Additional Information:

As noted on slide 4: COVID-19 Testing – New: Effective July 20, 2020, all employees are required to be tested prior to arrival on campus. https://health.columbia.edu/content/make-appointment To arrange for a test call: (212)-854-7426 *note new number

As noted on slide 7, applicable to All Studies: All investigators MUST complete the restarting research survey so we can track the restarts https://cumc.co1.qualtrics.com/jfe/form/SV_3ZVrNGSjy7qmyq One survey for each project please.

As noted on slide 10, relative to International Studies: We are also required to inform the Provost that this research will be restarted (not for approval, just notification). There is a form that must be completed and sent (with the other documentation) to msph_research@cumc.columbia.edu. We will send the form to the provost's office. The link to the downloadable form can be found here.

**Additional Information:** Webinar: Identifying Funding Opportunities using Pivot; Dear Colleagues, We want to inform you that Pivot, a searchable funding opportunity service, has recently released a new user interface. In response to this exciting change, we will be hosting a webinar on Wednesday, September 16th at 12 pm. Register here, using a Columbia-affiliated email address.; Regardless of whether you’ve used Pivot before, this webinar will have something for you. For new users, we will introduce you to the basic functions of Pivot to search for funding opportunities and potential collaborators. For returning users, we will familiarize you to the new look of Pivot and highlight new functional updates to make your search for funding smoother.; Pivot is a searchable funding opportunity and collaborator database. This is sponsored by the Augustus C. Long Health Sciences Library, in collaboration with Sponsored Projects Administration, and is available to the entire University. **Additional Information:** SEED GRANT OPPORTUNITY ; Addressing Racism: A Call to Action for Columbia Faculty ; Proposals due September 17, 2020; The Office of the Provost is issuing a request for proposals to provide seed grant funding for faculty and/or academic units within the Columbia community that seek to engage with issues of structural racism. Higher education institutions have an imperative to address such racism that persists within, and outside, of academia. The goal of this initiative is to provide resources to enable collaborative dialogue, action and insight for systemic change towards racial equity. We anticipate that awards will be funded up to $5,000. Projects that are complex, such as interdisciplinary collaborations, can be funded up to $10,000; Dr. Dennis Mitchell, Vice Provost for Faculty Advancement for Columbia University, is pleased to announce the Faculty Seed Grant Opportunity sponsored by the Office of the Provost. As part of the Addressing Racism Initiative, this new program is designed to support faculty-led projects that spur dialogue, action and/or insight with respect to systemic racism. In general, we anticipate that awards will be funded up to $5,000. Projects that are complex, such as interdisciplinary collaborations, can be funded up to $10,000; The request for proposals can be found on our website. All applications must be submitted via the online application form by September 17, 2020. For concerns or questions, please contact us at facultyadvancement@columbia.edu.

**Additional Information:** CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching:

Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.

**Eligibility:** All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.

**Amount:** Funding of up to $1,500 per proposal is available.

**Deadline:** Applications for the grants are open via rolling submission throughout the 2020-21 academic year.

**Description:** With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task. To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.

**Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.**

We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply.

Best,

**Additional Information:** Call for Applications: Teaching and Learning Grants Presented by Consortium of Institutes & Centers; **Call for Applications:** **Teaching and Learning Grants Presented by Consortium of Institutes & Centers:** A consortium of Columbia Centers and Institutes are offering funding of up to $1,500 for projects that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs who are teaching or taking a class in the 2020-21 academic year are eligible to apply; Proposals are now being accepted on a rolling submission throughout the 2020-21 academic year by the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, and the Center for Justice; each is seeking proposals related to their areas of expertise. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities during this challenging academic year; Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning for current or future courses; they can also suggest innovative pedagogical strategies and tools. Activities may include (but are not limited to) forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, or special speaker honoraria.

**Additional Information:** Center for Research on Ethical, Legal and Social Implications of Psychiatric, Neurologic and Behavioral Genetics, Columbia University Irving Medical Center, braingenetics.cumc.columbia.edu; Columbia Precision Medicine, Precision Medicine & Society; Pilot Grants in Social, Humanistic, Legal & Ethical Studies of Genetics or Precision Medicine; Pilot Grants in Social, Humanistic, Legal & Ethical Studies of Genetics or Precision Medicine; Center for Research on Ethical, Legal and Social Implications (ELSI) of Psychiatric, Neurologic & Behavioral Genetics; Columbia University Irving Medical Center; Precision Medicine & Society Program; Columbia University; Pilot grants are available to support empirical or conceptual work on ethical, social, economic, legal, historical or philosophical issues related to genetics or precision/personalized medicine (PM). Columbia faculty, post-docs, and graduate students are eligible for the awards, which range up to a maximum of $20,000. We are especially interested in proposals that address 1) the promise and/or limitations of precision public health, including the relevance of PM techniques to the Covid-19 pandemic and the impact of genetics on understanding the effect of the pandemic on patient populations; 2) the ethical, legal, and social implications of psychiatric, neurologic or behavioral genetics; and 3) the application of machine learning and artificial intelligence to healthcare. Studies addressing other dimensions of PM are also welcome. Examples of possible projects include the implications of new genomic technologies for prenatal and neonatal screening; how genetic diagnosis shapes or interacts with identity; the privacy implications of surveillance using genetic or “big data” technologies; the intersection between personalized medicine and predictive analytics; the social and psychological impacts of geneticization; how the introduction of precision tools transforms the professional division of labor in the field of medicine; the economics of PM; and the impact of genetics and personalized approaches to medicine on the health insurance industry.; Involvement of faculty from more than one discipline is encouraged. Non-Columbia faculty can participate in a project so long as a Columbia faculty member or post-doc is the principal investigator. Graduate student applicants may propose a faculty supervisor or will be matched with an appropriate faculty member if needed. Applicants should submit: A 3-page research proposal that details the specific aims, background to the study, preliminary data (if any), research plan (including plan for data analysis, if appropriate), innovation/significance, and future plans.; An NIH-style biosketch or curriculum vitae for the PI and any associated investigators.; A detailed budget with justification. Funds can be used to support salaries and other research costs.; Proposals will be scored on the basis of: Innovativeness and significance of the research.; Quality and intellectual merit of the project.; Likelihood of serving as the foundation for obtaining further funding and plan for seeking this funding.; Studies "piggy-backed" on existing research projects are welcome. Priority will be given to junior faculty, post-docs, and graduate students who are interested in research in this area, and to projects with the potential to lead to additional federal or foundation funding. Both the Center and the PM&S Program actively support diversity and welcome submissions from investigators that address diverse populations, and proposals from investigators of all backgrounds, especially those underrepresented in ELSI research.; Proposals should be submitted electronically as a single PDF document via our grants management system by October

