[NTW] [SUBSTANCE USE DISORDRERS (SUDS)] Title: Mechanism for Time-Sensitive Drug Abuse Research (R21);
Sponsor: National Institute on Drug Abuse/NIH/DHHS;
Deadline(s): 12/09/2015;
Contact: E-mail: rchandle@nida.nih.gov;
Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PAR-12-297.html;
Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) invites applications for pilot, feasibility or exploratory research for up to 2 years in 4 priority areas, including: 1) responses to unexpected and time-sensitive medical system issues (e.g. opportunities to understand addiction services in the evolving health care system); 2) responses to emerging drug abuse-related HIV trends and topics (e.g. rapidly evolving drug abuse-related epidemics, time-sensitive policy or environmental changes); 3) responses to unexpected and time-sensitive criminal justice opportunities (e.g. new system and/or structural level changes) that relate to drug abuse and access and provision of health care service; and 4) responses to unexpected and time-sensitive prescription drug abuse opportunities (e.g., new state or local efforts). It should be clear that the knowledge gained from the proposed study is time-sensitive and that an expedited rapid review and funding are required in order for the scientific question to be answered. This program will use the NIH Exploratory/Developmental (R21) grant mechanism. DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Optional letters of intent should be submitted at least four weeks prior to planned submission date. The deadlines for receipt of full applications are: December 9, 2014; March 6, 2015, June 4, 2015, September 9, 2015, December 9, 2015, by 5:00 PM local time of applicant organization. This FOA will expire on December 10, 2015.; [*]

Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) provides support to facilitate the entry of new investigators and early career investigators to the area of drug abuse research on HIV/AIDS. This FOA, AIDS--Science Track Award for Research Transition (A-START), encourages Small Research Grant (R03) applications to support research projects on drug abuse and HIV/AIDS that can be carried out in a short period of time with limited resources. Applications under this FOA are welcomed from all areas of HIV/AIDS research that NIDA supports. This program will
use the NIH Small Research Grant (R03) award mechanism.; DEADLINE NOTE: Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after December 7, 2015. The deadlines for receipt of full application are January 7, May 7 and September 7 annually. This FOA will expire on September 8, 2018.; [*]

[NTW] [ENVIRONMENTAL HEALTH/PILOT] Title: PILOT PROJECT AWARDS IN ENVIRONMENTAL HEALTH RESEARCH;
Sponsor: NIEHS Center for Environmental Health in Northern Manhattan;
Deadline(s): 10/15/2015;
Contact: Contacts: Investigators interested in submitting applications are encouraged to discuss them with Drs. Matt Perzanowski, Pilot Projects Director (305-3465 or mp2217@columbia.edu), or Regina Santella, Center Director (305-1996 or rps1@columbia.edu). For administrative issues, contact Gail Garbowsk1, (305-1364 or gcg1@columbia.edu). Proposals should be submitted to Gail electronically as a single Adobe file by the deadline date.;
Link(s): NIEHS Center for Environmental Health in Northern Manhattan; Pilot Project webpage:
Additional Information: NIEHS Center Pilot Project Awards Available Up to $35K; Awards up to $35,000 for one year; ROUND 18 NOW OPEN; Application Deadline: October 15th, 2015; Funding: January 1st, 2016; The NIEHS Center for Environmental Health in Northern Manhattan is seeking innovative and promising pilot project proposals in all areas of environmental health. Priority will be given to projects that focus on the thematic goal of the Center, namely, understanding the impact of environmental exposures over the life course with a major focus on air toxics and bio-aerosols, oxidative stress, epigenetics, and climate change. The Center primarily carries out research in three areas: respiratory disease, cancer, and neurotoxicology/neurodegenerative disorders. Please refer to the Center’s Pilot Project webpage for additional information.; Pilot grant applications can request up to $35,000 and projects must be completed within two years; in rare circumstances, a second year of funding can be requested, depending on progress. International studies are permitted, but budgets must be discussed with the pilot projects administrator (gcg1) prior to submission of the proposal. Since the major goal of the Program is to assist in the generation of preliminary data leading to the development of an R01 or similar grant, applicants must have academic positions that allow grant submissions. Junior faculty with ideas for innovative projects are strongly urged to apply. Senior faculty and all Center members are eligible to submit new pilot proposals if they are expanding their research into new areas of environmental health or proposing an inter-Center collaboration with investigators at another NIEHS p30 Center, regardless of having received previous pilot funding.; Instructions for Submission: The written application should be no more than 5-7 pages, exclusive of references, budget and biosketches and include the following sections: (A) Title page (1 page maximum, title, investigator and affiliation, abstract in lay language); (B) Specific Aims (1 page maximum, must be environmentally relevant); (C) Background; (D) Study Design/Method; (E) Use of Facility Cores; (F) Future Plans (Clearly outline how results will lead to a larger project); (G) Budget and Justification (PI salary support is not permitted); (H) NIH Formatted Biosketches (For all key personnel): Applicants will have access to the Facility Cores of the Center at no or limited cost depending upon the extent of use. See the Center website for a detailed description of the Exposure Assessment, Trace Metals and Integrative Health Sciences (IHS) Cores. Applicants are encouraged to develop projects that use these Facility Cores and discuss their project with the Core Directors. For projects that necessitate statistics, investigators are required to obtain input from Dr. Thompson, Director of the IHS Core (342-1252 or jlt12@columbia.edu). Review Criteria and Mechanism: An Internal Review Committee will initially review proposals. Applicants will be provided with reviewers’ comments and the most promising ones will be given the opportunity to revise the proposal before review by an External Review Committee. Linked proposals or proposals demonstrating collaborative efforts will be given preference.; Contacts:

