[NTW] [WEEKLY HIGHLIGHT/REMINDER/DEAN’S INITIATIVE AWARDS]
Title: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS;
Sponsor: Mailman School Dean’s Initiative;
Deadline(s): 03/15/2016;
Contact: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7);

Additional Information: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS; PROPOSALS DUE MARCH 15, 2016; The Dean’s Office invites innovative and promising pilot proposals to assist in the preparation of applications for NIH R01 or equivalent grants. These funds are intended to increase the likelihood of federal funding success, and preference will be given to proposals focused on using public health science to advance precision medicine. Prioritized topics may include the use of environmental, behavioral, epidemiological, socio-cultural and structural factors in parallel with genomics in personalized interventions; design and analysis of big data to inform individualized prevention and intervention strategies; tailoring methods to educate health providers and patients and to promote equity in access; and scalable implementation of precision medicine to reach a broad population. Priority will be given to pilot proposals that are interdisciplinary in nature and that cross departments within the Mailman School of Public Health. We encourage submissions with multiple PIs. Up to 4 proposals will be funded.; Pilot applications can request up to $25,000 and must be
completed within one year. International collaborations are permitted but must be discussed with Pam Factor-Litvak (prf1) or Regina Santella (rps1) prior to submission. Since the major goal of this program is to facilitate the development of collaborations and pilot data in support of an R01 or equivalent application, applicants must have either a professorial or a Research Scientist title. Only one proposal will be accepted from an individual principal investigator.; Instructions for Submission: The written application should be no more than 5 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title Page (1 page maximum, title, investigators and affiliations, abstract); (B) Specific Aims (1 page maximum); (C) Background; (D) Research plan; (E) Future plans, including a timeline for submission to NIH; (F) Budget and Justification (may include reasonable salary support for the PI); (G) NIH Formatted Biosketches for all Key Personnel (in new NIH format); (H) Post award deliverables: Awardees will be required to submit a NIH grant application within 6 months upon completion of the pilot. The NIH grant must be submitted through the Mailman School. Progress report will be required at mid-year and end of year of the funding period.; Review Criteria and Mechanism: An Internal Review Committee will review all proposals. Awardees will be notified by April 15, 2016.; Contacts: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7);

[NTW] [MATERNAL AND CHILD HEALTH (MCH)] **Title:** RFA-AI-16-001--Immunity in Neonates and Infants (U01);

**Sponsor:** National Institute of Allergy and Infectious Diseases/NIH/DHHS;

**Deadline(s):** 06/29/2016; 07/29/2016;

**Contact:** E-mail: mprabhudas@mail.nih.gov;

**Link(s):** Program URL: [http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-16-001.html](http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-16-001.html);

**Additional Information:** SYNOPIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for a cooperative research group, focusing on elucidating mechanisms regulating the development and function of the immune system in neonates (0-28 days) and infants (29 days - 12 months), including immune mechanisms triggered by non-pathogenic or pathogenic microbes (including HIV), vaccines, exposure to allergens, or alterations in immune function due to environmental exposures to pollutants. The purpose of this FOA is to advance current knowledge of the developing immune system during the first year of life and to encourage innovative approaches to more fully understand the distinct characteristics of neonatal/infant immune responses. Better understanding of infant and neonatal immune development has the potential to improve public health by providing a foundation for guiding the maturation of a healthy (protective) immune system and reducing the development of immune-mediated disorders, reducing susceptibility to infections and allergens, and improving immune responses to vaccines in these vulnerable populations. This FOA will use the NIH U01 Research Project Cooperative Agreements award mechanism.; **DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after June 29, 2016. The deadline for receipt of optional letters of intent is June 29, 2016. The deadline for receipt of full applications is July 29, 2016, by 5:00 PM local time of applicant organization.;
[NTW] [MATERNAL AND CHILD HEALTH (MCH)] **Title:** Maternal Nutrition and Pre-pregnancy Obesity: Effects on Mothers, Infants and Children; (R01);
**Sponsor:** National Institute of Nursing Research/NIH/DHHS;
**Deadline(s):** 05/07/2016; 06/05/2016; 09/07/2016; 10/05/2016; 01/07/2017; 02/05/2017; 05/07/2017; 06/05/2017; 09/07/2017; 10/05/2017; 01/07/2018; 02/05/2018; 05/07/2018;
**Contact:** E-mail: hardylr@mail.nih.gov;
**Link(s):** Program URL: [http://grants1.nih.gov/grants/guide/pa-files/PA-15-100.html](http://grants1.nih.gov/grants/guide/pa-files/PA-15-100.html);
**Additional Information:** SYNOPSIS: National Institute of Nursing Research (NINR) and Office of Dietary Supplements (ODS) invite applications to improve health outcomes for women, infants and children, by stimulating interdisciplinary research focused on maternal nutrition and pre-pregnancy obesity. Maternal health significantly impacts not only the mother but also the intrauterine environment, and subsequently fetal development and the health of the newborn. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2018.; [*]