Additional Information: [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects.; Users with records currently in progress will need to modify the records to meet new FORMS-F requirements.; The changes listed below include items released by eRA in March and items released on June 13.; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in
this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.4.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA?’. [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS.; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3.; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4.; Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116.; For more information, see: [*] Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template.; [*] The eRA Human Subjects System (HSS) information page.; [*] Information about the PHS Human Subjects and Clinical Trials Information form; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a *significant changes document* yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. **Sponsor:** National Institutes of Health  
**Deadline(s):** This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; for applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

[Grant Review Submission Form (updated Spring 2019)]

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As **Dean Fried wrote in October**, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.
• **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

• **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

**Sponsor:** RWJF  
**Deadline(s):** Open  
**Contact:** pioneeringideas@rwjf.org  

**Additional Information:** What can we do today to create a better, more equitable tomorrow? Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work. Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come. We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible. Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

**Deadline(s):** 10/07/2020  
**Contact:** Community Catalyst; Email: cshe@communitycatalyst.org  

**Additional Information:** New funding opportunity: Community Solutions for Health Equity; Often, the people affected most by health care policy never get a voice in the conversation. Community members understand the issues that affect them, but racism and bias, often by design, can leave them out of important policy decisions and prevent their health care needs from being prioritized.; With Community Solutions for Health Equity, RWJF seeks to make local health care systems more responsive to the needs of the community by elevating the voices, stories, priorities, and knowledge of people of color, and others who are left out of policy decisions. The Foundation’s funding will provide community organizations with grant support to help increase their ability to organize members, build partnerships with other constituencies, and develop effective communication—all of which are critical to shared decision making.; Nine organizations will be given $300,000 each over the course of three years as part of the program. The Foundation is interested in engaging diverse groups and organizations, including those that have limited experience receiving grants of this size.

**Additional Information:** AACR-Astra Zeneca Stimulating Therapeutic Advances Through Research Training (START) Grants; Deadline: October 6; The AACR-AstraZeneca Stimulating Therapeutic Advances through Research Training (START) Grants represent an exciting new initiative to encourage and support collaborative research on precision medicine initiatives, biomarker and novel target identification, and high-throughput examination of genomic data for the development of new therapeutics to combat cancer. This novel model, which will provide support to postdoctoral or clinical research fellows, combines research experiences in both an academic and industry setting, following a research timeline that will be of greatest benefit to the proposed work. The training provided through this grant program will be invaluable to young investigators, by allowing fellows to attain a comprehensive research experience that will make them highly desirable to potential employers in either academic research or the pharmaceutical industry. Likewise, academic research centers and industry will benefit from the introduction of such dual-trained individuals into the field.; Each fellowship provides a three-year grant of $225,000 to support the salary and benefits of the fellow while working on a mentored cancer research project. Applicants must plan to spend one year on site at an AstraZeneca facility. One of a number of AstraZeneca’s locations are possible, at the discretion of AstraZeneca. The year at AstraZeneca will be determined on a case-by-case basis, and will be at a time agreed upon by the fellow, the academic supervisor, the AstraZeneca mentor, and AstraZeneca. The research proposed for funding must have direct applicability to cancer with a specific focus on DNA Damage Response (DDR) pathways or epigenetics and may be basic, translational, or clinical in nature.; Any proposals that address topics unrelated to DNA Damage Response pathways or epigenetics in cancer will NOT be accepted.; The AACR requires applicants to submit an online application by 1:00 p.m. U.S. Eastern Time on Tuesday, October 6, 2020 using the proposalCENTRAL website at https://proposalcentral.com/; Program Guidelines and Application Instructions are available for download.

