NEW THIS WEEK [NTW] FUNDING OPPORTUNITIES, ANNOUNCEMENTS, ETC.:

Abbreviation: [NTW] = New This Week

[NTW FOAs AND ANNOUNCEMENTS WILL BE MOVED TO THE MAIN BODY OF THE NEWSLETTER THE WEEK AFTER THEY APPEAR IN THIS “NEW THIS WEEK” SECTION]

New Funding Opportunities and/or Announcements are listed below in the NTW/New This Week Section, presented (and hyperlinked) in the following order: WEEKLY HIGHLIGHT; ANNOUNCEMENTS; FOUNDATION FUNDING; MCH; HEPATITIS; DENTAL; LUNG DISEASE; BIG DATA; AGING; SUBSTANCE USE DISORDERS (SUDS); CANCER; HIV/AIDS; PAIN; AUTISM; USAID; EARLY STAGE PROJECTS; EARLY RESEARCHER; (PRE-/POST-DOCTORAL FELLOWSHIPS; COLUMBIA SOURCES; AWARDS;

[NTW] [WEEKLY HIGHLIGHT; ANNOUNCEMENTS (NIH)] Title: NIH Fiscal Policy for Grant Awards – FY 2014; NIH Operates Under a Continuing Resolution;

Sponsor: NIH;

Deadline(s): Please see announcements;

Contact: Questions about specific awards may be directed to the Grants Management Specialist identified in the Notice of Award.;

Additional Information: Notice Number: NOT-OD-15-001; Key Dates: Release Date: October 1, 2014; Related Announcements: NOT-OD-14-055; Issued by National Institutes of Health (NIH); Purpose: The Department of Health and Human Services (HHS), including NIH, operates under the Continuing Appropriations Act, 2015 (H.J.Res. 124) signed by President Obama on September 19, 2014. This Act (CR) continues government operations through December 11, 2014 at 99.9 percent of the FY 2014 enacted level.; Continuing the procedures identified under NOT-OD-14-055 and consistent with NIH practices during the CRs of FY 2006 – 2014, the NIH will issue non-competing research grant awards at a level below that indicated on the most recent Notice of Award (generally up to 90% of the previously committed level). Upward adjustments to awarded levels will be considered after FY 2015 appropriations are enacted, but NIH expects institutions to monitor their expenditures carefully during this period. All legislative mandates that were in effect in FY 2014 (see NOT-OD-14-053 and NOT-OD-14-046) remain in effect under this CR including the salary limitation set at Executive Level II of the Federal Pay Scale as described in NOT-OD-14-052.; Inquiries; Questions regarding adjustments applied to individual grant awards may be directed to the Grants Management Specialist identified on the Notice of Award.; - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-15-001.html#sthash.Ab1QXRcn.dpuf;
[NTW] [ANNOUNCEMENTS (NIH) /WEBINARS] Title: NIH Webinars on Submission and Peer Review Process; 
Sponsor: NIH; 
Deadline(s): Webinar Focus, Date; Academic Research Enhancement Awards (R15), November 4, 2014; Fellowship Awards, November 5, 2014; Small Business Grants (SBIR/STTR), November 7, 2014; Research Project Grants (R01), November 10, 2014; All of the Webinars will run from 2:00 to 4:00 p.m. EST, including a 30 minute Q&A period.; 
Contact: Stephanie F. Scott, MS, CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; 
Website: http://spa.columbia.edu/; 
Additional Information: Subject: The NIH Center for Scientific Review (CSR) will host four Meet the Experts in NIH Peer Review Webinars in early November 2014 to give new NIH grant applicants, mentors, and others useful insights into the submission and peer review processes.; Webinar Focus, Date; Academic Research Enhancement Awards (R15), November 4, 2014; Fellowship Awards, November 5, 2014; Small Business Grants (SBIR/STTR), November 7, 2014; Research Project Grants (R01), November 10, 2014; All of the Webinars will run from 2:00 to 4:00 p.m. EST, including a 30 minute Q&A period.; To register, go to http://public.csr.nih.gov/Pages/csrwebinar.aspx. You must register now or before Tuesday, October 28th in order to participate in one of the webinars listed above.; For more information, go to http://grants.nih.gov/grants/guide/notice-files/NOT-OD-15-002.html; Stephanie F. Scott, MS, CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;

[NTW] [WORKSHOPS/ANNOUNCEMENTS] Title: NIH GRANT WORKSHOPS FOR JUNIOR FACULTY AND POSTDOCTORAL RESEARCHERS; 
Sponsor: Office of Academic Affairs; College of Physicians and Surgeons; Ph: (212) 304-5637; Fax: (212) 304-5528; E-mail: cl2779@columbia.edu; www.cumc.columbia.edu/faculty; 
Deadline(s): Friday, October 24, 2014; 
Contact: For more information about these sessions, please contact us at: Office_Acad_Affairs@cumc.columbia.edu; 
Link(s): http://www.cumc.columbia.edu/faculty/generic/events/nihworkshops; 
Additional Information: NIH GRANT WORKSHOPS FOR JUNIOR FACULTY AND POSTDOCTORAL RESEARCHERS; FRIDAY, OCTOBER 24, 2014; SPEAKERS: Joan M. Lakoski, PhD; University of Pittsburgh Schools of the Health Sciences; jml27@pitt.edu; Robert J. Milner, PhD; University of Massachusetts Medical School ; robert.milner@umassmed.edu; GOAL: To provide guidance on applications for NIH career development (K awards) and crafting effective specific aims; OBJECTIVES: By the completion of this session, participants will be able to: (*) Choose the appropriate type of career development or training award for their career stage and situation; (*) Complete and submit an application for a NIH career development award using strategies for a successful grant proposal; (*) Write an effective specific aims page; You may attend one or all of the sessions. Registration for each session is required.; (I) Title: “Navigating NIH: an overview of NIH and the grant review process”; Date: FRIDAY, October 24, 2014; Time: 10:00 am - 11:30 am; Location: Hammer Health Science Center, Room HSC 312; Registration (required): http://tinyurl.com/CUMC-
NIH: This session provides a guide to navigating NIH, the grant review process, and the essential steps to complete and submit an application.; (II) Title: “Know your K (K01, K08, K23 Awards)”; Date: FRIDAY, October 24, 2014; Time: 12:00 pm - 1:00 pm; Location: Hammer Health Science Center, Room HSC 301; Registration (required): http://tinyurl.com/CUMC-KAward; The National Institutes of Health (NIH) Mentored Career Development (“K”) Awards are a primary grant mechanism for supporting new investigators. This workshop explores the range of K Awards and the components of the application for the awards.; (III) Title: “NIH Grant Workshops - Know your Kangaroo: Pathway to Independence; K99/R00” Date: FRIDAY, October 24, 2014; Time: 2:00 pm - 3:00 pm; Location: Hammer Health Science Center, Room HSC 301 Registration (required): http://tinyurl.com/CUMC-K99R00; This session provides an overview of the NIH program that provides promising postdoctoral scientists the opportunity to receive both mentored (K) and independent research support (R) from the same award. It will feature success stories from colleagues who have received these awards.; (IV) Title: “Writing Effective Specific Aims”; Date: FRIDAY, October 24, 2014; Time: 3:00 pm - 5:00 pm; Location: Hammer Health Science Center; Registration (required): http://tinyurl.com/CUMC-Aims; The most important section for the development of a NIH grant application is the Specific Aims section. This section becomes the master plan for the rest of your proposal and a key part that all the reviewers will read. This session will provide insight into the elements of a strong Specific Aims section with time being provided for participants to work on specific aims for projects and/or proposals being developed.; For more information about these sessions, please contact us at Office_Acad_Affairs@cumc.columbia.edu; Invitation - NIH Grant Workshops for Faculty and postdocs; via Dr. Santella, We wanted to share with you a special event we are having on October 24th for NIH Grant Workshops. We will have Joan Lakoski from the University of Pittsburgh and Robert Milner from the UMass Medical School all day here for four sessions. We wanted to be sure to share this special event with you so that you could share it with your faculty and postdocs.; The information for the workshops is available online at: http://www.cumc.columbia.edu/faculty/generic/events/nihworkshops and the announcement [information is provided above].; Best, Clara; Clara L. Lapiner, MPH; Director, Faculty Professional Development; Manager, Office of Academic Affairs; College of Physicians and Surgeons; Ph: (212) 304-5637; Fax: (212) 304-5528; E-mail: cl2779@columbia.edu; www.cumc.columbia.edu/faculty;

[NTW] [FOUNDATION FUNDING/IRVING INSTITUTE]
Title: 2015 Irving Institute/DBMI; Health Practice Research Pilot Awards; Sponsor: Irving Institute; Deadline(s): Monday, October 13; Contact: Accelerating Discoveries Toward Better Health; irvinginstitute.columbia.edu; The Irving Institute for Clinical and Translational Research at Columbia University Medical Center is part of the national Clinical and Translational Science Award (CTSA) consortium, and is funded by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Number UL1 TR000040.; Irving Institute for Clinical and Translational Research | irving.institute@columbia.edu | Irving Institute for Clinical and Translational Research | 622 West 168 Street, Floor 10, Suite 305 | New York, NY 10032; Link(s): Learn more or start an application today.; Irving Institute for Clinical and Translational Research; Additional Information: The Irving Institute for Clinical and Translational Research, in partnership with the Department of Biomedical Informatics (DBMI), announce an individual, one-year health practice research pilot grant opportunity of $25,000. The main goal of this program is to offer clinical researchers the opportunity to do an informatics-based project in an operational clinical setting by bringing information technology-based tools to address a practical clinical problem.
Specific areas of interest are improving the process of clinical documentation and integrating genomic data to enable advanced clinical decision support. Other topic areas will also be considered.; Qualifications: Applicants must have an appointment as an Instructor, Assistant Professor (clinical or tenure track), or Associate Research Scientist at Columbia University Medical Center (CUMC). U.S. citizenship or permanent residency status is not required.; Duration: One (1) Year; Award Amount: $25,000; Quantity: Based on availability of funds; Application Deadline: Monday, October 13, 2014 by 5:00p EST; Start Date: January 1, 2015; Learn more or start an application today.;

[NTW] [FOUNDATION FUNDING] Title: New Jersey Health Initiatives: Building A Culture of Health in New Jersey—Communities Moving to Action;

Sponsor: Robert Wood Johnson Foundation; New Jersey Health Initiative;
Deadline(s): Proposal Deadline: January 15, 2015 (3 p.m. ET);
Contact: New Jersey Health Initiatives; Phone: (856) 225-6733; Email: info@njhi.org; Website: www.njhi.org;
Link(s): More details and how to apply >; New Jersey Health Initiatives: Building A Culture of Health in New Jersey—Communities Moving to Action;
Additional Information: Proposal Deadline: January 15, 2015 (3 p.m. ET)—New Jersey Health Initiatives (NJHI) 2015: Building a Culture of Health in New Jersey—Communities Moving to Action will help communities address multiple factors that influence health outcomes and make sustainable changes to build a Culture of Health. NJHI initiatives will bring together local leaders and community members to create solutions that give everyone the opportunity for a healthy life. Up to 10 existing multi-sector, community-focused coalitions will be supported during this four-year program.; More details and how to apply >;

[NTW] [FOUNDATION FUNDING/IRVING INSTITUTE]
Title: KL2 Mentored Career Development Award 2015;
Sponsor: Irving Institute for Clinical and Translational Research at Columbia University Medical Center is part of the national Clinical and Translational Science Award (CTSA) consortium, and is funded by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Number UL1 TR000040.; Irving Institute for Clinical and Translational Research | irving.institute@columbia.edu | Irving Institute for Clinical and Translational Research | 622 West 168 Street, Floor 10, Suite 305 | New York, NY 10032;
Link(s): Learn more and download an application today.; Irving Institute for Clinical and Translational Research;
Additional Information: The Irving Institute seeks to promote high-quality research, enhance the integration of clinical and translational science, advance the latest proven health care approaches and deliver them more quickly to the patient community. An integral part of this effort is the KL2 Mentored Career Development Program. The KL2 program serves as a "bridge" by which young junior faculty can achieve research independence in multidisciplinary research settings.; We are seeking applications from junior faculty with professorial appointments for funding to begin July 1, 2015.; Phase I Application Deadline: October 15, 2014; Phase I Selections Announced: November 1, 2014; Phase II Application
Deadline (by invitation only): December 1, 2014; Award Start Date: July 1, 2015; Learn more and download an application today.;