[NTW] [USAID] **Title:** Health AKSYON Activity;
**Sponsor:** U.S. Agency for International Development;
**Deadline(s):** 03/25/2016; 04/01/2016;
**Contact:** E-mail: mbutler@usaid.gov;
**Link(s):** Program URL: [http://www.grants.gov/web/grants/view-opportunity.html?oppId=282004](http://www.grants.gov/web/grants/view-opportunity.html?oppId=282004);
**Additional Information:** SYNOPSIS: The U.S. Agency for International Development (USAID) mission in Haiti is issuing this Funding Opportunity to solicit technical applications for Aksyon Kominote nan Sante pou Ogmante Nitrisyon (AKSYON), a five-year Health & Nutrition Activity designed to address the core issues of undernutrition in Haiti. USAID expects AKSYON to improve knowledge and skill-building around essential components of Haitian child and adult nutrition, in line with USAID’s goal of achieving a 15% reduction in child stunting within the Feed the Future Zones of Intervention. AKSYON directly supports and contributes to the Government of Haiti (GOH)-led efforts in managing nutrition-related diseases, including tracking of acute malnutrition of women and children at the community level and referral for treatment. These efforts target the linkages between and among nutrition, water, and sanitation, and are articulated in the Government of Haiti’s Nutrition Strategic Plan (2013-2018) (Plan Stratigique Nutrition MSPP2013-2018) and National Sanitation Plan (2012-2015) (Politique Nationale du secteur Eau Potable et Assainissement 2012-2015). This Funding Opportunity comprises concrete program objectives to allow applicants the flexibility to develop and propose a detailed concept that includes high impact, cost-effective, and market-based interventions. USAID encourages applicants to submit results-oriented applications that present a logical, comprehensive, concrete, and measurable set of interventions.
to achieve the stated objectives and purpose. DEADLINE NOTE: Questions are due March 25, 2016, at 4:00 pm Haiti time. Applications are due April 1, 2016, at 4:00 pm Haiti time.

[NTW] [FOUNDATION FUNDING] Title: Helping Hands Grant Program;
Sponsor: American Psychiatric Foundation;
Deadline(s): 06/10/2016;

[NTW] [FOUNDATION FUNDING] Title: 2016 Complex Systems Scholar Award;
Sponsor: James S. McDonnell Foundation;
Deadline(s): 03/18/2016;
Contact: info@jsmf.org;
Link(s): More Information: https://www.jsmf.org/apply/scholar-cs/;
Additional Information: RFP Alerts for Faculty; Dear Department Chairs, On behalf of Dean Fried, I’m passing along these RFPs, which may be of interest to faculty in your department. Please distribute as you see appropriate. Thank you, [forwarded to our attention by] Ken (Nodolski); James S. McDonnell Foundation: 2016 Complex Systems Scholar Award; Deadline: March 18, 2016; Supports high-quality research and scholarship leading to the generation of new knowledge and its responsible application, with an emphasis on furthering the science of complex systems through the continued development of the theory and tools used in the study of complex research questions. Priority will be given to projects that attempt to apply complex systems approaches to coherently articulated questions. It is anticipated that successful applications will have PIs who are between 5 and 15 years post Ph.D. Largely unrestricted grants of up to $450,000 over 4 to 6 years will be awarded.
Dear Department Chairs, On behalf of Dean Fried, I’m passing along these RFPs, which may be of interest to faculty in your department. Please distribute as you see appropriate.; Thank you, [forwarded to our attention by] Ken (Nodolski): Providing participants with leadership training; advanced curriculum in health policy, community engagement, health equity and other topics; interdisciplinary collaboration, networking, and mentoring; and funding through stipends and grants. To make a shift as bold as creating a Culture of Health—a shift that relies on increasing equity and combating the effects of racism and poverty—it is imperative that many of these leaders are from or working in communities with limited resources and opportunities.; (1) Health Policy Research Scholars: The goal is to create a cadre of diverse doctoral students from multiple (nonclinical, research-focused) disciplines—students whose research, connections, and leadership will inform and influence policy toward a Culture of Health. Specifically, we aim to recruit doctoral students from a variety of social sciences (e.g., urban planning, health, economics, ethnography, education, social work, etc.); Each scholar will receive an annual stipend of up to $30,000 for up to four years. Scholars will also be eligible for dissertation grants of up to $10,000 if the proposed dissertation is related to health policy research.; More Information: http://www.rwjf.org/en/library/funding-opportunities/2016/health-policy-research-scholars.html; (2) Clinical Scholars: for clinically active health care providers spanning a range of disciplines—nurses, physicians, pharmacists, physical therapists, dentists, allied health, veterinarians, and many others. Working together in inter-professional teams, participants will engage in intensive learning, mentoring and networking to lead transformative change—centered on health equity—in their communities. Each fellow will receive support for their project of $35,000 annually, for a total of $105,000 per person per three-year fellowship experience.; More Information: http://www.rwjf.org/en/library/funding-opportunities/2016/clinical-scholars.html; (3) Interdisciplinary Research Leaders: The broad goal is to produce diverse interdisciplinary leaders who conduct and apply high-quality, community-engaged, action-oriented, equity-focused, health research in order to drive improvements in the health of communities. Accordingly, the program will recruit and select a diverse cohort of mid-career researchers and community members to become IRL program fellows. Total awards will be up to $350,000 per team for the duration of the three-year fellowship program.; More Information: http://www.rwjf.org/en/library/funding-opportunities/2016/interdisciplinary-research-leaders.html; (4) Culture of Health Leaders: will develop a cadre of leaders from diverse sectors (e.g., public policy, business, technology, community development and planning, education, transportation, public health, health care, and others) to work with organizations, communities, health systems, and policymakers to build a Culture of Health in America. Each leader will have access to up to $20,000 per year for three years, as well as additional project funds to support their participation in the program and project-related activities.; More Information: http://www.rwjf.org/en/library/funding-opportunities/2016/culture-of-health-leaders.html;