**Additional Information:** The Melanoma Research Alliance; Deadline: October 21; The Melanoma Research Alliance (MRA) is pleased to announce a Request for Proposals (RFP) for pre-clinical, translational, and early clinical research with the potential to produce unusually high impact, near-term advancements in melanoma prevention, detection, diagnosis, staging, and treatment. The 2020 - 2021 award cycle, is anticipated to support at least $7.6 million in new funding. The RFP calls for ideas that have the potential to lead to near-term clinical application in melanoma prevention, detection, diagnosis, staging, and treatment; Proposals will be accepted for Established Investigator, Academic-Industry Partnership, Young Investigator, and Pilot Awards. Please note that Special Opportunities are available in Immunotherapy, Radiation Oncology, Pediatric Melanoma and for researchers in the UK and Israel.; Please note that the following Special Opportunities are available: [*] Pediatric Melanoma Young Investigator Award with St. Baldrick's Foundation, [*] UK or Israel-Based Young Investigator Award with Rosetrees Trust, [*] Radiation Oncology Young Investigator Award with ASTRO (U.S. applicants only), and [*] Immunotherapy Young Investigator Awards supported by Bristol Myers Squibb (BMS); Please note the following key deadlines: [*] October 21, 2020: Young Investigator Award Eligibility Checklist Due to rfischer@curemelanoma.org by 5pm ET.; [*] November 4, 2020: Full Proposals Due for all Award Mechanisms; All proposals are due by 5:00 pm Eastern Time. Cancer Research Institute Clinic and Laboratory Integration Program; Deadline: November 1

**Contact:** https://www.cancerresearch.org/contact-us; info@cancerresearch.org  
**Link(s):** https://www.cancerresearch.org/scientists/fellowships-grants/translational-research-grants  

**Additional Information:** Cancer Research Institute Clinic and Laboratory Integration Program; Deadline: November 1; The Cancer Research Institute is requesting letters of intent for its Clinic and Laboratory Integration Program (CLIP). CRI offers CLIP grants to qualified scientists who are working to explore clinically relevant questions aimed at improving the effectiveness of cancer immunotherapies. The development of new and effective cancer treatment requires the translation of basic laboratory discoveries into novel therapies that can be tested in patients. This area of translational research—where laboratory findings move into clinical testing and where questions from clinical studies are brought back into the lab—is critical to bringing new and better immunotherapies to patients. CLIP grants provide up to $200,000 over a two-year period. The grant will support basic, pre-clinical, and translational research that will provide information that can be directly applied to optimizing cancer immunotherapy in the clinic. In collaboration with the Chordoma Foundation, CRI will provide for additional CLIP grants for candidates whose projects are focused on topics related to accelerating the development of effective treatments and ultimately a cure for chordoma, a rare type of cancer that occurs in the bones of the skull base and spine.  

**Eligibility:** Applicants must hold a faculty appointment as a tenure-track assistant professor (or higher rank) at the time of award activation. **LOI Deadline: November 1, 2020**

**Contact:** https://www.cancerresearch.org/contact-us  
**Link(s):** https://www.cancerresearch.org/scientists/fellowships-grants/post-doctoral-fellows/application-guidelines  

**Additional Information:** The Cancer Research Institute is currently accepting applications for the CRI Irvington Postdoctoral Fellowship Program. This program furthers career development and supports laboratory research for promising young scientists working under the mentorship of leading immunologists. In recent years, significant advances in immunotherapy have yielded major breakthroughs in cancer treatment. CRI recognizes, however, that getting to the next great breakthrough will require continued investment in fundamental research and training. With this in mind, CRI invites postdoctoral fellows working in both fundamental immunology and tumor immunology to apply for funding. CRI is seeking hypothesis-driven, mechanistic studies in both immunology and tumor immunology that aim to directly impact our understanding of the immune system’s role in cancer. Check the website for eligibility criteria and to apply.

**Deadline(s):** Please see piecemeal programs and their individual opportunities for Deadlines  
**Contact:** CDMRP Help Desk, help@ebrap.org  
**Link(s):** https://cdmrp.army.mil/funding/prgdefault

**Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil.; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

Additional Information: Register for DARPA-SN-20-63 (Young Faculty Award Proposers Day); A webcast has been scheduled for the DARPA YFA. Note eligibility requirements.; Registration will close when capacity is reached (or Sept 18, 2020 at 4pm at the latest); Special Notice (SN) DARPA-SN-20-63; Young Faculty Award 2021 (YFA 2021); Proposers Day Webcast; September 25, 2020; YFA ELIGIBILITY: Proposers must be one of the following (excluding any personal leaves of absence): current Tenure-Track Assistant/Associate Professors; current Tenured faculty within 3 years of their Tenure date; or an equivalent at a non-profit research institution within 12 years of the receipt of their Ph.D.; All proposers must be employed at a U.S. Institution. (Note - Proposals will not be accepted from foreign organizations.); Previous YFA Award recipients are not eligible for this or any future YFA program.; See attachment for complete list.; The Defense Advanced Research Projects Agency (DARPA) Defense Sciences Office (DSO) is sponsoring a Proposers Day webcast to provide information to potential proposers on the objectives of an anticipated Research Announcement (RA) for the Young Faculty Award Program 2021 (YFA 2021) program. The Proposers Day will be held via prerecorded webcast on September 25, 2020 from 1:00 PM to 3:00 PM. Advance registration is required for viewing the webcast. Note, all times listed in this announcement and on the registration website are Eastern Time.; The goals of the YFA 2021 Proposers Day are to (a) introduce the research community (Academia, and Non-Profit) to the YFA 2021 program vision and goals; (b) explain the mechanics of a DARPA program and the milestones of this particular effort; and (c) encourage and promote teaming arrangements among potential organizations that have the relevant expertise, facilities, and capabilities for executing a research and development program responsive to the YFA 2021 program goals. DARPA anticipates releasing the YFA 2021 RA in early September 2020. If released, the RA will be available on https://beta.sam.gov and on http://www.grants.gov/. Following the event, DARPA may post the presented materials as well as a Frequently Asked Questions (FAQ) list to the DARPA/DSO Opportunities website.; The objective of the DARPA YFA 2021 program is to identify and engage rising stars in junior research positions, emphasizing those without prior DARPA funding, and expose them to DoD needs and DARPA’s program development process. In particular, YFA will provide high-impact funding to elite researchers early in their careers to develop innovative new research directions in the context of enabling transformative DoD capabilities. The long-term goal of the program is to develop the next generation of scientists and engineers in the research community who will focus a significant portion of their future careers on DoD and National Security issues; Additional information regarding this SN can be found at the following link: https://beta.sam.gov/opp/90a48aebe0884544be6714623bd11c3b/view?keywords=%22Young%20Faculty%22&sort=-relevance&index=opp&is_active=true&page=1 ; Administrative, technical, and contractual questions about YFA should be emailed to YFA2021@darpa.mil.; [brought to our attention by] Mark Habana; Associate Director of Research and Grants Development; Data Science Institute at Columbia University; Office: 646.745.8469; Mobile: 646.556.5972; Email: mh2987@columbia.edu

