NEW THIS WEEK [NTW]

Funding opportunities and announcements listed in the “New this Week” section will be moved to the main body of the newsletter in the following weeks. They are presented and hyperlinked (in the posted .pdf version of the newsletter) in the following order:

WEEKLY HIGHLIGHT
R2 WORKSHOP FOR 2ND AND 3RD YEAR DOCTORAL STUDENTS, NIH LOAN REPAYMENT PROGRAM, EPIDEMIOLOGY COHORT STUDIES, REGIONAL HIV AIDS

PEPFAR, USAID, DIVERSITY, BEHAVIORAL, NYSDOH, MRI PILOT, SUBSTANCE USE DISORDERS, CLINICAL TRIALS, TRANSLATIONAL, CANCER, MATERNAL AND CHILD HEALTH

NON COMMUNICABLE DISEASES, BRAIN, NEUROSCIENCE, DIABETES, INFECTIOUS DISEASES, AWARD, MOBILE HEALTH, IRVING INSTITUTE

JUNIOR FACULTY FOUNDATION FUNDING, YOUNG INVESTIGATOR DEMENTIA, EARLY CAREER, POSTDOCTORAL, ASPPH WEEKLY NEWSLETTER, STANDARD DUE DATES

[NTW] [WEEKLY HIGHLIGHT/RESEARCH RESOURCES WORKSHOP FOR SECOND AND THIRD YEAR DOCTORAL STUDENTS]

Workshop on Developing Dissertation Grant Applications – The F31 and R36; designed particularly for 2nd and 3rd year Doctoral Students; Mentors are also Welcome to attend!

Sponsor: Research Resources, the Initiative for Minority Student Development, and the Mailman School Doctoral Committee
Deadline(s): Thursday, 09/14/2017, 11:30 AM – 1:00 PM, SMS Conference room 923
Contact: to RSVP, please contact Craig Kandell at ckk7@columbia.edu
Link(s): https://www.mailman.columbia.edu/public-health-now/events/workshop-developing-dissertation-grant-applications-f31-and-r36-0

Additional Information: We invite second & third year doctoral students and faculty mentors to join Research Resources, the Initiative for Minority Student Development, and the Mailman School Doctoral Committee for a Workshop on Developing Dissertation Grant Applications – The F31 and R36, Thursday September 14, 2017 (in SMS Conference Room 923, 11:30 AM – 1:00 PM). This one session workshop moderated by Dr. Leslie Davidson, Professor of Epidemiology, is designed particularly for second and third year doctoral students planning to submit F31 or R36 applications to the NIH for dissertation training funding. The workshop will provide an overview of application requirements and will address elements important in developing a compelling application. It will provide useful information which will facilitate the work a student undertakes with his or her mentor to develop specific aims, a training program and the scientific narrative. Mentors are also welcome to attend. We will repeat the workshop in the Spring of 2018. Topics covered will include overview of the F31 and the R36s, developing specific aims, working with an NIH program officer, choosing a mentor, developing a training program and grantsmanship in making your application compelling. To RSVP, please Contact: Craig K. Kandell, 212-305-3615, ckk7@columbia.edu
[NTW] [NIH LOAN REPAYMENT PROGRAM]

NIH Loan Repayment Program Application Cycle Opens on September 1

**Sponsor:** NIH  
**Deadline(s):** 11/15/2017

**Contact:** Have questions? Call or e-mail the LRP Information Center at 866-849-4047 or lrp@nih.gov, Mon-Fri 9:00 a.m. to 5:00 p.m. EST; NIH Division of Loan Repayment; Email: lrp@nih.gov; Phone: +1.866.849.4047; Visit us at: [http://www.lrp.nih.gov](http://www.lrp.nih.gov)

**Additional Information:** Dear Research Supervisor/Mentor, The NIH Loan Repayment Program (LRP) application cycle opens this year on **September 1** and closes on **November 15**. LRP awardees can receive up to **$70,000** of qualified educational debt repayment with a two-year contract AND approximately 1,500 researchers benefit from the more than **$70 million** the NIH invests each year. Are you providing supporting information for an LRP applicant this year? We’ve simplified the role and responsibilities of supervisors / mentors to make it easier! Get prepared! (* Ensure your eRA Commons ID password is current; (*) Visit the Research Supervisor/Mentor webpage and quickly review the LRP Application Guide for more information about your role in the LRP process; Thank you for your continued support of the LRPs! Have questions? Call or e-mail the LRP Information Center at 866-849-4047 or lrp@nih.gov, Mon-Fri 9:00 a.m. to 5:00 p.m. EST; NIH Division of Loan Repayment; Email: lrp@nih.gov; Phone: +1.866.849.4047; Visit us at: [http://www.lrp.nih.gov](http://www.lrp.nih.gov)

