basic Experimental Studies With Human Participants

**Sponsor:** Office of The Director, National Institutes of Health OD  
**Deadline(s):** 08/30/2022 (Release Date)  
**Contact:** NIH Grants Information; Email: grantsinfo@od.nih.gov  

**Additional Information:** Continued Extension of Certain Flexibilities for Prospective Basic Experimental Studies With Human Participants; **Notice Number:** NOT-OD-22-205; **Purpose:** This notice replaces NOT-OD-21-088. The purpose of this notice is to further extend interim policy flexibilities regarding registration and results reporting for a subset of NIH-funded research whose primary purpose is basic experimental studies with humans (BESH) submitted in response to BESH Funding Opportunity Announcements (FOAs). These studies, referred to in NOT-OD-18-212 as “prospective basic science studies involving human participants,” meet both the NIH definition of a “clinical trial” and also the definition of basic research; This additional extension will last through September 24, 2024. During this extension period, NIH will continue to work with the BESH community to achieve effective and efficient dissemination of information that is useful to other researchers and members of the public, while also maintaining the NIH commitment to stewardship and increasing transparency.

[NTW] [CLINICAL TRIALS]

COVID-19 Campus Safety for Employees and Students

**Sponsor:** CUMC  
**Deadline(s):** NA  
**Contact:** If you have further questions or requests after reading this guide, please email cumchr@cumc.columbia.edu or your Senior Human Resources Business Partner. If you have any COVID-19 specific questions, please email covid19questions@cumc.columbia.edu.  
**Additional Information:** CUIMC is focused on the safety of our health care providers, our staff, students and the patients we serve. In charting a path forward, CUIMC is committed to continuing our missions of providing the finest clinical care, cutting edge research, and educating the next generation of leaders in science and medicine.

[NTW] [COVID-19]

Notice of Special Interest (NOSI) - Emerging and Existing Issues of Coronavirus Disease 2019 (COVID-19) Research Related to the Health and Well-Being of Women, Children and Individuals with Physical and/or Intellectual Disabilities

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Environmental Health Sciences; National Institute of Neurological Disorders and Stroke; Office of Behavioral and Social Sciences Research; Office of Research on Women’s Health  
**Deadline(s):** 06/05/2022 (First Available Due Date); 06/06/2024 (Expiration Date)  
**Contact:** Scientific/Research Contact(s); Robert Tamburro, MD, MSc; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-480-2619; Email: robert.tamburro@nih.gov  
Additional Information: NOSI: Emerging and Existing Issues of Coronavirus Disease 2019 (COVID-19) Research Related to the Health and Well-Being of Women, Children and Individuals with Physical and/or Intellectual Disabilities; **FOA Number:** NOT-HD-22-002; **Key Dates:** First Available Due Date: June 5, 2022; Expiration Date: June 6, 2024; **Purpose:** The purpose of this funding opportunity is to provide an avenue for researchers to pursue funding to conduct research addressing these and other emerging and existing COVID-related issues among pregnant and lactating people, infants, children and adolescents, and individuals with physical and/or intellectual disabilities. The goal of this NOSI is to not replace or compete with the various COVID-related funding opportunities currently available. Instead, the purpose is to complement them by offering a funding opportunity to address key issues in a most timely manner not currently covered by available COVID-related funding announcements among these populations. Research projects addressing issues that are the focus of currently available or future COVID funding opportunity announcements will be encouraged to submit to those announcements. Also, applicants responding to this NOSI are strongly encouraged to describe plans for the rapid sharing of data and results as well as innovative data analytics approaches. The sharing of COVID-related data and resources and effective communication of results are a high priority of the NIH.; view NOT-HD-22-002

**Additional Information:** NIH releases NOSI on COVID-19’s impact on underserved and vulnerable populations; View it as a Web page. NIH NOSI to Support Studies on COVID-19’s Impact on Underserved and Vulnerable Populations; ORWH has announced its participation in Notice of Special Interest (NOSI): Social, Behavioral, and Economic Impact of COVID-19 in Underserved and Vulnerable Populations ([NOT-MH-21-330](https://grants.nih.gov/grants/guide/notice-files/NOT-MH-21-330.html)). The COVID-19 pandemic has demonstrated that prevention and mitigation strategies for the pandemic are uneven—for a range of reasons, including a lack of trust in health systems, economic circumstances, and challenges in sustaining long-term adherence, especially for underserved and vulnerable populations. By increasing our understanding of the multifaceted effects of the COVID-19 pandemic and public health interventions that mitigate risk and promote resilience in high-risk populations, we can improve the long-term response to the pandemic and prepare more effectively for future public health emergencies.; To strengthen the understanding and response to social, behavioral, and economic effects of the COVID-19 pandemic, NIH is encouraging the submission of applications that will: Address the roles and effects of interventions, particularly those under the umbrella of digital health, as well as community-engaged and multilevel interventions in health care settings to address access, reach, delivery, engagement, effectiveness, scalability, and sustainability of services that are utilized during and following the pandemic; Encourage the leveraging of existing large-scale data sources.
with broad population coverage to improve prediction of various mitigation efforts (including vaccinations, masking, and physical distancing) on transmission reduction and on social and economic effects and assess the downstream health and health care access effects, with an emphasis on underserved and vulnerable populations; The first submission date is October 5, 2021, and subsequent receipt dates will extend through September 8, 2024.

[NTW] [NIH ANNOUNCEMENTS]
Updated Process for Submission of Federal Financial Reports for Closed Payment Management System Subaccounts

**Sponsor:** National Institutes of Health

**Deadline(s):** 06/01/2021 (Release Date)

**Contact:** Please direct all system policy inquiries to: Systems Policy Branch; Office of Policy for Extramural Research Administration; OPERAsystemspolicy@nih.gov; Please direct inquiries for NIH Office of Financial Management (OFM) to: Don Geiger, OFM-GAB Branch Chief; don.geiger@nih.gov; (301) 402-5130

**Additional Information:** The purpose of this Notice is to provide instructions to NIH recipients who need to submit an SF-425 Federal Financial Report (FFR) for a closed subaccount (e.g. “C” status) in the HHS Payment Management System (PMS). The subaccount corresponds to the award document number in Section I of the Notice of Award.

[NTW] [LIMITED COMPETITION]
Limited Competition: Promoting a Basic Understanding of Chemical Threats to Skin (R34 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Allergy and Infectious Diseases

**Deadline(s):** 02/16/2024; 06/16/2024; 09/08/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Hung Tseng PhD; National Institute of Arthritis Musculoskeletal and Skin Diseases (NIAMS); Telephone: 301-496-0810; Email: tsengh@mail.nih.gov

[NTW] [HEALTHCARE ASSOCIATED INFECTIONS (HAI)]
Large Health Services Research Demonstration and Dissemination Projects for Prevention of Healthcare-Associated Infections (R18)

**Sponsor:** Agency for Healthcare Research and Quality

**Deadline(s):** Standard dates; 05/27/2025 (Expiration)

**Contact:** James Cleeman, MD; Division of Healthcare-Associated Infections; Center for Quality Improvement and Patient Safety; Agency for Healthcare Research and Quality; Telephone: (301) 427-1330; E-mail: james.cleeman@ahrq.hhs.gov

[NTW] [HEALTHCARE ASSOCIATED INFECTIONS]
Large Research Projects for Prevention of Healthcare-Associated Infections (R01)

**Sponsor:** Agency for Healthcare Research and Quality

**Deadline(s):** Standard dates; 05/27/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); James Cleeman, MD; Division of Healthcare-Associated Infections; Center for Quality Improvement and Patient Safety; Agency for Healthcare Research and Quality; Telephone: (301) 427-1330; Email: james.cleeman@ahrq.hhs.gov

**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PA-21-265.html

[NTW] [DIVERSITY]
Short-Term Research Education Program to Enhance Diversity in Health-Related Research (R25 Clinical Trial Not Allowed)

**Sponsor:** National Heart, Lung, and Blood Institute

**Deadline(s):** 02/23/2023; 08/09/2023; 02/23/2024; 02/24/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Paul Cotton, Ph.D., RDN; National Heart, Lung, and Blood Institute (NHLBI); Telephone: 301-435-0202; Email: paul.cotton@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/rfa-files/RFA-HL-22-012.html

[NTW] [DIVERSITY]
Maintaining and Enriching Environmental Epidemiology Cohorts to Support Scientific and Workforce Diversity (U24 Clinical Trial Not Allowed)

**Sponsor:** National Institutes of Health NIH; Components of Participating Organizations; National Institute of Environmental Health Sciences NIEHS

**Deadline(s):** 02/13/2024; 02/14/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Melissa M. Smarr, PhD; National Institute of Environmental Health Sciences (NIEHS); Telephone: 984-287-4507; Email: melissa.smarr@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/rfa-files/RFA-ES-22-001.html

**Additional Information:** RFA-ES-22-001: Maintaining and Enriching Environmental Epidemiology Cohorts to Support Scientific and Workforce Diversity has been published to the guide. The purpose of this Funding Opportunity Announcement is to solicit applications that propose to: (1) support the maintenance and resource infrastructure enrichment of existing Environmental Epidemiology Cohorts (EECs) and to (2) enrich data management and data sharing activities to promote widespread data sharing and scientific collaborations, while strengthening scientific and workforce diversity in environmental health.

[NTW] [DIVERSITY]
Reminder: Notice of NIH’s Encouragement of Applications Supporting Individuals from Underrepresented Ethnic and Racial Groups as well as Individuals with Disabilities

**Sponsor:** National Institutes of Health

**Deadline(s):** 10/25/2021 (Release Date)
**Contact:** Please direct all inquiries to: Division of Biomedical Research Workforce; Office of Extramural Research; Website: https://researchtraining.nih.gov; Email: NIHTrain@mail.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-22-019.html

**Additional Information:** NOT-OD-20-031: Notice of NIH’s Interest in Diversity

Additional Information: Thank you all for attending today's Forum. The slides are available for you to view and download here. If you have any trouble downloading them, please email me directly (sometimes there are browser incompatibility issues). These slides contain many links to registrations to upcoming events and trainings, including: Tomorrow's NIH Loan Repayment Program webinar; Next week's NIH Other Support and Biosketch town hall; Next week's training on the new Request for Outbound Subaward form, targeted for administrators; And many more. Please view these slides and feel free to register for anything applicable to you. I will still be sending separate emails announcing some of these upcoming events.; As always, please feel free to reach out to your SPA Project Officer should you have any questions.; During yesterday's Research Administration Forum, I provided an overview of transitioning to two-factor authentication (2FA) using Login.gov and/or InCommon Federated accounts (your Columbia UNI and password) in order to be able to access the NIH eRA Commons and other NIH modules. NIH is requiring everyone to transition to 2FA, but is taking a phased approach.; I recorded this segment of the Forum. You can watch the video here, and follow along with yesterday's slide deck, see slides 61-76. I cover: Who needs to transition; When you need to transition; The two different options [Login.gov vs InCommon Federated]; Essential tips for doing it correctly; Where to go for help; NIH also has their own videos and resources, but I do think listening to me explain it first will assist you in making decisions faster.; NIH Resources: NIH videos on transitioning to Login.gov; Overview of NIH eRA and 2FA; NIH FAQs on both Login.gov and InCommon Federated; If after watching my video and reading NIH's FAQs you feel you are in a unique situation then feel free to contact me.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu/

**[NTW] [ENVIRONMENTAL/BIG DATA]**

The HHEAR Data Center’s public data repository has recently been updated
Friday Newsletter 02/17/2023

**Sponsor:** HHEAR; Human Health Exposure Analysis Resource; **Sponsored by:** National Institute of Environmental Health Sciences (NIEHS) | New York State Foundation for Science, Technology and Innovation (NYSTAR)

**Deadline(s):** NA

**Contact:** HHEARsupport@mssm.edu

**Link(s):** https://hheardatacenter.mssm.edu/; https://hheardatacenter.mssm.edu/Account/Login

**Additional Information:** HHEAR public data available! The HHEAR Data Center’s public data repository has recently been updated. To benefit the broader research community, the HHEAR Data Center hosts a public data repository that contains both de-identified original study and de-identified harmonized data from all studies accepted into the CHEAR and HHEAR program that have passed the embargo period. The goal of this repository is to promote the secondary analysis of pooled environmental health data by providing data in a manner that is findable, accessible, interoperable and reusable. The repository is searchable by a number of features and users are able to compile and download customized datasets from CHEAR and HHEAR research studies. The repository is updated periodically as studies come off embargo. To access both types of data, go to HHEAR Data Center website; Thank you, The HHEAR Coordinating Center; [update 01/2023] Publicly Available HHEAR Data; The HHEAR Data Center’s public data repository has recently been updated. The repository contains de-identified study-specific epidemiologic and laboratory analysis data from HHEAR projects that have passed the embargo period. The HHEAR data repository also contains harmonized study data that can be combined for multiple HHEAR projects. Users are able to search and download customized datasets from these research studies. To access the data in the repository, go to the HHEAR Data Center Portal, select the login link on the top menu and follow the instructions to register or log in with your HHEAR username and password. Once logged in, from the top menu, select Studies to download study-specific files, or select Harmonized Data to create a custom dataset. The repository is updated periodically as projects pass embargo and complete the harmonization process. If you have any questions about using the HHEAR data repository, contact hhearsupport@mssm.edu.

**[NTW] [ENVIRONMENTAL]**

The Human Health Exposure Analysis Resource (HHEAR) Coordinating Center Round 13 Deadline 03/17/2023; The application and review process; Post-approval activities; HHEAR policies and procedures

**Sponsor:** https://hhearprogram.org

**Deadline(s):** 03/17/2023 (Round 13 Application Deadline)

**Contact:** Contact | Human Health Exposure Analysis Resource (HHEAR) Program (hhearprogram.org); https://hhearprogram.org/contact

**Link(s):** https://hhearprogram.org/hhear-application-submission-and-review-schedule

https://hhearprogram.org/how-apply

https://hhearprogram.org/post-approval-process

**Additional Information:** HHEAR The Human Health Exposure Analysis Resource (HHEAR) Coordinating Center is excited to share the latest HHEAR news; The HHEAR Coordinating Center; HHEARHelp@Westat.com; ANNOUNCEMENTS; Final HHEAR Round 13 application deadline Friday, March 17, 2023; The initial application submission date for Round 13, the final round of HHEAR, is fast approaching! If you are interested in applying for HHEAR services (expert consultation, targeted and untargeted laboratory analyses, and data and statistical analysis), your Initial Application must be received by March 17. Find out more about the application schedule; **Round 13 will be the final round for HHEAR**. Any delays in completing proposal submission, review, or post-approval activities will increase a project’s risk of not being completed, as HHEAR may not have time to analyze the samples. Find out more about: The application and review process; Post-approval activities; HHEAR policies and procedures; Please share this
announcement with anyone else who might be interested in HHEAR, and don’t hesitate to contact us with questions about the application process. We can also schedule a pre-submission consultation with HHEAR Lab Hub and Data Center scientists who can answer questions about the suitability of your proposed study design, exposure analyses, and biological and environmental samples.

**HHEAR; Human Health Exposure Analysis Resource Webinar Series**

**Sponsor:** HHEAR; Human Health Exposure Analysis Resource  
**Deadline(s):** 01/13/2023 (First Event, others to be announced)  
**Contact:** Contact | Human Health Exposure Analysis Resource (HHEAR) Program (hhearprogram.org) ; https://hhearprogram.org/contact  
**Link(s):** https://hhearprogram.org/hhear-exposomics-webinar-series  

**Additional Information:** HHEAR Exposomics Webinar: Computational Workflows for Untargeted Exposomics; HHEAR is hosting a series of webinars on several topics important to exposomics, a rapidly evolving approach in the contemporary biomedical sciences, which involves characterizing the totality of exposures and their effects on our health since conception.; The seventh webinar in this series will take place Friday, January 13, at 2 p.m. EST. [this event will have occurred when the newsletter is distributed; the link provided lists subsequent events from this program] Oliver Fiehn, Ph.D., of University of California, Davis, and Xiuxia Du, Ph.D., of University of North Carolina at Charlotte, will discuss advances in computational resources for untargeted exposomics.; Computational workflows are key to understanding untargeted exposomics data. Drs. Fiehn and Du will discuss how computational workflows are utilized for extracting the tens of thousands of features in untargeted exposomics data, identifying and annotating the features, and predicting what compounds could have produced those features that do not have confident matches with existing in-house and publicly available compound databases.