**Additional Information:** Columbia | Technology Ventures. Dear Colleagues, Since it will now be taught virtually via Zoom, we have increased the registration cap for our Intellectual Property for Entrepreneurs and Managers course (taught by me and Jeff Sears, Columbia's Chief Patent Counsel) up to 300 students. As mentioned, this zero credit (no grades) course will meet on Fridays, 10:10 to 12:40pm, on Oct. 23, Oct. 30, Nov. 6, Nov. 13, Nov. 20, and Dec. 4. The class is open to everyone: current Columbia students, faculty, staff, and alumni. Our goal is to provide the aspiring business executive, entrepreneur, or scientist with an overview of the commercial opportunities and risks associated with intellectual property, with a particular focus on technology patents. As in the past, we will cover patent writing and analysis; patent filing strategies (including offensive and defensive strategies) for startups; and negotiating IP license agreements (syllabus [here](https://techventures.columbia.edu/files/tech/content/ipforentrepreneursfall2020.pdf)). The course will also feature guests from local NYC startups and venture capitalists, sharing their own perspectives. Registration is required, via the [SurveyMonkey form here](https://mailchi.mp/columbia/columbia-technology-1310148?e=026d813532). [as of 09.04, this link returns a registration limit reached caveat]

Another learning opportunity: CTV's Fellows Program offers a unique opportunity for Columbia graduate students and Post-Doctoral Fellows to gain in-depth experience with university technology transfer and technology commercialization. Fellows work closely with our licensing officers on a part-time, remote basis, providing support for invention assessments and technology marketing. The program has been a great success for us since it began in 2006: the Fellows do great work, and they receive a valuable, paid educational experience. Applications open tomorrow, and Zoom info sessions are happening this week. **Additional Information:** NIH Blueprint for Neuroscience Research: Functional Neural Circuits of Interoception (R01, Clinical Trial Not Allowed) RFA-AT-21-003; Letter of Intent Due Date: November 18, 2020; Application Due Date: December 18, 2020 by 5:00 PM local time of applicant organization.; the NIH Blueprint for Neuroscience Research is a collaborative framework through which 14 NIH Institutes, Centers and Offices jointly support neuroscience related research, with the aim of accelerating discoveries and reducing the burden of nervous system disorders (for further information, see [http://neuroscienceblueprint.nih.gov/](http://neuroscienceblueprint.nih.gov/)).