Sponsor: CU and University of Glasgow; http://www.gla.ac.uk/research/az/;
Deadline(s): 10/21/2015 (Internal); Internal Proposal Deadline – 9:00 a.m. on, Wednesday, October 21, 2015;
Contact: Please combine all five parts of the application in a single PDF file and email to gcc19@columbia.edu and mb3952@columbia.edu by no later than 9:00 a.m. on Wednesday, October 21, 2015. The subject of the email should be “CU-Glasgow Fellowships”; Questions should be directed to Greg Culler at gcc19@columbia.edu.; Greg Culler; Associate Director | Research Initiatives; Columbia | Research; Office of the Executive Vice President for Research; Columbia University in the City of New York; 408A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gregory.culler@columbia.edu;
Link(s): A list of Research Units appears on the University of Glasgow website at: http://www.gla.ac.uk/research/az/;
Additional Information: Fellowships for Columbia University/University of Glasgow Research Exchange; WHAT: As part of an ongoing collaboration between Columbia University and the University of Glasgow, funds are available for the exchange of graduate students and postdoctoral fellows between research programs at the two universities. The exchanges are intended to enhance research activities that are shared between faculty members at the two institutions by providing support for short visits. These visits might be used to carry out research, develop a method, learn a technique, etc. Since the inception of the program, three awards have been made annually with funding up to $10,000 per award at Columbia in the fields of Science, Engineering and Medicine. In 2016, as the second year of a 2-year pilot, there will be two awards for up to $5,000 each in the Humanities and Social Science fields. Funds may only be used for direct costs related to research, stipend and travel during the exchange visit;

PROGRAM EMPHASIS: Fields where there are complementary research activities between Columbia and the University of Glasgow are preferred. A list of Research Units appears on the University of Glasgow website at: http://www.gla.ac.uk/research/az/; WHO: The following eligibility terms apply.; (*) Applicants must be in a postdoctoral position or a PhD program at Columbia University.; (*) Applicants must be working in the natural sciences, biomedical sciences or engineering for the standard awards.; (*) For the 2016 Pilot, applicants must be working in the social sciences or humanities.; WHEN: Internal proposal deadline – 9:00 a.m. on Wednesday, October 21, 2015.; HOW: The application should contain the following five parts: (1) Cover Page listing the name, title, department and contact information for both the applicant and sponsoring faculty member; (2) Project Summary (one page limit) describing the proposed project and purpose of the visit; (3) Columbia Faculty Letter of Support from the sponsoring faculty member from Columbia that includes a description of the relationship between the Columbia and Glasgow faculty members; and, (4) CV or Biographical Sketch (four-page limit for each) for the applicant and faculty sponsor.; (5) Glasgow Host Letter of Support from the faculty member at Glasgow University agreeing to host the visiting researcher.; Please combine all five parts of the application in a single PDF file and email to gcc19@columbia.edu and mb3952@columbia.edu by no later than 9:00 a.m. on Wednesday, October 21, 2015. The subject of the email should be “CU-Glasgow Fellowships”; Questions should be directed to Greg Culler at gcc19@columbia.edu.; The exchange fellowship has been a great boost to my PhD research.

