CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

Please let us (R2/ckk7) know if anyone is submitting a training grant (of any sort, T32, R25, D43, etc) between now and June 2021.

Research resources is pleased to coordinate grant type specific grant writing groups, pending faculty/researcher interest. Please let us know (via email to prf1@cumc.columbia.edu and or ckk7@cumc.columbia.edu) if you are interested in such groups, along with the type of grant and proposed due date(s). We are planning to coordinate a writing group for this fall’s NIH deadlines. Please join us.

# Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

National Institutes of Health

This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round.; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission.
<p>| materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting. |</p>

Announcing New Inbox for Inquiries Related to Changes to Biographical Sketch and Other Support Format Page

Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov

Updated Other Support resources, including FAQs and sample Other Support format pages

Implementation of Changes to the Biographical Sketch and Other Support Format Page

Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021

Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components

Sponsor: National Institutes of Health

Deadline(s): 05/18/2021 (Release Date)

Contact: Please direct all inquiries to: Office of Policy for Extramural Research Administration (OPERA); nihosbiosketch@nih.gov

https://grants.nih.gov/grants/forms/biosketch.htm

Additional Information: This announcement informs the research community of the creation of a central email inbox for inquiries related to changes to the biographical sketch and other support templates in response to the high volume of inquiries received.; Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov.; NIH is diligently working to ensure complete and timely responses to inquiries received to date via existing email inboxes. The research community may elect to forward inquiries that are pending a response to the new central email inbox, as needed.; NIH encourages the research community to review the currently available resources related to this effort: Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Additional resources, including training videos and other materials will be posted on the pages above as they become available.; Related Announcements: NOT-OD-21-110 - Implementation of Changes to the Biographical Sketch and Other Support Format Page; NOT-OD-21-073 - Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021; NOT-OD-19-114 - Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components; It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Updated Other Support resources, including FAQs and sample Other Support format pages can be found here. ; One of the most important changes in the Biosketch instructions is Section B: “List
in *reverse* chronological order *all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments*. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”

This is critical. The senior/key personnel, and mentors for training grants, have to include *all* positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

<table>
<thead>
<tr>
<th>Format Page</th>
<th>Changes</th>
</tr>
</thead>
</table>
| Biographical Sketch Format Page | Section B ‘Positions and Honors’ has been renamed ‘Positions, Scientific Appointments, and Honors’.  
For the non-Fellowship Biosketch, Section D. has been removed.  
For the Fellowship Biosketch, Section D has been updated to remove ‘Research Support.’  
As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A. |
| Other Support Format Page | The format page has been re-organized to separate funded projects from in-kind contributions.  
Signature block added, for Program Director/Principal Investigator or Other Senior/Key Personnel to certify the accuracy of the information submitted. Each PD/PI or senior/key personnel must electronically sign their respective Other Support form as a PDF prior to submission. |

Additional Information: Water: Emerging Contaminants RFI and Sensor Challenge; Hello SRP Colleagues, Just wanted to let you know about two upcoming water-related opportunities: Request for Information (RFI) “NOT-ES-21-006: Request for Information (RFI): Drinking Water Contaminants of Emerging Concern for National Emerging Contaminant Research Initiative.” The National Institutes of Health/National Institute of Environmental Health Sciences (NIH/NIEHS), on behalf of the Office of Science and Technology Policy (OSTP), requests input from all interested parties on research needed to identify, analyze, monitor, and mitigate drinking water contaminants of emerging concern (DW CECs). Comments provided through this Request for Information (RFI) will inform the development of a National Emerging Contaminant Research Initiative (NECRI). Please visit this link for more information: https://grants.nih.gov/grants/guide/notice-files/NOT-ES-21-006.html. Responses are due June 02, 2021.; Water Toxicity Sensor Challenge: EPA, USGS, NOAA, USAMRDC and partners have released a Water Toxicity Sensor Challenge! They are calling on innovators to develop a sensor that can identify whether there are chemical pollutants and natural toxins in various types of water much faster and less expensively than current lab methods for detecting individual, specific chemicals https://www.epa.gov/innovation/water-toxicity-sensor-challenge. Here are important dates: Challenge Start Date: April 27, 2021; Challenge End Date: July 26, 2021; Informational Webinar: June 8, 2021 at 2 p.m. ET - Register here.; [brought to our attention by] Thank you!; Heather; Heather F. **Additional Information:**
New NIH AMP AIM Program Supports Autoimmune Disease Research; NIH recently published two funding opportunities to establish the Accelerating Medicines Partnership: Autoimmune and Immune-Mediated Diseases (AMP AIM) program. AMP AIM will deepen the current understanding of autoimmune diseases—such as rheumatoid arthritis, lupus, psoriatic spectrum diseases, and Sjögren’s syndrome—which affect more than 25 million Americans. These diseases can cause profound abnormalities in immune responses and can result in persistent damage to multiple tissues and organ systems. The AMP AIM network will consist of four distinct, highly interactive, and complementary components: Disease Teams (DTs), Technology and Analytics Cores (TACs), Research Management Unit (RMU), and Knowledge Portal (KP). For more information, see [RFA-AR-21-015](https://grants.nih.gov/grants/guide/rfa-files/RFA-AR-21-015.html); [Technology and Analytics Cores (TACs)](https://www.niams.nih.gov/about/branches/ar/accelerating-medicines-partnership/amp-risk-core). TACs will test, optimize, and apply innovative technologies to interrogate and analyze human biopsy tissue and biosamples. For more information, see [RFA-AR-21-016](https://grants.nih.gov/grants/guide/rfa-files/RFA-AR-21-016.html); [Research Management Unit (RMU)](https://www.niams.nih.gov/about/branches/ar/accelerating-medicines-partnership/amp-risk-core). The RMU will provide centralized management and operational support to the network, including providing and/or overseeing clinical monitoring for the entire AMP AIM program. For more information, see [RFA-AR-21-016](https://grants.nih.gov/grants/guide/rfa-files/RFA-AR-21-016.html); [Knowledge Portal (KP)](https://www.niams.nih.gov/about/branches/ar/accelerating-medicines-partnership/amp-risk-core). The KP will provide an interface for storage, analysis aggregation, and visualization of all data generated by the DTs and TACs. Letters of intent for [RFA-AR-21-015](https://grants.nih.gov/grants/guide/rfa-files/RFA-AR-21-015.html) and [RFA-AR-21-016](https://grants.nih.gov/grants/guide/rfa-files/RFA-AR-21-016.html) are due June 15, 2021.