The goal of this FOA is to enhance our fundamental understanding of interoception with a specific focus on dissecting and determining the function of neural circuits that connects peripheral organs/tissues with the central nervous system (CNS) via peripheral ganglia. For this FOA, interoception science includes studies of the processes by which an organism senses, interprets, integrates, and regulates signals originating from within itself. This FOA encourages projects that combine diverse expertise and use innovative approaches to delineate interoceptive mechanisms at the molecular, cellular, circuitry, functional, and/or behavioral levels. Outcomes of this research will lay a critical foundation for future translational and clinical research on interoception as well as its roles in nervous system disorders. Studies of interoceptive neural circuits exclusively within the CNS may be more appropriate for The BRAIN Initiative funding opportunities. Applications in response to this FOA should budget for an annual investigator meeting organized by the NIH Blueprint for Neuroscience Research. Human subject research is not allowed for this FOA. **Additional Information:** Avenir Award Program for Genetics or Epigenetics of Substance Use Disorders (DP1 Clinical Trial Optional) NIDA Funding Opportunities PAR-20-225 for Early Stage Investigators; Application due date: October 19, 2020 by 5:00 PM local time of applicant organization.; Avenir means future in French, and this award looks toward the future by supporting early stage investigators proposing highly innovative studies. The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow's leaders in the field. NIDA has developed two Avenir Award Programs, one for HIV/AIDS research and the other for genetics or epigenetics studies.; The Genetics or Epigenetics of Substance Use Disorders Avenir Award program supports early stage investigators proposing highly innovative studies that open new areas of research for the genetics or epigenetics of addiction. These may be novel methods or approaches that can potentially be applied to the analysis of the genetics or epigenetics of addiction. Investigators outside the field of addiction interested in applying their novel approaches to the genetics or epigenetics of addiction are encouraged to apply. The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow’s leaders in the field of genetics or epigenetics of substance use disorders. **Additional Information:** REQUEST FOR APPLICATIONS *** 2020 Naomi Berrie Diabetes Center Russell Berrie Foundation Awards in Diabetes Research**; Sending on behalf of the Naomi Berrie Diabetes Center of Columbia University, and the Russell Berrie Foundation. Please send all questions to Dr. Utpal Pajvani up2104@cumc.columbia.edu. Applications are due November 1, 2020; September 9, 2020; 2020 Naomi Berrie Diabetes Center; Russell Berrie Foundation Awards in Diabetes Research; This program is designed to support the mentored diabetes-related research activity of outstanding postdoctoral fellows for a period of up to two years. ; The program will support postdoctoral scientists at up to $75,000 per year, for a maximum of two years (for a total of $150,000). Start dates are in January 2021. A second year of funding may be available contingent upon progress made in the first year and other programmatic considerations. ; All postdoctoral scientists are eligible to apply, to one of the following award mechanisms: 1) The **Russell Berrie Foundation Fellow Award** will be awarded to 2 post-doctoral scientists at Columbia University. Research projects can be laboratory-based or clinical, and can relate to causes, consequences or treatments of diabetes and allied disorders such as obesity. ; 2) The **Russell Berrie Foundation Scholar Award** will be awarded to 1 foreign (non-US citizen) post-doctoral scientist being recruited by any lab at Columbia University to engage in clinical or laboratory research in diabetes and allied disorders such as obesity. Ideally, this will be a prospective application for an outstanding recruit who would otherwise not be able to be hosted by a Columbia University lab due to ineligibility for most funding mechanisms, such as NIH-supported training grants. ; 3) The **Russell Berrie Foundation Extramural Fellow Award** will be awarded to 1 post-doctoral scientist outside of Columbia University as part of a NYC-wide competition for funding for Post-doctoral fellows engaged in clinical or laboratory research in diabetes and allied disorders such as obesity. ; For all awards, applicants with a committed career path in diabetes and obesity research, as demonstrated by prior achievements, completed training, or special skills in novel and underrepresented research themes, will be given preference. “High risk” studies, designed to test or extend novel concepts, are encouraged. ; Please review the attached RFAs for further details. Applications are due to Dr. Utpal Pajvani up2104@cumc.columbia.edu by November 1, 2020; [brought to our attention by] Utpal Pajvani, MD, PhD; Herbert Irving Associate Professor of Medicine; Division of Endocrinology; Columbia University; up2104@columbia.edu

Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

**Sponsor:** National Institutes of Health (NIH); Agency for Healthcare Research and Quality (AHRQ); The National Institute for Occupational Safety and Health (NIOSH)

**Deadline(s):** For applications submitted for the January 2021 council (beginning with applications submitted for the May 25, 2020 due date for Fall 2020 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application. The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page

**Additional Information:** NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention; I highlighted what I thought were the key points below. [brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it's
a real thing. And, why shouldn’t it be? I vividly remember bringing my, mutt home from a pet adoption event years ago and introducing her to her new “daddy.” “She’s two dogs long and one dog tall and looks like she’s made from spare parts,” Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn’t going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn’t trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I’ve at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you’ll find this edition to have an interesting mix ... not unlike your favorite mutt.; Where Do I Put the Information I Know You’d Want, But Didn’t Ask For?: You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, there are page limits you must stay within to convey the requested information.; If you have information that doesn’t fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn’t have a “natural home” based on our instructions, don’t include it.; There are several form fields with tempting names like “Appendix,” “Other Attachments,” “Other Requested Information,” and “Other Clinical Trial-related Attachments.” DO NOT use those fields unless requested to do so in the application guide or announcement.; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn’t belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them. NOT-OD-11-086.; The Duplication Balancing Act: The application guide statement “do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form” appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a “Brief Summary” of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don’t want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it isn’t just extra space to expound on the research strategy). The Brief Summary in the Protocol Synopsys section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application.; It should hit the key points at a very high level in as close to plain language as possible.; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.; Space-Fill Compulsion: My mother, an interior designer, never saw a horizontal surface she didn’t want to decorate. For years I encouraged her to declutter and often she’d begrudgingly remove a knick-knack from a table of shelf. But the next time I’d visit a new knick-knack was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we’ve learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you’ve covered what you need to say in a few paragraphs, then stop. You don’t need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It’s, OK. Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual for record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor.
through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves. ; Dog Days of Summer: “Be the person your dog thinks you are.”; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug. ; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: [https://grants.nih.gov/grants/guide/files/NOT-OD-18-212.html](https://grants.nih.gov/grants/guide/files/NOT-OD-18-212.html); Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) **Registration and Reporting:** NIH still expects the registration and reporting of these prospective basic science studies, but is granting flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) **Funding Opportunity Announcements (FOAs):** NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019; (*) **The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E)** – they still expect that form for all applications involving prospective basic science studies.; (*) **Good Clinical Practice (GCP) training** is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see [https://research.columbia.edu/content/good-clinical-practice-training](https://research.columbia.edu/content/good-clinical-practice-training) or email NIH-GCP@columbia.edu. ; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal
with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline** — Inform Research Resources (via Craig Kandell at ckk7@columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions for the support services have not been utilized for the grant) of R01, R35, R37, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grants types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,
Pam Factor-Litvak

**NIH single IRB (sIRB) policy**  
**Sponsor:** NIH  
**Deadline(s):** (for NIH application submissions on or after) 01/25/2018  
**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites  
**Link(s):**  