[NTW] [CLIMATE CHANGE] Title: Climate Change and Environmental Exposures Challenge;
Sponsor: National Institute of Environmental Health Sciences; NIH; DHHS; NIEHS;
Deadline(s): 12/04/2015;
Contact: E-mail: john.balbus@nih.gov;
Link to full program description: http://www.infoed.org/new_spin/spin_prog.asp?49829;
Additional Information: SYNOPSIS: To assist the country in preparing for the potential health risks from climate change, the National Institutes of Health (NIH) through the National Institute on Environmental Health Sciences (NIEHS) is sponsoring the NIEHS Climate Change and Environmental Exposures Challenge (the "Challenge") under the America COMPETES Reauthorization Act of 2010. This Challenge calls on talented software developers, data scientists, and other innovators from around the country to create data visualizations, tools, and applications that use the best available science on environmental exposures and the relationship of these exposures to increased temperature, precipitation, flooding, and sea level rise.; DEADLINE NOTE: The submission period begins 9 a.m. EDT September 28, 2015 and ends 12 p.m. EDT December 4, 2015.
[NTW] [MENTAL HEALTH/TRANSLATIONAL] Title: Silvio O. Conte Centers for Basic or Translational Mental Health Research (P50);
Sponsor: National Institute of Mental Health/NIH/DHHS;
Deadline(s): 04/25/2016; 05/25/2016;

Additional Information: SYNOPSIS: National Institute of Mental Health (NIMH) invites applications for Silvio O. Conte Centers for Basic or Translational Mental Health Research. The institute seeks teams of researchers working at different levels of analysis and employing integrative, novel, and creative experimental approaches to address high-risk, high-impact questions with the primary objective of: (a) advancing the state of the science in brain and behavior research that will ultimately provide the foundation for understanding mental disorders; (b) supporting the integration and translation of basic and clinical neuroscience research on severe mental illnesses; and/or (c) advancing our understanding of the neurobehavioral developmental mechanisms and trajectories of psychopathology that begin in childhood and adolescence. The Conte Centers program is intended to support interdisciplinary basic and/or translational research demonstrating an extraordinary level of synergy, integration, and potential for advancing the state of the field. This program is intended only for projects that could not be achieved using other, more standard grant mechanisms. The Conte Centers program also provides an opportunity to establish interdisciplinary basic and/or translational research experiences for individuals in training. This FOA will utilize the NIH Specialized Centers (P50) award mechanism.
DEADLINE NOTE: Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). The deadline for receipt of optional letters of intent is April 25, 2016. The deadline for receipt of full applications is May 25, 2016, by 5:00 PM local time of applicant organization.

[NTW] [TRANSLATIONAL] Title: Columbia-Coulter Translational Research Partnership; Call for Pre-Proposals;

Additional Information: CALL FOR PRE-PROPOSALS; $1M in funding & support to bring biomedical innovations to market; The Columbia-Coulter Translational Research Partnership is now accepting Pre-Proposals for the 2015 application cycle.; The program offers proof-of-concept funding and support to develop promising biomedical technologies that impact patient care. The program will deploy up to $1M in funding and resources (marketing, regulatory, reimbursement, legal) to help advance biomedical ideas from conception to proof-of-concept.; For more information on this opportunity, eligibility requirements, additional application details, or the program overall, please attend one of the information sessions listed below, visit www.columbia-coulter.com, or reach out to us at coulter@columbia.edu; PRE-PROPOSALS DUE; December 1, 2015; ELIGIBILITY: Eligible teams must include both an engineer and a clinician. If you need an engineering or clinical collaborator, we may be able to facilitate introductions. Please email matchmaking requests to coulter@columbia.edu.; All technologies that have the potential to directly impact human health will be considered
(e.g. medical imaging, monitoring devices, biosensors, biomaterials, therapeutic drugs and devices, and platform technologies). Most relevant are those in which the time to market can be achieved in less than 7 years.