**[NTW] [FOUNDATION FUNDING/CANCER]**

**2021 VELOCITY Cancer Research Awards ; Deadline: Monday, May 3, 2021**

Comprehensive Cancer Center (HICCC) is pleased to announce the VELOCITY Cancer Research Awards competition. HICCC seeks to support investigators actively involved in cancer research and to encourage others in the biomedical community to enter cancer research. The goal of the competition is to support bi-directional translational research that drives basic, translational, clinical trials, clinical care, and population science, generating novel hypothesis-testing research questions. Up to five VELOCITY Fellows will be selected to lead teams consisting of one lead Principal Investigator and co-investigators and/or collaborators with complimentary expertise. Interdisciplinary teams are strongly encouraged. At least one population science or community based project will be awarded. HICCC encourages research projects that address and accelerate progress in understanding and reducing cancer health disparities. We are particularly interested in proposals that...
directly relate to the cancer burden in the HICCC catchment area and potential applicants are expected to reach out to the HICCC Community Outreach and Engagement (COE) office in writing the proposal.; Questions: contact Tanisha Jackson at tj2325@cumc.columbia.edu.; For more information, eligibility requirements, and to apply, click the button below.

DoD/CDMRP - COVID-19 Impact on Research Awards

[No Link Provided]

CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation

**Additional Information:** DoD Defense University Research Instrumentation Program (DURIP); **Funding:** $50k-$1.5M over one year; **Deadlines:** Inquiries & Questions: Friday, April 23, 2021; Full Proposal: Friday, May 14, 2021 (11:59 pm EDT); **Summary:** The DURIP program seeks proposals from universities to purchase equipment and instrumentation in support of research in areas of interest to the mission of the DoD. These interests include the areas of research supported by the Army Research Office (ARO), the Office of Naval Research (ONR), and the Air Force Office of Scientific Research (AFOSR). Additionally, proposed instrumentation should enhance research-related education in areas of interest and priority to the DoD. DURIP funds must be used for the acquisition of major equipment or instrumentation to augment current, or develop new, research capabilities to support research in the technical areas of interest to the DoD. Proposals may request funding for more than one item if the requested items comprise a “system” that is used for a common research purpose. Requests for computing equipment for DoD-relevant research programs are appropriate and eligible for funding.; Allowable DURIP Costs; Acquisition of major equipment or instrumentation consistent with the evaluation criteria, including: reasonable costs for design, construction, assembly, and/or installation by external contractors or university technicians or engineers.; Computers for DoD-relevant research programs consistent with the evaluation criteria.

**Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Individual Fellows**

**Extramural Nexus**

**How do I request childcare costs in my fellowship application**

**Sponsor:** NIH

**Deadline(s):** 03/15/2021 (Release Date)

**Contact:** Please direct all grants policy inquiries to: NIH Office of Policy for Extramural Research Administration; Division of Grants Policy; Email: grantspolicy@nih.gov; For general inquiries about fellowships and career development programs please contact: Division of Biomedical Research Workforce; Office of Extramural Research; Website: https://researchtraining.nih.gov; Email: NIHTrain@mail.nih.gov