**[NTW] [ENVIRONMENTAL HEALTH SCIENCES]**

**NOT-ES-23-005: Request for Information (RFI): Input for developing the 2024-2028 National Institute of Environmental Health Sciences Strategic Plan (nih.gov)**

**Sponsor:** National Institute of Environmental Health Sciences NIEHS  
**Deadline(s):** 04/20/2023 (Response Date)  
**Contact:** Sheila Newton, PhD; National Institute of Environmental Health Sciences (NIEHS); Email: ehs-strategic-plan@mail.nih.gov  
**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-ES-23-005.html  

**Additional Information:** Input for developing the 2024-2028 National Institute of Environmental Health Sciences Strategic Plan; Dear all, NIEHS released a Request for Information (RFI) to solicit input on NIEHS Strategic Planning for 2024-2028.; Information Requested: This RFI requests general comments on the direction of environmental health sciences as well as comments specific to the individual goals under the three themes outlined in the current Strategic Plan. Specifically, you are asked to suggest: Goals for Advancing Environmental Health Sciences (EHS); Goals for Promoting Translation--Data to knowledge to action; Goals for Enhancing EHS through stewardship and support.; **Response Date:** April 20, 2023; For details on how to submit a response, please visit the NIH website; NOT-ES-23-005: Request for Information (RFI): Input for developing the 2024-2028 National Institute of Environmental Health Sciences Strategic Plan; Best regards, Yuxia; [brought to our attention by] Yuxia Cui, PhD; Exposure, Response, and Technology Branch; Division of Extramural Research and Training; National Institute of Environmental Health Sciences, NIH; Phone: (984) 287-3251 ; Email: yuxia.cui@nih.gov
[NTW] [ENVIRONMENTAL]  
NOT-ES-23-002: Notice of Special Interest (NOSI): Understanding Exposure and Health Effects of Micro and/or Nanoplastics  
**Sponsor:** National Institute of Environmental Health Sciences  
**Deadline(s):** 02/05/2023 (First Available Due Date); 11/17/2027 (Expiration Date)  
**Contact:** Please direct all inquiries to the Scientific/Research, Peer Review, and Financial/Grants Management contacts in Section VII of the listed funding opportunity announcements.; Scientific/Research Contact(s); Lingamanaidu V. Ravichandran, Ph.D; National Institute of Environmental Health Sciences (NIEHS); Telephone: 984-287-3309; Email: lingamanaidu.ravichandran@nih.gov  
**Additional Information:** Related Announcements; PA-20-185 - Research Project Grant (Parent R01 Clinical Trial Not Allowed); PA-20-195 - NIH Exploratory/Developmental Research Grant Program (Parent R21 Clinical Trial Not Allowed); PA-20-196 - NIH Exploratory/Developmental Research Grant Program (Parent R21 Basic Experimental Studies with Humans Required)  

[NTW] [ENVIRONMENTAL HEALTH]  
NOT-ES-23-003: Notice of Intent to Publish a Funding Opportunity Announcement for Reporting Back Environmental Health and Non-Genomic Research Results  
**Sponsor:** NIH; National Institute of Environmental Health Sciences NIEHS; Office of The Director, National Institutes of Health OD  
**Deadline(s):** 06/05/2023 (First Estimated Application Due Date)  
**Contact:** Liam O’Fallon; National Institute of Environmental Health Sciences (NIEHS); 919-802-6523; ofallon@niehs.nih.gov  
**Additional Information:** The National Institute of Environmental Health Sciences (NIEHS), in partnership with the NIH Office of Science Policy (OSP) and the All of Us Research Program, intends to publish a Funding Opportunity Announcement (FOA) for applications that identify, develop, and test strategies for reporting back environmental health and non-genomic research results to study participants and/or key partners.

[NTW] [CLINICAL TRIALS]
NIA Announces New Policy and Procedures for the Reporting of Human Subjects Enrollment Data for NIA Clinical Research Trials/Studies
Sponsor: National Institute on Aging
**Deadline(s):** 06/17/2021 (Release Date)
**Contact:** Holly Massett, Ph.D.; Senior Advisor, Clinical Research Recruitment & Engagement; Division of Extramural Activities; National Institute on Aging; Email: NIAclinicalresearch@nia.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-AG-21-029.html
**Additional Information:** The purpose of this Notice is to inform the research community of the National Institute on Aging (NIA) new policy and procedures for reporting enrollment data for clinical research trials/studies funded through an NIA funding mechanism (including grants, contracts, and cooperative agreements). This Notice details the new requirements, expectations of NIA-funded investigators, and impetus for the policy change.

[NTW] [P GRANTS]
NINDS Program Project Grant (P01 Clinical Trial Optional)
Sponsor: National Institute of Neurological Disorders and Stroke
**Deadline(s):** 05/25/2021 (First Application Due Date); 01/25/2024; 05/08/2024 (Expiration)
**Contact:** Scientific/Research Contact(s); David Owens, Ph.D.; National Institute of Neurological Disorders and Stroke (NINDS); Telephone: 301-496-9248; Email: do47h@nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-181.html

[NTW] [P-AWARDS (PROGRAM PROJECTS)]
PAR-22-225: NIAID Investigator Initiated Program Project Applications (P01 Clinical Trial Not Allowed)
Sponsor: National Institute of Allergy and Infectious Diseases
**Deadline(s):** 06/08/2023; 09/07/2025; 09/08/2025 (Expiration)
**Contact:** Scientific / Research Contact(s); For the Division of AIDS (DAIDS): Martin Gutierrez, Ph.D.; National Institute of Allergy and Infectious Diseases (NIAID); Telephone: 240-292-4844; Email: mgtierrez@niaid.nih.gov
Additional Information: This Funding Opportunity Announcement (FOA) invites submission of investigator-initiated Program Project (P01) applications. The proposed programs should address scientific areas relevant to the NIAID mission including: biology and pathogenesis of infectious microbes, including HIV; host-microbe interactions; mechanisms regulating immune system development and function across the lifespan, and in response to infectious pathogens; immune dysfunction resulting in allergy, asthma, autoimmunity, immunodeficiency, or transplant rejection; and translational research to develop vaccines, therapeutics, and diagnostics to prevent and treat infectious and immune-mediated diseases. Each P01 application submitted to this FOA must include at least two related, synergistic research projects that share a common central theme, focus, and/or overall objective; and an administrative core. A P01 may include scientific cores, if needed for the proposed research.

[NTW] [SUMMER RESEARCH]
Summer Research Education Experience Program (R25 Clinical Trial Not Allowed)
Sponsor: National Institute of Neurological Disorders and Stroke; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; National Institute on Drug Abuse; National Institute of Environmental Health Sciences
Deadline(s): 03/17/2023; 03/19/2024; 05/08/2024 (Expiration)
Contact: Laura E. Kwako, Ph.D.; National Institute on Alcohol Abuse and Alcoholism (NIAAA); Telephone: 301-451-8507; Email: laura.kwako@nih.gov

[NTW] [CLINICIAN SCIENTISTS]
Research Experiences to Enhance Clinician-Scientists' Participation in NIDCDs Research (R25 Clinical Trial Not Allowed)
Sponsor: National Institute on Deafness and Other Communication Disorders
Deadline(s): 05/26/2023; 09/26/2023; 01/29/2024; 01/30/2024 (Expiration)
Contact: Scientific/Research Contact(s); Alberto L. Rivera-Rentas, Ph.D.; National Institute on Deafness and Other Communication Disorders (NIDCD); Telephone: 301-496-1804
Email: riverara@nidcd.nih.gov

[NTW] [LIMITED COMPETITION]
Limited Competition: Clinical and Translational Science Awards (CTSA) Consortium-Wide Centers: Resources for Rapid Demonstration and Dissemination (U24 Clinical Trials Not Allowed)
Sponsor: National Center for Advancing Translational Sciences
Deadline(s): 06/21/2023; 06/22/2023 (Expiration)
Contact: Scientific/Research Contact(s); Audie Atienza, PhD; National Center for Advancing Translational Sciences (NCATS); Telephone: 301-435-0198; Email: Audie.Atienza@nih.gov
[NTW] [PHYSICAL ACTIVITY]
Notice of Special Interest (NOSI): Developing and Testing Multilevel Physical Activity Interventions to Improve Health and Well-Being

Sponsor: Office of Disease Prevention; National Center for Complementary and Integrative Health; National Cancer Institute; National Institute on Aging; National Institute of Arthritis and Musculoskeletal and Skin Diseases; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Minority Health and Health Disparities; National Institute of Nursing Research; Office of Behavioral and Social Sciences Research; Office of Research on Women's Health

Deadline(s): 06/05/2021 (First Available Due Date); 02/16/2024 (Expiration)

Contact: Scientific/Research Contact(s): Bramaramba Kowtha MS, RDN, LDN; Office of Disease Prevention (ODP); Telephone: 301-435-8052; Email: bramaramba.kowtha@nih.gov

[NTW] [MICROBIOLOGY]
Identification and Characterization of Bioactive Microbial Metabolites for Advancing Research on Microbe-Diet-Host Interactions (R01 Clinical Trial Not Allowed)

Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases; National Cancer Institute; National Institute of Allergy and Infectious Diseases; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences

Deadline(s): 06/22/2023; 10/19/2023; 10/20/2023 (Expiration)

Contact: Scientific/Research Contact(s); Padma Maruvada; National Institute of Diabetes, and Digestive and Kidney Diseases (NIDDK); Telephone: 301-594-8884; Email: maruvadp@mail.nih.gov

[NTW] [PSYCHOLOGY]
Computational Approaches for Validating Dimensional Constructs of Relevance to Psychopathology (R01 Clinical Trial Optional)

Sponsor: National Institute of Mental Health

Deadline(s): 11/01/2023; 11/02/2023 (Expiration)

Contact: Scientific/Research Contact(s); Michele Ferrante, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-435-6782

Email: michele.ferrante@nih.gov

[NTW] [PSYCHOLOGY]
Computationally-Defined Behaviors in Psychiatry (R21 Clinical Trial Optional)
Sponsor: National Institute of Mental Health  
Deadline(s): 11/01/2023; 11/02/2023 (Expiration)  
Contact: Scientific/Research Contact(s); Siavash Vaziri, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-443-1576  
Email: siavash.vaziri@nih.gov

Herbert Irving Comprehensive Cancer Center; 2023 VELOCITY Cancer Research Awards; Deadline 02/17/2023  
Sponsor: HICCC; HOME (velocityride.org); https://www.velocityride.org/  
Deadline(s): 02/17/2023
Contact: For questions or additional information, please contact Dr. Sadiqa Quadri at skq1@cumc.columbia.edu

Link(s): Herbert Irving Comprehensive Cancer Center; 2023 VELOCITY Cancer Research Awards;
Request for Applications; The application deadline is Friday, February 17, 2023, 11:59 PM, EST; On behalf of the leadership of the Herbert Irving Comprehensive Cancer Center we are thrilled to announce the launch of a 2023 Velocity Cancer Research Pilot Award. The award will provide One year of funds of $100,000 to support the personnel and supplies. It is anticipated that up to four meritorious awards will be made, a total funding amount of $400,000, to commence in July 2023. Applications should be submitted via InfoReady Portal https://columbia.infoready4.com/#competitionDetail/1891434; Purpose and Research Focus; The Herbert Irving Comprehensive Cancer Center (HICCC) is seeking applications for the 2023 Velocity Cancer Research Award. This funding support investigators actively involved in cancer research and encourages others in the biomedical community to enter cancer research. One important aspect of this effort is the funding of Pilot/Feasibility Projects that have direct relevance for cancers with high incidence or mortality in the HICCC catchment area (see below for details); Velocity-Columbia's Ride to End Cancer funding’s focus is bi-directional translational research that drives basic, translational, clinical trials, clinical care, and population science, generating novel hypothesis-testing research questions. HICCC encourages research projects that address and accelerate progress in understanding and reducing cancer health disparities. HICCC is particularly interested in proposals that directly relate to the cancer burden in the HICCC catchment area, and reducing cancer health disparities in our catchment area. Catchment area relevant cancers include: head/neck, prostate/bladder/kidney, liver and bile duct, lung and bronchus, colon and rectum, pancreas, upper GI, brain and other nervous system cancers, lymphoma, leukemia, multiple myeloma, endometrial/ovarian/cervical, breast, melanoma and sarcoma. More information on catchment area relevant cancers can be found on the Community Outreach and Engagement (COE) Office website here; Fellows will be selected to lead teams consisting of one lead Principal Investigator and co-investigators and/or collaborators with complementary expertise. Interdisciplinary teams are strongly encouraged. At least one population science or community-based project will be awarded. Proposals must include a description of the interdisciplinary team. For example, combinations can include basic and clinical investigators who will use their combined expertise to design and implement the research project; Proposals for correlative studies leveraging existing clinical trials must define how the proposed research will generate novel hypotheses and how the findings will drive new research questions. Proposals addressing cancer health disparities by focusing on understanding how to reduce risk and mortality in cancers relevant to the HICCC catchment area will be prioritized; Eligibility: All faculty members of the Columbia University scientific community who meet the eligibility requirements below are invited to submit proposals; New and established investigators engaged in cancer or cancer-relevant research; Established investigators in other areas of biomedical research who wish to apply their expertise to a problem in cancer; Preference will be given to applications from early career investigators in all types of research (population, community, clinical, translational, basic). The lead faculty Principal Investigator must hold the position of assistant professor and above; Tenure track and non-tenure track faculty are eligible to serve as lead investigators; Co-investigators and collaborators can be faculty, associate research scientists, and instructors, but not postdoctoral fellows, graduate students, and technicians; Applicants can serve as PI/co-PI on only one proposal. Applicants can serve as a co-Investigator or collaborators on more than one proposal. Applicants can also serve as a PI/co-PI of one proposal and a co-I or collaborator on additional proposals; Past award recipients within the last 3 years are not eligible to apply; Purely basic proposals are not eligible; Participation by individuals from underrepresented groups is strongly encouraged; Special consideration will be given to disease teams or researchers who participated in Velocity-Columbia’s Ride to End Cancer. HICCC Senior Leadership is not eligible to apply. Senior leadership is defined as Associate Directors and Program Leaders. However, senior leadership may be consulted during the application preparation, but they should not be included as co-investigators or consultants on the application; For questions or additional information, please contact Dr. Sadiqa Quadri at skq1@cumc.columbia.edu
[NTW] [CANCER/LIMITED SUBMISSION/FOUNDATION FUNDING]

2023 Women Scientists Innovation Award for Cancer Research: V Scholar or Translational Award; Limited Submission Deadline 02/06/2023

Each invited institution may submit one nominee to apply for this RFA; The SOLE nominee may apply in either the V Scholar or Translational grant type

Sponsor: V Foundation

Deadline(s): 02/06/2023 (Internal Deadline); 02/15/2023 (Nomination Deadline); 03/16/2023 (Application Deadline)

Contact: Questions: contact Dr. Sadiqa Quadri at skq1@cumc.columbia.edu

Link(s): https://columbia.infready4.com/#competitionDetail/1893137

Additional Information: 2023 Women Scientists Innovation Award for Cancer Research: V Scholar or Translational Award.; Request for Applications; ; Herbert Irving Comprehensive Cancer Center leadership is seeking applications for the nominee of the Limited Submission: 2023 Women Scientists Innovation Award for Cancer Research: V Scholar or Translational Award. Click on the link below to view more information. Thank you!; Internal Submission Deadline: Monday, February 6, 2023; Cycle: 2023; Discipline/Subject Area: Adult Cancer Research; Funding Available: $800000; GRANT SPECIFICS: V Scholar: A three-year, $600,000 grant, paid in annual installments. No indirect costs allowed. Translational: A four-year, $800,000 grant, paid in annual installments. Indirect costs up to 10% allowed (not to exceed $80,000 within the award).; PURPOSE OF AWARD: The pandemic has been a setback for the careers of researchers, particularly women. Sustaining the careers of women in research and preventing the loss of women from academic careers focused on cancer is paramount to accomplishing the V Foundation’s mission. To help level the playing field for women in cancer research, we propose the V Foundation’s “Women Scientists Innovation Award for Cancer Research.”; SPECIAL FOCUS AREA: This request for applications is specifically to fund women cancer researchers utilizing two different grant mechanisms. This opportunity is restricted to adult cancer research and will fund a range of projects from laboratory-based fundamental research through bench-to-bedside strategies. Note: Research areas not included in this scope for any grant type are epidemiology, behavioral science, and health services research.; GRANT SPECIFICS: V Scholar: A three-year, $600,000 grant, paid in annual installments. No indirect costs allowed.; Translational: A four-year, $800,000 grant, paid in annual installments. Indirect costs up to 10% allowed (not to exceed $80,000 within the award).; WHO MAY APPLY?: Each invited institution may submit one nominee to apply for this RFA.; The SOLE nominee may apply in either the V Scholar or Translational grant type.; $300K per year for more than 3 consecutive years by the nomination due date. Internal/start-up institutional funds should not be included in this aggregate calculation.; If you have questions about the nomination process, please contact the Research and Grants Team at Grants@v.org.; IMPORTANT INTERNAL DATES: Application Deadline: by 5:00 PM Eastern time on Monday, Feb., 6th, 2023.; Nomination Due Date: by 5:00 PM Eastern Time on February, 15th, 2023.; Full Application Due Date: by 5:00 PM Eastern Time on March 16th, 2023.; Please see below to submit your application via the InfoReady Portal OR Apply here: https://columbia.infready4.com/#competitionDetail/1893137

HHMI Opens National Competition for Investigator Program | HHMI Deadline 03/21/2023

Sponsor: HHMI; Login (hhmi.org): https://www.hhmi.org
Deadline(s): 12/2022 (Applications open); 03/21/2023 (Application); 11/07/2023 (Semifinalists selected); 03/18/2024 (Semifinalist symposium); 04/2024 (Finalists Selected)
Contact: For questions about the competition or application process, email sciencecomp@hhmi.org
Link(s): https://arc.hhmi.org/login

Additional Information: HHMI Investigator Program; The Howard Hughes Medical Institute (HHMI) is announcing a national open competition to appoint approximately 25 new Investigators. This effort will expand HHMI's community of more than 260 Investigators who perform basic biological research at about 60 research institutions across the nation.; Funding – Each HHMI Investigator will receive roughly $8 million over a seven-year term, which is renewable pending favorable scientific review.; Timeline – Application opens – December 2022; Application deadline – March 21, 2023March received by March 21, 2023.; Semifinalists will be selected – November 7, 2023; Semifinalist Symposium – March 18, 2024; Finalists Selected – April 2024; HHMI Investigator appointments starting as early as September 1, 2024.; Eligibility – Applicants must: Hold a PhD and/or MD (or the equivalent); Have a tenured or tenure-track position as an assistant professor or higher academic rank (or the equivalent) at an eligible US institution. Federal government employees are not eligible.; Have more than five, but no more than 15, years of post-training, professional experience. To meet this requirement, the applicant's first post-training professional appointment must have begun no earlier than March 1, 2008, and no later than April 1, 2018.; Be principal investigator on one or more active, national peer-reviewed research grants with an initial duration of at least three years as of April 1, 2023. Mentored awards and training grants do not qualify. Multi-investigator grants may qualify.; Applicants can establish eligibility now via the HHMI Application and Review Channel (ARC) https://arc.hhmi.org/login. Summary: HHMI is the largest private biomedical research institution in the nation. Our scientists make discoveries that advance human health and our fundamental understanding of biology. We also invest in transforming science education into a creative, inclusive endeavor that reflects the excitement of research.; Upon appointment, selected scientists become HHMI employees while retaining academic appointments and laboratories at their respective institutions. HHMI provides each Investigator with a full salary, employee benefits, and research budget during their term. The Institute will also cover other expenses, including the purchase of critical equipment.; Through the HHMI Investigator Program, the Institute has joined with roughly 60 US universities, hospitals, institutes, and medical schools to create an environment that provides flexible, long-term support for HHMI scientists and members of their research teams. HHMI Investigators are widely recognized for their creativity and research accomplishments: more than 150 HHMI Investigators are members of the National Academy of Sciences, and 33 current or former HHMI Investigators have
been awarded the Nobel Prize. HHMI will appoint approximately 25 new Investigators through a national open competition.; For questions about the competition or application process, email sciencecomp@hhmi.org; Program URL: https://www.hhmi.org/news/hhmi-opens-national-competition-investigator-program; [brought to our attention by] Limited Submissions; COLUMBIA | RESEARCH; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://columbia.infoready4.com/#limitedsubmissions

[NTW] [DEPARTMENT OF DEFENSE]
DoD/CDMRP - COVID-19 Impact on Research Awards
[No Link Provided]

CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation

**Sponsor:** Department of Defense

**Deadline(s):** NA

Fiscal Year 2023 (FY23) Pre-Announcements Peer Reviewed Alzheimer’s Research Program (PRARP)

Sponsor: Department of Defense
Deadline(s): Pre-Announcement (NA)
Contact: help@ebrap.org

Additional Information: JUST RELEASED! FY23 DOD PRARP Funding Opportunity Pre-Announcement; This e-mail is to notify the research community of recently released Fiscal Year 2023 (FY23) pre-announcements for the Peer Reviewed Alzheimer’s Research Program, managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Peer Reviewed Alzheimer’s Research Program; (PRARP) at https://cdmrp.health.mil/pubs/press/2023/23prarppreann; Transforming Research Award ($1M); Transforming Diagnosis Award ($2.5M); Transforming Care Award ($1M); In addition, the FY23 PRARP is offering a Career Initiation and Transition Partnering Option (CITPO) for each mechanism. This option is to allow for two investigators to work
towards a common research goal. Each investigator is supported as a named principal investigator (PI), with an award to each of their institutions. The CIT partner must be an investigator within 10 years of a terminal degree OR new to the field.; Transforming Research Award-CITPO ($1M); Transforming Diagnosis Award- CITPO ($2.5M); Transforming Care Award – CITPO ($1.2M); A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Funding Opportunities/Program Announcements and General Application Instructions which can be found on the Grants.gov website https://Grants.gov.; A listing of all CDMRP and other USAMRDC extramural funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; New for FY22: The applicant organization must be registered as an entity in SAM https://www.sam.gov/SAM/ and receive confirmation of an “Active” status before submitting an application through Grants.gov.

