<td>DoD/CDMRP - COVID-19 Impact on Research Awards [No Link Provided]&lt;br&gt;CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include</td>

problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards;. Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

Deadline(s): 05/25/2021 (required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021)

Contact: Please direct all grants policy inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy; grantspolicy@nih.gov; Please direct all systems/forms related inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA); Systems Policy Branch; OPERAsystemspolicy@nih.gov; please refer to the FAQs and instructions and contact your SPA Project Officer for any immediate questions. Additionally, we will also be collecting your questions prior to our webinars, and we will be providing guidance along with other materials to assist you. Please send your webinar questions to me at sfs2110@cumc.columbia.edu; Thank you and please stay tuned for more information. [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia University; sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu

Additional Information: The NIH released announcement NOT-OD-21-073, concerning upcoming changes to the Biographical Sketch and Other Support Format page. It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here; Updated Other Support resources, including FAQs and sample Other Support format pages can be found here. ; One of the most important changes in the Biosketch instructions is Section B: “List in reverse chronological order all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”; This is critical. The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

<table>
<thead>
<tr>
<th>Format Page</th>
<th>Changes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biographical Sketch Format Page</td>
<td>Section B 'Positions and Honors' has been renamed 'Positions, Scientific Appointments, and Honors'.</td>
</tr>
</tbody>
</table>
For the non-Fellowship Biosketch, Section D. has been removed.
For the Fellowship Biosketch, Section D has been updated to remove ‘Research Support.’
As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A.

The format page has been re-organized to separate funded projects from in-kind contributions.
Signature block added, for Program Director/Principal Investigator or Other Senior/Key Personnel to certify the accuracy of the information submitted. Each PD/PI or senior/key personnel must electronically sign their respective Other Support form as a PDF prior to submission.

Additional Information: On March 12, NIH announced significant changes to the Biographical Sketch and Other Support format pages. Among other things, these changes will require principal investigators and senior/key persons to: provide significantly more information about their activities than before; and include translated copies of certain Other Support documentation, e.g., agreements related to non-U.S. appointments; and certify the accuracy of all Other Support submissions.; Sponsored Projects Administration (SPA) and the Office of Research Compliance and Training (ORCT) will be hosting several town halls to review the new instructions and forms with the Columbia research community. We strongly encourage NIH applicants, researchers and administrators to attend one session on the Biosketches and another on the Other Support format pages. We will also offer sessions on the Science Experts Network Curriculum Vitae (SciEnvc), NIH’s system to assist you with creating an NIH or NSF Biosketch. SciEnvc is optional at this time, but offers many benefits, which you can read about here.; Slides from the sessions will be made available afterwards on the dedicated NIH Researcher Disclosure Requirements webpage as part of the Science & Security website.; Please feel free to send questions about these webinars to me at sfs2110@cumc.columbia.edu. As always, feel free to send questions about these forms to your SPA Project Officer.; [brought to our attention by Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia |Research; Sponsored Projects Administration; Email: sfs2110@cumc.columbia.edu ; Website: https://spa.columbia.edu/]; The slides from 04/06/2021’s town hall on the new NIH Biosketch are available at New NIH Biosketches. All presentations related to the NIH Biosketches and Other Support format pages will be posted on the NIH Research Disclosure Requirements webpage. I included two additional slides showing NIH’s samples of Section B: Positions, Scientific Appointments, and Honors for predoc and postdoc fellowship biosketches.; I wanted to provide clarification on a few questions that came up during the town hall.; Can I include manuscripts that have not yet been accepted for publication? – per the NIH Biosketch instructions, this issue is addressed in the Contributions to Science section (Section C). “Note that while you may mention manuscripts that have not yet been accepted for publication as part of your contribution, you may cite only published papers to
support each contribution."; Can pre-prints/interim products be included in the biosketch? – Yes. You are allowed to cite interim research products. Note: interim research products have specific citation requirements. See related Frequently Asked Questions for more information. However, you need to follow the NIH Policy on Use of Hypertext in NIH Grant Applications. Preprints can also be added to your MyBibliography in MyNCBI; As always, send any questions to your assigned SPA Project Officer. To register for future town halls on the Biosketches, Other Support, and SciENcv, you can click here.

Individuals from diverse backgrounds and from the full spectrum of eligible institutions in all geographic locations are strongly encouraged to apply to this Funding Opportunity Announcement. In addition, applications in all topics relevant to the broad mission of NIH are welcome, including, but not limited to, topics in the behavioral, social, biomedical, applied, and formal sciences and topics that may involve basic, translational, or clinical research. To be considered pioneering, the proposed research must reflect substantially different scientific directions from those already being pursued in the investigator's research program or elsewhere. The NIH Director's Pioneer Award is a component of the High-Risk, High-Reward Research (HRHR) Program of the NIH Common
Fund.” The award supports scientists with outstanding records of creativity pursuing new research directions to develop pioneering approaches to major challenges in biomedical, social science, and behavioral research; Open to all career stages; Single PI only; No preliminary data required; Must be new scientific research direction; Minimum of 51% research effort in first 3 years; 3 Letters of Reference required; $700,000 in direct costs per year for up to 5 years; NIH intends to commit approximately $8,000,000 in FY 2022 to fund approximately 7 awards. The project period is limited to five years; Application Deadline: September 10, 2021; Earliest Start Date: July 2022

Accelerating Medicines Partnership: Autoimmune and Immune-Mediated Diseases (AMP AIM) program

