[NTW] [WEEKLY HIGHLIGHT/FOUNDATION FUNDING] Title: Worldwide Scientific Talent Grant; Sponsor: HHMI, the Bill & Melinda Gates Foundation, the Wellcome Trust, and the Calouste Gulbenkian Foundation;
Deadline(s): 06/30/2016;
Contact: Howard Hughes Medical Institute; 4000 Jones Bridge Road; Chevy Chase, MD 20815-6789; Phone: 301.215.8500; Jim Keeley; iecs@hhmi.org;
Additional Information: Dear Dr. Doctor/Scientist, The Howard Hughes Medical Institute (HHMI), the Bill & Melinda Gates Foundation, the Wellcome Trust, and the Calouste Gulbenkian Foundation announce the International Research Scholars Program which aims to support up to 50 outstanding early career scientists/physicians worldwide. The program's aim is to help develop scientific talent worldwide. Awardees will receive a total of $650,000 over five years, and they can do research in their own countries. Investigators from around the world can apply, but please review eligibility criteria. We are wondering if you would be willing to refer your fellows or junior investigators or past fellows to this program. The details can be perused on Trialect at: Worldwide Scientific Talent Grant; Regards, Trialect Support; +1.805.850.6002 (only for technical questions) Support@trialect.com; [previously forwarded to Mailman School faculty] There is a recent announcement of funding ($650k) from Gates, HHMI, etc. to support early career scientists NOT in the US or other G7
countries. If you have a collaborator or former student working in their home country, it might be appropriate for them. The full eligibility requirements are pasted below. To see the full information you have to register at Trialect, so an International Research Scholars.pdf file has been created and linked with the details to make it easier if you want to take a quick look at areas they are interested in very broad. The link to register is below.;

Eligibility: Applicants must meet the following requirements: (*) Hold a doctoral or medical degree and have completed postdoctoral research training.; (*) Hold a full-time position as an independent scientist at a research-oriented university, medical school, or nonprofit institution in any country other than: (***) The G-7 Countries (Canada, France, Germany, Italy, Japan, United Kingdom, & United States); (***) Countries identified by the US Department of Treasury, Office of Foreign Assets Control (OFAC) as being subject to comprehensive country or territory-wide sanctions or where current OFAC regulations prohibit U.S. persons or entities from engaging in the funding arrangements contemplated by this grant program. For this program, such sanctioned countries or territories currently include Iran, North Korea, Sudan, Syria, and the Crimea region of Ukraine; (*) Have received training at the doctoral, medical, or postdoctoral level in the United States or the United Kingdom for at least 1 year.; (*) Have been the first or senior author on at least two peer-reviewed, English-language, original research publications. (*) Have started their first independent research position on or after April 1, 2009.; (*) Control their own research direction, laboratory space, and funding; devote most of their professional time to research, mentoring, and teaching; and have no major administrative duties.; (*) Conduct biomedical research on basic biological and disease mechanisms; the research may also be in areas of chemistry, physics, computer science, or engineering that are directly related to biology or medicine. Clinical trials and research on health education, health care delivery, or health services are not eligible research areas.; [*]

