[NTW] [WEEKLY HIGHLIGHT/ANNOUNCEMENTS (NIH)] Title: Correction to Application Guide Instructions for Subawards Not Active in All Budget Periods of the Prime Applicant;
Sponsor: Issued by: National Institutes of Health;
Deadline(s): NA/Release Date: February 26, 2015;
Contact: Inquiries: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714; - See more at:
Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350;
Fax: 212-305-6450; Email: rr21@cumc.columbia.edu;
Link(s): NOT-OD-15-073;
Additional Information: [Forwarded from SPA/Rosa Rivera]: Hello, NIH published NOT-OD-15-073, which changes guidance on how to handle subawards that are not active in all periods of a prime budget. Please see below.; Notice Number: NOT-OD-15-073; Key Dates; Release Date: February 26, 2015; Related Announcements: None; Issued by: National Institutes of Health (NIH); Purpose: This Notice informs the community of a correction to the General Application Guide SF424 (R&R) - Forms Version C instructions related to preparing R&R Budget forms for subaward budgets which are not active for all periods of the prime budget.; The guidance found under "Submitting Subaward Budgets that are not Active for all Periods of the Prime Grant" in section "4.8 Special Instructions for Preparing Applications with a Subaward/Consortium" no longer aligns with our system processing. That section should be replaced in its entirety with the following: Submitting Subaward Budgets That Are Not Active for All Periods of the Prime Grant; Complete all budget periods in the R&R Budget form for your subaward budgets, aligning the budget period numbers, start dates and end dates with the budget periods of the prime grant.; Example: The prime fills out an R&R Budget form with the following periods: (*) period 1 - Jan 1, 2016 – Dec 31, 2016; (*) period 2 - Jan 1, 2017 – Dec 31, 2017; (*) period 3 - Jan 1, 2018 – Dec 31, 2018; (*) period 4 - Jan 1, 2019 – Dec 31, 2019; (*) period 5 - Jan 1, 2020 – Dec 31, 2020; The budget period numbers and dates should be the same in the R&R Budget forms for the subawards.; The R&R Budget forms do not allow for "empty" budget periods. They include several require fields which must be completed (even for inactive periods) in order to successfully submit.; Provide the following information for inactive budget periods: (*) Organization DUNS; (*) Budget
Type = Subaward/Consortium; (*) Budget Period Start/End Dates (align with budget periods and dates of the prime budget); (*) In section A: Senior/Key Person, provide a single entry including the following: (*) PD/PI or subaward lead First and Last names; (*) Project Role (may default to PD/PI; can be adjusted as needed); (*) Calendar Months = .01 (smallest amount effort allowed in the field); (*) Requested Salary = $0; (*) Fringe Benefits = $0; (*) Explanation of the inactive budget periods in the budget justification; The next iteration of the General Application Guide SF424 (R&R) - Forms Version C will include the correction. Inquiries: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714; - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-15-073.html#nnadash.63KBJTQq.dpuf; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@columbia.edu;

Additional Information: Dear Colleagues, The Gates foundation and its Grand Challenges partners are now accepting applications for the following grant programs – for more information please visit the grant opportunities page at www.grandchallenges.org; (1) Grand Challenges Explorations, an initiative to encourage innovative and unconventional global health and development solutions, is now accepting grant proposals for its latest application round. Applicants can be at any experience level; in any discipline; and from any organization, including colleges and universities, government
The following topics are being accepted online until May 13, 2015:

1. Addressing Newborn and Infant Gut Health Through Bacteriophage-Mediated Microbiome Engineering
2. Explore New Ways to Measure Delivery and Use of Digital Financial Services Data
3. Surveillance Tools, Diagnostics and an Artificial Diet to Support New Approaches to Vector Control
4. Reducing Pneumonia Fatalities Through Innovations that Improve Pneumonia Diagnosis & Referral of Malnourished Children
5. Enable Merchant Acceptance of Mobile Money Payments

Initial grants will be US $100,000 each, and projects showing promise will have the opportunity to receive additional funding of up to US $1 million. Full descriptions of the new topics and application instructions are available at www.grandchallenges.org.