[NTW] [FOUNDATION FUNDING/IRVING INSTITUTE]
Title: 2014-15 CaMPR Phase I Planning Grants;
Sponsor: Learn more or start an application today.;
Deadline(s): Monday, November 10;
Contact: Accelerating Discoveries Toward Better Health; irvinginstitute.columbia.edu; The Irving Institute for Clinical and Translational Research at Columbia University Medical Center is part of the national Clinical and Translational Science Award (CTSA) consortium, and is funded by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Number UL1 TR000040.; Irving Institute for Clinical and Translational Research | irvinginstitute@columbia.edu | Irving Institute for Clinical and Translational Research | 622 West 168 Street, Floor 10, Suite 305 | New York, NY 10032;
Link(s): Learn more or start an application today.; Irving Institute for Clinical and Translational Research;
Additional Information: The Irving Institute for Clinical and Translational Research is now accepting applications for the 2014-15 Collaborative and Multidisciplinary Pilot Research (CaMPR) Phase I planning grants. CaMPR is a two-phase funding process that provides planning ($15,000) and start-up funds ($75,000) to support the formation of newly-configured investigative teams with the aim of addressing a significant health problem at the cellular, individual or community level. The four teams selected for Phase I planning grants will go on to compete for two Phase II pilot awards.; Qualifications: Applicants must hold a full-time faculty appointment at the level of Assistant Professor or above. Formation and planning activities of novel, cross-disciplinary research teams involving both senior and junior faculty from at least two of the four CUMC schools. A second school selected from the Morningside campus may be an option. In addition to the collaboration between schools, proposals with faculty from more than one department within at least one of the schools will be considered more competitive. ; Duration: Four (4) months Award Amount: $15,000; Quantity: Four (4) Phase I planning grants funded per application cycle; Application Deadline: Monday, November 10, 2014 by 5:00p EST; Start Date: February 2015; All applicants are strongly encouraged to attend the CaMPR Planning Workshop on Wednesday, October 1, 2014 from 11:30a -12:30p. Register to attend.; Learn more or start an application today.;

[NTW] [FOUNDATION FUNDING/IRVING INSTITUTE]
Title: 2015 Irving Institute Imaging Pilot Awards
Sponsor: Irving Institute;
Deadline(s): Friday, December 5, 2014;
Contact: Accelerating Discoveries Toward Better Health; irvinginstitute.columbia.edu; The Irving Institute for Clinical and Translational Research at Columbia University Medical Center is part of the national Clinical and Translational Science Award (CTSA) consortium, and is funded by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health, through Grant Number UL1 TR000040.; Irving Institute for Clinical and Translational Research | irvinginstitute@columbia.edu | Irving Institute for Clinical and Translational Research | 622 West 168 Street, Floor 10, Suite 305 | New York, NY 10032;
Link(s): Learn more about this funding opportunity or start an application.; Irving Institute for Clinical and Translational Research;
Additional Information: The Irving Institute seeks pilot project applications from junior investigators in the following areas: (*) Magnetic Resonance Imaging (MRI); (*) Optical Imaging; (*) PET Tomography; (*) Single Photon Emission Computed Tomography/Computed Tomography (SPECT/CT); (*) Ultrasound. Structural, functional, or spectroscopic imaging studies in animals or human subjects with relevance to medical illness will be considered. Qualifications: At time of award, qualified applicants must have an appointment as an Instructor, Assistant Professor (clinical or tenure track) or Associate Research Scientist at CUMC. Duration: One (1) year. Award Amount: $5,000 - 10,000; Quantity: Based on availability of funds; Application Deadline: Friday, December 5, 2014 by 5:00p EST; Start Date: April 2015; Learn more about this funding opportunity or start an application.

[NTW] [FOUNDATION FUNDING] Title: Grants Program; Sponsor: Merck (John) Fund; Deadline(s): It does not encourage the submission of unsolicited proposals. However, organizations interested in obtaining support for work they do in one of JMF's program areas are welcome to send a brief email or letter of inquiry — an email with a letter of inquiry attached is preferable.; Contact: Nancy Stockford, Deputy Director; 2 Oliver Street; 8th Floor; Boston, MA 02109; U.S.A.; Tel: 617-556-4120; Fax: 617-556-4130; E-mail: info@jmfund.org; Link(s): Web Site: http://www.jmfund.org/index.php; Program URL: http://www.jmfund.org/grant.php; Additional Information: SYNOPSIS: The John Merck Fund makes grants in four program areas: Developmental Disabilities, Clean Energy, Environmental Health, and Regional Food Systems. Two of the programs, Clean Energy and Regional Food Systems, focus exclusively on New England, while the Environmental Health and Developmental Disabilities programs remain national in scope. Established Date: 11/20/2001; Follow-Up Date: 11/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: Yes; *See Restrictions for further information.; DEADLINE NOTE: The sponsor does not encourage the submission of unsolicited proposals. However, organizations interested in obtaining support for work they do in one of JMF's program areas are welcome to send a brief e-mail or letter of inquiry - an e-mail with a letter of inquiry attached is preferable.; Award Type(s): Demonstration/Evaluation; Development-Program; General Operating Funds; General Project; Information Dissemination; Public Awareness/Education; Planning Grants; Service Delivery; Training / Professional Development; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Individual, Non-Specific; Institution, Non-Specific; Tax-exempt; Target Group(s): NONE; Funding Limit: $0 NOT PROV; Duration: 1 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: Foundations; Geo. Restricted: NO RESTRICTIONS; CONNECTICUT; MASSACHUSETTS; MAINE; NEW HAMPSHIRE; RHODE ISLAND; VERMONT; CFDA#: ; OBJECTIVES: Clean Energy Program grants will promote the development of a clean-energy economy in the six-state New England region. Specifically, the program will seek improved air quality and a ten-year, region-wide greenhouse-gas emissions reduction of 20 percent by supporting projects to boost energy efficiency, reduce use of coal and other fossil fuels, and expand New England's clean energy market. One of the Fund’s objectives is that the region becomes coal-free within ten years. Regional Food Systems Program grants will help strengthen innovation and entrepreneurship in New England's expanding market for regionally and sustainably grown food by funding initiatives to develop institutional demand and the regional supply network. Environmental Health Program grants will support development and implementation of market signals and government policies that encourage a transition away from petroleum-based chemicals linked to preventable diseases. The Developmental Disabilities Program focus is on clinical and translational research, with primary emphasis on children who have Fragile X or Down syndromes. The goal is to help these children...
and their families by encouraging research collaborations that bridge basic and clinical science, more rapid translation of findings into treatment settings, and promulgation of best clinical practices.

ELIGIBILITY: Grants are generally limited to the United States, with some rare exceptions. Applications must be accompanied by Treasury Department rulings on tax exemption status under Internal Revenue Code Section 501(c)(3) and tax classification under Section 509(a), confirming that the organization is publicly supported. The sponsor favors: outstanding individuals working on promising projects in organizations that may have difficulty attracting funds; pilot projects with potential for widespread application; advocacy, including litigation, capable of setting or protecting important precedents; and smaller organizations, start-ups included.

FUNDING: The sponsor makes one-year grants, though multi-year grants of up to three years occasionally are made. The sponsor prefers matching grant opportunities, particularly to help broaden support for fledging initiatives.

KEYWORDS: Sustainable Development; AGRICULTURE/FOOD SCIENCES/FOODS; Sustainable Agriculture; Environmental Planning/Policy; Emission Control; Biomedical Research, Multidisciplinary; Environmental Health; Air Pollution; ENERGY; Alternative Fuels; Renewable Energy Sources; Developmental Disabilities; Fragile X Syndrome; Greenhouse Gases; Down Syndrome;

Additional Information: SYNOPSIS: National Institute of Dental and Craniofacial Research (NIDCR) and National Institute of Biomedical Imaging and Bioengineering (NIBIB) invite applications for research that will advance our understanding of the temporomandibular joint (TMJ) in health and disease and to stimulate research that complements previous efforts and focuses on the biology of joint function and the tissues that make up the TMJ. A better understanding of total joint structure and mechanics including the interactions of the skeletal, muscular, nervous, immune, and circulatory systems using new in vivo and in vitro models is needed. An expected outcome of this FOA is new knowledge that will provide a basis for developing novel approaches to prevent, diagnose, assess risk, and treat temporomandibular joint disorder (TMD). This FOA will use the NIH Research Project (R01); award mechanism. Established Date: 10/03/2014; Follow-Up Date: 11/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after January 5, 2015. The deadlines for receipt of standard applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2017.; Award Type(s): Requests For Applications (NIH); Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes /Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $0 NOT PROV; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: OBJECTIVES: The purpose of this FOA is to encourage research that will advance understanding of temporomandibular joint (TMJ) function in health and disease. Contemporary, multidisciplinary research
focused on the biology of TMJ tissues, interactions of these tissues, innervation of the musculoskeletal component and vascularization of the joint, and normal developmental processes and disease progression are key research areas for expansion. This FOA is intended to complement previous research efforts on temporomandibular joint disorder (TMD) while focusing on the biology of joint function and tissues that make up the TMJ. A better understanding of total joint structure and mechanics including macroscopic and molecular interactions of the skeletal, muscular, nervous, immune, and circulatory systems is needed. In addition, the development of new in vivo and in vitro models to promote multiple facets of research including through the use of advanced tools and technologies to identify morphoregulatory factors is needed. An expected outcome of this FOA is new knowledge that will provide a basis for developing novel approaches to prevent, diagnose, assess risk, and treat TMD. This initiative aims to support research encompassing growth and development of the TMJ, structure and functions of the joint, and pathways that are involved with the onset and progression of disease. Specific emphasis will be on molecular biomarkers and factors that regulate bone, cartilage, muscle, nerve, and blood vessel growth. To develop better approaches to maintaining health and resolving disease, a more detailed understanding of tissue mechanics, joint tissue interfaces, neurological controls, and inflammatory processes is needed. Multidisciplinary teams involving expertise in musculoskeletal, neuromuscular, vascular, and biomechanical biology are encouraged to apply.;

ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ;

FUNDING: This program will use the NIH Research Project (R01) award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applicants may request up to five years of support for R01 awards with costs appropriately tailored to the proposed work. No limit is set on the costs requested by R01 applicants. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. ; Reference: NIH Guide, Week Ending ;

Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PAR-14-357.html;
Additional Information: SYNOPSIS: National Institute of Child Health and Human Development (NICHD) invites applications for Resource Program Grants in Bioinformatics for supporting the continued operation, improvement, and dissemination of databases, digital information, or software tools that are unique, and of special importance to research using animal models of embryonic developmental processes. Applicants are strongly encouraged to consult with the Scientific/Research Contact listed below in Section VII to ensure that the proposed project reflects the objectives of this FOA and the programmatic interests of the NICHD. This FOA will utilize the P41 grant mechanism. Established Date: 10/03/2014; Follow-Up Date: 10/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications must be submitted to Grants.gov in response to this announcement on or after December 25, 2014. Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface
for Submission Tracking (ASSIST). The deadlines for receipt of standard applications under this announcement are: January 25, May 25, and September 25 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 26, 2017. Award Type(s): Computer Infrastructure/Networks; General Project; Information Dissemination; Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $1,750,000 YEAR; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 93.865; OBJECTIVES: These Resource Program Grants in Bioinformatics are intended to support continued operation, improvement and maintenance of bioinformatics tools or resources, user training and services, and wide dissemination of the tools or resources. To qualify for support, bioinformatics resources “software, algorithms, or knowledge resources” must be of demonstrable value toward advancing research utilizing animal model systems in the biomedical sciences and must also be of particular importance to those seeking to understand the biological basis of human and animal development and the etiology of structural birth defects. The resources must be sufficiently mature to have verifiable support and utility for users within the developmental biology research community. Examples of activities that Resource Program Grants in Bioinformatics are intended to support include but are not limited to: --Efforts to curate and annotate unique collections of data, information or knowledge that support learning and research utilizing animal model systems; --Software for information and knowledge processing, including information extraction, integration of data from heterogeneous sources, event detection, and feature recognition within these data sets; --Tools for analyzing and/or storing large datasets, including genomic and proteomic data, data regarding gene and protein expression in relation to cellular, anatomical, and/or developmental coordinates; --Data sets and tools for analysis of gene regulatory networks, protein-protein interaction networks, epigenetic regulatory mechanism, systems biological approaches, and other tools for understanding normal and abnormal biological function and/or development; --Other unique data sets or information tools of demonstrable utility for biomedical research using animal models of developmental processes; --Systems for knowledge representation, including vocabularies, ontologies, simulations and virtual reality, retrieval tools and intelligent agents for scientific information related to developmental processes. ; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ; FUNDING: This FOA will utilize the P41 grant mechanism. Applications must be submitted to Grants.gov in response to this announcement. Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Requested direct costs cannot exceed $1,750,000 per year, are expected to range from $500,000 to no more than $1,750,000 per year, and need to reflect the actual needs of the proposed project. The scope of the proposed project should determine the project period. The maximum project period is 5 years. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the
direct cost limitation. [NTW] [GENOMICS/BIG DATA] Title: Developmental Origins of Health and Disease (DOHaD): Epigenetic Modification in Gametogenesis and Transgenerational Inheritance ; (R01);
Sponsor: National Institute of Child Health and Human Development/NICHD/NIH/DHHS;
Deadline(s): 12/30/2014; 01/30/2015;
Contact: Stuart B. Moss, PhD; 31 Center Drive, Building 31, Room 2A32; Bethesda, MD 20892-2425; U.S.A.; Tel: 301-435-6979; E-mail: mossstua@mail.nih.gov;
Additional Information: SYNOPSIS: National Institute of Child Health and Human Development (NICHD) invites applications for the development of comprehensive reference epigenomes for male and female gametes, and pre-implantation embryos after exposure to a particular environmental factor/insult. What is envisioned is the establishment of a compendium/atlas annotating epigenetic changes during various stages of spermatogenesis, oogenesis, and pre-implantation embryo development, the identification of the affected genes, and the characterization of any resulting phenotype in the offspring. This FOA will use the NIH Research Project (R01) award mechanism. ; Established Date: 11/05/2013; Follow-Up Date: 03/01/2015; Review Date: 10/06/2014; Deadline Ind: Receipt; Deadline Open: No; *See Restrictions for further information.; DEADLINE NOTE: The deadline for receipt of optional letters of intent is December 30 annually. The deadline for receipt of full applications is January 30 annually. This FOA will expire on January 31, 2015.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital;Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $250,000 YEAR; Duration: 2 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 99.999; OBJECTIVES: For this initiative, only work in mammalian systems will be considered for funding. The environmental factor/insult (e.g., endocrine disruptor, fungicide, changes in diet, specific manipulations in ART) to be administered should lead to a reproducible phenotype in the offspring. The resulting phenotype does not necessarily have to be an outcome that is within the scientific mission of the NICHD; however, the epigenetic changes must be present in male and/or female gametes, and/or pre-implantation embryos. Any well-defined epigenetic change(s) (DNA methylation, chromatin structure, microRNA populations) can be analyzed. Due to the limited project period, examination of the mechanism underlying a particular epigenetic change is not required. Appropriate questions include but are not limited to those listed below: --What epigenomic changes are seen in sperm, oocytes and pre-implantation embryos after exposure to a particular environmental factor compared to controls? - -What genes are epigenetically altered following exposure to a particular environmental factor? --When do these epimutations occur during gametogenesis and pre-implantation embryo development? Do different epigenetic changes
occur at different developmental times? --What happens to these epigenetic changes in the pre-implantation embryo when there is global DNA demethylation and large changes in chromatin structure? --Do different insults result in different epigenomic changes?; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ; FUNDING: This program will use the NIH Research Project (R01) award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Application budgets are limited to $250,000 (direct costs)/year and should reflect the actual needs of the proposed project. The maximum project period is 2 years. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. Reference: CFDA#: 93.865, 93.113. NIH Guide, Week Ending November 8, 2013; NIH Guide, Week Ending November 22, 2013.; KEYWORDS: Environment (Health/Safety/Medical); Environmental Health; Genetic Manipulation; Developmental Biology; Genetics; Environmental Biology; Environmental Effects; Epigenetics; Grants.gov; Grants.gov/S2S;
The objectives for the next 5-year cycle of MIDUS are listed below. Applicants are not expected to address all the research objectives; if all research objectives are addressed, applicants are not expected to address them evenly. Applicants are encouraged to balance among these and justify their priorities and focus. --Offer insights into the mechanistic pathways through which social, psychological, economic, and behavioral factors affect health in middle-aged and older adults, and shed new light on which pathways may be most amenable to change. --Repeat and enhance the assessment of biomeasures currently collected, including the addition of new biomarkers (such as venous blood) and/or performance indicators, to improve nationally-representative research on longitudinal change in existing measures, to understand how such changes relate to other life circumstances and psychosocial characteristics measured in MIDUS, and to elucidate more precisely the biological pathways through which psychosocial influences impact trajectories of aging. --Enhance the assessment of psychosocial factors, such as daily stress and well-being, to improve nationally-representative research on the complex interactions between individual psychosocial characteristics and cognition, health, and socioeconomic outcomes in mid and later life. --Enhance approaches to assessment of biological risk and resilience, including characterization of multi-system physiological dysregulation; examine associations of these risk and resilience markers with psychosocial and economic factors; and incorporate these assessments to elucidate pathways predicting later life cognition, health, disease, and disability and mortality. --Foster innovation in statistical approaches to modeling longitudinal and cross-project data on health, cognition, daily stress processes, economic and subjective well-being, multi-system physiological dysregulation, behavioral and psychological phenotypes, and social and economic conditions, to shed light on pathways of health and illness in mid and later life. --Enhance linkages of psychophysiological and neuroscience assessments of affective function--including emotional reactivity, recovery, and regulation - with measures.
of stress processes, cognitive function, biomarkers, and psychosocial assessments, to elucidate the neurobiological pathways linking behavioral and psychosocial factors to life course trajectories of health and illness. --Enhance retention of at-risk and minority participants in MIDUS, including prior respondents lost to follow-up, to enhance the potential for study of risk and resiliency among individuals in the most vulnerable segments of our society. Enhance genetic and genomic research in the MIDUS sample, including integration of new methods and technologies, greater utilization of the sibling and twin data for studies of genetic and environmental influences on trajectories of aging, studies of psychosocial (both risk and protective) influences on gene expression, and genome-wide genotyping. --Examine the behavioral, psychological and biological pathways whereby daily stress processes impact health and function in midlife and aging, and the ways in which short term fluctuations in stress processes may mediate longer term processes. --Enhance cross-project participation, retention and data quality across the full range of MIDUS subprojects. --Propose maintenance and innovation in data dissemination, user support of public use files, and encourage data use broadly by the scientific community, and extend harmonization efforts with internationally comparable surveys of population aging. ; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic institutions / organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. Only one application per institution is allowed. ; FUNDING: This FOA will use the NIH U19 Research Program’s Cooperative Agreements award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applications must be submitted to Grants.gov through NIH’s new Application Submission System & Interface for Submission Tracking (ASSIST). Application budgets are not limited but need to reflect the actual needs of the proposed project. The maximum project period is 5 years. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) invites applications for research projects to enhance our understanding of the nature, extent, distribution, etiology, comorbidities, and consequences of drug use, abuse, and addiction across individuals, families, communities, and diverse population groups. This FOA strongly encourages applications that reflect the breadth of epidemiology research by addressing multiple levels of risk, resilience, and causation across scientific disciplines; by applying novel methods to advance knowledge of the interplay among genetic, environmental, and developmental factors and between social environments and associated health and disease outcomes; and by building on the research investments of NIH and sister HHS agencies to harness existing data on the epidemiology and etiology of drug abuse to improve public health prevention and treatment programs. This program will use the NIH Research Project (R01) award mechanism. ; Established Date: 10/06/2014; Follow-Up Date: 11/01/2015; Review Date: 10/06/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after January 5, 2015. The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2014.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl: Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $0 NOT PROV; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 93.279; OBJECTIVES: This Funding Opportunity Announcement (FOA) is intended to support research projects to enhance our understanding of the nature, extent, distribution, etiology, and consequences of drug use, abuse, and addiction across individuals, families, communities, and diverse population groups. “Drug” involvement refers to use of tobacco, alcohol, marijuana, prescription and illicit drugs, energy drinks, emerging psychoactive substances, and polysubstance use; role of these substances across a continuum of addiction; and how they impact public health outcomes. The goal of this Epidemiology of Drug Abuse research program is to encourage creative and innovative approaches to studying drug abuse resulting in high public health impact and translation of epidemiologic findings into prevention and treatment services as well as informing basic science research. This Program supports a broad portfolio of research to fill gaps in our knowledge of the continually changing patterns of drug use, associated factors, and consequences in populations, including, but not limited to, studies that examine: (1) Individual, familial, and environmental factors associated with drug use; (2) Interplay of factors that exacerbate or mitigate risk for drug initiation, addiction, desistence/recovery, and relapse; (3) Co-occurring psychiatric conditions, behaviors and associated problems; (4) Indicators and mechanisms of risk, vulnerability, and health disparities among and between subpopulations; (5) Developmental and life course trajectories related to the etiology and natural history of drug use; (6) Need for, access to, and utilization of drug abuse prevention and treatment services, and the social, community, and organizational factors that influence intervention development, availability, and effectiveness; (7) Public health impacts of the attitudes, availability, behaviors, and products, resulting from the shifting marijuana policy environment. Specific program areas of particular interest include but are not limited to the following: Emerging and Current Drug Abuse Trends; Natural History; Etiology/Developmental Trajectories; Social and Legal Epidemiology; Methods & Measurement; and Cross-cutting Topics. ; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local; governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs);
Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model.; FUNDING: This program will use the NIH Research Project (R01) award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applicants may request up to five years of support for R01 awards with costs appropriately tailored to the proposed work. No limit is set on the costs requested by R01 applicants. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. [NTW] [SUBSTANCE USE DISORDERS (SUDS)] Title: Epidemiology of Drug Abuse (R21);

Sponsor: National Institute on Drug Abuse/NIDHHS;

Deadline(s): 02/16/2015; 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017; 02/16/2017; 05/07/2017; 06/16/2017; 09/07/2017; 10/06/2014; Follow-Up Date: 11/01/2015; Review Date: 10/06/2014; Deadline, Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after January 16, 2015. The deadlines for receipt of standard R01 applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2014.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/ Organizations; Small Business; Tax-exempt; Target
Group(s): NONE; Funding Limit: $275,000 MAXIMUM; Duration: 2 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 93.279; OBJECTIVES: This Funding Opportunity Announcement (FOA) is intended to support research projects to enhance our understanding of the nature, extent, distribution, etiology, and consequences of drug use, abuse, and addiction across individuals, families, communities, and diverse population groups. “Drug” involvement refers to use of tobacco, alcohol, marijuana, prescription and illicit drugs, energy drinks, emerging psychoactive substances, and polysubstance use; role of these substances across a continuum of addiction; and how they impact public health outcomes. The goal of this Epidemiology of Drug Abuse research program is to encourage creative and innovative approaches to studying drug abuse resulting in high public health impact and translation of epidemiologic findings into prevention and treatment services as well as informing basic science research. This Program supports a broad portfolio of research to fill gaps in our knowledge of the continually changing patterns of drug use, associated factors, and consequences in populations, including, but not limited to, studies that examine: (1) Individual, familial, and environmental factors associated with drug use; (2) Interplay of factors that exacerbate or mitigate risk for drug initiation, addiction, desistence/recovery, and relapse; (3) Co-occurring psychiatric conditions, behaviors and associated problems; (4) Indicators and mechanisms of risk, vulnerability, and health disparities among and between subpopulations; (5) Developmental and life course trajectories related to the etiology and natural history of drug use; (6) Need for, access to, and utilization of drug abuse prevention and treatment services, and the social, community, and organizational factors that influence intervention development, availability, and effectiveness; (7) Public health impacts of the attitudes, availability, behaviors, and products, resulting from the shifting marijuana policy environment. Specific program areas of particular interest include but are not limited to the following: Emerging and Current Drug Abuse Trends; Natural History; Etiology/Developmental Trajectories; Social and Legal Epidemiology; Methods & Measurement; and Cross-cutting Topics.; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ; FUNDING: This program will use the NIH Exploratory/Developmental (R21) grant mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. The total project period for an application submitted in response to this funding opportunity may not exceed two years. Direct costs are limited to $275,000 over the two years of the R21 award, with no more than $200,000 in direct costs allowed in any single year. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. Reference: NIH Guide, Week Ending October 3, 2014. ; KEYWORDS: Addictions; Drugs/Drug Abuse; Social & Economic Environment; Public Health; Drug Abuse Prevention; Drug Abuse Treatment; Etiology; Health Planning/Policy; Epidemiology; Medical Genetics; Psychiatry; Genetics; HIV Infection; Natural History of a Disease; Behavior and Health; Health Disparities; Medical Outcomes; Grants.gov; Grants.gov/S2S;
Title: Epidemiology of Drug Abuse (R03);
Sponsor: National Institute on Drug Abuse/NIH/DHHS;
Deadline(s): 02/16/2015; 05/07/2015; 06/16/2015; 09/07/2015; 10/16/2015; 01/07/2016; 02/16/2016; 05/07/2016; 06/16/2016; 09/07/2016; 10/16/2016; 01/07/2017; 02/16/2017; 05/07/2017; 06/16/2017; 09/07/2017;