[NTW] [FOUNDATION FUNDING/LIMITED SUBMISSION] Title: 2017 Pew Biomedical Scholars; Sponsor: http://www.pewtrusts.org; Deadline(s): 06/13/2016 (Internal Proposal Deadline); 07/15/2016 (Sponsor Nomination Deadline); 11/01/2016 (Sponsor Submission Deadline); Contact: For additional information, please contact: Greg Culler at gcc19@columbia.edu or (212)854-6285.; Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 409A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu; Link(s): http://www.pewtrusts.org/en/projects/pew-biomedical-scholars/program-details; Additional Information: Limited Submission Funding; 2017 Pew Biomedical Scholars; INTERNAL PROPOSAL DEADLINE – 9:00 A.M. ON MONDAY, JUNE 13, 2016; WHAT: The Pew Scholars in the Biomedical Sciences Program supports early career investigators who demonstrate outstanding promise as contributors in science relevant to human health. Strong proposals will incorporate particularly creative and innovative approaches. Selection of the successful candidates will be based on scientific merits of the proposed work, evaluations of the candidate’s performance, and notable past accomplishments, including honors, awards and publications.; An award of $60,000 per year will be provided over the four-year period, subject to annual review of progress. The awarded funds may be used for personnel, equipment, supplies, or travel directly related to the Scholar's research. Not more than $10,000 of the annual award may be used for the scholar's salary (including benefits). Grant agreements will be issued in August 2017.; WHO: All candidates must meet the following eligibility requirements. (*) Applicants must hold a doctorate in biomedical sciences or medicine; (*) Applicants must hold a full-time position as an Assistant Professor. Candidates must not have been in such an appointment for more than three
years, whether or not such an appointment was on a tenure track. The start date of the candidate’s first Assistant Professor position must be after July 15, 2013 and before November 1, 2016.; (***) This time may have been spent at more than one institution; (**) Time spent in clinical internships, residencies, or in work toward board certification does not count; (*) It is expected that Pew Scholars will spend at least 80 percent of their time in work related to the accomplishment of their overall research goals.; (*) The Foundation’s National Advisory Committee gives considerable weight to evidence that the candidate is a successful independent investigator and has published significant work. Therefore, a good publication record (i.e., first-authored papers in leading journals) and other evidence of independence play a significant role in the internal review.; WHEN: Internal proposal due: 9:00 a.m. on Monday, June 13, 2016; Sponsor nomination deadline – July 15, 2016; Sponsor proposal deadline – November 1, 2016; INSTITUTIONAL LIMIT: 1 proposal; HOW: The internal application must include the following six components.; (1) Cover Page with the applicant’s name, start date of first assistant professor position, title department and contact information.; (2) Lay Abstract (1 page limit) summarizing the project and explaining the background and significance to the scientific field in lay terms.; (3) Research Project Summary (3 page limit, single-spaced, 11-point font with ½ inch margins) describing background, aims and objectives, methods to be used and potential impact/significance.; (4) NIH Biosketch (5 page limit); (5) Letter of Support from the applicant’s department or division chair; (6) List of Current and Pending Grants; Please combine all components of the internal proposal in a single PDF document and email to gcc19@columbia.edu by no later than 9:00 a.m. on Monday, June 13, 2016. The subject heading of the email should be "2017 Pew Scholars Program.";