**Additional Information:** Earlier today, NIH issued corrected instructions to request childcare costs for recipients of NRSA individual fellowships. See NOT-OD-21-074, which replaces to announcement NOT-OD-21-069 referenced below. NIH also updated its FAQs; If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We’ll provide you with any updates [brought to our attention by] Stephanie Scott, Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; This week NIH announced a new policy to allow for childcare support costs to recipients of NRSA individual fellowships (i.e., F31, F32, etc). These costs must be specifically requested in new, continuation applications or through administrative supplements beginning on or after April 8, 2021. Please read the full announcement at NOT-OD-21-069, the FAQs, and supplementary information below.; **Some key takeaways:** The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022.; Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18.; Eligible childcare care is that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.; At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents.; The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC.; If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request; We’ll provide further guidance on these new costs at a later date.; **Feed:** blog – NIH Extramural Nexus; **Posted on:** Tuesday, March 2, 2021 11:40 AM; **Author:** Mike Lauer; **Subject:** Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; [View article.]; Subsequently, NIH posted this blog, with screen shot, to assist applicants with the request for childcare...
costs. If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We'll provide you with any updates.

**Transformative Research to Address Health Disparities and Advance Health Equity (U01 Clinical Trial Allowed)**

**Sponsor:** Office of Strategic Coordination (Common Fund)

**Contact:** Scientific/Research Contact(s); Stephanie Courchesne-Schlink, Ph.D.; Office of the Director (OD); Telephone: 301-451-6387; Email: CFHealthDisparities@nih.gov

Additional Information: New NIH Common Fund’s Funding Opportunities to Address Health Disparities and Advance Health Equity; Dear Colleagues, The NIH Common Fund has announced two new Funding Opportunities to address Health Disparities and Advance Health Equity. The NIH has established a new initiative called UNITE to end structural racism and racial inequities throughout the biomedical research enterprise. Part of ending racial inequities in biomedical research will be to ensure NIH-supported research benefits the health of all populations, especially those whose health is negatively impacted by racism. For this reason, conducting new research into health disparities, minority health, and health equity is an important goal of UNITE. As part of UNITE, the NIH Common Fund issued two funding opportunities announcements (FOAs) to bolster innovation, solve challenges, and address health disparities and advance health equity: 1) RFA-RM-21-021 Transformative Research to Address Health Disparities and Advance Health Equity (U01 Clinical Trial Allowed); 2) RFA-RM-21-022 Transformative Research to Address Health Disparities and Advance Health Equity at Minority Serving Institutions (U01 Clinical Trial Allowed). The FOAs will support collaborative investigative teams or individual scientists who propose unusually innovative research projects, which, if successful, would have a major impact in developing, disseminating, or implementing innovative and effective interventions and/or strategies that prevent, reduce, or eliminate health disparities and inequities. Additionally, funding opportunity RFA-RM-21-022 is expected to increase the competitiveness of investigators and expand the research base dedicated to health disparities research at minority serving institutions. Research addressing community-prioritized research questions, cross-cutting issues such as social determinants of health across sectors, multiple levels and systems that contribute to health disparities, and/or priority areas of multiple NIH Institutes and Centers are particularly encouraged. Projects may include a formative observational component; however, each project is required to include an intervention component. To be considered transformative, projects should reflect ideas substantially different from mainstream concepts and have high potential to lead to major improvements in health through the development, implementation, or dissemination of highly innovative interventions to address health disparities and advance health equity. NIH staff intend to hold a Pre-Application Webinar for all interested prospective applicants. The webinar date and other details will be posted on https://commonfund.nih.gov/healthdisparitiestransformation. NIH staff will be available to answer questions related to these FOAs. Answers to Frequently Asked Questions are available at https://commonfund.nih.gov/healthdisparitiestransformation/faqs. All applications are due on May 28, 2021 by 5:00 PM local time of applicant organization. If you have questions about the FOAs, please email CFHealthDisparities@nih.gov. **Friday Newsletter 05/21/2021**

**Additional Information:** Dear Fellow Members of the Columbia Community, As we approach 2021, I write to update you about an important requirement for Spring Term 2021 SARS-CoV-2 Gateway testing. Effective January 4, 2021, a NEW gateway test is required for all faculty, staff, and students accessing Columbia campuses and other facilities. This includes individuals who have been on a campus throughout 2020 and who previously complied with the requirements of the gateway testing program. This gateway test must be administered by Columbia University’s COVID Testing Program starting January 4, 2021 through January 25, 2021. Due to our stringent quality and data management systems, the only acceptable tests will be conducted by Columbia's COVID Testing Program at one of our five approved testing sites (Monday to Friday in Morningside Lerner Hall & CUIMC Black Building Schaeffer Gallery; Select dates at West 51st St., Lamont Doherty Earth Observatory, or Tarrytown Columbia Doctors). Tests submitted from other locations, including NYP or WHS, will not be accepted. Access to all Columbia campuses and facilities via the ReOpenCU app (symptom checker app) and Columbia University ID card swipe system will only be permitted for those faculty, staff, and students who have completed the repeat gateway test requirement by January 25, 2021. Register for this gateway test online beginning December 23rd, 2020. The schedule opens 10-14 days in advance. During the gateway period, there will be more than sufficient schedule capacity in the Morningside and CUIMC locations to accommodate all those requiring testing; however, schedule availability in each site will depend on the demand for specific appointment dates and time slots. We encourage you to plan ahead, schedule in advance, and consider all testing sites if a particular date and time is preferred. For those who do not complete a new SARS-CoV-2 PCR test between January 4th and January 25th, access to the campuses and facilities will be reinstated within 48-72 hours of completion of a gateway test at an approved site. More information regarding the testing plan for the Spring Term can be found online. We thank you for your continuing commitment to participating in the University testing program and the steps you take each and every day to keep our community safe. With care for our community, Melanie J Bernitz, MD, MPH; Associate Vice President & Medical Director, Columbia Health; Associate Clinical Professor of Medicine (in the Center for Family and Community Medicine); More Information: covid19.columbia.edu