(2) Saving Lives at Birth: A Grand Challenge for Development has launched its fifth round for innovative prevention and treatment approaches for pregnant women and newborns in poor, hard-to-reach communities around the world. Saving Lives at Birth partners will fund transformative approaches that cut across three main domains: (i) science & technology, (ii) service delivery, and (iii) demand-side innovation.

(3) All Children Reading: A Grand Challenge for Development has launched two grant opportunities: 
1. Technology to Support Education in Crisis and Conflict Settings Ideation Challenge: It is seeking technology-supported approaches to provide basic education in one or more of the following situations: health crisis, natural disaster, and conflict zone. Proposed solutions should be usable within the first six months after the onset of the crisis or conflict and be usable within the context of a developing country.
2. The Tracking & Tracing Books Prize Competition is seeking innovations to track books destined for early-grade classrooms and learning centers in low-income countries and allow stakeholders, ranging from parents to Ministries of Education and donor agencies, to quickly and easily access tracking information.

(4) The Global Health Innovative Technology Fund (GHIT) as part of its new Grand Challenges Japan initiative has launched a Target Research Platform to fund bold ideas in drugs, vaccines, and diagnostics for a set of priority neglected infectious diseases. Applications must be from a partnership between Japanese and non-Japanese organizations.

We are looking forward to receiving innovative ideas from around the world and from all disciplines. If you have a great idea, please apply. If you know someone who may have a great idea, please forward them this information. Thank you for your commitment to solving the world’s greatest health and development challenges.

Guided by the belief that every life has equal value, the Bill & Melinda Gates Foundation works to help all people lead healthy, productive lives.

[NTW] [CAPITAL EQUIPMENT/INTERNAL COLUMBIA VETTING] Title: NIH High-End Instrumentation Grant Program (S10);

Sponsor: NIH; Division of Program Coordination, Planning and Strategic Initiatives, Office of Research Infrastructure Programs;

Deadline(s): INTERNAL DEADLINE: 9:00 A.M. ON MONDAY, APRIL 27, 2015; NIH deadline – May 29, 2015;
Contact: Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 408A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu; Download my vCard: http://bit.ly/1E7fEOH; Abraham Levy, PhD; Shared Instrumentation Program; Office of Research Infrastructure Programs (ORIP); Telephone: 301-435-0777; Email: HEI@mail.nih.gov;

Additional Information: WHAT: The High-End Instrumentation Grant (HEI) program encourages applications from groups of NIH-supported investigators to purchase or upgrade a single item of expensive, specialized, commercially available instruments or integrated systems that cost at least $600,000. The maximum award is $2,000,000. Awards are made for one year and for direct cost of the instrument only.; IMPORTANT INFORMATION: (*) Under the S10 mechanism, funding requests are limited to the purchase cost of the instrument only. Support is not allowable for technical personnel, service contracts, extended warranties, and supplies.; (*) The program does not provide facilities and administrative (F&A) costs or support for construction or alterations or renovations.; (*) Matching funds are not required; however, commitment of an appropriate level of institutional support to insure the associated infrastructure is expected (building alterations, or renovations, post-award service contracts and technical personnel).; WHO: For eligibility, a Major User group composed of at least three individuals must be identified. Each member of this group must be a PD/PI on an NIH award with one of the following activity codes: R01, DP1, DP2, P01, P50, R37, and U01. (The requirement is one award per investigator, with more awards per investigator allowed. An award given to multi-PDs/PIs is counted only once towards fulfilling this requirement.) Once this eligibility requirement has been met, additional users with other types of active NIH research grants (such as but not limited to R03, R21, P30, P41, P50) mechanisms can be added as major or minor users. NIH training grants and contracts are not eligible. To demonstrate the clear need for the requested instrumentation, projects supported by NIH research grants should require at least 75 percent of the total usage time.; WHEN: Internal deadline – 9:00 a.m. on Monday, April 27, 2015; NIH deadline – May 29, 2015; HOW: This program will not allow multiple requests for the same type of instrumentation from the same institution. Therefore, anyone who plans to request instrumentation funding through this program must submit an internal proposal that includes the following information: Instrumentation Plan: (*) Describe the instrument requested including manufacturer and model number.; (*) PI name and contact information.; Institutional Commitment: (*) Describe the institutional infrastructure (space, environment and utilities) available to support the instrumentation.; (*) Describe the required institutional commitment (in dollars) and identify the source of the funds.; (*) Confirm the institutional support toward the maintenance and operation of the instrument. Describe institutional support for personnel. In particular, confirm that the institution will commit to provide backup of the financial plan for five years from installation of the equipment or for the effective lifetime of the instrument. Please submit the above information by email to gcc19@columbia.edu and mb3952@columbia.edu by no later than 9:00 a.m. on Monday, April 27, 2015. The subject heading of the email should be "NIH High-End Instrumentation Grant Program."; Program Announcement: http://grants.nih.gov/grants/guide/pa-files/PAR-15-118.html; Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 408A Low Memorial Library.

Additional Information: WHAT: The Shared Instrument Grant (SIG) program encourages applications from groups of NIH-supported investigators to purchase or upgrade a single item of expensive, specialized, commercially available instrumentation or an integrated system that costs at least $50,000. The maximum award is $600,000. Awards are made for one year and for direct cost of the instrument only.; IMPORTANT INFORMATION: (*) Under the S10 mechanism, funding requests are limited to the purchase cost of the instrument only. Support is not allowable for technical personnel, service contracts, extended warranties, and supplies.; (*) The program does not provide facilities and administrative (F&A) costs or support for construction or alterations or renovations.; (*) Matching funds are not required; however, commitment of an appropriate level of institutional support to insure the associated infrastructure is expected (building alterations, or renovations, post-award service contracts and technical personnel).; WHO: For the purpose of eligibility, a major user group of three or more investigators must be identified. A minimum of three major users must be Principal Investigators on NIH peer-reviewed research grants at the time of the application and award. For purposes of this program, research grants are defined as those grants awarded with the following activity codes: P01, R01, U01, R35, R37, DP1 and DP2.; WHEN: Internal deadline – 9:00 a.m. on Monday, May 4, 2015; NIH deadline – Friday, May 29, 2015; HOW: This program will not allow multiple requests for the same type of instrumentation from the same institution. Therefore, anyone who plans to request instrumentation funding through this program must submit an internal proposal that includes the following information.; Instrumentation Plan: (*) Describe the instrument requested including manufacturer and model number.; (*) PI name and contact information.; (*) Financial Plan. Submit a specific financial plan for long-term operation and maintenance of the instrument. Explain how various operational costs will be met; specifically, costs associated with routine operation of the instrument, the maintenance, support personnel, and service costs associated with effective use of the instrument must be described.; Institutional Commitment: (*) Describe the institutional infrastructure (space, environment and utilities) available to support the instrumentation.; (*) Letter of Institutional Commitment. Please provide a letter of support that includes an explicit commitment to provide backup for the proposed financial plan. Specifically, the letter must state that if the financial plan should fall short of its projected income, funds are available to replace the shortfall and maintain operation of the instrument.; Please send the internal proposal gcc19@columbia.edu and mb3952@columbia.edu as a single PDF file by no later than 9:00 a.m. on Monday, May 4, 2015. Additional Information: Dear Fellow Members of the Columbia Community: We are pleased to share with you the second Request for Proposals for Hybrid Learning Course Redesign and Delivery. Launched last October, this initiative is designed to provide support for faculty who are developing innovative and technology-rich pedagogy and learning strategies in the classroom and who will work to transform courses in the fall 2015 and spring 2016 semesters. Instructors of courses selected will have access to the resources and support of the Columbia Center for New Media Teaching and Learning (CCNMTL) for content development, instructional design, media production, systems integration, assessment, and project management. Courses selected will receive in-kind support from CCNMTL and will also be funded from $5,000 up to $20,000 for a one-semester period. A key goal of this fund is to measure the effectiveness of these designs, delivery methods and learning strategies, and to improve instructional delivery and learning outcomes of Columbia University students from all disciplines. Last fall, in response to our first Request for Proposals, we received over forty proposals from faculty across fourteen schools. A senior faculty review committee selected 16 projects to receive grants. Each project was chosen based on its potential to enhance teaching and learning at Columbia. The selected projects covered a broad range of disciplines and topics, from history to economics to biomedical engineering. These projects are already exposing undergraduate and graduate students alike to partial or full “flipping” of the classroom, team-based and experiential learning, and just-in-time teaching. The list of awardees, as well as an overview of Columbia’s resources for online education, can be found at our new website online.columbia.edu. The deadline for submission of applications is April 6, 2015. The Request for Proposals is attached, and can be viewed here. An additional RFP will be issued in fall 2015. We look forward to continuing to support Columbia faculty as they develop new and exciting ways to enhance teaching and learning at the University. John H. Coatsworth; Provost;

Additional Information: SYNOPSIS: National Institute of Child Health and Human Development (NICHD) and National Institute of Biomedical Imaging and Bioengineering (NIBIB) invite applications to support the initial stages of development of entirely new or next-generation placental imaging and assessment technologies and methods that will increase our capability to assess human placental structure and function safely in vivo throughout gestation and to explore the impact of environmental influences on placental structure and function across pregnancy. This program will use the NIH U01 Research Project Cooperative Agreements award mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 1, 2015. The deadline for receipt of optional letters of intent is May 1, 2015. The deadline for receipt of full applications is June 1, 2015, by 5:00 PM local time of applicant organization.;

[NTW] [MATERNAL AND CHILD HEALTH (MCH)] Title: RFA-ES-15-009--Children's Health Exposure Analysis Resource (CHEAR): National Exposure Assessment Laboratory Network (U2C);
Sponsor: National Institute of Environmental Health Sciences/NIH/DHHS;
Deadline(s): 03/30/2015; 04/30/2015;
Contact: E-mail: Balshaw@mail.nih.gov; Leroy Worth; Telephone: 919-541-0670; Fax: 301-480-3722; Email: Worth@niehs.nih.gov;
Additional Information: SYNOPSIS: National Institute of Environmental Health Sciences (NIEHS) invites applications for an infrastructure, the Children's Health Exposure Analysis Resource (CHEAR), to provide the extramural research community access to laboratory and statistical analyses to add or expand the inclusion of environmental exposures in their research. CHEAR is being solicited through three FOAs, this FOA solicits a network of laboratories providing a comprehensive suite of laboratory-based analytical services for samples derived from extant or ongoing children's health studies in the extramural research community. Each laboratory center (defined in this FOA as a Hub) within the network will provide analysis of environmental and endogenous exposures through both targeted and untargeted approaches. Each Hub will also provide analyses of biological response indicators such as DNA damage, oxidative stress, immune/inflammation indicators and other molecular markers. Hubs will incorporate a developmental core to develop novel measures for exposures and responses, expanding the number of current, commonly measured analytes, and developing new methods for detecting analytes in other biological matrices, in addition to serum, plasma or urine. The Children's Health Exposure Analysis Resource (CHEAR) is a multi-unit infrastructure to provide access to comprehensive exposure analysis that can be performed using biological samples collected in studies of children's health. The network has three units, a National Exposure Assessment Laboratory Network and an Exposure Data Repository and Resource for Statistical Analysis and Methods Development, as well as a coordinating center. This FOA will use the NIH; U2C Resource-Related Research Multi-Component Projects and Centers Cooperative Agreements award mechanism.; DEADLINE NOTE: Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted to Grants.gov in response to this announcement on or after March 30, 2015. The deadline for receipt of optional letters of intent is March 30, 2015. The deadline for receipt of full applications is April 30, 2015, by 5:00 PM local time of applicant organization.;

[NTW] [MATERNAL AND CHILD HEALTH (MCH)] Title: RFA-ES-15-010--Children's Health Exposure Analysis Resource (CHEAR): Data Repository, Analysis and Science Center (U2C); Sponsor: National Institute of Environmental Health Sciences/NIH/DHHS; Deadline(s): 03/30/2015; 04/30/2015; Contact: David M. CHEAR is being solicited through three FOAs, this FOA solicits a Data Repository, Analysis, and Science Center (Data Center) for CHEAR. The network has two units in addition to this Data Center, a National Exposure Assessment Laboratory Network and an overall CHEAR Coordinating Center. The Data Center will provide intellectual and logistical support for the maintenance, analysis, interpretation, curation, and reuse of data generated by CHEAR in support of extramural research projects. The Data Center will provide two distinct services to the extramural community. The Center will support statistical consultation and perform statistical analyses for studies using the CHEAR infrastructure including the development and dissemination of new statistical methods and informatics tools. In addition, the Data Center will
develop and manage an exposure data repository and associated data science resources. The ultimate goal is maximizing potential use and impact of exposure data both within and outside of CHEAR. This FOA will use the NIH U2C Resource-Related Research Multi-Component Projects and Centers Cooperative Agreements award mechanism.; DEADLINE NOTE: Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted to Grants.gov in response to this announcement on or after March 30, 2015. The deadline for receipt of optional letters of intent is March 30, 2015. Sponsor: CUMC Sponsored Projects and Office of Research Administration;
Deadline(s): NA;
Contact: NA;
Link(s): NA;
Additional Information: From Rudina Odeh-Ramadan, via Rosa Rivera; RE: Ebola Projects/MTA's; Dear All, The University continues to closely monitor information and recommendations regarding travel to West Africa countries experiencing the Ebola virus outbreak. Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost's approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@cumc.columbia.edu; Dear All: Additional clarification regarding the policy regarding research (proposals or MTA's) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval. One prerequisite for the Provost's approval will be a written evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission. Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement. ; Odeh-Ramadan, Rudina; Associate Vice President For Research Administration; Clinical Trials Office; Office of Research Administration; 154 Haven Avenue; Mail Code: Third Floor; New York NY 10032; United States 212-305-5064; Ro133@columbia.edu;

Title: Message from President Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It's critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Title: Note from Dean Fried;

Link(s): NA;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment. ; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;  
Sponsor: NIH;  
Deadline(s): Starting in October 2014;  
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;  

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the
Report
Research Resources - Friday Newsletter, 03/06/15

Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf.

TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Title: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;

Link(s): eRA Commons Manage Personal Profile: NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rrpr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey. Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog …. Continue reading →
Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you. Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

NEW ITEMS FROM THE NIH

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-Biz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors—they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

You Ask, We Answer:

☐ Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
☐ What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html); I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html) Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent); (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government’s single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. For more information about the GWIRP or other CDMRP-administered programs, please visit the CDMRP website (http://cdmrp.army.mil/); Point of Contact: CDMRP Public Affairs; 301-619-9783;
From our 5/9/14 Newsletter: DOD just sent a summary of the funding announcements currently available. Includes the research areas of Autism, Gulf War Illness, the Peer Reviewed Cancer Research Program, the Peer Reviewed Medical Research Program, the Peer Reviewed Orthopedic Research Program (PRORP), and Prostate Cancer. See below for details. Stephanie F. JUST RELEASED! FY14 DOD CDMRP Program Announcements: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP). This e-mail is to notify the research community of the recently released funding opportunities from the following programs: Autism Research Program (ARP), Gulf War Illness Research Program (GWIRP), Peer Reviewed Cancer Research Program (PRCRP), Peer Reviewed Medical Research Program (PRMRP), Peer Reviewed Orthopaedic Research Program (PRORP), and Prostate Cancer Research Program (PCRP). Detailed descriptions of each of the funding opportunities, evaluation criteria, and submission requirements can be found in the respective Program Announcements. Each Program Announcement is available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org).
Autism Research Program (ARP); Clinical Trial Award; Idea Development Award; Gulf War Illness Research Program (GWIRP); Clinical Trial Award; Innovative Treatment Evaluation Award; Investigator-Initiated Research Award; New Investigator Award; Peer Reviewed Cancer Research Program (PRCRP); Career Development Award; Idea Award with Special Focus; Peer Reviewed Medical Research Program (PRMRP); Clinical Trial Award; Discovery Award; Focused Program Award; Investigator-Initiated Research Award; Technology/Therapeutic Development Award; Peer Reviewed Orthopaedic Research Program (PRORP); Clinical Trial Award; Clinical Trial Development Award; Idea Development Award; Outcomes Research Award; Translational Research Award; Prostate Cancer Research Program (PCRP); Biomarker Development Award; Idea Development Award; Synergistic Idea Development Award

*Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/Unsubscribe” to program specific news and updates at https://ebrap.org; CDMRP also provides news and updates through Twitter and YouTube; Follow CDMRP on Twitter: https://twitter.com/CDMRP; Subscribe to CDMRP on YouTube: http://www.youtube.com/CDMRP
Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. FY14 DOD CDMRP Program Announcement(s)

The Fiscal Year 2014 (FY14) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).

This e-mail is to notify the research community of the recently released funding opportunities from the following programs: ALSRP, BMFRP, and BCRP. Detailed descriptions of each of the funding opportunities, evaluation criteria, and submission requirements can be found in the respective Program Announcements. Each Program Announcement is available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org).

Amyotrophic Lateral Sclerosis Research Program (ALSRP)

Therapeutic Development Award
Therapeutic Idea Award

Bone Marrow Failure Research Program (BMFRP)

Idea Development Award

Breast Cancer Research Program (BCRP)

Era of Hope Scholar Award
Innovator Award
Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

The Department of Defense (DoD) Peer Reviewed Medical Research Program (PRMRP) just released a pre-announcement to allow investigators time to plan and develop applications. The FY14 PRMRP will solicit research applications for 25 topic areas, listed below. The official funding announcements and application instructions will be released in April. See below for details.

**Defense Health Program**

**Department of Defense Peer Reviewed Medical Research Program**

**Funding Opportunities for Fiscal Year 2014**

The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $200 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP).

**PRMRP pre-announcement**

**Congressionally Directed Topic Areas.** The FY14 PRMRP will solicit research applications for the following 25 topics areas: Acupuncture; Arthritis; Chronic Migraine and Post-Traumatic Headaches; Congenital Heart Disease; DNA Vaccine Technology for Postexposure Prophylaxis; Dystonia; Epilepsy; Food Allergies; Fragile X Syndrome; Hereditary Angioedema; Illnesses Related to Radiation Exposure; Inflammatory Bowel Disease; Interstitial Cystitis; Lupus; Malaria; Metabolic Disease; Neuropathologies; Pancreatitis; Polycystic Kidney Disease; Post-Traumatic Osteoarthritis; Psychotropic Medications; Respiratory Health; Rheumatoid Arthritis; Segmental Bone Defects; Tinnitus

**Military Relevance:** Relevance to the healthcare needs of the military service members, veterans, and beneficiaries is a key feature of each FY14 PRMRP award mechanism.