Richard Arjune; Senior Project Officer; Herbert Irving Comprehensive Cancer Center; Columbia University Medical Center; 1130 St. Nicholas Avenue, (ICRC Bldg, Suite 201, Room 201C); New York, NY 10032-3702; Tel: 212-851-4682; Fax: 212-851-4660; Email: dra2112@columbia.edu; National Cancer Institute ; Cancer Prevention Fellowship Program (CPFP);
Program Description: The overarching goal of the Cancer Prevention Fellowship Program (CPFP) is to provide a strong foundation for scientists and clinicians to train in the field of cancer prevention and control. It is multidisciplinary by nature, as we select fellows from a variety of disciplines and backgrounds. Unlike some postdoctoral programs, our Fellows have the opportunity to select their own preceptors, and develop and lead research activities based on their own interests. The overarching goal of the CPFP is to provide a strong foundation for scientists and clinicians to train in the field of cancer prevention and control. As part of the program, we offer training toward an MPH degree at an accredited university during the first year, followed by mentored research with investigators at the NCI or FDA. Outstanding opportunities for cutting-edge research in the basic, quantitative, social and behavioral sciences, and in clinical cancer prevention, have been the hallmarks of the CPFP since its inception in 1987. Furthermore, a partnership between the NCI and FDA provides opportunities for prevention research in drugs, biologics, and medical devices. Other educational opportunities are provided throughout the fellowship to complement the research training, including the NCI Summer Curriculum in Cancer Prevention; the Molecular Prevention Laboratory; the NCI Cancer Prevention and Control Colloquia Series; and the weekly Fellows' Research Meeting. Additional leadership and professional development training opportunities are available at the NIH and elsewhere. These aspects of the program, as well as eligibility requirements, application procedures, selected bibliography of current and former fellows' recent publications are described in this catalog.; Preventing cancer is one of the most important scientific and public health aims for the 21st Century.; The Program provides: (-) Up to 4 years of financial support; (-) Master of Public Health (MPH) or an equivalent degree at any one-year accredited university program; (-) NCI Summer Curriculum in Cancer Prevention; (-) Mentored research opportunities at the National Cancer Institute (NCI) or Food and Drug Administration (FDA); (-) Professional development and leadership training; World Class Training Opportunities; The Fellowship supports a broad range of research opportunities in cancer prevention and control. Under the direction of the program's scientific staff and of senior staff from the NCI or the FDA, who act as preceptors, fellows are free to pursue their interests in various areas of cancer prevention.; Apply to the Cancer Prevention Fellowship Program; To be considered for the program, you must meet the eligibility requirements and complete all parts of the application, as described below. If you have additional questions about the application process, please contact our office.; Eligibility Requirements: To be considered for the CPFP, you must meet the following eligibility requirements: (1) Doctoral degree;
You must have an MD, PhD, JD or other doctoral degree in a related discipline (e.g., basic science, epidemiology, health services research, medicine, behavioral science, nursing, social science, nutrition, health education/health promotion, law, dentistry, statistics, geography, or exercise science); (§) Foreign education must be comparable to that received in the United States.; (2) Prior postdoctoral experience.; (§) You must have less than five years of relevant postdoctoral experience at the time of appointment.; (3) Citizenship.; (§) You must be a citizen or permanent resident of the United States at the time of application OR (§) You must be applying through the Ireland-Northern Ireland-NCI Cancer Consortium.; See additional eligibility requirements [url presented is inactive].; (4) Other Eligibility Requirements; (§) Less than five years relevant postdoctoral experience; (§) Foreign education must be comparable to that received in the United States; (§) Must be a citizen or permanent resident of the United States at the time of application or; (§) Be an applicant from the Ireland-Northern Ireland-NCI Cancer Consortium; How to Apply; You must apply through our online application process. When applying, you will be asked to: (1) Complete and submit your online application. This includes uploading your unofficial academic transcripts, your Personal Statement of Research Goals (approximately 1,000 words), your Curriculum Vitae, and proof of citizenship (if not a U.S. citizen). You may complete the application at your own pace and in multiple sessions.; (2) Request four current and original letters of reference.; (3) Request a letter assuring that all degree requirements will be completed by June 2017 (Doctoral degree candidates only);. (4) Request proof of employment (Ireland-Northern Ireland-NCI Cancer Consortium applicants only).; All supporting documentation requests and document uploads must be made through your application account. More details will be given once you begin your application.; Deadlines: Online Application; All Applicants; 11:59 PM, August 25, 2016 U.S. Eastern Daylight Time; Letters of Reference; All Applicants; 11:59 PM, August 31, 2016 U.S. Eastern Daylight Time; Letter of Assurance; Doctoral degree candidates only; 11:59 PM, August 31, 2016 U.S. Eastern Daylight Time; Proof of Employment; Consortium applicants only; 11:59 PM, August 31, 2016 U.S. Eastern Daylight Time; Application Materials; Personal Statement of Research Goals; In narrative form, describe your research interests and goals and how these relate to the field of cancer prevention and control. Please also provide insight into your short- and long-term career goals, and explain how the CPFP will help you in achieving those goals. Limit your personal statement to two typed, single-spaced pages and use 12-point font and 1 inch margins (approximately 1,000 words); Curriculum Vitae: Please refer to Information to Include in Curriculum Vitae in this section.; Letters of Reference: Four current and original letters of reference must be sent directly to the Director of the CPFP by individuals in the scientific/academic community who have knowledge of your scientific accomplishments, motivation, and skills. Letters must be requested through our secure application website. Letters must be received by 11:59 PM (U.S. Eastern Daylight time) on August 31.; Academic Transcripts: Copies of all graduate and undergraduate transcripts (and translations, if applicable) must be uploaded directly to our secure application website.; Other Documentation: Permanent residents of the United States must submit proof of eligibility for citizenship. The 1-551 stamp in a passport is acceptable; "Employment Authorization" documents are not acceptable. Individuals applying through the Ireland-Northern Ireland-NCI Cancer Consortium must submit proof of citizenship (birth certificate or passport) and proof of employment (refer to Ireland-Northern Ireland-NCI Cancer Consortium section). Citizenship documentation must be uploaded directly to our secure application website. Proof of employment must be requested through the website. Technical Support is now available Monday - Friday, from 9:00 am to 5:00 pm U.S. Eastern Daylight Time. For support, please contact us at cpfp@imsweb.com. You will be notified by e-mail when supporting documentation is submitted. Additionally, you may log into your application account to see the status of your supporting documentation. It is your responsibility to ensure that we have received your supporting documentation on or before 11:59 PM, August 31, 2016 U.S. Eastern Daylight Time.; Notification: All complete applications submitted by eligible candidates by the above deadlines will be
reviewed by members of the CPFP Scientific Education Committee. This Committee is comprised of scientists from different divisions within the NCI, the FDA, and an ad hoc member from outside the NCI with expertise in the field of cancer prevention and control. Those applicants judged to be highly qualified will be notified and invited for a one-day interview. The interviews will be held in Rockville, Maryland. Applicants will be notified of their status shortly thereafter.;

