### ENVIRONMENTAL EPIDEMIOLOGY CLIMATE CONNECTIONS (E2C2)

Register Here for any of our currently scheduled Environmental Epidemiology Climate Connections (E2C2) meetings! We will plan on meeting this Fall on the second (2nd) and fourth (4th) Tuesdays of October [12, 26], November [9, 23 (TG week)], and December [14, (no meeting on the 28th)] from 4PM-5PM. We’ve added these dates to our standing E2C2 Zoom Meeting url and hope to add on-site / in person facets, contingent on room availabilities when logistically feasible. We will poll affiliates relative to their availabilities to join on site meetings, report to you discussion leader(s), subject(s)/paper(s), and on-

| DoD/CDMRP - COVID-19 Impact on Research Awards [No Link Provided]  
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science | Department of Defense | NA |
| Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation |

### Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round. For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component...

## ANTIVIRALS
Notice of Intent to Publish a Funding Opportunity Announcement for Antiviral Drug Discovery (AViDD) Centers for Pathogens of Pandemic Concern (U19 Clinical Trial Not Allowed)

- **National Institute of Allergy and Infectious Diseases**
- **10/15/2021 (First Estimated Application Due Date)**

## CHRONIC LUNG DISEASE
Notice of Change in Key Dates and Award Information for RFA-HL-21-013 "Disease Modifying Therapies for Chronic Lung Disease (R61/R33 Clinical Trial Required)"

- **National Heart, Lung, and Blood Institute**
- **06/02/2022 (Revised/updated application due date); 06/03/2022 (Expiration)**

## DOWN SYNDROME
Notice of Special Interest (NOSI): Use of Digital Technology and Mobile Health (mHealth) to Improve Diagnosis, Assessments, Interventions, Management and Outcomes for Individuals with Down Syndrome Across the Lifespan (R21 Clinical Trial Not Allowed)

- **National Institutes of Health; National Center for Complementary and Integrative Health; National Cancer Institute; National Eye Institute; National Heart, Lung, and Blood Institute; National Institute on Aging; National Institute of Arthritis and Musculoskeletal and Skin Diseases; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Deafness and Other Communication Disorders; National Institute of Dental and Craniofacial Research**
- **10/16/2021 (First Available Due Date); 11/17/2023 (Expiration Date)**

Small Research Grants for Analyses of Down Syndrome-related Research Data for the INCLUDE Project (R03 Clinical Trial Not Allowed)

- **NIH**
- **11/03/2021; 11/04/2021 (Expiration)**

## CONTRACEPTION
Contraception Development Research Center Program (P50, Clinical Trial Optional)

- **Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD)**
- **11/29/2021; 11/30/2021 (Expiration)**

## VISION RESEARCH
NEI Vision Research Epidemiology Grant (UG1 Clinical Trial Not Allowed)

- **National Eye Institute**
- **09/25/2021; 01/25/2022; 05/25/2024; 09/08/2024 (Expiration)**

[NTW] [WEEKLY HIGHLIGHT/NIH ANNOUNCEMENTS/COVID-19]
Clarification and Guidance for Applicants Preparing Applications for the Fall 2021 Due Dates During the COVID-19 Pandemic

**Sponsor:** Office of the Director, NIH

**Deadline(s):** 08/25/2021 (Release Date)

**Contact:** NIH Review Policy Officer; ReviewPolicyOfficer@mail.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-180.html

**Additional Information:** Last week, NIH issued announcement NOT-OD-21-180, which provides additional guidance related to COVID-19 for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings. Please see text of the announcement below, especially highlighted section.

**Purpose:** The NIH remains firmly committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to clarify the guidance provided earlier NOT-OD-21-026, for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings. Reviewers will continue to receive instructions to assume that constraints arising from the COVID-19 pandemic (e.g., lab occupancy restrictions, declines in patient accrual, etc.) will be resolved during the project period and thus should not affect their scores. 

**Therefore, NIH grant applications should NOT include contingency or recovery plans for problems resulting from the COVID-19 pandemic.** However, applicants may address effects due to the pandemic on productivity or other scoreable issues in their Personal Statement in the NIH Biosketch. Reviewers will be instructed to take these pandemic-related circumstances into account when assessing applicants’ productivity and other score-driving factors.

As with previous instructions, if needed, NIH staff will request and assess plans to resolve specific problems arising from the COVID-19 pandemic prior to funding. [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Columbia University; Columbia University Irving Medical Center; sfs2110@cumc.columbia.edu

**Additional Information:** NIH recently released new clarifications for the Other Support format pages and Biographical Sketches. Key clarifications include:

- Signatures are not required on the Other Support format pages until January 25, 2022, regardless of whether you use the old or new formats.
- Completed support from the last three years is no longer required in Other Support. Only include *active and pending* projects. Awardees must report significant changes in Other Support in RPPRs, such as a change in status of previously reported current or pending projects, or access to a new resource/in-kind contribution.
- Only unique, high-value materials and data received *within the past three years, that are still in use,* must be included as in-kind contributions in Other Support.
- Only *current* positions and scientific appointments are required in the Biosketch. Applicants may choose to include past appointments that they wish to highlight.
- Consulting agreements must be included in Other Support only when the PD/PI or other senior/key personnel will be conducting research as part of the consulting activities. Non-research consulting activities are not Other Support.
- Include *estimates for the amount paid,* rather than time and effort reflected in calendar months, for consulting that is disclosed in Other Support.

**Rather than simply updating a previously submitted Other Support form, we strongly recommend that you create a new form from scratch, to ensure that you are able to implement all changes.**

To assist you further, we created additional FAQs based on questions collected from researchers and administrators at Columbia University. They are meant to *supplement* NIH’s FAQs. In addition, we will be hosting monthly webinars to walk you through the forms. Stay tuned for a separate communication with the webinar schedule.

All questions should be directed to your SPA Project Officer. Below is a listing of applicable resources:

**Additional Information:** This announcement informs the research community of the creation of a central email inbox for inquiries related to changes to the biographical sketch and other support templates in response to the high volume of inquiries received. Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov. NIH is diligently working to ensure complete and timely responses to inquiries received to date via existing email inboxes. The research community may elect to forward inquiries that are pending a response to the new central email inbox, as needed. NIH encourages the research community to review the currently available resources related to this effort: Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here. 2021; NOT-OD-19-114 - Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components; It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Updated Other Support resources, including FAQs and sample Other Support format pages can be found here.; One of the most important changes in the Biosketch instructions is Section B: “List in reverse chronological order all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”; This is critical. The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

<table>

**Additional Information:** NIH-Wide Strategic Plan for FY 2021-2025 Now Available; We are pleased to announce that the NIH-Wide Strategic Plan for Fiscal Years (FYs) 2021-2025 is now available. This updated plan articulates NIH’s highest priorities over the next 5 years, outlining our vision for the future direction, capacity, and stewardship of biomedical and behavioral research.; The plan is organized around a framework of three key objectives: [1] Advancing Biomedical and Behavioral Sciences; [2] Developing, Maintaining, and Renewing Scientific Research Capacity; [3] Exemplifying and Promoting the Highest Level of Scientific Integrity, Public Accountability, and Social Responsibility in the Conduct of Science.; The plan weaves five cross-cutting themes across these objectives, centered around minority health and health disparities, women's health, public health challenges across the lifespan, collaborative science, and data science. The plan also mentions several achievements made during the previous FY 2016-2020 plan, but please recognize that this plan is not meant to describe everything NIH does.; As Dr. Francis Collins, the NIH Director, notes in the opening statement, “NIH will [invest] efficiently and effectively in a wide range of basic, translational, clinical, and applied research, while at the same time supporting the workforce and infrastructure required for a sustainable research enterprise. As outlined in this Strategic Plan, this approach will enable NIH to build a solid foundation of fundamental knowledge about living systems that will serve to accelerate research aimed at addressing our most pressing health needs.”; We appreciate members from the research community, professional societies, advocacy groups, and the public who worked with us and provided feedback throughout the process to develop this plan.