Application deadline is November 1st, 2017. Please do forward to those who may be interested; Taub Institute MRI Platform; The Taub Institute for research on Alzheimer's Disease and the Aging Brain has established an 'MRI platform.' It supplies scan costs and acquisition/analytic expertise for small MRI pilot studies in humans and mice which fall within the Institute's broad interests. All CUMC faculty and postdoctoral fellows are eligible to apply.; The award is intended to support pilot studies that have no other source of support.; Up to 10 hours of scan time will be supported for human studies. Up to 15 mouse scans can be supported. Analytic support will be supplied for these pilot imaging studies.; Proposals will also be accepted for analytic support for already collected imaging data. Up to 6 hours of support can be provided.; We anticipate funding 10 awards.; For questions, please contact either Dr. Yaakov Stern at ys11@columbia.edu or Dr. Scott Small at sas68@columbia.edu; The linked application forms should be emailed to Ms. Anke Freude at af2409@columbia.edu.; Application Deadline: November 1, 2017

**Additional Information:** Exciting funding opportunity on the Pharmacogenomics of Antiretroviral Therapy in People Who Inject Drugs; Dear Dr., The National Institute on Drug of Abuse has issued a Request for Applications (RFA) entitled, Pharmacogenomics of Anti-retroviral Therapy in People Who Inject Drugs (R01), RFA-DA-18-014.” NIDA intends to fund an estimate of 1 to 2 awards, corresponding to a total of $3,000,000 for fiscal year 2018. Future year amounts will depend on annual appropriations. NIDA intends to fund an estimate of 1 to 2 awards, corresponding to a total of $3,000,000 for fiscal year 2018. Future year amounts will depend on annual appropriations; The Application Due Date is December 14, 2017 by 5:00 PM local
time of applicant organization; The Research Objective of this initiative is: Antiretroviral therapies have been effective in treating HIV infection. However, variable responses to anti-retroviral therapy result from genetic variants affecting drug disposition, drug penetration, drug metabolism, drug interactions with drugs of abuse, off-site drug targets and adherence. Induction of enzymes and drug transporters in active drug users and those that relapse may affect treatment efficacy. The identification of genetic variants that affect HIV treatment toxicity such as CNS side effects, liver and renal failure has broad implication for improving treatment outcomes for the treatment of HIV in people who inject drugs. In addition predicting which drug regimen will ensure greatest recovery of CD4 function and prevent cognitive decline. This initiative will use genome sequencing strategies and genome wide association methods to identify genetic variants affecting the pharmacokinetics, pharmacodynamics, and HIV treatment toxicities in people who inject drugs.; The research questions to be answered by this initiative are: (*) How do genetic variants affect the response to anti-retroviral therapy in people who are injecting drugs?; (*) How does injection drug use affect the pharmacokinetics and pharmacodynamics of anti-retrovirals in people who inject drugs both during active use and during abstinence?; (*) What genetic and epigenetic factors predict the greatest recovery of CD4+ function and prevent cognitive decline in injecting drug users in response to antiretroviral HIV therapy?; (*) How does impulsivity such as measured by delayed discounting affect compliance to anti-retroviral therapy? Are there genetic or epigenetic variants that are associated with delayed discounting that impact compliance?; If you are interested in applying for this RFA, please read the entire announcements https://grants.nih.gov/grants/guide/rfa-files/RFA-DA-18-014.html ; If you have any interest or questions about this RFA, please contact me.; Sincerely, Jonathan; Jonathan D. [Grant Review Submission Form; submit to Craig Kandell via email at ckk7@columbia.edu](https://r2report.files.wordpress.com/2014/04/mailmanschoolsubmissionformwor d_08-15-17a.docx)

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed to Faculty]; Dear Mailman School faculty,

In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports.; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R2, and is entirely optional.; For the final scientific editing an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission [in the case of the 10/05/2017 deadline, 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks)] the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline, 09/21/2017 – 09/25/2017], and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)

Sponsor: Sponsored Projects Administration

Deadline(s): NA, FY2018 Announcements, brought to our attention on 07/06/2017

Contact: Any questions about the government fringe rate should be directed to AskRPC@columbia.edu.

Link(s): http://finance.columbia.edu/content/fringe-benefit-rates
http://spa.columbia.edu/proposals/institutional-information

Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years. Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the
remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to [link](http://finance.columbia.edu/content/fringe-benefit-rates). For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at [link](http://finance.columbia.edu/content/fringe-benefit-rates). Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

NIH to Limit Total Grant Support to PIs

**Sponsor:** NIH

**Deadline(s):** NA

**Contact:** National Institutes of Health; Office of Extramural Research; ExtramuralNexus@mail.nih.gov

**Additional Information:** NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded.; An article posted by *Nature* reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding. 

**A Potential, New NIH Policy that Stands to Affect all PIs:**

1. **Implementing Limits on Grant Support to Strengthen the Biomedical Research Workforce**
2. **Research Commitment Index: A New Tool for Describing Grant Support**

**Additional Information:** We’d like to call your attention to a potential, new NIH Policy that stands to affect all PIs, described in two Open Mike Extramural Nexus postings by Dr. Michael Lauer, NIH’s Deputy Director for Extramural Research: **(1) Implementing Limits on Grant Support to Strengthen the Biomedical Research Workforce;** and **(2) Research Commitment Index: A New Tool for Describing Grant Support;** posted on 05/02/2017 and 01/26/2017 respectively. Please note Table 1 on the RCI post that shows the RCI point values for a PI per activity code and whether the grant has one or multiple PIs.