**Additional Information:** SYNOPSIS: National Institute of Mental Health (NIMH) invites applications that propose to develop creative educational activities with a primary focus on Mentoring Activities and Research Experiences, that either capitalize on existing networks of collaborating investigators or develop institute-based research education programs. Mentoring activities are expected to be primary and the cornerstone of proposed programs though all programs must also provide research experiences. Research Education Programs are expected to enhance the professional development of the participants and foster a career trajectory towards independent research in the mental health of HIV/AIDS. This FOA will use the NIH Research Education (R25) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is August 7 annually. The deadline for receipt of full applications is September 7 annually, by 5:00 PM local time of applicant organization. This FOA will expire on September 8, 2017.; [*]

**Additional Information:** SYNOPSIS: National Institute of Mental Health (NIMH) and National Institute of Neurological Disorders and Stroke (NINDS) invite applications to test whether modifying electrophysiological patterns during behavior can improve cognitive abilities. Applications should use experimental designs that incorporate active manipulations to address at least one, and ideally more, of the following topics: (1) in behaving animals, determine which parameters of neural coordination, when manipulated in isolation, improve particular aspects of cognition; (2) in animals or humans, determine how particular abnormalities at the cellular or molecular level, such as specific receptor dysfunction, affect the coordination of electrophysiological patterns during behavior; (3) determine whether in vivo, systems-level electrophysiological changes in behaving animals predict analogous electrophysiological and cognitive improvements in normal humans or clinical populations; and (4) use systems-level computational modeling to develop a principled understanding of the function and mechanisms by which oscillatory and other electrophysiological temporal dynamic patterns unfold across the brain (cortically and subcortically) to impact cognition. This FOA will use the NIH Research Project (R01) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually.
The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2017.; [*]

Additional Information: SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications to build on the data collected using the very well defined experimental protocols of the Human Connectome Project (HCP); (http://www.neuroscienceblueprint.nih.gov/connectome/). Applications are sought that will apply the Human Connectome data collection protocol to disease/disorder cohorts of interest to the Institutes and Centers that are participating in this FOA. These cohorts will be defined by the applicant and can include subjects with specific symptoms or conditions, with comorbid conditions, with a specific genetic profile, or other applicant defined criteria. This program will use the NIH U01 Research Project Cooperative Agreements award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). [NTW] [SMOKING CESSATION/SCHIZOPHRENIA] Title: Exploratory Studies of Smoking Cessation Interventions for People with Schizophrenia (R21/R33);
Sponsor: National Institute on Drug Abuse/NIH/DHHS;
Deadline(s): 07/16/2016; 08/16/2016; 11/15/2016; 12/15/2016; 03/17/2017; 04/17/2017;

Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?40598;
Additional Information: SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications to generate and conduct preliminary tests of targeted smoking cessation treatments for individuals with schizophrenia. Smokers with schizophrenia who have co-occurring alcohol and/or substance abuse disorders are also a population of interest. This FOA encourages Phased Innovation (R21/R33) applications that focus on early-stage, treatment generation and pilot clinical trials that are consistent with an experimental therapeutic approach. This approach requires the identification of a theory-derived target based on putative mechanisms of nicotine addiction in individuals with schizophrenia, and clear hypotheses about how an intervention directed at changing the target can lead to clinical benefits. Studies of novel interventions include, but are not limited to behavioral, pharmacological, physiological, learning- and device-based treatment approaches and targets thereof. This FOA provides support for up to two years (R21 phase) for protocol development and target identification and engagement studies, followed by up to 3 years of support (R33 phase)
for exploratory/pilot studies to further evaluate target engagement and its prospective association with clinical benefits, and to evaluate the feasibility of conducting a larger trial. This program will use the NIH R21/R33 Phased Innovation Award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is 30 days before the application due date. The deadlines for receipt of full applications are: August 16, 2016, December 15, 2016, and April 17, 2017, by 5:00 PM local time of applicant organization. [*]

[NTW] [SMOKING CESSATION/SCHIZOPHRENIA] Title: Exploratory Studies of Smoking Cessation Interventions for People with Schizophrenia (R33);
Sponsor: National Institute on Drug Abuse/NIH/DHHS;
Deadline(s): 07/16/2016; 08/16/2016; 11/15/2016; 12/15/2016; 03/17/2017; 04/17/2017;

Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?40599;
Additional Information: SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications of two major types. Type I will conduct exploratory testing of novel, targeted treatments for smoking cessation for individuals with schizophrenia.; Type II will conduct exploratory testing of targeted implementation strategies of existing efficacious treatments at the service-delivery system level. Smokers with schizophrenia who have co-occurring alcohol and/or substance abuse disorders are also a population of interest. Under this FOA, trials should be designed so that results, whether positive or negative, will provide information of high scientific utility and will support decisions about further development or testing of interventions or implementation strategies.; Studies of novel interventions include, but are not limited to behavioral, pharmacological, biologics-based, cognitive, device-based, interpersonal, physiological, or combined approaches. The R33 funding mechanism provides support for up to 3 years, for either application type. Ultimately, this R33 funding mechanism intends to speed the translation of emerging basic science findings of mechanisms and processes underlying treatments or implementation strategies into novel intervention approaches that can be efficiently tested for their promise to promote smoking cessation in individuals who have schizophrenia (Type I) or promote the adoption of experimentally-supported smoking cessation interventions within organizations that provide services to smokers with schizophrenia (Type II). This program will use the NIH R33 Exploratory/Developmental Grants Phase II award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is 30 days before the application due date. The deadlines for receipt of full applications are: August 17, 2015, December 15, 2015, April 15, 2016, August 16, 2016, December 15, 2016, and April 17, 2017, by 5:00 PM local time of applicant organization.; [*]

**Sponsor:** Department of the Army;
**Deadline(s):** 07/15/2016; 10/20/2016;
**Contact:** E-mail: help@eBRAP.org;

**Additional Information:** SYNOPTIS: The purpose of this award is to support population-based research to obtain a better understanding of mortality, morbidity, and symptomatology over time in Veterans deployed in the 1990-1991 Persian Gulf War and afflicted by GWI. While individual symptoms experienced by ill Gulf War Veterans can vary from person to person, the types of symptoms reported are comparable and typically include some combination of widespread pain and headaches, fatigue, cognitive impairment, gastrointestinal symptoms, and skin abnormalities. GWI case definitions published to date may be improved through the consideration of additional epidemiological data describing symptom onset, duration, severity, and laboratory findings. The Gulf War Illness Epidemiology Research Award will support hypothesis-driven or discovery-based research into mortality, morbidity, and symptomatology and/or how these have changed or progressed over time in the Gulf War Veteran population compared to rates and patterns of change with time in appropriate control populations.; **DEADLINE NOTE:** Preapplications are required and must be received by 5:00 p.m. Eastern time (ET), July 15, 2016. Selected applicants will be invited to submit a full proposal. If invited, full proposals must be received by 11:59 p.m. ET, October 20, 2016.;

**Additional Information:** SYNOPSIS: National Institute of Dental and Craniofacial Research (NIDCR) invites applications from eligible, domestic institutions to enhance predoctoral and postdoctoral research training to ensure that a diverse and highly qualified workforce is available to address the Nation’s basic and clinical biomedical and behavioral or social sciences research agenda. Research training programs will incorporate didactic, research, and career development components to prepare individuals for careers as independent scientists that will have a significant impact on the dental, oral, and craniofacial health-related research needs of the Nation. This Funding Opportunity Announcement (FOA) will utilize the NIH T32 Institutional National Research Service Award (NRSA) mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is August 25 annually. The deadline for receipt of standard full applications is September 25 annually. This FOA will expire on September 26, 2017.; [*]

No internal proposal is required at this time.; Please provide the following: (*) PI: Name, department and contact information; (*) Co-PI(s): Name and department; (*) Project Title; Questions should be sent to gcc19@columbia.edu; **Overview:** The purpose of this Funding Opportunity Announcement (FOA) is to solicit applications for graduate training programs in Big Data Science, for the expressed purpose of training the next generation of scientists who will develop computational and quantitative approaches and tools needed by the biomedical research community to work with Big Data in the biomedical sciences. The proposed training programs should prepare qualified individuals for careers in developing new technologies and methods that will allow biomedical researchers to maximize the value of the growing volume and complexity of biomedical data.; It is anticipated that the average size of an award will be approximately $350,000 total cost. It is expected that about 6 awards will be supported in FY17, depending on the quality of the applications. Application budgets are not limited, but it is anticipated that each institutional training program may appoint up to 6 trainees annually. Budgets need to reflect the actual needs of the proposed project. Awards will be made for four years.; **Greg Culler;** Associate Director | Research Initiatives Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 409A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu; [*]

**Additional Information:** The following is a broadcast announcement listing of a new funding opportunity sponsored in whole or in part by the U.S. Environmental Protection Agency's National Center for Environmental Research (NCER). See the end of this message to obtain details on this and other NCER broadcast services as well as how to unsubscribe to this list.; Long-term Exposure to Air Pollution and Development of Cardiovascular Disease; Open: May 18, 2016; Closing: August 2, 2016; The U.S. Environmental Protection Agency announces the release of the Long-term Exposure to Air Pollution and Development of Cardiovascular Disease Request for Applications.; The effects of air pollution on the cardiovascular system account for the largest portion of the public health and economic benefits of the Clean Air Act. While several mechanisms are involved, chronic cardiovascular disease (CVD) is a slowly progressing condition, whose natural history develops through most of the human life span. The relationship between long-term exposure to PM2.5 and cardiovascular health effects has been determined as causal. However, long-term prospective studies that can inform and reduce uncertainties about the shape of the concentration-response relationship, especially at low ambient concentrations of PM2.5, or that will aid in the
identification and/or further characterization of potentially at-risk groups and adult lifestages will be especially useful for public health protection strategies.; To address this research need, EPA is seeking applications proposing to expand and inform the understanding of the mechanism(s) by which air pollution contributes to the development of cardiovascular disease. Specifically, research is needed to estimate the total cardiovascular risk associated with exposure to air pollution, including indicators of early subclinical damage and novel endpoints, in addition to established morbidity and mortality outcomes.; This RFA is supported by EPA’s Air, Climate and Energy (ACE) research program and Science to Achieve Results (STAR) extramural research grants program.; Applicable Category(s): Grant/Fellowship Announcements;

Additional Information: SYNONYS: The Health Resources and Services Administration (HRSA), Bureau of Health Workforce (BHW), Division of Medicine and Dentistry is accepting applications for the fiscal year (FY) 2017 Children’s Hospital Graduate Medical Education (CHGME) Payment Program. The purpose of this program is to fund freestanding children’s hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. This program addresses the difference in explicit Federal GME funding between freestanding children’s teaching hospitals.
and other teaching hospitals supported by the Centers for Medicare and Medicaid Services (CMS).; DEADLINE NOTE: The deadline for receipt of applications is July 15, 2016. Supplemental information is due in EHBs by August 1, 2016.;

**Title:** Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;

**Sponsor:** NIH; Extramural Nexus Blog;

**Deadline(s):** 01/25/2016; effective for applications submitted on or after January 25, 2016;

**Contact:** Please see appropriate links;

Electronic Research Administration: [https://era.nih.gov/](https://era.nih.gov/);

**Additional Information:** Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;
**Title:** Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;  
**Sponsor:** National Institutes of Health;  
**Deadline(s):** NA; **Release Date:** 10/13/2015;  
**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;  
**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals. Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*') Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*') Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

**Title:** NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;  
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;  
**Deadline(s):** NA; **Release Date:** 10/13/2015;

**Additional Information**: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;

**Title**: NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016  
**Sponsor**: National Institutes of Health; Agency for Healthcare Research and Quality;  
**Deadline(s)**: Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;  
**Contact**: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;  
**Additional Information**: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;
Title: Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA; Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;

Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification. What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21. Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention. The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design. For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Title: Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA; Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*). Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*). Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these
areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Dear All,

The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsoring Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information. If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.

As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.

Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users,

FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%. (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%. (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%. [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.

The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.

Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.

If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you.

EBOLA and ZOONOTIC DISEASE

Title: Note from Dean Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: Linda P. Fried, MD, MPH;
Link(s): NA;
Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian doctor, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service.

As we move through this global crisis, we must all take pride in that effort of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. ; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Title: Message from President Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: Contact person for information at CUMC; Joanne Berdebes; jb2636@columbia.edu; 304-5598;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New-York-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; We also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;

**Title:** CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

**Sponsor:** NIH;

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

**Link(s):** NOT-OD-13-097:
http://spa.columbia.edu/;

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (**) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (**) note some select NIH grant mechanisms may be exempt from reporting in this section. (**) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf.  
**TIP** – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (**) UNI; (**) Email address; (**) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. **R²report**

**Research Resources – Friday Newsletter, 05/20/16**

---

**Additional Information:** As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog …. Continue reading —>

Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883.

**TRAINING GRANTS, T32S, ETC.**

**Title:** New Program for NIH-funded Grad Students and Postdocs; **Sponsor:** NIH; **Deadline(s):** Open Ended;

**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Title: [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;

Additional Information: Complete Profiles Required for Students and Postdocs: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.: Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.: If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

Title: The Research Performance Progress Report (RPPR);

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.
Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees
(graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at [SPA-eBiz@columbia.edu](mailto:SPA-eBiz@columbia.edu). In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at [eRA Commons Manage Personal Profile](http://eracommons.org/help/profile).

**RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014** (the paper PHS 2590 forms are being phased out). See [NOT-OD-14-092](https://grants.nih.gov/grants/new_app/NOT-OD-14-092.pdf). If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rgrr](http://grants.nih.gov/grants/rgrr). Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … [Continue reading →](http://www.mailman.columbia.edu/faculty-staff/research-resources-r2-office)

Keep Up With Grants Administration Changes With Our New Timeline

Want to look into the future? We sure would. But in lieu of clairvoyant powers we’re trying the next best thing: a map to help navigate upcoming changes in grants administration. The grants policy page on grants.nih.gov is now home to an interactive timeline of upcoming changes in grants administration. …. Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, …. Continue reading →

New Website for iEdison Invention Reporting Information:

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. …. You Ask, We Answer:

☐ Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

☐ What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change: NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read the full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. *Stephanie F. Scott, M.S., CRA*

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantees, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;

Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:

http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at:

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**Additional Information**: SYNOPSIS: The PRMRP Clinical Trial Award supports the rapid implementation of clinical trials with the potential to have a significant impact on a disease or condition addressed in at least one of the Congressionally directed FY16 PRMRP Topic Areas. Clinical trials may be designed to evaluate promising new products, pharmacologic agents (drugs or biologics), devices, clinical guidance, and/or emerging approaches and technologies. Proposed projects may range from small proof-of-concept trials to demonstrate feasibility or inform the design of more advanced trials (e.g., pilot, first in human, Phase 0), through large-scale trials to determine efficacy in relevant patient populations. All studies must be responsive to the healthcare needs of the military Service members, Veterans, and/or beneficiaries; however, the use of military or Veteran populations is not required.;  
DEADLINE NOTE: The pre-application submission deadline is 5:00 p.m. Eastern time (ET), June 29, 2016. The invited application must be submitted by 11:59 p.m. ET, October 26, 2016;

**Additional Information:** JUST RELEASED! FY16 DOD BMFRP Program Announcement; This is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities managed by the office of Congressionally Directed Medical Research Programs (CDMRP);. Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov/; CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) https://eBrap.org/; All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website http://cdmrp.army.mil/; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBrap.org/) and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; To be added or removed from this email list please use the "Subscribe/unsubscribe to program specific news and updates at https://ebrap.org."

The Irving Institute and CUMC Dean's Office is offering a free introductory seminar series in Precision Medicine open to all faculty, fellows, residents and students. Learn what all the buzz is about. What tools are currently available to understand the molecular basis of disease, target treatments to improve efficacy, reduce adverse events and improve forecasting and preservation of health; Led by expert faculty members including Drs. Wendy Chung, Ali Gharavi, and Ron Wapner, this seminar series will provide a foundation to understand genomics, biomarkers, systems biology, and biomedical informatics and will review specific ways in which these tools are being used across subspecialties. This seminar series will include workshops in which we will analyze a genetic test and learn how to decide what genetic test to order and how to interpret the results.

**Additional Information:**

- **Title:** Irving Institute Announcements; **Sponsor:** Irving Institute; **Deadline(s):** NA; **Contact:** Please see individual announcement below; **Link(s):** Please see individual announcement below; **Additional Information:** Seminars and Events; (1) 2015 Precision Medicine Introductory Seminar Series; The Irving Institute and CUMC IRB Liaison Service will announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance; Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsor Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety; Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included: (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subwardee Financial Conflict of Interest Policy Form – only required when the proposed subrecipient is not included in the...
