NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week; [NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]; New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order:

[NTW CATEGORIES]: WEEKLY HIGHLIGHT; CANCER; CLINICAL TRIALS; MENTAL DISORDERS; MENTAL HEALTH; VACCINES; SUBSTANCE USE DISORDERS (SUDS); DISEASES OF THE KIDNEY; UROLOGY; OBESITY; HIV/AIDS; PAIN RESEARCH; ENVIRONMENTAL; FOUNDATION FUNDING; ANNOUNCEMENTS; RESEARCH RESOURCES; INFORMATION SESSION; MAILMAN SCHOOL;

[NTW] [WEEKLY HIGHLIGHT/CANCER] Title: RFA-CA-15-008--Research Answers to NCI's Provocative Questions (R01);
Sponsor: National Cancer Institute/NIH/DHHS;
Contact: E-mail: greenspanej@mail.nih.gov;

Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications for research projects designed to solve specific problems and paradoxes in cancer research identified by the National Cancer Institute (NCI) Provocative Questions initiative. These problems and paradoxes phrased as questions are not intended to represent the full range of NCI's priorities in cancer research. Rather, they are meant to challenge cancer researchers to think about and elucidate specific problems in key areas of cancer research that are deemed important but have not received sufficient attention. Some of these “Provocative Questions” (PQs) stem from intriguing but older, neglected observations that have never been adequately explored. Other PQs are built on more recent findings that are perplexing or paradoxical, revealing important gaps in current knowledge. Finally, some PQs reflect problems that traditionally have been thought to be intractable but that now may be open to investigations using new strategies and recent technical advances. The current issuance of the PQ Initiative involves an updated set of 12 PQs. Each research project proposed in response to this FOA must be focused on addressing one particular research problem defined by one specific PQ selected from the list. Projects proposed to address specific PQs may use strategies that incorporate ideas and approaches from multiple disciplines, as appropriate. Transdisciplinary projects are encouraged as long as they serve the scientific focus of the specific PQ chosen. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 29, 2015. The deadline for receipt of optional letters of intent is 30 days before application due date. The deadlines for receipt of full applications are June 29, 2015; October 29, 2015; June 29, 2016; October 28, 2016, by 5:00 PM local time of applicant organization.;

[NTW] [CANCER] Title: Identifying Non-coding RNA Targets for Early Detection of Cancer (R01);
Sponsor: National Cancer Institute/NIH/DHHS;
Deadline(s): 05/07/2015; 06/05/2015; 09/07/2015;
Contact: E-mail: wangw@mail.nih.gov;
Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PA-12-213.html;

Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications for research projects on non-coding RNAs (ncRNAs) and their targets in preneoplastic lesions and early stage cancers. This FOA also encourages research projects to assess the usefulness of stable microRNAs (miRNAs) and ncRNAs to predict progression to cancer and as biomarkers for early cancer detection and screening. Building on both basic and biomarker research on microRNAs (miRNA), this FOA will further promote research on all classes of ncRNAs and support the translation of stable miRNAs into cancer screening or diagnostic tests. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June
5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2015.

[NTW] [CANCER] **Title:** Physical Activity and Weight Control Interventions Among Cancer Survivors: Effects on Biomarkers of Prognosis and Survival; (R01);
**Sponsor:** National Cancer Institute/NIH/DHHS;
**Deadline(s):** 05/07/2015; 06/05/2015; 09/07/2015;
**Contact:** E-mail: alfano2@mail.nih.gov;
**Link(s):** Program URL: [http://grants1.nih.gov/grants/guide/pa-files/PA-12-228.html](http://grants1.nih.gov/grants/guide/pa-files/PA-12-228.html);

**Additional Information:** SYNOPSIS: National Cancer Institute (NCI) invites applications for transdisciplinary and translational research that will identify specific biological or biobehavioral pathways through which physical activity and/or weight control (either weight loss or avoidance of weight gain) may affect cancer prognosis and survival. Research applications must test the effects of physical activity or weight control or both interventions on biomarkers of cancer prognosis among cancer survivors identified by previous animal or observational research, which may include but are not limited to intervention-induced changes in sex hormones, insulin or insulin-like growth factors or their binding proteins, insulin resistance, glucose metabolism, leptin and other adipokines, immunologic or inflammatory factors, oxidative stress and DNA damage or repair capacity, angiogenesis, or prostaglandins. This research will require transdisciplinary approaches that bring together behavioral intervention expertise, cancer biology, and other basic and clinical science disciplines relevant to the pathways being studied. Understanding the pathways through which these interventions are effective would identify the optimal type and intensity of intervention and determine who is most likely to benefit from these interventions by cancer type, age, or other host factors. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2015.

**[NTW] [CANCER] Title:** Exploratory/Developmental Grants Program for Basic Cancer Research in Cancer Health Disparities; (R21);  
**Sponsor:** National Cancer Institute/NIH/DHHS;  
**Deadline(s):** 06/17/2015; 11/17/2015; 06/17/2016; 11/17/2016; 06/19/2017; 11/17/2017;  
**Contact:** E-mail: woodhousee@mail.nih.gov;  
**Additional Information:** SYNOPSIS: National Cancer Institute (NCI) invites applications for basic research studies into the biological/genetic causes and mechanisms of cancer health disparities. These awards will support pilot and feasibility studies designed to investigate biological/genetic bases of cancer disparities, such as (1) mechanistic studies of biological factors associated with cancer disparities, (2) the development and testing of new methodologies and models, and (3) secondary data analyses. This FOA is also designed to aid and facilitate the growth of a nationwide cohort of scientists with a high level of basic research expertise in cancer health disparities research who can expand available resources and tools, such as biospecimens, cell lines and methods that are necessary to conduct basic research in cancer health disparities. In addition, the FOA will further the development of scientific areas, providing support for early-stage exploratory projects that lead to future in-depth mechanistic studies (such as R01 projects) of the biology of cancer health disparities. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; **DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after May 17, 2015 The sponsor will not accept letters of intent under this FOA. The deadlines for receipt of full applications are: June 17, 2015; November 17, 2015; June 17, 2016; November 17, 2016; June 19, 2017; November 17, 2017, by 5:00 PM local time of applicant organization.; [*]

**[NTW] [CANCER] Title:** Early-life Factors and Cancer Development Later in Life (R03);  
**Sponsor:** National Cancer Institute/NIH/DHHS;  
**Deadline(s):** 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017; 02/16/2017; 05/07/2017; 06/16/2017; 09/07/2017; 10/16/2017; 01/07/2018;

**Link to full program description:** [http://www.infoed.org/new_spin/spin_prog.asp?46082](http://www.infoed.org/new_spin/spin_prog.asp?46082);
**Additional Information:** SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for research focused on the role of early-life factors in cancer development later in life. Given that current emerging evidence from limited research indicates a potentially important role for early-life events and exposures in cancer development, it is necessary to better understand 1) the early-life (maternal-paternal, in utero, birth and infancy, puberty and adolescence, and teenage and young adult years) factors that are associated with later cancer development; 2) how early-life factors mediate biological processes relevant to carcinogenesis; and 3) whether predictive markers for cancer risk based on what happens biologically at early-life can be measured and developed for use in cancer prevention strategies. Markers that predict malignancy or pre-malignant conditions would allow assessment of early-life exposures with relevant outcomes without having to wait 50 years for cancer development. Ultimately, a better mechanistic understanding of how early-life events and exposures contribute to the etiology of cancer later in life will allow for the development of effective interventions during pregnancy or early life that may have a profound impact on cancer prevention. This FOA will use the NIH Small Research Grant (R03) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after May 16, 2015. The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on January 8, 2018.; [*]
settings. Applications might include research to evaluate the effectiveness or increase the clinical impact of pharmacologic, somatic, psychosocial (psychotherapeutic, behavioral), device-based, rehabilitative and combination interventions to prevent or treat mental illness. This FOA also supports clinical trials to test patient-, provider-, organizational-, or systems-level services interventions to improve service access, engagement, quality, coordination, or delivery, with the goal of improved outcomes at the individual and population level. The intervention research covered under this announcement is explicitly focused on practice-relevant questions. This FOA should be used when two or more sites are needed to complete the study. Accordingly, the collaborating studies share a specific protocol across the sites and are organized as such in order to increase sample size, accelerate recruitment, or increase sample diversity and representation. Each site has its own Program Director/Principal Investigator and the program provides a mechanism for cross-site coordination, quality control, database management, statistical analysis, and reporting. This FOA will use the NIH R01 Research Project Grant award mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 15, 2015. The deadline for receipt of optional letters of intent is 30 days before the application due date. The deadlines for receipt of full applications are: June 15, 2015; October 14, 2015; February 17, 2016; June 15, 2016; October 14, 2016, by 5:00 PM local time of applicant organization.;

Additional Information: SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for investigator-initiated clinical trials to establish the effectiveness of interventions and to test hypotheses regarding moderators, mediators, and mechanisms of action of these interventions. This FOA supports clinical trials designed to test the therapeutic value of treatment and preventive interventions for which there is already evidence of efficacy, for use in community and practice settings. Applications might include research to evaluate the effectiveness or increase the clinical impact of pharmacologic, somatic, psychosocial (psychotherapeutic, behavioral), device-based, rehabilitative and combination interventions to prevent or treat mental illness. This FOA also supports clinical trials to test patient-, provider-, organizational-, or systems-level services interventions to improve service access, engagement, quality, coordination, or delivery, with the goal of improved outcomes at the individual and population level. Additional Information: SYNOPSIS: National Heart, Lung, and Blood Institute (NHLBI) invites applications for investigator-initiated multi-site randomized controlled clinical trials. The trials may address any research question related to the mission and goals of the NHLBI and may test clinical or behavioral interventions. The FOA is appropriate for applications to conduct phase II and phase III randomized clinical trials where participants are recruited from multiple sites. Large-scale pragmatic trials (such as comparative effectiveness trials) as well as trials designed to test efficacy of an intervention are appropriate. The trials may randomize at the individual (patient) level or at a group level (e.g., randomization of clinics, schools, worksites, etc.). Clinical trials involving NHLBI mission-related rare diseases that require coordination across multiple clinical sites are also suitable for submission to this FOA. In any case, the trial should propose the most efficient study design to complete the specific aims. This program will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2016.; [*]

[NTW] [CLINICAL TRIALS/MENTAL DISORDERS] Title: RFA-MH-16-400--Exploratory Clinical Trials of Novel Interventions for Mental Disorders; (R33);

Additional Information: SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for the efficient pilot testing of novel interventions for mental disorders in adults and children through an experimental therapeutics approach. Under this FOA, trials must be designed so that results, whether positive or negative, will provide information of high scientific utility and will support “go/no-go” decisions about further development or testing of the intervention. Studies of novel interventions include, but are not limited to behavioral, pharmacological, biologics-based, cognitive, device-based, interpersonal, physiological, or combined approaches. Support will be provided for testing and validating the intervention’s mechanism of action and for studies relating the mechanism to functional or clinical effects. Ultimately, this funding mechanism is intended to speed the translation of emerging basic science findings of mechanisms and processes underlying mental disorders into novel interventions that can be efficiently tested for their promise in restoring function and reducing symptoms for those living with mental disorders. This FOA will use the NIH R33 Exploratory/Developmental Grants Phase II award mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 15, 2015. **Additional Information:** SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for confirmatory efficacy testing of non-pharmacological therapeutic and preventive interventions for mental disorders in adults and children through an experimental therapeutics approach. Under this FOA, trials must be designed so that results, whether positive or negative, will provide information of high scientific utility and will support "go/no-go" decisions about further development, effectiveness testing, or dissemination of the intervention. Intervention studies include, but are not limited to behavioral, cognitive, interpersonal, and device-based approaches, or a combination thereof. Interventions appropriate for efficacy testing must be based on a compelling scientific rationale, previous demonstration that the intervention engages and alters the hypothesized mechanism of action, a preliminary efficacy signal, and must address an unmet therapeutic need. Support will be provided for a trial of the intervention's efficacy that includes measurement of the hypothesized mechanism of action and the relationship between change in the mechanism and change in functional or clinical effects. Ultimately, this FOA is intended to support a sufficiently powered efficacy trial to determine the intervention's potential for significant clinical benefit. This FOA will use the NIH Research Project (R01) award mechanism.;

**DEADLINE NOTE:** Applications may be submitted to Grants.gov in response to this announcement on or after May 15, 2015. The deadline for receipt of optional letters of intent is 30 days before the application due date.; The deadlines for receipt of full applications are: June 15, 2015; October 14, 2015; February 17, 2016; June 15, 2016; October 14, 2016, by 5:00 PM local time of applicant organization.;