**Additional Information:** Notice of Intent to Publish -- Funding opportunity. RADx-UP [Rapid Acceleration of Diagnostics for Underserved Populations (RADxSM-UP)] Return to School Diagnostic Testing Approaches; https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-097.html ; The purpose of this Notice is to alert the community that NIH plans to publish a Research Opportunity (RO) as part of the Rapid Acceleration of Diagnostics for Underserved Populations (RADxSM-UP) initiative to solicit research on COVID-19 diagnostic testing approaches to safely return children and staff to the in-person school setting in underserved and vulnerable communities (NOT-OD-21-065). This open solicitation will be an opportunity to start new cohorts or approaches to gain data related to safe return to the in-person learning environment. A letter of interest will be required to be considered for the opportunity to participate in the Research Opportunity. Guidance on the development and submission of the letter of interest is available at the following web address: https://grants.nih.gov/sites/default/files/RADx-UP-LOI.pdf. The letters of interest will be reviewed by NIH staff and specific programs will be invited to submit and compete with full proposals. The letters of interest will be due by April 16, 2021, 5 PM local time of the applicant organization. The NIH will hold a webinar to review this research opportunity and the letter of interest requirements on Thursday, April 1, 2021 from 11:00 AM to 12:00 PM EST. Questions can be pre-submitted at RADx-UPR2Sinfo@nih.gov by 11:59 local time on Wednesday, March 31, 2021. **Additional Information:** An Update from the Columbia University Biobank (CUB) and COVID-19 research; This message is sent on behalf of the Columbia University Biobank (CUB) from Dr. Muredach Reilly, Director, Irving Institute for Clinical and...
Translational Research, and Dr. Michael Shelanski, Senior Vice Dean for Research, at the Columbia University Irving Medical Center.; For questions, contact: General questions: Danielle Pendrick, dp2657@cumc.columbia.edu ; Researchers can contact - PS-Officeforresearch@cumc.columbia.edu ; Participants can contact - CUBiobankCOVID19@cumc.columbia.edu ; As you will remember, the Columbia University Biobank (CUB) quickly pivoted in April 2020 in response to the urgent needs surrounding the coronavirus pandemic. Since then CUB has collected biospecimens from Columbia University Irving Medical Center/NewYork-Presbyterian Hospital (CUIMC/NYP) patients who tested positive for SARS-CoV-2, and re-distributed samples to researchers across campus. Currently we have over 90,000 biospecimens banked from more than 14,000 patients (both COVID-19 positive, and negative) including DNA, RNA, serum, plasma, urine, and other tissue samples. Given the number of patients treated for COVID-19 at CUIMC/NYP and the diversity of our patient population, Columbia’s COVID-19 biobank is arguably the largest and most distinct in the United States. Additionally, CUB has consented more than 2,400 patients for genomic research and future research studies to further advance our understanding of COVID-19 and its devastating clinical consequences.; Since our last update, whole exome sequencing data has been generated on more than 1,000 patients diagnosed with SARS-CoV-2, and is currently available in AWS for download with the appropriate IRB and CUB approvals. Host and virome RNA sequencing and microbiome data generation is ongoing, and will soon be available to investigators with CUB approval. We are also excited to announce that Dr. David Goldstein has partnered with Vanda Pharmaceuticals to perform whole genome sequencing on 1,000 CUB COVID+ patients. Once generated, this data will also be available to CUIMC researchers for their own analyses.; Dr. Krzysztof Kiryluk in the Department of Medicine is spearheading an effort to generate SARS-CoV-2 genome-focused clinical phenotypes, which will then be combined with sequencing data generated by the Institute for Genomic Medicine, into a single dataset that will be available centrally through CUB. We hope that this data will be useful to any Columbia investigator performing genetics and genomics analyses to address SARS-CoV-2-related research. Additionally, the CUB Clinical Phenotype Committee (CPC), led by Dr. Mitchell Elkind, has been established to oversee efforts related to the generation of broader COVID-19 clinical phenotypes. The CPC is multidisciplinary working group which includes experts from the Departments of Anesthesiology, Surgery, Pediatrics, Emergency Medicine, Biomedical Informatics, Obstetrics and Gynecology, and Medicine (Pulmonary, Cardiology, Nephrology and Transplant). The CPC has focused initial efforts on standardizing, validating, and refining core SARS-CoV-2 related phenotype definitions, which will be made widely available when completed.; As of October 2020, over 140 requests to the biobank were reviewed by the CUB Sample and Data Committee, and more than 22,000 samples have been disbursed to support a wide range of research studies across the CUIMC community. With assistance from Drs. Kevin Roth, Eldad Hod, and Susan Whittier in the Department of Pathology and Cell Biology, we are able to continue residual clinical sample collections, which will be critical as the coronavirus continues to spread.; While CUB has initially focused on COVID-19 due to obvious needs, it continues to look past the pandemic and begin University-wide recruitment efforts with multiple partners and across multiple domains towards the ultimate goal of enrolling all CUIMC/NYP patients. To this end, we are excited to be partnering with the IGM’s All of Us team. The Columbia University Biobank is now being offered to All of Us participants during their enrollment and retention activities. CUB looks forward to applying the lessons learned from the All of Us Research Program to the CUB recruitment efforts.; We encourage you to use the research resources offered through the CUB website.; As we enter another chapter in the COVID-19 pandemic and again brace ourselves for potential challenges ahead, it is with great thanks that we acknowledge the strength of the Columbia community. Having the Columbia University Biobank now in full operation will significantly benefit the vital research yet to come.; Stay safe, Muredach Reilly, MBCh; Director, Irving Institute for Clinical and Translational Research; Michael Shelanski, MD, PhD; Senior Vice Dean for Research; On behalf of the Columbia University Biobank