Additional Information: NIH Loan Repayment Program 2022; The National Institutes of Health (NIH) released six separate program announcements for the 2022 application cycle of the NIH Loan Repayment Program (LRP). The LRP may repay up to $50,000 of qualified student loan debt per year to outstanding health professionals who commit at least two years to conduct biomedical, behavioral, social, or clinical research, and who agree to engage in such research for an average of at least 20 hours per week based on a 40-hour work week. This includes most undergraduate, graduate, and medical school loans. Loan repayment benefits are in addition to the institutional salary received for research. LRP awards are based on an applicant’s potential to build and sustain a research career. NEW – the application process is different this year! All applications must be submitted through the Application Submission System & Interface for Submission Tracking (ASSIST), and not the LRP website. We will provide more explicit instructions on how to apply through ASSIST as it becomes available. ASSIST will begin accepting applications on September 1st, 2021 through November 18, 2021, 8pm EST; Potential applicants should carefully read the general eligibility requirements, plus the eligibility requirements and application instructions under each funding announcement. Questions concerning eligibility should be discussed with NIH staff. Find the appropriate contact at the Contact and Engage page.; The six program announcements are: NOT-OD-21-139 – LRP for Clinical Researchers (LRP-CR); NOT-OD-21-140 – LRP for Pediatric Research (LRP-PR); NOT-OD-21-141 – LRP for Health Disparities Research (LRP-HDR); NOT-OD-21-142 – Clinical Research LRP for Individuals from Disadvantaged Backgrounds (LRP-IDB); NOT-OD-21-143 – LRP for Contraception and Infertility Research (LRP-CIR); NOT-OD-21-144 – LRP for Research in Emerging Areas Critical to Human Health (LRP-REACH) – NEW; Please note: Recipients of Ruth L. Kirschstein National Research Service Award (NRSA) support from an individual postdoctoral fellowship (F32) or an institutional research training grant (T32) will be eligible for loan repayment during the second year of NRSA support if a formal extension of the NRSA service payback is granted (see NIH Training Payback). Concurrent fulfillment of LRP and NRSA service obligations is prohibited. You must request a deferral of NRSA payback service prior to acceptance into the LRP. A deferral form can be obtained by contacting the LRP Help Line at 866-849-4047. It is important to note, though, that NRSA recipients may continue to receive their stipends from the NRSA; All general questions should be directed to the LRP Information Center at (866) 849-4047 or lrp@nih.gov; [brought to our attention by] Stephanie F. Dear Colleagues:

The National Science Foundation (NSF) has enabled a number of enhancements for proposals submitted in Research.gov and FastLane, and upcoming revisions to the NSF-approved Biographical Sketch and Current and Pending Support format pages. In addition, NSF announced significant improvements to the NSF Funding Opportunity Search functionality with enhanced features to help you identify opportunities quickly and easily. Please see below for the details. I highlighted in yellow a few key points. We'll be sure to provide more information about these changes soon, and as always, please feel free to ask questions to your SPA Project Officer; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia Research; Sponsored Projects Administration; sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu; New Proposal Functionality, NSF Website Enhancements, and Updates to the Biographical Sketch and Current and Pending Support Formats; Dear Colleagues: The National Science Foundation (NSF) has enabled a number of enhancements for proposals submitted in Research.gov, FastLane, and Grants.gov. In addition, the updated NSF-approved biographical sketch and current and pending support SciENcv and fillable PDF formats that fall under the revised Proposal & Award Policies & Procedures Guide (PAPPG) NSF 22-1 will be available to preview by September 17, 2021.; We are also excited to announce enhanced NSF Funding Opportunity Search functionality and revamped program pages on nsf.gov and beta.nsf.gov, the new version of the NSF website. As NSF builds its new nsf.gov website in small, iterative pieces using the https://beta.nsf.gov/ platform, we are not simply moving existing content from nsf.gov to the new site. Rather, the new website will improve how information is presented for use by various audiences including prospective proposers, grantees, and the general public.; Here's what to know.; Research.gov Proposal Submission System Enhancements; Research.gov proposal features continue to expand to support the transition of all proposal preparation and submission functionality from FastLane to Research.gov by a target date of December 31, 2022. Many NSF funding opportunities are supported in Research.gov and clearly specify whether submission via Research.gov is available or required.; Effective August 30, 2021, Conference and Ideas Lab proposal types, renewal and accomplishment-based renewal submission types, and preliminary proposals for Ideas Lab solicitations are all now available for submission in Research.gov. FastLane must be used to submit preliminary proposals for proposal types other than Ideas Lab until that functionality is available in Research.gov.; The proposal preparation landing page has been revised, and Principal Investigators will now first select the proposal submission type from the drop-down options and then will follow the proposal setup wizard to initiate a new proposal. In progress and submitted proposals are accessible from the tiles on the revised proposal preparation landing page, after first selecting the submission type from the drop-down options.; New automated compliance checks and associated error and warning messages for the enabled proposal and submission types were also implemented. Error messages will prohibit proposal submission to NSF, whereas warning messages still permit proposal submission.; New Frequently Asked Questions (FAQs) were added to the Research.gov About Proposal Preparation and Submission page, and the Proposal Submission Capabilities page has been updated to reflect the latest development updates.; All supported proposal and submission types as well as associated compliance checks are also enabled in the Research.gov Proposal Preparation Demo Site.; Refer to the PAPPG NSF 20-1 for current proposal requirements. Guidelines in the revised PAPPG NSF 22-1 will apply for proposals submitted or due on or before October 4, 2021.; NSF-approved Biographical Sketch and Current and Pending Support Format Updates; Current and Pending Support Fillable PDF Updates; Based on feedback from the research community and NSF Program Officers, NSF has incorporated functionality as of August 30, 2021, in FastLane and Grants.gov to remove any pages which do.
not contain data entered by users (i.e., blank pages) from the NSF-approved current and pending support fillable PDF. This trimming functionality will be integrated in Research.gov on October 4, 2021, in coordination with implementation of the revised PAPPG NSF 22-1 for proposals submitted in Research.gov and project reports submitted in the Research.gov Project Reporting System.; The trimming service only applies to the NSF-approved current and pending support fillable PDF and not to any other uploaded PDFs. Current and pending support PDFs generated in SciENcv do not include blank pages.; The current and pending support fillable PDF document is paginated, and the PDF page numbers will not be updated during the trimming process. This means that it is possible for the trimmed PDF to have skipped page numbers corresponding to the blank pages removed from the fillable PDF. NSF Program Officers are aware of this potential occurrence in proposals submitted to NSF.; Proposers with in progress proposals as of August 30, 2021, can delete previously uploaded current and pending support fillable PDFs from their FastLane or Grants.gov proposals and then re-upload them to trigger the trimming service.; Updated Biographical Sketch and Current and Pending Support SciENcv and Fillable PDF Formats; The updated NSF-approved biographical sketch and current and pending support formats will be available in September 2021 to preview before they are required on October 4\%\%\%.