Accelerating Medicines Partnership Autoimmune and Immune-Mediated Diseases: Disease Teams for Rheumatoid Arthritis, Lupus, Psoriatic Spectrum Diseases, and Sjøgren’s Syndrome (UC2 Clinical Trial Optional)

**Sponsor:** National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Institute of Allergy and Infectious Diseases; National Institute of Dental and Craniofacial Research; Office of Research on Women’s Health

**Deadline(s):** 07/15/2021; 07/16/2021 (Expiration)

**Contact:** Ricardo Cibotti, Ph.D.; National Institute of Arthritis and Musculoskeletal and Skin Diseases; Telephone: (301) 451-5888; Email: ricardo.cibotti@nih.gov

**Additional Information:** New NIH AMP AIM Program Supports Autoimmune Disease Research; NIH recently published two funding opportunities to establish the Accelerating Medicines Partnership: Autoimmune and Immune-Mediated Diseases (AMP AIM) program. AMP AIM will deepen the current understanding of autoimmune diseases—such as rheumatoid arthritis, lupus, psoriatic spectrum diseases, and Sjögren’s syndrome—which afflict more than 25 million Americans. These diseases can cause profound abnormalities in immune responses and can result in persistent damage to multiple tissues and organ systems.; The AMP AIM network will consist of four distinct, highly interactive, and complementary components: Disease Teams (DTs). Each DT will lead the development of the research agenda and research priorities for one disease (rheumatoid arthritis, lupus, psoriatic spectrum diseases, or Sjögren’s syndrome). DTs will identify critical opportunities and select, recruit, and deep phenotype the most informative patient populations for the AMP AIM program. Individual DTs will work together with the TACs (see below) to analyze tissue and other biospecimens. For more information, see RFA-AR-21-015.; Technology and Analytics Cores (TACs). TACs will test, optimize, and apply innovative technologies to interrogate and analyze human biopsy tissue and biosamples. For more information, see RFA-AR-21-016.; Research Management Unit (RMU). The RMU will provide centralized management and operational support to the network, including providing and/or overseeing clinical monitoring for the entire AMP AIM program. For more information, see RFA-AR-21-016.; Knowledge Portal (KP). The KP will provide an interface for storage, analysis aggregation, and visualization of all data generated by the DTs and TACs.; Letters of intent for RFA-AR-21-015 and RFA-AR-21-016 are due June 15, 2021.

Crazy 8 Initiative Alex’s Lemonade Stand Foundation; Deadline: LOI April 26

Sponsor: Alex’s Lemonade Stand Foundation (ALSF)
Deadline(s): 04/26/2021
Contact: If you have any questions regarding this grant mechanism, reach out to Anna Greene, Director of Science, by email at A.Greene@AlexsLemonade.org.
https://www.alexslemonade.org/researchers-reviewers/applicants

Additional Information: Crazy 8 Initiative Alex’s Lemonade Stand Foundation (ALSF) is pleased to announce that we are now accepting Letters of Intent (LOIs) for the 2021 Crazy 8 Initiative Award. The Crazy 8 Initiative is the newest funding pillar for ALSF, which aims to tackle specific challenges in pediatric cancer research that require substantial support for collaborative teams. Crazy 8 Initiative Awards may involve the exploration of a novel scientific hypothesis or the development of new model systems, tools or technologies that have the potential for significant impact on the field of childhood cancer research. We expect successful applications to propose multidisciplinary teams with a clear plan for collaboration, which would empower the study of big ideas that would not be easily addressable otherwise. Childhood cancer research applicants are encouraged to bring new, necessary expertise into the field. The budget for this award is between $3-5 million USD over four years. To learn more about the Crazy 8 Initiative 2021 funding priorities and the full program description, read the award guidelines here. Click the button below to view guidelines and to apply. DoD/CDMRP - COVID-19 Impact on Research Awards
[No Link Provided]
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation

**Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil. Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov/. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

**Additional Information:** DoD Defense University Research Instrumentation Program (DURIP); **Funding:** $50k-$1.5M over one year; **Deadlines:** Inquiries & Questions: Friday, April 23, 2021; Full Proposal: Friday, May 14, 2021 (11:59 pm EDT); **Summary:** The DURIP program seeks proposals from universities to purchase equipment and instrumentation in support of research in areas of interest to the mission of the DoD. These interests include the areas of research supported by the Army Research Office (ARO), the Office of Naval Research (ONR), and the Air Force Office of Scientific Research (AFOSR). Additionally, proposed instrumentation should enhance research-related education in areas of interest and priority to the DoD. DURIP funds must be used for the acquisition of major equipment or instrumentation to augment current, or develop new, research capabilities to support research in the technical areas of interest to the DoD. Proposals may request funding for more than one item if the requested items comprise a “system” that is used for a common research purpose. Requests for computing equipment for DoD-relevant research programs are appropriate and eligible for funding.; Allowable DURIP Costs: Acquisition of major equipment or instrumentation consistent with the evaluation criteria, including: reasonable costs for design, construction, assembly, and/or, installation by external contractors or university technicians or engineers.; Computers for DoD-relevant research programs consistent with the evaluation criteria.

https://columbiauniversity.zoom.us/j/95164293066#success [Information Session]