**Additional Information:** Postdoctoral Career Transitions Award to Promote Diversity (K99/R00); Dear NIEHS T32 Training Directors; NIEHS is reaching out to Principal Investigators who have grants which support diversity trainees at the postdoctoral level (either on T32 training grants or research grants) to make sure they are aware of this Pathways to Independence program specifically designed for them. This is the Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00). The MOSAIC K99/R00 program is designed to facilitate a timely transition of promising postdoctoral researchers from diverse backgrounds from their mentored, postdoctoral research
positions to independent, tenure-track or equivalent faculty positions at research-intensive institutions. The MOSAIC K99/R00 program will provide independent NIH research support before and after this transition to help awardees launch successful, independent research careers. Additionally, MOSAIC K99/R00 scholars will be part of organized scientific cohorts and will be expected to participate in mentoring, networking, and professional development activities coordinated by MOSAIC Institutionally-Focused Research Education Award to Promote Diversity Awards funded by the National Institute of General Medical Sciences. Health Research, Inc (HRI) and the New York State Department of Health (NYSDOH) Comprehensive Cancer Control Program are soliciting applications from organizations to conduct projects in support of the New York State Comprehensive Cancer Control Program and the work of the New York State Cancer Consortium (Consortium) action teams. The Consortium is a voluntary network of individuals and organizations that collaborate to address New York’s cancer burden. The Consortium recommends statewide and local interventions to: prevent skin cancer, promote the human papillomavirus (HPV) vaccine, promote programs and services to increase quality of life for cancer survivors, and prevent and promote early detection of colorectal cancer.

The purpose of this funding opportunity is to support local interventions to address the burden of cancer in communities and across the state. This funding will support awards, valued at $1,000 each to implement one of the six (6) community interventions listed in the attached solicitation.; Applications will be accepted beginning November 18, 2020, and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available.

Additional Information: Reminder - No Hyperlinks and URLs in NIH Proposals; This is a reminder that hyperlinks and URLs are not allowed anywhere in an NIH proposal unless specifically allowed in a funding opportunity announcement (FOA). If included, NIH may withdraw the proposal from consideration. See The Do's & Don'ts of Hyperlinks in Grant Applications, which provides further guidance.; The following is taken from the NIH formatting instructions.; Hyperlinks and URLs are only allowed when specifically noted in funding opportunity announcement (FOA) and form field instructions. The use of hyperlinks is typically limited to citing relevant publications in biosketches and publication lists. It is highly unusual for a FOA to allow links in Specific Aims, Research Strategy and other page-limited attachments.; Hyperlinks and URLs may not be used to provide information necessary to application review.; Reviewers are not obligated to view linked sites and are cautioned that they should not directly access a website (unless the link to the site was specifically requested in application instructions) as it could compromise their anonymity.; When allowed, you must hyperlink the actual URL text so it appears on the page rather than hiding the URL behind a specific word or phrase.; Examples: NIH http://www.nih.gov.; Related Announcements: NOT-OD-20-061 - Updated Guidance for Videos Submitted as NIH Application Materials; NOT-OD-12-141 - Interim Guidance for Videos Submitted as NIH Application Materials