The updated fillable PDF formats will be available for download from the NSF biographical sketch and current and pending support websites by September 3\%\%\%\%\%\%! Updated SciENcv formats will be available on the SciENcv Create a New Document screen by September 17\%. Biographical sketch format updates include increasing the page limit from two to three pages; Current and pending support format updates include the addition of new sections for information on objectives and overlap with other projects to help NSF and reviewers assess overlap/duplication; Although submission of the updated NSF-approved formats is not permitted (i.e., Research.gov, FastLane, and Grants.gov will not allow the 22-1 forms to be uploaded) until implementation of the revised PAPPG NSF 22-1 on October 4, 2021, NSF is encouraging proposers and grantees to begin familiarizing themselves with the updated NSF-approved formats when they are available; Enhanced Funding Opportunity Search Functionality and Revamped Program Pages; Based on extensive research with external and internal stakeholders, NSF has made significant improvements to the NSF Funding Opportunity Search functionality to help researchers and prospective researchers quickly and easily find relevant programs and NSF-funded projects in specified disciplines. Funding Search results now include short program descriptions, programs incorporated in core program solicitations with links to the relevant guidelines, and Dear Colleague Letters; The revamped program pages include significant content and navigation improvements including information previously only viewable in solicitations; For more information about NSF’s beta site, please visit https://beta.nsf.gov/about-beta. NSF will continue to enhance the site, and ongoing feedback from external and internal stakeholders is vital to the process. Feedback on the updated Funding Search and program page enhancements or any other aspect of the site may be directed to beta-nsf-feedback@nsf.gov. Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.; Regards, National Science Foundation

**Additional Information:** NSF Predictive Intelligence for Pandemic Prevention – EVPR Information and Networking Session on August 4 for NSF 21-590 Solicitation; A new exciting NSF Development Grant opportunity: Predictive Intelligence for Pandemic Prevention (PIPP) on behalf of the Columbia Research Deans and Leaders: Garud Iyengar, Bob Mawhinney, Gary Miller, Mike Shelanski, Maureen Raymo, and Jeannette Wing. An information session will be held on Wednesday, August 4, 2:00 – 3:30 pm EST registration here. All faculty are welcome to attend! During the information session, participants are welcome (but not required) to give lightening talks to present their proposed research contribution in response to this funding announcement in 1-2 minutes. Discussion will take place on potential partnerships and participation. This opportunity spans very broad areas of research, and it is expected there will be balanced participation from computer and information science, biology, engineering, and social, behavioral, and economic sciences.; For questions about this event, or for more information about this opportunity, please email Victoria Hamilton, Executive Director, Research Initiatives, at victoria.hamilton@columbia.edu. See below for more information; Dear Faculty, The NSF has created a new program: Predictive Intelligence for Pandemic Prevention (PIPP). The goal is to transform society’s ability to forecast the likelihood of pandemic-scale events, detect outbreaks early, and respond quickly, thereby limiting transmission before an epidemic, let alone a pandemic, can occur. Please join our upcoming info session about this opportunity:  
**Date: Wednesday, August 4 (2:00 PM - 3:30 PM EDT); REGISTER HERE ; About; In anticipation of a future major multi-year Center Grant RFP, the NSF has issued an RFP for a Development Grant of up to $1M and 18 months duration, due October 1, 2021. Four directorates of NSF (BIO, CISE, ENG, SBE) collaborated on this RFP, and a successful proposal will have PI’s and co-PIs balanced participation across each of the four disciplines.; The $1M Development Grant is to: Articulate and refine a vision of an innovative interdisciplinary Grand Challenge that a Center should pursue; Support team-formation activities (e.g., filling expertise gaps), to develop and nurture relationships with the stakeholder community, and to access specialized resources needed to address the proposed challenge; Pursue one small portion of the research that the Grand Challenge proposes to address.; Because of NSF’s emphasis on cross-disciplinary convergent research, Research Deans and Leaders (Garud
Iyengar, Bob Mawhinney, Gary Miller, Mike Shelanski, Maureen Raymo, and Jeannette Wing are sponsoring a workshop for this opportunity; **Meeting Agenda:** Overview of the solicitation requirements, webinar and FAQ (15 minutes + 5 minutes Q&A); 2 Minute Lightning Talks – Slide Submissions (30-45 minutes) - Participants are welcome (but not required) to sign up to present your research contribution or vision in 1-2 minutes. See guidelines below.; Discussion of synergies, ideas for partnership (15 minutes); **Presentation/Submission Guidelines;** Submission Deadline: Monday, August 2 (5:00 PM EDT) - Please submit within the deadline to give a presentation. Note that if you submit after the deadline, we will try to review and include your presentation.; **SUBMISSION FORM:** Lightning talks are open to all attending the event. Anyone presenting should prepare a single slide, submitted to including the following: Your name, department and school (to be shared with all participants); Identify the slide as either: Grand Challenge vision – what should the center do?; Contributions of relevant research expertise; Further ideas for collaboration; **More Information:** The Development Grant RFP is online here; The NSF sponsored four workshops to help shape the PIP program. You can find the list of speakers/attendees, topics, and recordings online here; The RFP Webinar of July 13 and FAQs is online here; We hope you can attend.

**Additional Information:** May 28, 2021; Statement by NSF Director Sethuraman Panchanathan on the President’s FY22 Budget Request; President Proposes Crucial Investments to Advance the Frontiers of U.S. Science and Technology; The Biden-Harris Administration today submitted to Congress the President’s Budget for fiscal year 2022. As the Administration continues to make progress defeating the pandemic and getting our economy back on track, the Budget makes historic investments that will help the country build back better and lay the foundation for shared growth and prosperity for decades to come.; “This request will bolster the U.S. economy and our leadership in critical and emerging areas of research and technological advancements, which are essential to our long-term economic and national security,” said NSF Director Sethuraman Panchanathan. “NSF’s mission is unique in supporting research across all fields of science, technology, engineering, and mathematics, and all levels of STEM education. Seven decades of experience building the necessary partnerships between federal, state, and local government, academia, and industry have produced remarkable results for the country. With this budget, we can rapidly scale our investments and build even stronger bridges between discovery, innovation, and commercialization.”; The Budget includes more details on what is proposed in the two historic plans the President has already put forward — the Americans Jobs Plan and the American Families Plan – and reinvests in education, research, public health, and other foundations of our country’s strength. At the U.S. National Science Foundation, the Budget would: **Enhance Fundamental Research and Development.** $9.43 billion, an increase of $1.55 billion above 2021 enacted level will support research across the spectrum of science, engineering and technology. This includes biological sciences; computer and information sciences; engineering; geosciences; math and physical sciences; social, behavioral, and economic sciences; and education. With this additional funding, NSF will continue to be the champion of basic and fundamental research and will strengthen it at speed and scale.; **Strengthen U.S. Leadership in Emerging Technologies.** Includes the establishment of a new directorate for technology, innovation and partnerships within NSF to help translate research into practical applications. The directorate will work with programs across NSF and with other federal and non-federal entities to expedite technology development in emerging areas that are crucial for the United States’ technological leadership.; **Advances Equity in Science and Engineering.** +$100 million, an increase of about 50 percent, in funding for
programs that aim to increase participation in science and engineering of individuals from racial and ethnic groups underrepresented in these fields. Funding will support curriculum design, research on successful recruitment and retention methods, development of outreach or mentorship programs, fellowships, and building science and engineering research and education capacity at historically black colleges and universities, and other minority-serving institutions.; **Advances Climate Science and Sustainability Research**. $1.2 billion for climate and clean energy-related research will fund a broad portfolio of research related to climate science and clean energy, including research on atmospheric composition, water and carbon cycles, modeling climate systems, renewable energy technologies, materials sciences, and social, behavioral, and economic research on human responses to climate change.; **Continues Construction of Forefront Research Infrastructure**. Invests in the continued construction of major NSF research facilities, including long-term upgrades of NSF’s major Antarctic infrastructure. It also supports construction of the Vera C. Rubin Observatory to enable astronomy research. In addition, the budget request seeks funding for the construction and procurement of smaller research facilities and equipment across the nation.; Enacting the Budget policies into law this year would strengthen our Nation’s economy and lay the foundation for shared prosperity, while also improving our Nation’s long-term fiscal health.; For more information on the President’s FY22 Budget, please visit: [https://www.whitehouse.gov/omb/budget/](https://www.whitehouse.gov/omb/budget/); For more information on the NSF budget, please visit: [https://beta.nsf.gov/budget](https://beta.nsf.gov/budget); -NSF- [brought to our attention by Stephanie Scott / SPA]