[NTW] [MENTAL HEALTH] **Title:** RFA-MH-16-410--Pilot Effectiveness Trials for Treatment, Preventive and Services Interventions (R34); Grant;

*Sponsor:* National Institute of Mental Health/NIH/DHHS; HHS; Department of Health and Human Services; National Institutes of Health;

**Deadline(s):** 05/15/2015; 06/15/2015; 09/14/2015; 10/14/2015; 01/17/2016; 02/17/2016; 05/15/2016; 06/15/2016; 09/14/2016; 10/14/2016;

**Contact:** E-mail: jsherril@mail.nih.gov; FBOWebmaster@OD.NIH.GOV;

**Additional Information:** SYNOPSIS: National Institute of Mental Health (NIMH) invites applications pilot research consistent with NIMH's priorities for: 1) effectiveness research on preventive and therapeutic interventions with previously
demonstrated efficacy, for use with broader target populations or for use in community practice settings, and 2) research on the development and preliminary testing of innovative services interventions. Applications should provide resources for evaluating the feasibility, tolerability, acceptability and safety of approaches to improve mental health or functional outcomes, or modify risk factors, and for obtaining the preliminary data needed as a pre-requisite to a larger-scale intervention trial (e.g., comparative effectiveness study, practical trial) or large-scale services study. In this pilot phase of effectiveness research, NIMH places highest priority on approaches that can be justified in terms of their potential to substantially impact practice and public health and approaches that are empirically grounded. Adaptations or augmentations of efficacious interventions should only be undertaken if there is an empirical rationale for the adaptation target and for the corresponding mechanism by which the adapted intervention or augmentation is expected to substantially enhance outcomes. This FOA is intended to support pilot effectiveness trials that are designed to explicitly address whether the intervention engages the target/mechanism that is presumed to underlie the intervention effects. This FOA will use the NIH R34 Planning Grant award mechanism. DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 15, 2015. The deadline for receipt of optional letters of intent is 30 days before the application due date. The deadlines for receipt of full applications are: June 15, 2015; October 14, 2015; February 17, 2016; June 15, 2016; October 14, 2016, by 5:00 PM local time of applicant organization.

Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) invites applications for Phased Innovation (R21/R33) projects to determine whether reductions in illicit drug use are associated with positive changes in health-related and other functional outcomes in individuals with substance use disorders (SUDs). Functional outcomes include, for example, reductions in morbidity, mortality, criminal justice involvement, overall healthcare expenditures. This FOA provides support for up to two years (R21 phase) for research planning activities and feasibility studies, followed by possible transition to expanded research support (R33 phase). The transition to the R33 phase will be determined by NIH program evaluation of successful achievement of the milestones set for the R21 phase. The ultimate goal of this FOA is to provide evidence that will enable regulatory authorities to accept reductions in illicit drug use as a valid outcome measure in clinical trials of pharmacotherapies for the treatment of SUDs. This program will use the NIH R21/R33 Phased Innovation Award grant mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 16, 2015. [NTW] [PAIN RESEARCH] Title: Mechanisms, Models, Measurement and Management in Pain Research (R21); Sponsor: National Institute of Nursing Research/NIH/DHHS; Deadline(s): 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; Contact: E-mail: mardens@mail.nih.gov; Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PA-13-119.html; Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?05219; Additional Information: SYNOPSIS: The sponsors invite applications to stimulate and foster a wide range of basic, clinical, and translational studies on pain as they relate to the missions of these ICs. New advances are needed in every area of pain research, from the micro perspective of molecular sciences to the macro perspective of behavioral and social sciences. Although great strides have been made in some areas, such as the identification of neural pathways of pain, the experience of pain and the challenge of treatment have remained uniquely individual and unsolved. Furthermore, our understanding of how and why individuals transition to a chronic pain state after an acute insult is limited. Research to address these issues conducted by interdisciplinary and multidisciplinary research teams is strongly encouraged, as is research from underrepresented, minority, disabled, or women investigators. This program will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2016. [*]

**Additional Information:** SYNOPSIS: National Institute of Nursing Research (NINR) and National Institute of Environmental Health Sciences (NIEHS) invite applications for interdisciplinary research aimed at promoting health, limiting symptoms and disease, and reducing health disparities in children and older adults living or spending time in non-traditional settings. These settings result in exposure to environmental pollutants and toxins that result in health risks, symptoms, and other health conditions / diseases including lower respiratory diseases, chronic obstructive pulmonary disease, and cardiovascular diseases. Risk identification and symptom management include prevention and behavior changes and actions to maintain health and prevent disease with an emphasis on the individual, family, and community which will advance nursing science. For purposes of this FOA, non-traditional settings, for children and older adults, include, but are not limited to places such as community centers, pre-school and non-traditional school environments (e.g., churches, daycare, home-based schools, dormitories, and alternative schools), child and older adult foster care facilities, older adult day care facilities, half-way homes, assisted living and long-term care facilities. **Additional Information:** From Rudina Odeh-Ramadan, via Rosa Rivera; RE: Ebola Projects/ MTA's; Dear All, The University continues to closely monitor information and recommendations regarding travel to West Africa countries experiencing the Ebola virus outbreak. Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost’s approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@cumc.columbia.edu; Dear All: Additional clarification regarding the policy regarding research (proposals or MTA’s) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval. One prerequisite for the Provost’s approval will be a written
evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission. Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement.: Odeh-Ramadan, Rudina; Associate Vice President For Research Administration; Clinical Trials Office; Office of Research Administration; 154 Haven Avenue; Mail Code: Third Floor; New York NY 10032; United States 212-305-5064; Ro133@columbia.edu;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. ; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment. ; Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; Sponsor: NIH; Deadline(s): Starting in October 2014; Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/; Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.

People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. .... We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. .... The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and

The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;

Additional Information: Complete Profiles Required for Students and Postdocs: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. *If you can’t view it, we can’t review it!*
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors– they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tildes, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES
NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year, e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf;
FUNDING RELATIVE TO TRAVEL

NA at this point;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:
http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent); (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*)
Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's
direct agreement.; (*) All applications must conform to the
final Program Announcements and General Application
Instructions that will be available for electronic
downloading from the Grants.gov website. The application
package containing the required forms for each award
mechanism will also be found on Grants.gov. A listing of all
USAMRMC funding opportunities can be obtained on the
Grants.gov website by performing a basic search using
CFDA Number 12.420. Applications must be submitted
through the federal government's single-entry portal.
Grants.gov. Submission deadlines are not available until the
Program Announcements are released. Requests for email
notification of the Program Announcements release may be sent to

The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://ebrap.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)
For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/unsubscribe to program specific news and updates at https://ebrap.org.”

Therapeutic Development Award
Therapeutic Idea Award

Bone Marrow Failure Research Program (BMFRP)
Idea Development Award

Breast Cancer Research Program (BCRP)
Era of Hope Scholar Award
Innovator Award
Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

The Department of Defense (DoD) Peer Reviewed Medical Research Program (PRMRP) just released a pre-announcement to allow investigators time to plan and develop applications. The FY14 PRMRP will solicit research applications for 25 topic areas, listed below. The official funding announcements and application instructions will be released in April. See below for details.

Defense Health Program
Department of Defense Peer Reviewed Medical Research Program
Funding Opportunities for Fiscal Year 2014
The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $200 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP).

PRMRP pre-announcement
Congressionally Directed Topic Areas. The FY14 PRMRP will solicit research applications for the following 25 topics areas: Acupuncture; Arthritis; Chronic Migraine and Post-Traumatic Headaches; Congenital Heart Disease; DNA Vaccine Technology for Postexposure Prophylaxis; Dystonia; Epilepsy; Food Allergies; Fragile X Syndrome; Hereditary Angioedema; Illnesses Related to Radiation Exposure; Inflammatory Bowel Disease; Interstitial Cystitis; Lupus; Malaria; Metabolic Disease; Neuroprosthetics; Pancreatitis; Polycystic Kidney Disease; Post-Traumatic Osteoarthritis; Psychotropic Medications; Respiratory Health; Rheumatoid Arthritis; Segmental Bone Defects; Tinnitus

Military Relevance: Relevance to the healthcare needs of the military service members, veterans, and beneficiaries is a key feature of each FY14 PRMRP award mechanism.
