[NTW] [WEEKLY HIGHLIGHT/DEAN’S PILOT PROJECT] Title: Dean’s Initiative Awards to Promote NIH Research; Pilot Funding For Center/Program Project Awards;
Sponsor: Columbia/Mailman/Dean;
Deadline(s): 04/18/2016;
Contact: Contacts: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7).
Additional Information: Dean’s initiative awards to promote NIH research; pilot funding for center/program project awards; Proposals due April 18, 2016; The Dean’s Office is seeking innovative and promising pilot proposals which will be necessary bases for developing successful Center or Program Project grants to NIH. Priority will be given to pilot proposals which are interdisciplinary in nature and that cross departments within the Mailman School of Public Health. We also encourage submissions with multiple PIs. The goal is to support preliminary data and team development necessary to successfully funded proposals.; Pilot applications can request up to $75,000; pilots must be completed within two years. Applicants must check whether the NIH Institute or Center to which the full grant will be submitted accepts centers and program projects; contact us for examples. International collaborations are permitted but must be discussed with Pam Factor-Litvak (prf1) or Regina Santella (rps1) prior to submission. Since the major goal of this program is to assist in the development of collaborations and pilot data in support of a center or program project grant, applicants must have a professorial title of Associate Professor or Professor to be competitive for these types of NIH awards.; Instructions for Submission: The written application should be no more than 7 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title Page (1 page maximum, title, investigators and affiliations, abstract); (B)
Specific Aims (1 page maximum); (C) Background; (D) Goals of the center/program project, description of the coherence of the individual projects and cores, how project as a whole will be greater than the sum of the parts; (E) Future Plans, including a timeline for submission to NIH; (F) Budget and Justification (may include reasonable salary support for the PI); (G) NIH Formatted Biosketches for all Key Personnel (in new NIH format); Review Criteria and Mechanism: An Internal Review Committee will review all proposals.; Contacts: Investigators interested in submitting applications are encouraged to discuss them with Pam Factor-Litvak (prf1) or Regina Santella (rps1). For administrative issues please contact Craig Kandell (ckk7). Proposals should be submitted electronically in a single Adobe file to Craig Kandell (ckk7).

[NTW] [WEEKLY HIGHLIGHT/CALDERONE PRIZE] Title: Frank A. Calderone Prize in Public Health; Sponsor: Mailman School; Deadline(s): 04/15/2016; Contact: Mary Fiore; mf2865@columbia.edu; Link(s): https://www.mailman.columbia.edu/sites/default/files/pdf/nominationballot_2016.pdf; Additional Information: To the Mailman community, Every two years, the Mailman School presents our field's most prestigious award, the Frank A. Calderone Prize in Public Health, to someone who has made a transformational contribution in public health. Previous winners have included such luminaries as HIV/AIDS pioneer Peter Piot, former President of Ireland Mary Robinson, former head of the UN Development Fund Nafis Sadik, and our former Dean Allan Rosenfield.; Since we last awarded the Calderone Prize in 2014, the field of public health has grown immensely, faced difficult challenges, and seen leaders, new and old, emerge to make a huge difference in our collective goal to build a healthier world for all. Today, I’m asking for your help to identify those leaders by submitting a nomination for the 2016 Calderone Prize.; Our Selection Committee, on which I’m proud to chair, seeks candidates who have accomplished work of extraordinary distinction in the field of public health or made a specific discovery or contribution with long-term national or global implications in such areas as communicable disease, environmental health, epidemiology, social and/or behavioral medicine, health policy, or any aspect of health promotion or disease prevention. The winner will receive the Calderone Medal, a $25,000 prize, and will deliver a special lecture on their work that everyone at the Mailman School is welcome to attend.; Nomination forms can be found here and are due to Mary Fiore by April 15.; Thank you in advance for your nominees.; Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;
[NTW] [CLARIFICATION/DIVERSITY/JUNIOR FACULTY] Title: Provost’s Grants for Junior Faculty Who Contribute to the Diversity Goals of the University;
Sponsor: Columbia University;
Deadline(s): 03/31/2016; If you are interested in applying for this opportunity, please contact Roger Vaughan as soon as is feasible so that he may have adequate time to review and make recommendations for the Provost’s deadline of March 31, 2016; The Provost’s office requires school level review and recommendation and will not consider applications directly sent without review;
Contact: roger.vaughan@columbia.edu;
Additional Information: Dear Department Chairs, Center and Institute Directors, I am pleased to send you a request for proposals (RFP attached) for the Provost’s Grants Program For Junior Faculty Who Contribute to the Diversity Goals of the University. This small-grants program (awards of up to $25,000) is designed to support Schools’ diversity plans, and to assist the University in meeting placement goals established in its Affirmative Action Programs, by advancing the career success of outstanding junior faculty, in disciplines where the availability of qualified minorities and women exceeds their representation on our faculty. Applications will be accepted for: support of new or ongoing research and scholarship; seed funding for innovative research for which external funding would be difficult to obtain; and curricular development projects that focus on issues of diversity.; Please note, applications emanating from the Mailman School must be submitted to Roger Vaughan (roger.vaughan@columbia.edu) as soon as is feasible so that the School has adequate time to review and make recommendations for the Provost’s deadline of March 31, 2016. The Provost’s office requires school level review and recommendation and will not consider applications directly sent without review.; Eligibility is predicated, first, on a faculty member’s belonging to a discipline where the availability of qualified candidates exceeds their representation on our faculty, and second, that they have a commitment to diversity as demonstrated in their research, teaching, or mentoring activities. The attached appendix highlights (by school, or by department, if applicable) the categories of faculty who are eligible to receive grant funding. There are separate appendices for Basic Health Sciences and Clinical Health Sciences;

Additional Information: SYNOPHIS: National Institutes of Health (NIH) participating Institutes and Centers invite applications for Centers for AIDS Research (CFAR) program to provide administrative and shared research support to enhance HIV/AIDS research. Applications are invited for both standard CFARs and for developmental CFARs (D-CFARs). Standard and D-CFARs provide core facilities, expertise, resources, and services not readily obtained otherwise through more traditional funding mechanisms. Additionally, D-CFARs provide support to assist investigators in the development of a competitive standard CFAR. The program emphasizes interdisciplinary collaboration, especially between basic and clinical investigators, translational research between the laboratory and the clinic, inclusion of investigators from diverse backgrounds, and inclusion of prevention and behavioral change research. This FOA will utilize the NIH Center Core Grants (P30) assistance mechanism.; DEADLINE NOTE: Applications must be submitted electronically through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted
to Grants.gov in response to this announcement on or after June 27, 2014. Optional letters of intent may be submitted thirty days prior to the application deadline.; The deadline for receipt of full applications is July 28 annually. This FOA will expire on July 29, 2016.;

**Additional Information**: SYNOPSIS: USAID has developed a suite of mechanisms—referred to collectively as the USAID/Senegal Health Program (2016-2021)—that together will seek to achieve sustainable, transformative impact. The new Program and its objectives are presented in the redacted Project Appraisal Document. The Integrated Service Delivery and Health Behaviors (ISD-HB) mechanism represents one of several implementation modalities that make up USAID’s overall investment in the Senegalese health sector. ISD-HB will work closely with USAID, the other USAID mechanisms, the Ministry of Health and Social Action (MOH) and a range of Senegalese stakeholders and organizations to achieve the broader vision and support the attainment of the goals of the Government of Senegal (GOS);
[NTW] [USAID] Title: Ethiopia USAID-Addis Ababa; TRANSFORM/ Developing Regional States (DRS); Grant; Sponsor: USAID; Agency for International Development; Deadline(s): 03/24/2016; 04/13/2016; Contact: Tsegereda Gebremedhin Acquisition and Assistance Management; Phone 251-111-306117; Tsegereda Gebremedhin; Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=282187; Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?53085; Additional Information: SYNOPSIS: TRANSFORM/DRS aims to support partner organization(s) in achieving the public purpose of EPCMD in the DRS while contributing to the GOE’s Health Sector Transformation Plan (HSTP). Specifically, this activity seeks to achieve the following key results over the next five years: -- Increased numbers of healthy mothers with successful birth outcomes; -- Expanded access and uptake of family planning; -- Increased numbers of healthy newborns (birth to 28 days); and -- Sustained gains in and improved under-five mortality. To achieve greatest impact, TRANSFORM/DRS might consider all populations mobile, settled, and semi-settled in the Afar, Somali, Beninshangul-Gumuz, and Gambella regions for service delivery. As the budget is not sufficient to cover the entire DRS population, though, service provision will need to prioritize those areas with the worst MNCH indicators and therefore the highest number of children and mothers’ lives saved.; DEADLINE NOTE: Questions are due March 24, 2016, by 4:00pm local time. Applications are due April 13, 2016, by 4:00pm local time.;

[NTW] [USAID] Title: Health Evaluation, Research and Development (HERD) Project under the Health Research Program 2.0 (HaRP 2.0); Grant; Sponsor: USAID; Agency for International Development; Deadline(s): 03/25/2016; 04/29/2016; Contact: Samantha Corey Agreement Officer Phone 202-567-4517; Work Email Address: E-mail: scorey@usaid.gov; Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=282221; Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?53118; Additional Information: SYNOPSIS: The Health Evaluation, Research and Development (HERD) Project is expected to carry out two types of research activities: 1. Multidisciplinary applied and implementation research and related activities that accelerate the research-to-use process focusing on targeted questions, barriers, and bottlenecks related to high priority
interventions, technologies, policies and products that show promise or are ready for scale-up; 2. Evaluative research and post-marketing like surveillance of pilot programs and at-scale tools, technologies, interventions and policies around the main causes of maternal, child and neonatal deaths and morbidity. Both of these broad categories of activities aim to assist the Agency in achieving its global health goals, including EPCMD, AFG, and Protecting Communities from other health threats, as well as the overall project objectives stated in the Introduction of this section of the RFA. It is expected that HERD will work globally in USAID partner countries, focusing mostly on subSaharan Africa and Asia in USAID’s EPCMD and GH/MCH’s 24 priority countries (Annex C of this RFA), which together carry the greatest burden of maternal, child and newborn mortality and morbidity.; DEADLINE NOTE: Clarification questions are due 4:00pm EST, March 25, 2016.Applications are due April 29, 2016, 4:00pm EST.;

Please forward this email to those who may be interested in these programs. Here are the highlights, with links to provide specific details. It is important to review the eligibility requirements for each announcement: (*) Ovarian Cancer Research Program (OCRP): http://cdmrp.army.mil/funding/ocrp.shtml. Again, several opportunities available for postdocs (pilot awards) and faculty of all levels. Pre-Applications are required, due April 28th; FY16 DOD OCRP Program Announcements; This e-mail is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities for the Department of Defense (DOD) Ovarian Cancer Research Program (OCRP) being managed by the office of Congressionally Directed Medical Research Programs (CDMRP). Ovarian Cancer Research Program: (-) Clinical Development Award; (-) Investigator Initiated Research Award; (-) Ovarian Cancer Academy – Early Investigator Award; (-) Pilot Award; Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website

(http://www.grants.gov), the CDMRP website; (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org); All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov). Refer to the General Application Instructions, Section II for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; Please do not respond directly to this message. To be added or removed from this email list please use the "Subscribe/unsubscribe to program specific news and updates at https://eBRAP.org; CDMRP also provides news and updates through Twitter and YouTube.;

Additional Information: Funding: $50k-$1.5M; Proposal Deadline: Friday, August 26, 2016; Summary: The DoD supports basic research in science and engineering with the aim of gaining early cognizance of new scientific knowledge. The Defense University Research Instrumentation Program (DURIP) provides funds for the acquisition of major equipment to augment current or develop new research capabilities to support research in the technical areas of interest to the DoD, including areas of research supported by the Army Research Office (ARO), the Office of Naval Research (ONR), and the Air Force Office of Scientific Research (AFOSR).; Allowable DURIP Costs: (*) Acquisition of major equipment or instrumentation consistent with the evaluation and selection criteria, including: reasonable costs for design, construction,
assembly; and/or, installation by external contractors or university technicians or engineers. (*) Computers for DoD-relevant research programs consistent with the evaluation and selection criteria; (*) Unallowable DURIP Costs: (*) Construction or modification of buildings; building support systems such as heating, ventilation, air conditioning, plumbing, or electrical; or fixed equipment such as clean rooms or fume hoods; (*) Costs for continued operation and maintenance, including extended warranties; (*) Purely instructional equipment; (*) General purpose computing facilities; (*) Direct salaries of faculty, postdoctoral associates, or students; (*) Cost that are not allowable under 2 CFR 200 Subpart E – Cost Principles; Please note: Applicants are strongly encouraged to contact a program officer in the relevant agency (ARO, ONR or AFOSR) before submitting a proposal to DoD. Proposals submitted without prior contact with program officers are rarely successful. The research areas of interest to the administering agencies are available for reference on-line as follows: Army Research Office: http://www.aro.army.mil/; Office of Naval Research: http://www.onr.navy.mil/Science-Technology/Contacts.aspx; Air Force Office of Scientific Research: http://www.wpafb.af.mil/library/factsheets/factsheet.asp?id=8973; Agency contacts must be contacted by no later than Friday, 12 Aug 2016 or they may not be able to reply.; Army Research Office: Dr. Larry Russell, Jr.; Phone: (919) 549-4211; E-mail: usarmy.rtp.aro.mbx.durip@mail.mil; Office of Naval Research: Dr. Ellen Livingston; Phone: (703) 696-4668; E-mail: ellen.s.livingston@navy.mil; Air Force Office of Scientific Research: Ms. Katie Wisecarver; Phone: (703) 696-9544; E-mail: durip@afosr.af.mil; Please see the attached program announcement for additional information.; Greg Culler; Associate Director | Research Initiatives;

Title: Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;

Sponsor: NIH; Extramural Nexus Blog;
Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016;
Contact: Please see appropriate links;

Link(s): https://nexus.od.nih.gov/all/category/blog/open-mike/; Series of recent NIH Guide Notices:
http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-004.html; Enhanced Rigor and Reproducibility:

Electronic Research Administration: https://era.nih.gov/;

Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;
Title: Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals; 
Sponsor: National Institutes of Health; 
Deadline(s): NA; Release Date: 10/13/2015; 
Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov; 

Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: 
(*) If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro).; (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

Title: NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System; 
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality; 
Deadline(s): NA; Release Date: 10/13/2015; 
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov; 
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;

Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; 
(*) Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;
Title: NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): NA; Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdrr@mail.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;  
Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;  

Title: NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;  
Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;  
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;  
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;
Title: Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOTH-OD-16-010.html;
For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;
Additional Information: The purpose of this notice is to notify NIH applicants/officers and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH's long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/officers conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;
What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/officers for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.;
Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/officers, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the development of children that need particular attention.;
The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.;

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these

Dear All,

The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information.

For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%. For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%. For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%.

The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments.

Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC. If you have any questions, please contact the Finance Service Center.

The Budget Tool Team;

Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*)

Title: Message from President Bollinger relative to Ebola; Sponsor: Columbia University; Deadline(s): NA; Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe. It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely,
Linda P. Fried, MD, MPH
Dean and DeLamar Professor of Public Health

## SCHOLASTIC / SCHOLARLY FUNDING OPPORTUNITIES

**Title:** CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

**Sponsor:** NIH;

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) — note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: [http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf](http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf) - TIP - when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);
Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; 
Sponsor: NIH; 
Deadline(s): Starting in October 2014; 
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; 
Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/; 
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.: Stephanie F. Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog … Continue reading →

Additional Information: **Formula for Innovation:**  
Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu

FUNDING OPPORTUNITIES RELATIVE TO TRAINING GRANTS, T32S, ETC.

Title: New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;
Deadline(s): Open Ended;
Contact: Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.;
Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at [https://www2.gsas.columbia.edu/idp](https://www2.gsas.columbia.edu/idp). Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at [https://www2.gsas.columbia.edu/idp/node/3#summary](https://www2.gsas.columbia.edu/idp/node/3#summary). Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;

RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving...
applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it somewhere else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. …. Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. …. Continue reading →

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. …. Continue reading →

Keep Up With Grants Administration Changes With Our New Timeline

Research Resources:
http://www.mailman.columbia.edu/faculty-staff/research-resources-r2-office
Want to look into the future? We sure would. But in lieu of clairvoyant powers we’re trying the next best thing: a map to help navigate upcoming changes in grants administration. The grants policy page on grants.nih.gov is now home to an interactive timeline of upcoming changes in grants administration. … Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

**New Website for iEdison Invention Reporting Information:**

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

**You Ask, We Answer:**

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change: NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

### FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;  
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:  
[http://policylibrary.columbia.edu/fly-america-act](http://policylibrary.columbia.edu/fly-america-act). This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:  
[http://spa.columbia.edu/policies/us-flag-carrier-policy](http://spa.columbia.edu/policies/us-flag-carrier-policy);  

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

FOAs FROM AGENCIES REQUIRING INTERNAL COLUMBIA UNIVERSITY VETTING

Title: 2016 Interdisciplinary Research Initiatives Seed (IRIS) Fund Program - FUNDING OPPORTUNITY;
Sponsor: Columbia, This program has been made possible through a generous gift from Sherry and Neil Cohen.;
Deadline(s): 04/04/2016;
Contact: For questions related to this program announcement, please contact Naomi Hornedo, Administrative Coordinator of Research at nh83@columbia.edu;
Additional Information: Dear All, The Columbia University College of Physicians & Surgeons (P&S) is pleased to announce the 2016 Interdisciplinary Research Initiatives Seed (IRIS) Fund Program, designed to promote new interdisciplinary/multi-investigator research projects. This program has been made possible through a generous gift from Sherry and Neil Cohen.; Funds from this program will support activities necessary to advance interdisciplinary, multi-investigator project funding and support the collection of preliminary data. It is expected that a competitive proposal will be submitted to an external funding agency, preferably the NIH, for a multi-investigator/program project type award within a year of the completion of the project period.;
Eligibility: Any P&S Officer of Instruction (with tenure or on tenure track) is eligible to apply as a lead investigator. Emeritus, adjunct and visiting faculty, as well as post docs, are not eligible to lead projects, but may be included on the research team. Please note that this announcement is geared towards senior level faculty who can lead a program project type award.;
Amount and Duration of Awards: Two awards will be made up to $100,000, which may be extended for up to a two-year period.;
Criteria for Selection: The overall merit of the research project will be considered and evaluated by a committee of senior faculty reviewers, led by the Vice Dean of Research, who will make their award recommendations to the Dean. The final selection will be made based on the following criteria: (*) collaboration between a clinical and basic science department at CUMC or Morningside; (*) intrinsic merit of the interdisciplinary work proposed; (*) potential impact of the research on the academic field of study; (*) potential for the award to provide a basis for further research support from external sponsors.;
Award Conditions: Award funds may be used to support reasonable and necessary costs for the collection of pilot research data or for proposal development. Some, but not all, allowable expenses include: support for supplies; salary and fringe; expenses related to our core facilities; and, administrative support to prepare the sponsored proposal at the end of the program.;
Reporting Requirements: At the end of the first year, the recipient must provide to the Office of the Vice Dean for Research, a scientific progress report that outlines the work that was accomplished to date. Within 60 days of the end of the approved award period, the recipient must provide a final scientific progress and financial report. The report should outline the work that was accomplished and describe the proposal(s) submitted to external sponsor(s) as a result of this award. The report should also describe any significant deviations from or extensions to the project described in the original proposal. A breakdown of how the funds were used to meet the project goals should also be included. Noncompliance with the reporting requirements could result in the cancellation of the award.;
Procedure for Submitting Proposals: Proposals should be submitted electronically to nh83@columbia.edu by Monday, April 4.;
The proposal should include items 1-6 below, submitted in this order as a single document in pdf format: (1) A cover sheet that contains: (a) Proposal title; (b) PI and Co-PI names (specifying contact information for the PI), titles, and departments; (c) a 250 word lay abstract describing the proposed interdisciplinary research project, the research group that will ultimately result from this initial effort, and an assessment of how P&S’s position in the field will be advanced.; (2) Proposal (text, including footnotes, should not exceed 4 pages): The proposal should summarize the relevant background literature and research that puts the proposed interdisciplinary project into the appropriate context and explains how it will significantly extend or contribute to the field. The applicant should describe the proposed research project in terms that do not require reviewers to be experts in the sub-area of the research. The applicant should clearly describe the goals of the research, the activities to be carried out to achieve those goals, a timetable for completing these activities, an assessment of the potential for subsequent external funding for a multi-investigator/program project type award, and a description of the strategy for seeking subsequent external support, including the sponsor(s) to which the proposal will be submitted, dates of anticipated submission and the amount that will likely be requested. Finally, the applicant should include a description of how the proposed activity will result in a collaborative team working synergistically on a project that is truly multidisciplinary.;
Items 3-6 below are not included in the 4 page limit: (3) A short (no more than two pages) list of references/bibliography may be appended.; (4) A budget that itemizes general categories of expenses for which award funds will be used and a brief justification for these expenses.; (5) A

Title: FY16 DOD BMFRP Program Announcement;
Sponsor: Department of Defense;
Deadline(s): NA;
Contact: NA;
Additional Information: JUST RELEASED! FY16 DOD BMFRP Program Announcement; This is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities managed by the office of Congressionally Directed Medical Research Programs (CDMRP). Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov; CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org; All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website http://cdmrp.army.mil; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; To be added or removed from this email list please use the “Subscribe/unsubscribe to program specific news and updates at https://ebrap.org;

**Additional Information:*** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library [here](http://policylibrary.columbia.edu/sponsored-project-subawards). This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety. Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included: (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form – only required when the proposed subrecipient is not included in the

**Deadline(s):** NA  
**Contact:** Please see individual announcement below  
**Link(s):** Please see individual announcement below  
**Additional Information:*** Seminars and Events;  
1. **2015 Precision Medicine Introductory Seminar Series:** The Irving Institute and CUMC Dean's Office is offering a free introductory seminar series in Precision Medicine open to all faculty, fellows, residents and students. Learn what all the buzz is about. What tools are currently available to understand the molecular basis of disease, target treatments to improve efficacy, reduce adverse events and improve forecasting and preservation of health. Led by expert faculty members including Drs. Wendy Chung, Ali Gharavi, and Ron Wapner, this seminar series will provide a foundation to understand genomics, biomarkers, systems biology, and biomedical informatics and will review specific ways in which these tools are being used across subspecialties. This seminar series will include workshops in which we will analyze a genome and learn how to decide what genetic test to order and how to interpret the results. The Precision Medicine seminar series will be held weekly throughout 2015: Thursdays; 4:00 - 5:00p; Irving Institute Classrooms PH-10-405; 622 West 168 Street, Floor 10, NYC 10032; The seminar is free, but no course credit will be given.  
2. **2015-16 Comparative Effectiveness (CER)/Patient-Centered Outcomes Research (PCOR) Seminar Series:** We are happy to announce that the CER/PCOR seminar series will be returning in Fall 2015. Stay tuned for further updates.  
3. **CUMC IRB Liaison Service:** Available to all CUMC Faculty researchers and study coordinators; Expert guidance on how to: Prepare protocols for IRB review Respond to IRB reviews Interpret IRB requests Provide appropriate responses Implement requested changes; Open Walk-In Hours; Wednesdays and Thursdays; 10:00 - 11:00a; 622 West 168 Street, PH-10-402D; To learn more or request an appointment outside of walk-in hours: [http://irvinginstitute.columbia.edu/resources/ethics.html](http://irvinginstitute.columbia.edu/resources/ethics.html)