Additional Information: Call for Proposals; $100,000 Grants Awarded for Interdisciplinary Course Development; Jointly founded by Columbia University's Data Science Institute and Columbia Entrepreneurship, Innovation, and Design, The Collaboratory at Columbia is a university-wide program dedicated to supporting collaborative curricula innovations in interdisciplinary study designed to ensure that all Columbia students receive the education and training that they need to succeed in today's data-rich world. Information about the Collaboratory at Columbia: collaboratory@columbia.edu; Application Deadline: April 19th, 2021 at 4 PM; Send completed application to: Collaboratory@columbia.edu; Download Application; Virtual Information Session: March 5th, 2021 at 10 AM; Zoom Link: [Info Session URL]; Eligibility: Those eligible to apply are: full-time officers of instruction, professors of practice, lecturers within discipline and/or adjunct professors of Columbia University. At least one member of the instructional team must have a full-time Columbia appointment who qualifies as a PI and will take administrative and financial responsibility for the grant; The Collaboratory at Columbia: The increasing availability of data in society is impacting our world in profound ways. As our ability to generate, store, and analyze data grows, so do the opportunities for using those data to improve our economy, our security, the environment, and human health. Scores of professional and research areas are increasingly becoming data-driven enterprises. To prepare for a data-rich world, students and future leaders need to integrate data science into their traditional areas of study; Conversely, just as the need for data literacy increases, so too does the need for students of data and computer science to understand the impact of traditional domains on their professions. What, for example, do data scientists need to understand about Ethics, Policy, History, Healthcare, and Law?; Call for Proposals: Call for
Proposals for the Collaboratory Fellows Program: The goal of the Collaboratory Fellows Fund is to support the development of interdisciplinary and innovative curricula that meet the data and computational literacy needs of a given discipline, set of disciplines and/or cohort of students at Columbia University. Our aim is to seed-fund these new courses in hopes that they extend beyond the life of original grant funds. Approved proposals must include the commitment of your dean or department chair to provide financial resources to continue the course past its initial launch and past the life of the grant.; **Funding:** All awards will be made on a competitive basis. Each funded project will receive an award of up to $100,000 to support the development and teaching of the new material. Example uses of award funding might be to buy-out of teaching in order to free up time for the curricular development activities, summer salary support, support for student assistants and/or on-line curricula components, the cost of materials, supplies and other items, etc. Applicants must provide a budget and budget justification as part of their application to the program. Anticipated award announcements May 21st, 2021.; **Diversity and Inclusion:** The Collaboratory seeks to support curricular projects that provide an inclusive and equitable learning environment where diverse perspectives are recognized, respected, and seen as a source of strength. Data science has not always been perceived as a welcoming field for all, and the Collaboratory is working to actively subvert exclusionary norms by bridging different fields and opening new gateways into data science for a more diverse set of students. As such, all proposals must provide a statement on how the course will be designed to serve the needs of diverse students, including (as appropriate to the project), those who are new to the field of data science. Furthermore, the Collaboratory seeks to support curricular projects focused on positive social impact, or "data for good." Projects focused on anti-racist practice are particularly encouraged to apply.

**Additional Information:** Earlier today, NIH issued corrected instructions to request childcare costs for recipients of NRSA individual fellowships. See NOT-OD-21-074, which replaces to announcement NOT-OD-21-069 referenced below. NIH also updated its FAQs; If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We'll provide you with any updates [brought to our attention by] Stephanie Scott, Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported
Individual Fellows; This week NIH announced a new policy to allow for childcare support costs to recipients of NRSA individual fellowships (i.e., F31, F32, etc). These costs must be specifically requested in new, continuation applications or through administrative supplements beginning on or after April 8, 2021. Please read the full announcement at NOT-OD-21-069, the FAQs, and supplementary information below.; **Some key takeaways:** The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022.; Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18.; Eligible childcare is care that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.; At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents.; The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC.; If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request.; We’ll provide further guidance on these new costs at a later date.; Feed: blog – NIH Extramural Nexus; Posted on: Tuesday, March 2, 2021 11:40 AM; Author: Mike Lauer; Subject: Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; View article.; Subsequently, NIH posted this blog, with screen shot, to assist applicants with the request for childcare costs. If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. Additional Information: Dear Fellow Members of the Columbia Community, As we approach 2021, I write to update you about an important requirement for Spring Term 2021 SARS-CoV-2 Gateway testing. Effective January 4, 2021, a NEW gateway test is required for all faculty, staff, and students accessing Columbia campuses and other facilities. This includes individuals who have been on a campus throughout 2020 and who previously complied with the requirements of the gateway testing program. This gateway test must be administered by Columbia University's COVID Testing Program starting January 4, 2021 through January 25, 2021. Due to our stringent quality and data management systems, the only acceptable tests will be conducted by Columbia's COVID Testing Program at one of our five approved testing sites (Monday to Friday in Morningside Lerner Hall & CUIMC Black Building Schaeffer Gallery; Select dates at West 51st St, Lamont Doherty Earth Observatory, or Tarrytown Columbia Doctors). Tests submitted from other locations, including NYP or WHS, will not be accepted. Access to all Columbia campuses and facilities via the ReOpenCU app (symptom checker app) and Columbia University ID card swipe system will only be permitted for those faculty, staff, and students who have completed the repeat gateway test requirement by January 25, 2021. Register for this gateway test online beginning December 23rd, 2020. The schedule opens 10-14 days in advance. During the gateway period, there will be more than sufficient schedule capacity in the Morningside and CUIMC locations to accommodate all those requiring testing; however, schedule availability in each site will depend on the demand for specific appointment dates and time slots. We encourage you to plan ahead, schedule in advance, and consider all testing sites if a particular date and time is preferred. For those who do not complete a new SARS-CoV-2 PCR test between January 4th and January 25th, access to the campuses and facilities will be reinstated within 48-72 hours of completion of a gateway test at an approved site. More information regarding the testing plan for the Spring Term can be found online. We thank you for your continuing commitment to participating in the University testing program and the steps you take each and every day to keep our community safe. With care for our community, Melanie J Bernitz, MD, MPH; Associate Vice President & Medical Director, Columbia Health; Associate Clinical Professor of Medicine (in the Center for Family and Community Medicine); More Information: covid19.columbia.edu