Additional Information: SYNOPSIS: National Institute on Drug Abuse (NIDA) invites applications for research projects to enhance our understanding of the nature, extent, distribution, etiology, comorbidities, and consequences of drug use, abuse, and addiction across individuals, families, communities, and diverse population groups. This FOA strongly encourages applications that reflect the breadth of epidemiology research by addressing multiple levels of risk, resilience, and causation across scientific disciplines; by applying novel methods to advance knowledge of the interplay among genetic, environmental, and developmental factors and between social environments and associated health and disease outcomes; and by building on the research investments of NIH and sister HHS agencies to harness existing data on the epidemiology and etiology of drug abuse to improve public health prevention and treatment programs. This FOA will use the NIH Small Research Grant (R03) award mechanism.; Established Date: 10/06/2014; Follow-Up Date: 11/01/2015; Review Date: 10/06/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after January 16, 2015. The deadlines for receipt of standard R01 applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. [NTW] [CANCER (BLOOD)] Title: Biomarkers for Early Detection of Hematopoietic Malignancies (R21); Sponsor: National Cancer Institute/NIH/DHHS; Deadline(s): 10/16/2014; 01/07/2015; 02/16/2015; 05/07/2015; 06/16/2015; 09/07/2015; Contact: Lynn Sorbara, Ph.D.; Division of Cancer Prevention; 6130 Executive Boulevard; EPN Room 3137, MSC 7362; Bethesda, MD 20892-7362; U.S.A.; Tel: 301-435-0584; Fax: 301-402-8990; E-mail: lynns@mail.nih.gov; Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PA-12-220.html; Additional Information: SYNOPSIS: This Funding Opportunity Announcement (FOA), issued by the National Cancer Institute (NCI), encourages research grant applications from institutions/ organizations for the development and validation of biomarkers for: a) early detection, prediction of progression, and recurrence of hematopoietic malignancies, especially in high-risk individuals; and, b) for risk assessment of primary and secondary hematopoietic malignancies. This FOA will also encourage the development and improvement of specific technologies and methods for quantitative detection of novel biomarkers associated with hematopoietic malignancies. This FOA will utilize the NIH exploratory/developmental (R21) grant mechanism and runs in parallel an FOA of identical scientific scope, PA-12-221, that encourages applications under the R01 mechanism. Established Date: 06/01/2009; Follow-Up Date: 11/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; *See Restrictions for further information. DEADLINE NOTE: The deadlines for receipt of standard applications under this announcement are: February 16, June 16, and October 16 annually. The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2015.; Award Type(s): Research Grants / R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/ Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $275,000 MAXIMUM; Duration: 2 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: Federal; Geo. Restricted: NO RESTRICTIONS; CFDA#: 99.999; OBJECTIVES: This initiative for the discovery and validation of biomarkers for early detection of hematopoietic malignancies is in accordance with the NCI's Strategic Plan to continue the discovery into the genetic, molecular, and cellular determinants of cancer susceptibility and initiate and support studies to better understand risk reduction, prevention, early detection, diagnosis, and treatment. This initiative will be all-inclusive and will encompass proteomic, genomic, epigenomic, and transcriptomic discovery and development methods, as well as the utilization of standardized biospecimens for validation studies. In addition, the development of specific technologies that will be used to detect, enhance the detection, or improve the quantitation of the novel biomarkers of hematopoietic malignancies will also be encouraged. Topics of special interest include, but are not limited to biomarkers for use in high-risk groups such as patients with: monoclonal gammopathy of uncertain significance, myelodysplastic syndromes, autoimmune diseases, primary and secondary immunodeficiencies; and exposure to radiation and/or those treated with alkylating agents in chemotherapy. Diseases with very low prevalence will necessitate biomarkers that perform at high specificity and sensitivity levels.; ELIGIBILITY: Eligible applicants are Public/State Controlled Institutions of Higher Education, Private Institutions;
of Higher Education, Hispanic-serving Institutions, Historically Black Colleges and Universities (HBCUs), Tribally Controlled Colleges and Universities (TCCUs), Alaska Native and Native Hawaiian Serving Institutions, Nonprofits with 501(c)(3) IRS Status (Other than Institutions of Higher Education), Nonprofits without 501(c)(3) IRS Status (Other than Institutions of Higher Education), Small Businesses, For-Profit Organizations (Other than Small Businesses), State Governments, County Governments, City or Township Governments, Special District Governments, Indian/Native American Tribal Governments (Federally Recognized), Indian/Native American Tribal Governments (Other than Federally Recognized), Eligible Agencies of the Federal Government, U.S. Territory or Possession, Independent School Districts, Public Housing Authorities/Indian Housing Authorities, Native American Tribal Organizations (other than Federally recognized tribal governments), Faith-based or Community-based Organizations, and Regional Organizations. Non-domestic (non-U.S.) Entities (Foreign Institutions) are eligible to apply. Non-domestic (non-U.S.) components of U.S. Organizations are eligible to apply. EFUNDING: The number of awards is contingent upon NIH appropriations, and the submission of a sufficient number of meritorious applications. The combined budget for direct costs for the two-year project period may not exceed $275,000. No more than $200,000 may be requested in any single year. The maximum project period is 2 years. CFDA#: 93.393, 93.394. Reference: NIH Guide, Week Ending June 29, 2012.; KEYWORDS: Biomedical Research, Multidisciplinary; Cancer Biology; Autoimmunity; Cancer/Carcinogenesis; Immune System Disorders; Chemotherapy; Biological Markers; Cellular Biology; Molecular Biology; Genomics; Epigenetics; Grants.gov; Grants.gov/S2S;

[NTW] [CANCER/EARLY DETECTION] Title: Utilizing the PLCO Biospecimens Resource to Bridge Gaps in Cancer Etiology and Early Detection Research; (U01);
Sponsor: National Cancer Institute/NIH/DHHS;
Deadline(s): 02/20/2015; 06/19/2015;
Contact: Claire Zhu, Ph.D.; Early Detection Research Group; Division of Cancer Prevention; 6130 Executive Boulevard, Suite 3100; Bethesda, MD 20892; Tel: 301-402-0893; U.S.A.; E-mail: zhucla@mail.nih.gov;
Additional Information: SYNOPSIS: National Cancer Institute (NCI) invites applications that propose to advance research in cancer etiology and early detection biomarkers, utilizing the advantages of the unique biorepository resources of the NCI-sponsored Prostate, Lung, Colorectal, and Ovarian Cancer (PLCO) Screening Trial. The PLCO Biorepository offers high-quality, prospectively collected, serial pre-diagnostic blood samples from the PLCO-screened arm participants, and a one-time collection of buccal cells from the control arm participants. Available data associated with the biospecimens includes demographic, diet, lifestyle, smoking, screening results, and clinical data. This FOA supports a wide range of cancer research including, but not limited to, biochemical and genetic analyses of cancer risk, as well as discovery and validation of early detection biomarkers. The proposed research project must involve use of PLCO biospecimens; additionally, it should also take advantage of the unique characteristics of the PLCO biospecimens. Research projects that do not involve the use of PLCO biospecimens will not be supported under this FOA. This program will use the NIH U01 Research Project Cooperative Agreements award mechanism.; Established Date: 12/07/2012; Follow-Up; Date: 08/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: The deadline for receipt of optional letters of intent is thirty days before the applicable application date. The deadlines for receipt of full applications are: February 20, 2015; June 19, 2015, by 5:00 PM local time of applicant organization.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/ Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/ Organizations; Small Business; Tax-exempt; Target
OBJECTIVES: The purpose of this FOA is to stimulate areas of cancer research that require prospectively collected pre-diagnostic blood specimens available from the PLCO Biorepository. The proposed research project should not only involve use of PLCO biospecimens and data, but take advantage of their unique characteristics, in large part by focusing on research questions that cannot be adequately addressed by using clinical samples (samples collected following a diagnosis). In some cases, it may be necessary to include specimens from other sources in order to carry out the proposed research. In that case, the investigator should obtain approval from the other source to access the specimens and provide evidence of the approval. Specific research areas of interest include, but are not limited to, the following: --Identifying biomarkers of various environmental, biochemical, and genetic risk factors of cancer; --Pivotal validation of early detection blood biomarkers in pre-diagnostic samples; --Developing early detection and/or risk prediction models based on longitudinal patterns of the biomarkers; --Identifying blood biomarkers that correlate with clinical behavior of the tumors, especially those that differentiate between aggressive and indolent cancers; --Correlating blood biomarkers to tissue biomarkers, histological and molecular subtypes, and clinical behaviors; and --Biomarker discovery in pre-diagnostic samples using high through-put, proven technologies.

ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a "team science" approach that clearly does not fit the single-PD/PI model. FUNDING: This program will use the NIH U01 Research Project Cooperative Agreements award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applicants may request up to five years of support for U01 awards with costs appropriately tailored to the proposed work. No limit is set on the costs requested by U01 applicants. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. Reference: NIH Guide, Week Ending NIH Guide, Week Ending December 7, 2012.; KEYWORDS: Cancer Biology; Cancer / Carcinogenesis; Environment (Health/Safety/Medical); Environmental Health; Medical Diagnosis; Biomaterials; Molecular/Cellular Entities; Biochemical Markers; Biological Markers; Research Resources (Health/Safety/Medical); Biological Resources; Biomedical Research Resources, Other; Medical Genetics; Molecular Biology; Genetics; Histology; Biochemistry; Tumors; Grants.gov; Grants.gov/S2S;
encourage research in areas such as the study of the etiologic factors, cofactors, immunopathogenesis, diagnosis, and consequences of both non-AIDS defining and AIDS-defining malignancies in diverse populations. This FOA encourages research efforts that will (i) provide information on the clinical outcomes of such cancers in the HIV-infected population and (ii) identify specific contributions resulting from HIV infection and its potential interaction with other pathogens for the development and pathogenesis of these cancers. Ultimately, such efforts could inform screening approaches and therapies targeted to the HIV-infected population. This FOA will use the NIH Exploratory/Developmental (R21) grant mechanism.; Established Date: 10/21/2013; Follow-Up Date: 11/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; *See Restrictions for further information.; DEADLINE NOTE: The deadlines for receipt of AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on September 8, 2016.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/ Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $275,000 MAXIMUM; Duration: 2 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO; RESTRICTIONS; CFDA#: 99.999; OBJECTIVES: The purpose of this funding opportunity announcement (FOA) is to continue advancing our understanding of the risks, development, progression, diagnosis, and treatment of malignancies observed in individuals with an underlying Human Immunodeficiency (HIV) infection or Acquired Immune Deficiency Syndrome (AIDS). The NCI and NIDCR encourage research in areas such as the study of the etiologic factors, cofactors, immunopathogenesis, diagnosis, and consequences of both AIDS-defining and non-AIDS defining malignancies in diverse populations in the context of an underlying HIV infection. This FOA encourages research efforts that will: (i) provide information on the clinical outcomes of such cancers in the HIV-infected population; and (ii) identify specific contributions resulting from HIV infection and its potential interaction with other pathogens for the development and pathogenesis of these cancers. Ultimately, such efforts could inform screening approaches and therapies targeted to the HIV-infected population. Specific areas of study in the indicated categories may include, but are not limited to, the following examples: Biomarkers, Diagnostics, and Therapeutics; Etiology, Pathogenesis and Immunology; Molecular Epidemiology and Prevention. NIDCR has interests in the above areas focusing on the oral cavity. ; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ; FUNDING: This program will use the NIH Exploratory/Developmental (R21) grant mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. The total project period for an application submitted in response to this funding opportunity may not exceed two years. Direct costs are limited to $275,000 over the two years of the R21 award, with no more than $200,000 in direct costs allowed in any single year. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. CFDA#:s; 93.393, 93.121. Reference: NIH Guide, Week Ending

Additional Information: SYNOPSIS: National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) invites applications for innovative research projects examining the basic and clinical aspects of HIV infection, treatment, and long-term sequelae as they relate to the mission of the Division of Kidney, Urologic and Hematologic Diseases within NIDDK (KUH/NIDDK). This FOA will use the NIH Research Project (R01) award mechanism.; Established Date: 10/03/2014; Follow-Up Date: 06/01/2015; Review Date: 10/03/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications may be submitted to Grants.gov in response to this announcement on or after March 9, 2015. The deadline for receipt of optional letters of intent is March 9, 2015. The deadline for receipt of full applications is April 9, 2015), by 5:00 PM local time of applicant organization.; Award Type(s): Requests For Applications (NIH) Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions/ Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $500,000 YEAR; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 93.847; OBJECTIVES: This Funding Opportunity Announcement (FOA) invites applications related to the broad fields of HIV infection, treatment, and long-term sequelae as they relate to the mission of the Division of Kidney, Urologic and Hematologic Diseases within NIDDK (KUH/NIDDK, http://1.usa.gov/1yAEaDsL) and seeks applications that propose to evaluate the long-term effects of HAART on the kidney, genitourinary system, erythrocyte biology and hematopoiesis; to define organ disease progression trajectories as a result of HIV infection and treatment and define prediction models for susceptibility to organ disease; to define the interplay between underlying genetic susceptibility to organ disease and HIV infection and treatment; to discover and validate appropriate biomarkers for organ disease progression; and to conduct population-based studies of organ disease in HIV-infected and treated populations. The Division is additionally interested in applications proposing to further elucidate mechanisms of HIV persistence and transmission in the male genital tract.; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-
PD/PI model. ; FUNDING: This program will use the NIH Research Project (R01) award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. NIDDK intends to commit $2.6 million in FY 2015 to fund 3-6 awards. Application budgets are limited to up to $500,000 direct costs and need to reflect the actual needs of the proposed project. The scope of the proposed project should determine the project period. Investigators may propose research projects for a minimum project period of 3 years to a maximum project period of 5 years. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. Reference: NIH Guide, Week Ending October 3, 2014.; KEYWORDS: Biomedical Research, Multidisciplinary; Infectious Diseases/Agents; Kidney Disease; Men's Health; Biochemical Markers; Biological Markers; Urology; Kidney (Renal) Functions; Genetics; HIV Infection; Antiretroviral Therapy; Urinary Tract Disorders; Grants.gov; Grants.gov/S2S; Hematology/Haematology;

[NTW] [AIDS] Title: Strengthening the Capacity of the Republican Blood Center to Scale Up Blood Safety Program in the Kyrgyzstan Republic under the President’s Emergency Plan for AIDS Relief (PEPFAR) Grant; Sponsor: HHS; Department of Health and Human Services; Centers for Disease Control and Prevention; Deadline(s): November 13, 2014; Contact: Sharon Cassell CDC Procurement and Grants Office Phone 770-488-2700; pgo tim; Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=267868;

E-mail: mardens@mail.nih.gov; 
Link(s): Program URL: http://grants1.nih.gov/grants/guide/pa-files/PA-13-118.html; 
Additional Information: SYNOPSIS: The sponsors invite applications to stimulate and foster a wide range of basic, clinical, and translational studies on pain as they relate to the missions of these ICs. New advances are needed in every area of pain research, from the micro perspective of molecular sciences to the macro perspective of behavioral and social sciences. Although great strides have been made in some areas, such as the identification of neural pathways of pain, the experience of pain and the challenge of treatment have remained uniquely individual and unsolved. Furthermore, our understanding of how and why individuals transition to a chronic pain state after an acute injury is limited. Research to address these issues conducted by interdisciplinary and multidisciplinary research teams is strongly encouraged, as is research from underrepresented, minority, disabled, or women investigators. This FOA will use the NIH Research Project (R01) award mechanism.; Established Date: 10/06/2009; Follow-Up Date: 11/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: No; *See Restrictions for further information.; DEADLINE NOTE: The deadlines for receipt of standard R01 applications under this announcement are: February 5, June 5, and October 5 annually. The deadlines for receipt of
AIDS-related applications are: January 7, May 7, and September 7 annually. This program will expire on May 8, 2016.; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher/Investigator; Research Institutions /Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $0 NOT PROV; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: Federal; Geo. Restricted: NO RESTRICTIONS; CFDA#: 99.999; OBJECTIVES: New and innovative advances are needed in every area of pain research, from the microperspective of molecular sciences to the macro perspective of behavioral/social sciences. Although great strides have been made in some areas, such as the neural pathways of pain, chronic pain and the challenge of its treatment have remained uniquely individual and largely unsolved. Proposals that seek to improve the understanding of the causes, costs, and societal effects of both acute and chronic pain and the relationships between the two are highly encouraged. Studies on the mechanisms underlying the transition from acute to chronic pain are also needed. Additionally, proposals that link such understandings to the development of better approaches to therapeutic interventions, including complementary and alternative medicine (CAM) interventions, and management of acute and chronic pain are in keeping with the current translational focus of NIH and are encouraged. The following acute and chronic pain conditions are of special interest but do not comprise a comprehensive or complete listing of research areas relevant to this FOA: Inflammatory Pain; Visceral pain; Chronic urologic pelvic pain syndromes; Neuropathic pain; Spinal cord injury pain; Headache; Musculoskeletal pain, including back pain; Cancer related pain (e.g. pain due to metastasis or primary disease); Cardiovascular pain disorders; Chemotherapy-induced neuropathies and other related toxicities (e.g. aromatase inhibito arthralgias); Fibromyalgia; Temporomandibular joint and muscle disorders; Pain associated with HIV/AIDS; Pain associated with osteoporosis; Pain associated with communication disorders (e.g., otitis media, tinnitus, burning mouth syndrome, dysphagia); Pain at the end of life; Pain in older persons with multiple contributing morbidities; Pain in people with drug and alcohol addictions; Pain in persons with neuromuscular conditions; Pain in preterm neonates exposed to multiple medical interventions; and Skin disorders and pain. The following topic areas are not intended to be comprehensive or exhaustive. Synergistic studies that reach across two or more of these areas are encouraged. Interdisciplinary and multidisciplinary research is especially encouraged, as is research that involves specific cooperation between basic and clinical scientists: Molecular and cellular mechanisms of pain; genetics of pain; biobehavioral pain; models of pain; diagnosis and assessment of pain; pain management; epidemiology of pain; health disparities; and translational pain research. ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic or foreign institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the same PD/PI model.; FUNDING: This program will use the NIH Research Project (R01) award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applicants may request up to five years of support for R01 awards with costs appropriately tailored to the proposed work. No limit is set on the costs requested by R01 applicants. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of...
Research Resources - Friday Newsletter, 10/10/14

each award will also vary. F&A costs requested by consortium participants are not included in the direct cost limitation. CFDA#s: 93.361, 93.213; 93.853; 93.865; 93.847; 93.859; 93.279; 93.393; 93.846; 93.307.; Reference: NIH Guide, Week Ending February 15, 2013; NIH Guide, Week Ending February 22, 2013; NIH Guide, Week Ending March 1, 2013; NIH Guide, Week Ending April 12, 2013; NIH Guide, Week Ending October 10, 2014.; KEYWORDS: BEHAVIORAL/SOCIAL SCIENCES; Addictions; Cardiovascular System; Musculoskeletal System; Urogenital System; AIDS; Inflammation; Injury; Cancer/Carcinogenesis; Cardiovascular Diseases; Communicative Disorders, Hearing; Communicative Disorders, Speech; Muscle Disorders; Neuromuscular Disorders; Pain; Skin Diseases; Skeletal Diseases; Chemotherapy; Epidemiology; Cellular Biology; Molecular Biology; Genetics; HIV Infection; Spinal Cord Injury; Alternative Medicine; Fibromyalgia; Osteoporosis; Elderly Health; Health Disparities; Bone; Temporomandibular Joint Disorders; Urinary Tract Disorders; Otitis Media; Translational Research; Grants.gov; Grants.gov/S2S;

[NTW] [AUTISM] Title: RFA-MH-15-800--Consortium on Biomarker and Outcome Measures of Social Impairment for Use in Clinical Trials in Autism Spectrum Disorder (U19);
Sponsor: National Institute of Mental Health/NIH/DHHS;
Deadline(s): 11/10/2014 ; 12/10/2014;
Contact: Linda Brady, Ph.D.; 6001 Executive Boulevard; Bethesda, MD 20892; U.S.A.; E-mail: lbrady@mail.nih.gov; Tel: 301-443-3563;
Additional Information: SYNOPSIS: National Institutes of Health (NIH) and its participating Institutes and Centers invite applications for the Consortium on Biomarkers and Outcome Measures of Social Impairment in Autism Spectrum Disorder (ASD) in order to generate objective tools for use in clinical trials of behavioral or pharmacologic interventions. This FOA will use the NIH U19 Research Program - Cooperative Agreements award mechanism. ; Established Date: 09/16/2014; Follow-Up Date: 02/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: Applications must be submitted to Grants.gov through NIH's new Application Submission System & Interface for Submission Tracking (ASSIST). Applications may be submitted to Grants.gov in response to this announcement on or after November 10, 2014. The deadline for receipt of optional letters of intent is November 10, 2014. The deadline for receipt of full applications is December 10, 2014, by 5:00 PM local time of applicant organization.; Award Type(s): Centers, Research/Service: Requests For Applications (NIH); Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Colleges/Universities; Faculty Member; For-Profit; HBCU; Hospital; Indian Tribes/Governing Orgs.; Laboratory; Minority Institution/Organization; Non-Profit; Organizations--Community/Soc. Serv.; Researcher / Investigator; Research Institutions/Organizations; Small Business; Tax-exempt; Target Group(s): NONE; Funding Limit: $5,250,000 YEAR; Duration: 4 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 99.999; OBJECTIVES: The purpose of this Funding Opportunity Announcement (FOA) is to invite applications for the Consortium on Biomarkers and Outcome Measures in Autism Spectrum Disorder (ASD) that will implement the Consortium project. The Consortium project will generate objective tools for use in clinical trials of behavioral or pharmacologic interventions to address social impairments in ASD. The FOA will establish a team of clinical investigators (the Clinical Investigation Unit, CIU) to conduct a multi-site study to begin to qualify biomarkers and outcome measures to assess social impairment in ASD. The CIU will assess the following: --whether lab-based measures of specific domains of...
social impairment in ASD are more sensitive indicators of clinical status compared to commonly used clinician and caregiver assessments of social impairment for their potential use as outcome measures in clinical trials; --whether eye-tracking, electrophysiological (EEG) paradigms, or a combination of the two, have potential utility as stratification biomarkers and/or as sensitive and reliable measures of change in ASD clinical trials; --the relationship (correlation) of lab-based measures of domains of social impairment to eye tracking or EEG (resting state and task-based) paradigms; --the relationship (correlation) of lab-based measures of domains of social impairment to commonly used clinician and caregiver assessments of social impairment; and --as a resource aim, collect blood (DNA) samples from all subjects, including the parents of ASD subjects, for future genomic analyses. A key goal of the Consortium project, which is a resource generating initiative, is to provide a community resource for broad sharing of all data generated, including processed/analyzed data, with rapid and timely deposition of data into the National Database for Autism Research (NDAR). All data generated in this project are expected to be deposited in NDAR and accessible for use by all qualified investigators (http://ndar.nih.gov/access.html). Blood samples from all subjects, including the parents of ASD subjects, are expected to be deposited in the NIMH Repository and Genomics Resource for future genomic analyses of what will be a well-characterized cohort of ASD individuals. This FOA will support a multi-site Consortium project to assess a well-justified set of standardized lab-based measures of domains of social impairment and biological measures (resting state and task-based EEG and eye tracking measures) that show promise in school age individuals with ASD (ages 6-11, with the possibility of adding adolescent or toddler groups) at baseline, 6 and 24 week time points. The intent of the FOA is to qualify a set of measures that can potentially be used as stratification biomarkers and/or as sensitive and reliable objective measures for application in ASD clinical trials focused on social impairment. The FOA also aims to determine the relationship (correlation) of the lab-based measures to: 1) the biological measures (EEG and eye tracking measures); and 2) the commonly used clinician and caregiver assessments of social impairment. In addition, one task-based EEG and eye tracking measure from the European Autism Interventions - A Multicenter Study for Developing New Medications (EU-AIMS) will be included in the Consortium project to foster harmonization and independent replication of a common subset of biomarker measures in the U.S. Consortium and EU-AIMS projects. The structure of the Clinical Investigation Unit (CIU) will include: an administrative core; collaborating implementation sites; a data coordinating core; and an eye tracking and EEG data acquisition and analysis core. ; ELIGIBILITY: Eligible applicants are: for-profit or non-profit organizations; public/State-controlled institutions of higher education; private institutions of higher education; units of State and local governments; units of State and local Tribal government; Hispanic-serving institutions; Historically Black Colleges and Universities (HBCUs); Alaska Native and Native Hawaiian Serving Institutions; Tribally Controlled Colleges and Universities (TCCUs); Small Business; eligible agencies of the Federal government; domestic institutions/organizations; and faith-based or community-based organizations. More than one PD/PI, or multiple PDs/PIs, may be designated on the application for projects that require a “team science” approach that clearly does not fit the single-PD/PI model. ; FUNDING: This FOA will use the NIH U19 Research Program - Cooperative Agreements award mechanism. Applications submitted in response to this announcement must be submitted electronically through Grants.gov, using the SF424 Research and Related (R&R) forms and SF424 (R&R) Application Guide. Applications must be submitted to Grants.gov through NIH’s new Application Submission System & Interface for Submission Tracking (ASSIST). NIMH and NICHD intend to commit $ 3,525,000 in direct costs in FY 2015 to fund one award. Application budgets may be submitted for up to $5,250,000 direct costs per year to reflect the science proposed in accordance with the FOA. The maximum project period is 4 years. Because the nature and scope of the proposed research will vary from application to application, it is anticipated that the size and duration of each award will also vary. F&A costs requested by consortium participants are not included in the direct cost
[NTW] [USAID] Title: Vietnam Disabilities Annual Program Statement; (APS);
Sponsor: USAID; U.S. Agency for International Development;
Deadline(s): 06/27/2014; 10/31/2014; 06/02/2015;
Contact: Praveena ViraSingh, Procurement Specialist; U.S.A.; Tel: 662-257-3000; E-mail: pvirasingh@usaid.gov;
Link(s): Program URL: http://www.grants.gov/web/grants/view-opportunity.html?oppId=256530;
Additional Information: SYNOPSIS: Through the Disabilities Annual Program Statement (APS), USAID/Vietnam intends to support a more inclusive Vietnam by expanding opportunities for persons with disabilities. Specifically, USAID/Vietnam hopes to fund multiple awards to local and international organizations to enhance the health and well-being of Vietnamese persons with disabilities through higher quality and sustainable services and awareness and advocacy strengthening.; Established Date: 06/05/2014; Follow-Up Date: 07/01/2015; Review Date: 10/06/2014; Deadline Ind: Receipt; Deadline Open: No; DEADLINE NOTE: First Round: Deadline for submitting questions is June 12, 2014, 4:00 pm Hanoi Local Time.First Round: Deadline for submitting Concept Papers is June 27, 2014, 4:00 pm Hanoi Time. Subsequent Rounds: Rolling submissions accepted until the APS close date of Deadline for June 2, 2015.The next round of Concept Paper reviews is October 31, 2014. Applicants who are interested in the program should submit Concept Papers on or before the close of business October 31, 2014 to be considered in this latest round of review. There is a two stage application process. Step One: Write a Concept Paper. Step Two: Selected applicants are invited to submit full applications. Interested Applicants Conference: For participation, all interested applicants shall register atVietnamDisabilitiesAPS@usaid.gov. The conference will take place on Tuesday, June 10, 2014 in Hanoi, Vietnam. Interested applicants must register in advance by emailingVietnamDisabilitiesAPS@usaid.gov with the subject: “participation in conference” and must provide the name of the participants, their titles, e-mail addresses and the name of the organization they represent; not later than Monday, June 9, 2014 at 11:00 a.m. Hanoi local time. Attendance may be limited to no more than two individuals per organization.; Award Type(s): General Project; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Asian Institution; Appl Type(s): Institution, Non-Specific; Target Group(s): NONE; Funding Limit: $21,000,000 MAXIMUM; Duration: 5 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: Yes; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: 98.001; OBJECTIVES: The purpose of this APS is that Vietnamese with disabilities improve their independence, social participation, and fulfillment of potential in society through receipt of high quality and sustainable services.; ELIGIBILITY: Eligible applicants are local NGOs, as well as international NGOs.; FUNDING: USAID anticipates making multiple awards up to $21 million, subject to the availability of funds. The period of performance will range from two to five years. A cost-share or match from non-government sources of 10% or more for local organizations is required. A cost share of 15% or more is required for international organizations.; Source: Grants.gov (06-03-14, 06-20-14, 10-03-14).; KEYWORDS: Vietnam; Handicapped/Disabled (Health/Safety/Medical); Developmental Disabilities; Grants.gov; Grants.gov/S2S; Device Development for People with Disabilities; Early Intervention for People With Disabilities; Education for People With Disabilities; Legal Services for People With Disabilities; Rehabilitation for People With Disabilities; Social/Recreation Services for People With Disabilities; Vocational Services for People With Disabilities; Public Access Programs for People With Disabilities;
Title: Grand Challenges Explorations (GCE);
Sponsor: Grand Challenges in Global Health;
Deadline(s): 11/12/2014;
Contact: Bill and Melinda Gates Foundation; PO Box 23350; Seattle, WA 98102; U.S.A.; Tel: 202-709-3400; Email: GCEhelp@gatesfoundation.org;
Link(s): Web Site: http://www.grandchallenges.org/GrantOpportunities/Pages/default.aspx;
Program URL: http://www.grandchallenges.org/Explorations/Pages/ApplicationInstructions.aspx;
Additional Information: SYNOPSIS: Grand Challenges Explorations (GCE) supports hundreds of early-stage research projects - including many ideas that have never before been tested - and scientists and innovators from a wide range of disciplines and regions. Each round of the Grand Challenges Explorations initiative awards grants against a set of specific topics. The GCE initiative funds innovative ideas that could lead to new vaccines, diagnostics, drugs, and other technologies targeting diseases that claim millions of lives every year, as well as improvements and innovations in agriculture development and others of the Bill & Melinda Gates Foundation priority areas. Established Date: 05/08/2008; Follow-Up Date: 03/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: No; *See Restrictions for further information. DEADLINE NOTE: Applications will be accepted until Monday, November 12, 2014, 11:30 a.m. US Pacific Standard Time.; Award Type(s): Research Grants/R & D: Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Institution, Non-Specific; Colleges/Universities; For-Profit; Indian Tribes/Governing Orgs.; Non-Profit; Target Group(s): NONE; Funding Limit: $100,000 SEE BELOW; Duration: 18 MONTHS; Indirect Costs: No; Cost Sharing: No; Sponsor Type: Foundations; Geo. Restricted: NO RESTRICTIONS; CFDA#: OJECTIVES: Explorations Round 14 Topics include: Surveillance Tools, Diagnostics and an Artificial Diet to Support New Approaches to Vector Control; New Approaches for Addressing Outdoor/Residual Malaria Transmission; New Ways to Reduce Pneumonia Fatalities Through Timely, Effective Treatment of Children; Enable Universal Acceptance of Mobile Money Payments; Explore New Ways to Measure Brain Development and Gestational Age; and, New Ways of Working Together: Integrating Community-Based Interventions. ELIGIBILITY: Grand Challenges Explorations is open to both foreign and domestic non-profit organizations, for-profit companies, international organizations, government agencies and academic institutions. Individuals are not eligible to receive an award as part of the Grand Challenges Explorations initiative from the foundation. Additionally, organizations that are classified as individuals for U.S. tax purposes (including sole proprietorships and some single member limited liability companies) are similarly not eligible to receive an award from the foundation. FUNDING: Awards of $100,000 USD are made in Phase I. (Phase I awardees have one opportunity to apply for a follow-on Phase II award of up to $1,000,000 USD.) Phase I projects have a term of 18 months beginning on the project start date. Phase I project funds may be used to cover the full direct costs of the project, but no awardee will be entitled to use funds to cover indirect costs. KEYWORDS: Sustainable Agriculture; Infants; Child/Maternal Health; Disease Prevention; Health Promotion; Tropical Medicine; Behavior and Health; Tropical Diseases; Global Health; Early Childhood Development; Malaria;
[NTW] [YOUNG/EARLY RESEARCHER] Title: ATIP - Avenir Program -- Young Group Leader; 
Sponsor: Inserm (French National Institute of Health and Medical Research); 
Deadline(s): 11/27/2014; 
Contact: Christine Guillard; 101, rue de Tolbiac; 75654 Paris Cedex 13, U.S.A.; E-mail: atip-avenir@inserm.fr; 
Link(s): Web Site: http://english.inserm.fr/; 
Program URL: https://www.eva2.inserm.fr/EVA/jsp/AppelsOffres/ATIP-AVENIR/index_INSERM_CNRS.jsp; 
Additional Information: SYNOPSIS: Under a partnership between Inserm and CNRS, a call for proposals is launched aimed at: --Enabling young scientists to create and lead a team within an established Inserm or CNRS laboratory in France. The ATIP - Avenir teams will strengthen the research of the host units but will develop independently their own scientific project. --Promoting mobility and attracting young team leaders of high-level working abroad. ; Established Date: 10/06/2014; Follow-Up Date: 09/04/2015; Review Date: 10/06/2014; Deadline Ind: Receipt; Deadline Open: No; Award Type(s): Research Grants/R & D; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: Any/No Restrictions; Appl Type(s): Postdoctoral; Physician/Medical Professional; Target Group(s): NONE; Funding Limit: $0 SEE BELOW; Duration: 3 YEAR(s); Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO; RESTRICTIONS; CFDA#:; OBJECTIVES: Projects must relate to Life sciences or Health. The interdisciplinary projects combining biology and mathematics, physics, informatics, chemistry, public health (more specifically economic and social sciences research about social determinants of health), will be examined with a particular attention. Applications from clinicians and qualified women are strongly encouraged. Projects should comply with ethics rules of Inserm and CNRS. Applications will be assessed by specialized international scientific committees with appropriate experts: --Molecular and Structural Biology, and Biochemistry; --Genetics, Genomics, Bioinformatics and Systems Biology; --Cell Biology, Development and Evolution; --Physiology, Pathophysiology and Translational Research; --Neurosciences and Disorders of the nervous system; --Immunity, Infection and Microbiology; --Diagnostic tools, Therapies, Biotechnology and Public Health. ; ELIGIBILITY: This programme is open to any young scientists, whatever their present position and nationality, who have defended their PhD (or equivalent doctoral degree) within the last 10 years (after 15 September 2004) (1). Successful applicants will have to develop their projects within a structure in which he/she has not been working for more than 18 months (2) and will not find any previous mentors (of PhD and/or post doctorate).; FUNDING: This programme provides an: an annual grant of ? 60,000; a two-year salary for a postdoctoral researcher; and a monthly gross salary of - 3,600 (before tax deduction) for 3 years for non-tenured successful applicants. The host laboratory will provide the team a dedicated research area of about 50m² (infrastructures fees will be paid by the host lab) and access to the local technological facilities. Applicants may submit their proposal without an identified host laboratory but must then in parallel contact Inserm and/or CNRS to help identifying a suitable scientific environment.; KEYWORDS: Rehabilitation/Therapy; Immune System; Nervous System; Medical/Diagnostic Imaging; Disciplines/Fields, Health & Safety/Med/Biomedical; Biomedical Research, Multidisciplinary; Biotechnology; Immunology; Immune System Disorders; Infectious Diseases/Agents; Neurological Disorders; Public Health; Medical Diagnosis; Pathophysiology; Therapy Evaluation; Cellular Biology; Developmental Biology; Molecular Biology; Systematic Biology; Genetics; Microbiology; Neuroscience; Evolutionary Biology; Human Physiology; Immunodiagnostics; Life Sciences; Biochemistry; Physiology; Structural Biology; Neurodegenerative Diseases/Disorders; Bioinformatics; Genomics; Translational Research;
Dear fellow members of the Columbia community: I am pleased to announce the creation of a new, multidisciplinary program at Columbia University—the Presidential Scholars in Society and Neuroscience. The members of the Steering and Advisory Committees I appointed to steward this initiative are listed below. During the past decade, neuroscientists have made unprecedented progress in developing technologies to directly observe brain activities in living creatures, both in humans and other animals. We are thus now capable of observing the brain “in action” rather than attempting to deduce its activities from the study of brains of the deceased. Armed with this new capability, we are unlocking the extraordinarily intricate complexities of the brain’s functioning. Columbia University stands among the leading centers of the world in this pursuit. Our global preeminence will be assured by the generous new funding for the Zuckerman Mind Brain Behavior Institute and the construction of a vastly enlarged building for laboratory, meeting, and office space, to be completed for occupancy in 2016. This new research capacity, however, must be supplemented by systematic investigation of the conceptual underpinnings and social consequences of newly obtained knowledge of brain structure and functioning. Our goal is to train a new generation of scholars with disciplinary homes in the social sciences or humanities—such as psychiatry, psychology, public health, law, history, economics, literature, philosophy, anthropology, sociology, music, and the arts—and extensive acquaintance with and critical understanding of neuroscience research. A new kind of scholarship is required that combines training in both neuroscience and these other disciplines. The program for Presidential Scholars in Society and Neuroscience will address this need. The core of the program is to annually appoint three postdoctoral scholars for three-year terms, to be known as Presidential Scholars in Society and Neuroscience. The program will support training and collaboration between scholars drawn from the humanistic or social science disciplines and from neuroscience. Each of the Presidential Scholars will have two senior mentors, one drawn from the Zuckerman Mind Brain Behavior Institute and the other from the humanistic or social science discipline that will most closely complement the work of the Presidential Scholar. In addition, the program will make awards on a competitive basis to tenured and tenure-track faculty at Columbia University and Barnard College for research and teaching that either involves direct collaboration between neuroscientists and faculty members from other disciplines or crosses disciplinary lines to investigate issues relevant to society and neuroscience. The Request for Proposals for these grants will be announced soon. As we enlarge our understanding of the brain, we will be faced with complex challenges. This program initiates exploration of the conceptual and historical underpinnings, as well as the social implications of this new research in our pursuit to curing neurological illnesses. Sincerely, Lee C. Bollinger; Committee Members: Pamela H. Smith, Chair, Steering Committee, History Robert Burt, Ex Officio, Steering Committee, Law & Neuroscience; Peter Bearman, Steering Committee, Sociology; Thomas Jessell, Steering Committee, Neuroscience; Philip Kitcher, Steering Committee, Philosophy; Alondra Nelson, Steering Committee, Sociology; Larry Abbott, Neuroscience; Alessandra Casella, Economics; Frances Champagne, Psychology; Deborah Coen, History, Barnard; Geraldine Downey, Psychology; Michael Doyle, Law & International Affairs; Brent Edwards, English & Comparative Literature; David Freedberg, Art History; Andrew Gerber, Psychiatry; Mark Hansen, Journalism; Rebecca Jordan-Young, Women and Gender Studies, Barnard; Darcy Kelley, Biology; George Lewis, Music; Jennifer Manly, Neuropsychology; Christopher Peacocke.

[NTW] [COLUMBIA/INTERNAL/TRANSITIONAL RESEARCH] Title: ; CALL FOR PRE-PROPOSALS; $1M in funding and support to develop promising biomedical technologies;
Sponsor: About the Columbia-Coulter Translational Research Partnership;
Deadline(s): Pre-Proposals Due December 1, 2014;
Contact: For more information on this opportunity, eligibility requirements, application details, or the Partnership overall, please attend the information session listed above, visit www.bme.columbia.edu/coulter, or reach out to us at coulter@columbia.edu;
Link(s): www.bme.columbia.edu/coulter;
Additional Information: Columbia-Coulter Call for Pre-Proposals ; View this information in your browser ; CALL FOR PRE-PROPOSALS; $1M in funding and support to develop promising biomedical technologies; FINAL INFO SESSION [Register here.]; Mon, Oct. 6, 4pm; Columbia University Medical Center, Irving Institute Conference Room (PH-10-204); Presbyterian Hospital Building, 10th Floor, Room 204 [map]; The Columbia-Coulter Translational Research Partnership is now accepting Pre-Proposals for the 2014 application cycle. The Partnership will deploy funding and resources (marketing, regulatory, reimbursement, and legal) to help advance nascent biomedical ideas from conception to proof-of-concept.; Pre-Proposals Due December 1, 2014; Eligible teams must include both an engineer and a clinician. If you need an engineering or clinical collaborator, we may be able to facilitate introductions. Please email matchmaking requests to coulter@columbia.edu by Wed, October 1, 2014. ; All technologies that have the potential to directly impact human health will be considered (e.g. medical imaging, monitoring devices, biosensors, biomaterials, therapeutic drugs and devices, and platform technologies). The most relevant are those in which the time to market can be achieved in less than 7 years. ; For more information on this opportunity, eligibility requirements, application details, or the Partnership overall, please attend the information session listed above, visit www.bme.columbia.edu/coulter, or reach out to us at coulter@columbia.edu.; We look forward to working with you.; Sincerely, Andrew Laine, DSc Chaitan Divgi, MD; William Levine, MD; Donna See, MBA, MPH; Andrea Nye, MBA, MPH; About the Columbia-Coulter Translational Research Partnership; The Partnership is led by the Department of Biomedical Engineering at the Fu Foundation School of Engineering and Applied Science, in collaboration with the Departments of Surgery, Orthopaedic Surgery and Radiology at Columbia University Medical Center, and Columbia Technology Ventures, the technology transfer office of Columbia University. This program is made possible by a generous grant from the Wallace H. Coulter Foundation and support of leadership from the Offices of the Executive Vice President for Research and the Provost.
[NTW] [AWARDS/INFECTION CONTROL] Title: Presidents' Distinguished Service Award;
Sponsor: Association for Professionals in Infection Control and Epidemiology, Inc.;
Deadline(s): 10/31/2014;
Contact: 202-789-1890; APIC - Association for Professionals in Infection Control and Epidemiology; 1275 K St, NW, Suite 1000; Washington, DC 20005; http://www.apic.org/About-APIC/Contact-Us/Form;
Link(s): Web Site: http://www.apic.org/About-APIC/Awards;
Program URL: http://www.apic.org/About-APIC/Awards/award-programs;
Additional Information: SYNOPSIS: The APIC Distinguished Service Award is presented to a member of APIC in recognition of outstanding professional contributions in a volunteer capacity at the national level. Recipients of this award will be selected based upon their commitment to furthering the goals of APIC, their ability to inspire commitment from others and the significance of their contributions to the membership of APIC and its various audiences.; Established Date: 06/17/2002; Follow-Up Date: 09/01/2015; Review Date: 10/08/2014; Deadline Ind: Postmark; Deadline Open: No; Award Type(s): Prizes/Awards; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Physician/Medical Professional; Researcher/Investigator; Target Group(s): NONE; Funding Limit: $1,000 SEE BELOW; Duration: 0; Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: Professional/Academic Assoc & Soc.; Geo. Restricted: NO RESTRICTIONS; CFDA#: ; OBJECTIVES: Nominees will be evaluated based on the following characteristics: Leadership, Collegially, Service/Productivity and Mentorship.; ELIGIBILITY: Nominees must: be an APIC member in good standing (according to bylaws); must have served in a volunteer capacity for APIC at the national level (e.g., as members of committees, editorial boards, or workshop leaders) for a minimum of five years; not have held office at the national level for the previous five years; and, not have received the award in previous years. Any APIC member may nominate another APIC member for the Distinguished Service Award, but no applicant may nominate himself or herself.; FUNDING: The recipient will receive a commemorative item, registration and travel expenses (up to $1,000) to the APIC Annual Conference where the award is presented.; KEYWORDS: Infectious Diseases/Agents; Epidemiology; Disease Control;

[NTW] [AWARDS/INFECTION CONTROL] Title: Healthcare Administrator Award;
Sponsor: Association for Professionals in Infection Control and Epidemiology, Inc.;
Deadline(s): 10/31/2014;
Contact: Artesha Moore; Nominating and Awards Committee; 1275 K Street NW, Suite 1000; Attn: Distinguished Service Award; Washington, DC 20005-4006; U.S.A.; Tel: 202-789-1890; E-mail: awards@apic.org;
Link(s): Web Site: http://www.apic.org/About-APIC/Awards;
Program URL: http://www.apic.org/About-APIC/Awards/award-programs;
Additional Information: SYNOPSIS: The sponsor makes this award to recognize and celebrate the efforts of administrators and/or physicians who champion infection prevention efforts within their organization.; Established Date: 11/18/2013; Follow-Up Date: 09/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: No; Award Type(s): Prizes/Awards; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Physician/Medical Professional; Researcher/Investigator; Target Group(s): NONE; Funding Limit: $1,000 SEE BELOW; Duration: 0; Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#: ; OBJECTIVES: This award recognizes and celebrates the efforts of administrators and/or physicians who champion infection prevention efforts within their organization.; ELIGIBILITY: The candidate must be a member of the healthcare organization’s executive team in an
ambulatory setting (CEO, COO, CFO, CNO, CMO, etc.) who has demonstrated significant and sustained support of the organization’s infection prevention and control team.; FUNDING: The recipient will receive a commemorative plaque, $1,000 in APIC products and services, and an invitation to participate in the APIC Annual Conference where the award is presented.; KEYWORDS: Infectious Diseases/Agents; Health Care Administration; Disease Prevention; Epidemiology; Disease Control;

[NTW] [AWARDS/INFECTION CONTROL] Title: Heroes in Infection Prevention Award;
Sponsor: Association for Professionals in Infection Control and Epidemiology, Inc.;
Deadline(s): 10/31/2014;
Contact: Artesha Moore; Nominating and Awards Committee; 1275 K Street NW, Suite 1000; Attn: Distinguished Service Award; Washington, DC 20005-4006; U.S.A.; Tel: 202-789-1890; E-mail: awards@apic.org;
Link(s): Web Site: http://www.apic.org/About-APIC/Awards;
Program URL: http://www.apic.org/About-APIC/Awards/award-programs;
Additional Information: SYNOPSIS: This award recognizes APIC members and groups who have work tirelessly to reduce infection, raise awareness, and improve the health and well-being of patients, healthcare workers and the public.; Established Date: 11/18/2013; Follow-Up Date: 09/01/2015; Review Date: 10/08/2014; Deadline Ind: Receipt; Deadline Open: No; Award Type(s): Prizes/Awards; Citizenship/Country of Applying Institution: Any/No Restrictions; Locations Tenable: U.S.A. Institution (including U.S. Territories); Appl Type(s): Physician /Medical Professional; Researcher /Investigator; Target Group(s): NONE; Funding Limit: $0 SEE BELOW; Duration: 0; Indirect Costs: Unspecified; Cost Sharing: No; Sponsor Type: NONE; Geo. Restricted: NO RESTRICTIONS; CFDA#:;
OBJECTIVES: APIC aims recognize the great work of six Infection Preventionists (IPs). ; ELIGIBILITY: A qualified candidate must be: An APIC member in good standing the year of the nomination of the award and currently have responsibility for infection prevention and control activities in a healthcare facility. All applicants are required to have demonstrated a significant impact in any one of the following areas: a. Process and Systems Improvement; b. Program Development; c. Advocacy and Influence; d. Education; e. Patient Safety; f. Cost savings. ; FUNDING: The recipients will receive complimentary registration for the 2015 Annual Conference along with a travel stipend to attend the conference in Nashville, TN.; KEYWORDS: Infectious Diseases/Agents; Health Care; Disease Prevention; Epidemiology; Disease Control; Health Care Reform;
ANNOUNCEMENTS (NIH and Other)

Title: NIH Genomic Data Sharing Policy;
Sponsor: NIH;
Deadline(s): January 25, 2015 [The GDS Policy becomes effective with competing NIH grant applications, and proposals for contracts, submitted for the January 25, 2015 due date and thereafter.];
Contact: For questions concerning the administrative requirements of the Policy, please contact your SPA Project Officer.; For questions concerning informed consent requirements, please contact the Columbia Human Research Protection Office: irboffice@columbia.edu; 212.305.5883.; Sincerely, Rudina Odeh-Ramadan, Pharm.D.; Associate Vice President for Research Administration; Brenda Ruotolo; Executive Director; Columbia University Human Research Protection Office; Institutional Review Boards;
Link(s): NOT-OD-14-124; NOT-OD-14-111; Supplemental Information to the NIH GDS Policy; Institutional Certification; Genomic Data Sharing; Data Management Tools;

Title: New Webinars to Connect Applicants to NIH Peer Review Experts;
Sponsor: NIH;
Deadline(s): Webinars Will Each Focus on a Different Type of NIH Grant Application; Webinar Focus/Date: Academic Research Enhancement Awards (R15); Nov. 4, 2014; (2) Fellowship Awards; Nov, 5, 2014; (3) Small Business Grants (SBIR/STTR); Nov.7, 2014; (4) Research Project Grants (R01); Nov. 10, 2014; All of the Webinars will run from 2:00 to 4:00 p.m. EST, including a 30 minute Q&A period.;
Contact: Please see link, below;

Title: NIH Loan Repayment Program now Open!;
Sponsor: NIH;
Deadline(s): 9/1/14 THROUGH 11/17/14;
Contact: Institutional Approver for Columbia University is William Berger at wb2174@columbia.edu of Sponsored Projects Administration;
Link(s): [http://www.lrp.nih.gov/index.aspx];
Additional Information: This is a reminder about the NIH Loan Repayment Program (LRP). The LRP repays the student loans of doctoral level, biomedical or behavioral scientists conducting research funded by nonprofit institutions. Eligible applicants may be eligible to receive up to $70,000 of qualified educational debt repayment with a 2 year contract. The NIH began accepting applications on September 1, 2014. Applications are limited to one per year. The deadline for applications is November 17th, 2014, 8pm EST. All applications must be completed and submitted online at: [http://www.lrp.nih.gov/index.aspx]
Please note that while completing the online application, the Institutional Approver for Columbia University is William Berger at wb2174@columbia.edu of Sponsored Projects Administration. The five following program areas are included as part of the LRP: (*) Clinical Research (NOT-OD-14-105); (*) Pediatric Research (NOT-OD-14-107); (*) Health Disparities Research (NOT-OD-14-109); (*) Contraception and Infertility Research (NOT-OD-14-108); (*) Clinical Research for Individuals from Disadvantaged Backgrounds (NOT-OD-14-106); Pay special attention to the eligibility requirements and commitment obligations, as each announcement has its own criteria. Please share this announcement with those who may be interested.; Thank you, Stephanie F. Scott, MS, CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu].
RURAL HEALTH CARE FUNDING OPPORTUNITIES

Title: Rural Health Care Services Outreach Program Grant;  
Sponsor: HHS; Department of Health and Human Services; Health Resources & Services Administration;  
Deadline(s): November 14, 2014;  
Contact: Linda Kwon at (301) 594-Ext. 4205 or email lkwon@hrsa.gov;  
Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=264030;

SCHOLASTIC / SCHOLARLY FUNDING OPPORTUNITIES

Title: NLM Grants for Scholarly Works in Biomedicine and Health (G13) Grant;  
Sponsor: HHS; Department of Health and Human Services; National Institutes of Health; National Library of Medicine;  
Deadline(s): Application Receipt/Submission Date(s): February 20, 2015 and February 22, 2016, by 5:00 PM local time of applicant organization;  
Contact: Alan VanBiervliet, PhD National Library of Medicine (NLM) Telephone: 301-594-4882 Email: alan.vanbiervliet@nih.gov; FBOWebmaster@OD.NIH.GOV;  

Title: CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;  
Sponsor: NIH;  
Deadline(s): October 2014;  
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sf2110@columbia.edu; Website: http://spa.columbia.edu/;  
Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf. ; TIP – when preparing your RPPR, click “Check for Errors” prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNI; (*) Email address; (*)
Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/.