**Additional Information:** Rascal IRB 2.1 Open Hours - Last Call!; Dear Members of the Columbia Research Community, The Columbia University Human Research Protection Office (HRPO) released an updated version of the IRB module in Rascal, “Rascal IRB 2.1”, on September 20. The majority of the changes affect the “review” side of Rascal. However, there are some changes on the “researcher” side that you should be aware of. These are presented in the Rascal IRB 2.1 training video for researchers that is accessible to you on the main Rascal IRB page www.rascal.columbia.edu/irb via the link labeled “New Rascal 2.1 updates! View tutorial here”; The last of our “open” hours was hosted on Zoom on Thursday, October 15. Rascal 2.1 questions [were fielded], or any other questions you have about the IRB process. If you are unable to attend this session, then we welcome your questions during our Monthly Investigator Meeting next week on October 22nd. Event details will be sent out soon.; If you are experiencing issues with any of the new functions in Rascal, please send an email to rascal@columbia.edu.; Thank you for all your efforts in this process, as we continue to improve the efficiency and quality of the Human Research Protection Program here at Columbia.; Best regards, Rascal IRB 2.1 Planning Team

Sponsor: the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights

Deadline(s): Open until filled

Contact: scienceandsociety@columbia.edu

[Link(s):](https://scienceandsociety.columbia.edu/content/call-applications-enhance-learning)

Additional Information: CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching; Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.; Eligibility: All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.; Amount: Funding of up to $1,500 per proposal is available.; Deadline: Applications for the grants are open via rolling submission throughout the 2020-21 academic year.; Description: With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task. ; To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to
class dynamics, ideas, and opportunities. Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc. We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply. Best, Jozef; [brought to our attention by] Jozef Sulik; Senior Project Manager; Presidential Scholars in Society and Neuroscience; The Center for Science and Society; Columbia University in the City of New York; presidialscholars.columbia.edu; sciencesociety.columbia.edu

**Additional Information:** [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS).

Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; **eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020;** As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects.

Users with records currently in progress will need to modify the records to meet new FORMS-F requirements; The changes listed below include items released by eRA in March and items released on June 13; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1; **Figure 1: Inclusion Enrollment Report Title Field;** [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change; [*] Question 1.4.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2; **Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record;** [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant;’ [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA;’ [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3; **Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report;** [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4; **Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report;** [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116; For more information, see: [*] Entering Inclusion Data Using the
Participan Level Data Template (video and transcript); Participant-level Data Template; [*] The eRA Human Subjects System (HSS) information page; [*] Information about the PHS Human Subjects and Clinical Trials Information form; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? Please contact the eRA Service Desk. Check out self-help resources on the Help page before submitting an online ticket; or call Toll-free: 1-866-504-9552, Phone: 301-402-7469. Additional Information: Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F” ; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development

Training Grant RPPRs and Survey

**Sponsor:** SPA/HICCC

**Deadline(s):** 10/01/2020 (Release Date)

**Contact:** [brought to our attention by Stephanie Scott, SPA], sfs2110@cumc.columbia.edu ; If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu ; For inquiries concerning the policy described in the NOT-OD-20-178 Notice, contact: NIHTrain@mail.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html

https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKJMHhJOq5kp

**Additional Information:** Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKJMHhJOq5kp ; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPPR with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKJMHhJOq5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our meeting on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will
allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html ; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@columbia.edu ; Thank you!; Stephanie F. Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

Sponsor: National Institutes of Health

Deadline(s): This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-
page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.

The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Additional Information:

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.
If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

**Sponsor:** RWJF  
**Deadline(s):** Open  
**Contact:** pioneeringideas@rwjf.org  

**Additional Information:**  
What can we do today to create a better, more equitable tomorrow? Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work. Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come. We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible. Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

But the financial benefits of these often flow elsewhere, in reduced costs for medical care from diseases and injuries prevented. Can better collaboration help balance this out and help halt the inequities baked into the current system? RWJF’s Systems for Action program seeks proposals to measure the impact of collaborations across medical, social, and public health systems that allow organizations to better share in the costs, benefits, power and influence that govern these initiatives. Grants, up to $500,000 each, are available for research to evaluate solutions to these persistent problems; Learn more about eligibility and selection criteria >; Want to know more? Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

Sponsor: National Institutes of Health (NIH); Agency for Healthcare Research and Quality (AHRQ); The National Institute for Occupational Safety and Health (NIOSH)

Deadline(s): For applications submitted for the January 2021 council (beginning with applications submitted for the May 25, 2020 due date for Fall 2020 review meetings), the NIH, AHRQ, and
NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page