**Additional Information:** The NIH single IRB (sIRB) policy applies to the domestic sites of new and competing renewal applications/proposals with due dates of January 25, 2018 and beyond for NIH-funded multi-site studies where each site will conduct the same protocol involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is...
being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol.” If you have any questions, please contact irboffice@columbia.edu; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation; [brought to our attention by Stephanie F. **Additional Information:** HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.; **Status of the Revised Common Rule:** The Final (revised) Common Rule, i.e., revisions to Subpart A of the DHHS regulations for the Protection of Human Subjects (45 CFR 46), were published on January 19, 2017, with an effective and compliance date of January 19, 2018 for the majority of the revisions. On January 17, 2018, an Interim Final Rule was released that delays the effective date for 6 months, to July 19, 2018. Certain federal departments and agencies are in the process of developing a proposed rule to further delay implementation.; The HRPO is developing guidance for preparing for the transition to the Revised Common Rule. Stay tuned for more information...; **Revised Policies:** Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!; **Revised Standard Operating Procedures (SOPs):** Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; **Process for Implementing the NIH Single IRB Policy:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before...
March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be access here. The HRPO's web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant, On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission. ; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. ; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original; Hope you have a great holiday season; Sheri; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Additional Information: I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; **Stephanie Scott** Changes to NIH policies and procedures related to human subjects research; Dear NICH Investigator; NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?? NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants?; (2) Are the participants prospectively assigned to an intervention?; (3) Is the study designed to evaluate the effect of the intervention on the participants?; (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/policy/clinical-trials.htm; Why is this important? What are the implications if my study is considered a clinical trial?; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multisite human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm; Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes?; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data.
and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm; We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials.nih.gov; Doing human subjects research? Additional Information: Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post.; Key takeaways: (*) If any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says "Clinical trials not allowed" or "Clinical trials optional". ; (*) The participating organizations may vary between the "clinical trial not allowed" parent FOA and the "clinical trial required" parent FOA for the same activity code. Read the details of each FOA carefully.; (*) "Note that some institutes that participate on a "Clinical Trial Required" parent may limit their participation to mechanistic studies."; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA; [brought to our attention by] Stephanie Scott, sfs2110@cumc.columbia.edu

[Grant Review Submission Form]; submit to Craig Kandell via email at ckk7@cumc.columbia.edu

https://r2eport.files.wordpress.com/2014/04/mailmanschoolsubmissionformw_ord_08-15-17a.docx

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty:, In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R$, and is entirely optional.; For the final scientific editing an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at pf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

**Link(s):** [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates)

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators: From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to [http://finance.columbia.edu/content/fringe-benefit-rates](http://finance.columbia.edu/content/fringe-benefit-rates). ; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the [Institutional Information page](https://finance.columbia.edu/content/fringe-benefit-rates). ; Any questions about the government fringe rate should be directed to [AskRPIC@columbia.edu](mailto:AskRPIC@columbia.edu)

**Additional Information:** Please also note the highlighted final research report requirement below; Several updates to ASSIST happened [01.19.17], you can read about those updates below; In addition, you may recall that NIH now requires the use of a Final Research Performance Progress Report (FRPPR). See NOT-OD-17-022. Section D.1 in the Participants section will now be included, per the email below regarding eRA Commons updates; I’ll need to provide more information on the FRPPR separately. It appears NIH just posted some FAQs on the FRPPR and Interim RPPR. See https://grants.nih.gov/grants/rppr/faqs.html#5038. I’ll provide a separate email with this information; Should you have any questions, please feel free to reach out to your SPA Project Officer. [brought to our attention by] Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system.; Highlights of ASSIST’s January Software Release; (*) New Access Maintainer Role; (**) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (**) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization.; (**) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (**) Access Management within ASSIST for individual applications has not changed.; (**) Multi-Employment Functionality; (**) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (**) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system
displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the “Select” button; (*) New Link for SOs from ASSIST to Commons Status Screen; (**) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page; (**) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed; (**) This link is only available to Signing Officials.; (*) A Warning if Appendix Material is Submitted in Applications; (**) Per the policy outlined in NOT-OD-16-129, the submission of most appendix materials has been eliminated from NIH applications.; (**) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (*) Form Lock Message Includes User Name; (**) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (**) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (**) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included; (***); Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (*) New Design of the Status Information Screen for PIs and SOs; The Status Information screen will have a new look and feel. The screen is an important source of information for Principal Investigators (PIs) and Signing Officials (SOs) for such things as scores, summary statements, NIH contacts, reference letter status, etc.; [a] provided picture has been linked at; https://r2eport.files.wordpress.com/2014/04/nihannouncementpicipnpformat.pdf; New Status Information screen with some sections expanded, other collapsed.; (*) The new design is similar to other updated screens, such as the Personal Profile and the Institution Profile; (*) Categories of information are organized into collapsible/expandable sections; (§) Expand All (default view) and Collapse All buttons show and hide the information on the screen; (*) New Text Filter; (§) A new field will allow you to enter text and display the results on those sections with matches; (§) Matching text will be highlighted, allowing you to quickly locate the information; (§) Important information is displayed along the left side; (§) Warnings; (§) Contact information; (§) Scientific Review Officer (SRO); (**) Grants Management Specialist (GMS); (**) Program Official (PO); (§) Latest Updates; (§) eRA Service Desk contact information; (**) New Print Capabilities; (§) New formatting capabilities allow you to print all the information with the click of a single button; (§) Organized by category; (§) Includes warnings; (§) Includes NIH contacts; NOTE: The ability to submit help tickets online will not be available during the downtime listed above; Joe Schumaker; eRA Communications; Division of Communications and Outreach; NIH Office of Extramural Research; Questions? **Additional Information:** Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer; [brought to our attention by] Stephanie F. Additional Information: [forwarded to our attention by] Stephanie Scott, SPA Communications and Outreach Director, sf52110; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the **23. Resource Sharing Plan** attachment on the PHS Fellowship Supplemental form displays the **22. Select Agent Research** attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons. We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

**Additional Information:** Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc); **Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.** There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD.

Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH "Open Mike" Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements; Sponsor: NIH; Extramural Nexus Blog; Deadline(s): 01/25/2016; effective for applications submitted on or after January 25, 2016; Contact: Please see appropriate links; Link(s): https://nexus.od.nih.gov/all/category/blog/open-mike/; Series of recent NIH Guide Notices: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-004.htm; Enhanced Rigor and Reproducibility: http://nexus.od.nih.gov/all/2015/06/09/enhancing-reproducibility-in-nih-supported-research-through-rigor-and-transparency/; Electronic Research Administration: https://era.nih.gov/; Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie] Scott regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Steph; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.; Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals; Sponsor: National Institutes of Health; Deadline(s): NA Release Date: 10/13/2015; Contact: For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov; Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html; Additional Information: This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative
agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System; **Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; **Deadline(s):** NA Release Date: 10/13/2015; **Contact:** Please direct all inquiries to: NIHTrain@mail.nih.gov; **Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.htm; **Additional Information:** This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards.;

NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests; **Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; **Deadline(s):** NA Release Date: 10/13/2015; **Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: csdr@mail.nih.gov; **Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.htm; **Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center [IC] Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).;

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016; **Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; **Deadline(s):** Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016; **Contact:** Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714; **Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications. For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (**) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements. The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (**) Arial; (**) Garamond; (**) Georgia; (**) Helvetica; (**) Palatino Linotype; (**) Times New Roman; (**) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.

Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
For more information on the child inclusion policy: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-034.html;
Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants/offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.; Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-034.html;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing...
applications; these updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables; and (4) authentication of key biological and/or chemical resources. The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria.

*Notes & Exceptions: (*) Research grant activity codes excluded from this policy include K02, K05, and K24, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015;

K-AWARDS F-AWARDS

Notice to Extend Eligibility for Submission to PAR-19-371, NIAID Career Transition Award (K22 Independent Clinical Trial Not Allowed) due to COVID-related Disruptions

Sponsor: National Institute of Allergy and Infectious Diseases (NIAID)

Deadline(s): Standard dates; Standard AIDS dates; 01/08/2022 (Expiration) [for PAR-19-371]; Though subject to future updates, NIAID now will provide at least a 2-receipt cycle extension (roughly 8 additional months) of eligibility for individuals whose eligibility to apply for the K22, under normal eligibility rules (including the resubmission policy as defined in NOT-OD-18-187), is expiring between June/July 2020 and February/March 2021 (inclusive of these dates). In addition, those who normally would have been eligible to apply for the June/July 2021 receipt date will have a 1-receipt cycle (roughly 4 months) extension.

Contact: Please direct all inquiries to: Deborah Philp, Ph.D.; Office of Research Training and Special Programs; National Institute of Allergy and Infectious Diseases (NIAID); Email: AITrainingHelpDesk@niaid.nih.gov

Temporary Extension of Applicant Eligibility in PAR-19-343 “Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00 - Independent Clinical Trial Not Allowed)”

Sponsor: National Institute of General Medical Sciences (NIGMS)

Deadline(s): Standard dates; Standard AIDS dates; 11/15/2022 (Expiration) [for PAR-19-343]; Under normal circumstances, individuals must have no more than four years of postdoctoral research experience to be eligible to apply for the MOSAIC Postdoctoral Career Transition Award to Promote Diversity. The purpose of this Notice is to inform the extramural community that due to disruptions caused by the COVID-19 pandemic, the NIH will be providing up to a two-receipt date cycle extension of eligibility (roughly eight additional months) for prospective applicants meeting the requirements for submission of a K99/R00 application from the time period covered by the June/July 2020 due dates through the February/March 2021 due dates.

**Link(s):** If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page.;

**Additional Information:** Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe.; It’s critical to bear in mind what our public health and infectious disease experts have emphasized—that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

**CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;**

**Sponsor: NIH;**

**Deadline(s): Starting in October 2014;**

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

**Additional Information:** This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rpr/rpr_instruction_guide.pdf; TIP – when preparing your RPPR, click "Check for Errors" prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles; If you are requesting an eRA Commons ID from SPA-eBiz, please include the following information with your request: (*)

Full Name; (*) UNI; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for
Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist). Thank you; Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: [http://www.cumc.columbia.edu/dept/IRB](http://www.cumc.columbia.edu/dept/IRB).

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

New Program for NIH-funded Grad Students and Postdocs; Sponsor: NIH;

**Deadline(s):** Open Ended;

**Contact:** Please contact Rory Flinn (rfl2531@columbia.edu); Director of the Office of Postdoctoral Affairs, with any questions about the program.