A goal of this FOA is also to create a community resource of research resources that are broadly available and shared with the research community for providing a foundation for further integration with other novel technologies being developed to advance safe, real time placental assessment in vivo, as well as for providing large amounts of complex data and associated metadata to the research community to further advance and accelerate research in the field. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.;  
**DEADLINE NOTE:** Applications submitted in response to this announcement must be submitted electronically either through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide, or through the NIH Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted on or after November 18, 2015. The deadline for receipt of optional letters of intent is November 18, 2015. The deadline for receipt of full applications is December 18, 2015, by 5:00 PM local time of applicant organization.;
[NTW] [FOUNDATION FUNDING/INDIA/LIMITED SUBMISSION] Title: Obama-Singh 21st Century Knowledge Initiative (OSI) Limited Submission

Sponsor: United States-India Educational Foundation (USIEF)

Deadline(s): 10/05/2015; INTERNAL PROPOSAL DEADLINE – 9:00 A.M. ON MONDAY, OCTOBER 5, 2015; Final USIEF deadline – November 2, 2015;

Contact: Greg Culler; Associate Director | Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; 408A Low Memorial Library, MC 4312; 535 West 116th Street; New York, New York 10027;

Phone: 212-854-6285; Email: gregory.culler@columbia.edu;

Link(s): RFP: http://www.usief.org.in/upload/OSI_RFP_2015.pdf;

Additional Information: WHAT: To encourage mutual understanding, facilitate educational reform, foster economic development, and engage civil society, the OSI enables U.S. colleges and universities and Indian counterpart institutions to pursue objectives cooperatively through exchange visits of faculty, administrators, post graduate Indian students, and U.S. graduate students who can demonstrate the ability to work independently. The OSI is not designed to specifically support study abroad activities for undergraduate students but does encourage the development of education abroad programs for U.S. undergraduate students. The maximum award in the FY 2015 competition will be $190,000 for a three-year period. Cost-sharing is required and will be considered as a measure of institutional commitment in the USIEF proposal review.; Program Emphasis: Energy, Climate Change & Environmental Studies; Education & Educational Reform; Public Health; Sustainable Development & Community Development; and International Relations & Strategic Studies.;

WHO: Anyone with the training and experience necessary may submit an internal application. Please note, significant institutional commitment and matching funds are required.; WHEN: Internal Proposal due – 9:00 a.m. on Monday, October 5, 2015.; Final USIEF deadline – November 2, 2015.; HOW: The internal proposal must include the following: (1) Cover Page with (*) Project Title; (*) PI name, title and contact information; (*) Participating organizations; (2) Project Overview (two pages maximum) summarizing; (*) Statement of need; (*) Project objectives; (*) Partnership activities; (*) Program evaluation; (*) Plan to sustain program achievements after funding period ends; (3) CV for each senior personnel; (4) Cost Sharing and Institutional Commitment plans; (*) Describe sources and type of Institutional Commitment and sources and dollar amounts of Cost Sharing (see Notes below).; Notes: Institutional Commitment - Proposals must include letters of commitment from all institutional partners including the institution submitting the proposal. Each letter must be signed by an official who is authorized to commit institutional resources to the project. The letters of support as well as the proposal as a whole should clearly demonstrate that the participating institutions are committed to mutual support and cooperation in project implementation.; Cost Sharing - The commitment of all partner institutions to the proposed project should be reflected in the cost-sharing which they offer in the context of their respective institutional capacities. Although the contributions offered by institutions with relatively few resources may be less than those offered by applicants with greater resources, all participating institutions should identify appropriate contributions. Proposed cost-sharing will be considered an important indicator of the applicant institution’s commitment to the project.; Please combine all 4 parts of the internal proposal in a single PDF file and email to gcc19@columbia.edu and mb3952@columbia.edu by 9:00 AM on Monday, October 5, 2015. The subject heading of the email should be “Obama-Singh 21st Century Knowledge Initiative.”;}