NIH eSubmission Items of Interest - July 31, 2018

Additional Information: NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowships applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention; I highlighted what I thought were the key points below. [brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it’s a real thing. And, why shouldn’t it be! I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new “daddy.” “She’s two dogs long and one dog tall and looks like she’s made from spare parts,” Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn’t going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn’t trade her for the world; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I’ve at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you’ll find this edition to have an interesting mix … not unlike your favorite mutt.; Where Do I Put the Information I Know You’d Want, But Didn’t Ask For?; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, there are page limits you must stay within to convey the requested information.; If you have information that doesn’t fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn’t have a “natural home” based on our instructions, don’t include it.; There are several form fields with tempting names like "Appendix," "Other Attachments," “Other Requested Information,” and “Other Clinical Trial-related Attachments.” DO NOT use those fields unless requested to do so in the application guide or announcement.; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn’t belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them NOT-OD-11-080.; The Duplication Balancing Act: The application guide statement “do not duplicate information...
between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form” appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a “Brief Summary” of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don’t want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it isn’t just extra space to expound on the research strategy). The Brief Summary in the Protocol Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible.; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.; Space-Fill Compulsion: My mother, an interior designer, never saw a horizontal surface that while composing; all informed consent documents, reporting support the majority of clinical trials. Consequently, all Fellowship; fellowship; reporting requirements associated with a clinical trial. In addition, them. The career stage of a fellow may not yet align with the encourage fellows to receive training in clinical research, including information.;; Less is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship; opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves.; Dog Days of Summer: “Be the person your dog thinks you are.”; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminsas@mail.nih.gov

NIH Guide Notice on Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) **Registration and Reporting:** NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic.; (*) **Funding Opportunity Announcements (FOAs):** NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019.; (*) **The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E):** they still expect that form for all applications involving prospective basic science studies.; (*) **Good Clinical Practice (GCP) training:** is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training through the competition in Rascal through Course TC3450. For more information, see https://research.columbia.edu/content/good-clinical-practice-training or email NIH-GCP@columbia.edu.; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. NIH issued the following Guide Notice this morning. Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants. As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency’s definition of “clinical trial” to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input “on registration and results reporting standards best suited for prospective basic science studies involving human participants.” The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study-type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates that the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details.; Lisa Nichols, Ph.D.; Council on Governmental Relations; 1200 New York Avenue, N.W., Suite 460; Washington, D.C. 20005; lnichols@cogr.edu; 202-289-6655

See https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-137.html. The effective date of this increase is January 7th, 2018.; NIH has not received the final Fiscal Year (FY) 2018 appropriation and is operating under a continuing resolution through March 23rd, 2018 (see NOT-OD-18-136 also a very important notice). However, NIH issued this guidance until a budget is passed.; In summary, this is how the $189,600 salary cap can be applied: (*) NIH proposal budgets may be submitted using the new cap; (*) Active NIH awards may rebudget to the new cap if restricted to Executive Level II, and adequate funds are available, and the salary cap increase is consistent with the institutional base salary. The new
cap should be prorated for the applicable months: (***) Cap is $187,000 through 1/6/18; (***) Cap is $189,600 from 1/7/18 – present; If you have any questions, please feel free to reach out to your SPA Project Officer. **Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time...

NIH single IRB (sIRB) policy

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after) 01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/approvals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites.; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the "same research protocol." Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the "same research protocol."; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); [https://research.columbia.edu/content/nih-proposal-information](https://research.columbia.edu/content/nih-proposal-information); As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by] Stephanie F. **Additional Information:** HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements: **Status of the Revised Common Rule:** The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information... ; **Revised Policies:** Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!: **Revised Standard Operating Procedures (SOPs):** Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; **Process for Implementing the NIH Single IRB Policy:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be access here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; **Upcoming HRPO Education Sessions:** Monthly IRB-Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; **We want to hear from you:** Please send us your questions as well as suggestions for topics for future education sessions; We look forward to hearing from you!; [https://research.columbia.edu/irb](https://research.columbia.edu/irb); Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu; Columbia | Research Human Research Protection Office; Institutional Review Boards

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission. ; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization.; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. ; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original.; Hope you have a great holiday season!; Sheri; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Additional Information: I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my

**Additional Information:** Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, *Update: NIH FOAs with FORMS-E,* Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post.; **Key takeaways:** (*) If any part of your study (the specific aims, components, studies, etc) meets NIH's definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “Clinical trials not allowed” or “Clinical trials optional”; (*) The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully.; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.”; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA.; [brought to our attention by] Stephanie Scott, sfs2110@cumc.columbia.edu

Additional Information: [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports.; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R2, and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the

NIH Drops “Grant Support Index” Proposal; Adopts an Even Larger Initiative to Support Early- and Mid-Career Investigators

**Sponsor:** NIH

**Deadline(s):** NA

**Contact:** NA

**Link(s):** [publicinput@od.nih.gov](mailto:publicinput@od.nih.gov)

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years. Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates).; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates).; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