As published in the Federal Register 10 July 2019 https://www.federalregister.gov/documents/2019/07/10/2019-14665/unique-entity-id-standards-for-awards-management, the Unique Entity Identifier for awards management generated through SAM will replace the Data Universal Numbering System (DUNS) number as of April 2022. Press Release: FY22 Breast Cancer Research Program, Congressionally Directed Medical Research Program

**Sponsor:** Department of Defense; [https://cdmrp.health.mil](https://cdmrp.health.mil)

**Deadline(s):** NA, anticipated funding announcement

**Contact:** help@ebrap.org

**Additional Information:** pre-announcement/anticipated funding opportunity on the Department of Defense’s Congressionally Directed Medical Research Programs (CDMRP) Breast Cancer Research Program (BCRP) broadly. See the press release that was published today, with more information below: [Press Release: FY22 Breast Cancer Research Program, Congressionally Directed Medical Research Program (health.mil)](https://cdmrp.health.mil/pubs/press/2022/22bcrrpreann3). As a quick reminder, Columbia has a license to Pivot, a searchable funding opportunity database where you can tailor your search for funding opportunities, and create email alerts when an opportunities are available based on your search criteria. More information on Pivot can be found at [Find Funding Using Pivot](https://ebrap.org). [brought to our attention by] **Stephanie F. Scott, MS, CRA:** Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University & Columbia University Irving Medical Center; Email: stephanie.scott@columbia.edu; Website: [https://spa.columbia.edu](https://spa.columbia.edu); DOD Breast Cancer Research Program Anticipated Funding Opportunity; Department of Defense; Congressionally Directed Medical Research Programs (CDMRP); Breast Cancer Research Program (BCRP); Anticipated Funding Opportunity for Fiscal Year 2022 (FY22); The FY22 Defense Appropriations Act provides funding for the BCRP to support innovative, high-impact research with clinical relevance that will accelerate progress to end breast cancer for Service Members, Veterans, and the general public. The managing agent for the anticipated funding opportunity is the CDMRP at the U.S. Army Medical Research and Development...
Command (USAMRDC); The BCRP is providing the information in this pre-announcement to allow investigators time to plan and develop ideas for submission to the anticipated FY22 funding opportunity. This pre-announcement should not be construed as an obligation by the government. The FY22 BCRP funding opportunity announcement for the following award mechanism will be posted on the Grants.gov website. Pre-application and application deadlines will be available when the announcement is released; Applications submitted to the FY22 BCRP must address one or more of the following overarching challenges; Prevent breast cancer (primary prevention); Identify determinants of breast cancer initiation, risk, or susceptibility; Distinguish deadly from non-deadly breast cancers; Conquer the problems of overdiagnosis and overtreatment; Identify what drives breast cancer growth; determine how to stop it; Identify why some breast cancers become metastatic; Determine why/how breast cancer cells lie dormant for years and then re-emerge; determine how to prevent lethal recurrence; Revolutionize treatment regimens by replacing them with ones that are more effective, less toxic, and impact survival; Eliminate the mortality associated with metastatic breast cancer; 

Press Release: FY22 Breast Cancer Research Program, Congressionally Directed Medical Research Program; Clinical Research Extension Award NEW for FY22; Investigators at all academic levels (or equivalent); Supports research that extends the data collection, follow-up, and analysis of breast cancer clinical research studies; The intent of this mechanism is to increase the clinically relevant impact of breast cancer patient participation in clinical research by addressing the knowledge lost due to limited or early termination of patient follow-up and sample collection and analysis; Although not all-inclusive, research proposed under this mechanism may entail a deeper molecular analysis of clinical samples, initiation of new correlative studies, biomarker validation, or continuing clinical follow-up of patients currently/previous enrolled in an open/ongoing or completed clinical trial; Principal Investigators (PIs) are required to include two or more breast cancer advocates on their research team; Partnering PI Option allows two PIs, termed Initiating and Partnering PIs, to partner on a single application; 

Submission of a Letter of Intent is required prior to full application submission; Clinical trials are not allowed; Maximum funding of $5 million (M) for direct costs (plus indirect costs); Maximum period of performance is 4 years; Partnering PI Option: Maximum funding of $6M for direct costs (plus indirect costs); Maximum period of performance is 4 years; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Funding Opportunities/Program Announcements and General Application Instructions which can be found on the Grants.gov website https://Grants.gov/; A listing of all CDMRP and other USAMRDC extramural funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; New for FY22: The applicant organization must be registered as an entity in SAM https://www.sam.gov/SAM/ and receive confirmation of an “Active” status before submitting an application through Grants.gov. As published in the Federal Register 10 July 2019 https://www.federalregister.gov/dockets/2019/07/10/2019-14665/unique-entity-id-standard-for-awards-management, the Unique Entity Identifier for awards management generated through SAM will replace the Data Universal Numbering System (DUNS) number as of April 2022. CDMRP has transitioned to use of the Unique Entity Identifier (SAM) and will utilize the latest SF 424 which includes the UEI. The DUNS will no longer be accepted; For email notification when CDMRP funding opportunities are released, subscribe to program-specific news and updates under “Email Subscriptions” on the eBRAP homepage at https://eBRAP.org. NOT-OD-23-030: Request for Information (RFI): Innovative approaches to prevent mental health problems and promote mental wellness in populations that experience health disparities

**Health Disparities | NIH Office of Disease Prevention Website**  
**Sponsor:** https://prevention.nih.gov Office of Disease Prevention; National Center for Complementary and Integrative Health; National Institute of Biomedical Imaging and Bioengineering; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Research on Women's Health  
**Deadline(s):** 03/01/2023 (Response Date)  
**Contact:** prevention@nih.gov; Please direct all inquiries to: Jennifer Alvidrez, PhD; Office of Disease Prevention ODP  
Telephone: 301-827-0071; Email: Jennifer.alvidrez@nih.gov  
**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-23-030.html  
https://prevention.nih.gov/research-priorities/health-disparities
Additional Information: Purpose: As part of the NIH ADVANCE: Advancing Prevention Research for Health Equity initiative, this RFI seeks input from a variety of interested parties, including but not limited to healthcare providers/organizations, complementary and integrative health clinical institutions, mental health clinics, mental health advocacy organizations, schools/educational institutions, community- and faith-based organizations, state or local governmental organizations, and researchers, on practical and innovative interventions or programs that contribute to the primary or secondary prevention of mental health problems and promotion of mental health wellness in populations that experience health disparities. Input from community-based service providers and other community-based organizations about promising or successful approaches in their communities is particularly encouraged; Of additional particular interest are interventions that move beyond the provision of mental health treatment to encompass strategies that address social determinants of health that operate as risk or protective factors for psychological distress and the development of mental health problems. Also of interest are strategies to implement, sustain, and disseminate such interventions.; NIH ADVANCE Initiative: Advancing Prevention Research for Health Equity; Innovative approaches to prevent mental health problems and promote mental wellness in populations that experience health disparities; Application Deadline: Wednesday, March 1, 2023; ADVANCE brings together NIH Institutes, Centers, and Offices to address this need for additional research. It will concentrate on developing new prevention interventions and strategies to deliver existing evidence-based interventions and preventive services in populations that experience health disparities.; Apply Here

**Notice of Special Interest (NOSI): Dissemination and Implementation Research to Advance Mental, Emotional, and Behavioral Health Preventive Interventions in School Settings**

**Sponsor:** National Center for Complementary and Integrative Health; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Behavioral and Social Sciences Research; Office of Disease Prevention; Office of Research on Women’s Health

**Deadline(s):** 06/05/2022 (First Available Due Date); 06/05/2024 (Expiration Date)

**Contact:** Scientific/Research Contact(s): NCCIH; Beda Jean-Francois, Ph.D.; National Center for Complementary and Integrative Health (NCCIH); Telephone: 202-313-2144; Email: Beda.Jean-Francois@nih.gov

**Additional Information:** NOSI: Dissemination and Implementation Research to Advance Mental, Emotional, and Behavioral Health Preventive Interventions in School Settings; **FOA Number:** NOT-AT-22-004; **Key Dates:** First Available Due Date: June 5, 2022; Expiration Date: June 5, 2024; **Purpose:** The purpose of this Notice of Special Interest (NOSI) is to stimulate dissemination and implementation research to support innovative approaches to identifying, understanding, and developing strategies for overcoming barriers to the adoption, adaptation, integration, scale-up and sustainability of evidence-based preventive interventions to support children’s mental, emotional, and behavioral (MEB) health in school settings. This NOSI encourages applications which focus on dissemination and implementation research to deliver interventions in the school setting that will promote healthy MEB development and/or prevent MEB disorders. Applications should include a focus on one of the following: (1) primary/universal prevention MEB programs designed to promote healthy MEB development by decreasing risk factors and increasing protective factors to prevent onset of an MEB disorder; or (2) secondary/selective prevention programs designed to support screening and early identification of MEB disorders to slow progression with early intervention. Applications focused on tertiary/indicated treatment of MEB disorders will be considered non-responsive to this Notice.; [View NOT-AT-22-004](http://grants.nih.gov/grants/guide/notice-files/NOT-AT-22-004.html)

Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Individual Fellows  
**Extramural Nexus**  
**How do I request childcare costs in my fellowship application**

**Sponsor:** NIH
Deadline(s): 03/15/2021 (Release Date)
Contact: Please direct all grants policy inquiries to: NIH Office of Policy for Extramural Research Administration; Division of Grants Policy; Email: grantspolicy@nih.gov; For general inquiries about fellowships and career development programs please contact: Division of Biomedical Research Workforce; Office of Extramural Research; Website: https://researchtraining.nih.gov; Email: NIHTrain@mail.nih.gov
https://nexus.od.nih.gov/all/2021/03/02/announcement-of-childcare-costs-for-ruth-l-kirschstein-national-research-service-award-nrsa-supported-individual-fellows/
https://nexus.od.nih.gov/all/2021/03/19/how-do-i-request-childcare-costs-in-my-fellowship-application/

Additional Information: Earlier today, NIH issued corrected instructions to request childcare costs for recipients of NRSA individual fellowships. See NOT-OD-21-074, which replaces to announcement NOT-OD-21-069 referenced below. NIH also updated its FAQs; If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We'll provide you with any updates [brought to our attention by] Stephanie Scott, Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; This week NIH announced a new policy to allow for childcare support costs to recipients of NRSA individual fellowships (i.e., F31, F32, etc). These costs must be specifically requested in new, continuation applications or through administrative supplements beginning on or after April 8, 2021. Please read the full announcement at NOT-OD-21-069, the FAQs, and supplementary information below.; Some key takeaways: The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022.; Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18.; Eligible childcare is care that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.; At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents.; The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC.; If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request.; We’ll provide further guidance on these new costs at a later date.; Feed: blog – NIH Extramural Nexus; Posted on: Tuesday, March 2, 2021 11:40 AM; Author: Mike Lauer; Subject: Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; View article.; Subsequently, NIH posted this blog, with screen shot, to assist applicants with the request for childcare costs. If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We’ll provide you with any updates.

Contact: Scientific/Research Contact(s): Mollie Minear, Ph.D.; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-827-9442; Email: mollie.minear@nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Special Interest (NOSI): Dietary, Physical Activity, Sedentary Behavior and Sleep Assessment Methodologies Among Infants and Young Children (Birth to 5 years) through Adults
Sponsor: National Cancer Institute; National Heart, Lung, and Blood Institute; Eunice Kennedy Shriver National Institute of Child Health and Human Development
Deadline(s): 02/05/2022 (First Available Due Date) 05/08/2023 (Expiration Date)
Contact: Scientific/Research Contacts: Kirsten Herrick, PhD, MSc; National Cancer Institute (NCI); Telephone: 240-276-5734; Email: kirsten.herrick@nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Research Training Awards
Sponsor: National Institutes of Health
Deadline(s): 09/23/2021 (Release Date)
Contact: NIH Office of Policy for Extramural Research Administration; Division of Grants Policy; grantspolicy@nih.gov
Additional Information: In April 2021, NIH began providing childcare cost support to recipients of full-time NRSA fellowships in recognition that the high cost of childcare impacts graduate students and post-doctorates funded through NRSA fellowships, and hinders their ability to successfully complete their training and fully participate in the extramural research workforce NOT-OD-21-074. As Phase 2 of this initiative, anticipated for awards made beginning in Fiscal Year 2022, NIH will begin providing childcare cost support to full-time predoctoral and postdoctoral trainees appointed on NRSA institutional research training awards.

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Special Interest (NOSI): Using Systems Science Methodologies to Protect and Improve Child and Reproductive Population Health
Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Cancer Institute; Office of Disease Prevention
Deadline(s): 06/05/2021 (First Available Due Date) 05/08/2024 (Expiration Date)
Contact: Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Regina M. Bures, Ph.D.; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-496-9485; Email: regina.bures@nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Special Interest (NOSI): Reproductive Health, Pregnancy, and Parenting among Women with Disabilities

Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development

Deadline(s): 06/05/2021 (First Available Due Date); 05/31/2024 (Expiration Date)

Contact: Scientific/Research Contact(s); For Preconception and Gynecologic Health Topics; Rosalind King, Ph.D.; Telephone: 301-435-6986; Email: kingros@mail.nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Screening and Functional Validation of Human Birth Defects Genomic Variants (R01 Clinical Trial Not Allowed)

Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute of Dental and Craniofacial Research; Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs

Deadline(s): 02/05/2025; 05/08/2025 (Expiration)

Contact: Scientific/Research Contact(s); Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Mahua Mukhopadhyay, Ph.D.; Telephone: 301-435-6886; Email: mukhopam@mail.nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Special Interest (NOSI): Reduction of Sudden Unexpected Infant Death and Sudden Infant Death Syndrome

Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development

Deadline(s): 06/16/2021 (First Available Due Date); 05/08/2023 (Expiration Date)

Contact: Scientific/Research Contact(s); Marion Koso-Thomas M.D, MPH; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-435-6873; Email: kosomari@mail.nih.gov

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Information: NIMH High-Priority Areas for Research on Women’s Mental Health during the Perinatal Period

Sponsor: National Institute of Mental Health
**Deadline(s):** 06/23/2021 (Release Date)

**Contact:** Tamara Lewis Johnson, MPH, MBA; National Institute of Mental Health (NIMH); Telephone: (301) 594-7963; Email: tamara.lewisjohnson@nih.gov

**Additional Information:** The purpose of this notice is to outline high priority areas of research related to women’s mental health during the perinatal period. NIMH is interested in receiving applications that will provide new knowledge in perinatal mental disorders and that will test strategies for translating this knowledge into improved diagnostics, therapies, and services to improve women’s mental health during the perinatal period. This Notice of Information applies broadly to most but not all Funding Opportunity Announcements (FOAs) that are aligned with NIMH research priorities.

**[NTW] [MATERNAL AND CHILD HEALTH]**

**Notice of Special Interest (NOSI): High Priority Areas in Placental Research for Healthy Pregnancies**

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development

**Deadline(s):** 10/05/2021 (First Available Due Date); 10/06/2024 (Expiration Date)

**Contact:** Scientific/Research Contact(s): General scientific inquires (including contacts for areas of particular scientific interest): Areas 1 & 2; John V. Ilekis, PhD; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Pregnancy and Perinatology Branch; Telephone: 301-435-6895; Email: ilekisj@nih.gov

**[NTW] [WOMEN’S HEALTH]**

**RFA-AMP-AIM-LSP-22-001 Team Science Leadership Scholars Program (LSP) in Women’s Health, Autoimmune and Immune-Mediated Diseases; Due Date 02/20/2023**

**Accelerating Medicines Partnership® Autoimmune and Immune-Mediated Diseases (AMP® AIM) Program | NIAMS**

**New Pilot Program Will Mentor and Advance Women’s Health | Office of Research on Women’s Health**

**Sponsor:** https://ampaim.omrf.org

**Deadline(s):** 02/20/2023

**Contact:** Contact Us (omrf.org) ; https://ampaim.omrf.org/contact-us/ ; Scientific Research/Peer Review Contact; Oklahoma Medical Research Foundation; Email: TSLSPWomen@omrf.org; Phone: 405-271-4987

**Additional Information:** Team Science Leadership Scholars Program (LSP) in Women’s Health, Autoimmune and Immune-Mediated Diseases; RFA-AMP-AIM-LSP-22-001 ; Application due date: February 20, 2023; In September 2022, ORWH, in partnership with the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS), announced a pilot program to support and train research scholars by helping them acquire and hone team science leadership and mentoring skills. The Team Science Leadership Scholars Program (LSP) in Women’s Health is now accepting funding applications. The LSP is funded by ORWH and
embedded within the Accelerating Medicines Partnership® Autoimmune and Immune-Mediated Diseases (AMP® AIM) program. This joint initiative aligns NIAMS’s goal of supporting team science and collaboration with ORWH’s vision of preparing leaders in women’s health research.

[NTW] [WOMEN’S HEALTH]
NOT-GM-23-012: Notice of Special Interest (NOSI): Supporting Women’s Health Research in IDeA States through the Centers of Biomedical Research Excellence (COBRE) Phase 1 Program

NOSI: Supporting Women’s Health Research in IDeA States through the Centers of Biomedical Research Excellence (COBRE) Phase 1 Program

**Sponsor:** National Institute of General Medical Sciences (NIGMS); All applications to this funding opportunity announcement should fall within the mission of the Institutes/Centers. The following NIH Offices may co-fund applications assigned to those Institutes/Centers; Office of Research on Women’s Health (ORWH)

**Deadline(s):** 01/30/2023 (First Available Due Date); 01/31/2025 (Expiration Date)

**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions / substitutions:

Federico Bernal, Ph.D.; National Institute of General Medical Sciences (NIGMS); Email: federico.bernal@nih.gov; Regine A. Douthard, M.D., MPH; NIH Office of Research on Women’s Health (ORWH); Email: douthardr@mail.nih.gov

[NTW] [SEXUAL HARASSMENT]
NIH issues funding opportunity for studies on mitigating sexual harassment in the biomedical research enterprise (govdelivery.com)
NOT-OD-21-150: Notice of Special Interest (NOSI): Interventions Designed to Change the Culture to Mitigate or Eliminate Sexual Harassment in the Biomedical Research Enterprise (nih.gov)
Sponsor: National Institutes of Health; Office of Research on Women’s Health; National Eye Institute; National Human Genome Research Institute; National Institute of Arthritis and Musculoskeletal and Skin Diseases; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute of Deafness and Other Communication Disorders; National Institute of General Medical Sciences; National Institute of Nursing Research
Deadline(s): 10/13/2021 (First Available Due Date); 10/14/2023 (Expiration)
Contact: Scientific/Research Contact(s): Lisa Begg, Dr.P.H., RN; Office of Research on Women’s Health (ORWH); Telephone: 301-496-3975; Email: beggl@od.nih.gov
Additional Information: NIH issues funding opportunity for studies on mitigating sexual harassment in the biomedical research enterprise; National Institutes of Health; Office of Research on Women’s Health; NIH issues funding opportunity for studies on mitigating sexual harassment in the biomedical research enterprise (govdelivery.com); NIH NOSI to Support Studies on Mitigating Sexual Harassment in the Biomedical Research Enterprise; ORWH has announced its participation in Notice of Special Interest (NOSI): Interventions Designed to Change the Culture to Mitigate or Eliminate Sexual Harassment in the Biomedical Research Enterprise NOT-OD-21-150. The cumulative effect of sexual harassment has a devastating and costly impact on individuals and the Nation. There are emotional, physical, mental, and legal consequences, which may have a direct impact on individual performance and career advancement, as well as social and fiscal effects on institutional settings, students, and co-workers.; The National Academies of Sciences, Engineering, and Medicine report titled Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine demonstrates the urgent need to develop new partnerships to address this challenging problem. NIH is encouraging applications to test interventions that would be designed to change the culture and mitigate or eliminate sexual harassment in the biomedical research enterprise.; The first available due date for funding opportunity submissions is October 13, 2021, and subsequent receipt dates will extend through October 14, 2023.

NOT-DA-24-003: Notice of Special Interest (NOSI): Administrative Supplement for Rapid Translation of Substance Use and Addiction Epidemiology and Prevention Intervention Research

**Sponsor:** National Institute on Drug Abuse

**Deadline(s):** 01/15/2023 (First Available Due Date); 01/08/2026 (Expiration Date)

**Contact:** Please direct all inquiries to: Alexa Romberg, PhD; Prevention Research Branch; National Institute on Drug Abuse (NIDA); Telephone: 301-435-0264; Email: alexa.romberg@nih.gov

NOT-DA-23-012: Notice of Special Interest (NOSI): Health Services and Economic Research on the Treatment of Drug, Alcohol, and Tobacco Use Disorders (R01, R21, R03)

**Sponsor:** National Institute on Drug Abuse

**Deadline(s):** 02/05/2023 (First Available Due Date); 02/08/2026 (Expiration Date)

**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Tisha Wiley, Ph.D.; National Institute on Drug Abuse NIDA; Telephone: (301) 594-4381; Email: tisha.wiley@nih.gov

NOT-DA-24-004: Notice of Special Interest (NOSI) Targeting Epigenetic Regulators for Treating Addiction and Substance Use Disorders

**Sponsor:** National Institute on Drug Abuse

**Deadline(s):** 02/05/2023 (First Available Due Date); 01/08/2026 (Expiration Date)

**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Scientific/Research Contact(s); Sam Ananthan, Ph.D.; National Institute on Drug Abuse (NIDA); Telephone: 301-435-2199; Email: sam.ananthan@nih.gov

PAR-23-041: Functional Validation and/or Characterization of Genes or Variants Implicated in Substance Use Disorders (R21/R33 Clinical Trial Not Allowed)

**Sponsor:** National Institute on Drug Abuse

**Deadline(s):** 03/02/2023; 07/26/2023; 07/28/2025; 07/29/2025 (Expiration)

**Contact:** Scientific/Research Contact(s); John Satterlee, Ph.D.; National Institute on Drug Abuse (NIDA); Telephone: 301-435-1020; Email: satterleej@nida.nih.gov

RFA-DA-24-003: Targeting Inflammasomes in Substance Abuse and HIV (R01 Clinical Trial Not Allowed)

**Sponsor:** National Institute on Drug Abuse

**Deadline(s):** 03/16/2023; 03/17/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Shang-Yi Anne Tsai, PhD; National Institute on Drug Abuse (NIDA); Telephone: 301-827-5842; Email: stsai@nih.gov
[NTW] [SUBSTANCE USE DISORDERS/HIV]
RFA-DA-24-004: Targeting Inflammasomes in Substance Abuse and HIV (R21 Clinical Trial Not Allowed)
Sponsor: National Institute on Drug Abuse
Deadline(s): 03/15/2023; 03/16/2023 (Expiration)
Contact: Scientific/Research Contact(s); Shang-Yi Anne Tsai, PhD; National Institute on Drug Abuse (NIDA); Telephone: 301-827-5842; Email: stsai@nih.gov

Sponsor: National Institute on Drug Abuse (NIDA)

Deadline(s): 06/05/2020 (First Available Due Date); 09/08/2023 (Expiration Date)

Contact: Scientific/Research Contact(s); Jonathan D. Pollock, Ph.D.; National Institute on Drug Abuse (NIDA); Telephone: 301-435-1309; Email: pollock@mail.nih.gov

Additional Information: NOT-DA-20-030 Notice of Special Interest (NOSI): Human Molecular Genetics of Substance Use Disorders https://grants.nih.gov/grants/guide/notice-files/NOT-DA-20-030.html; Application Due Dates: Standard Due Dates Apply.; This Notice encourages applications for research projects that identify, validate and/or functionally characterize loci, genetic variations and haplotypes that are associated with vulnerability to addiction and that potentially inform the likelihood of responsiveness to treatment. Data may be collected from the general population, special populations, recent admixed populations, and/or electronic medical records (EMR). Secondary data analysis of data collected from the general population, special populations,
recent admixed populations, and/or animal models is also appropriate for this notice. Investigators are encouraged to include functional characterization, gene x gene interactions, gene x environment interactions, and gene x environment x development interactions.

[NTW] [PEDIATRICS]
Pediatric Immune System Ontogeny and Development (INTEND) (R01 Clinical Trial Not Allowed)

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development  
**Deadline(s):** 10/05/2023; 02/05/2024; 05/08/2024 (Expiration)
Contact: Scientific/Research Contact(s); Sai Majji, PhD; Maternal and Pediatric Infectious Disease Branch; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-661-9816; Email: sai.majji@nih.gov

[NTW] [BRAIN INITIATIVE]

**BRAIN Initiative: Integration and Analysis of BRAIN Initiative Data (R01 Clinical Trial Not Allowed)**

**Sponsor:** National Institute of Mental Health; National Center for Complementary and Integrative Health; National Eye Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Neurological Disorders and Stroke

**Deadline(s):** 06/09/2023; 10/13/2023; 06/07/2024; 06/08/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Ming Zhan, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-827-3678; Email: ming.zhan@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/rfa-files/RFA-MH-21-135.html

[NTW] [BRAIN]

**RFA-MH-23-335: BRAIN Initiative: Brain Behavior Quantification and Synchronization (R61/R33 Clinical Trial Optional)**

**Sponsor:** National Institutes of Health (NIH); Components of Participating Organizations; National Institute of Mental Health (NIMH); National Eye Institute (NEI); National Institute on Aging (NIA); National Institute on Alcohol Abuse and Alcoholism (NIAAA); National Institute of Biomedical Imaging and Bioengineering (NIBIB); Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); National Institute on Deafness and Other Communication Disorders (NIDCD); National Institute on Drug Abuse (NIDA); National Institute of Neurological Disorders and Stroke (NINDS); National Center for Complementary and Integrative Health (NCCIH); All applications to this funding opportunity announcement should fall within the mission of the Institutes/Centers. The following NIH Offices may co-fund applications assigned to those Institutes/Centers.; Office of Behavioral and Social Sciences Research (OBSSR)

**Deadline(s):** 02/17/2023; 02/15/2024; 02/16/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Lizzy Ankudowich, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-480-8187; Email: lizzy.ankudowich@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/rfa-files/RFA-MH-23-335.html

**Additional Information:** Purpose: This Funding Opportunity Announcement (FOA) supports the development and validation of next-generation tools, methods, and analytic approaches to precisely quantify behaviors and combine them with simultaneous recordings of brain activity in humans. Tools used for measuring and analyzing behavior should be multi-modal, with the appropriate accuracy, specificity, temporal resolution, and flexibility necessary for integration with existing tools used to measure and modulate the brain circuits that give rise to those behaviors.
[NTW] [BRAIN INITIATIVE]

RFA-DA-23-039: BRAIN Initiative: Theories, Models and Methods for Analysis of Complex Data from the Brain (R01 Clinical Trial Not Allowed)

**Sponsor:** National Institute on Drug Abuse; National Center for Complementary and Integrative Health; National Eye Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke; Office of Behavioral and Social Sciences Research

**Deadline(s):** 09/12/2024; 09/13/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Susan N. Wright, PhD; National Institute on Drug Abuse (NIDA); Telephone: 301-402-6683; Email: BRAINTheoriesFOA@mail.nih.gov

[NTW] [BRAIN INITIATIVE]

BRAIN Initiative: Exploratory Team-Research BRAIN Circuit Programs - eTeamBCP (U01 Clinical Trials Optional)

**Sponsor:** NIH

**Deadline(s):** 06/15/2023; 06/14/2024; 06/15/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Karen K David, Ph.D.; National Institute of Neurological Disorders and Stroke (NINDS); Telephone: 301-496-9964; Email: BRAINCircuits@nih.gov

**Additional Information:** BRAIN Initiative: Exploratory Team-Research BRAIN Circuit Programs - eTeamBCP (U01 Clinical Trials Optional); **FOA Number:** RFA-NS-22-028; **Key Dates:** Open Date (Earliest Submission Date): May 14, 2022; Expiration Date: June 15, 2024; **Purpose:** This funding opportunity announcement (FOA) is designed to support teams of three or more (up to six) PDs/PIs that seek to cross boundaries of interdisciplinary collaboration to elucidate the contributions of dynamic circuit activity to a specific behavioral or neural system. Applications are encouraged to propose adventurous and challenging goals that can only be tackled by a synergistic team-based approach and have the potential to be transformative and/or to enable significant advances. These studies at the exploratory stage are intended for the development of experimental capabilities and/or theoretical frameworks in preparation for a future competition for larger-scale or extended efforts, including the BRAIN TargetedBCP (R01) or the multi-component, Team-Research BRAIN Circuit Programs (U19); **View RFA-NS-22-028**

[NTW] [BRAIN INITIATIVE]

Notice of Special Interest to Encourage Eligible NIH BRAIN Initiative Awardees to Apply for PA-21-071 Research Supplements to Promote Diversity in Health-Related Research (Admin Supp - Clinical Trial Not Allowed)

**Sponsor:** National Institute of Neurological Disorders and Stroke; National Center for Complementary and Integrative Health; National Eye Institute; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Mental Health
Deadline(s): 09/30/2021 (First Available Due Date); 09/30/2024 (Expiration Date)
Contact: Michelle Jones-London, Ph.D.; National Institute of Neurological Disorders and Stroke (NINDS);
Email: BRAINDiversitySupp@ninds.nih.gov
Additional Information: Related Announcements: PA-21-071 - Research Supplements to Promote Diversity in Health-Related Research (Admin Supp - Clinical Trial Not Allowed); NOT-MH-19-038 - Notice of Special Interest to Encourage Eligible NIH BRAIN Initiative Awardees to Apply for PA-18-906 Research Supplements to Promote Diversity in Health-Related Research (Admin Supp - Clinical Trial Not Allowed)

[NTW] [BRAIN INITIATIVE/DIVERSITY]
The BRAIN Initiative Plan for Enhancing Diverse Perspectives (PEDP)
Sponsor: National Institute of Mental Health; National Center for Complementary and Integrative Health; National Eye Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Neurological Disorders and Stroke
Deadline(s): 08/31/2021 (Release Date)
Contact: NIH BRAIN Initiative; Office of the BRAIN Director; Email: BRAINInitiative_PEDP@nih.gov
Additional Information: The purpose of this Notice is to inform applicants to Brain Research through Advancing Innovative Neurotechnologies® (BRAIN) Initiative, Funding Opportunity Announcements (FOAs) of a new requirement to include diverse perspectives in proposed research.

[NTW] [BRAIN INITIATIVE]
BRAIN Initiative: New Concepts and Early-Stage Research for Recording and Modulation in the Nervous System (R21) (Clinical Trial Not Allowed)
Sponsor: NIH

**Additional Information:** Longevity Impetus Grant Announcement; FYI Below. Yousin shared this. Applications open on 9/13: 

[https://www.impetusgrants.com](https://www.impetusgrants.com) - Impetus Grants provides funding for scientists to start working on what they consider the most important problems in aging biology, without delay. 

[www.impetusgrants.com](https://www.impetusgrants.com) - September 7, 2021; Dear AGE Member, I’d like to bring to your attention a new source of grant funding for bold ideas in aging research: the Longevity Impetus Grants. These grants will support bold ideas with the potential to change how the field thinks and works, including high-risk projects. For more information about the program and to apply, please visit the website. ; The applications are ~1 page, and decisions are made within three weeks. Impetus Grants range from $10K to $500K, with a maximum of 10% institutional overhead. There’s no restriction on project period, and no strings attached. ; The ideal application is able to explain how the project would broadly impact the field, by developing/validating new tools and/or changing how we think about aging biology. Such proposals could seek to prove or disprove common assumptions in the field, discover new ways to reverse aging processes, synthesize isolated manifestations of aging into a systemic perspective, and/or develop widely applicable methodologies. ; Please consider sharing this email within your institution, and with anyone else you think should apply. ; I highly encourage you to consider applying for a Longevity Impetus Grant. ; Sincerely, [brought to our attention by] Matt Kaeberlein ; CEO and Chair, American Aging Association; Impetus Grants provides funding for scientists to start working on what they consider the most important problems in aging biology, without delay. Such work should not be held up by red tape: we offer grants of up to $500k, with decisions made within 3 weeks. Our review process asks "what’s the potential for impact" rather than "could this go wrong" ; Our goal is to have a broad impact on the field, by supporting projects that challenge assumptions, develop new tools and methodologies, discover new ways to reverse aging processes, and/or synthesize isolated manifestations of aging into a systemic perspective. To ensure that we learn from every project, we’re organizing a special issue of GeroScience to provide an opportunity to publish both positive and negative results from funded studies; Applications will open on September 13, 2021

Notice of Special Interest (NOSI): Navigating Pediatric to Adult Health Care: Lost in Transition

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Cancer Institute; National Institute on Alcohol Abuse and Alcoholism; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of Dental and Craniofacial Research; National Institute of Mental Health; Office of Behavioral and Social Sciences Research  
**Deadline(s):** 06/05/2021 (First Available Due Date); 01/08/2024 (Expiration Date)  
**Contact:** Scientific/Research Contact(s); Sonia Lee, PhD; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-594-4783; Email: leesonia@mail.nih.gov 
**Additional Information:** The purpose of this Notice of Special Interest (NOSI) is to encourage applications in high-priority research areas related to pediatric health care transition for youth with chronic physical/medical conditions or intellectual/developmental disabilities. Research applications that will advance our understanding of promising practices designed to facilitate successful health care transitions (HCT) from pediatric to adult care settings as well as barriers and facilitators to such transition are encouraged. The ultimate goal is to improve care quality and patient and family outcomes during and after HCT.

Updated Guidelines for Enhancing Diversity and Creating Safe Environments in Conferences Supported by NIH Grants and Cooperative Agreements

**Sponsor:** Office of The Director, National Institutes of Health (OD)  
**Deadline(s):** 01/22/2021 (Release Date)  
**Contact:** Please direct all policy-related inquiries to: Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy: GrantsPolicy@OD.NIH.GOV  
**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-053.html  
**Additional Information:** This new policy notice, which provides updated guidance on enhancing the diversity of conferences supported by NIH under the R13 and U13 activity codes. Per the notice, “Conference grant applicants (R13/U13) must include plans to enhance diversity during the selection of organizing committees, speakers, other invited participants, such as session chairs and panel discussants, and attendees. Plans to enhance diversity will be assessed during the scientific and technical merit review of the application. Though the proposed plans will not be scored individually, they will be considered in the overall impact score.” Please read the full notice for more details.

These funds are awarded as supplements to many but not all parent awards such as R01, R21, and R35. For a full list of activities, follow the link below; Research Supplements to Promote Diversity in Health-Related Research PA-21-071 ; Scientists eligible for support: High School Students; Undergraduate Students; Baccalaureate and Master’s Degree Holders; Graduate (Predoctoral) and Health Professional Students; Investigators Developing Independent Research Careers; At the time of a supplemental award, the parent award must have support remaining for two years or more. We strongly encourage you to please reach out to the program officer of your parent grant for additional details about this funding opportunity; NCI particularly encourages applications from individuals from groups identified in NIH’s Notice of Interest in Diversity NOT-OD-20-031 as underrepresented in the biomedical, clinical, behavioral, and social sciences. Supplemental awards under this announcement are limited to citizens or non-citizen nationals of the United States or to Green card holders.; IC Submission Dates and Special Instructions ; The Office for Research provides instructions and template on how to assemble a diversity supplement. Follow the link below for application preparation details.; Please contact Dr. Tanisha Jackson at tj2325@cumc.columbia.edu if you would like an internal peer review of an application you plan to submit; Additionally, Dr. Alison Lin, Deputy Chief of the Diversity Training Branch at the NIH/NCI Center to Reduce Cancer Health Disparities, can answer questions and provide tips on preparing a strong application.; Alison Lin, Ph.D. ; Acting Chief, Diversity Training Branch ; NIH/NCI Center to Reduce Cancer Health Disparities ; linaj@mail.nih.gov ; http://www.cancer.gov/about-ncri/organization/crhd ; Office for Research NIH Diversity Supplements Application Preparation ; NCI Diversity Supplements Guidelines

Additional Information: Imagine a country in which all individuals, families, and communities have ready access to enough affordable, nutritious food to sustain healthy lives. However, this was still an illusory notion for at least 13.8 million food insecure US households in 2020. Household food insecurity is defined by having difficulty at some time during the year providing enough food for all members because of lack of resources. Moreover, in 2020, the prevalence of food insecurity among African American/Black households was estimated at 21.7%, and among Latino/Hispanic households was estimated at 17.2%, both substantially higher than the overall estimated prevalence of 13.5%.

Measures and Methods to Advance Research on Minority Health and Health Disparities-Related Constructs (R01 Clinical Trial Not Allowed)

**Sponsor:** National Institute on Minority Health and Health Disparities; National Cancer Institute; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; Office of Behavioral and Social Sciences Research; Office of Disease Prevention

**Deadline(s):** 05/08/2024 (Expiration)

**Contact:** Nancy L. Jones, PhD, MS; National Institute on Minority Health and Health Disparities NIMHD; Telephone: 301-594-8945; Email: nancy.jones@nih.gov; NIEHS Program Contacts: Lindsey Martin lindsey.martin@nih.gov and Melissa Smarr melissa.smarr@nih.gov

**Additional Information:** PAR-22-072: Measures and Methods to Advance Research on Minority Health and Health Disparities-Related Constructs (R01 Clinical Trial Not Allowed) The purpose of this Funding Opportunity Announcement (FOA) is to support research that will advance the measurement and methodology of complex constructs relevant to minority health and health disparities. The NIEHS seeks applications that advance innovative development of new measures and methods, or validation and adaptation of existing measures and approaches, to address the complex interplay of the physical, chemical, cultural, social, and built environmental factors that contribute to or exacerbate environmental health disparities. Applications of interest may include, but are not limited to: The use of mixed methods approaches that integrate qualitative and quantitative data collection methods and measures of factors that contribute to environmental health disparities, including how qualitative methods can inform the development and validation of quantitative surveys and instruments that evaluate these factors; Application and testing of methods and measures of SDOH, and structural racism and discrimination, to the study of environmental health disparities; Establishment of novel interdisciplinary collaborations (including, but not limited to, methodologists, behavioral scientists, exposure scientists, epidemiologists, bioinformaticians, biostatisticians, data scientists, social scientists) to incorporate concomitant chemical and built environmental factors with existing or developed measures of structural and individual racism into a multilevel assessment of environmental health disparities; Development, testing and adaptation of methods and measures that capture the lived experience of intersectionality to identify structural factors contributing to disproportionate exposures to chemical and non-chemical stressors at the community and individual level; Application of community engaged approaches to identify or develop measures that are based on the interests and primary concerns identified by multiple community stakeholders, such as parents, schools, organizations, and fence-line residents, particularly for communities that are under resourced and populations that have historically been combating environmental injustices and disparate rates of adverse health outcomes; Examination of the ethical issues related to methods and measurement approaches in the study of environmental health disparities, including issues around data harmonization and the collection of common data elements; Enhancement of existing place-based indices, environmental exposures models and geocoded data to account for social level factors, to explain environmental health disparities at the regional or community level. Of interest are the extent to which these measures demonstrate how placed-based structural racism and discrimination exacerbate environmental risk factors and/or limit protective factors; Novel use of SDOH and structural racism and discrimination methods and measures to guide the development of multi-level, evidence-based prevention and intervention strategies to reduce environmental health disparities.

[NTW] [HEALTH DISPARITIES]

Notice of Special Interest (NOSI): Epidemiologic studies in Asian Americans, Native Hawaiians, and Pacific Islanders (Parent R01 Clinical Trial Not Allowed)

**Sponsor:** National Heart, Lung, and Blood Institute; National Cancer Institute; National Human Genome Research Institute; National Institute on Aging; National Institute of Environmental Health Sciences; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke

**Deadline(s):** 02/05/2022 (First Available Due Date); 11/19/2024 (Expiration Date)

**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Scientific/Research Contact(s): Robb Rowley, MD; Division of Genome Medicine; National Human Genome Research Institute (NHGRI); Telephone: 301-827-9126; Email: Robb.Rowley@nih.gov; NIEHS Program Contact: Lindsey Martin lindsey.martin@nih.gov

**Additional Information:** NOT-HL-23-001 Notice of Special Interest (NOSI): Epidemiologic studies in Asian Americans, Native Hawaiians, and Pacific Islanders (Parent R01 Clinical Trial Not Allowed) The purpose of this Notice of Special Interest (NOSI) is to stimulate novel epidemiological research to address key knowledge gaps within and between subpopulations of Asian Americans, Native Hawaiians, and Pacific Islanders. These populations are frequently aggregated in research, potentially masking important social and health differences. Given clear heterogeneity in ancestry, culture, immigration patterns among Asian Americans, socioeconomic position, and acculturation into American life, a critical need exists for epidemiological research to enhance our understanding of the interplay of environmental exposures, lifestyle, behavioral, genomics, social, neighborhood, and biological factors that impact the health of Asian American, Native Hawaiian, and Pacific Islander subpopulations. The National Institute of Environmental Health Sciences encourages submissions of applications that are within the mission of NIEHS, which is to discover how the environment affects people to promote healthier lives. Exposures of interest include, but are not limited to, chemicals that people are exposed to via air, water, food, or direct dermal exposure (e.g., personal care products), including air pollutants, pesticides, metals, industrial chemicals, nanomaterials, environmental tobacco smoke, certain microbial products, and certain physical agents, such as environmental radiation. Applications examining the impacts of climate change on health are encouraged and could include a focus on weather extremes (e.g., prolonged or excessively high heat waves, droughts, severe unseasonal cold spells) and extreme weather-related disasters (e.g., hurricanes, storm surges, floods, wildfires) attributed to our changing climate. Specific topics of interest include but are not limited to environmental epidemiology studies: Characterizing environmental health disparities among Asian American, Native Hawaiian and Pacific Islander subpopulations.; Investigating exposures at the intersection of the physical, chemical, built, and social environments, including social determinants of health, and how these exposures affect health outcomes in Asian American, Native Hawaiian and Pacific Islander subpopulations.; Examining the linkages between structural racism and discrimination, environmental exposures, and health outcomes in Asian American, Native Hawaiian and Pacific Islander subpopulations.; Examining resilience among Asian American, Native Hawaiian and Pacific Islander subpopulations in the context of climate change and climate change-related disasters.; The NIEHS strongly supports research conducted in partnership with communities. Studies that utilize community engaged and/or citizen science approaches done in partnership with Asian American, Native Hawaiian and Pacific Islander communities and/or community-based organizations are strongly encouraged. Applications that utilize report-back methods to increase the environmental health literacy within these subpopulations are also strongly encouraged.; NIEHS Program Contact: Lindsey Martin lindsey.martin@nih.gov

The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional)

**Sponsor:** NIH

**Deadline(s):** 02/05/2024; 06/05/2024; 09/08/2024 (Expiration)

**Contact:** Rada K. Dagher, PhD, MPH; National Institute on Minority Health and Health Disparities NIMHD; Telephone: 301-451-2187; Email: rada.dagher@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-275.html

**Additional Information:** NIH Announces Funding Opportunity to Study the Role of Work in Health Disparities in the U.S.; ORWH recently announced its participation in The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) (PAR-21-275). The funding opportunity will support innovative population-based research designed to identify and characterize pathways and mechanisms through which work or occupation influences health outcomes and health status among populations with health and/or health care disparities; The main objective of this initiative is to determine the extent and mechanisms by which work, as a social determinant of health, both contributes to and helps alleviate disparities related to health and health care; Of particular interest are: Projects designed to examine pathways and mechanisms using conceptual model(s) grounded in minority health and health disparities theories that recognize that health disparities arise by multiple and overlapping contributing factors acting at multiple levels of influence; Intersectional approaches that consider different social identities and the embeddedness of individuals within families, households, and communities; Projects that explore whether work can explain the health or health care disparities seen within diseases or conditions (e.g., COVID-19, opioid use disorder, mental/behavioral health, diabetes, cancer, heart disease, asthma, and maternal and infant health); Projects that explore how work contributes to health care disparities—including, but not limited to, disparities in access to preventive, specialty, and emergency care in health insurance coverage and disparities in quality of health care; Applications for The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) will open on September 5, 2021.

The Center for Leading Innovation & Collaboration across all CTSA hubs

Sponsor: Irving Institute; https://www.irvinginstitute.columbia.edu/
Deadline(s): NA
Contact: https://clic-ctsa.org/contact
Link(s): https://clic-ctsa.org/
Additional Information: CLIC has a new website; The Center for Leading Innovation & Collaboration across all CTSA hubs has a new platform for sharing and collaborating; CLIC has also collected stories from 60+ CTSA Program hubs (Including the Irving Institute) as they brought testing, treatment and prevention to people during the COVID-19 pandemic. The stories will be featured on a new CLIC webpage. Watch the trailer HERE.

[NTW] [IRVING]
TL1 Training Programs | Irving Institute for Clinical and Translational Research (columbia.edu)

Sponsor: Irving Institute
Deadline(s): 04/03/2023
Contact: ctsa_edu@cumc.columbia.edu
Link(s): https://www.irvinginstitute.columbia.edu/services/tl1-training-programs
Additional Information: TL1 Training Programs; Providing trainees with additional research training to contribute in meaningful ways to understanding disease, improving diagnosis and prevention, and tailoring treatment based on an individual’s variation in genes, environment, and/or lifestyle; Doctoral Student Program; The TL1 Program provides doctoral students with one to two years of research training, which run simultaneously with students’ ongoing doctoral training. The program allows doctoral students to gain knowledge and skill-sets that may be outside of their primary academic or clinical discipline. The interdisciplinary education gained as a TL1 trainee will serve as an invaluable asset in conducting future research and collaborating with scientists and investigators from other clinical and academic fields of knowledge. Participation in this
program will not necessitate extending an individual’s doctoral training program. Initially awarded for one year and renewed for a second year with satisfactory progress.

Postdoctoral Fellow Program:
The TL1 program provides postdoctoral fellows with one to two years of support to participate in an integrated didactic and mentored training program. Postdoctoral candidates are required to dedicate full-time to research and training related to precision medicine. The Irving Institute support includes funds for stipend (stipend level is determined by the number of full years of relevant postdoctoral experience when the award is issued), travel expenses, training-related expenses such as supplies and health insurance, and tuition and fees in accordance with NIH policy. Initially awarded for one year and renewed for a second year with satisfactory progress.

[NTW] [COVID-19]

FDA Notice of Special Interest (NOSI) to add COVID-19 Capacity Building Grants to PAR-18-604 Vet-LIRN Network Capacity-Building Projects (Vet-LIRN)

**Sponsor:** Food and Drug Administration

**Deadline(s):** 04/26/2021 (Release Date)

**Contact:** Rene Vasquez; Grants Management Specialist; Office of Operations, Office of Finance Budget & Acquisitions; Office of Acquisitions and Grants Services, HFA-500; U.S. Food and Drug Administration; Tel: 301-796-3546; rene.vasquez@fda.hhs.gov

[NTW] [COVID-19]

Notice of Special Interest (NOSI): Research on the Impact of the Covid 19 Pandemic and Risks for Abuse and Injury Among Vulnerable Children and Youth

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development

**Deadline(s):** 06/05/2021 (First Available Due Date); 05/08/2024 (Expiration Date)

**Contact:** Scientific/Research Contact(s); Valerie Maholmes, Ph.D., CAS; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-496-1514; Email: maholmev@mail.nih.gov

[NTW] [COVID-19]

Notice of Information: NCATS to Issue an Emergency Competitive Revision Sole Source Award in Support of ACTIV-6

**Sponsor:** National Center for Advancing Translational Sciences

**Deadline(s):** NA

**Contact:** Please direct all inquiries to: Stacia Fleisher, MPP; National Center for Advancing Translational Research (NCATS); Phone: 301-435-0851; Email: stacia.fleisher@nih.gov

[NTW] [ADMINISTRATIVE SUPPLEMENTS]
Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional)

Sponsor: National Institutes of Health; John E. Fogarty International Center; National Center for Advancing Translational Sciences; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of General Medical Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Library of Medicine; Office of Behavioral and Social Sciences Research; Office of Research on Women's Health

Deadline(s): Due dates may vary by awarding IC. See the awarding IC’s web site or applicable Notice of Special Interest (NOSI) for appropriate Application Due Dates. Applicants may also contact their respective awarding IC; 07/24/2023 (Expiration)

Contact: Scientific/Research Contact(s); For any scientific or research-related questions on this administrative supplement notice please contact the Program Officer listed on the NoA of the most recent parent award.

[NTW] [NIH ANNOUNCEMENTS/COVID-19]
Extended Guidance for Applicants Preparing Applications During the COVID-19 Pandemic

Sponsor: Office of The Director, National Institutes of Health (OD)

Deadline(s): 11/04/2020 (Release Date)

Contact: Please direct all inquiries to: Sally A. Amero, Ph.D.; NIH Review Policy Officer; ReviewPolicyOfficer@mail.nih.gov

[NTW] [NIH ANNOUNCEMENTS]
NIH Implementation of the Revised Federal-wide Research Terms and Conditions

Sponsor: National Institutes of Health

Deadline(s): 11/17/2020 (Release Date)

Contact: Please direct all inquiries to: Division of Grants Policy; Office of Policy for Extramural Research Administration; grantspolicy@nih.gov

[NTW] [NIH ANNOUNCEMENTS/SINGLE IRB]
**Sponsor:** Agency for Healthcare Research and Quality  
**Deadline(s):** 11/05/2020 (Release Date)  
**Contact:** Please direct all inquiries to: Hope Hongzhu He, JD, MPA, MA; Human Protections Administrator; Agency for Healthcare Research and Quality; Telephone: (301) 427-1905; E-mail: HopeHongzhu.He@ahrq.hhs.gov  

**[NTW] [K-AWARDS]**  
**The NCI Transition Career Development Award (K22 - Independent Clinical Trial Required)**  
**Sponsor:** National Cancer Institute  
**Deadline(s):** Standard dates; 03/15/2024 (Expiration)  
**Contact:** Scientific/Research Contact(s); Sonia B. Jakowlew, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-5630; Email: jakowles@mail.nih.gov  

**[NTW] [K-AWARDS]**  
**Emerging Global Leader Award (K43 Independent Clinical Trial Required)**  
**Sponsor:** John E. Fogarty International Center; National Cancer Institute; National Human Genome Research Institute; National Institute on Aging; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke; Office of Research on Women's Health  
**Deadline(s):** 11/03/2023; 12/12/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Pre-application questions should be directed to the FIC Scientific/Research Contact; Christine Jessup, PhD; Fogarty International Center (FIC); Telephone: 301-496-1653; Email: Christine.Jessup@nih.gov  

**[NTW] [K-AWARDS]**  
**Emerging Global Leader Award (K43 Independent Clinical Trial Not Allowed)**  
**Sponsor:** John E. Fogarty International Center; National Cancer Institute; National Human Genome Research Institute; National Institute on Aging; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke; Office of Research on Women's Health  
**Deadline(s):** 11/03/2023; 12/12/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Pre-application questions should be directed to the FIC Scientific/Research Contact; Christine Jessup, PhD; Fogarty International Center (FIC); Telephone: 301-496-1653; Email: Christine.Jessup@nih.gov  
[NTW] [K-AWARDS]

NIDCR Dual Degree Dentist Scientist Pathway to Independence Award (K99/R00 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** standard due dates; 01/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Leslie A. Frieden, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-496-4263; Email: leslie.frieden@nih.gov  

[NTW] [K-AWARDS]

NIDCR Dual Degree Dentist Scientist Pathway to Independence Award (K99/R00 Clinical Trial Required)

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** standard due dates; 01/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Leslie A. Frieden, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-496-4263; Email: leslie.frieden@nih.gov  

[NTW] [K-AWARDS]

NIDCR Dual Degree Dentist Scientist Pathway to Independence Award (K99/R00 Basic Experimental Studies Involving Humans Required)

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** standard due dates; 01/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Leslie A. Frieden, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-496-4263; Email: leslie.frieden@nih.gov  

[NTW] [K-AWARDS]

NIDCR Dentist Scientist Career Transition Award for Intramural Investigators (K22 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** standard due dates; 01/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Leslie A. Frieden, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-496-4263; Email: leslie.frieden@nih.gov  
**[NTW] [K-AWARDS]**

**NIDCR Dentist Scientist Career Transition Award for Intramural Investigators (K22 Clinical Trial Required)**

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** standard due dates; 01/08/2025 (Expiration)  
**Contact:** Scientific/Research Contact(s); Leslie A. Frieden, PhD; National Institute of Dental and Craniofacial Research (NIDCR); Telephone: 301-496-4263; Email: leslie.frieden@nih.gov

[NTW] [ARTIFICIAL INTELLIGENCE]

**Notice of Special Interest (NOSI): Validation of Digital Health and Artificial Intelligence Tools for Improved Assessment in Epidemiological, Clinical, and Intervention Research**

**Sponsor:** NIH

**Deadline(s):** 03/07/2022 (First Available Due Date); 03/09/2024 (Expiration Date)

**Contact:** Please direct all inquiries to: Dana Wolff-Hughes, PhD; National Cancer Institute (NCI); Telephone: 240-620-0673; Email: dana.wolff@nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-CA-22-037.html

**Additional Information:** Notice Number; NOT-CA-22-037; Key Dates; First Available Due Date: March 7, 2022; Expiration Date: March 9, 2024; Purpose: The purpose of this Notice of Special Interest (NOSI) is to encourage grant applications to support the evaluation of the utility and validity of digital health and artificial intelligence (AI) tools and technologies in epidemiological, clinical, and intervention research. The intent is to support the addition of new measurement modalities to evaluate existing and recently developed but not yet validated digital health and AI tools such as sensor technologies, smartphone applications, software as a medical device (SaMD), and AI algorithms.

New York State Department of Health/Health Research, Inc. Comprehensive Cancer Control Program

Sponsor: Health Research, Inc (HRI) and the New York State Department of Health (NYSDOH)
Deadline(s): Applications will be accepted starting immediately and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available.
Contact: Please click on the link to the Community Project Application below to apply: Community Project Application

Additional Information: New York State Department of Health/Health Research, Inc. Comprehensive Cancer Control Program; Health Research, Inc (HRI) and the New York State Department of Health (NYSDOH) Comprehensive Cancer Control Program are soliciting applications from organizations to conduct projects in support of the New York State Comprehensive Cancer Control Plan and the work of the New York State Cancer Consortium (Consortium) action teams. The Consortium is a voluntary network of individuals and organizations that collaborate to address New York's cancer burden. The Consortium recommends statewide and local interventions to: prevent skin cancer, promote the human papillomavirus (HPV) vaccine, promote programs and services to increase quality of life for cancer survivors; and prevent and promote early detection of colorectal cancer. The purpose of this funding opportunity is to support local interventions to address the burden of cancer in communities and across the state. This funding will support awards, valued at $1,000 each to implement one of the six (6) community interventions listed in the attached solicitation; Applications will be accepted beginning November 18, 2020, and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available; Eligible applicants: Nonprofit organizations and municipal organizations located in New York State including, but not limited to: local government and public health agencies, local educational agencies, academic institutions, community-based organizations, faith-based organizations, health care systems, primary care networks, professional associations, public and private schools, and volunteer associations; Applications will be accepted starting immediately and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available. Please click on the link to the Community Project Application below to apply: Community Project Application

Policy Update - Results Information Reporting for Applicable Clinical Trials (ACTs)

**Sponsor:** National Institutes of Health; General Notices

**Deadline(s):** 07/28/2020 (Release Date)

**Contact:** Please direct all inquiries to: NIH Office of Policy for Extramural Research Administration; Division of Grants Compliance and Oversight; Telephone: 301-435-0949; Email: grantscompliance@od.nih.gov

**Additional Information:** The purpose of this notice is to inform the extramural community that a Federal court has held that Section 801 of the Food and Drug Administration Amendments Act of 2007 ("FDAAA") requires submission of results information for any "applicable clinical trial" ("ACT"), as defined in section 402(j)(1)(A) of the Public Health Service ("PHS") Act, that was initiated after September 27, 2007, or that was ongoing as of December 26, 2007, if the ACT studied a product that is approved, licensed, or cleared by FDA at any time, including after the ACT's primary completion date.

NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects

**High-level Grant Application Form Change Summary: FORMS-F**

**Sponsor:** NIH eRA

**Deadline(s):** 06/13/2020 (Effective Date); 06/15/2020 (Release Date)

**Contact:** NIH Office of Extramural Research; Questions? Please contact the eRA Service Desk. Check out self-help resources on the Help page before submitting an online ticket; or call Toll-free: 1-866-504-9552, Phone: 301-402-7469. The eRA Service Desk hours are Mon-Fri, 7 a.m. to 8 p.m. ET.; Help us improve our communications; send your suggestions and feedback to eRACommunications@mail.nih.gov or call 301-435-8185.; To read other recent articles and messages, please visit our Latest News page at https://era.nih.gov/news

**Additional Information:** [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13
As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects. Users with records currently in progress will need to modify the records to meet new FORMS-F requirements. The changes listed below include items released by eRA in March and items released on June 13; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.4.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA?’; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS.; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3.; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4.; Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116.; For more information, see: [*] Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template; [*] The eRA Human Subjects System (HSS) information page; [*] Information about the PHS Human Subjects and Clinical Trials Information form; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? Please contact the eRA Service Desk. Check out self-help resources on the Help page before submitting an online ticket; or call Toll-free: 1-866-504-9552, Phone: 301-402-7469. The eRA Service Desk hours are Mon-Fri, 7 a.m. to 8 p.m. ET.; Help us improve our communications; send your suggestions and feedback to eRACommunications@mail.nih.gov or call 301-435-8185.; To read other recent articles and messages, please visit our Latest News page at https://era.nih.gov/news

[NTW] [DATA TABLES FOR TRAINING GRANTS]  
[1] Data Tables for FORMS-F required institutional training grant proposals; required for applications due May 25th, 2020 or later  
[2] Data Tables Changes from FORMS-E to FORMS-F

**Sponsor:** NIH, SPA  
**Deadline(s):** 05/25/2020 (Forms-F, required for applications due 05/25/2020 or later)  
**Contact:** [https://grants.nih.gov/support/index.html](https://grants.nih.gov/support/index.html); SPA

**Link(s):** [https://grants.nih.gov/grants/forms-f/data-tables.htm](https://grants.nih.gov/grants/forms-f/data-tables.htm)  

**Additional Information:** Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: [https://grants.nih.gov/grants/forms-f/data-tables.htm](https://grants.nih.gov/grants/forms-f/data-tables.htm); They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As
soon as I have more information from NIH I will pass it along; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development

[NTW] [COVID-19]

Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

Sponsor: National Institutes of Health

Deadline(s): This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round.; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

**[NTW] [RESEARCH SUPPORT SERVICES]**

**Update on Research Support Services, Spring 2019; we are pleased to expand the Research Support Services to also include resubmissions of otherwise eligible R01, P, K, Center and T32 grants**

**Grant Review Submission Form (updated Spring 2019)**

**Sponsor:** Mailman School  
**Deadline(s):** relative to upcoming NIH Grant Submission Deadline(s): 5 weeks prior to submission deadline (Inform R2 of intent to utilize services); 4 weeks prior to submission deadline (science draft for external review); 2 weeks prior to submission deadline (submission for editing services)  
**Contact:** Pam Factor-Litvak (Associate Dean, Research Resources, and Professor of Epidemiology) prf1@cumc.columbia.edu; Craig Kandell (Project Coordinator, Research Resources) ckk7@cumc.columbia.edu

[Link(s):](https://r2eport.files.wordpress.com/2015/05/updateofgrantsupportservicesspring2019cpdf.pdf)
Additional Information:

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

**[NTW] [FOUNDATION FUNDING]**

The EVPR’s Office is working with schools to determine the theme and institutional partners for our Chan Zuckerberg Biohub LOL. I will appoint and convene a faculty committee to coordinate with relevant deans, Provost Boyce, and colleagues in Development on next steps for the Columbia University Coordination on CZ Biohub Letter of Intent; Please direct any questions to EVPR@columbia.edu with “CZ Biohub” in the subject line.

**Sponsor:** Chan Zuckerberg Initiative; CU EVPR
**Deadline(s):** 02/01/2022 (Release Date)
**Contact:** Please direct any questions to EVPR@columbia.edu with “CZ Biohub” in the subject line
**Link(s):** https://www.czbiohub.org/cz-biohub-network-applications/

**Additional Information:** Columbia University Coordination on CZ Biohub Letter of Intent; Dear Faculty: The Chan Zuckerberg Initiative recently announced a competition for a new Chan Zuckerberg Biohub to focus on developing new technologies to measure and observe human biology in ways that help deepen our understanding of human health and disease. The ideal scientific themes should be interdisciplinary in nature, have large engineering challenges to conquer, and should be wildly ambitious. The focus area of this new CZ Biohub should further diversify CZI’s existing research portfolio, which includes: infectious disease and quantitative cell science (San Francisco CZ Biohub); neuroscience and artificial intelligence (Kempner Institute for the Study of Natural and Artificial Intelligence at Harvard University); and the Chan Zuckerberg Institute for Advanced Biomedical Imaging.; The Letter of Intent (LOI) requires a minimum of three geographically proximate institutions collectively to propose a concept for the CZ Biohub. As an organizational structure, the CZ Biohub will be a nonprofit medical research organization that will enter into a collaboration agreement with its institutional partners, enabling the new CZ Biohub to support research at its partner Institutions. Funding is anticipated in the $200–250 million range, over an initial ten-year period, with the possibility for an additional five-year commitment of funds.; Columbia plans to endorse only one institutional partnership application for this opportunity. The EVPR’s Office is working with schools to determine the theme and institutional partners for our Chan Zuckerberg Biohub LOL. I will appoint and convene a faculty committee to coordinate with relevant deans, Provost Boyce, and colleagues in Development on next steps.; Please direct any questions to EVPR@columbia.edu with “CZ Biohub” in the subject line.; Sincerely, Jeannette M. Wing; Executive Vice President for Research; Professor of Computer Science; Columbia University

[NTW] [HIV]
NOT-AI-23-016: Notice of Special Interest (NOSI): Administrative Supplements to NIH Centers for AIDS Research (CFAR) and NIMH AIDS Research Centers (ARC) for Ending the HIV Epidemic (EHE)

**Sponsor:** National Institute of Allergy and Infectious Diseases; National Institute of Mental Health  
**Deadline(s):** 04/01/2023 (First Available Due Date); 04/02/2023 (Expiration Date)  
**Contact:** Please direct all inquiries to: CFAR Team Lead; Eric Refsland, Ph.D.: National Institute of Allergy and Infectious Diseases NIAID; Telephone: 301-761-7193; Email: eric.refsland@nih.gov; NIAID EHE Coordinator: Ann Namkung Lee, MPH; National Institute of Allergy and Infectious Diseases NIAID; Telephone: 301-627-3099; Email: anamkung@niaid.nih.gov; NIMH EHE Coordinator; Christopher Gordon, Ph.D.; National Institute of Mental Health NIMH; Telephone: 301-443-1613; Email: cg206o@nih.gov  

**Additional Information:** Purpose: The overall objective of this Notice of Special Interest (NOSI) is to highlight interest in administrative supplement applications from eligible investigators to support (1) projects that conduct implementation research around evidence-based HIV interventions, care, and treatments tailored to communities disproportionately impacted by HIV; (2) Coordination, Consultation, and Data Management Center (CCDMC); and (3) Regional Consultation Hubs (RCHs). Collaborative and synergistic partnerships are critical in developing and defining approaches and models to scale up comprehensive, integrated interventions to expand testing, prevention, and treatment that optimize adherence, retention, and health outcomes, particularly in communities at highest risk for HIV infection.

[NTW] [HIV]
Pre-Solicitation Notice: Resources to Advance Pediatrics and HIV Prevention Science (RAPPS), RFP: 75N93021R000020

**Sponsor:** National Institute of Allergy and Infectious Diseases

**Deadline(s):** NA

**Contact:** Robert Corno; Contracting Officer; AIDS Research Contracts Branch, Office of Acquisitions; Division of Extramural Activities; National Institute of Allergy and Infectious Diseases; National Institutes of Health, Email: cornorj@niaid.nih.gov

**Additional Information:** As a resource to the fields of HIV treatment and prevention, NIAID maintains contracts to support the development of emerging HIV therapeutics, vaccines, and nBP candidates. The services under these contracts are provided on a case-by-case basis and are designed to assist in filling key gaps in their product development pathway. These services have enabled the acquisition of critical data, development of essential methods, manufacture and characterization of products, fulfillment of regulatory requirements, and/or completion of studies necessary for entering clinical trials. Over the past years, these contract activities have helped investigators to obtain critical data and materials to attract additional funding, gain prospective partnership, fulfill regulatory requirements, and complete studies before entering clinical trials. Information about these contract resources or activities can be found at the following website: [https://www.niaid.nih.gov/research/resources](https://www.niaid.nih.gov/research/resources).

[NTW] [HIV]
Notice of Special Interest (NOSI): Research on barriers to care and risk of HIV-associated comorbidities among vulnerable population groups

**Sponsor:** National Heart, Lung, and Blood Institute

**Deadline(s):** 05/07/2022 (First Available Due Date); 05/08/2025 (Expiration Date)

**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Scientific/Research Contact(s); Sean Altekruse D.V.M., Ph.D.; National Heart, Lung, and Blood Institute (NHLBI); Telephone: 301-435-1290; Email: altekruises@nhlbi.nih.gov

**Additional Information:** Related Announcements: PA-20-185 - NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed)
**Notice of Special Interest (NOSI): Examining Effects of HIV Pre-Exposure Prophylaxis (PrEP) on Heart, Lung, Blood, and Sleep Function**

**Sponsor:** National Heart, Lung, and Blood Institute  
**Deadline(s):** 05/07/2022 (First Available Due Date); 05/08/2025 (Expiration Date)  
**Contact:** Josh Fessel, MD, PhD; NHLBI, Division of Lung Diseases; Telephone: 301-827-5514; Email: josh.fessel@nih.gov  

**Notice of Special Interest (NOSI): Basic and Translational Oral Health Research Related to HIV/AIDS**

**Sponsor:** National Institute of Dental and Craniofacial Research  
**Deadline(s):** 01/07/2022 (First Available Due Date); 05/08/2023 (Expiration Date)  
**Contact:** National Institute of Dental and Craniofacial Research; Telephone: 301-594-7404; Email: hiroko.iida@nih.gov  

**Notice of Special Interest: Resilience and Vulnerability following Acute Heart, Lung, Blood, and Sleep Insults in People with HIV (R01, Clinical Trial Not Allowed)**

**Sponsor:** National Heart, Lung, and Blood Institute  
**Deadline(s):** 01/07/2022 (First Available Due Date); 01/08/2024 (Expiration Date)  
**Contact:** Scientific/Research Contact(s); Shimian Zou, PhD; National Heart, Lung, and Blood Institute (NHLBI); Telephone: 301-827-8301; Email: shimian.zou@nih.gov  

**The role of Epstein Barr virus (EBV) infection in Non-Hodgkin Lymphoma (NHL) and Hodgkin disease (HD) development with or without an underlying HIV infection (U01 Clinical Trial Optional)**

**Sponsor:** NIH, NCI  
**Deadline(s):** 12/15/2023; 12/16/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Elizabeth L. Read-Connole, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-6190; Email: bconnole@mail.nih.gov  
Notice of Special Interest (NOSI): Evaluation of sex differences on HIV-associated comorbidities in the context of stimulant use

**Sponsor:** National Institute on Drug Abuse  
**Deadline(s):** 02/05/2022 (First Available Due Date); 01/08/2025 (Expiration Date)  
**Contact:** Please direct all inquiries to the Scientific/Research, Peer Review, and Financial/Grants Management contacts in Section VII of the listed funding opportunity announcements.; Scientific/Research Contact(s); Da-Yu Wu, PhD; National Institute on Drug Abuse (NIDA); Telephone: 301-435-4649; Email: wudy@nida.nih.gov  

**Multipurpose Prevention Technology: Novel Systemic Options for Young Adults (R41/R42 Clinical Trial Not Allowed)**

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development  
**Deadline(s):** 12/09/2023; 12/10/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Nahida Chakhtoura MD, MSGH; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-435-6872; Email: nahida.chakhtoura@mail.nih.gov  

**Multipurpose Prevention Technology: Novel Systemic Options for Young Adults (R43/R44 Clinical Trial Not Allowed)**

**Sponsor:** Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute of Allergy and Infectious Diseases; National Institute of Mental Health  
**Deadline(s):** 12/09/2023; 12/10/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Nahida Chakhtoura MD, MSGH; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-435-6872; Email: nahida.chakhtoura@mail.nih.gov  

**Additional Information:** The objective of this Funding Opportunity Announcement (FOA) is to support the development of new and innovative long-acting systemic and non-systemic multipurpose prevention technologies (MPT). It supports development of MPTs that prevent HIV infection and pregnancy (hormonal and non-hormonal methods) in adolescent and young women.

**Notice of Special Interest (NOSI): Harnessing Big Data to Halt HIV**

**Sponsor:** National Institute of Allergy and Infectious Diseases; National Institute on Drug Abuse; National Institute of Mental Health
Deadline(s): 09/07/2021 (First Available Due Date); 05/08/2024 (Expiration Date)
Contact: Scientific/Research Contact(s); Rosemary McKaig, M.P.H, Ph.D.; National Institute of Allergy and Infectious Diseases (NIAID); Telephone: 240-627-3214; Email: rm434n@nih.gov

RFA-DK-23-006: Advancing Research on Mechanisms and Management of Pain for Diseases and Conditions within NIDDK Mission Areas (R01 Clinical Trial Optional)
Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases
Deadline(s): 05/04/2023; 05/05/2023 (Expiration)
Contact: Scientific/Research Contact(s); Chris Mullins, Ph.D.; Division of Kidney, Urologic, and Hematologic Diseases; National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK); Telephone: 301-451-4902; Email: mullinsc@mail.nih.gov

[NTW] [PAIN]
NOT-DK-23-012: Notice of Intent to Publish a Funding Opportunity Announcement for
Advancing Research on Mechanisms and Management of Pain for Diseases and Conditions within NIDDK Mission Areas (R01 Clinical Trial Optional)

**Sponsor:** National Institute of Diabetes and Digestive and Kidney Diseases  
**Deadline(s):** 05/04/2023 (First Estimated Application Due Date)  
**Contact:** Please direct all inquiries to: Chris Mullins, Ph.D.; Division of Kidney, Urologic, and Hematologic Diseases; National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK); Telephone: 301-451-4902; Email: mullinsc@mail.nih.gov  

[NTW] [CRISES RESPONSE]  
Notice of Special Interest (NOSI): Priority Research Opportunities in Crisis Response Services  

**Sponsor:** National Institute of Mental Health; National Institute on Drug Abuse; Office of Research on Women's Health  
**Deadline(s):** 06/05/2022 (First Available Due Date); 05/08/2025 (Expiration Date)  
**Contact:** Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Stephen O'Connor, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-480-8366; Email: stephen.o'connor2@nih.gov  

[NTW] [SAFETY]  
Plans to Promote Safe Environments at Conferences Supported by NIH Grants and Cooperative Agreements  

**Sponsor:** Office of the Director, NIH  
**Deadline(s):** 02/11/2022 (Release Date)  
**Contact:** Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy; GrantsPolicy@OD.NIH.GOV  
**Additional Information:** Related Announcements: PA-21-151 - NIH Support for Conferences and Scientific Meetings (Parent R13 Clinical Trial Not Allowed); NOT-OD-21-053 - Updated Guidelines for Enhancing Diversity and Creating Safe Environments in Conferences Supported by NIH Grants and Cooperative Agreements; NOT-OD-15-152 - Civil Rights Protections in NIH-Supported Research, Programs, Conferences and Other Activities

[NTW] [OCCUPATIONAL SAFETY AND HEALTH]  
RFA-OH-23-003: Occupational Safety and Health Education and Research Centers (T42)  

**Sponsor:** National Institute for Occupational Safety and Health  
**Deadline(s):** 10/24/2023; 10/22/2024; 10/21/2025; 10/26/2027; 11/23/2027 (Expiration)  
**Contact:** Scientific/Research Contact; Elizabeth H. Maples, PhD, CIH; National Institute for Occupational Safety and Health); Telephone: 404-498-2557; Email: ehmmaples@cdc.gov  
[NTW] [DROWNING PREVENTION]
Notice of Special Interest (NOSI): Research on Drowning Prevention

Sponsor: Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Minority Health and Health Disparities; Office of Disease Prevention

Deadline(s): 06/05/2022 (First Available Due Date); 05/08/2024 (Expiration Date)

Contact: Scientific/Research Contact(s): Cinnamon A. Dixon, DO, MPH; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-827-6189; Email: cinnamon.dixon@nih.gov

[NTW] [SUICIDE PREVENTION]
Notice of Special Interest (NOSI) in Reducing Suicide Risk in Young People in Low- and Middle-Income Countries and Low-Resource Settings

Sponsor: National Institute of Mental Health

Deadline(s): 06/05/2021 (First Available Due Date); 05/08/2024 (Expiration Date)

Contact: Scientific/Research Contact(s): Andrea Horvath Marques, MD, MPH, PhD; National Institute of Mental Health (NIMH); Telephone: 301-646-7320; Email: andrea.horvathmarques@nih.gov

[NTW] [SUICIDE PREVENTION]
NOT-MH-23-140: Notice of Special Interest (NOSI): Priority Research Opportunities in Crisis Response Services

Sponsor: National Institute of Mental Health; National Institute on Drug Abuse; Office of Research on Women's Health

Deadline(s): 02/05/2023 (First Available Due Date); 05/08/2025 (Expiration Date)

Contact: Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: Stephen O’Connor, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-480-8366; Email: stephen.o’connor2@nih.gov

Additional Information: Purpose, The National Institute of Mental Health (NIMH), National Institute on Drug Abuse (NIDA), and Office of Research on Women's Health (ORWH) are issuing this Notice of Special Interest (NOSI) to outline priorities for research in crisis response services.
Suicide Prevention Across the Life Span in Low- and Middle-Income Countries (R01 Clinical Trial Optional)

**Sponsor:** National Institute of Mental Health  
**Deadline(s):** 06/16/2023 (Earliest Estimated Application Due Date)  
**Contact:** Andrea Horvath Marques, M.D., Ph.D., MPH; National Institute of Mental Health (NIMH); Telephone: 301-646-7320; Email: andrea.horvathmarques@nih.gov

[NTW] [SUICIDE PREVENTION]

Notice of Special Interest (NOSI): Administrative Supplements for NIMH Grants to Inform the Assessment of Suicide Thoughts and Behaviors among Children and Preteens

**Sponsor:** National Institute of Mental Health; National Institute on Drug Abuse; National Institute on Minority Health and Health Disparities  
**Deadline(s):** 04/05/2022 (First Available Due Date); 04/02/2023 (Expiration Date)  
**Contact:** National Institute of Mental Health (NIMH); Mary Rooney, Ph.D.; Telephone: 301-827-1325; Email: mary.rooney@nih.gov  
**Additional Information:** Related Announcements: PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional); Reissue of NOT-MH-22-085 - Notice of Special Interest (NOSI): Administrative Supplements for NIMH Grants to Inform the Assessment of Suicide Thoughts and Behaviors among Children and Preteens

[NTW] [SUICIDE PREVENTION]

Understanding Suicide Risk and Protective Factors among Black Youth (R01 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Behavioral and Social Sciences Research  
**Deadline(s):** 06/20/2023; 06/21/2023 (Expiration)  
**Contact:** Scientific/Research Contact(s); Eric R. Murphy, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-443-9230; Email: eric.murphy@nih.gov  
**Link(s):** http://grants.nih.gov/grants/guide/rfa-files/RFA-MH-22-140.html  
**Additional Information:** Understanding Suicide Risk and Protective Factors among Black Youth; (R01 Clinical Trial Not Allowed); **FOA Number:** RFA-MH-22-140; **Key Dates:** Open Date (Earliest Submission Date): September 18, 2022; Expiration Date: June 21, 2023; **Purpose:** This FOA aims to advance translational research to better understand factors that confer risk and resilience for suicide among Black youth. This FOA encourages research that is designed to identify neurobiological, behavioral, social, and structural/systemic mechanisms underlying risk and protective factors for suicide among Black youth, with consideration for identification of novel targets for future development of prevention and intervention efforts. This FOA is intended to support R01 research project grants that are adequately powered and of sufficient scope to examine the impact of
empirically and theoretically suggested risk and protective factors on suicide and STB among Black youth, and the pathways by which these factors uniquely contribute to suicide related outcomes in this population. These studies should be adequately powered to definitively answer the primary research question(s), with well-justified hypotheses supported by pilot data. Support for earlier-stage exploratory developmental projects is provided via a companion FOA, RFA-MH-22-141. View RFA-MH-22-140

[NTW] [SUICIDE PREVENTION]
Understanding Suicide Risk and Protective Factors among Black Youth (R21 Clinical Trial Not Allowed)

| Sponsor: National Institute of Mental Health |
| Deadline(s): 06/20/2023; 06/21/2023 (Expiration) |
| Contact: Scientific/Research Contact(s); Eric R. Murphy, Ph.D.; National Institute of Mental Health (NIMH); Telephone: 301-443-9230; Email: eric.murphy@nih.gov |
| Additional Information: Understanding Suicide Risk and Protective Factors among Black Youth; (R21 Clinical Trial Not Allowed); FOA Number: RFA-MH-22-141; Key Dates: Open Date (Earliest Submission Date): September 18, 2022; Expiration Date: June 21, 2023; Purpose: This FOA aims to advance translational research to better understand factors that confer risk and resilience for suicide among Black youth. R21 exploratory grant awards in response to this FOA are intended to conduct preliminary work regarding the assessment and characterization of risk and protective factors, with consideration for the identification of novel targets for future development of prevention and intervention efforts. Studies may involve evaluating the relevance of risk and protective factors for Black youth and their families, identifying risk or protective factors (or their interactions) unique to Black youth (or subgroups of this population), developing new or adapted assessment methods that are developmentally and culturally appropriate, and/or examining the acceptability and utility of existing assessment methods. This FOA supports exploratory developmental projects focused on refining strategies for the assessment and characterization of risk and protective factors and collecting preliminary data needed as a pre-requisite to a larger-scale, definitive project. A companion R01 FOA RFA-MH-22-140 supports larger scale projects that are of sufficient scope and are powered to provide a definitive examination of risk/protective factors associated with suicide risk among Black youth; RFA-MH-22-141 |

**Contact:** Scientific/Research Contact(s); Gila Neta, PhD; National Cancer Institute (NCI); Telephone: 240-276-6785; Email: Gila.Neta@nih.gov

**Additional Information:** The purpose of this Funding Opportunity Announcement (FOA) is to support studies that will identify, develop, and/or test strategies for overcoming barriers to the adoption, adaptation, integration, scale-up, and sustainability of evidence-based interventions, practices, programs, tools, treatments, guidelines, and policies. Studies that promote equitable dissemination and implementation of evidence-based interventions among underrepresented communities are encouraged. Conversely, there is a benefit in understanding circumstances that create a need to stop or reduce (“de-implement”) the use of practices that are ineffective, unproven, low-value, or harmful. In addition, studies to advance dissemination and implementation research methods and measures are encouraged. Applications that focus on re-implementation of evidence-based health services (e.g. cancer screening) that may have dropped off amidst the ongoing COVID pandemic are encouraged.

[NTW] [CONFERENCE AND MEETING SUPPORT]
**NIH Support for Conferences and Scientific Meetings (Parent R13 Clinical Trial Not Allowed)**

**Sponsor:** National Institutes of Health; National Center for Advancing Translational Sciences; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; *Eunice Kennedy Shriver* National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of General Medical Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Library of Medicine; Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs  
**Deadline(s):** standard due dates; 01/07/2024; 01/08/2024 (Expiration)  
**Contact:** Scientific/Research Contact information is listed in the table at R13 Contacts and Special Interest website.  
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PA-21-151.html

[NTW] [CONFERENCE AND MEETING SUPPORT/AHRQ]
**PA-22-238: AHRQ Conference Grant Programs (R13)**

**Sponsor:** Agency for Healthcare Research and Quality  
**Deadline(s):** Standard dates apply; 10/31/2026; 11/01/2026 (Expiration)  
**Contact:** Scientific/Research Contact(s); Direct your questions about general NOFO issues: Linda Franklin; Conference Grant Program Administrator; Agency for Healthcare Research and Quality; Office of Extramural Research, Education and Priority Populations; Division of Policy, Coordination and Analysis; Telephone: (301) 427-1904; Email: linda.franklin@ahrq.hhs.gov  
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PA-22-238.html

**Additional Information:** Funding Opportunity Purpose: The Agency for Healthcare Research and Quality (AHRQ) announces its interest in supporting conferences through the AHRQ Single-Year and Multiple-Year Conference grant programs.
AHRQ seeks to support conferences that help further its mission to produce evidence to make health care safer, higher quality, more accessible, equitable and affordable, and to work with HHS and other partners to make sure the evidence is understood and used. The types of conferences eligible for support include:

1. Research Development;
2. Research Design and Methodology;
3. Dissemination and Implementation;
4. Research Training, Infrastructure and Career Development;

AHRQ is especially interested in supporting conferences that demonstrate strategies that include plans for disseminating complementary conference materials and products beyond the participants attending the event. Regionally-based conferences are acceptable with the expectation that plans will be developed for national dissemination. Such strategies might include, but are not limited to, submitting articles for publication, posting information on a website, and seeking formal opportunities to discuss conference information with others.

[NTW] [GENDER]

RFA-OD-22-014: Specialized Centers of Research Excellence (SCORE) on Sex Differences (U54 Clinical Trial Optional)

**Sponsor:** Office of Research on Women’s Health; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute on Drug Abuse; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of Mental Health

**Deadline(s):** 08/15/2024; 08/16/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Rajeev K. Agarwal, Ph.D.; Office of Research on Women’s Health (ORWH); Telephone: (301) 451-7058; Email: rajeev.agarwal@nih.gov

[NTW] [GENDER]

NOT-OD-23-029: Notice of Special Interest (NOSI): Research on Gender Measurement (Admin Supp Clinical Trial Optional)
**Sponsor:** Office of Research on Women’s Health; National Cancer Institute; National Institute on Aging; National Institute of Allergy and Infectious Diseases; National Institute on Drug Abuse; National Institute on Minority Health and Health Disparities; National Library of Medicine

**Deadline(s):** 02/28/2023 (First Available Due Date) 03/01/2023 (Expiration Date)

**Contact:** Please direct all inquiries to: Elizabeth Barr, Ph.D.; Office of Research on Women’s Health
Telephone: 301-402-7895; Email: elizabeth.barr@nih.gov

**Additional Information:** Purpose: The Office of Research on Women’s Health (ORWH) announces the availability of administrative supplements to support research testing gender terminology (e.g., woman, man, nonbinary) for measuring current gender identity as part of the two-step method of data collection (sex assigned at birth and current gender identity). The NIH Office of Research on Women’s Health (ORWH) recently released the Notice of Special Interest (NOSI): Research on Gender Measurement (Admin Supp Clinical Trial Optional). This NOSI announces the availability of administrative supplements to support research testing gender terminology (e.g., woman, man, nonbinary) for measuring current gender identity as part of the two-step method of data collection (sex assigned at birth and current gender identity). This opportunity is co-funded by ORWH in partnership with the National Institute on Aging, the National Institute of Allergy and Infectious Diseases, the National Institute on Drug Abuse, the National Institute on Minority Health and Health Disparities, the National Library of Medicine, the National Cancer Institute, and the Sexual and Gender Minority Research Office. For funding consideration, applications are due February 28, 2023.

**[NTW] [POPULATION DYNAMICS]**

**Notice of Information: NICHD Population Dynamics Centers Research Infrastructure Program FY2023 and FY2024**

**Sponsor:** **Eunice Kennedy Shriver** National Institute of Child Health and Human Development

**Deadline(s):** 06/08/2021 (Release Date)

**Contact:** Rosalind B. King, PhD; **Eunice Kennedy Shriver** National Institute of Child Health and Human Development (NICHD); Telephone: 301-435-6986; Email: rozking@mail.nih.gov

---

**[NTW] [TRANSLATIONAL]**

**Virtual Consortium for Translational/Transdisciplinary Environmental Research (ViCTER)**

**SRP Funding Opportunities**

**Sponsor:** National Institute of Environmental Health Sciences

**Deadline(s):** 02/01/2024; 02/02/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Heather Henry, Ph.D.; National Institute of Environmental Health Sciences (NIEHS); Telephone: 984-287-3268; Email: heather.henry@nih.gov

Additional Information: ViCTER RFA Released!: Hello Colleagues, just wanted to share information about the release of NIEHS’s Request for Applications (RFA) for the multi-disciplinary “Virtual Consortium for Translational/Transdisciplinary Environmental Research (ViCTER)” RFA-ES-21-007, which posted yesterday evening.; The purpose of the ViCTER program is to foster and promote early-stage transdisciplinary collaborations and/or translational research efforts to address fundamental research among basic (technology and mechanism oriented), clinical (patient-oriented) and population-based researchers in the environmental health field. The newly established collaborative teams will come together in common interest to investigate potential linkages between human health and one or more environmental stressor(s). The ViCTER program is intended to support innovative high-risk, high-reward transdisciplinary/translational research projects that are more difficult to achieve in a typical R01 application. Collaboration among investigators at different institutions through a virtual consortium arrangement is encouraged. The next due date is February 1, 2022. There will be a free informational webinar on November 18th from 2-3pm ET. Please visit the ViCTER webpage for a link to register to the webinar and for any updates related to this announcement: https://www.niehs.nih.gov/research/supported/translational/victer/index.cfm.; I invite you to share this announcement with teams of researchers who might be interested in this funding mechanism. If you have questions, please don’t hesitate to reach out to me.; Thank you, Heather Henry; [brought to our attention by] Heather F. Henry, Ph.D.; Program Administrator; Superfund Research Program; National Institute of Environmental Health Sciences; Email: henryh@niehs.nih.gov; SRP Funding Opportunities

[NTW] [DOWN SYNDROME]

Notice of Special Interest (NOSI): Use of Digital Technology and Mobile Health (mHealth) to Improve Diagnosis, Assessments, Interventions, Management and Outcomes for Individuals with Down Syndrome Across the Lifespan (R21 Clinical Trial Not Allowed)

Sponsor: National Institutes of Health; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute of Arthritis and Musculoskeletal and Skin Diseases; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research

Deadline(s): 10/16/2021 (First Available Due Date); 11/17/2023 (Expiration Date)

Contact: Scientific/Research Contact(s); Sujata Bardhan, Ph.D.; Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Telephone: 301-435-0471; Email: sujata.bardhan@nih.gov

[NTW] [DOWN SYNDROME]

PAR-22-195: INvestigation of Co-occurring conditions across the Lifespan to Understand Down syndromE (INCLUDE) Clinical Research Short Course (R25 Independent Clinical Trial Not Allowed)

Sponsor: Office of the Director, NIH; John E. Fogarty International Center; National Cancer Institute; National Eye Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; Eunice Kennedy Shriver National Institute of Child Health Sciences; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Institute of Allergy and Infectious Diseases; National Institute of General Medical Sciences; National Institute of Biomedical Imaging and Bioengineering; National Institute on Drug Abuse; National Institute of Child Health and Human Development; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of General Medical Sciences; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of General Medical Sciences; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of General Medical Sciences; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of General Medical Sciences; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Allergy and Infectious Diseases; National Institute of Biomedical Imaging and Bioengineering; National Institute of General Medical Sciences; National Institute of Nursing Research; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Nursing Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abus
and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke

**Deadline(s):** 06/27/2023; 09/08/2025 (Expiration)

**Contact:** Scientific/Research Contact(s): The INCLUDE website has a list of contacts for each participating NIH Institute and Center.; Peer Review Contact(s); Natalia Komissarova, Ph.D.; Center for Scientific Review; Telephone: 301-435-1206; Email: natalia.komissarova@nih.gov

---

**[NTW] [DOWN SYNDROME]**

**Notice of Special Interest (NOSI): Mentored Career Development Awards to Foster the Careers of Investigators Pursuing Research Related to Down syndrome as Part of the INCLUDE Project**

**Sponsor:** Office of the Director, NIH; John E. Fogarty International Center; National Cancer Institute; National Eye Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute of Arthritis and Musculoskeletal and Skin Diseases; *Eunice Kennedy Shriver* National Institute of Child Health and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke

**Deadline(s):** 07/12/2022 (First Available Due Date); 11/13/2024 (Expiration Date)

ANNOUNCEMENTS (NIH and Other)

Successor-in-Interest (Type 6 Parent Clinical Trial Optional)
Sponsor: National Institutes of Health; John E. Fogarty International Center; National Center for Advancing Translational Sciences; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging;
National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of General Medical Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Library of Medicine; Office of Behavioral and Social Sciences Research; Office of Research on Women's Health

**Deadline(s):** A successor-in-interest request must be made before the anticipated start date at the new organization and preferably several months in advance; 07/24/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); For any scientific or research-related questions on this successor-in-interest announcement please contact the Program Officer listed on the NoA of the most recent award.

---

**Notice of Requirement for Electronic Submission of all Administrative Supplements**

**Sponsor:** National Institutes of Health

**Deadline(s):** [1] Effective immediately, NIH will begin accepting administrative supplement applications for multi-project awards electronically. Since the administrative supplement applies to the parent award as a whole, the single-project application form package used for research grants and cooperative agreements will be used for these submissions (e.g., Competition ID= "FORMS-F-ADMINSUPP-RESEARCH."); [2] Effective July 25, 2020, the streamlined submission method through the eRA Commons will be discontinued and replaced with the option to initiate the administrative supplement application within eRA Commons and leverage technology available in NIH ASSIST to complete submission.; [3] Effective July 25, 2020, all supplement applications to existing single and multi-project awards must be submitted electronically through Grants.gov using NIH ASSIST, Grants.gov Workspace, or institutional system-to-system (S2S) solutions.

**Contact:** Please direct all inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA) Systems Policy Branch; Email: operasystemspolicy@nih.gov

**Additional Information:** Related Announcements: PA-18-591-Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional); PA-18-592-Research Supplements to Promote Re-Entry into Biomedical and Behavioral Research Careers (Admin Supp - Clinical Trial Not Allowed); This Notice alerts the extramural community of three updates to our administrative supplement submission policies.

---

**Competing Revisions to Existing NIH Grants and Cooperative Agreements (Clinical Trial Optional)**

**Sponsor:** National Institutes of Health; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences

**Deadline(s):** See the competitive revision NOI for any applicable Application Due Dates. Applicants are encouraged to apply early to allow adequate time to make any corrections to errors found in the application during the submission process by the due date. Open dates may vary by awarding IC on an as-needed rolling basis. See competitive revision NOI published by an NIH Institute or Center for applicable Application Due Dates.; 04/03/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); For any scientific or research-related questions on this competitive revision notice please contact the Program Officer listed on NoA of the most recent parent award.

Research Project Grant (Parent R01 Basic Experimental Studies with Humans Required)

**Sponsor:** National Institutes of Health; National Center for Complementary and Integrative Health; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Library of Medicine

**NIH single IRB (sIRB) policy**

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after) 01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Link(s):** https://grants.nih.gov/policy/clinical-trials/single-irb-policy-multi-site-research.htm

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if...
your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation; [brought to our attention by] Stephanie F. Scott, Director of Policy & Research Development, SPA; Columbia | Research; Sponsored Projects Administration; Phone: (212) 854-0606; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu; and Alan Teller, Director of Operations, HRPO. At2059@cumc.columbia.edu

Change of Grantee Organization (Type 7 Parent Clinical Trial Optional)

Sponsor: National Institutes of Health; National Cancer Institute; National Eye Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Allergy and Infectious Diseases; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Diabetes and Digestive and Kidney Diseases; National Institute of Environmental Health Sciences; National Institute of General Medical Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke; National Institute of Nursing Research; National Library of Medicine; Office of Behavioral and Social Science Research; Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs; Office of Research on Women’s Health; The Common Fund/Offerce of Strategic Coordination

Deadline(s): A change of grantee organization request must be made before the anticipated start date at the new organization and preferably several months in advance.

Contact: Scientific/Research Contact(s): For any scientific or research-related questions on this Change of Grantee Organization announcement please contact the Program Officer listed on NoA of the most recent award.

Updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements

Additional Information: HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.; Status of the Revised Common Rule: The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and
Compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.

**Revised Policies:** Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!

**Revised Standard Operating Procedures (SOPs):** Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; **Process for Implementing the NIH Single IRB Policy:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be access here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.

**Upcoming HRPO Education Sessions: Monthly IRB-Investigation Monthly Meetings:** (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; **We want to hear from you:** Please send us your questions as well as suggestions for topics for future education sessions! We look forward to hearing from you!

**New NIH Review Criteria for K’s, F’s, & T’s:** The NIH Announces New Review Criteria for Career Development Award Applications Involving Clinical Trials

**Who At NIH Can Answer my Question About….?**

**Sponsor:** NIH

**Deadline(s):** NA (Announcement/Information)

**Contact:** Please see posting for individual contact links

**Link(s):** https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm

**Additional Information:** Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information; See Who At NIH Can Answer my Question About….? Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer; [brought to our attention by] Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Columbia | Research; Sponsored Projects Administration; Phone: (212) 854-0606; Cell

Limited Competition: Small Research Grant Program for NIAID K01/K08/K23 Recipients (R03 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Allergy and Infectious Diseases

**Deadline(s):** Standard dates; Standard AIDS dates; 12/08/2023

**Contact:** Scientific/Research Contact(s): Email: AlITrainingHelpDesk@niaid.nih.gov

**Additional Information:** [SPA News] NIH Re-issued Parent F32 now available; NIH just posted the Parent F32 for individual postdoc fellowships. See PA-20-242. The next upcoming standard F32 deadline is August 8th. You may want to review the webinar I
conducted a few weeks ago related to FORMS-F, as it covers significant changes to individual fellowships concerning the NIH Rigor and Reproducibility Policy. See: [*] Slides; [*] Discussion Guide for Career Development and Fellowship Applicants on Rigor & Reproducibility skills; [*] Also see Read1 Program for more information and resources; [*] FORMS-F Checklists - courtesy of the VP&S Office for Research

Mid-Career Enhancement Awards to Integrate Basic Behavioral, Biomedical, and/or Social Scientific Processes (K18 No Independent Clinical Trials)
Sponsor: NIH Basic Behavioral and Social Science Opportunity Network; National Center for Complementary and Integrative Health; National Cancer Institute; National Institute on Alcohol Abuse and Alcoholism; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Behavioral and Social Sciences Research
Deadline(s): 03/17/2023; 03/18/2023 (Expiration)
Contact: William Elwood, PhD; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-402-0116; Email: william.elwood@nih.gov

Mid-Career Enhancement Awards to Integrate Basic Behavioral, Biomedical, and/or Social Scientific Processes (K18 Basic Experimental Studies with Humans Required)
Sponsor: NIH Basic Behavioral and Social Science Opportunity Network; National Center for Complementary and Integrative Health; National Cancer Institute; National Institute on Alcohol Abuse and Alcoholism; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; Office of Behavioral and Social Sciences Research
Deadline(s): 03/17/2023; 03/18/2023 (Expiration)
Contact: William Elwood, PhD; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-402-0116; Email: william.elwood@nih.gov

Notice of NCI's Participation on PA-20-197, "Mentored Quantitative Research Development Award (Parent K25 Independent Clinical Trial Required)
Sponsor: National Cancer Institute
Deadline(s): Standard dates; Standard AIDS dates; 05/08/2023 (Expiration) [for PA-20-197]
Contact: Please direct all inquiries to: Sonia B. Jakowlew, Ph.D., National Cancer Institute (NCI); Telephone: 240-276-5630; Email: jakowles@mail.nih.gov
Additional Information: Related Announcements; PA-20-197 Mentored Quantitative Research Development Award (Parent K25 Independent Clinical Trial Required)

Notice of NCI's Participation on PA-20-198, "Mentored Quantitative Research Development Award (Parent K25 Independent Basic Experimental Studies with Humans Required)
Sponsor: National Cancer Institute
Deadline(s): Standard dates; Standard AIDS dates; 05/08/2023 (Expiration) [for PA-20-198]
Contact: Please direct all inquiries to: Sonia B. Jakowlew, Ph.D., National Cancer Institute (NCI); Telephone: 240-276-5630; Email: jakowles@mail.nih.gov
Additional Information: Related Announcements; PA-20-198 Mentored Quantitative Research Development Award (Parent K25 Independent Basic Experimental Studies with Humans Required)

Mentored Clinical Scientist Research Career Development Award (Parent K08 Independent Basic Experimental Studies with Humans Required)
Sponsor: National Institutes of Health; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute of Neurological Disorders and Stroke
Deadline(s): Standard dates; Standard AIDS dates; 05/08/2023
Mentored Clinical Scientist Research Career Development Award (Parent K08 Independent Clinical Trial Required)

**Sponsor:** National Institutes of Health; National Center for Complementary and Integrative Health; National Cancer Institute; National Human Genome Research Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute on Alcohol Abuse and Alcoholism; National Institute of Biomedical Imaging and Bioengineering; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research; National Institute of Environmental Health Sciences; National Institute of Mental Health; National Institute on Minority Health and Health Disparities; National Institute of Neurological Disorders and Stroke

---

**HEALTH DISPARITIES AND MINORITY HEALTH**

**Health Services Research on Minority Health and Health Disparities (R01- Clinical Trial Optional)**

**Sponsor:** National Institute on Minority Health and Health Disparities; National Institute on Alcohol Abuse and Alcoholism; National Institute on Drug Abuse; Office of Behavioral and Social Sciences Research; Office of Disease Prevention; Office of Research on Women’s Health

**Deadline(s):** 02/17/2023, 03/28/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Please direct all inquiries to the contacts in Section VII of the listed funding opportunity announcements with the following additions/substitutions: NIMHD; Rada K. Dagher, PhD; National Institute on Minority Health and Health Disparities (NIMHD); Telephone: 301-451-2187; rada.dagher@nih.gov [please see rfa for other agency’s scientific contacts]

Long-Term Effects of Disasters on Health Care Systems Serving Health Disparity Populations (R01 Clinical Trial Optional)

**Sponsor:** National Institute on Minority Health and Health Disparities; National Cancer Institute; National Institute on Aging; National Institute on Drug Abuse

**Deadline(s):** Standard dates; Standard AIDS dates; 09/08/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Larissa Avilés-Santa, MD, MPH; National Institute on Minority Health and Health Disparities (NIMHD); Telephone: 301-827-6924; Email: aviles-santagi@nih.gov

ENVIRONMENTAL HEALTH SCIENCES

Outstanding New Environmental Scientist (ONES) Award (R01 Clinical Trial Optional)

**Sponsor:** National Institute of Environmental Health Sciences

**Deadline(s):** 02/24/2023; 02/25/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Carol A. Shreffler, Ph.D.; National Institute of Environmental Health Sciences (NIEHS); Telephone: 984-287-3322; Email: shreffl1@niehs.nih.gov

IRVING INSTITUTE

Call for Applications: Irving Institute Pilot Awards

**Sponsor:** Irving Institute

Please see individual Pilots

**Contact:** [http://irvinginstitute.columbia.edu/people/contact.html](http://irvinginstitute.columbia.edu/people/contact.html)

NCATS Announces Plans to Publish the ASPIRE 2020 Reduction-to-Practice Challenge Prize Competition

**Sponsor:** National Center for Advancing Translational Sciences  
**Deadline(s):** The Announcement is expected to be published in September 2020 with an expected submission window from late November through the end of February 2021.  
**Contact:** Please direct all inquiries to: We strongly encourage interested parties to contact NCATS ASPIRE Program staff listed below to discuss potential submissions. Inquiries may also be sent to: [NCATSASPIREChallenge@mail.nih.gov](mailto:NCATSASPIREChallenge@mail.nih.gov) ; Danilo Tagle, Ph.D.; National Center for Advancing Translational Sciences (NCATS); Telephone: 301-594-8064; Email: [danilo.tagle@nih.gov](mailto:danilo.tagle@nih.gov)  

**COMPLEMENTARY AND INTEGRATIVE MEDICINE**

Center of Excellence for Research on Complementary and Integrative Health (P01, Clinical Trial Optional)

**Sponsor:** National Center for Complementary and Integrative Health  
**Deadline(s):** Standard dates; 05/26/2023  
**Contact:** Scientific/Research Contact(s); Craig Hopp, Ph.D.; National Center for Complementary and Integrative Health (NCCIH); Telephone: 301-496-5825; Email: [hoppdc@mail.nih.gov](mailto:hoppdc@mail.nih.gov)  
EMERGENCY MANAGEMENT RESPONSES/PREPAREDNESS AND CHEMICAL THREATS/FEMA/DHS/DEPARTMENT OF HOMELAND SECURITY

Countermeasures Against Chemical Threats (CounterACT) Research Centers of Excellence (U54 Clinical Trial Optional)

**Sponsor:** National Institute of Neurological Disorders and Stroke; National Eye Institute; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute on Drug Abuse; National Institute of Environmental Health Sciences

**Deadline(s):** 09/12/2023; 09/13/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); For questions related to the overall CounterACT program and/or neurological injury research including threat agents of interest: David A. Jett, Ph.D.; National Institute of Neurological Disorder and Stroke (NINDS); Telephone: 301-496-6035; Email: jettd@ninds.nih.gov

Countermeasures Against Chemical Threats (CounterACT) Exploratory/Developmental Projects (R21 Clinical Trial Not Allowed)

**Sponsor:** National Institute of Neurological Disorders and Stroke; National Eye Institute; National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute on Drug Abuse; National Institute of Environmental Health Sciences

**Deadline(s):** 05/30/2023; 05/31/2023 (Expiration)

**Contact:** For questions related to the overall CounterACT Program and/or neurological injury research: Shardell Spriggs, Ph.D.; National Institute of Neurological Disorders and Stroke (NINDS); Telephone: 301-443-8189; Email: shardell.spriggs@nih.gov

ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY

NIOSH Centers of Excellence for Total Worker Health (U19)

**Sponsor:** National Institute for Occupational Safety and Health

**Deadline(s):** 10/30/2023; 10/31/2023 (Expiration)

**Contact:** Scientific/Research Contact(s); Maria Lioce, MD; National Institute for Occupational Safety and Health (NIOSH); Centers for Disease Control and Prevention (CDC); Telephone: 404-498-2575; Email: MLIoce@cdc.gov

CANCER / ONCOLOGY

Cancer Research Education Grants Program - Curriculum or Methods Development (R25 Clinical Trial Not Allowed)

**Sponsor:** National Cancer Institute

**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2024 (Expiration)

**Contact:** Scientific/Research Contact(s); Jeannette F. Korczak, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-5630; Email: korczakj@mail.nih.gov

Cancer Research Education Grants Program - Courses for Skills Development (R25 Clinical Trial Not Allowed)

**Sponsor:** National Cancer Institute

**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2024 (Expiration)
Cancer Research Education Grants Program - Research Experiences (R25 Clinical Trial Not Allowed)
Sponsor: National Cancer Institute
**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2024 (Expiration)
**Contact:** Scientific/Research Contact(s); Jeannette F. Korczak, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-5630; Email: korczakj@mail.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-067.html

National Cancer Institute's Investigator-Initiated Early Phase Clinical Trials for Cancer Treatment and Diagnosis (R01 Clinical Trial Required)
Sponsor: National Cancer Institute
**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2024 (Expiration)
**Contact:** Scientific/Research Contact(s); For Therapeutic Studies: Lori A. Henderson, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-9390; Email: hendersonl@email.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-033.html

Cancer Prevention and Control Clinical Trials Grant Program (R01 Clinical Trial Required)
Sponsor: National Cancer Institute
**Deadline(s):** Standard dates; Standard AIDS dates; 01/08/2024 (Expiration)
**Contact:** Scientific/Research Contact(s); For cancer prevention, early detection, screening, and symptom management-related clinical trials, contact: Brandy Heckman-Stoddard, Ph.D., M.P.H.; National Cancer Institute (NCI); Telephone: 240-276-7048; Email: heckmanbm@email.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-035.html

Assay Validation of High Quality Markers for Clinical Studies in Cancer (UH2/UH3 Clinical Trial Not Allowed)
Sponsor: National Cancer Institute
**Deadline(s):** 07/10/2023; 10/10/2023; 10/11/2023 (Expiration)
**Contact:** Scientific/Research Contact(s); For inquiries related to response, resistance, and risk stratification markers for treatment trials, please contact: Tracy G. Lively, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-5944; Email: livelyt@mail.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-20-313.html

New Informatics Tools and Methods to Enhance U.S. Cancer Surveillance Research (U01 Clinical Trial Optional)
Sponsor: National Cancer Institute
**Deadline(s):** 06/06/2023; 06/07/2023 (Expiration)
**Contact:** Scientific/Research Contact(s); For Research Area 1 related inquiries: Angela B. Mariotto, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-6698; Email: mariotta@mail.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-20-170.html

Perception and Cognition Research to Inform Cancer Image Interpretation (R01 Clinical Trial Optional)
Sponsor: National Cancer Institute; National Institute of Biomedical Imaging and Bioengineering
**Deadline(s):** Standard dates; 01/08/2023 (Expiration)
**Contact:** Scientific/Research Contact(s); Todd S Horowitz, Ph.D.; National Cancer Institute (NCI); Telephone: 240-276-6963; Email: todd.horowitz@mail.nih.gov
**Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-19-387.html