**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-
assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (https://grants.nih.gov/grants/guide/not-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH- funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

Sincerely, G. Michael Purdy; Executive Vice President; Carlos J. Alonso; Dean, Graduate School of Arts and Sciences; Arthur S. NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
**Sponsor:** NIH eRA Commons IDs and Complete Profiles;
**Deadline(s):** Starting in October 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
**Link(s):** eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; if you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

The Research Performance Progress Report (RPPR);

**Deadline(s):** starting October 17, 2014;
**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
**Link(s):** NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
**Additional Information:** The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rprr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.;

RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). Deadline(s): 5/25/15; (The requirement is no longer January 25, 2015);
Contact: Grants Information Office of Extramural Research (OER) National Institutes of Health (NIH) Phone: 301-435-0714; Email: GrantsInfo@nih.gov; As always, also feel free to contact your assigned Project Officer in Sponsored Projects Administration (SPA) should you have any questions.; Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu; Link(s): NOT-OD-15-32;

From Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!

- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two o’s into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

Submitting Applications with more than 5 Budget Periods: Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR Form that will allow for the collection of up to 10 budget periods of data. Going forward, this...
form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (Item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**NIH-Investigators Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPRR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPRR format, resources are available at http://grants.nih.gov/grants/rprr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-Competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. .... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

New Website for iEdison Invention Reporting Information:
True or false: iEdison is the newest Apple™ light bulb. You Ask, We Answer:

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PI s have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in **NOT-OD-13-120** and **NOT-OD-14-093**, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantees community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantees with inadequate systems in place to properly manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice **NOT-OD-13-120**. The administrative changes announced in **NOT-OD-14-093** will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSZV.dpuf;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

FEDERAL FUNDING TRAVEL POLICY

NIH-Investigators New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

U.S.-Israel Binational Science Foundation (BSF) funding opportunities

Sponsor: U.S.-Israel Binational Science Foundation (BSF)
Deadline(s): Please read description and piecemeal opportunities
Contact: https://www.bsf.org.il/contact-us/
Link(s): https://www.bsf.org.il/funding-opportunities/
https://www.nsf.gov/od/oise/NSF-BSF/participating_programs.jsp
https://www.bsf.org.il/funding-opportunities/nsf-bsf-joint-research-grants/the-programs/

Additional Information: Upcoming dates at the BSF; Dear Colleague, This is a periodical reminder of the existing opportunities in the NSF-BSF joint funding programs, with the known dates of the next submission deadlines; We would also like to bring to your attention two new CALLS that we uploaded to our website, RAPID and EAGER. Both are not new programs but rather parallel funding mechanisms to the conventional mechanism that can be usually applied to in all areas of research. RAPID is a mechanism for one year support with a quick response by the NSF. It is mostly used currently to support COVID-19 related work. EAGER is a mechanism for up to two years of support for high-risk - high gain research, which is usually referred to as "Transformative Research". We have added them as separate CALLS, even though they are actually also part of the regular CALLS, in order to increase their visibility, and encourage their use. For more information about this opportunity check our website: here.; Please be reminded that the BSF allows to submit concurrently to both the regular program, as well as to the NSF-BSF programs, including the same research program. However, if the submissions are similar, or significantly overlap, only the NSF-BSF program will be funded.; Also, the BSF allows the submission of up to 2 NSF-BSF applications concurrently, as long as one of them is to a program with no deadline.; We would be happy to see you or your students (for the travel program only) among the applicants to any of these programs.; Sincerely, Rachel (Heni) Haring [brought to our attention by] Dr. Heni Haring, Assistant Director; U.S. – Israel Binational Science Foundation; 8 Hamarpeh St; P.O.B. 45086; Jerusalem, 91450; Israel; Tel: 972-2-5828239 ext. 110; Fax: 972-2-5828306; www.bsf.org.il ; The following is a list of the deadlines in the BSF and NSF-BSF programs in the coming months:

[*] BSF Regular Research Grants Program. Deadline for applications is November 18, 2020. The website opened on September 1, 2020. The regulations can be found here.;
[*] BSF program Prof. Rahamimoff Travel Grants for Young Scientists program. Dates are not known yet, but are likely to be no earlier than Nov. 2020. Call for Proposals can be found here.;

These NSF-BSF programs have the following deadlines:

Directorate of Mathematical and Physical Sciences:
[*] NSF-BSF program in Mathematical Biology. Deadline for application by the U.S. partner to the NSF is September 8, 2020 and by the Israeli partner to the BSF is September 14, 2020. Call for Proposals can be found here.
[*] NSF-BSF program in Combinatorics; Foundations. Deadline for application by the U.S. partner to the NSF is September 22, 2020 and by the Israeli partner to the BSF is September 29, 2020. Call for Proposals can be found here.
[*] NSF-BSF program in Probability. Deadline for application by the U.S. partner to the NSF is September 25, 2020 and by the Israeli partner to the BSF is October 1, 2020. Call for Proposals can be found here.
[*] NSF-BSF program in Analysis. Deadline for application by the U.S. partner to the NSF is September 30, 2020 and by the Israeli partner to the BSF is October 11, 2020. Call for Proposals can be found here.
[*] NSF-BSF program in Algebra and Number Theory. Deadline for application by the U.S. partner to the NSF is October 9, 2020 and by the Israeli partner to the BSF is October 15, 2020. Call for Proposals can be found here
[*] NSF-BSF program in Materials. Deadline for application by the U.S. partner to the NSF is November 2, 2020 and by the Israeli partner to the BSF is November 8, 2020. Call for Proposals can be found here.
[*] NSF-BSF program in Geometric Analysis; Topology. Deadline for application by the U.S. partner to the NSF is November 3, 2020 and by the Israeli partner to the BSF is November 9, 2020. Call for Proposals can be found here

**Additional Information:** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. ; Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.; The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety.; **Forms** to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are