Additional Information: Please also note the highlighted final research report requirement below; Several updates to ASSIST happened [01.19.17], you can read about those updates below.; In addition, you may recall that NIH now requires the use of a Final Research Performance Progress Report (FRPPR). See NOT-OD-17-022. Section D.1 in the Participants section will now be included.
per the email below regarding eRA Commons updates; I’ll need to provide more information on the FRPR separately. It appears NIH just posted some FAQs on the FRPPR and Interim RPRR. See https://grants.nih.gov/grants/rppr/faqs.html#5038. I’ll provide a separate email with this information; Should you have any questions, please feel free to reach out to your SPA Project Officer. [brought to our attention by] Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system.; Highlights of ASSIST’s January Software Release; (*) New Access Maintainer Role; (**) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS).; (**) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization.; (**) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (**) Access Management within ASSIST for individual applications has not changed.; (**) Multi-Employment Functionality; (**) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (**) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the “Select” button.; (**) New Link for SOs from ASSIST to Commons Status Screen; (**) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page.; (**) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed.; (**) This link is only available to Signing Officials.; (*) A Warning if Appendix Material is Submitted in Applications; (**) Per the policy outlined in NOT-OD-16-129, the submission of most appendix materials has been eliminated from NIH applications.; (**) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (**) Form Lock Message Includes User Name; (**) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (**) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock.; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (**) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included.; (**) S. Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (*) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a] provided picture has been linked at; https://r2eport.files.wordpress.com/2014/04/nihannouncemcetmpinpdfformat.pdf; New Status Information screen with some sections expanded, other collapsed; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; (§) Expand All (default view) and Collapse All buttons show and hide the information on the screen; (*) New Text Filter; (§) A new field will allow you to enter text and display the results on those sections with matches; (§) Matching text will be highlighted, allowing you to quickly locate the information; (*) Important information is displayed along the left side: (§) Warnings; (§) Contact information; (**) Scientific Review Officer (SRO); (**) Grants Management Specialist (GMS); (**) Program Official (PO); (§) Latest Updates; (§) eRA Service Desk contact information; (**) New Print Capabilities; (§) New formatting capabilities allow you to print all the information with the click of a single button; (§) Organized by category; (§) Includes warnings; (§) Includes NIH contacts; NOTE: The ability to submit help tickets online will not be available during the downtime listed above.; Joe Schumaker; eRA Communications; Division of Communications and Outreach; NIH Office of Extramural Research; Questions? **Additional Information:** Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc); Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html). Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by] Stephanie Scott, CPA Communications and Outreach Director, sfs2110; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

Notice to Extend Eligibility for Submission to PAR-19-371, NIAID Career Transition Award (K22 Independent Clinical Trial Not Allowed) due to COVID-related Disruptions

**Sponsor:** National Institute of Allergy and Infectious Diseases (NIAID)

**Deadline(s):** Standard dates; Standard AIDS dates: 01/08/2022 (Expiration) [for PAR-19-371]; Though subject to future updates, NIAID now will provide at least a 2-receipt cycle extension (roughly 8 additional months) of eligibility for individuals whose eligibility to apply for the K22, under normal eligibility rules (including the resubmission policy as defined in NOT-OD-18-197), is expiring between June/july 2020 and February/March 2021 (inclusive of these dates). In addition, those who normally would have been eligible to apply for the June/July 2021 receipt date will have a 1-receipt cycle (roughly 4 months) extension.

**Contact:** Please direct all inquiries to: Deborah Philp, Ph.D.; Office of Research Training and Special Programs; National Institute of Allergy and Infectious Diseases (NIAID); Email: AITrainingHelpDesk@niaid.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-197.html

**Deadline(s):** Standard dates; Standard AIDS dates: 11/15/2022 (Expiration) [for PAR-19-343]; Under normal circumstances, individuals must have no more than four years of postdoctoral research experience to be eligible to apply for the MOSAIC Postdoctoral Career Transition Award to Promote Diversity. The purpose of this Notice is to inform the extramural community that due to disruptions caused by the COVID-19 pandemic, the NIH will be providing up to a two-receipt date cycle extension of eligibility (roughly eight additional months) for prospective applicants meeting the requirements for submission of a K99/R00 application from the time period covered by the June/July 2020 receipt date cycle extension of eligibility.

The
virus has been linked to a spike in cases of microcephaly—an abnormally small head resulting from an underdeveloped or damaged brain—among newborn babies; a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Message from President Bollinger relative to Ebola; Sponsor: Columbia University; Deadline(s): NA
Contact: If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; Link(s): If you or anyone has any concerns, please visit the University's Ebola Preparedness site or the New York City Department of Health Ebola update page.;

Additional Information: Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

The Columbia University Medical Center IRB Office has a standing "IRB Consultation Hour". This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. **NEW ITEMS FROM THE NIH**

**NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;**

**Sponsor:** NIH eRA Commons IDs and Complete Profiles;

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;

**Link(s):** eRA Commons Manage Personal Profile;

**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at eBiz@columbia.edu.

**Additional Information:** The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; Stephanie F. an amendment to its subaccount implementation plan to delay the transition of domestic, non-competitive continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants_guide/notice-files/N0T-OD-14-103.html#sthash.0i3doSVZ.dpuf; http://grants.nih.gov/grants_guide/notice-files/N0T-OD-14-103.html#sthash.q3dTkmY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

**NIH-Investigators New Policy on Fly America Act;** Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are
specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC
