[NTW] [RESEARCH SUPPORT SERVICES]
Update on Research Support Services, Spring 2018: we are pleased to expand the Research Support Services to also include resubmissions of otherwise eligible R01, P, K, Center and T32 grants (if the services have not yet been utilized)

**Sponsor:** Mailman School

**Deadline(s):** relative to upcoming NIH Grant Submission Deadlines: 5 weeks prior to submission deadline (Inform R2 of intent to utilize services); 4 weeks prior to submission deadline (science draft for external review); 2 weeks prior to submission deadline (submission for editing services)

**Contact:** Pam Factor-Litvak (Associate Dean, Research Resources, and Professor of Epidemiology) prf1@columbia.edu; Craig Kandell (Project Coordinator, Research Resources) ckk7@columbia.edu

**Link(s):** https://r2eport.files.wordpress.com/2015/05/updateofgrantsupportservicesspring2018gpdf.pdf

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.
If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,
Pam Factor-Litvak

**Additional Information:** A -- Naval Medical Research Unit Two (NAMRU-2) Southeast Asia Biosurveillance and Epidemiology Research (SABER) II IDIQ SOL N6264518R0046 DUE 061118 POC Thomas L. Hood, Phone 3016198894, Email thomas.l.hood26.civ@mail.mil  

The Naval Medical Logistics Command (NMLC) on behalf of The Naval Medical Research Unit Two (NAMRU-2) has a requirement for a Single Award Indefinite Delivery/Indefinite Quantity (ID/IQ) contract (anticipated to be FFP and CPFF Task Orders) for Biosurveillance and Epidemiology research support services in Southeast Asia, NAMRU-2, headquartered in Singapore with its main laboratory in Phnom Penh, Cambodia, is at the forefront of the U.S. Department of Defense (DoD)'s disease surveillance and response efforts in the PACOM Area of Responsibility (AOR). Within the context of its ongoing biomedical infectious diseases research activities, NAMRU-2 is well-positioned to evaluate novel diagnostics products and therapeutic interventions, test disease control strategies and to develop local expertise via training. In consonance with its mission, NAMRU-2 requires contractor services to support the development, performance and management of research and clinical activities across the Southeast Asia (SEA) region in collaboration with US government, biotech and host-country partners. The contractor shall provide research support services to include: 1) provide management between the US Government and potentially foreign personnel located at the client's site; and 2) assist in the design and execution of field and laboratory research related to emerging and re-emerging infectious diseases. The latter may include but not be limited to: (a) collection of samples and specimens under biosurveillance and research protocols (e.g., drawing of blood), (b) collection of vectors and reservoirs of disease (including taxonomy and identification of said vectors) for entomology/vector studies, (c) laboratory diagnoses and characterization of samples and specimens, (d) in vitro and in vivo studies (e) laboratory assay development, (f) proposal and protocol writing, (g) diagnostic testing and pathogen characterization; evaluation of vector control, vaccine and therapeutic countermeasures, (h) development and maintenance of data repositories containing information from the aforementioned, (i) performance of epidemiological research using as a basis the aforementioned, and (j) safety maintenance of personnel involved with research (e.g., personnel medical physicals, laboratory tests, vaccine injections, etc.). The Government envisions a single award ID/IQ contract, in which Task Orders will be issued for specific services. The services required are non-personal in nature and will be performance based. The contract is will consist of a base and four option periods. The guaranteed minimum is anticipated to be $25,000.00; This is not a new requirement. The incumbent contractor is Vysnova Partners Inc. and the legacy contract number is W911QY-16-D-0058. If for any reason there are no successful proposals, the Government reserves the right to re-open the solicitation. This requirement is a full and open competition with no set-asides. The requirement is being solicited IAW FAR Part 15.; A solicitation will be posted on or about 11 May 2018 to FBO.gov. Solicitations are to be downloaded from FBO.gov and no solicitations will be mailed. All proposals shall be submitted per the instructions in the solicitation.; Please email any questions to thomas.l.hood26.civ@mail.mil and roger.k.batchelor2.civ@mail.mil. No phone calls or faxes will be accepted. The Government reserves the right to change any of this information.; CITE: https://www.fbo.gov/spg/DON/BUMED/N62645/N6264518R0046/listing.html

Additional Information: DoD CDMRP PASA Consortium Funding Opportunities Released; Pharmacotherapies for Alcohol and Substance Abuse (PASA) Consortium; Congressionally Directed Medical Research Program; Alcohol and Substance Abuse Disorders Research Program; Research Funding Opportunities; The goal of the PASA Consortium is to fund study applications for developing new medications that can be brought to therapeutic use to improve treatment outcomes for alcohol and substance use disorders (ASUD), especially as related to post-traumatic stress disorder (PTSD) and traumatic brain injury (TBI). The two upcoming Research Funding Opportunities are focused on: [1] Request for Application (RFA) #3a: Small-cost and short-duration planning grants awarded to investigators concerning a specific compound or combination of compounds; [2] Request for Application (RFA) #3b: Full study implementation awards for either: (a) Conduct of proof-of-principle basic research to determine which compounds are most appropriate for human research trials; or (b) Conduct of human proof-of-concept trials with promising compounds. The human trials must be ready-to-implement as defined in the RFA.; The RFAs are available from the PASA Consortium website at: https://pasa.rti.org/About/Grant-Program; The PASA Consortium is administered by a Management Core led by RTI International in collaboration with the Baylor College of Medicine. The Management Core is responsible for soliciting and prioritizing applications. Successful applications will be selected by a Government Steering Committee formed by the U.S. Department of Defense. The Management Core will provide oversight and coordination for future proof-of-principle basic research studies and proof-of-principle human clinical trials supported by the Consortium. The Management Core will provide the administrative, protocol development and review, regulatory, statistical, resource, and data management/storage functions necessary to facilitate rapid development of research that would perhaps not otherwise be feasible without the Consortium approach. The Management Core contains multidisciplinary expertise and experience in support of ASUD research. The Management Core will coordinate the regulatory strategy for FDA compliance, in collaboration with the industry sponsor, leading to potential product development and licensing. Additional information about PASA is available on its website: https://pasa.rti.org/; Award Mechanism: RFA #3a; Planning Grants; Subcontract; Eligibility: Independent investigators; at all academic levels; (or equivalent); Key Mechanism Elements: Small-cost and short-duration planning grants may be awarded to an investigator concerning a specific compound or combination of compounds. These grants are designed to determine the clinical development plan (CDP) needed to advance the compound to FDA approval for ASUD treatment through a series of studies, some of which might be funded through the PASA Consortium. Preference will be given to compounds that have potential value to a pharmaceutical company to gain support for final development by the company. Participation in the grant by a company will be highly valued.; Funding & Period of Performance: Maximum total costs of $30,000; Maximum period of performance is 6 months; Award Mechanism: RFA #3b; Full study implementation awards; Subcontract; Eligibility: Independent investigators at all academic levels (or equivalent); Key Mechanism Elements: Letter of intent to submit and a pre-submission teleconference with the PASA Management Core is required.; Awards will be made in three areas; [1] Basic Research: Discovery of new medications for ASUD and PTSD can greatly benefit from animal models of these disorders. Medications can reduce the aberrant behaviors in these models of PTSD and ASUD and potential dosages of these medications can be estimated for human studies.; [2] Phase 1 Trials: Phase 1 studies involve medical safety assessments and some surrogate markers of clinical efficacy in ASUD possibly with comorbid PTSD. Studies might examine the effects of administering alcohol, some other abused drug, while taking a new medication(s). Studies of PTSD may examine the ability of a new medication(s) to reduce symptom expressions in human models of PTSD.; [3] Phase 2 Trials: The goal of these trials is to determine if there is sufficient evidence of efficacy to support moving forward with formal Phase 3 clinical trials and, if so, to
inform the study design and sample size needs of the Phase 3 trial.; **Funding & Period of Performance**: Maximum total costs of: Basic Research: $275,000; Phase 1 Trials: $700,000; Phase 2 Trials: $3,000,000; Maximum period of performance: Basic Research: 12 months; Phase 1 Trials: 18-24 months; Phase 2 Trials: 28-32 months

Update on Research Support Services

**Sponsor:** Mailman School

**Deadline(s):** relative to upcoming NIH Grant Submission Deadlines: 5 weeks prior to submission deadline (Inform R2 of intent to utilize services); 4 weeks prior to submission deadline (science draft for external review); 2 weeks prior to submission deadline (submission for editing services)

**Contact:** Pam Factor-Litvak (Associate Dean, Research Resources, and Professor of Epidemiology) prf1@columbia.edu; Craig Kandell (Project Coordinator, Research Resources) ckk7@columbia.edu

**Additional Information:** Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.
• **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services are limited to first-time submissions of R01, P, K, Center, or other complex NIH proposals by full-time faculty with primary appointments in the School. For other grant types and resubmissions, Research Resources is available to provide feedback.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prfl@columbia.edu.

Best wishes,
Pam Factor-Litvak

**NIH single IRB (sIRB) policy**

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after)
- 01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); [https://research.columbia.edu/content/nihsingle-irb-policy-information.html](https://research.columbia.edu/content/nihsingle-irb-policy-information.html); **As always,** feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by Stephanie F. **Additional Information:** HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements. **Status of the Revised Common Rule:** The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation. The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information; **Revised Policies:** Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy; **Revised Standard Operating Procedures (SOPs):** Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval. **Process for Implementing the NIH Single IRB Policy:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at [askirb@columbia.edu](mailto:askirb@columbia.edu) if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be accessed here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy; **Upcoming HRPO Education Sessions:** Monthly IRB Investigation Monthly Meetings; (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you! Please send us your questions as well as suggestions for topics for future education sessions; We look forward to hearing from you!;

**Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; *Stephanie Scott* Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants?; (2) Are the participants prospectively assigned to an intervention?; (3) Is the study designed to evaluate the effect of the intervention on the participants?; (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm.; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm.; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy
changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHD Trials@nih.gov; Doing human subjects research? https://grants.nih.gov/grants/guide/parent_announcements.htm

**Additional Information:** Update: NIH FOAs with FORMS-E; For those of you planning to submit NIH proposals in February, NIH has re-issued the Funding Opportunity Announcements (FOAs) for the Parent R01, R03, R21, and most Career Development Awards (K-series) with FORMS-E to be used with application due dates January 25th, 2018 or later. Before initiating an application package, you must first determine whether the study meets the definition of a clinical trial, and then select the appropriate FOA: https://grants.nih.gov/grants/guide/parent_announcements.htm; If submitting an application with a due date before January 25th, 2018 (such as an AIDS-related application due January 7th), you must select an opportunity that supports FORMS-D. For example, if preparing an R01 application: (*) Use PA-16-160 (FORMS-D) for the January 7th, 2018 AIDS-related deadline. (*) Use PA-18-345 (FORMS-E) for the R01 clinical trial February 5th deadline.; (*) Use PA-18-484 (FORMS-E) for an R01 application that is NOT a clinical trial due February 5th.; Due to the complexity of FORMS-E, in particular the new PHS Human Subjects and Clinical Trials Information Form, we very strongly suggest that you submit your proposals early to SPA and encourage submission five business days prior to the NIH deadline.; We have begun testing the new forms in both ASSIST and InfoEd. Further guidance will be provided soon. Please feel free to reach out to me, or your assigned SPA Senior Project Officer, with questions. We will continue to update you.; For more information on the release of Parent Announcements, see NIH Plans for Clinical Trial Specific Parent R01 and Parent R21 Funding Opportunity Announcements.; [brought to our attention by] Stephanie F. **Additional Information:** Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E; Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post, Key takeaways: (*) if any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “Clinical trials not allowed” or “Clinical trials optional”; (*) “The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully.”; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.”; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA.; [brought to our attention by] Stephanie Scott, sfs2110@cumc.columbia.edu

[Grant Review Submission Form; submit to Craig Kandell via email at ckk7@columbia.edu]

https://2report.files.wordpress.com/2014/04/mailmanschoolsubmissionformweb_08-15-17a.docx
Additional Information: [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed to Faculty]; Dear Mailman School faculty, in acknowledgement of the increasingly competitive federal funding environment, the School's administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R; and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports; (* To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline, 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks)] the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline, 09/21/2017 - 09/25/2017], and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)

**Sponsor:** Sponsored Projects Administration

**Deadline(s):** NA, FY2018 Announcements, brought to our attention on 07/06/2017

**Link(s):** [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates)  

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates).; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates); Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

Dear ACD Colleagues, Today, NIH issued an NIH Director’s Statement and launched a new webpage on the Next Generation NIH Researchers Initiative Web Page [brought to our attention by the Friday Newsletter 06/29/18]

A Potential, New NIH Policy that Stands to Affect all PIs: NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

Additional Information: Please also note the highlighted final research report requirement below: Several updates to ASSIST happened [01.19.17], you can read about those updates below; In addition, you may recall that NIH now requires the use of a Final Research Performance Progress Report (FRPPR). See NOT-OlD-17-022. Section D.1 in the Participants section will now be included, per the email below regarding eRA Commons updates; I’ll need to provide more information on the FRPPR separately. It appears NIH just posted some FAQs on the FRPPR and Interim RPPR. See https://grants.nih.gov/grants/rppr/faqs.htm#5038. I’ll provide a separate email with this information; Should you have any questions, please feel free to reach out to your SPA Project Officer; [brought to our attention by Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system; Highlights of ASSIST’s January Software Release; (*) New Access Maintainer Role; (**) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (**) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization; (**) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level; (**) Access Management within ASSIST for individual applications has not changed; (*) Multi-Employment Functionality; (**) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application; (**) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the "Select" button; (**) New Link for S0s from ASSIST to Commons Status Screen; (**) When S0s access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page; (**) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed; (**) This link is only available to Signing Officials; (**) A Warning if Appendix Material is Submitted in Applications; (**) Per the policy outlined in NOT-OlD-16-129, the submission of most appendix materials has been eliminated from NIH applications; (**) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application; (**) Form Lock Message Includes User Name; (**) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same...
form.; (***) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (***) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included; (***) § Section D.1 asks "What individuals have worked on the project?" This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award; (*) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a provided picture has been linked at]; https://r2eport.files.wordpress.com/2014/04/nihannouncementtpicnpdfmat.pdf; New Status Information screen with some sections expanded, other collapsed; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; ($) Expand All (default view) and Collapse All buttons show and hide the information on the screen; (*) New Text Filter; ($) A new field will allow you to enter text and display the results on those sections with matches; ($) Matching text will be highlighted, allowing you to quickly locate the information; (*) Important information is displayed along the left side; ($) Warnings; ($) Contact information; (*) Scientific Review Officer (SRO); (*) Grants Management Specialist (GMS); (*) Program Official (PO); ($) Latest Updates; ($) eRA Service Desk contact information; (*) New Print Capabilities; ($) New formatting capabilities allow you to print all the information with the click of a single button; ($) Organized by category; ($) Includes warnings; ($) Includes NIH contacts; NOTE: The ability to submit help tickets online will not be available during the downtime listed above; Joe Schumaker; eRA Communications; Division of Communications and Outreach; NIH Office of Extramural Research; Questions? Who At NIH Can Answer my Question About….?

Sponsor: NIH
Deadline(s): NA (Announcement/Information)
Contact: Please see posting for individual contact links
Link(s): https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm

Additional Information: Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer; [brought to our attention by] Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Columbia | Research; Sponsored Projects Administration; Phone: (212) 854-0606; Cell Phone: (646) 248-8573; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/
rate is primarily driven by the significant increase in medical costs the University has experienced over the past year; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of

Additional Information: Please pass this on to anyone you know who may be preparing an NIH individual fellowship application (pre- or postdoc); Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by Stephanie Scott, SPA Communications and Outreach Director, sfsc110]; NIH Fellowship applicants, I’d like to bring two issues to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

**Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH “Open Mike” Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;**

**Sponsor:** NIH; Extramural Nexus Blog;

**Deadline(s):** 01/25/2016; effective for applications submitted on or after January 25, 2016;

**Contact:** Please see appropriate links;

**Electronic Research Administration:** [https://era.nih.gov/](https://era.nih.gov/);

**Additional Information:** Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph: We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016; (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates on May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D;

**Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;**

**Sponsor:** National Institutes of Health;

**Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for
the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov
Link(s): http://grants.nih.gov/grants/guide/notices.htm;
Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH's Advisory Committee to the Director's Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards;

NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdrm@mail.nih.gov
Link(s): http://grants.nih.gov/grants/guide/notices.htm;
Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact);
Link(s): http://grants.nih.gov/grants/guide/notices.htm;
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible). Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration;
Inclusion of Children in Clinical Research: Change in NIH Definition;
**Sponsor:** National Institutes of Health;
**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
**Additional Information:** The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH's long-standing policy has been that children must be included in all human subjects' research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects' research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification. **What’s Changing:** Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; **Reason for Change:** Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
**Deadline(s):** NA Release Date: 10/09/2015;
**Contact:** Please direct all inquiries to: reproducibility@nih.gov;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-011.html;
**Additional Information:** This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015;

Dear All,

The federal fringe rate has changed from 30.5% to 27.1% for FY16. Please see below for details. This new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, you can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter. As always, feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu if you have specific questions concerning InfoEd.

COLUMBIA, RESEARCH RESOURCES AND SPA ANNOUNCEMENTS
I am pleased to write today to announce the Fall 2016 awardees of the Junior Faculty Diversity Grants. Grantees were selected through a competitive process, with all applications reviewed by a committee of faculty from both the Morningside and Medical Center campuses. This most recent round of funding follows seven prior rounds of support from this program.

The Provost’s Grants Program for Junior Faculty Who Contribute to the Diversity Goals of the University is a key component of Columbia’s ongoing commitment to maintaining a diverse and thriving faculty body. I am pleased to write today to announce the Fall 2016 awardees of the Junior Faculty Diversity Grants program. Grantees were selected through a competitive process, with all applications reviewed by a committee of faculty from both the Morningside and Medical Center campuses.

Here is the list of Fall 2016 awardees of the Junior Faculty Diversity Grants:

You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized — that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; Stephanie F. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, PO1, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/.

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics related to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. Prior Announcement: As the next NIH deadline for Predoctoral (F31) and Postdoctoral (F32) Fellowship applications approaches August 8th, I wanted to take this opportunity to remind applicants, their mentors, and administrators of the new “Additional Educational Information” document required in the applications. All applications lacking this attachment will be considered incomplete and will not proceed to review. Please refer to the following notices regarding this new requirement: NIH Notice of Clarification (F31s); NIH Notice of Clarification (F32s); FAQs for Fellowships; Columbia University’s Office of Postdoctoral Affairs (OPA) provides template language you can include in the “Additional Educational Information” document for F32s. This language can be obtained from the OPA website at http://www.postdocs.columbia.edu/funding.html. If you have any questions regarding this new requirement, please contact your SPA Project Officer. Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sf2110@columbia.edu; Website: http://spa.columbia.edu/

RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.
Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at eBiz@columbia.edu.

Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year's funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at eBiz@columbia.edu.

NIH eSubmission Items of Interest

From Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects Administration (SPA); "NIH eSubmission Items of Interest" (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - "If you could tell the applicant community one thing about application submission what would it be?" I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in...
the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application – that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPAdBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-082. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce

Posted on June 6, 2014 by Sally Rockey

Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. ... Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. ... Continue reading →
NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html. I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a
The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**Deadline(s):** Please see individual program announcements  
**Contact:** Please see individual program announcements  
**Additional Information:** JUST RELEASED! FY16 DOD BCRP, PRP, PRARP and ERP Program Announcements; This e-mail is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities for the Department of Defense (DOD) Breast Cancer Research Program (BCRP), Parkinson's Research Program (PRP), Peer Reviewed Alzheimer's Research Program and Epilepsy Research Program (ERP) managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Breast Cancer Research Program; Breakthrough Award Levels 3 and 4; NOTE: A Breakthrough Award Levels 1 and 2 Program Announcement will be released in late August 2016.; Parkinson's Research Program (formerly known as the Neurotoxin Exposure Treatment Parkinson's Research (NETPR)); Focused Idea Award; Impact Award; Peer Reviewed Alzheimer's Research Program; Convergence Science Research Award; Quality of Life Research Award; Epidemiology of Military Risk Factors Research Award; Translational Research Partnership Award; Epilepsy Research Program; Idea Development Award; Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org); all CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil/); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PI's to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; Please do not respond directly to this message. **Link(s):** http://cdmrp.army.mil/funding/prcrp.shtml  
**Additional Information:** Defense Health Program; Department of Defense Peer Reviewed Cancer Research Program; Funding Opportunities for Fiscal Year 2016 (FY16); The FY16 Defense Appropriations Act provides $50 million (M) to the Department of Defense Peer Reviewed Cancer Research Program (PRCRP) to support innovative, high-impact cancer research. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency, Research, Development, and Acquisition (DHA RDA) Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP); FY16 PRCRP Program Announcements and General Application Instructions for the following award mechanism is posted on the Grants.gov website.; Congressionally Directed Topic Areas: To be considered for funding, applications for the FY16 PRCRP must address at least one of the Topic Areas as directed by Congress. Research applications in the areas of breast, prostate, lung (excluding mesothelioma), or ovarian cancer will not be accepted.; The FY16 PRCRP Topic Areas are: Bladder cancer (New for FY16); Liver cancer; Pancreatic cancer; Colorectal cancer; Lymphoma (New for FY16); Pediatric Brain Tumors (New for FY16); Immunotherapy* (New for FY16); Melanoma and other skin cancers; Stomach cancer; Kidney cancer; Mesothelioma; Listeria vaccine for cancer; Neuroblastoma; *As derived from the National Cancer Institute Dictionary of Cancer terms: Immunotherapy is a type of biological therapy that uses substances to stimulate or suppress the immune system to help the body fight cancer. Cancers studied under this topic area should be within the scope of the Congressional language and the intent of the Program Announcement(s); The FY16 PRCRP Military Relevance Focus Areas are: To address the cancer health needs of both deployed and non-deployed personnel, their dependents, retirees, and Veterans, the FY16 PRCRP seeks to support studies that are responsive to the Military Relevance Focus Areas listed below: (*) Militarily relevant risk factors associated with cancer
(e.g., ionizing radiation, chemicals, infectious agents, and environmental carcinogens); (*) Gaps in cancer prevention, screening, early detection, diagnosis, treatment, and/or survivorship that may affect the general population but have a particularly profound impact on the health and well-being of military members, Veterans, and their beneficiaries; Applications that address exposures, conditions, or circumstances that are unique to the military, or disproportionately represented in a military beneficiary population, are the highest priority, though any applications that address the above focus areas will be considered.; http://cdmrp.army.mil/funding/prgdefault.shtml

Additional Information: General listing for all Department of Defense (DoD) funding announcements; More were recently released for the Autism Research Program (ARP) and Prostate Cancer Research Program (PCRP);

FY16 DOD BMFRP Program Announcement; Deadline(s):NA; Contact: NA; http://cdmrp.army.mil/funding/prgdefault.shtml; https://eBRAP.org; http://www.grants.gov; Additional Information: JUST RELEASED! FY16 DOD BMFRP Program Announcement; This is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov; CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org;

All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website http://cdmrp.army.mil; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org) and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section IIA for registration and submission requirements for eBRAP and Grants.gov; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity. $50M in lifescience funding available from NYC Economic Development Corporation
Sponsor: NYC Economic Development Corporation
Deadline(s): 07/13/2018 (Final Submission Date)
Contact: Please feel free to submit your ideas directly to EDC without review by Columbia, but it would be helpful if you could copy techventures@columbia.edu so that we can track which ideas Columbia researchers have submitted. The first soft date for submission is May 30th, but the City will be taking applications through a final deadline of July 13th. We will be hosting an info session at Columbia with EDC staff on Friday, May 4th, 12 – 1 pm, with both live attendance and a conference bridge line available. If you would be interested in attending that info session, please email techventures@columbia.edu, and we will provide the details.

**Additional Information:** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC)

**Contact:** Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance; Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward; The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety; Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subawardees are included; (*) Sub recipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form –