**Contact:** E-mail: mahabir@mail.nih.gov;  
**Additional Information:** SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for research focused on the role of early-life factors in cancer development later in life. Given that current emerging evidence from limited research indicates a potentially important role for early-life events and exposures in cancer development, it is necessary to better understand 1) the early-life (maternal-paternal, in utero, birth and infancy, puberty and adolescence, and teenage and young adult years) factors that are associated with later cancer development; 2) how early-life factors mediate biological processes relevant to carcinogenesis; and 3) whether predictive markers for cancer risk based on what happens biologically at early-life can be measured and developed for use in cancer prevention strategies. Markers that predict malignancy or pre-malignant conditions would allow assessment of early-life exposures with relevant outcomes without having to wait 50 years for cancer development. Ultimately, a better mechanistic understanding of how early-life events and exposures contribute to the etiology of cancer later in life will allow for the development of effective interventions during pregnancy or early life that may have a profound impact on cancer prevention. This FOA will use the NIH Research Project (R01) award mechanism.; **DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2018.; [*]

Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications for transdisciplinary and translational research that will identify the specific biological or biobehavioral pathways through which physical activity and/or weight control (either weight loss or avoidance of weight gain) may affect cancer prognosis and survival. Research applications should test the effects of physical activity, alone or in combination with weight control (either weight loss or avoidance of weight gain), on biomarkers of cancer prognosis among cancer survivors identified by previous animal or observational research on established biomarkers other than insulin/glucose metabolism, especially those obtained from tumor tissue sourced from repeat biopsies where available. Because many cancer survivor populations will not experience recurrence but will die of comorbid diseases or may experience early effects of aging, inclusion of biomarkers of comorbid diseases (e.g., cardiovascular disease) and of the aging process are also sought. Applications should use experimental designs (e.g., randomized controlled clinical trials (RCTs), fractional factorial designs), and include transdisciplinary approaches that bring together behavioral intervention expertise, cancer biology, and other basic and clinical science disciplines relevant to the pathways being studied. This FOA will use the NIH Research Project (R01) award mechanism.;

Additional Information: SYNOPSIS: National Institute of Child Health and Human Development (NICHD) invites applications for exploratory grant applications, hereafter referred to as the Learning Disabilities Innovation Hubs or LD Hubs, addressing the etiology, manifestation, prevention and remediation of reading, writing and/or mathematics learning disabilities (LDs). The constitution of an LD Hub includes a single research project and an Administration Core that support the goals and aims of the LD Hub. The FOA seeks to address nascent or under-researched topics and populations, as well as some of the most challenging research topics in the area of learning disabilities impacting reading, writing and mathematics, and provides opportunities to support planning and building of a body of research and corresponding intellectual infrastructure to enable P20 grantees to compete for large research and program project opportunities in the future. This FOA aims to integrate research topics that are of relevance to various research programs at the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD). The FOA intends to build cross-programmatic, trans-disciplinary and crosscutting scientific research and nurture the development of early career researchers capable of conducting this research. This FOA will use the NIH P20 Exploratory Grants award mechanism. ; DEADLINE NOTE: Applications must be submitted through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST).; Applications may be submitted in response to this announcement on or after April 13, 2016. The
deadline for receipt of optional letters of intent is April 13, 2016. The deadline for receipt of full applications is May 13, 2016, by 5:00 PM local time of applicant organization.;

**Additional Information:** [forwarded to our attention by Stephanie Scott]; The DOD just released their FY16 program announcements for their Breast Cancer Research Program. There are many different areas and levels of opportunities for this program. Please see the full announcement below, and share with others who may be interested within your departments.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Columbia | Research; Sponsored Projects Administration; Phone: (212) 854-0606; Cell Phone: (646) 248-8573; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; DoD Breast Cancer Research Funding Opportunities; Defense Health Program; Department of Defense Breast Cancer Research Program; Funding Opportunities for Fiscal Year 2016; The Fiscal Year 2016 (FY16) Defense Appropriations Act provides $120 million (M) to the Department of Defense Breast Cancer Research Program (BCRP) to support innovative, high-impact breast cancer research to accelerate progress toward ending breast cancer. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency, Research,
Development and Acquisition (DHA RDA) Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP). FY16 BCRP Program Announcements and General Application Instructions for the following award mechanisms are posted on Grants.gov.; Applications submitted to the FY16 BCRP must address one or more of the following overarching challenges: 

(*) Prevent breast cancer (primary prevention); (*) Identify determinants of breast cancer initiation, risk, or susceptibility; (*) Determine why/how breast cancer cells lay dormant for years and then re-emerge (recurrence); determine how to prevent recurrence; (*) Revolutionize treatment regimens by replacing them with ones that are more effective and less toxic; (*) Eliminate the mortality associated with metastatic breast cancer; 

http://cdmrp.army.mil/funding/bcrp.shtml: **Breakthrough Award – Level 1 & 2**  
Letter of Intent Due April 21, 2016, Levels 3 & 4 Preproposal due April 27, 2016; Investigators at all academic levels (or equivalent); Senior postdoctoral fellows who do not meet the eligibility requirements of the Breakthrough Fellowship Award are encouraged to apply under Funding Levels 1 and 2; Supports promising research that has the potential to lead to or make breakthroughs in breast cancer.; Potential impact of the research may be near-term or long-term, but it must be significant and go beyond an incremental advancement.; Partnering PI Option allows two PIs, termed Initiating and Partnering PIs, to collaborate on a single application.; Four different funding levels, based on the scope of research, are available. It is the responsibility of the PI to select the funding level that is most appropriate for the research proposed. The funding level should be selected based on the scope of the research project, rather than the amount of the budget.; 

**Funding Levels 1 and 2:** Submission of a Letter of Intent is required prior to full application submission.; Each PI may submit only one application as a PI or Initiating PI. There are no limitations on the number of applications for which an investigator may be named as a Partnering PI. However, applicants are discouraged from submitting as a Partnering PI on multiple applications unless they are clearly unique, meaningful collaborations addressing distinct research questions.; Additional funds are available for applications submitted under the Partnering PI Option.; Clinical trials are not allowed.; 

**Funding Levels 3 and 4:** Clinical trials are allowed.; Each PI may submit only one application as a PI or Initiating PI. There are no limitations on the number of applications for which an investigator may be named as a Partnering PI. However, applicants are discouraged from submitting as a Partnering PI on multiple applications unless they are clearly unique, meaningful collaborations addressing distinct research questions.; PIs must include two or more breast cancer advocates on their research team.; Preproposal is required; application submission is by invitation only.; 

**Funding Level 1:** Maximum funding of $375,000 for direct costs (plus indirect costs); Maximum period of performance is 3 years; 

**Funding Level 1 – Partnering PI Option:** Maximum funding of $600,000 for direct costs (plus indirect costs); Maximum period of performance is 3 years; 

**Funding Level 2:** Maximum funding of $750,000 for direct costs (plus indirect costs); Maximum period of performance is 3 years; 

**Funding Level 2 – Partnering PI Option:** Maximum funding of $1 million (M) for direct costs (plus indirect costs); Maximum period of performance is 3 years; 

**Funding Level 3:** Maximum funding of $2.5M in direct costs (plus indirect costs) Maximum period of performance is 5 years; 

**Funding Level 3 – Partnering PI Option:** Maximum funding of $4M for direct costs (plus indirect costs); Maximum period of performance is 5 years; 

**Funding Level 4 and Funding Level 4 – Partnering PI Option:** Maximum funding of $10M for direct costs (plus indirect costs); Maximum period of performance is 5 years; 