**Additional Information:** Dear Colleagues: The Bill & Melinda Gates Foundation is inviting applications that address specific challenges defined in the grant programs below. For details and application instructions, please visit the new Grand Challenges website. Please note that descriptions of the challenges will soon be available on the website in Chinese, French, Portuguese and Spanish.; (1) **Grand Challenges Explorations** is seeking innovative global health and development solutions and is now accepting proposals for its latest application round. Applicants can be at any experience level; in any discipline; and from any organization, including colleges and universities, government laboratories, research institutions, non-profit organizations, and for-profit companies. Initial grants will be US $100,000 each, and projects showing promise will have the opportunity to receive additional funding of up to US $1 million.; Grand Challenges Explorations (GCE) supports hundreds of early-stage research projects, including many ideas that have never before been tested, and scientists and innovators from a wide range of disciplines and regions. The GCE initiative funds innovative ideas that could lead to new vaccines, diagnostics, drugs, and other technologies targeting diseases that claim millions of lives every year, as well as improvements and innovations in agriculture development and others of the Bill & Melinda Gates Foundation priority areas.; DEADLINE NOTE: The GCE initiative publishes topics and invites proposals two rounds a year.; (2) Proposals are being accepted online until **November 11, 2015** for the following challenges: (*) **Novel Approaches to Characterizing and Tracking the Global Burden of Antimicrobial Resistance**; (*) **Explore New Solutions in Global Health Priority Areas**; (*) **Addressing Newborn and Infant Gut Health Through Bacteriophage-Mediated Microbiome Engineering**; (*) **Explore New Ways to Measure Delivery and Use of Digital Financial Services Data**; (2) **New Interventions for Global Health: Vaccine Manufacturing**. This challenge focuses on innovations in vaccine manufacturing platforms designed to lower production cost for vaccines that target diseases of great global burden and that are among the most costly to produce with current technologies.; Letters of Intent will be accepted until **November 5, 2015**. Read more about this grant opportunity [here](http://www.grandchallenges.org/grant-opportunities); (3) In addition, the African Academy of Sciences and the New Partnership for African Development have launched Grand Challenges Africa in Nairobi, Kenya. This program joins others within the Grand Challenges family of grant programs supported by the Bill & Melinda Gates Foundation and its partners. Grand Challenges Africa will build on the global success of Grand Challenges programs in India, Brazil, and South Africa, as well as the strong base of Africa Grand Challenges grantees already funded by the Bill & Melinda Gates Foundation, Grand Challenges Canada, and USAID. For more information please visit AAS.; We look forward to receiving innovative ideas from around the world and from all disciplines. If you have a great idea, please apply. If you know someone else who may have a great idea, please forward this message.;
Furthermore, as a forum for sharing ideas, pursuing new opportunities and keeping abreast of new developments in the field of global health, The Gates Foundation together with Grand Challenges Canada has set-up a LinkedIn group. Additional Information: Subject: Dear All, We very much hope that you will join us for the RISE & Keck Information Session on Wednesday, September 23rd from 12:00 p.m. – 1:00 p.m. in the Trustees Room/212 Low Library (flyer attached). To RSVP to this event, please click here.; Due to a scheduling misfortune, this event will occur during the Yom Kippur holiday, which may not allow for some interested researchers to attend. If you are interested in finding out more about the RISE and/or Keck competitions, but are unable to join the Information Session, please email rise@columbia.edu, and we will send you the PowerPoint slides that will be presented at the event.; Furthermore, for all faculty who would benefit from an in-person discussion about one or both competitions (regardless of whether they can or cannot attend the Information Session), please email rise@columbia.edu to set-up an appointment with staff from the Office of the Executive Vice President for Research.; Thank you, Office of the Executive Vice President for