The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016

**Sponsor:** NA

**Deadline(s):** 07/01/2016 (effective)

**Contact:** Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

**Link(s):** [http://spa.columbia.edu/proposals/institutional-information](http://spa.columbia.edu/proposals/institutional-information)

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odoh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

**Additional Information:** Please pass this on to anyone you know who may be preparing an NIH individual fellowship application (pre- or postdoc).; Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html). Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD.; [forwarded to our attention by Stephanie Scott, SPA Communications and Outreach Director, ofs2110]; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the [23. Resource Sharing Plan](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html) attachment on the PHS Fellowship Supplemental form displays the [22. Select Agent Research](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html) attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cummins@mail.nih.gov; 301-496-3405;

**Additional Information:** Below is a nice summary from the NIH "Open Mike" blog [provided by Stephanie Scott] regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Step; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016; (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We'll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to reduce redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative

that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;

**Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;**

**Sponsor:** National Institutes of Health;

**Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov

**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html;

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

**NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;**

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;

**Contact:** Please direct all inquiries to: NIHTrain@mail.nih.gov;

**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;

**Additional Information:** This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

**NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;**

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdr@mail.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;  

Additional Information: Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);  

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016  
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;

Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;  

Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements: (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;  

Inclusion of Children in Clinical Research: Change in NIH Definition;  
Sponsor: National Institutes of Health;  
Deadline(s): NA Release Date: 10/13/2015;  
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;  
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;  

Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy
Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* Career Development Award applications submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;
Islander Serving Institutions (AANAPISIs); (*) Asian American Native American Pacific Islands Serving Institutions; (*) Serving Universities (TCCUs); (*) Alaska Native and Native Hawaiian Universities (HBCUs); (*) Tribally Controlled Colleges and Universities (TCCUs); (*) Native Hawaiian Serving Institutions; (*) Hispanic Serving Institutions of Higher Education; The following types of Higher Education Institutions have been added to the Eligible Organizations: (*) Hispanic-Serving Institutions; (*) Historically Black Colleges and Universities (HBCUs); (*) Tribally Controlled Colleges and Universities (TCCUs); (*) Alaska Native and Native Hawaiian Serving Institutions; (*) Asian American Native American Pacific Islander Serving Institutions (AANAPISIs); Modified to read: Higher Education Institutions: (*) Public/State Controlled Institutions of Higher Education; (*) Private Institutions of Higher Education; The following types of Higher Education Institutions are always encouraged to apply for NIH support as Public or Private Institutions of Higher Education: (*) Hispanic-Serving Institutions; (*) Historically Black Colleges and Universities (HBCUs); (*) Tribally Controlled Colleges and Universities (TCCUs); (*) Alaska Native and Native Hawaiian Serving Institutions; (*) Asian American Native American Pacific Islander Serving Institutions (AANAPISIs); (*) Nonprofits Other Than Institutions of Higher Education; (*) Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education); (*) Nonprofits without 501(c)(3) IRS Status (Other than Institutions of Higher Education); All other aspects of the FOA remain unchanged;

Friday Newsletter 09/01/17

Additional Information: Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, she can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd; Thanks; Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (* For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets.; Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.; If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using the Finance Service Center, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 4:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you.; The Budget Tool Team;

**Message from President Bollinger relative to Ebola;**

**Sponsor:** Columbia University;

**Deadline(s):** NA

**Contact:** If you or anyone has any concerns, please visit the University’s Ebola Preparedness Site or the New York City Department of Health Ebola Site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590;
Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Note from Dean Fried;

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

**Clarification - RE: 3rd Reminder**

**Sponsor:** NIH;

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA);

Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: ssf2110@columbia.edu; Website: http://spa.columbia.edu;

**Link(s):** NOT-OD-13-097;
http://spa.columbia.edu;

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (**) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from
reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf.; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/.

Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;
Sponsor: NIH;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/;
Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at http://spa.columbia.edu/.

Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at http://spa.columbia.edu/.

Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/.
are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins. In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. .... We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. .... ** Visit the Columbia University Medical Center IRB Office has a standing "IRB Consultation Hour". This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important

Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey; Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, ”NIH: The View from 10,000 Feet”, so I could share it with you on the blog

New Program for NIH-funded Grad Students and Postdocs; Sponsor: NIH; Deadline(s): Open Ended; Contact: Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.; Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html; https://www2.gsas.columbia.edu/idp; https://www2.gsas.columbia.edu/idp/node/3#summary; Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.; Sincerely, G. - [eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_person_profile.cfm; Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics; I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and
Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in RockTalk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tildes, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPRR will not be accepted by the NIH without this information. RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. .... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

You Ask, We Answer:

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf;

**FEDERAL FUNDING TRAVEL POLICY**

[NIH-Investigators] New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. These are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a...
Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**Additional Information:** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance.; Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.; The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.; Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included: (*) Sub recipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*)
Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form –