**Additional Information:** An Update from the Columbia University Biobank (CUB) and COVID-19 research; This message is sent on behalf of the Columbia University Biobank (CUB) from Dr. Muredach Reilly, Director, Irving Institute for Clinical and Translational Research, and Dr. Michael Shelanski, Senior Vice Dean for Research, at the Columbia University Irving Medical Center; For questions, contact: General questions: Danielle Pendrick, dp2657@cumc.columbia.edu; Researchers can contact - PS-Officeforresearch@columbia.columbia.edu; Participants can contact - CUBiobankCOVID19@cumc.columbia.edu; As you will remember, the Columbia University Biobank (CUB) quickly pivoted in April 2020 in response to the urgent needs surrounding the coronavirus pandemic. Since then CUB has collected biospecimens from Columbia University Irving Medical Center/NewYork-Presbyterian Hospital (CUIMC/NYP) patients who tested positive for SARS-CoV-2, and re-distributed samples to researchers across campus. Currently we have over 90,000 biospecimens banked from more than 14,000 patients (both COVID-19 positive, and negative)
including DNA, RNA, serum, plasma, urine, and other tissue samples. Given the number of patients treated for COVID-19 at CUIMC/NYP and the diversity of our patient population, Columbia’s COVID-19 biobank is arguably the largest and most distinct in the United States. Additionally, CUB has consented more than 2,400 patients for genomic research and future research studies to further advance our understanding of COVID-19 and its devastating clinical consequences.; Since our last update, whole exome sequencing data has been generated on more than 1,000 patients diagnosed with SARS-CoV-2, and is currently available in AWS for download with the appropriate IRB and CUB approvals. Host and virome RNA sequencing and microbiome data generation is ongoing, and will soon be available to investigators with CUB approval. We are also excited to announce that Dr. David Goldstein has partnered with Vanda Pharmaceuticals to perform whole genome sequencing on 1,000 CUB COVID+ patients. Once generated, this data will also be available to CUIMC researchers for their own analyses.; Dr. Krzysztof Kiryluk in the Department of Medicine is spearheading an effort to generate SARS-CoV-2 genome-focused clinical phenotypes, which will then be combined with sequencing data generated by the Institute for Genomic Medicine, into a single dataset that will be available centrally through CUB. We hope that this data will be useful to any Columbia investigator performing genetics and genomics analyses to address SARS-CoV-2-related research. Additionally, the CUB Clinical Phenotype Committee (CPC), led by Dr. Mitchell Elkind, has been established to oversee efforts related to the generation of broader COVID-19 clinical phenotypes. The CPC is multidisciplinary working group which includes experts from the Departments of Anesthesiology, Surgery, Pediatrics, Emergency Medicine, Biomedical Informatics, Obstetrics and Gynecology, and Medicine (Pulmonary, Cardiology, Nephrology and Transplant). The CPC has focused initial efforts on standardizing, validating, and refining core SARS-CoV-2 related phenotype definitions, which will be made widely available when completed.; As of October 2020, over 140 requests to the biobank were reviewed by the CUB Sample and Data Committee, and more than 22,000 samples have been disbursed to support a wide range of research studies across the CUIMC community. With assistance from Drs. Kevin Roth, Eldad Hod, and Susan Whittier in the Department of Pathology and Cell Biology, we are able to continue residual clinical sample collections, which will be critical as the coronavirus continues to spread.; While CUB has initially focused on COVID-19 due to obvious needs, it continues to look past the pandemic and begin University-wide recruitment efforts with multiple partners and across multiple domains towards the ultimate goal of enrolling all CUIMC/NYP patients. To this end, we are excited to be partnering with the IGM’s All of Us team. The Columbia University Biobank is now being offered to All of Us participants during their enrollment and retention activities. CUB looks forward to applying the lessons learned from the All of Us Research Program to the CUB recruitment efforts.; We encourage you to use the research resources offered through the CUB website. ; As we enter another chapter in the COVID-19 pandemic and again brace ourselves for potential challenges ahead, it is with great thanks that we acknowledge the strength of the Columbia community. Having the Columbia University Biobank now in full operation will significantly benefit the vital research yet to come.; Stay safe, Muredach Reilly, MBBCh; Director, Irving Institute for Clinical and Translational Research; Michael Shelanski, MD, PhD; Senior Vice Dean for Research; On behalf of the Columbia University Biobank

**Additional Information:** Postdoctoral Career Transitions Award to Promote Diversity (K99/R00); Dear NIEHS T32 Training Directors; NIEHS is reaching out to Principal Investigators who have grants which support diversity trainees at the postdoctoral level (either on T32 training grants or research grants) to make sure they are aware of this Pathways to Independence program specifically designed for them. This is the Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00). The MOSAIC K99/R00 program is designed to facilitate a timely transition of promising postdoctoral researchers from diverse backgrounds from their mentored, postdoctoral research positions to independent, tenure-track or equivalent faculty positions at research-intensive institutions. The MOSAIC K99/R00
program will provide independent NIH research support before and after this transition to help awardees launch successful, independent research careers. Additionally, MOSAIC K99/R00 scholars will be part of organized scientific cohorts and will be expected to participate in mentoring, networking, and professional development activities coordinated by MOSAIC Institutionally-Focused Research Education Award to Promote Diversity Awards funded by the National Institute of General Medical Sciences. **Additional Information:** Herbert Irving Comprehensive Cancer Center; 2021 VELOCITY Cancer Research Awards; Deadline: Monday, May 3, 2021; Comprehensive Cancer Center (HICCC) is pleased to announce the VELOCITY Cancer Research Awards competition. HICCC seeks to support investigators actively involved in cancer research and to encourage others in the biomedical community to enter cancer research. The goal of the competition is to support bi-directional translational research that drives basic, translational, clinical trials, clinical care, and population science, generating novel hypothesis-testing research questions. Up to five VELOCITY Fellows will be selected to lead teams consisting of one lead Principal Investigator and co-investigators and/or collaborators with complimentary expertise. Interdisciplinary teams are strongly encouraged. At least one population science or community based project will be awarded; HICCC encourages research projects that address and accelerate progress in understanding and reducing cancer health disparities. We are particularly interested in proposals that directly relate to the cancer burden in the HICCC catchment area and potential applicants are expected to reach out to the HICCC Community Outreach and Engagement (COE) office in writing the proposal; Questions: contact Tanisha Jackson at tj2325@cumc.columbia.edu; For more information, eligibility requirements, and to apply, click the button below.

**Additional Information:** HICCC Velocity Data Science Fellowships; Deadline: April 15 (Extended Deadline); Herbert Irving Comprehensive Cancer Center is pleased to announce the Velocity Data Science Fellowships competition. The purpose of the Velocity Data Science Fellowships is to link data science to cancer clinical care at the HICC; to facilitate integration of data science into clinical areas; and to provide a pipeline for faculty development in data science and clinical cancer research/care. The HICCC Velocity Data Science Fellowships will support early career physicians and physician-scientists (MD or MD/PhD), who have completed at least the first year of fellowship and seek to integrate data science into the clinical setting in cancer. Examples include: the design and development of novel data visualization tools for patient management, the application of machine learning to inform prognosis and therapy decisions, and the employment of artificial intelligence to enhance screening technology.; Areas of clinical interest: Medicine and Medicine subspecialties, Pediatrics, Surgery and Surgical subspecialties, OB/GYN, Psychiatry, Neurology, Rehab and Regenerative Medicine, Emergency Medicine, Anesthesiology, Dermatology, Pathology and Cell Biology, Biomedical Informatics, and others.; MD or MD/PhD current clinical fellows in training programs at New York Presbyterian Hospital-Columbia University Medical Center affiliated with the Vagelos College or Physicians and Surgeons (VP&S) are eligible to apply. The HICCC Velocity Data Science Fellowship will provide stipend support at $65,000 + fringe per year for two years. One fellow will be funded in this cycle.; Click the button below for more information and to apply.; Questions: contact Emer Smyth at es3551@cumc.columbia.edu; Apply VELOCITY Data Science Fellowships

**Sponsor:** the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights

**Deadline(s):** Open until filled

**Contact:** scienceandso@columbia.edu

**Link(s):** https://scienceandso.columbia.edu/content/call-applications-enhance-learning

**Additional Information:** CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching;

Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.; 

**Eligibility:** All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.;  

**Amount:** Funding of up to $1,500 per proposal is available.;  

**Deadline:** Applications for the grants are open via rolling submission throughout the 2020-21 academic year.;  

**Description:** With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task.;

To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.;  

Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.;  

We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply. ;

Best, Jozef; [brought to our attention by] Jozef Sulik; Senior Project Manager ; Presidential Scholars in Society and Neuroscience; The Center for Science and Society; Columbia University in the City of New York; presidentscholars.columbia.edu ; scienceandso.columbia.edu

These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects.
R2eport
Friday Newsletter 04/09/2021

Users with records currently in progress will need to modify the records to meet new FORMS-F requirements. The changes listed below include items released by eRA in March and items released on June 13; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change; [*] Question 1.4a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2; Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA?; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS. [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4; Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116; For more information, see: [*] Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template; [*] The eRA Human Subjects System (HSS) information page; [*] Information about the PHS Human Subjects and Clinical Trials Information form; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? **Additional Information:** Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: [https://grants.nih.gov/grants/forms-f/data-tables.htm](https://grants.nih.gov/grants/forms-f/data-tables.htm); They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along; [brought to our attention by] Stephanie F. **Additional Information:** Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJOq5kp; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu. Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPPR with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJOq5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our meeting on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@cumc.columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@cumc.columbia.edu; Thank you!; Stephanie F. Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

Sponsor: National Institutes of Health

Deadline(s): This Notice extends the special exception for post-submission material [see NOT-OD-20-123] to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

[Grant Review Submission Form (updated Spring 2019)]

**Additional Information:**

Dear Mailman School faculty,
I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