**Breakthrough Fellowship Award (NEW!)- Letter of Intent due April 21, 2016:** As of the application submission deadline, all eligible PIs must have: Successfully completed the requirements for a doctoral or medical degree, and Been in the laboratory or clinical research setting in which the proposed...
research is to be performed for no more than 2 years, and a total of less than 4 years experience in a postdoctoral fellowship or mentored clinical research training program (excludes any clinical residency or fellowship training); Mentor: Must have breast cancer research experience, including current funding and recent publications; Supports exceptionally talented, “best and brightest” recent doctoral or medical graduates in pursuit of promising research that has the potential to lead to or make breakthroughs in breast cancer.; Potential impact of the research may be near-term or long-term, but it must be significant and go beyond an incremental advancement. Individualized training program and mentorship should prepare the PI for an independent career at the forefront of breast cancer research or patient care. The PI is not required to have previous experience in breast cancer research. Maximum funding of $300,000 for direct costs (plus indirect costs); Maximum period of performance is 3 years; Era of Hope Scholar Award – Letter of Intent due April 21, 2016; Independent, non-mentored investigators within 6 years of their last training position (e.g., postdoctoral fellowship, medical residency, clinical fellowship) as of the application submission deadline; Supports exceptionally talented, creative early-career scientists who have demonstrated that they are the “best and brightest” in their fields.; PIs should articulate a vision that challenges current dogma and demonstrates an ability to look beyond tradition and convention.; PIs should exhibit strong potential for leadership in the breast cancer community.; PIs must include breast cancer advocates on their research team.; Maximum funding of $2.5M for direct costs (plus indirect costs); Maximum period of performance is 5 years; Innovator Award – Pre-application due April 27, 2016; Associate Professor or above (or equivalent).; Supports visionary individuals who have demonstrated creativity, innovative work, and leadership in any field.; Provides opportunity to pursue novel, visionary, high-risk ideas that will accelerate progress toward ending breast cancer.; PIs must include breast cancer advocates on their research team.; Preproposal is required; application submission is by invitation only.; Maximum funding of $5M for direct costs (plus indirect costs); Maximum period of performance is 5 years; Distinguished Investigator Award – Preproposal due April 27, 2016; Assistant Professor or above (or equivalent) and more than 6 years beyond the PI’s last training position as of the application submission deadline; Seeks new paradigms in breast cancer research by supporting investigators who are established and recognized leaders in their field and who propose a fundamental shift or leap beyond their existing track record of research.; Does not support continuation of or incremental change from the PI’s published line of research.; If the PI is an established breast cancer researcher, he/she must clearly articulate a motivation and commitment for proposing a fundamental shift in his/her research and must include at least one collaborator with breast cancer expertise.; PIs must include two or more breast cancer advocates on their research team.; High-risk/high-reward projects pursuing innovative new paradigms are encouraged, but not required.; Preproposal is required; application submission is by invitation only.; Maximum funding of $3M for direct costs (plus indirect costs); Maximum period of performance is 5 years; A pre-application is required and must be submitted through the electronic Biomedical Research Application Portal (eBRAP) at https://eBRAP.org prior to the pre-application deadline. All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Applications must be submitted through the federal government’s single-entry portal, Grants.gov. **Title:** NIH High-End Instrumentation and Shared Instrumentation Grant Programs; NIH High-End Instrumentation Grant Program (S10)

**Sponsor:** Department of Health and Human Services;

**Deadline(s):** 04/06/2016 (Internal); 05/16/2016 (NIH); Anyone who plans to submit a proposal to either NIH S10 program must provide the information requested in the HOW section below to gcc19@columbia.edu by 9:00 a.m. on Wednesday, April 6, 2016.; NIH deadline – Monday, May 16, 2016;

**Contact:** Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 409A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu;

**Additional Information:** FUNDING OPPORTUNITIES; NIH Shared Instrumentation Grant Program (S10); Anyone who plans to submit a proposal to either NIH S10 program must provide the information requested in the HOW section below to gcc19@columbia.edu by 9:00 a.m. on Wednesday, April 6, 2016.;

WHAT: Both programs provide funding for groups of NIH-supported investigators as follows.; (*) The High-End Instrumentation (HEI) Grant Program encourages applications from groups of NIH-supported investigators to purchase or upgrade a single item of expensive, specialized, commercially available instruments or integrated systems that cost at least $600,000. The maximum award is $2,000,000. Over the last 10 years, the average award amount was $1,500,000.; (*) The Shared Instrumentation Grant (S10) Program encourages applications from groups of NIH-supported investigators to purchase or upgrade a single item of expensive, specialized, commercially available instruments or integrated systems that cost at least $50,000. The maximum award is $600,000. Over the last 10 years, the average award amount was $396,000.; IMPORTANT INFORMATION: (*) Under the S10 mechanism, funding requests are limited to the purchase cost of the instrument only. Support is not allowable for technical personnel, service contracts, extended warranties, or supplies.; (*) These programs do not provide facilities and administrative (F&A) costs, or support, construction, alterations, or renovations.; (*) Matching funds are not required; however, commitment of an appropriate level of institutional support to insure the associated infrastructure is expected (building alterations, or renovations, post-award service contracts and technical personnel).; (*) WHO: The following eligibility requirements apply to both programs.; (*) PI - The PD/PI for this application should have documented (in the biographical sketch) technical expertise directly related to the type of the chosen instrument. The PD/PI does not need to have an NIH research grant or any other research support, but is expected to be an expert on the requested instrument. The PD/PI may be a Core director or non-tenured faculty member of the applicant organization; he/she must be affiliated with the applicant organization, and must be registered on eRA Commons.; (*) Major User Group - A Major User group composed of three individuals who have substantial need for the instrument must be identified. Each member of this group must be a PD/PI on a distinct NIH-funded research grant or cooperative agreement award in an area of basic, translational, or clinical research. (The requirement is at least one award per investigator. An award given to multi-PDs/PIs is counted only once towards the fulfillment of this requirement.) PDs/PIs on NIH training or fellowship grants (e.g., T and F mechanisms) and other non-research grants such as conference grants are not eligible to be Major Users. Once the eligibility requirement has been met, additional users with active research awards from NIH or other sources may be added as Major or Minor Users.; (*) To demonstrate the clear need for the requested instrument, the projects supported by NIH research grants should together require at least 75 percent of the Accessible User Time (AUT). Major Users supported by NIH grants should together require at least 35 percent of the AUT.; (*) Accessible User Time (AUT) is
the number of annual hours the instrument can be used for any research purpose.; WHEN: Internal deadline – 9:00 a.m. on Wednesday, April 6, 2016; NIH deadline – Monday, May 16, 2016; HOW: S10 programs will not allow multiple requests for the same type of instrumentation from the same institution. Therefore, anyone who plans to request instrumentation funding through either of these programs must submit an internal proposal that includes the following 3 parts.; (1) Cover Page (*) PI name and contact information.; (*) Instrumentation Program (High-End Instrumentation OR Shared Instrumentation); (2) Instrumentation Plan: Describe the instrument requested including manufacturer and model number.; (*) Financial Plan. Submit a specific financial plan for long-term operation and maintenance of the instrument. Explain how various operational costs will be met; specifically, costs associated with routine operation of the instrument, the maintenance, support personnel, and service costs associated with effective use of the instrument must be described.; (3) Institutional Commitment: Describe the institutional infrastructure (space, environment and utilities) available to support the instrumentation.; (*) Letter of Institutional Commitment. Please provide a letter of support that includes an explicit commitment to provide backup for the proposed financial plan. Specifically, the letter must state that if the financial plan should fall short of its projected income, funds are available to replace the shortfall and maintain operation of the instrument.; Please combine all three parts of the internal proposal in a single PDF file and email to gcc19@columbia.edu by 9:00 a.m. on Wednesday, April 6, 2016. The subject line of the email should be NIH S10.; All questions should be sent to gcc19@columbia.edu.; Program Announcements; Shared Instrumentation Grant (S10) Program:

Additional Information: SYNOPSIS: The Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau’s (MCHB), Office of Epidemiology and Research is accepting applications for fiscal year (FY) 2016 Bridging the Word Gap Research Network program. This cooperative agreement opportunity will establish and maintain a national interdisciplinary research network designed to reduce the gap in exposure to language among children from low-SES families, as compared to children from higher-SES families, also known as the “word gap”. The research network will foster scientific collaboration, with a focus on research designed to develop and test interventions to improve early language exposure, vocabulary acquisition, and language development for children from lower socioeconomic status (SES) backgrounds, including Dual Language Learners (DLLs). The Network should include researchers across a range of disciplines reflecting attention to the health and development of the child and family.;

Title: Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;  
Sponsor: NIH; Extramural Nexus Blog;  
Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;  
Contact: Please see appropriate links;  
Electronic Research Administration: https://era.nih.gov/;  
Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vetebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;
Title: Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.

Updated VAS Requirements:
(1) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.
(2) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).
(3) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.
(4) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.

Title: NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;

Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm. Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.

Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015. In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to:
(1) Reduce the number of tables from 12 to 8;
(2) Minimize the reporting of individual-level information;
(3) Extend the tracking of trainee outcomes from 10 to 15 years;
Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.
Title: NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdr@nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;  
Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;

Title: NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;  
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;  
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;
Title: Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;
Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offorers conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;

What’s Changing: Starting with applications/proposals submitted for due dates on or before January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.;

Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Title: Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these...
The basic principles of rigor and transparency and the four areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G06, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* Career Development Award applications submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and; (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) Notes & Exceptions: (*) Career Development Award activity codes excluded from this policy include K02, K05, and K24, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made.; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Dear All,

The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information. If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.

As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd:

Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users,

FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%. (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%. (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%. [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift. The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets;

Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm; Thank you;

The Budget Tool Team;

DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS

Title: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS;
Sponsor: Mailman School Dean’s Initiative;
Deadline(s): 03/15/2016;
Contact: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7);
Link(s): https://r2eport.files.wordpress.com/2014/04/deans-r01-pilot-funding_precisionmedicine_submissiondeadline03-15-2016.pdf;
Additional Information: DEAN’S INITIATIVE AWARDS TO PROMOTE NIH RESEARCH IN PRECISION MEDICINE & PUBLIC HEALTH; PILOT FUNDING IN PREPARATION FOR R01 AWARDS; PROPOSALS DUE MARCH 15, 2016; The Dean’s Office invites innovative and promising pilot proposals to assist in the preparation of applications for NIH R01 or equivalent grants. These funds are intended to increase the likelihood of federal funding success, and preference will be given to proposals focused on using public health science to advance precision medicine. Prioritized topics may include the use of environmental, behavioral, epidemiological, socio-cultural and structural factors in parallel with genomics in personalized interventions; design and analysis of big data to inform individualized prevention and intervention strategies; tailoring methods to educate health providers and patients and to promote equity in access; and scalable implementation of precision medicine to reach a broad population. Priority will be given to pilot proposals that are interdisciplinary in nature and that cross departments within the Mailman School of Public Health. We encourage submissions with multiple PIs. Up to 4 proposals will be funded.; Pilot applications can request up to $25,000 and must be completed within one year. International collaborations are permitted but must be discussed with Pam Factor-Litvak (prf1) or Regina Santella (rps1) prior to submission. Since the major goal of this program is to facilitate the development of collaborations and pilot data in support of an R01 or equivalent application, applicants must have either a professorial or a Research Scientist title. Only one proposal will be accepted from an individual principal investigator.; Instructions for Submission: The written application should be no more than 5 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title Page (1 page maximum, title, investigators and affiliations, abstract); (B) Specific Aims (1 page maximum); (C) Background; (D) Research plan; (E) Future plans, including a timeline for submission to NIH; (F) Budget and Justification (may include reasonable salary support for the PI); (G) NIH Formatted Biosketches for all Key Personnel (in new NIH format); (H) Post award deliverables: Awardees will be required to submit a NIH grant application within 6 months upon completion of the pilot. The NIH grant must be submitted through the Mailman School. Progress report will be required at mid-year and end of year of the funding period.; Review Criteria and Mechanism: An Internal Review Committee will review all proposals. Awardees will be notified by April 15, 2016.; Contacts: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7);

