| DEPARTMENT OF DEFENSE            | DoD/CDMRP - COVID-19 Impact on Research Awards  
[No Link Provided]  
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any | Department of Defense | NA |

<tbody>
<tr>
<td>This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, is May 3, 2021.</td>
</tr>
</tbody>
</table>
Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

NEW THIS WEEK [NTW]

Funding opportunities and announcements listed in the “New this Week” section will be moved to the main body of the newsletter in the following weeks. They are presented and hyperlinked (in the posted .pdf version of the newsletter) in the following order.

WEEKLY HIGHLIGHT
Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021

Sponsor: NIH  
Deadline(s): 05/25/2021 (required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021)  
Contact: Please direct all grants policy inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy: grantspolicy@nih.gov; Please direct all systems/forms related inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA); Systems Policy Branch: OPERAsystemspolicy@nih.gov; please refer to the FAQs and instructions and contact your SPA Project Officer for any immediate questions. Additionally, we will also be collecting your questions prior to our webinars, and we will be providing guidance along with other materials to assist you. Please send your webinar questions to me at sfs2110@cumc.columbia.edu; Thank you and please stay tuned for more information. [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia University; sfs2110@cumc.columbia.edu

Additional Information: The NIH released announcement NOT-OD-21-073, concerning upcoming changes to the Biographical Sketch and Other Support Format page. It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Updated Other Support resources, including FAQs and sample Other Support format pages can be found here.; One of the most important changes in the Biosketch instructions is Section B: “List in reverse chronological order all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”}; This is critical. The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

<table>
<thead>
<tr>
<th>Format Page</th>
<th>Changes</th>
</tr>

<tbody>
<tr>
<td>Biographical Sketch Format Page</td>
<td>Section B ‘Positions and Honors’ has been renamed ‘Positions, Scientific Appointments, and Honors’.</td>

The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:
As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A.

The format page has been re-organized to separate funded projects from in-kind contributions.

Signature block added, for Program Director/Principal Investigator or Other Senior/Key Personnel to certify the accuracy of the information submitted. Each PD/PI or senior/key personnel must electronically sign their respective Other Support form as a PDF prior to submission.

**Additional Information:** On March 12, NIH announced significant changes to the Biographical Sketch and Other Support format pages. Among other things, these changes will require principal investigators and senior/key persons to: provide significantly more information about their activities than before; and include translated copies of certain Other Support documentation, e.g., agreements related to non-U.S. appointments; and certify the accuracy of all Other Support submissions.; Sponsored Projects Administration (SPA) and the Office of Research Compliance and Training (ORCT) will be hosting several town halls to review the new instructions and forms with the Columbia research community. We strongly encourage NIH applicants, researchers and administrators to attend one session on the Biosketches and another on the Other Support format pages. We will also offer sessions on the Science Experts Network Curriculum Vitae (SciENcv), NIH’s system to assist you with creating an NIH or NSF Biosketch. SciENcv is optional at this time, but offers many benefits, which you can read about here.; Slides from the sessions will be made available afterwards on the dedicated NIH Researcher Disclosure Requirements webpage as part of the Science & Security website.; Please feel free to send questions about these webinars to me at sfs2110@cumc.columbia.edu. **Additional Information:** Crazy 8 Initiative Alex’s Lemonade Stand Foundation; Deadline: LOI April 26; Alex’s Lemonade Stand Foundation (ALSF) is pleased to announce that we are now accepting Letters of Intent (LOIs) for the 2021 Crazy 8 Initiative Award. The Crazy 8 Initiative is the newest funding pillar for ALSF, which aims to tackle specific challenges in pediatric cancer research that require substantial support for collaborative teams. Crazy 8 Initiative Awards may involve the exploration of a novel scientific hypothesis or the development of new model systems, tools or technologies that have the potential for significant impact on the field of childhood cancer research. We expect successful applications to propose multidisciplinary teams with a clear plan for collaboration, which would empower the study of big ideas that would not be easily addressable otherwise. **Childhood cancer research** applicants are encouraged to bring new, necessary expertise into the field. The budget for this award is between $3-5 million USD over four years. To learn more about the Crazy 8 Initiative 2021 funding priorities and the full program description, read the award guidelines here; Click the button below to view guidelines and to apply.; Crazy 8 Initiative Alex’s Lemonade Stand Foundation

**Additional Information:** V Clinical Scholar Cancer Research Grant; 2021 V Foundation V Clinical Scholar Program Cancer Research Grant; Deadline: Friday, April 2, 2021; To accelerate cancer treatment and cures, the V Foundation proposes to develop the careers of clinicians who will become leaders in developing programs of clinical trials that are sequential and based on hypothesis-driven research. The competitive candidate will have a thorough knowledge of clinical trials and cancer biology as well as the ability to utilize new research discoveries for clinical intervention, the ability to develop a long-term plan to cure different forms of cancer, communicate with government agencies, and collaborate with the biotechnology and pharmaceutical industry to facilitate progress in clinical care. V Clinical Scholars will be expected to lead a program of hypothesis-driven clinical trials, initiating and completing multiple projects overseen by clinical and laboratory mentors who have a track record for conducting hypothesis-driven research with a strong translational component, often in collaboration with investigators from other disciplines. Each awardee will be expected to conduct the initial clinical trials in their designed program during the two years of the award. Trials will be based on novel pre-clinical data. Each hypothesis-driven clinical trial will include laboratory correlates that will inform the design of subsequent trials. Candidates will become familiar with the methodology, potential, and limitations of laboratory correlates. Note: This program is distinct from the existing V Scholar program which is for early investigators of all types (PhD, DVM and/or MD), many of which are not engaged in clinical research. The total grant amount is $200,000, paid in two annual installments of $100,000.

**APPLICANT ELIGIBILITY:** Applicants must be clinicians at the rank of Assistant Professor; have experience leading clinical trials; Applicants must be board-certified or board-eligible in; surgical oncology; gynecologic oncology; medical oncology; radiation oncology; pediatric oncology; internal medicine; Other oncology disciplines; The Department Chair and Division Head must support the applicant’s plans for career development and commit to long-term support of the applicant; APPLICATION FOR NOMINATION: HICCC will select ONE applicant as the nominee to submit a full application to the V Foundation. To apply for the nomination using the InfoReady portal, please submit: A summary (no more than 1 page) of the program of hypothesis-driven clinical trials that will be proposed, as well as a timeline for initiation of one or more clinical trials within the two-year V Foundation award timeframe; Applicant NIH-formatted biosketch; The biosketch of a laboratory co-mentor; The biosketch of a clinical co-mentor; IMPORTANT DATES: Internal Application Deadline: Friday, April 2nd, 11:59 pm; Nomination Deadline: Thursday, April 15th, 5:00 pm; Full Application Deadline: Tuesday, May 4th, 5:00 pm; For questions, contact Tanisha Jackson at tj2325@cumc.columbia.edu or Emer Smyth; at es3551@cumc.columbia.edu; Click the button below to review the RFA for more details on applicant eligibility.; Click the button below to apply; Apply for the V Clinical Scholar Cancer Research Grant

DoD/CDMRP - COVID-19 Impact on Research Awards
[No Link Provided]
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. **Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil. Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org/. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity. eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

**Additional Information:** DoD Defense University Research Instrumentation Program (DURIP); **Funding:** $50k-$1.5M over one year; **Deadlines:** Inquiries & Questions: Friday, April 23, 2021; Full Proposal: Friday, May 14, 2021 (11:59 pm EDT); **Summary:** The DURIP program seeks proposals from universities to purchase equipment and instrumentation in support of research in areas of interest to the mission of the DoD. These interests include the areas of research supported by the Army Research Office (ARO), the Office of Naval Research (ONR), and the Air Force Office of Scientific Research (AFOSR). Additionally, proposed instrumentation should enhance research-related education in areas of interest and priority to the DoD. DURIP funds must be used for the acquisition of major equipment or instrumentation to augment current, or develop new, research capabilities to support research in the technical areas of interest to the DoD. Proposals may request funding for more than one item if the requested items comprise a “system” that is used for a common research purpose. Requests for computing equipment for DoD-relevant research programs are appropriate and eligible for funding.; **Allowable DURIP Costs:** Acquisition of major equipment or instrumentation consistent with the evaluation criteria, including: reasonable costs for design, construction, assembly, and/or, installation by external contractors or university technicians or engineers.; Computers for DoD-relevant research programs consistent with the evaluation criteria.

Collaboratory at Columbia Course Development Grants

**Sponsor:** Columbia University's Data Science Institute and Columbia Entrepreneurship, Innovation, and Design, The Collaboratory at Columbia; collaboratory.columbia.edu

**Deadline(s):** 04/19/2021 (Application)

**Contact:** Please direct all questions regarding this funding opportunity to Chris McGarry, Senior Director, Columbia Entrepreneurship, Office of Alumni and development, cm3014@columbia.edu or collaboratory@columbia.edu; Send completed application to: Collaboratory@columbia.edu

Direct questions to: cm3014@columbia.edu or collaboratory@columbia.edu

**Additional Information:** Call for Proposals; $100,000 Grants Awarded for Interdisciplinary Course Development; Jointly founded by Columbia University’s Data Science Institute and Columbia Entrepreneurship, Innovation, and Design, The Collaboratory at Columbia is a university-wide program dedicated to supporting collaborative curricula innovations in interdisciplinary study designed to ensure that all Columbia students receive the education and training that they need to succeed in today's data-rich world. Information about the Collaboratory at Columbia can be found at: [collaboratory.columbia.edu](http://collaboratory.columbia.edu); Application Deadline: **April 19th, 2021 at 4 PM**; Send completed application to: Collaboratory@columbia.edu; Download Application; Virtual Information Session: **March 5th, 2021 at 10 AM**; Zoom Link: [Info Session URL]; **Eligibility:** Those eligible to apply are: full-time officers of instruction, professors of practice, lecturers within discipline and/or adjunct professors of Columbia University. At least one member of the instructional team must have a full-time Columbia appointment who qualifies as a PI and will take administrative and financial responsibility for the grant; **The Collaboratory at Columbia:** The increasing availability of data in society is impacting our world in profound ways. As our ability to generate, store, and analyze data grows, so do the opportunities for using those data to improve our economy, our security, the environment, and human health. Scores of professional and research areas are increasingly becoming data-driven enterprises. To prepare for a data-rich world, students and future leaders need to integrate data science into their traditional areas of study; Conversely, just as the need for data literacy increases, so too does the need for students of data and computer science to understand the impact of traditional domains on their professions. What, for example, do data scientists need to understand about Ethics, Policy, History, Healthcare, and Law?; **Call for Proposals for the Collaboratory Fellows Program:** The goal of the Collaboratory Fellows Fund is to support the development of interdisciplinary and innovative curricula that meet the data and computational literacy needs of a given discipline, set of disciplines and/or cohort of students at Columbia University. Our aim is to seed-fund these new courses in hopes that they extend beyond the life of original grant funds. Approved proposals must include the commitment of your dean or department chair to provide financial resources to continue the course past its initial launch and past the life of the grant; **Funding:** All awards will be made on a competitive basis. Each funded project will receive an award of up to $100,000 to support the development and teaching of the new material. Example uses of award funding might be to buy-out of teaching in order to free up time for the curricular development activities, summer salary support, support for student assistants and/or online curricula components, the cost of materials, supplies and other items, etc. Applicants must provide a budget and budget justification as part of their application to the program. Anticipated award announcements May 21st, 2021.; **Diversity and Inclusion:** The Collaboratory seeks to support curricular projects that provide an inclusive and equitable learning environment where diverse perspectives are recognized, respected, and seen as a source of strength. Data science has not always been perceived as a welcoming field for all, and the Collaboratory is working to actively subvert exclusionary norms by bridging different fields and opening new gateways into data science for a more diverse set of students. As such, all proposals must provide a statement on how the course will be designed to serve the needs of diverse students, including (as appropriate to the project), those who are new to the field of data science. Furthermore, the Collaboratory seeks to support curricular projects focused on positive social impact, or "data for good." Projects focused on anti-racist practice are particularly encouraged to apply.

**Additional Information:** ICAP And HICCC Global Cancer Research Pilot Grant Program; Deadline: April 22; The global burden of cancer is rapidly increasing, particularly in low- and middle-income countries (LMICs). Innovative interdisciplinary research is urgently needed to identify and address gaps in global cancer prevention, screening and prevention. For this reason, ICAP and Herbert Irving Comprehensive Cancer Center (HICCC) have launched an initiative to foster and enhance global cancer-related research, training, and practice. As part of this new initiative, HICCC and ICAP will support innovative proposals to conduct global cancer research in the categories below. The expectation of the pilot program is that funded projects will inform future larger grant applications.; For more information and to apply, click the button below; ICAP and HICCC Global Cancer Center Research Pilot RFP

**Additional Information:** Earlier today, NIH issued corrected instructions to request childcare costs for recipients of NRSA individual fellowships. See NOT-OD-21-074, which replaces to announcement NOT-OD-21-069 referenced below. NIH also updated its FAQs.; If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We'll provide you with any updates [brought to our attention by] Stephanie Scott, Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported
Individual Fellows; This week NIH announced a new policy to allow for childcare support costs to recipients of NRSA individual fellowships (i.e., F31, F32, etc). These costs must be specifically requested in new, continuation applications or through administrative supplements beginning on or after April 8, 2021. Please read the full announcement at NOT-OD-21-069, the FAQs, and supplementary information below.; **Some key takeaways:** The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022.; Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18.; Eligible childcare is care that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.; At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents.; The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC.; If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request.; We’ll provide further guidance on these new costs at a later date.;

**Link(s):** https://covid19.columbia.edu/content/columbia-university-test-and-trace-program-spring-2021-plan

**Additional Information:** Dear Fellow Members of the Columbia Community, As we approach 2021, I write to update you about an important requirement for Spring Term 2021 SARS-CoV-2 Gateway testing. Effective January 4, 2021, a NEW gateway test is required for all faculty, staff, and students accessing Columbia campuses and other facilities. This includes individuals who have been on a campus throughout 2020 and who previously complied with the requirements of the gateway testing program. This gateway test must be administered by Columbia University's COVID Testing Program starting January 4, 2021 through January 25, 2021. Due to our stringent quality and data management systems, the only acceptable tests will be conducted by Columbia's COVID Testing Program at one of our five approved testing sites (Monday to Friday in Morningside Lerner Hall & CUIMC Black Building Schaeffer Gallery; Select dates at West 51st St, Lamont Doherty Earth Observatory, or Tarrytown Columbia Doctors). Tests submitted from other locations, including NYP or WHS, will not be accepted. Access to all Columbia campuses and facilities via the ReOpenCU app (symptom checker app) and Columbia University ID card swipe system will only be permitted for those faculty, staff, and students who have completed the repeat gateway test requirement by January 25, 2021. Register for this gateway test online beginning December 23rd, 2020. The schedule opens 10-14 days in advance. During the gateway period, there will be more than sufficient schedule capacity in the Morningside and CUIMC locations to accommodate all those requiring testing; however, schedule availability in each site will depend on the demand for specific appointment dates and time slots. We encourage you to plan ahead, schedule in advance, and consider all testing sites if a particular date and time is preferred. For those who do not complete a new SARS-CoV-2 PCR test between January 4th and January 25th, access to the campuses and facilities will be reinstated within 48-72 hours of completion of a gateway test at an approved site. More information regarding the testing plan for the Spring Term can be found online. We thank you for your continuing commitment to participating in the University testing program and the steps you take each and every day to keep our community safe. With care for our community, Melanie J Bernitz, MD, MPH; Associate Vice President & Medical Director, Columbia Health; Associate Clinical Professor of Medicine (in the Center for Family and Community Medicine); More Information: covid19.columbia.edu

**Additional Information:** An Update from the Columbia University Biobank (CUB) and COVID-19 research; *This message is sent on behalf of the Columbia University Biobank (CUB) from Dr. Muredach Reilly, Director, Irving Institute for Clinical and Translational Research, and Dr. Michael Shelanski, Senior Vice Dean for Research, at the Columbia University Irving Medical Center.*; For questions, contact: General questions: Danielle Pendrick, dp2657@cumc.columbia.edu; Researchers can contact - PS-Officeforresearch@cumc.columbia.edu; Participants can contact - CUBiobankCOVID19@cumc.columbia.edu; As you will remember, the Columbia University Biobank (CUB) quickly pivoted in April 2020 in response to the urgent needs surrounding the coronavirus pandemic. Since then CUB has collected biospecimens from Columbia University Irving Medical Center/NewYork-Presbyterian Hospital (CUIMC/NYP) patients who tested positive for SARS-CoV-2, and re-distributed samples to researchers across campus. Currently we have over 90,000 biospecimens banked from more than 14,000 patients (both COVID-19 positive, and negative) including DNA, RNA, serum, plasma, urine, and other tissue samples. Given the number of patients treated for COVID-19 at CUIMC/NYP and the diversity of our patient population, Columbia’s COVID-19 biobank is arguably the largest and most distinct in the United States. Additionally, CUB has consented more than 2,400 patients for genomic research and future research studies to further advance our understanding of COVID-19 and its devastating clinical consequences.; Since our last update, whole exome sequencing data has been generated on more than 1,000 patients diagnosed with SARS-CoV-2, and is currently available in AWS for download with the appropriate IRB and CUB approvals. Host and virome RNA sequencing and microbiome data generation is ongoing, and will soon be available to investigators with CUB approval. We are also excited to announce that Dr.
David Goldstein has partnered with Vanda Pharmaceuticals to perform whole genome sequencing on 1,000 CUB COVID+ patients. Once generated, this data will also be available to CUIMC researchers for their own analyses. Dr. Krzysztof Kiryluk in the Department of Medicine is spearheading an effort to generate SARS-CoV-2 genome-focused clinical phenotypes, which will then be combined with sequencing data generated by the Institute for Genomic Medicine, into a single dataset that will be available centrally through CUB. We hope that this data will be useful to any Columbia investigator performing genetics and genomics analyses to address SARS-CoV-2-related research. Additionally, the CUB Clinical Phenotype Committee (CPC), led by Dr. Mitchell Elkind, has been established to oversee efforts related to the generation of broader COVID-19 clinical phenotypes. The CPC is a multidisciplinary working group which includes experts from the Departments of Anesthesiology, Surgery, Pediatrics, Emergency Medicine, Biomedical Informatics, Obstetrics and Gynecology, and Medicine (Pulmonary, Cardiology, Nephrology and Transplant). The CPC has focused initial efforts on standardizing, validating, and refining core SARS-CoV-2 related phenotype definitions, which will be made widely available when completed. As of October 2020, over 140 requests to the biobank were reviewed by the CUB Sample and Data Committee, and more than 22,000 samples have been disbursed to support a wide range of research studies across the CUIMC community. With assistance from Drs. Kevin Roth, Eldad Hod, and Susan Whittier in the Department of Pathology and Cell Biology, we are able to continue residual clinical sample collections, which will be critical as the coronavirus continues to spread. While CUB has initially focused on COVID-19 due to obvious needs, it continues to look past the pandemic and begin University-wide recruitment efforts with multiple partners and across multiple domains towards the ultimate goal of enrolling all CUB/NYP patients. To this end, we are excited to be partnering with the IGM’s All of Us team. The Columbia University Biobank is now being offered to All of Us participants during their enrollment and retention activities. CUB looks forward to applying the lessons learned from the All of Us Research Program to the CUB recruitment efforts. We encourage you to use the research resources offered through the CUB website. As we enter another chapter in the COVID-19 pandemic and again brace ourselves for potential challenges ahead, it is with great thanks that we acknowledge the strength of the Columbia community. Having the Columbia University Biobank now in full operation will significantly benefit the vital research yet to come. Stay safe, Muredach Reilly, MBBCh; Director, Irving Institute for Clinical and Translational Research; Michael Shelanski, MD, PhD; Senior Vice Dean for Research; On behalf of the Columbia University Biobank

**Additional Information:** HICCC Velocity Data Science Fellowships competition. The purpose of the Velocity Data Science Fellowships is to link data science to cancer clinical care at the HICCC; to facilitate integration of data science into clinical areas; and to provide a pipeline for faculty development in data science and clinical cancer research/care. The HICCC Velocity Data Science Fellowships will support early career physicians and physician-scientists (MD or MD/PhD), who have completed at least the first year of fellowship and seek to integrate data science into the clinical setting in cancer. Examples include: the design and development of novel data visualization tools for patient management, the application of machine learning to inform prognosis and therapy decisions, and the employment of artificial intelligence to enhance screening technology. Areas of clinical interest: Medicine and Medicine subspecialties, Pediatrics, Surgery and Surgical subspecialties, OB/GYN, Psychiatry, Neurology, Rehab and Regenerative Medicine, Emergency Medicine, Anesthesiology, Dermatology, Pathology and Cell Biology, Biomedical Informatics, and others.  
MD or MD/PhD current clinical fellows in training programs at New York Presbyterian Hospital-Columbia University Medical Center affiliated with the Vagelos College of Physicians and Surgeons (VP&S) are eligible to apply. The HICCC Velocity Data Science Fellowship will provide stipend support at $65,000 + fringe per year for two years. One fellow will be funded in this cycle. **Additional Information:** Herbert Irving Comprehensive Cancer Center; 2021 VELOCITY Cancer Research Awards ; Deadline: Monday, May 3, 2021; Comprehensive Cancer Center (HICCC) is pleased to announce the VELOCITY Cancer Research Awards competition. HICCC seeks to support investigators actively involved in cancer research and to encourage others in the biomedical community to enter cancer research. The goal of the competition is to support bi-directional translational research that drives basic, translational, clinical trials, clinical care, and population science, generating novel hypothesis-testing research questions. Up to five VELOCITY Fellows will be selected to lead teams consisting of one lead Principal Investigator and co-investigators and/or collaborators with complimentary expertise. Interdisciplinary teams are strongly encouraged. At least one population science or community based project will be awarded. HICCC encourages research projects that address and accelerate progress in understanding and reducing cancer health disparities. We are particularly interested in proposals that directly relate to the cancer burden in the HICCC catchment area and potential applicants are expected to reach out to the HICCC Community Outreach and Engagement (COE) office in writing the proposal. Questions: contact Tanisha Jackson at tj2325@cumc.columbia.edu. For more information, eligibility requirements, and to apply, click the button below.

Additional Information: CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching;

Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.; Eligibility: All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.; Amount: Funding of up to $1,500 per proposal is available.; Deadline: Applications for the grants are open via rolling submission throughout the 2020-21 academic year.; Description: With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task.; To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.; Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.; We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply.; Best, Jozef; [brought to our attention by] Jozef Sulik; Senior Project Manager; Presidential Scholars in Society and Neuroscience; The Center for Science and Society; Columbia University in the City of New York; presidialscholars.columbia.edu; scienceandsociety.columbia.edu

**Additional Information:** [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects.

Users with records currently in progress will need to modify the records to meet new FORMS-F requirements. The changes listed below include items released by eRA in March and items released on June 13; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form: A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1. Figure 1: Inclusion Enrollment Report Title Field; For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change; Question 1.4.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2. Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record; In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA?’; For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF; Key Inclusion Across the Lifespan Changes; Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS. Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3. Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4. Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116; For more information, see: Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template; The eRA Human Subjects System (HSS) information page; Information about the PHS Human Subjects and Clinical Trials Information form; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? **Additional Information:** Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm ; They did not post a *significant changes document* yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”. I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. Contact: [brought to our attention by Stephanie Scott, SPA], sfs2110@cumc.columbia.edu; If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu; For inquiries concerning the policy described in the NOT-OD-20-178 Notice, contact: NIHTrain@mail.nih.gov

https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHJq5kp

Additional Information: Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHJq5kp; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu. Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPPR with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHJq5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our meeting on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@cumc.columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@cumc.columbia.edu; Thank you!; Stephanie F. **Additional Information:**

Dear Mailman School faculty,
I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

Contact: Dara R. Blachman-Demner, Ph.D; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-496-8522; Email: dara.blachman-demner@nih.gov

Additional Information: Firearm Injury and Mortality Prevention Research; (R21/R33 Clinical Trial Optional); FOA Number: PAR-21-191; Key Dates: Open Date (Earliest Submission Date): March 30, 2021; Expiration Date: May 1, 2021; Purpose: Nearly 40,000 people in the U.S. die from firearm-related deaths each year, primarily from suicide (60%) or homicide (37%), and many more have experienced non-fatal firearm injuries, both intentional and nonintentional. The Joint Explanatory Statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) included funding for the NIH to conduct research on firearm injury and mortality prevention and recommended that NIH take a comprehensive approach to studying the underlying causes and evidence-based methods of prevention of firearm injury, including crime prevention. Within the legislative mandates and limitations of NIH funding (NOT-OD-21-058, NOT-OD-21-056), the NIH encourages research to improve understanding of the determinants of firearm injury, the identification of those at risk of firearm injury (including both victims and perpetrators), the development and piloting of innovative interventions to prevent firearm injury and mortality, and the examination of approaches to improve the implementation of existing, evidence-based interventions to prevent firearm injury and mortality.; View PAR-21-191

RWJF; Pioneering Ideas: Exploring the Future to Build a Culture of Health

**Sponsor:** RWJF

**Deadline(s):** Open

**Contact:** pioneeringideas@rwjf.org

**Additional Information:** What can we do today to create a better, more equitable tomorrow?; Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work.; Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come.; We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders-anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible.; Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

But the financial benefits of these often flow elsewhere, in reduced costs for medical care from diseases and injuries prevented. Can better collaboration help balance this out-and help halt the inequities baked into the current system?; RWJF’s Systems for Action program seeks proposals to measure the impact of collaborations across medical, social, and public health systems that allow organizations to better share in the costs, benefits, power and influence that govern these initiatives. Grants, up to
$500,000 each, are available for research to evaluate solutions to these persistent problems; Learn more about eligibility and selection criteria >; Want to know more? Attend an applicant webinar on March 17, 2021 to find out what we’re looking for and hear answers to frequently asked questions.

**Additional Information:** Announcing the Cleaner Indoor Air During Wildfires Challenge; Do you have an innovative idea for an effective, low-cost technology or approach to clean indoor air?; Exposure to fine particulate matter (PM$_{2.5}$), an air pollutant from wildfire smoke and other sources, can be harmful to lung and heart health, especially for those with pre-existing conditions. EPA and its federal, state, local and tribal partners announce a Challenge competition to encourage the development of effective, low-cost technologies to reduce indoor PM$_{2.5}$ concentrations and protect public health. Applicants can submit designs for an innovative technology, approach, or technology combination. Winning submissions will each receive up to a $10,000 prize; Learn more about the Challenge; Register for an Informational Webinar; March 4, 2021, 11 am - Noon, ET

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page.

**Additional Information:** NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention; I highlighted what I thought were the key points below. [brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yes, it's a real thing. And, why shouldn’t it be? I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new “daddy.” She’s two dogs long and one dog tall and looks like she’s made from spare parts,” Jeff said. All true. An emaciated beagle-beagle-ish dog with ears longer than her bowed-little-legs isn’t going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn’t trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I’ve at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you’ll find this edition to have an interesting mix ... not unlike your favorite mutt.; **Where Do I Put the Information I Know You’d Want, But Didn’t Ask For?**; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, **there are page limits** you must stay within to convey the requested information.; **If you have information that doesn’t fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn’t have a “natural home” based on our instructions, don’t include it.**; There are several form fields with tempting names like “Appendix,” “Other Attachments,” “Other Requested Information,” and “Other Clinical Trial-related Attachments.” **DO NOT use those fields unless requested to do so in the application guide or announcement.**; **Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn’t belong.** The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them **NOT-OD-11-080; The Duplication Balancing Act:** The application guide statement “do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information Form” appears to be causing some angst in the community. In fact, our new human

mailman.columbia.edu/r2
subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a “Brief Summary” of a protocol without talking about information captured elsewhere in the application. The point we were actually trying to make is that we don’t want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it isn’t just extra space to expound on the research strategy). The Brief Summary in the Protocol Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible. The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.

Space-Fill Compulsion: My mother, an interior designer, never saw a horizontal surface she didn’t want to decorate. For years I encouraged her to declutter and often she’d begrudgingly remove a knick-knack from a table of shelf. But the next time I’d visit a new knick-knack was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we’ve learned … folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you’ve covered what you need to say in a few paragraphs, then stop. You don’t need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It’s OK. Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves.; Dog Days of Summer: “Be the person your dog thinks you are.”; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminsas@mail.nih.gov

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (Cogr) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility in implementation and other organizational issues have been addressed. (new in FORMS files/NOT-OD-18-212.html – please read the notice in its entirety. **Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried in October, the program is geared "to support faculty in preparing grant applications with the highest chance of success."

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. NIH single IRB (sIRB) policy

**Sponsor:** NIH  
**Deadline(s):** (for NIH application submissions on or after)  
01/25/2018  
**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites  
**Link(s):** https://grants.nih.gov/policy/clinical-trials/single-irb-policy-multi-site-research.htm

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, Ps and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information.; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by] Stephanie F. Additional Information: HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements: Status of the Revised Common Rule: The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information…;

Revised Policies: Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!; Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be accessed. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.;

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission. Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more);
Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original; Hope you have a great holiday season; Sheri; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Changes to NIH policies and procedures related to human subjects research
Sponsor: NIH
Deadline(s): these proposal application changes in effect for proposals due January 25th, 2018 or later; 01/25/2018 (Effective Date)
Contact: [brought to our attention by] Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National
Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm. Note: These policy updates/changes also apply to individuals conducting research through contracts.

Why is NIH making these changes? As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm

**Announcing New Research Support Services**

**Sponsor:** Mailman School

**Deadline(s):** relative to the upcoming 10/05/2017 NIH Grant Submission: Initial Request form (5 weeks prior to the Grant Due Date): 09/01/2017

**Contact:** If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak, Associate Dean Research Resources prf1@columbia.edu

Please submit the submission form and documents to Craig Kandell at ckk7@cumc.columbia.edu

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty: Dear Mailman School faculty, In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports.; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not...
eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R2, and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prfl1@cumc.columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

NIH to Limit Total Grant Support to PIs

**Link(s):** https://www.nih.gov/about-nih/who-we-are/nih-director/statements/new-nih-approach-grant-funding-aimed-optimizing-stewardship-taxpayer-dollars

Additional Information: NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards.

NIH insists that no existing awards will be rescinded; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

Who At NIH Can Answer my Question About….?

**Sponsor**: NIH  
**Deadline(s)**: NA (Announcement/Information)

**Contact**: Please see posting for individual contact links  
**Link(s)**: https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm

**Additional Information**: Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Editors, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information; See Who At NIH Can Answer my Question About…..?

Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting just-in-time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Columbia | Research; Sponsored Projects Administration; Phone: (212) 854-0606; Cell Phone: (646) 248-8573; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

**The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016**

**Sponsor**: NA  
**Deadline(s)**: 07/01/2016 (effective)  
**Contact**: Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.  
**Link(s)**: http://spa.columbia.edu/proposals/institutional-information

**Additional Information**: To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odhe-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not
change and will remain at 8.15%. For all funding sources other
than government projects, the fringe benefit rate will be 8.15%;
For grants administrators: FY16 Cost Transfers involving
sponsored projects will continue to be processed with the FY16
fringe rates through the July 15 deadline. The new FY17 fringe
rates will be introduced with FY17 payroll runs; The rate
agreement is available on the SPA website on the Institutional
Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should
be directed to Carl Sparano at email cs16@columbia.edu or voice
212-854-1049.

Two items NIH fellowship applicants should be aware of

**Sponsor:** NIH

**Deadline(s):** NA

Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief,

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-
106.html.

**Additional Information:** Please pass this on to anyone you know
whom may be preparing an NIH individual fellowship application
(pre- or postdoc); Anyone who started a grant application
for any of these fellowship opportunities prior to June 8, 2016
must return to the funding opportunity announcement and
begin again.; There were problems in the fellowship forms
packages attached to the funding announcements. NIH has since
corrected the problem. See below for details, and
https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-
106.html. Impacts the Parent fellowship funding announcements as
well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD.
[forwarded to our attention by] Stephanie Scott, SPA
Communications and Outreach Director, sfss2110; NIH Fellowship
applicants, I’d like to bring two issue to your attention: (1) Anyone
who started a fellowship application between June 3 and June 7
must return to their funding opportunity announcement to get an
updated application package (NOT-OD-16-106); (2) If you use
Grants.gov downloadable forms or Workspace to prepare your
application, be aware that the “View Attachment” button
associated with the **23. Resource Sharing Plan** attachment on the
PHS Fellowship Supplemental form displays the **22. Select Agent
Research** attachment instead of the expected one. This is simply
an issue with the Grants.gov form interface. It does not impact how
the attachments are sent to NIH or how we assemble your
application image in eRA Commons.; We are working with
Grants.gov to address the issue. In the meantime, do not rely on
the “View Attachment” feature for the Resource Sharing Plan. Instead,
carefully check your attachments prior to uploading them and
again when viewing your application image in eRA Commons.;
This issue only impacts the PDF version of the form. If you use
ASSIST or a system-to-system solution to prepare your

application, then you are not impacted.; If you have any questions,
please contact Grants Information at grantsinfo@od.nih.gov.; Sheri;
Sheri Cummins; Chief, Grants Information; Division of
Communications and Outreach; NIH Office of Extramural
Research; cumminss@mail.nih.gov; 301-496-3405;

Notice to Extend Eligibility for Submission to PAR-19-371, NIAID Career Transition Award (K22 Independent Clinical Trial Not Allowed) due to COVID-related Disruptions
Sponsor: National Institute of Allergy and Infectious Diseases (NIAID)
Deadline(s): Standard dates; Standard AIDS dates: 01/08/2022 (Expiration) [for PAR-19-371]; Though subject to future updates, NIAID now will provide at least a 2-receipt cycle extension (roughly 8 additional months) of eligibility for individuals whose eligibility to apply for the K22, under normal eligibility rules (including the resubmission policy as defined in NOT-OD-18-197), is expiring between June/July 2020 and February/March 2021 (inclusive of these dates). In addition, those who normally would have been eligible to apply for the June/July 2021 receipt date will have a 1-receipt cycle (roughly 4 months) extension.

NIH Releases Protocol Template for Behavioral and Social Sciences Research Involving Humans

**Sponsor:** National Institutes of Health

**Deadline(s):** 03/26/2019 (Release Date)

**Contact:** Please direct all inquiries to: NIH Office of Science Policy SciencePolicy@od.nih.gov

**Additional Information:** Purpose: The National Institutes of Health (NIH) has released a clinical trial protocol template with instructional and example text for NIH funded investigators to use in writing protocols for behavioral and social sciences clinical trials. This template was developed in response to changes in NIH policies that expanded the requirements associated with clinical trials beyond FDA-regulated clinical trials to those studies including behavioral or social interventions. Use of the template is recommended, but not required.

EBOLA and ZOONOTIC DISEASE

**Message from President Bollinger relative to Ebola:**

**Sponsor:** Columbia University; **Deadline(s):** NA

**Contact:** If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

**Note from Dean Fried;**

**Link(s):** NA

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

The Columbia University Medical Center IRB Office has a standing "IRB Consultation Hour". This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the
profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr. This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

NIH-Investigators Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific

FEDERAL FUNDING TRAVEL POLICY

NIH-Investigators New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.