**Additional Information:** Sending this funding announcement on behalf of the Naomi Berrie Diabetes Center of CUIMC. All questions can be sent to Benedetta Spina at bs2839@cumc.columbia.edu; **SUMMARY INFORMATION; Program:** Russell Berrie Foundation Research Initiative on the Neurobiology of Obesity; **Eligibility:** All mid-career Columbia faculty (Assistant Professor and up), institution-wide, from any discipline. Postdocs and students can be supported on grants to faculty. Interdisciplinary collaborations primarily within Columbia is encouraged.; **Funding Available:** Full-scale projects, up to $150,000 for first year (renewals will be evaluated); One-year Pilot Projects, $50,000 - $100,000.; **Letter of Intent Due Date:** April 26, 2021; Please see below and attached the full announcement, which contains details of the application process; **Russell Berrie Foundation Research Initiative on the Neurobiology of Obesity;** The Russell Berrie Foundation supports a major initiative at Columbia on the neurobiology of body weight regulation. This initiative is co-directed by Drs. Rudy Leibel and Charles Zuker.; **Our fundamental goal and mission are to promote transformative research in the neuroscience of ingestive behaviors and body weight regulation by leveraging the great strengths of programs in neuroscience, energy metabolism and diabetes at Columbia;**; Particular emphases of this program are to: (1) find the mechanisms integrating so-called “homeostatic” feeding -with ingestive behaviors driven by hedonic and other motivations in the absence of hunger; (2) studies of the gut-brain axis in the control of internal and feeding states, (3) neural circuits misregulated in obesity, and (4) proposals linking brain, mind, behavior and obesity.; **The Initiative aims to incentivize and support mid-career faculty members at Columbia University to develop new research programs at the interface of neurobiology and metabolism/obesity (i.e. research projects in obesity and metabolism for our neuroscientists, and neural circuits and brain physiology for our obesity/diabetes/metabolism investigators). Interdisciplinary collaborations are encouraged.;** We expect this initiative - by placing the focus on bringing outstanding scientists into a new field - to create an ideal intellectual/research environment to promote the introduction of fresh ideas and perspectives into the field, and to afford an exceptional opportunity to help transform our understanding of obesity and the circuits linking mind, brain and ingestive behaviors. The program is also intended to provide optimal venues for the training of students and postdoctoral fellows in the biology of obesity, metabolism and brain science.; **Full scale and pilot projects will be funded in each year of the program.** We intend to fund primarily Columbia University scientists, but also encourage collaborations with investigators outside of Columbia. Decisions regarding investigator/project selection will be made by the co-Directors in consultation with the Board of Advisors. The Board will also provide on-going program evaluation. ; **The basic criteria for selection include:** (1) investigator track record and qualifications, (2) novelty and scientific importance of the project; with particular emphasis on proposals representing new
areas of research for the applicants, at the interface of obesity and neuroscience; (3) potential scientific outcomes; (4) likely impact of the proposed program in the subsequent careers - in obesity-related research - of the investigator and his/her students and fellows; and (5) the likelihood that, if successful, the project will lead to fundamental discoveries suitable for independent funding.; Application Process: Interested faculty should submit a 1-2 page Letter-of-Intent (LOI) project summary plus NIH-style biographies for all relevant personnel. Collaborative applications are encouraged.; Investigators selected based on the LOI will be invited to prepare more detailed applications (5 pages) describing their proposed research and use of funds; final decisions will be made based on individual presentations/interviews of finalists with the Program Directors and members of the Board of Advisors. Funded proposals will deliberately involve high-risk projects, novel concepts, and interdisciplinary research at the interface of obesity/metabolism/internal state and neuroscience. Guided by the nature of the proposal, the amounts and duration of grants may be adjusted. Funds may be used for research supplies, animal expenditures, small equipment items, postdoctoral or graduate student salaries.; Maximum funding for yr1: $150K. One-year pilot projects ($50-100k) will also be considered. Successful applications may be submitted for renewal contingent on availability of funds. Renewals will be evaluated based on research progress, and competitive review of the project by the program selection committee.; LOI DEADLINE: Letters of Intent including relevant NIH-style biographies should be sent as a single PDF to Ms. Spina bs2839@columbia.edu by 26 April, 2021; We anticipate inviting more detailed applications by 10 May 2021 (for receipt 15 June 2021) and completion of reviews of applications and funding decisions by late July 2021, for start dates 15 August 2021.

Contact: Dara R. Blachman-Demner, Ph.D; Office of Behavioral and Social Sciences Research (OBSSR); Telephone: 301-496-8522; Email: dara.blachman-demner@nih.gov

Additional Information: Firearm Injury and Mortality Prevention Research; (R21/R33 Clinical Trial Optional); FOA Number: PAR-21-191; Key Dates: Open Date (Earliest Submission Date): March 30, 2021; Expiration Date: May 1, 2021; Purpose: Nearly 40,000 people in the U.S. die from firearm-related deaths each year, primarily from suicide (60%) or homicide (37%), and many more have experienced non-fatal firearm injuries, both intentional and nonintentional. The Joint Explanatory Statement accompanying the Consolidated Appropriations Act, 2021 (Public Law 116-260) included funding for the NIH to conduct research on firearm injury and mortality prevention and recommended that NIH take a comprehensive approach to studying the underlying causes and evidence-based methods of prevention of firearm injury, including crime prevention. Within the legislative mandates and limitations of NIH funding (NOT-OD-21-058, NOT-OD-21-056), the NIH encourages research to improve understanding of the determinants of firearm injury, the identification of those at risk of firearm injury (including both victims and perpetrators), the development and piloting of innovative interventions to prevent firearm injury and mortality, and the examination of approaches to improve the implementation of existing, evidence-based interventions to prevent firearm injury and mortality.; View PAR-21-191

RWJF; Pioneering Ideas: Exploring the Future to Build a Culture of Health

**Sponsor:** RWJF

**Deadline(s):** Open

**Contact:** pioneeringideas@rwjf.org

**Additional Information:** What can we do today to create a better, more equitable tomorrow?; Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work.; Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come.; We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders-anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible.; Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

RWJF New funding opportunity: Equity-focused collaborations; Systems for Action

**Sponsor:** RWJF

**Deadline(s):** 03/17/2021 (Webinar); 06/09/2021 (Application)

**Contact:** systemsforaction@ucdenver.edu; www.systemsforaction.org

**Additional Information:** RWJF New funding opportunity: Equity-focused collaborations; Systems for Action; https://www.rwjf.org/en/library/funding-opportunities/2021/systems-for-action-systems-and-services-research-to-build-a-culture-of-health.html ; We spend money on programs we know improve health, like housing, nutrition, financial assistance, education, child care, or legal aid. But the financial benefits of these often flow elsewhere, in reduced costs for medical care from diseases and injuries prevented. Can better collaboration help balance this out-and help halt the inequities baked into the current system?; RWJF's Systems for Action program seeks proposals to measure the impact of collaborations across medical, social, and public health systems that allow organizations to better share in the costs, benefits, power and influence that govern these initiatives. Grants, up to
$500,000 each, are available for research to evaluate solutions to these persistent problems. Learn more about eligibility and selection criteria. Want to know more? Attend an applicant webinar on March 17, 2021 to find out what we’re looking for and hear answers to frequently asked questions.

Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

**Sponsor:** National Institutes of Health (NIH); Agency for Healthcare Research and Quality (AHRQ); The National Institute for Occupational Safety and Health (NIOSH)

**Deadline(s):** For applications submitted for the January 2021 council (beginning with applications submitted for the May 25, 2020 due date for Fall 2020 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application. The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications. All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Research Resources has been apprised that the R2eport distribution email to faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page.

applications for NIH institutional training grants (T15, T32, T34, T35, T36, T37, T90/R90, T1L, TL4) must include a letter on institutional letterhead signed by a key institutional leader that describes the institutional commitment to ensuring that proper policies, procedures, and oversight are in place to prevent discriminatory harassment and other discriminatory practices.

We just updated this letter and it is available on our website for you to download and include with your Letters of Support into a single PDF file. It is dated January 14, 2020, signed by Deborah Stiles.; You can download the letter directly from here, or go to our Institutional Training Grants webpage and download the letter from the Proposal Boilerplate/Template Text/Letters section. You will need your UNI and password to access the letter.; If you are applying for a new or competing renewal, you need to include this letter or else your application will be withdrawn by NIH. Please let me or your SPA Project Officer know if you have any questions.; [brought to our attention by] Stephanie F. **Additional Information:** NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention.; I highlighted what I thought were the key points below.

[brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it’s a real thing. And, why shouldn’t it be? I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new “daddy.” “She’s two dogs long and one dog tall and looks like she’s made from spare parts,” Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn’t going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn’t trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I’ve at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark;! Hopefully you’ll find this edition to have an interesting mix ... not unlike your favorite mutt.;** Where Do I Put the Information I Know You’d Want, But Didn’t Ask For?**; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, **there are page limits** you must stay within to convey the requested information.; If you have information that doesn’t fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-page-limited fields of the application forms. Similarly, if you have information that doesn’t have a “natural home” based on our instructions, don’t include it.; There are several form fields with tempting names like “Appendix,” “Other Attachments,” “Other Requested Information,” and “Other Clinical Trial-related Attachments.” **DO NOT use those fields unless requested to do so in the application guide or announcement.**; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn’t belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them.; **The Duplication Balancing Act:** The application guide statement “do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form” appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a “Brief Summary” of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don’t want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it isn’t just extra space to expound on the research strategy).** The Brief Summary in the Protocol...
Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible. The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.

**Space-Fill Compulsion:** My mother, an interior designer, never saw a horizontal surface she didn’t want to decorate. For years I encouraged her to declutter and often she’d begrudgingly remove a knick-knack from a table of shelf. But the next time I’d visit a new knick-knack was sitting right in its place. My dad calls it space-fill compulsion. Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed. Here is a fun little tidbit we’ve learned … folks who are entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps? If you’ve covered what you need to say in a few paragraphs, then stop. You don’t need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It’s, OK. Cover the topics using only the space you need. Remember, this is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.

**Do Fellowship Awards Allow Clinical Trials?:** We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed. The sponsor is the responsible individual of record for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight. If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their ownShouldering all the responsibility themselves. ; Dog Days of Summer: "Be the person your dog thinks you are."; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH's definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html); Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019.; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies.; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see [https://research.columbia.edu/content/good-clinical-practice-training](https://research.columbia.edu/content/good-clinical-practice-training) or email NIH-GCP@columbia.edu.; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; or sfs2110@cumc.columbia.edu; Website: [https://spa.columbia.edu/](https://spa.columbia.edu/); NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; Dear COGR Members, NIH issued the following Guide Notice this morning, Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency’s definition of “clinical trial” to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input “on registration and results reporting standards best suited for prospective basic science studies involving human participants.”; The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates that the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details.; Lisa Nichols, Ph.D.; Council on Governmental Relations; 1200 New York Avenue, N.W., Suite 460; Washington, D.C. 20005; lnichols@cogr.edu; 202-289-6655

NIH Salary Cap: Guidance on Salary Limitation for Grants and Cooperative Agreements FY 2018

**Sponsor:** National Institutes of Health (NIH)

**Deadline(s):** 03/07/2018 (Release Date)

**Contact:** Questions about specific awards may be directed to the Grants Management Specialist identified on the Notice of Award.

**Additional Information:** NIH Salary Cap: Guidance on Salary Limitation for Grants and Cooperative Agreements FY 2018; NIH issued guidance on the use of a new NIH salary cap, to increase from $187,000 to $189,600. See [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-137.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-137.html). The effective date of this increase is January 7th, 2018; NIH has not received the final Fiscal Year (FY) 2018 appropriation and is operating under a continuing resolution through March 23rd, 2018 (see NOT-OD-18-136 also a very important notice). However, NIH issued this guidance until a budget is passed. In summary, this is how the $189,600 salary cap can be applied: (*) NIH proposal budgets may be submitted using the new cap; (**) Active NIH awards may rebudget to the new cap if restricted to Executive Level II, and adequate funds are available, and the salary cap increase is consistent with the institutional base salary. The new cap should be prorated for the applicable months: (***) Cap is $187,000 through 1/6/18; (****) Cap is $189,600 from 1/7/18 – present; If you have any questions, please feel free to reach out to your SPA Project Officer. **NICHD Policy on Early T32 Renewal Applications**

**Sponsor:** NIH/NICHD

**Deadline(s):** 05/25/2018 (Effective Date)
Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center and T32 grants, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,
Pam Factor-Litvak

NIH single IRB (sIRB) policy

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after) 01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Link(s):**

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites.; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the "same research protocol." Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the "same research protocol."; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by] Stephanie F. **Additional Information:** NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission.; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. ; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original.; Hope you have a great holiday season! **Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH...
clinical trial definition; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants?; (2) Are the participants prospectively assigned to an intervention?; (3) Is the study designed to evaluate the effect of the intervention on the participants?; (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multi-site human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policyclinical-trials.htm; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policyclinical-trialswhychanges.htm; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov; Doing human subjects research? New policies will impact you! Learn more.; Updated application forms (FORMS-E) are required for due dates of January 25, 2018 and beyond – includes new Human Subject and Clinical Trial Information Form. Take a tour of the new form.

Read the details of each FOA carefully.”; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies;” If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Additional Information: [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty,; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other more complex NIH proposals for NIH's October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R21, and is entirely optional.; For the final scientific editing an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing,

Faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

**Additional Information:**  
To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates. ; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates. ; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

http://www.nature.com/news/nih-limit-total-grant-support-to-pis-1.21949

**Additional Information:** NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded.; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

The Fringe Rate Applicable to Government Grants and Contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of

**Contact:** If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

**Additional Information:** Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc).; Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by] Stephanie Scott, SPA Communications and Outreach Director, sfs2110; NIH Fellowship applicants, I’d like to bring two issues to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the Select Agent Research attachment instead of the expected one. This is simply...
an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the "View Attachment" feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

NIH Releases Protocol Template for Behavioral and Social Sciences Research Involving Humans

**Sponsor:** National Institutes of Health

**Deadline(s):** 03/26/2019 (Release Date)

**Contact:** Please direct all inquiries to: NIH Office of Science Policy SciencePolicy@od.nih.gov

**Additional Information:** Purpose: The National Institutes of Health (NIH) has released a clinical trial protocol template with instructional and example text for NIH funded investigators to use in writing protocols for behavioral and social sciences clinical trials. This template was developed in response to changes in NIH policies that expanded the requirements associated with clinical trials beyond FDA-regulated clinical trials to those studies including behavioral or social interventions. Use of the template is recommended, but not required.

Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New York Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized—that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty / Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Note from Dean Fried;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and Delamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. NEW ITEMS FROM THE NIH
NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles; Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduated and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at eBiz@columbia.edu.

The Research Performance Progress Report (RPPR);
Sponsor: NIH; Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/ppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants.

NIH eSUBMISSION ITEMS OF INTEREST

NIH-Investigators Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs
This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at [NOT-OD-13-097](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-13-097.html).

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at [SPA-eBiz@columbia.edu](mailto:SPAEBiz@columbia.edu). In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at [eRA Commons Manage Personal Profile](http://grants.nih.gov/grants/guide/weeklyindex.cfm?WeekEnding=MM-DD-YYYY)

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See [NOT-OD-14-092](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-092.html). If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/). Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer:

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in [NOT-OD-13-120](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-13-120.html) and [NOT-OD-14-093](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-093.html), for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This
additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

**FEDERAL FUNDING TRAVEL POLICY**

**NIH-Investigators New Policy on Fly America Act:** Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: [http://policylibrary.columbia.edu/fly-america-act](http://policylibrary.columbia.edu/fly-america-act). This link contains: *Full policy text, including links to resources; *FAQs; *A Decision Tree Diagram; *A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: [http://spa.columbia.edu/policies/us-flag-carrier-policy/](http://spa.columbia.edu/policies/us-flag-carrier-policy/)

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when
booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC
