NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

[NTW CATEGORIES]: WEEKLY HIGHLIGHT; COLUMBIA; ENVIRONMENTAL HEALTH; PILOT PROJECTS; CANCER (BREAST); NY STATE GRANTS; FOUNDATION FUNDING; NEUROLOGY; DENTAL; LIMITED SUBMISSION; SMALL RESEARCH GRANTS/PROJECTS; HIV/AIDS; EMERGENCY MANAGEMENT; EBOLA; INTELLECTUAL DISABILITIES; PSYCHIATRIC DISORDERS; MATERNAL AND CHILD HEALTH (MCH); DISPLACED PERSONS; NUTRITION; SUBSTANCE USE DISORDERS (SUDS); BIG DATA; GENOMICS; CARDIOVASCULAR; VACCINES; ASTHMA; GENERIC DRUGS; RADIOACTIVITY; ANNOUNCEMENTS; RESEARCH RESOURCES; INFORMATION SESSIONS; MAILMAN SCHOOL;

[NTW [WEEKLY HIGHLIGHT/COLUMBIA] Title: [CUMC] Request for Proposals: Provost Releases Spring 2015 Hybrid Learning RFP;
Sponsor: CUMC Office of Academic Affairs;
Deadline(s): Faculty proposals are due Monday, April 6, 2015 at 5:00PM. Selections will be made by Wednesday, April 22, 2015.;
Contact: Please send any questions, or consultation requests to ccnmtl+rfp@columbia.edu.;
Link(s): Faculty submitting a proposal must complete the proposal application form at bit.ly/1rpf-sp2015.; Find more information on the Spring 2015 RFP here: http://online.columbia.edu/rfp-spring-2015.html or view details below.; Learn more about the Fall 2014 RFP awardees here.;
Additional Information: The Office of the Provost invites faculty to apply for funding to support redesign and delivery of courses using innovative, technology-rich pedagogy and learning strategies. We welcome “flipped” class designs, synchronous and asynchronous delivery methods, and technology-enabled adaptive learning strategies. Instructors of courses selected will have access to the resources and support of the Columbia Center for New Media Teaching and Learning (CCNMTL) in the form of content development, instructional design, media production, systems integration, assessment, and project management. Courses selected will receive in-kind support from CCNMTL and will also be funded from $5,000 up to $20,000 for a one-semester period. A key goal of this fund is to measure the effectiveness of these designs, delivery methods and learning strategies, and to improve instructional delivery and learning outcomes of Columbia University students from all disciplines. CCNMTL educational technologists will be helping faculty with their project plans, which will be reviewed by a faculty committee. Please send any questions, or consultation requests to ccnmtl+rfp@columbia.edu.;
Faculty proposals are due Monday, April 6, 2015 at 5:00PM. Selections will be made by Wednesday, April 22, 2015.; Faculty submitting a proposal must complete the proposal application form at bit.ly/1rpf-sp2015.; Find more information on the Spring 2015 RFP here: http://online.columbia.edu/rfp-spring-2015.html or view details below.; Learn more about the Fall 2014 RFP awardees here.;
[ENVIRONMENTAL HEALTH/COLUMBIA/PILOT PROJECTS]  Title: PILOT PROJECT AWARDS IN ENVIRONMENTAL HEALTH RESEARCH; Awards up to $35,000 for one year;  Sponsor: NIEHS Center for Environmental Health in Northern Manhattan;  Deadline(s): April 15th, 2015; Funding: July 1st, 2015  Contact: Investigators interested in submitting applications are encouraged to discuss them with Dr. Matt Perzanowski, Pilot Projects Director (305-3465 or mp2217@columbia.edu), or Dr. Regina Santella, Center Director (305-1996 or rps1@columbia.edu). For administrative issues, contact Gail Garbowski, Department of Environmental Health Sciences (305-1364 or gcg1@columbia.edu).;  Link(s): Pilot Project webpage: http://www.mailman.columbia.edu/sites/default/files/NIEHS_Pilot_Projects_Announcement%202017%20April%202015_PDF_ForPosting.pdf;  Additional Information: ROUND: 17 NOW OPEN; The NIEHS Center for Environmental Health in Northern Manhattan is seeking innovative and promising pilot project proposals in all areas of environmental health. Priority will be given to those projects that focus on the thematic goal of the Center, namely, understanding the impact of environmental exposures over the life course with a major focus on air toxics and bio-aerosols, oxidative stress, epigenetics, and climate change. The Center primarily carries out research in three areas: respiratory disease, cancer, and neurotoxicology/neurodegenerative disorders. Please refer to the Center’s Pilot Project webpage for additional information.; Pilot grant applications can request up to $35,000 and projects must be completed within two years; in rare circumstances, a second year of funding can be requested, depending on progress. International studies are permitted but budgets must be discussed with the pilot projects administrator (gcg1), prior to submission of the proposal. Since the major goal of the Program is to assist in the generation of preliminary data leading to the development of an R01 or similar grant, applicants must have academic positions that allow grant submissions. Junior faculty with ideas for innovative projects are strongly urged to apply. For senior faculty to be eligible, they must be expanding their research into new areas of environmental health. Instructions for Submission: The written application should be no more than 5-7 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title page (1 page maximum, title, investigator and affiliation, abstract in lay language); (B) Specific Aims (1 page maximum, must be environmentally relevant); (C) Background; (D) Study Design/Method; (E) Use of Facility Cores; (F) Future Plans (Clearly outline how results will lead to a larger project); (G) Budget and Justification (PI salary support is not permitted); (H) NIH Formatted Biosketches (all key personnel); Applicants will have access to the Facility Cores of the Center at no or limited cost depending upon the extent of use. See the Center website for a detailed description of the Exposure Assessment, Trace Metals and Integrative Health Sciences (IHS) Cores. Applicants are encouraged to develop projects that use these Facility Cores and discuss their project with the Core Directors. For projects that necessitate statistics, investigators are required to obtain input from Dr. Seamus Thompson, Director of the IHS Core (342-1252 or jlt12@columbia.edu). Applicants must acknowledge Center support (ES009089) in all publications.; Review Criteria and Mechanism: An Internal Review Committee will initially review proposals. Applicants will be provided with reviewers’ comments and the most promising ones will be given the opportunity to revise the proposal before review by an External Review Committee. Linked proposals or proposals demonstrating collaborative efforts will be given preference.; Contacts: Investigators interested in submitting applications are encouraged to discuss them with Dr. Matt Perzanowski, Pilot Projects Director (305-3465 or mp2217@columbia.edu), or Dr. Regina Santella, Center Director (305-1996 or rps1@columbia.edu). For administrative issues, contact Gail Garbowski, Department of Environmental Health Sciences (305-1364 or gcg1@columbia.edu). Proposals should be submitted electronically as a single Adobe file to Gail by the deadline date.;
[NTW] [CANCER (BREAST)] Title: Breast Cancer Alliance Funding Opportunities
Sponsor: Breast Cancer Alliance;
Deadline(s): Friday March 27, 2015;
Contact: Richard; D. Richard Arjune; Senior Project Officer; Herbert Irving Comprehensive Cancer Center; Columbia University Medical Center; 1130 St. Nicholas Avenue, Suite 201c; New York, NY 10032 Tel: (212) 851-4682; Fax: (212) 851-4660; email: dra2112@columbia.edu;
Link(s): http://breastcanceralliance.org/grants/;
Additional Information: Dear All, Please note the funding opportunities from the Breast Cancer Alliance (BCA). For those who are interested in the Exceptional Project Grants, there is an institutional limit of three LOIs that can be submitted to the BCA. Please send me your one-page letter of intent (LOI) plus NIH Biosketch (no more than four pages). We will review and get back to all applicants of the internal scientific committee decision. The internal deadline is Friday March 27th, 2015.; Please include the following at the top of your one-page LOI: Applicants name and contact information, job title, and institution.; For additional funding opportunities and information, please refer to http://breastcanceralliance.org/grants/;
Regards, Richard; D. Richard Arjune; Senior Project Officer; Herbert Irving Comprehensive Cancer Center; Columbia University Medical Center; 1130 St. Nicholas Avenue, Suite 201c; New York, NY 10032; Tel: (212) 851-4682; Fax: (212) 851-4660; email: dra2112@columbia.edu;

[NTW] [CANCER (BREAST)/NY STATE GRANTS] Title: Peter T. Rowley Breast Cancer Scientific Research Projects;
Sponsor: NY STATE;
Deadline(s): Letters of Intent are strongly encouraged and due by April 28, 2015 and applications are due by 6:00 PM on June 8, 2015 in the NYS Grants Gateway;
Contact: Please see link;
Link(s): https://grantsgateway.ny.gov;
Additional Information: This Request for Applications (RFA) provides funding for researchers to try new methods and approaches in breast cancer research. These projects are self-contained research projects. They are not intended to fund smaller components of larger research projects, solely for data collection, for incremental or correlative research aims, or for compression of a larger project into a smaller time frame. Responsive applications include the following projects: highly speculative, exploratory, or high-risk – may not have preliminary data, but have the potential for high scientific payoff; application or development of state-of-the-art technologies, tools or resources for breast cancer research; innovative or developmental – focus on exceptionally promising topics and have some pilot data, but not yet sufficiently mature to compete successfully for funding for a full-scale study and/or; testing new hypotheses based on research grounded in a non-breast cancer research area.; Projects will be supported by State funds. Approximately $3.6 million will be available through this RFA to support approximately 10 awards. Based on its assessment that the field is ready to pursue additional investigations, the Board may determine that additional funds should be made available under this RFA to support additional awards. In determining final awards, the New York State Department of Health (Department) reserves the right to allocate funds between the two funding mechanisms offered within this RFA as it deems appropriate.; To download a copy of the RFA and instructions, visit the New York State Grants Gateway: https://grantsgateway.ny.gov and search using the keyword, “Rowley”, and selecting the Department of Health as the Funding Agency.; Letters of Intent are strongly encouraged and due by April 28, 2015 and applications are due by 6:00 PM on June 8, 2015 in the NYS Grants Gateway.;
[NTW] [CANCER] **Title:** Identifying Non-coding RNA Targets for Early Detection of Cancer (R21);  
**Sponsor:** National Cancer Institute/NIH/DHHS;  
**Deadline(s):** 05/07/2015; 06/16/2015; 09/07/2015;  
**Contact:** E-mail: wangw@mail.nih.gov;  
**Link(s):** Program URL: [http://grants1.nih.gov/grants/guide/pa-files/PA-12-214.html](http://grants1.nih.gov/grants/guide/pa-files/PA-12-214.html);  
**Additional Information:** National Cancer Institute (NCI) invites applications for research projects on non-coding RNAs (ncRNAs) and their targets in preneoplastic lesions and early stage cancers. This FOA also encourages research projects to assess the usefulness of stable microRNAs (miRNAs) and ncRNAs to predict progression to cancer and as biomarkers for early cancer detection and screening. Building on both basic and biomarker research on microRNAs (miRNA), this FOA will further promote research on all classes of ncRNAs and support the translation of stable miRNAs into cancer screening or diagnostic tests. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.;  
**DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2015.;  

[NTW] [CANCER] **Title:** Fundamental Mechanisms of Affective and Decisional Processes in Cancer Control (U01);  
**Sponsor:** National Cancer Institute/NIH/DHHS;  
**Deadline(s):** 05/10/2015; 06/10/2015; 09/14/2015; 10/14/2015; 05/10/2016; 06/10/2016; 09/14/2016; 10/14/2016;  
**Contact:** E-mail: ferrerra@mail.nih.gov;  
**Link(s):** Program URL: [http://grants1.nih.gov/grants/guide/pa-files/PAR-14-067.html](http://grants1.nih.gov/grants/guide/pa-files/PAR-14-067.html);  
**Additional Information:** SYNOPSIS: National Cancer Institute (NCI) invites applications for projects to generate fundamental knowledge of affective processes. Basic affective science projects should have key downstream consequences for single (e.g., genetic testing consent) and multiple (e.g., adherence to oral chemotherapy regimen) event decisions and behaviors across the cancer prevention and control continuum. The FOA is expected to encourage scientific disciplines that have not traditionally conducted cancer research; such as affective and cognitive neuroscience, decision science, and consumer science to elucidate perplexing and understudied problems in basic affective and decision sciences with promise of having downstream implications for cancer prevention and control science. This program will use the NIH U01 Research Project Cooperative Agreements award mechanism.;  
**DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Optional letters of intent may be submitted thirty days prior to the application deadline. The deadlines for receipt of full applications are: June 10, 2014; October 15, 2014; June 10, 2015; October 14, 2015; June 10, 2016; October 14, 2016, by 5:00 PM local time of applicant organization. This program will expire on October 15, 2016.;

**Additional Information**: Dear Doctor/ Health Professional, We are contacting you as we have a postings on Trialect at [www.Trialect.com](http://www.Trialect.com) soliciting applications for MEND Funding Initiative for Research in Neurodegenerative Disorders. The “MEchanisms of cellular death in NeuroDegeneration’ (MEND) funding program’s overall goal is to discover and understand the mechanisms and pathophysiological processes by which brain cell loss is mediated in disease and thereby seek insights and potential targets for therapeutic interventions that would sustain healthy brain function. This grant is jointly launched by The Alzheimer’s Association, Alzheimer’s Research UK and the Weston Brain Institute (Funding Partners). Applications are encouraged from academic research laboratories or consortia of academic laboratories and small biotech/small-medium enterprise organizations around the world. Your budget must not exceed the maximum amount of the award (USD$1.25million) although projects requiring significantly smaller amounts will be considered. The deadline is a few weeks away, and we are reaching out to see if your fellows/junior faculty would be interested in this opportunity. They can peruse in detail at: [https://app.trialect.com/1394/display](https://app.trialect.com/1394/display). Additional Information: Atlantic Philanthropies; Health and Aging Policy Fellowships (2015-16 class); Deadline: April 16, 2015; Provides healthcare professionals with the experience and skills necessary to make a positive contribution to the development and implementation of health policies affecting older Americans. Applicants at all career stages are eligible to apply. The program has a broad interdisciplinary focus and past fellows have included physicians, nurses, social workers, psychologists, dieticians, healthcare administrators, epidemiologists, economists, and lawyers from academic and practice settings. The program provides fellows with the opportunity to participate in a residential or nonresidential track. Stipends for residential fellows are commensurate with each individual’s current base salary (up to $100,000 annually). In addition to a stipend, financial support (up to $4,500) will be provided for relocation and health insurance (up to $400/month), if not covered by the institution. Nonresidential fellows may receive up to $10,000 to cover approved project-related expenses and travel costs. Nonresidential applicants who are early in their career and cannot secure full institutional in-kind support for their participation may apply for partial salary support from the Health and Aging Policy Fellows program, up to a maximum of $15,000.; More Information: http://www.healthandagingpolicy.org; RFP Alerts for Faculty, which may be of interest to faculty in your department. Title: Another Look: Better Health for Elders in Care Facilities;
Sponsor: The Donaghue Foundation;
Deadline(s): May 1, 2015 (LOI); June 17, 2015 (full proposal, if invited);
Contact: For questions or further information, please contact Stacy Cloud at cloud@donaghue.org;
Additional Information: The Donaghue Foundation; Another Look: Better Health for Elders in Care Facilities; Deadlines: May 1, 2015 (LOI); June 17, 2015 (full proposal, if invited); This program provides funding for health-related research projects that can improve the quality of care and the quality of life for the elderly population in nursing homes or other care facilities. Specifically, this program invites researchers to address a particular problem affecting the elderly in care facilities with data that already exists (new data collection is not allowed). Researchers applying for this grant must identify a stakeholder in the care delivery or policy arena with whom they will either consult or collaborate and who is willing to work with the researcher to develop a research product that may be readily used to improve care or quality of life. In 2015, the Foundation will invest approximately $1,000,000 in this grant program and will make awards for up to eight two-year projects. **Additional Information:** From Rudina Odeh-Ramadan, via Rosa Rivera; RE: Ebola Projects/ MTA’s; Dear All, The University continues to closely monitor information and recommendations regarding travel to West Africa countries experiencing the Ebola virus outbreak. Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost’s approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@columbia.edu; Dear All; **Additional clarification regarding the policy regarding research (proposals or MTA’s) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval.**  
**One prerequisite for the Provost’s approval will be a written evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission.** Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement.; Odeh-Ramadan, Rudina; Associate Vice President For Research Administration; Clinical Trials Office; Office of Research Administration; 154 Haven Avenue; Mail Code: Third Floor; New York NY 10032; United States 212-305-5064; Ro133@columbia.edu;

**Link(s):** If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;  
**Additional Information:** Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York
City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.

We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Research Resources - Friday Newsletter, 03/27/15

Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees, the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have or have completed undergraduate or graduate students and postdoctoral researchers on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog … Continue reading →

**Additional Information:** Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist). Thank you.

The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for **every Tuesday from 10 am to 11 am**. No appointment is necessary. The IRB office is located at **154 Haven Avenue, 1st Floor**. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hour session. Staff contact information may be obtained on the IRB website: [http://www.cumc.columbia.edu/dept/irb/](http://www.cumc.columbia.edu/dept/irb/)

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu

**Title:** New Program for NIH-funded Grad Students and Postdocs

**Sponsor:** NIH;  
**Deadline(s):** Open Ended;  
**Contact:** Please contact Rory Flinn ([rf2531@columbia.edu](mailto:rf2531@columbia.edu)); Director of the Office of Postdoctoral Affairs, with any questions about the program.;  
[https://www2.gsas.columbia.edu/idp](https://www2.gsas.columbia.edu/idp);  
[https://www2.gsas.columbia.edu/idp/node/3#summary];  
**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals.

In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 ([http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html)), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. NEW ITEMS FROM THE NIH

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/ ; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/Pis and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors– they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tildes, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce
Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competitive Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

New Website for iEdison Invention Reporting Information:

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

You Ask, We Answer:

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/N0T-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/N0T-OD-14-074.html; Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*)
Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/unsubscribe to program specific news and updates at https://ebrap.org.
