[NTW] [WEEKLY HIGHLIGHT/ANNOUNCEMENTS (NIH/COLUMBIA UNIVERSITY)] Title: Update; The Implementation of the Revised Federal Grants Management Regulations Known As The Uniform Guidance; Sponsor: NIH; Deadline(s): 12/26/2014;
Contact: If you have any questions, please feel free to send them to uniform-guidance@columbia.edu.; Sincerely, G. Michael Purdy; Executive Vice President for Research; Anne Sullivan; Executive Vice President for Finance; Link(s): Information about the workshops is available here; Proposal & Award Policies and Procedures Guide; Grant General Conditions; Cooperative Agreement Financial & Administrative Terms & Conditions; On March 31, NIH published its Grants Policy Statement; Uniform Guidance Website;
Additional Information: Dear Colleague, We are writing to update you on the implementation of the revised federal grants management regulations known as the Uniform Guidance. All new federal awards and most non-competing renewals made on or after December 26, 2014, are subject to the new Guidance.; Spring Training Workshops: In late April and early May, the Uniform Guidance Task Force will offer training workshops open to administrators, principal investigators and others. The two-session workshops will provide practical guidance on the operational requirements, policies and procedures necessary for compliance with the Uniform Guidance. We believe it is essential that all administrators involved with pre-and/or post-award aspects of sponsored projects, federal and non-federal, attend one or both workshop sessions. PIs are also welcome. More information about the workshops is available here; Monitoring of Sponsored Project Expenditures: As you are aware, the PI is responsible for all aspects of a project, including ensuring that all expenditures are reasonable, allowable and allocable to the project. To help PIs meet this important obligation, we will, in the coming weeks, be rolling out updated processes, supported by guidance, on-line training and additional resources for PIs for the quarterly monitoring of sponsored project expenditures. In addition, the workshops outlined above will also address this process.; NIH and NSF Interim Terms and Conditions, Updated Policies: At the end of 2014, NSF issued revised guidelines applicable to all NSF-funded projects subject to the Uniform Guidance: Proposal & Award Policies and Procedures Guide, Grant General Conditions;
Conditions and Cooperative Agreement Financial & Administrative Terms & Conditions. On March 31, NIH published its Grants Policy Statement. You can find the NSF and NIH Summaries of Significant Changes and NIH FAQs on the Uniform Guidance Website here. Please review new terms and conditions for your awards carefully to identify changes, e.g., different prior approval requirements. As other agency-specific implementation plans become available, they are being posted on the Uniform Guidance Website. Reference guides, links to agency policies, and other resources are available on the Uniform Guidance Website. If you have any questions, please feel free to send them to uniform-guidance@columbia.edu;

Sincerely,
[forwarded via] G. Michael Purdy; Executive Vice President for Research; Anne Sullivan; Executive Vice President for Finance;

[NTW] [WEEKLY HIGHLIGHT/FOUNDATION FUNDING/FORD FOUNDATION/ANNOUNCEMENTS]

Title: A New Ford Foundation Requirement; New Policy About Creative Commons License;
Sponsor: The Ford Foundation;
Deadline(s): Immediately;
Contact: Forwarded via Debbie Rosenberg Bush; Director of Institutional Partnerships; Columbia University Mailman School of Public Health; Mailing Address: 722 West 168th Street, 14th Fl, New York, NY 10032-2695; Office Address: 600 West 168th Street, Room 517C, New York, NY 10032; 212-305-7716; drb2163@columbia.edu; Helena Hofbauer; Representante; Oficina para México y Centroamérica; Emilio Castelar 131; Col. Additional Information: As you all know, the Ford Foundation is deeply committed to transparency and openness, and this philosophy extends to the valuable material created by our grantees and consultants with foundation funds. In line with these values, the foundation now requires that grantees make foundation funded materials -such as white papers, research reports, software, web sites, data sets, photographs and videos- subject to a Creative Commons license.; Creative Commons is a nonprofit organization that facilitates the sharing and use of material through simple, standardized licenses that copyright holders can use to give the public permission to share and use their creative work. These open licenses permit others to use copyrighted works in different ways depending on the particular license chosen, including allowing others to incorporate all or parts of the works in new works, change the work, and-8 even publish and sell the work, as long as the new user includes an attribution (or credit) to the copyright owner.; The grant letter will now require that most grantees that receive project funding (as opposed to general or core support) license the products of that grant under a Creative Commons license and make the products widely available through their website or other means. We recognize that there will be situations where this license will not be applicable, such as when you expect to generate revenue from the sale of the product that is critical to the success of the grant. In such situations, you should contact your program officer and we will agree to forego or negotiate limits to the requirement. The foundation will be flexible in implementing this policy to avoid harming our grantees.; We are excited about joining other foundations in the use of a Creative Commons license. Together we are hoping to contribute to a transformation in philanthropy towards greater information sharing and knowledge transfer, ultimately leading to greater impact.; Please feel free to reach out to me with any question or comment.; Helena Hofbauer; Representante; Oficina para México y Centroamérica; Emilio Castelar 131; Col. Additional Information: 2015 Irving Institute/Clinical Trials Office Pilot Awards; Under the sponsorship of the Clinical Trials Office, the Pilot and Collaborative Research Studies Resource (PCSR) of the Irving Institute for Clinical and Translational Research announces the 2015 round of clinical and translational research pilot awards.; Applications will be accepted for one-year, one-time only, individual clinical and translational pilot grants of $50,000 each. This award program is intended primarily for junior investigators who have not previously received extramural funding. At award time, qualified applicants must hold an appointment as an Instructor, Assistant Professor (clinical or tenure track) or Associate Research Scientist at the College of Physicians & Surgeons at Columbia University Medical Center. The focus of the application should be on PILOT STUDIES which lead to independent funding in the future. These awards are not meant to supplement on-going funded research.; Departmental Matching Funds ($25,000) Required. Applicants to this program must first contact their department chair to determine the level of interest in co-sponsorship. NOTE: We cannot accept any application that does not have the prior, written approval of the department chairperson. Departments may wish to conduct their own, intra-departmental competition before approving submission of proposals to this program. Alternatively, departments may be willing to cost-share funds for more than one applicant. Moreover, more than one award recipient may come from the same department, providing departmental funds are available and pre-approved.; APPLICATION DEADLINE – Friday, April 24, 2015 at 5:00p EST; AWARD ANNOUNCEMENTS – June 2015; FUNDS AVAILABLE – July 1, 2015; Learn more about this program and download the application instructions.; Click here to begin an application.; Good luck to all applicants!;

are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2018.;

[NTW] [ALZHEIMER’S DISEASE] Title: Alzheimer's Drug-Development Program (U01)
Grant;
Sponsor: HHS; Department of Health and Human Services; National Institutes of Health;
Deadline(s): 05/07/2018;
Contact: FBOWebmaster@OD.NIH.GOV;

[NTW] [HEALTHCARE ASSOCIATED INFECTIONS (HAIs)] Title: Epicenters for the Prevention of Healthcare Associated Infections (HAIs) – Cycle II (U54);
Sponsor: National Center for Emerging and Zoonotic Infectious Diseases/CDC/DHHS;
Deadline(s): 05/01/2015; 06/01/2015;
Contact: Technical Information Management Section Department of Health and Human Services CDC Procurement and Grants; pgotim@cdc.gov; dloveys@cdc.gov;

Additional Information: SYNOPSIS: The purpose of this program is to expand the number of CDC Prevention Epicenters to translate basic, epidemiologic and technologic discoveries into new strategies for preventing healthcare-associated transmission of Ebola and/or infectious pathogens (viral or bacterial) that can be spread by mechanisms similar to Ebola. This might include, but is not limited to, project proposals that focus on the effectiveness of personal protective equipment against such pathogens, healthcare worker self-contamination with pathogens, or the role of the healthcare environment in pathogen transmission.; DEADLINE NOTE: The deadline for receipt of optional letters of intent is May 1, 2015.; The deadline for receipt of full applications is June 1, 2015.;

[NTW] [OBESITY/DIABETES/KIDNEY DISEASE] Title: Secondary Analyses in Obesity, Diabetes and Digestive and Kidney Diseases (R21);
Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS;
Deadline(s): 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017; 02/16/2017; 05/07/2017; 06/16/2017; 09/07/2017; 10/16/2017; 01/07/2018; 02/16/2018; 05/07/2018; Standard dates: Standard AIDS dates; Application Receipt/Submission Date(s): Multiple dates, see announcement.;

Additional Information: SYNOPSIS: The sponsors invite applications that propose to conduct secondary analysis of existing data sets relevant to diabetes and endocrine and selected endocrine and metabolic diseases including thyroid, parathyroid and Cushing’s diseases and acromegaly; and genetic metabolic disease including cystic fibrosis, lysosomal
storage diseases, and disorders of the urea cycle, amino acid metabolism and metal transport where the focus is on peripheral metabolism or organ function; obesity, liver diseases, alimentary GI tract diseases and nutrition; kidney, urologic, and hematologic diseases. The goal of this program is to facilitate research that explores innovative hypotheses through the use of existing data sets. This program will use the NIH Exploratory / Developmental (R21) grant mechanism.; DEADLINE NOTE: The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2018.;

[NTW] [CLINICAL TRIALS/DIABETES/ENDOCRINE] Title: Pilot and Feasibility Clinical Trials in Diabetes, and Endocrine and Metabolic Diseases (R21);
Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS;
Deadline(s): 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017; 02/16/2017; 05/07/2017; 06/16/2017; 09/07/2017; 10/16/2017; 01/07/2018; 02/16/2018; 05/07/2018;

Additional Information: SYNOPSIS: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites pilot and feasibility clinical and behavioral studies related to the prevention or treatment of diabetes and endocrine and genetic metabolic diseases. The Pilot and Feasibility Clinical Research Grants Program is for exploratory, short-term clinical studies, so that new ideas may be investigated without stringent requirements for preliminary data. The short-term studies should focus on research questions that are likely to have high clinical impact. Studies can include testing a new prevention strategy, a new intervention or a unique combination of therapies. A high priority is the use of such studies to help stimulate the translation of promising research developments from the laboratory into clinical practice in the treatment or prevention of diabetes, endocrine diseases and genetic metabolic diseases, including cystic fibrosis. This program will use the NIH Exploratory/Developmental (R21) grant mechanism.; DEADLINE NOTE: Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted to Grants.gov in response to this announcement on or after May 16, 2015. The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2018.;

[NTW] [DIET/PHYSICAL ACTIVITY] Title: Improving Diet and Physical Activity Assessment (R01); Grant;
Sponsor: National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS Program; Department of Health and Human Services; National Institutes of Health;
Deadline(s): 10/05/2015; 11/05/2015; 01/07/2016; 06/05/2016; 07/05/2016; 09/07/2016; 02/05/2017; 03/05/2017; 05/07/2017; 10/05/2017; 11/05/2017; 01/07/2018; 06/05/2018; 07/05/2018; 09/07/2018;

[NTW] [DEPARTMENT OF DEFENSE (DOD)/CANCER (LUNG)/CLINICAL TRIALS] Title: Lung Cancer Research Program--Clinical Exploration Award;
Sponsor: Department of the Army;
Deadline(s): 06/02/2015;
Contact: E-mail: help@eBRAP.org;
Link(s): Program URL: http://www.grants.gov/custom/viewOppDetails.jsp?oppId=275734;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?46976;

Additional Information: SYNOPSIS: This award mechanism supports early-phase, proof-of-principle clinical trials and correlative studies to investigate hypothesis-based, innovative interventions that have the potential to resolve current clinical barriers and result in a profound impact on the clinical management of lung cancer. While therapeutic approaches proposed for testing through the CEA must represent novel, hypothesis-based, “outside-the-box” approaches for treating lung cancer, they may include therapies already in clinical use, or undergoing clinical testing for other diseases, provided that the proposed use for lung cancer would lead to a major advancement for treating the disease. Outcomes from studies funded by this award are anticipated to provide scientific rationale for subsequent development of larger, efficacy-based clinical trials of interventions that will transform lung cancer clinical care. Submissions from and partnerships with investigators at military treatment facilities, military labs, and Department of Veterans Affairs (VA) medical centers and research laboratories are strongly encouraged. DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), June 2, 2015. The invited application must be received by 11:59 p.m. ET, September 16, 2015.;

[NTW] [DEPARTMENT OF DEFENSE (DOD)/CANCER (LUNG)/EARLY CAREER] Title: Lung Cancer Research Program--Career Development Award;
Sponsor: Department of the Army;

Additional Information: SYNOPSIS: The Career Development Award supports early-career, independent investigators to conduct impactful research under the mentorship of an experienced lung cancer researcher as an opportunity to obtain the funding, mentoring, and experience necessary for productive, independent careers at the forefront of lung cancer research. This award is intended to support impactful research projects with an emphasis on discovery. Submissions from and partnerships with investigators at military treatment facilities, military labs, and Department of Veterans Affairs (VA) medical centers and research laboratories are strongly encouraged. DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), June 2, 2015. The invited application must be received by 11:59 p.m. ET, September 16, 2015.;

Additional Information: SYNOPSIS: A -- Awareness & Availability of CPS Info Resources SOL DTNH2215R00018 POC Brian Jenkins, Email NhtsaOam@dot.gov - Sherese A. Gray, Contracting Officer, Email NHTSAOAM@dot.gov; Description: The US Department of Transportation, National Highway Traffic Safety Administration’s (USDOT/NHTSA) Office of Behavioral Safety Research (OBSR) conducts research and evaluation projects related to behaviors and attitudes in highway safety issues. Child restraint systems are effective at reducing the risk of injury during motor vehicle crashes. In 1998, NHTSA implemented a program for training and certifying child passenger safety technicians (CPSTs). Presently, Safe Kids Worldwide hosts Child Car Seat Inspection Stations nationwide which provide parents and caregivers an opportunity to receive one-on-one instruction regarding proper use and installation of child restraints from a certified CPST. Unfortunately, this resource seems to be underutilized. In fact, unpublished results from a recent NHTSA study show that approximately 9 percent of parents/caregivers interviewed reported having visited an inspection station. At present, it is unclear what obstructs and what encourages use of this resource. One potential barrier is parent/caregiver overconfidence such that overconfident parents and caregivers do not recognize the need to visit an inspection station or CPST [1]. In addition, lack of awareness and availability (e.g., distance, long waiting lists for appointments) may be barriers to the use of CPST/inspection stations. The objective of this study is to evaluate these barriers and determine what the reasons are for a low attendance rate. Given that research has shown hands-on instruction is effective for reducing installation errors [2], it is reasonable to postulate that increasing CPST/inspection station use will translate to a reduction in CRS misuse. Ultimately, reducing misuse would increase the protective value of CRSs and reduce injuries and fatalities. Thus, determining what prevents parents/caregivers from using an inspection station will inform strategies to promote use of them. The overall objectives of this contract are to: 1. To estimate the degree of awareness parents/caregivers have of CPST/inspection stations. 2. To determine the relationships between parent/caregiver confidence, risk perception, and the intent to visit an inspection station. 3. To identify additional barriers to use of inspection stations. NHTSA seeks a Contractor to aid in development of survey items, a sampling plan, and recruitment strategies to address the objectives of the project. This acquisition is being offered for full and open competition. The NAICS Code for the anticipated contract is 541720. Contractors must be registered in the Systems for Award Management Database located at http://www.sam.gov/ and must complete electronic representations and certification on the ORCA Database [The information previously maintained in CCR, FedReg and ORCA now is contained within the Entity Management (EM) area in SAM] to be
considered for contract award. It is the Government’s intent to award a Cost plus Fixed-Fee type contract resulting from the solicitation, with or without discussions, to the responsible offer or whose proposal, conforming to the solicitation, is most advantageous to the Government based on the evaluation factors contained in the solicitation. It is the Offeror’s responsibility to monitor the FedBizOpps Internet site for the release of the solicitation and amendments (if any). Potential Offerors will be responsible for downloading their own copy of the solicitation and amendments (if any). Requests for paper copies of the RFP will not be accepted. The estimated date for release of the solicitation is on or about April 20, 2015.

Period of Performance: Base period of thirty-six (36) months. Contract Award: The anticipated award date for the resultant contract is expected to be on or about July 2015.

Additional Information: From/via the NCER mailing list, Wednesday April 08, 2015 Volume 17 Number 7. The following is a broadcast announcement listing of a new funding opportunity sponsored in whole or in part by the U.S. Environmental Protection Agency's National Center for Environmental Research (NCER). See the end of this message to obtain details on this and other NCER broadcast services as well as how to unsubscribe to this list.; The U.S. Environmental Protection Agency (EPA) announces the posting of the Request for Applications, 2015 EPA Science to Achieve Results (STAR) Fellowships for Graduate Environmental Study with the goal of offering Graduate Fellowships for master’s and doctoral level students in environmental fields of study. Subject to availability of funding and other applicable considerations, the Agency plans to award approximately 55 new fellowships in the Fall of 2015. Master's level students may receive a maximum of two years of support ($88,000). Doctoral students may be supported for a maximum of three years ($132,000), usable over a period of five years. Supporting these fellowship grants is in line with the Sustainable and Healthy Communities (SHC) Research Program. EPA’s SHC Research Program provides useful science and tools for decision makers at all levels to help communities advance sustainability as well as achieve regulatory compliance. SHC is collaborating with partners to conduct research that will result in science-based knowledge to guide decisions that will better sustain a healthy society and environment in America's communities. The research is intended for decision-makers at the federal, regional, state and community levels. **Additional Information:** SYNPLOIS: National Institute on Drug Abuse (NIDA) and National Institute on Alcohol Abuse and Alcoholism (NIAAA) invite applications for (a) pilot and/or feasibility testing of new, revised, or adapted preventive intervention approaches to prevent or delay the initiation and onset of drug and alcohol use, the progression to problem use or alcohol and other substance use disorder, reduce drinking and driving and deaths related to impaired driving and the drug- or alcohol-related acquisition or transmission of HIV infection and viral hepatitis among diverse populations and settings; and (b) pre-trial feasibility testing for prevention services and systems research. This R34 mechanism does not support the development of intervention protocols, manuals, or the standardization of protocols. It is expected that research conducted via this R34 mechanism will consist of early stage efficacy, effectiveness or services research that will provide intervention pilot and/or feasibility data that is a prerequisite for submitting larger drug or alcohol abuse and/or drug- or alcohol-related HIV prevention intervention studies. This FOA will utilize the NIH Planning Grant (R34) award mechanism.; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after May 16, 2015. The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2018.;

Additional Information: From Rudina Odeh-Ramadan, via Rosa Rivera; RE: Ebola Projects/ MTA's; Dear All, The University continues to closely monitor information and recommendations regarding travel to West Africa countries experiencing the Ebola virus outbreak. Please note that any proposals with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries require approval from the Provost. The Provost’s approval must be obtained prior to submission of the proposal. The email below provides more specific information on the policy/procedure regarding this matter.; Thanks, Rosa; Rosa Rivera; Director for MSPH Operations, Sponsored Projects Administration; Associate Dean for Grants & Contracts, Mailman School of Public Health; Columbia University; Telephone: 212-305-0350; Fax: 212-305-6450; Email: rr21@cumc.columbia.edu; Dear All: Additional clarification regarding the policy regarding research (proposals or MTA's) with proposed travel to Guinea, Sierra Leone, or Liberia or the receipt of specimens from any of the three countries: Please direct the PI of any project that involves travel to Guinea, Sierra Leone, or Liberia to submit the project to his or her dean for approval. If the dean approves the project, he or she should forward it to the Provost for his approval. One prerequisite for the Provost’s approval will be a written
evacuation plan; if you could let the PI know that now, so he or she can have it ready for the Provost. Ensure you have a notice of approval from the Provost office prior to submission. Also, please ensure you maintain full documentation with the proposal record. We are also working to implement an indicator flag in InfoEd, so that can properly flag all proposals that meet this requirement. Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at:
http://grants.nih.gov/grants/rppr/rprp_instruction_guide.pdf; TIP — when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;

Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Additional Information: NIH: The View From 10,000 Feet:

Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog …. Continue reading →

**Additional Information:** **Formula for Innovation:**  
*Posted on July 17, 2014 by Sally Rockey and Francis Collins:* In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist).

The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields.

Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Sincerely,
G. Michael Purdy

NEW ITEMS FROM THE NIH

Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Title: The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;
Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/ ; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-
OD-13-097.; Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

**Don’t Forget the eSubmission Basics:** I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/Pis and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).  
- Use PDF format for all attachments. Follow PDF Guidelines.  
- Submit early – days, not minutes – to allow time to correct unforeseen errors.  
- Track your submission in eRA Commons. Email can be unreliable.  
- Check your entire assembled application image in eRA Commons. *If you can’t view it, we can’t review it!*  
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the...
biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors– they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

**New Website for iEdison Invention Reporting Information:**

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html); I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [http://grants.nih.gov/grants/policy/resubmission_q&a.htm](http://grants.nih.gov/grants/policy/resubmission_q&a.htm); The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html) Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. *Stephanie F. Scott, M.S., CRA*

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf;  http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;
FUNDING RELATIVE TO TRAVEL

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Title: DoD Gulf War Illness Research Preannouncement; Funding Opportunities for Fiscal Year 2014 (FY14);
Sponsor: Defense Health Program; Department of Defense Gulf War Illness Research Program
Deadline(s): Applications to be posted ~ early September 2014;
Contact: help@eBRAP.org; usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil;
Link(s): Grants.gov; http://cdmrp.army.mil; https://twitter.com/CDMRP; http://www.youtube.com/user/CDMRP;
Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.

Innovative Treatment Evaluation Award 2 (*); Independent investigators at all academic levels (or equivalent); (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI. (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials. (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged. (*) Collaboration with industry and/or academic partners is encouraged. (*) Maximum funding of $450,000 for direct costs. (*)
Subject: Peer Reviewed Cancer Research Program Funds New Topic Areas

New areas of interest for the Congressionally Directed Medical Research Programs Peer Reviewed Cancer Research Program: 1. Cancers related to radiation exposure: Investigations into cancers related to radiation exposure should include research directed to improve the understanding of elevated cancer risk among military service members exposed to increased levels of ionizing radiation including: * Modulation by host factors; * Occupational and environmental exposure; * Assessment of risk among active duty and Veterans; * Routes of exposure; * Dose and risk estimates; 2. Myeloproliferative disorders: Studies within the scope of myeloproliferative disorders as defined by the National Cancer Institute (http://www.cancer.gov/cancertopics/types/myeloproliferative) will be accepted. CDMRP has allocated $25M in funds to this program. Information on the submission process and details on the applications can be found at: http://cdmrp.army.mil/funding/prcrp.shtml; Preapplications are due by June 10, 2014. Be sure to submit on time. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process.