The Alliances are integral to NSF INCLUDES and bring together new partners from many academic and professional disciplines and leverage the five design elements of collaborative infrastructure to address a broadening participation challenge at scale. In FY 2018 and FY 2019, NSF INCLUDES funded a total of eight Alliances. For more information on funded NSF INCLUDES Alliances, visit [https://www.includesnetwork.org/home](https://www.includesnetwork.org/home).; NSF INCLUDES Alliances build the infrastructure necessary to foster collaboration and broaden participation in STEM by emphasizing the following five design elements of collaborative infrastructure: Shared Vision - Develop a shared vision and strategy (e.g., problem statement and theory of change)
for broadening the participation of the target population(s) in STEM along with relevant metrics of success and key milestones/goals to be achieved during the project's lifecycle; Partnerships - Develop multi-stakeholder partnerships and build infrastructure among them to decrease social distance and achieve progress on common goals targeted by the Alliance; Goals and Metrics - Contribute to the knowledge base on broadening participation in STEM through broadening participation and implementation research, sharing project evaluations, data, new scientific findings/discoveries, and promising practices; Leadership and Communication - Establish a "backbone" or support organization that provides a framework for communication and networking, network assistance and reinforcement, visibility and expansion of the Alliance and its partners, that will collaborate with the NSF INCLUDES Coordination Hub; Expansion, Sustainability, and Scale - Advance a logic model or other heuristic that identifies Alliance outcomes that reflect implementation of change at scale and progress toward developing an inclusive STEM enterprise; NSF anticipates making up to three Alliance awards with a duration of five years, contingent on availability of funds and receipt of competitive proposals. Awards will range from $1.0 to $2.0 million per year for five years depending on the goals, objectives, and the size of the communities involved.; Eligibility: The lead PI must possess the experience and institutional support necessary to implement and manage the INCLUDES Alliance.; Deadlines: Internal Proposal due 9:00 a.m. on Wednesday, August 25, 2021; Sponsor Letter of Intent due October 4, 2021; Sponsor Proposal due January 25, 2022; How: For more information, please visit the internal application at https://columbia.infoready4.com/#competitionDetail/1848662; Questions should be sent to Greg Culler at limitedsubmissions@columbia.edu.; Program Solicitation: https://www.nsf.gov/pubs/2020/nsf20569/nsf20569.htm ; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://columbia.infoready4.com/#limitedsubmissions; C O L U M B I A | R E S E A R C H

For the purpose of this FOA, a dyad is a unit of two individuals whose interactions and influences on one another are nested within larger social contexts and networks. Both animal and human subjects research projects are welcome. Types of projects submitted under this FOA include but are not limited to, observational studies involving humans, or existing/synthesized datasets studies. For the purpose of this FOA, a dyad is a unit of two individuals whose interactions and influences on one another are nested within larger social contexts and networks. Dyads are social relationships that extend beyond the individual and have strong bidirectional influences on physical and mental health. For the purpose of this FOA, independent effects are those effects that affect each member of the dyad individually (i.e., by nature of being part of the dyad), whereas interdependent effects are those that affect one member of the dyad contingent upon the other member of the dyad (i.e., not only because the individual is part of a dyad but also because being part of the dyad has an effect on the other individual within the dyad as well).

**Addtional Information:** Sending on behalf of the Naomi Berrie Diabetes Center of Columbia University, and the Russell Berrie Foundation. Please send all questions to Dr. Utpal Pajvani up2104@cumc.columbia.edu. Applications are due **October 1, 2021.** See attached PDFs for more details and specific application instructions.; **2021 Naomi Berrie Diabetes Center; Russell Berrie Foundation Awards in Diabetes Research;** This program is designed to support the mentored diabetes-related research activity of outstanding postdoctoral fellows for a period of up to two years. The program will support postdoctoral scientists at up to $75,000 per year, for a maximum of two years (for a total of $150,000). Start dates are in January 2022. A second year of funding may be available contingent upon progress made in the first year and other programmatic considerations.; All postdoctoral scientists are eligible to apply to one of the following award mechanisms: 1) The Russell Berrie Foundation Fellow Award will be awarded to 2 post-doctoral scientists at Columbia University. Research projects can be laboratory-based or clinical, and can relate to causes, consequences or treatments of diabetes and allied disorders such as obesity. ; 2) The Russell Berrie Foundation Scholar Award will be awarded to 1 foreign (non-US citizen) post-doctoral scientist being recruited by any lab at Columbia University to engage in clinical or laboratory research in diabetes and allied disorders such as obesity. Ideally, this will be a prospective application for an outstanding recruit who would otherwise not be able to be hosted by a Columbia University lab due to ineligibility for most funding mechanisms, such as NIH-supported training grants.; For all awards, applicants with a committed career path in diabetes and obesity research, as demonstrated by prior achievements, completed training, or special skills in novel and underrepresented research themes, will be given preference. “High risk” studies, designed to test or extend novel concepts, are encouraged.; Please review the attached RFAs for further details. Applications are due to Dr. Utpal Pajvani up2104@cumc.columbia.edu by **October 1, 2021.**

**Additional Information:** NIH NOSI supports returning biomedical researchers; NIH Office of Research on Women's Health; NIH NOSI Supports Returning Biomedical Researchers; NIH has announced a new supplements program for researchers returning to biomedical careers after a qualifying absence. Under “Notice of Special Interest (NOSI): Research Supplements to Promote Reentry and Reintegration into Health-Related Research Careers” (NOT-OD-21-134), successful applicants will be able to participate in full- or part-time mentored research experiences through existing NIH research grants. Eligible for these reentry supplements are individuals whose research careers have been interrupted for at least 6 months because of family responsibilities or other qualifying circumstances. The reintegration supplements will enable individuals to find supportive scientific environments after departure from an unsafe or discriminatory environment resulting from unlawful harassment.; Most candidates for the reentry supplements will have a doctoral degree or equivalent; however, some awarding NIH Institutes and Centers may enable predoctoral students, including those enrolled in dual-degree programs, to apply. Postdoctoral and predoctoral students are eligible to apply for reintegration supplements to allow them to transition to a safe, supportive research environment and complete their graduate degrees.; Click here for more information, including detailed eligibility requirements and staff contacts. The first available due date for submissions is August 26, 2021, and the supplements program is set to expire on October 7, 2023.; Related Announcements: PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional)