Contact: http://cupop.columbia.edu/contact-us/contact-us; The deadline is March 13, 2016. Please submit your application to cpnc@columbia.edu. Please be sure to submit the budget as an Excel worksheet. Applicants will be notified within one month of the deadline.;
Title: NIEHS Center Pilot Projects Available Up to $35K;  
Sponsor: The NIEHS Center for Environmental Health in Northern Manhattan;  
Deadline(s): 03/15/2016; (APPLICATION DEADLINE); 06/01/2016 (FUNDING AVAILABLE);  
Contact: If you have questions related to the pilot projects program, please feel free to contact Matt Perzanowski (mp2217), Director of the Pilot Program, Regina Santella (rps1), Center Director, or Gail Garbowski (gcg1), Center Administrator.;  
Applicants are encouraged to develop projects that use these Facility Cores and discuss their project with the Core Directors. For projects that necessitate statistics, investigators are required to obtain input from Dr. Thompson, Director of the IHS Core (342-1252 or jlt12@columbia.edu). Investigators interested in submitting applications are encouraged to discuss them with Drs. Matt Perzanowski, Pilot Projects Director (305-3465 or mp2217@columbia.edu), or Regina Santella, Center Director (305-1996 or rps1@columbia.edu). For administrative issues, contact Gail Garbowski. (305-1364 or gcg1@columbia.edu). Proposals should be submitted to Gail electronically as a single Adobe file by the deadline date.;

Title: Message from President Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page.;

Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders in one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Title: Note from Dean Fried;  
Sponsor: Dean’s Office  
Deadline(s): NA;  
Contact: NA;  
Link(s): NA;  

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.  
Sincerely, Linda;

Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.: Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog … Continue reading →

Additional Information: Formula for Innovation:

People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. … We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. … Continue reading →

Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.; Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. FUNDING OPPORTUNITIES RELATIVE TO TRAINING GRANTS, T32S, ETC.

Title: New Program for NIH-funded Grad Students and Postdocs; 
Sponsor: NIH; 
Deadline(s): Open Ended; 
Contact: Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.; 
Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Sincerely,
G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons;

NEW ITEMS FROM THE NIH

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. ; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile. RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Research Resources:
http://www.mailman.columbia.edu/faculty-staff/research-resources-r2-office
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving...
applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

**RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014** (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**Mentorship Matters for the Biomedical Workforce**

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. … Continue reading →

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

**New Website for iEdison Invention Reporting Information:**

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. .... **You Ask, We Answer:**

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change: NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Title: 2016 Interdisciplinary Research Initiatives Seed (IRIS) Fund Program - FUNDING OPPORTUNITY;

Sponsor: Columbia, This program has been made possible through a generous gift from Sherry and Neil Cohen.;

Deadline(s): 04/04/2016;

Contact: For questions related to this program announcement, please contact Naomi Hornedo, Administrative Coordinator of Research at nh83@columbia.edu;

Link(s): None Provided;

Additional Information: Dear All, The Columbia University College of Physicians & Surgeons (P&S) is pleased to announce the 2016 Interdisciplinary Research Initiatives Seed (IRIS) Fund Program, designed to promote new interdisciplinary/multi-investigator research projects. This program has been made possible through a generous gift from Sherry and Neil Cohen.; Funds from this program will support activities necessary to advance interdisciplinary, multi-investigator project funding and support the collection of preliminary data. It is expected that a competitive proposal will be submitted to an external funding agency, preferably the NIH, for a multi-investigator/program project type award within a year of the completion of the project period.;

Eligibility: Any P&S Officer of Instruction (with tenure or on tenure track) is eligible to apply as a lead investigator. Emeritus, adjunct and visiting faculty, as well as post docs, are not eligible to lead projects, but may be included on the research team. Please note that this announcement is geared towards senior level faculty who can lead a program project type award.;

Amount and Duration of Awards: Two awards will be made up to $100,000, which may be extended for up to a two-year period.;

Criteria for Selection: The overall merit of the research project will be considered and evaluated by a committee of senior faculty reviewers, led by the Vice Dean of Research, who will make their award recommendations to the Dean. The final selection will be made based on the following criteria: (*) collaboration between a clinical and basic science department at CUMC or Morningside; (*) intrinsic merit of the interdisciplinary work proposed; (*) potential impact of the research on the academic field of study; (*) potential for the award to provide a basis for further research support from external sponsors.; Award Conditions: Award funds may be used to support reasonable and necessary costs for the collection of pilot research data or for proposal development. Some, but not all, allowable expenses include: support for supplies; salary and fringe; expenses related to our core facilities; and, administrative support to prepare the sponsored proposal at the end of the program.;

Reporting Requirements: At the end of the first year, the recipient must provide to the Office of the Vice Dean for Research, a scientific progress report that outlines the work that was accomplished to date. Within 60 days of the end of the approved award period, the recipient must provide a final scientific progress and financial report. The report should outline the work that was accomplished and describe the proposal(s) submitted to external sponsor(s) as a result of this award. The report should also describe any significant deviations from or extensions to the project described in the original proposal. A breakdown of how the funds were used to meet the project goals should also be included. Noncompliance with the reporting requirements could result in the cancellation of the award.;

Procedure for Submitting Proposals: Proposals should be submitted electronically to nh83@columbia.edu by Monday, April 4.; The proposal should include items 1-6 below, submitted in this order as a single document in pdf format: (1) A cover sheet that contains: (a) Proposal title; (b) PI and Co-PI names (specifying contact information for the PI), titles, and departments; (c) a 250 word lay abstract describing the proposed interdisciplinary research project, the research group that will ultimately result from this initial effort, and an assessment of how P&S’s position in the field will be advanced.; (2) Proposal (text, including footnotes, should not exceed 4 pages): The proposal should summarize the relevant background literature and research that puts the proposed interdisciplinary project into the appropriate context and explains how it will significantly extend or contribute to the field. The applicant should describe the proposed research project in terms that do not require reviewers to be experts in the sub-area of the research. The applicant should clearly describe the goals of the research, the activities to be carried out to achieve those goals, a timetable for completing these activities, an assessment of the potential for subsequent external funding for a multi-investigator/program project type award, and a description of the strategy for seeking subsequent external support, including the sponsor(s) to which the proposal will be submitted, dates of anticipated submission and the amount that will likely be requested. Finally, the applicant should include a description of how the proposed activity will result in a collaborative team working synergistically on a project that is truly multidisciplinary.;

Items 3-6 below are not included in the 4 page limit: (3) A short (no more than two pages) list of references/bibliography may be appended.; (4) A budget that itemizes general categories of expenses for which award funds will be used and a brief justification for these expenses.; (5) A
current curriculum vitae for the PI and lead investigators (NIH biographical sketch format is appropriate); (6) A letter of endorsement from the applicant’s Department Chair discussing the proposal’s importance in terms of the selection criteria. In the event of multiple proposals from the same department, the Chair may be asked to rank the proposals.; **Note: Items 1-6 are to be submitted electronically as one document in pdf format**; For questions related to this program announcement, please contact Naomi Hornedo, Administrative Coordinator of Research at nh83@columbia.edu; We look forward to receiving your proposals.; Thank you, Naomi Hornedo; Administrative Coordinator, Research; College of Physicians & Surgeons; 630 West 168th Street, P&S 15-402; New York, NY 10032; 212-342-1228; nh83@cumc.columbia.edu;

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.;

Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent); (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP's New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Therapeutic Development Award
Therapeutic Idea Award

Bone Marrow Failure Research Program (BMFRP)

Idea Development Award

Breast Cancer Research Program (BCRP)

Era of Hope Scholar Award
Innovator Award
Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

The Department of Defense (DoD) Peer Reviewed Medical Research Program (PRMRP) just released a pre-announcement to allow investigators time to plan and develop applications. The FY14 PRMRP will solicit research applications for 25 topic areas, listed below. The official funding announcements and application instructions will be released in April. See below for details.

Defense Health Program

Department of Defense Peer Reviewed Medical Research Program

Funding Opportunities for Fiscal Year 2014

The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $200 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP).

PRMRP pre-announcement

Congressionally Directed Topic Areas. The FY14 PRMRP will solicit research applications for the following 25 topics areas: Acupuncture; Arthritis; Chronic Migraine and Post-Traumatic Headaches; Congenital Heart Disease; DNA Vaccine Technology for Postexposure Prophylaxis; Dystonia; Epilepsy; Food Allergies; Fragile X Syndrome; Hereditary Angioedema; Illnesses Related to Radiation Exposure; Inflammatory Bowel Disease; Interstitial Cystitis; Lupus; Malaria; Metabolic Disease; Neuroprosthetics; Pancreatitis; Polycystic Kidney Disease; Post-Traumatic Osteoarthritis; Psychotropic Medications; Respiratory Health; Rheumatoid Arthritis; Segmental Bone Defects; Tinnitus

Military Relevance: Relevance to the healthcare needs of the military service members, veterans, and beneficiaries is a key feature of each FY14 PRMRP award mechanism.