Research; Columbia University in the City of New York; Dear Colleagues, I invite you to apply to the 2016 Research Initiatives in Science and Engineering (RISE) competition, which awards seed monies to initiate innovative, interdisciplinary, and high-risk research collaborations that may potentially trigger novel scientific paradigms. All Columbia researchers eligible to serve as Principal Investigators within the scientific, engineering, and medical disciplines can apply for this internal funding opportunity. One important exception is that current RISE PIs are not eligible to apply.; About RISE; The RISE competition provides up to $80,000 per year, for a maximum of two years, to enable researchers to produce the preliminary data necessary to successfully obtain funding from conventional sources. RISE supports projects that are perceived as far too risky and unfamiliar to receive traditional funding, and affords researchers the opportunity to establish an initial proof of concept in order to submit the proposal to private or public sponsors. Thus, proposals currently suitable for submission to such conventional programs should not be submitted to RISE; the most frequent reason that proposals are rejected from RISE is because reviewers
believe that the project is ready for submission to traditional sponsors.; Since its inception in 2004, the RISE competition has provided approximately $8 Million in seed funding to 55 teams, or, over 100 Columbia researchers. RISE-funded projects have subsequently won over $37 Million in federal and foundation grants. Last year’s 2015 RISE competition accepted 56 applications, of which 18 advanced into the secondary stage of consideration, with ultimately six teams awarded funding (please find brief descriptions of these six projects here). Over 60 Columbia faculty participated as peer reviewers of the applications.; I encourage you to communicate with potential collaborators from different departments, conceptualize highly-innovative and risky collaborations, and submit an application for this internal competition in order to contribute to the momentum and diversity of Columbia’s research enterprise. We especially encourage applications for interdisciplinary projects that span multiple campuses and schools, as well as applications that pair together individuals and disciplines that have never previously collaborated.; The RISE competition focuses upon discovery research, and does not award funding to clinical or translational projects. Candidates seeking funding for translational research in biomedical fields should explore the Columbia-Coulter Translational Research Partnership; RISE (and Keck) Information Session; I additionally invite you to attend an Information Session explaining both the RISE and W.M. Keck Foundation Research Grants 2016 competitions: Wednesday, September 23, 2015, from 12:00 p.m. – 1:00 p.m. in the Trustees Room (212 Low Memorial Library on the Morningside campus); an event flyer is attached. Attendees will gain insight into how to prepare an application, ask questions about one or both competitions, and meet potential collaborators with whom to craft future applications. To RSVP for this event, please click here; How to Apply: To apply for the 2016 RISE competition, please submit the attached Application Form, along with CVs for all PIs and Co-PIs, and submit via email attachment to rise@columbia.edu by 9:00 a.m. EST on Monday, October 5, 2015. All complete and eligible applications will be evaluated by an internal peer review committee composed of senior researchers across all Columbia campuses. The review committee may choose to relay feedback to applicants, in which case the RISE staff will contact applicants at the appropriate time.; A small handful of the very strongest applications will be invited by April 2016 to submit a four-page Round 2 proposal; up to six teams from Round 2 will be awarded RISE funding, to be announced in June 2016.; For more information pertaining to the RISE program, including a list of Frequently Asked Questions and past winning teams, please visit the website at http://bit.ly/UGuOHd. You may also refer to the 2016 Request for Proposals (RFP) or sample Evaluation Form that reviewers will use when evaluating Round 1 applications; both documents are attached to this email.; With questions about the RISE competition or how to craft the strongest application, please email rise@columbia.edu or call 212-854-7836; Sincerely, G. Michael Purdy, PhD; Executive Vice President for Research; Columbia University in the City of New York; [*]

Additional Information: WHAT: The W. M. Keck Foundation seeks to support pioneering research projects that are distinctive and novel in their approach, question the prevailing paradigm, or have the potential to break open new knowledge that lays the groundwork for new paradigms, technologies and discoveries that will save lives, provide innovative solutions, and add to our understanding of the world. The Foundation prioritizes proposals that are innovative, interdisciplinary, transformative, demonstrate a high level of risk due to unconventional approaches and that fall outside the mission of public funding agencies. Projects that are appropriate for NIH or NSF support are not appropriate for Keck.; Interdisciplinary, collaborative projects are strongly encouraged in both programs. Historically, grants range from $500,000 to $5 million, and are typically $2 million or less.; WHO: The following eligibility terms apply: (-) Applicants must hold a faculty appointment as an independent researcher. Postdoctoral researchers are not eligible.; (-) This is a highly competitive program. All potential applicants should consult the Grant Abstracts on the Keck Foundation website:

As we discussed on the last NYCEF conference call, HD4NYC is a collaborative effort of the DOHMH, the New York Academy of Medicine, and NYCEF. Below, we provide a brief description. Additional information is provided in the link to the website below.; Please share this information with colleagues and trainees at your institutions. Encourage them to register for the introductory HD4NYC workshop, scheduled for October 23, 2015, at The New York Academy of Medicine, especially if they are committed to population health research in NYC, work with DOHMH data, and/or want to participate in the future activities of HD4NYC.; We are excited about this initiative and we look forward to working together to advance population health research. In our view, HD4NYC has the potential to transform population health research in NYC through data sharing and collaboration. It remains a work-in-progress, and we would welcome your collaboration.; David Siscovick, The New York Academy of Medicine; Charon Gwynn, DOHMH; Paolo Boffetta, NYCEF (MSSM); HD4NYC: Promoting population health research is critical to improving the health of
New Yorkers. To facilitate opportunities for new research, the New York City Department of Health and Mental Hygiene (DOHMH), The New York Academy of Medicine, and the New York City Epidemiology Forum have formed a new initiative—Health Data for New York City (HD4NYC): Promoting Population Health Research Through Data Sharing and Collaboration. HD4NYC is intended to facilitate access to and use of DOHMH’s extensive data resources and give graduate students and early career investigators an opportunity to become familiar with DOHMH databases, as they develop their careers in population health research. To ensure that robust data is available to guide its work, DOHMH regularly collects information through research and surveillance. Many rich data resources, including datasets and interactive data visualization tools, are made available to the public through the agency’s website. Other datasets are used internally and may be accessed through data use agreements. HD4NYC will build capacity for the use of DOHMH datasets by the broader scientific community, foster research collaborations among DOHMH, the Academy, and academic institutions (schools of medicine, public health, urban planning, transportation, etc.), and support investigations into key population health research questions using DOHMH datasets. You can learn more and register for the HD4NYC’s October 23rd Introductory Workshop here: http://www.nyam.org/events/2015/2015-10-23.html.

Title: NIH Seeks Suggestions for Simplifying Application Instructions; Request for Information (RFI): Strategies for Simplifying NIH’s Grant Application Instructions;
Sponsor: NIH;
Deadline(s): 09/25/2015;
Contact: Please send comments to us at ckk7@columbia.edu and we will collate and respond; Thank you!;
http://nexus.od.nih.gov/all/2015/08/14/help-us-help-you/;
Additional Information: Please send comments to us at ckk7@columbia.edu and we will collate and respond; Thank you!; The National Institutes of Health (NIH) seeks your input on how to simplify their grant application instructions. The deadline for feedback is September 25th, 2015. To submit comments, and for more information, click http://grants.nih.gov/grants/rfi/rfi.cfm?ID=47; In addition, see Dr. Sally Rockey’s blog below; [forwarded to our attention by Stephanie Scott (thank you)] Steph; Author: Sally Rockey; Subject: Help Us Help You!; Understanding what you need to know and do to apply for a grant can be a challenge. NIH’s application instruction guide is long, with lots of background information that you may only occasionally need. On top of that, funding opportunity announcements have instructions that often add to those in the application instruction guide. We may also issue notices that can change application requirements, perhaps with additional FAQs for you to follow. It’s not only a lot of information, but it’s complex in the way we give it you, which can be frustrating!; We’ve been developing ideas about how to make these instructions better, but we really need to hear how you currently work with the instructions, and how you would like to work with the instructions in the future, so we can make a product that works better for you. Last week we issued a request for information for your suggestions about how we can simplify NIH’s grant application instructions (NOT-OD-15-134). I hope you will take this opportunity to give us your valuable input – as described here – by the Sept 25, 2015 deadline. We do want to make the grant application process easier to follow and, with your input, we can work together to make this happen.;

Title: Message from President Bollinger relative to Ebola;
Sponsor: Columbia University;
Deadline(s): NA;
Contact: If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.;
Link(s): If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;
Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;
Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.

Sincerely, Linda; Linda P. Fried, MD, MPH; Center; Professor of Epidemiology and Medicine; Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

SCHOLASTIC / SCHOLARLY FUNDING OPPORTUNITIES

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097.

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

Link(s): NOT-OD-13-097;

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person-month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf; TIP — when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. **Additional Information:** This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.;

**People + Ideas + Time**: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist). Thank you: Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

Title: New Program for NIH-funded Grad Students and Postdocs;
Sponsor: NIH;
Deadline(s): Open Ended;
Contact: Please contact Rory Flinn (rf2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.;

http://www2.gsas.columbia.edu/idp/node/3#summary;
Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and
postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur G. Palmer III; Associate Dean for Graduate Affairs; College of Physicians & Surgeons;

Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ;

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. NIH eSUBMISSION ITEMS OF INTEREST

Title: REVISED: New Biosketch Format Required 5/25/15; Sponsor: NIH; Deadline(s): 5/25/15; (The requirement is no longer January 25, 2015); Contact: Grants Information Office of Extramural Research (OER) National Institutes of Health (NIH) Phone: 301-435-0714; Email: GrantsInfo@nih.gov; As always, [also] feel free to contact your assigned Project Officer in Sponsored Projects Administration (SPA) should you have any questions.; Stephanie F. From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.
**Don’t Forget the eSubmission Basics:** I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. *If you can’t view it, we can’t review it!*
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (*NOT-OD-14-091*) or in Rock Talk (*Changes to the Biosketch*) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’
that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

New Website for iEdison Invention Reporting Information:

Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

You Ask, We Answer:

- Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
- What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article; NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at:
http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at:

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent).; (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI.; (*) Pilot Phase II or Phase I/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. Subject: Peer Reviewed Cancer Research Program Funds New Topic Areas

Good afternoon, New areas of interest for the Congressionally Directed Medical Research Programs Peer Reviewed Cancer Research Program: 1. Cancers related to radiation exposure: Investigations into cancers related to radiation exposure should include research directed to improve the understanding of elevated cancer risk among military service members exposed to increased levels of ionizing radiation including: * Modulation by host factors; * Occupational and environmental exposure; * Assessment of risk among active duty and Veterans; * Routes of exposure; * Dose and risk estimates; 2. Myeloproliferative disorders: Studies within the scope of myeloproliferative disorders as defined by the National Cancer Institute (http://www.cancer.gov/cancertopics/types/myeloproliferative) will be accepted. CDMRP has allocated $25M in funds to this program. Information on the submission process and details on the applications can be found at: http://cdmrp.army.mil/funding/prcrp.shtml; Preapplications are due by June 10, 2014. Be sure to submit on time. *Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)

For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Additional Information: Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.; The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.; Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included: (*) Subrecipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form – only required when the proposed subrecipient is not included in the

FDP Institutional Clearinghouse.; In addition to the forms, a detailed budget, budget justification, statement of work and biosketch for each key personnel must be included in the proposal for each subrecipient.; Risk Assessment: SPA, in close collaboration with the Research Policy and Indirect Cost (RPIC) division of the Controller’s Office, will determine a subrecipient’s risk of noncompliance prior to issuing a subaward agreement. SPA will communicate with the PI should there be risks identified. Risks are addressed in a number of ways, and may include imposing specific subaward conditions or additional requirements in the subaward agreement. Risk assessments will not deter proposal submissions.; Should you have any questions about the Policy or forms, please feel free to contact your assigned SPA Project Officer.; Sincerely, Rudina Odeh-Ramadan; Associate Vice President for Research Administration; Sponsored Projects Administration; Carl Sparano; Executive Director, Indirect Cost Analysis; Research Policy and Indirect Cost; Controller’s Office;