Additional Information: The Peter T. Rowley Breast Cancer Scientific Research Projects (Round 7) Request for Applications (RFA) has been released. This RFA provides funding for researchers to try new methods and approaches in breast cancer research. The NYS Health Research Science Board wishes to stimulate and support research related to breast cancer biology, causation, prevention, detection or screening, treatment (including treatment of its effects), survivorship or cure. Any investigative approach appropriate to the application topic may be pursued, including, but not limited to, basic, translational, clinical, demographic, mapping, epidemiological, environmental, behavioral or psychosocial research. Projects will be supported by the state’s Breast Cancer Research and Education Fund. Approximately $2.16 million will be available through this RFA to support approximately five to seven of these awards. Annual direct costs are capped at $150,000. The contract term will be up to two years. To download a copy of the RFA and instructions, visit the New York State Grants Gateway: https://grantsgateway.ny.gov/intelligrants_NYSGG/module/nysgg/goportal.aspx?NavItem1=4&ngoID=5001954. New Research Funding Opportunity - National Priorities: Water Innovation, Science, And Engagement to Advance Water Reuse Request for Applications (RFA) and Informational Webinar; National Priorities: Water Innovation, Science, And Engagement to Advance Water
Reuse Request for Applications (RFA); COVID-19 Update: EPA is providing flexibilities to applicants experiencing challenges related to COVID-19. Please see the Flexibilities Available to Organizations Impacted by COVID-19 clause in Section IV of EPA’s Solicitation Clauses.; URL: National Priorities: Water Innovation, Science, and Engagement to Advance Water Reuse Request for Applications (RFA); Open Date: July 19, 2021; Close Date: September 29, 2021; Join us for an Informational Webinar. The U.S. Environmental Protection Agency (EPA) is seeking applications for research to accelerate water innovation that advances clean and safe water reuse goals, promotes better understanding of the Nation’s water and wastewater treatment and infrastructure, and enhances the availability and efficient use of water resources through water reuse. This new funding opportunity is titled National Priorities: Water Innovation, Science, And Engagement to Advance Water Reuse Request for Applications (RFA); Safe and reliable water supplies are critical for our Nation’s public health, ecosystems, and economy. As 89 percent of the western U.S. currently faces a drought, communities, agriculture, and businesses across the country are looking to diversify their supply portfolios to meet current and future needs. Water reuse (also commonly known as water recycling or water reclamation) represents a major opportunity to enhance the sustainability and efficient use of water resources to ensure the quality and quantity of existing water supplies. Water reuse is a well-established practice in some areas of the United States and internationally, yet substantial barriers exist to expand its consideration and application for different purposes and benefits.; This RFA is intended to address multiple water reuse sources and applications that support national efforts to reduce technological and institutional barriers for expanded water reuse.; Applications should address at BOTH of the following research areas: Research Area 1: Science, Technology Development, and Validation for Water Reuse Applications; Research is needed to help inform the role of water reuse in securing water availability and water quality for user communities. Research gaps exist for future fit-for-purpose specifications using risk assessment strategies; brine reduction and disposal technologies and processes; development of real-time monitoring and control strategies for water treatment processes; and assessment, demonstration, and validation of novel or improved treatment technologies.; Research Area 2: Social Science, Information, Engagement, and Organizational Barriers to Water Reuse; Research is needed to improve the national understanding of the water available for reuse and the critical impediments to advancing water reuse across the U.S., including public acceptance. Both social and organizational barriers contribute to the critical research gaps surrounding reuse, including, but not limited to potential policy, legal, regulatory, financial, and social impediments. More research is needed on the best approaches for improving cross-organizational engagement as well as approaches that increase public acceptance of water reuse.; For information on eligibility, project specifications, or how to apply, visit: National Priorities: Water Innovation, Science, and Engagement to Advance Water Reuse Request for Applications (RFA); Learn more about the Safe and Sustainable Water Resources (SSWR) Research Program.; Learn more about EPA Research Grants.; Informational Webinar; Date: August 5, 2021; Time: 2:00 p.m. ET; Join us for an informational webinar on the National Priorities: Water Innovation, Science, And Engagement to Advance Water Reuse funding opportunity. The webinar will cover application information and provide an overview of what has already been provided in the RFA.; Webinar Objectives: Share general information and information on research areas for the RFA (EPA Project Officer); Learn about the submission, eligibility, relevancy review and peer review processes (EPA Eligibility, Submission, and Peer Review Officers); Question & answer session; A copy of the webinar presentation will be available on the RFA webpage for those unable to participate in the scheduled webinar.

Additional Information: Limited Submission; Curing Kids Cancer; Internal Deadline – 9:00 a.m. on Friday, September 3; What: Curing Kids Cancer funds innovative research to develop cutting-edge therapies for children with cancer in support of their overarching mission to find cures for childhood cancers in our lifetime. The goal of these grants is to overcome barriers to clinical application of new treatment approaches for childhood cancer. A priority is to fund projects that have already shown great promise, but that have a specific funding need to move forward. The three main focus areas for this RFP are: Cancer immunotherapy/Targeted therapy; High-grade brain tumors; Therapeutic targeting through genomics/epigenetics; Application of novel technologies in these areas are welcome; Two types of one-year grants are to be awarded: Collaborative: Up to 1 multi-institutional collaborative grant of $300,000 will be awarded; There must be at least 2 collaborating divisions of pediatric hematology/oncology; Collaborative project can either include a new proposal or a proposal where preliminary data has already been gathered; Individual: 2-4 individual grants of $150,000 each will be awarded; Please Note the following: Applications to fund correlative studies associated with clinical trials in the focus areas will be considered. Funding for the associated clinical trial must have already been secured and applications must include a description of the developmental pathway for the therapeutic approach; The NIH salary cap must be employed; 10% indirect costs from the total award will be allowed (e.g., maximum $15,000 indirect and $135,000 direct costs per award); Who: Applicants must hold full-time faculty appointments as Professor, Associate Professor, or Assistant Professor.; When: Internal Deadline – 9:00 a.m. on Friday, September 3.; Sponsor Deadline – Monday, October 4.; How: The Internal Application must include the following; Project Information: PI – Name, department, and email; Co-PIs – Name and department; Project Title; Grant Type – Individual Grant or the Collaborative Grant; A Specific Aims page (1 page limit), that concisely states the issue or problem to be addressed, describes the long-term goals or objectives of the project and clearly states the hypothesis to be tested.; Biosketch for the PI and Co PIs.; Applications should be sent as a single PDF to limitedsubmissions@columbia.edu. “Curing Kids Cancer” should appear in the subject line.; Questions: Dr. Darrell Yamashiro at dy39@cumc. columbia.edu; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://columbia. infoready4.com/#limitedsubmissions ;

Contact: Please direct all inquiries to the Bridge2AI program staff who will respond to inquiries sent to this email: bridge2AI@od.nih.gov.
Additional Information: The Bridge2AI Program seeks to bridge the biomedical and behavioral research communities with the rapidly growing community of experts developing AI/ML models by producing flagship datasets that adhere to the FAIR principles (Findable, Accessible, Interoperable, Reproducible) and critically integrate ethical considerations in preparing data for computation. The program will use biomedical and behavioral research grand challenges to drive the development of ethics, standards, tools, data sets, and skills and workforce development strategies for linking scientific workflows, protocols, and other information about the data collection process into computable knowledge. Data sets may be linked to existing clinical, environmental and surveillance data as required by the chosen grand challenges. The overall goal of the Bridge2AI Program is to generate flagship datasets and best practices for the collection and preparation of AI/ML-ready data to address biomedical and behavioral research grand challenges. The Bridge2AI program will require multiple scientific domains to come together with data science, data management and analytic experts to unlock the potential of AI/ML for the scientific community.

2022 Call for Project Proposals; Columbia University Center of AI Technology in Collaboration with Amazon;

Dear Colleagues, The Columbia Center of AI Technology in collaboration with Amazon is pleased to announce its 2022 Call for Research Project Proposals; Columbia faculty members, from all departments in SEAS and other Columbia schools, will be eligible to submit proposals. Collaborations led by Columbia faculty involving faculty from other universities and institutions in the greater New York City metropolitan area are welcome. The Center encourages collaborations among the School of Engineering and other schools and disciplines; A list of the 2021 Funded Research Projects can be found on the [CAIT website](https://cait.engineering.columbia.edu/).

**Founded in 2020,** the Center is a collaborative effort between Columbia and Amazon with a mission to better society through the development and adoption of advanced AI technology contributing to a more secure, connected, creative, sustainable, healthy and equitable humanity. Each year, the Center funds approximately 5 research projects through generous support from Amazon.

In the 2022 cycle, the Center will award projects in the following research focus areas: Foundations of AI and Machine Learning; Conversational AI/Natural Language Processing; Multisensory Multimodal AI; Fairness, Explainability, and Accountability in AI; AI for Human-Agent and Human-Robot Interaction; AI for Information Security; Cloud and Computing Systems for AI; Computer Vision; Operations Research and Optimization; Search and Information Retrieval; Information and Knowledge Management; AI/ML Sustainability; To learn more about the Center, projects, and how to apply, please review the sections below; All proposals are due by September 10th, 2021; Questions can be sent to CAIT program manager Libby Goss libby.goss@columbia.edu; The Center of AI Technology; Founded in 2021, the Center of AI Technology (CAIT) is a collaborative effort between Columbia and Amazon with a mission to better society through the development and adoption of advanced AI technology contributing to a more secure, connected, creative, sustainable, healthy and equitable humanity; Amazon has made significant investments in AI, developing cutting-edge technologies to address the opportunities and challenges across a broad spectrum of applications and customer needs. Amazon and Columbia have had productive collaborations through successful research awards and the participation of several Columbia faculty members in the Amazon Scholars program. With the launch of the Center of AI Technology, Columbia Engineering and Amazon further aim to advance research and technology development, knowledge discovery, and talent training to achieve beneficial societal impact. This partnership will also benefit from and contribute to the vibrant and rapidly expanding AI tech ecosystem in New York City; The Center's yearly activities include funded research projects and fellowships as well as a number of events and programs including the CAIT Distinguished Lecture Series, the Annual CAIT Research Showcase, and the Annual CAIT Symposium; More information about the Center can be found at the [CAIT website](https://cait.engineering.columbia.edu/). The Center is pleased to invite research project proposals from Columbia affiliates across the university; There are two types of funding mechanisms associated with the project proposals. One is a Sponsored Research Project (SRP), which may involve direct collaboration with Amazon researcher(s). The other mechanism is a Gift-Funded Research Project (GFRP) for more exploratory projects. The Center will support up to 3 SRPs and 1-3 GFRPs annually; All submitted proposals will be considered for both the SRP and GFRP categories. Accepted proposals will be informed of their award type at the time of notification by the Center; Columbia faculty members, from all departments in SEAS and other Columbia schools, will be eligible to submit proposals. Collaborations led by Columbia faculty involving faculty from other universities and institutions in the greater New York City metropolitan area are welcome; Groups receiving funding for the 2021 cycle are eligible to submit new proposals or renewal proposals for expanded continued research. All proposals
will be considered together and equally with new proposals submitted for the 2022 cycle; A list of the 2021 Funded Research Projects can be found on the CAIT website; Funding amount: up to $150,000 for each SRP (including 35% indirect costs, with 50% tuition rate); up to $105,000 for each GFRP (no indirect costs, with full tuition rate); Submitters will be prompted to submit an SRP budget. If a proposal is selected and awarded GFRP funding, the proposal budget will be revised according to University policies on gifts, and the funding amount will be up to $105,000 with no indirect costs; Funding Timeline: Projects are expected to commence on November 1, 2021; As a 6-month progress report, funded project teams are expected to present their progress at the Annual CAIT Research Showcase; Projects should be completed by October 31st, 2022; Projects must submit a final report by November 12, 2022; Proposal Requirements: All proposal materials should be submitted in InfoReady. The system will prompt submitters to include the following: A completed application in the InfoReady system; A project proposal (4 pages maximum not including references, single-spaced, 12-font, Times New Roman); A project budget in Excel; CV’s for Faculty/Collaborators (2 page NSF or NIH style format); All proposals are due by September 10, 2021; The mission of the Columbia University Center of Artificial Intelligence Technology in Collaboration with Amazon is to better society through the development and adoption of advanced AI technology contributing to a more secure, connected, creative, sustainable, healthy and equitable humanity.; Visit the CAIT website; Subscribe to the CAIT mailing list

**DoD/CDMRP - COVID-19 Impact on Research Awards**
[No Link Provided]

CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting, This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point...
between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

FY21 DMDRP and NETP Program Announcements; This e-mail is to notify the research community of the recently released Fiscal Year 2021 (FY21) funding opportunities for the Department of Defense (DoD) Duchenne Muscular Dystrophy Research Program (DMDRP) and the Neurotoxin Exposure Treatment Parkinson’s (NETP) program managed by the office of Congressionally Directed Medical Research Programs (CDMRP). Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website [http://www.grants.gov](http://www.grants.gov), the CDMRP website [https://cdmrp.army.mil/funding](https://cdmrp.army.mil/funding) and the electronic Biomedical Research Application Portal (eBRAP) [https://ebrap.org](https://ebrap.org). Additional information about applying to CDMRP programs, as well as tips for successfully preparing applications for different types of CDMRP award mechanisms, are available in the CDMRP Webinar Series [https://cdmrp.army.mil/pubs/Webinars/webinar_series](https://cdmrp.army.mil/pubs/Webinars/webinar_series); All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website [https://cdmrp.army.mil](https://cdmrp.army.mil); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP [https://ebrap.org](https://ebrap.org). Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov [http://www.grants.gov](http://www.grants.gov). Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

Each fellow is eligible to receive $2,500 per budget period for childcare costs. See FAQs or contact your SPA Project Officer for more details. 

Some key takeaways: The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022. Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18; Eligible childcare is care that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.; At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents.; The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC.; If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request; We’ll provide further guidance on these new costs at a later date.;

Feed: blog – NIH Extramural Nexus; Posted on: Tuesday, March 2, 2021 11:40 AM; Author: Mike Lauer; Subject: Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; View article.; Subsequently, NIH posted this blog, with screen shot, to assist applicants with the request for childcare costs. If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We’ll provide you with any updates.

**Additional Information:** The purpose of this FOA is to encourage research addressing major gaps identified in the United States Preventive Services Task Force (USPSTF) recommendation statement concerning interventions to prevent perinatal depression, with an emphasis on populations experiencing mental health disparities. The research scope for this FOA includes: 1) strategies for identifying women at risk for perinatal depression; 2) developing and testing tools for selecting those most likely to benefit from preventive interventions; 3) testing service-ready efficacious preventive interventions that are of appropriate intensity/dose, and are scalable, such that they can be delivered with fidelity by setting providers; and, 4) testing strategies that can be used to train providers and to support delivery of evidence-based approaches with fidelity across diverse health care and community settings. This FOA is intended to support effectiveness research trials that are statistically powered to provide a definitive answer regarding the effectiveness of the intervention. Support for pilot effectiveness is provided via a companion R34 FOA RFA-MH-21-241 that supports pilot effectiveness studies in preparation for the larger-scale, fully powered studies described in this FOA.

Additional Information: NIH Announces Funding Opportunity to Study the Role of Work in Health Disparities in the U.S.; ORWH recently announced its participation in The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) (PAR-21-275). The funding opportunity will support innovative population-based research designed to identify and characterize pathways and mechanisms through which work or occupation influences health outcomes and health status among populations with health and/or health care disparities.; The main objective of this initiative is to determine the extent and mechanisms by which work, as a social determinant of health, both contributes to and helps alleviate disparities related to health and health care.; Of particular interest are: Projects designed to examine pathways and mechanisms using conceptual model(s) grounded in minority health and health disparities theories that recognize that health disparities arise by multiple and overlapping contributing factors acting at multiple levels of influence; Intersectional approaches that consider different social identities and the embeddedness of individuals within families, households, and communities; Projects that explore whether work can explain the health or health care disparities seen within diseases or conditions (e.g., COVID-19, opioid use disorder, mental/behavioral health, diabetes, cancer, heart disease, asthma, and maternal and infant health); Projects that explore how work contributes to health care disparities—including, but not limited to, disparities in access to preventive, specialty, and emergency care in health insurance coverage and disparities in quality of health care; Applications for The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) will open on September 5, 2021.

**Additional Information**: Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached "Changes from FORMS-E to FORMS-F"; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

Sponsor: National Institutes of Health

Deadline(s): This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.
If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

Additional Information: SPF Spastic Paraplegia Foundation Research Education Support; 2021 REQUEST FOR PROPOSALS; Research Grants – Primary Lateral Sclerosis & Hereditary Spastic Paraplegia; The Spastic Paraplegia Foundation https://sp-foundation.org will be awarding research grants in 2021 concerning the causes of, therapies and cures for Primary Lateral Sclerosis (PLS) and Hereditary Spastic Paraplegia (HSP); Individual grants up to $75,000 per year will be awarded for one and two-year proposals. (Maximum $150,000 for two years.) Proposals on any aspect of Hereditary Spastic Paraplegia (HSP) or Primary Lateral Sclerosis (PLS) (or both) will be considered.; Our goal is to provide half of our research dollars to PLS research, and the other half to HSP research. PLS proposals will therefore not compete against HSP proposals (and vice versa).; A listing of the $9 million in previously funded grants is available at https://sp-foundation.org/research/research-impact.html; The deadline for applications is October 29, 2021.; The application process is outlined in a PDF document titled “2021 Research Grant Guidelines” that is posted on our web site at https://sp-foundation.org/research/submit-proposal.html (There are links to read or download the Guidelines near the bottom of the page.); I hope that our research needs match your current interests, and that you will apply for one of our

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page.
[1] Temporary Extension of Eligibility for the NIH K99/R00 Pathway to Independence Award During COVID-19 Pandemic: NIH just released the following announcement regarding a temporary extension of eligibility for the K99/R00 due to the COVID-19 pandemic.

[2] NIH Extramural Nexus relative to this announcement

**Sponsor:** NIH

**Deadline(s):** NIH will be providing up to a two-receipt cycle extension (roughly eight additional months) of eligibility for prospective applicants meeting the requirements for submission of a K99/R00 application from the time period covered by the June/July 2020 due dates through the February/March 2021 due dates.

**Notice of Requirement for Electronic Submission of all Administrative Supplements**

**Sponsor:** National Institutes of Health

**Deadline(s):** [1] Effective immediately, NIH will begin accepting administrative supplement applications for multi-project awards electronically. Since the administrative supplement applies to the parent award as a whole, the single-project application form package used for research grants and cooperative agreements will be used for these submissions (e.g., Competition ID=“FORMS-F-ADMSUPP-RESEARCH.”); [2] Effective July 25, 2020, the streamlined submission method through the eRA Commons will be discontinued and replaced with the option to initiate the administrative supplement application within eRA Commons and leverage technology available in NIH ASSIST to complete submission.; [3] Effective July 25, 2020, all supplement applications to existing single and multi-project awards must be submitted electronically through Grants.gov using NIH ASSIST, Grants.gov Workspace, or institutional system-to-system (S2S) solutions.

**Contact:** Please direct all inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA) Systems Policy Branch; Email: operasystemspolicy@nih.gov

NIH eSubmission Items of Interest - July 31, 2018

**Additional Information:** NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention.; I highlighted what I thought were the key points below. 

[brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it's a real thing. And, why shouldn't it be? I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new "daddy." "She's two dogs long and one dog tall and looks like she's made from spare parts," Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn't going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn't trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I've at least got something for you. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you'll find this edition to have an interesting mix ... not unlike your favorite mutt.; Where Do I Put the Information I Know You'd Want, But Didn't Ask For?; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, there are page limits you must stay within to convey the requested information.; If you have information that doesn't fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn't have a "natural home" based on our instructions, don't include it.; There are several form fields with tempting names like "Appendix," "Other Attachments," "Other Requested Information," and "Other Clinical Trial-related Attachments." DO NOT use those fields unless requested to do so in the application guide or announcement.; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn't belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them NOT-OD-11-080.; The Duplication Balancing Act: 

The application guide statement "do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form" appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a "Brief Summary" of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don't want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it isn't just extra space to expound on the research strategy.); The Brief Summary in the Protocol Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application.; It should hit the key points at a very high level in as close to plain language as possible.; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.; 

**Space-Fill Compulsion:** 

My mother, an interior designer, never saw a horizontal surface she didn't want to decorate. For years I encouraged her to declutter and often she'd begrudgingly remove a knick-knack from a table of shelf. But the next time I'd visit a new knick-knack was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria 15,000 characters; Brief Summary 5,000 characters; Narrative Study Description 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we've learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you've covered what you need to say in a few paragraphs, then stop. You don't need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It's OK; Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don't bury your main point under unnecessary information.; 

**Do Fellowship Awards Allow Clinical Trials?** 

We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can't independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition,
fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for any serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shoulldering all the responsibility themselves.; *Dog Days of Summer: “Be the person your dog thinks you are.” ; ~ George Elliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see https://research.columbia.edu/content/good-clinical-practice-training or email NIH-GCP@columbia.edu.; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu or sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu/; NIH Guide Notice on Delayed Enforcement.
for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; Dear COGR Members, NIH issued the following Guide Notice this morning, Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants. As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency's definition of "clinical trial" to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, "through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov." NIH will issue a Request for Information (RFI) to seek additional input "on registration and results reporting standards best suited for prospective basic science studies involving human participants." The notice also provides a period of "leniency for applications submitted to the incorrect FOA based on the study type designation" during which time NIH will not "administratively reject any application for submission to an incorrect FOA based on study-type designation." The notice also indicates that the agency "plans to issue FOAs specifically for prospective basic science studies involving human participants." Please see the notice for details.

**Additional Information:**  
Dear Mailman School faculty,  
I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”
I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline** — Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,
Pam Factor-Litvak

January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.” If you have any questions, please contact irboffice@columbia.edu. **Additional Information:** HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.

**Status of the Revised Common Rule:** The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information...;

**Revised Policies:** Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!

**Revised Standard Operating Procedures (SOPs):** Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to; (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be accessed here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.

**Upcoming HRPO Education Sessions:** Monthly IRB-Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; [We want to hear from you!](https://research.columbia.edu/irb); Please send us your questions as well as suggestions for topics for future education sessions!; We look forward to hearing from you!

NIH ANNOUNCEMENTS: On December 31, 2017
Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission
Sponsor: NIH
Deadline(s): 12/31/2017 (Effective Date)
Contact: Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov
Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission.; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH's ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH's ASSIST a try. It's a user-friendly, online solution optimized for NIH applications. ; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original.; Hope you have a great holiday season!; Sheri; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov

Changes to NIH policies and procedures related to human subjects research

Sponsor: NIH
Deadline(s): these proposal application changes in effect for proposals due January 25th, 2018 or later; 01/25/2018 (Effective Date)
Contact: [brought to our attention] by Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials.nih.gov; [and] Stephanie Scott; Director of Policy and Research Development; Sponsored Projects Administration; sfs2110@columbia.edu
Link(s): https://grants.nih.gov/ct-decision/index.htm
https://grants.nih.gov/policy/clinical-trials.htm

Additional Information: I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal
application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants? (2) Are the participants prospectively assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/cl-decision/index.htm.; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm.; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm.; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov; Doing human subjects research? New policies will impact you! Learn more.; Updated application forms (FORMS-E) are required for due dates of January 25, 2018 and beyond – includes new Human Subject and Clinical Trial Information Form. Take a tour of the new form.

Additional Information: Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post.; Key takeaways: (*) If any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “Clinical trials not allowed” or “Clinical trials optional”; (*) The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully.; (*) Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official who assisted you, and confirmed, the selection of the FOA.; [brought to our attention by] Stephanie Scott, sfs2110@cumc.columbia.edu

contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years. Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates. For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates. Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

**Friday Newsletter 09/03/2021**

**Additional Information:** Please also note the highlighted final research report requirement below; Several updates to ASSIST happened [01.19.17], you can read about those updates below; In addition, you may recall that NIH now requires the use of a Final Research Performance Progress Report (FRP PR). See [NOT-OD-17-022](https://grants.nih.gov/grants/policy/guidance/not-od-17-022.htm). Section D.1 in the Participants section will now be included, per the email below regarding eRA Commons updates; I’ll need to provide more information on the FRP PR separately. It appears NIH just posted some FAQs on the FRP PR and Interim RPPR. See [https://grants.nih.gov/grants/policy/guidance/not-od-17-022.htm](https://grants.nih.gov/grants/policy/guidance/not-od-17-022.htm). I’ll provide a separate email with this information.; Should you have any questions, please feel free to reach out to your SPA Project Officer. [brought to our attention by] Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system.; Highlights of ASSIST’s January Software Release: (*) New Access Maintainer Role; (***) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (***) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization. (***) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (***) Access Management within ASSIST for individual applications has not changed; (*) Multi-Employment Functionality; (***) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (***) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the “Select” button.; (*) New Link for SOs from ASSIST to Commons Status Screen; (***) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page.; (***) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed.; (***) This link is only available to Signing Officials.; (*) A Warning if Appendix Material is Submitted in Applications; (***) Per the policy outlined in [NOT-OD-16-129](https://grants.nih.gov/grants/policy/guidance/not-od-16-129.htm), the submission of most appendix materials has been eliminated from NIH applications.; (***) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (*) Form Lock Message Includes User Name; (***) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (***) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock.; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (***) As part of the transition to the use of the Final Research Performance Progress Report (FRP PR), Section D.1 of Participants is now included.; (***) § Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (*) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a] provided picture has been linked at: [https://2eport.files.wordpress.com/2014/04/nihannouncementpicinpddformat.pdf](https://2eport.files.wordpress.com/2014/04/nihannouncementpicinpddformat.pdf); New Status Information screen with some sections expanded, other collapsed.; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; ($) Expand All (default view) and Collapse All buttons show and hide the information on the screen; (*) New Text Filter; ($) A new field will allow you to enter text and display the results on those sections with matches; ($) Matching text will be highlighted, allowing you to quickly locate the information; (*) Important information is displayed along the left side: ($) Warnings; ($) Contact information; (*) Scientific Review Officer (SRO); (*) Grants Management Specialist (GMS); (*) Program Official (PO); ($) Latest Updates; ($) eRA Service Desk contact information; (*) New Print Capabilities; ($) New formatting capabilities allow you to print all the information with the click of a single button; ($) Organized by category; ($) Includes warnings; ($) Includes NIH contacts; **NOTE:** The ability to submit help tickets online will not be available during the downtime listed above.; Joe Schumaker; eRA Communications; Division of Communications and Outreach; NIH Office of Extramural Research; Questions? Who At NIH Can Answer my Question About….?

**Sponsor:** NIH
The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016

Sponsor: NA

Deadline(s): 07/01/2016 (effective)

Contact: Any questions about the government fringe rate should be directed to Carl Sparano at cs16@columbia.edu or voice 212-854-1049.

Link(s): http://spa.columbia.edu/proposals/institutional-information

Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odoh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of

Deadline(s): NA

Contact: If you have any questions, please contact Sheri Cummins, Chief, Grants Management; Division of Communications and Outreach; NIH Office of Extramural Research; cummins.s@mail.nih.gov; 301-496-3405;

Additional Information: Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc); Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by] Stephanie Scott, SPA Communications and Outreach Director, sfs2110; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use
ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

Additional Information: Dear Colleagues, We were pleased to see so many faculty and staff members at the annual HIPAA Privacy and Information Security Briefing. Those of you who were unable to attend the briefing can watch a video of it here: 2016 HIPAA Privacy and Information Security Briefing. The slides and video link are also on the CUMC HIPAA website under HIPAA Educational Information; Although the session was not mandatory, it outlined important information about CUMC’s privacy and information security programs. We encourage you to familiarize yourself with the material; Thank you for your commitment to safeguarding Protected Health Information at the medical center. Your partnership in this endeavor helps make CUMC one of the nation’s leading medical centers; Sincerely, Karen Pagliaro-Meyer; Privacy Officer; Columbia University Medical Center

NIH Releases Protocol Template for Behavioral and Social Sciences Research Involving Humans

**Sponsor:** National Institutes of Health

**Deadline(s):** 03/26/2019 (Release Date)

**Contact:** Please direct all inquiries to: NIH Office of Science Policy

**Additional Information:** Purpose: The National Institutes of Health (NIH) has released a clinical trial protocol template with instructional and example text for NIH funded investigators to use in writing protocols for behavioral and social sciences clinical trials. This template was developed in response to changes in NIH policies that expanded the requirements associated with clinical trials beyond FDA-regulated clinical trials to those studies including behavioral or social interventions. Use of the template is recommended, but not required.

Additional Information: Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New York-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe; it’s critical to bear in mind what our public health and infectious disease experts have emphasized — that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590. We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials. Sincerely, Lee C. Bollinger;

The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an
opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;