Title: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; Sponsor: NIH;
Deadline(s): October 2014;
Contact: Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Link(s): eRA Commons Manage Personal Profile; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/.

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. ; Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Title: Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; Sponsor: NIH;
Deadline(s): October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the
eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile. RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPRR format, resources are available at http://grants.nih.gov/grants/rpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Title: NIH Extramural Nexus ; NIH: The View From 10,00 Feet; Sponsor: NIH; Deadline(s): NA; Contact: NA
Link(s): http://nexus.od.nih.gov/all/2014/07/24/nih-the-view-from-10000-feet/?utm_source=nexus&utm_medium=email&utm_content=nihupdate&utm_campaign=July14;
Additional Information: NIH: The View From 10,000 Feet: Posted on July 24, 2014 by Sally Rockey: Here on the blog we discuss many different aspects of NIH’s research program – policies, funding trends, workforce issues. A few weeks ago, while I was preparing to give the opening talk at the NIH Regional Seminar on Program Funding and Grants Administration, I realized some Rock Talk readers might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues might be interested in learning more about how these topics fit into the big picture of NIH. So, I asked my colleagues to tape this talk, “NIH: The View from 10,000 Feet”, so I could share it with you on the blog ….

Title: NIH Extramural Nexus; Formula For Innovation: People + Ideas + Time; Sponsor: NIH; Deadline(s): NA; Contact: NA
Link(s): http://nexus.od.nih.gov/all/2014/07/17/formula-for-innovation-people-ideas-time/?utm_source=nexus&utm_medium=email&utm_content=nihupdate&utm_campaign=July14;
Additional Information: Formula for Innovation: People + Ideas + Time: Posted on July 17, 2014 by Sally Rockey and Francis Collins: In these times of tight budgets and rapidly evolving science, we must
consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. …. We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. …. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.; Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/

Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. **Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp.** Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.;

Sincerely,
G. Michael Purdy;

ADDITIONAL INFORMATION REQUIRED FOR F Grant Applications

Title: REMINDER & Clarification: New NIH Requirement for Fellowship Applications;
Sponsor: NIH;
Deadline(s): Standard Dates;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NIH Notice of Clarification (F31s); NIH Notice of Clarification (F32s); NIH Notice of Clarification (Parent F31-Diversity); NIH Notice of Clarification (F30); FAQs for Fellowships;
http://www.postdocs.columbia.edu/funding.html;
Additional Information: Just a reminder and a clarification of the new NIH requirement for fellowship applications (see original notice below); The new “Additional Educational Information” requirement also applies to the Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research (Parent F31 - Diversity) and the Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship (F30). I added these two programs, with links clarifying their instructions, to the list below.; As always, if you have any questions regarding this new requirement, please contact your SPA Project Officer. Please forward this email to predoctoral and postdoctoral fellows whom you are aware are applying for these fellowships. Thank you.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; As the next NIH deadline for Predoctoral (F31) and Postdoctoral (F32) Fellowship applications approaches August 8th, I wanted to take this opportunity to remind applicants, their mentors, and administrators of the new “Additional Educational Information” document required in the applications. All applications lacking this attachment will be considered incomplete and will not proceed to review. Please refer to the following notices regarding this new requirement: NIH Notice of Clarification (F31s); NIH Notice of Clarification (F32s); FAQs for Fellowships; Columbia University’s Office of Postdoctoral Affairs (OPA) provides template language you can include in the “Additional Educational Information” document for F32s. This language can be obtained from the OPA website at http://www.postdocs.columbia.edu/funding.html; If you have any questions regarding this new requirement, please contact your SPA Project Officier.;

NEW ITEMS FROM THE NIH

**Title:** [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;

**Sponsor:** NIH eRA Commons IDs and Complete Profiles

**Deadline(s):** October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;

**Website:** [http://spa.columbia.edu/](http://spa.columbia.edu/);

**Link(s):** eRA Commons Manage Personal Profile: [http://era.nih.gov/reg_accounts/manage_personal_profile.cfm](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm);

**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at [eRA Commons Manage Personal Profile](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm).

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

**Title:** The Research Performance Progress Report (RPPR);

**Sponsor:** NIH;

**Deadline(s):** October 17, 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu;

**Website:** [http://spa.columbia.edu/](http://spa.columbia.edu/);

**Link(s):** NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;

**Additional Information:** The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See [NOT-OD-14-092](http://grants.nih.gov/grants/rppr/). If you are not yet familiar with the RPPR format, resources are available at [http://grants.nih.gov/grants/rppr/](http://grants.nih.gov/grants/rppr/). Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer. Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/); This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this.
information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/ppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Title: NIH Loan Repayment Program (LRP); Sponsor: NIH; Deadline(s): September 1 – November 15, 2014; Contact: Institutional Approver for Columbia University is William Berger at wb2174@columbia.edu of Sponsored Projects Administration; Link(s): (*) Clinical Research (NOT-OD-14-105); (*) Pediatric Research (NOT-OD-14-107); (*) Health Disparities Research (NOT-OD-14-109); (*) Contraception and Infertility Research (NOT-OD-14-108); (*) Clinical Research for Individuals from Disadvantaged Backgrounds (NOT-OD-14-106); Additional Information: The National Institutes of Health (NIH) released five separate program announcements for the 2015 application cycle of the NIH Loan Repayment Program (LRP). The LRP may repay up to $35,000 of qualified student loan debt per year to outstanding health professionals who commit at least two years to conduct biomedical, behavioral, social, or clinical research. This includes most undergraduate, graduate, and medical school loans. Loan repayment benefits are in addition to the institutional salary received for research. The NIH will begin accepting applications on September 1, 2014. Applications are limited to one per year. The deadline for applications is November 15th, 2014, 8pm EST. All applications must be completed and submitted online at: http://www.lrp.nih.gov/index.aspx; Please note that while completing the online application, the Institutional Approver for Columbia University is William Berger at wb2174@columbia.edu of Sponsored Projects Administration.; The five following program areas are included as part of the LRP: (*) Clinical Research (NOT-OD-14-105); (*) Pediatric Research (NOT-OD-14-107); (*) Health Disparities Research (NOT-OD-14-109);
NIH eSUBMISSION ITEMS OF INTEREST

From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder…

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should...
take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clumsy ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA:** Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.
[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rrpr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Update from the NIH Office of Extramural Research to the external biomedical on behalf of NIH Extramural Nexus (NIH/OD)

Mentorship Matters for the Biomedical Workforce
Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. … Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. … Continue reading →

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014

NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. … Continue reading →

Keep Up With Grants Administration Changes With Our New Timeline

Want to look into the future? We sure would. But in lieu of clairvoyant powers we’re trying the next best thing: a map to help navigate upcoming changes in grants administration. The grants policy page on grants.nih.gov is now home to an interactive timeline of upcoming changes in grants administration. … Continue reading →

Promoting Research Integrity: Building the Foundation of Trust

Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, … Continue reading →

New Website for iEdison Invention Reporting Information:

True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. … Continue reading →

You Ask, We Answer:

☐ Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

☐ What is the Deadline for Resubmitting my Unfunded Application?
NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html: I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&A.htm; The policy announcement: NOT-OD-14-074; A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Link(s): (NOT-OD-14-103);

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;
FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act:
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist.; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy."

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library.

There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

Title: Seed Funding for cancer-focused NIH Program Grants;
Sponsor: Columbia University; Herbert Irving Comprehensive Cancer Center (HICCC);
Deadline(s): Application deadline: Applications may be submitted any time before or shortly after submission of the NIH Program grant (but HICCC seed funding may not begin until after NIH submission.
Contact: Applications should be submitted as a single pdf file to: Richard Arjune (dra2112@columbia.edu) and Sadie Maloof (maloof@icg.cpmc.columbia.edu);
Link(s): http://hiccc.columbia.edu/;
Title: Limited Submission Funding; Simons Investigators in the Mathematical Modeling of Living Systems (MMLS);
Sponsor: Simons Foundation;
Deadline(s): Internal Proposal Deadline – 9:00 a.m. on Monday, August 18, 2014; Sponsor deadline – October 28, 2014;
Contact: Greg Culler; Associate Director; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; 102 Low Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gcc19@columbia.edu;
Link(s): http://www.simonsfoundation.org/mathematics-and-physical-science/simons-investigators/
Additional Information: WHAT: Mathematical model based approaches are making increasingly important contributions to the life sciences. The Mathematical Modeling of Living Systems (MMLS) program aims to support such approaches and to foster a scientific culture of theory-experiment collaboration similar to that prevailing in the physical sciences. To encourage young researchers to pursue this endeavor, MMLS will provide a long-term stable base of support, enabling a focus on model-based approaches to important issues in the life sciences. Appointments will begin August 1, 2015. An Investigator will receive research support in an amount initially set at $100,000 per year. An additional $10,000 per year will be provided to the Investigator’s department. The award is administered through the institution at which the Investigator is appointed, and this institution will receive 20 percent in indirect costs.; PROGRAM EMPHASIS: A broad spectrum of research areas within the life sciences will be considered, ranging from cellular-level issues of organization, regulation, signaling and dynamics through morphogenesis to the properties of large organisms, as well as neuroscience and evolution. Preference will be given to areas in which modeling approaches are less well established, and for that reason bioinformatics and genomics will fall outside the scope of the program.; WHO: The following eligibility terms apply: (*) Candidates must be a scientist engaged in MMLS related research.; (*) Candidates must be in the early stages of their academic career (within 5 years of the start of the first assistant professor position).; (*) Former Simons Investigators are not eligible.; WHEN: Internal deadline – 9:00 a.m. on Monday, August 18, 2014; Sponsor deadline – October 28, 2014.; HOW: The internal proposal must be completed by the nominator with the following five parts. All documents should be single-spaced, no smaller than 10-point font, with minimum ½ inch margins.; (1) Cover page with the following: (a) Nominee’s name, title and department; (b) Start date for nominee’s first assistant professor position (mm/yyyy); (c) Nominator’s name, department and contact information; (2) Nomination letter: up to two pages in length, explaining the distinctive scientific contributions of the nominee, focusing on scientific accomplishments of the past five years and including discussion of a few important papers.; (3) The nominee’s curriculum vitae, including Ph.D. year, institution, advisor, postdoctoral institutions and advisors, and positions held subsequent to award of doctorate.; (4) The nominee’s up-to-date publication list.; (5) A research statement, of less than two pages in length, prepared by the nominee and outlining the nominee’s research vision and plans.; Please combine all five parts of the internal nomination in a single PDF file and email to gcc19@columbia.edu and mb3952@columbia.edu by 9:00 a.m. on Monday, August 18, 2014. The subject heading of the email should be "Simons MMLS".; For additional information, please contact: Greg Culler at gcc19@columbia.edu or 212-854-6285.;
Title: Department of Homeland Security Science and Technology Critical Infrastructure Resilience Center of Excellence – Center Lead; Sponsor: DHS, Department of Homeland Security
Deadline(s): Anyone planning to participate in a proposal for this program, in a lead or non-lead capacity, must send an email with the information listed below to gcc19@columbia.edu and mb3952@columbia.edu by 9:00 a.m. on Friday, July 25, 2014. No internal proposal is required at this time.; Final Proposal Deadline: September 26, 2014;
Contact: Greg Culler; Associate Director | Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; 102 Low Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gcc19@columbia.edu and mb3952@columbia.edu; Link(s): DHS-14-ST-061-COE-CIRC-001A: http://www.grants.gov/web/grants/view-opportunity.html?oppId=258673; http://www.grants.gov/web/grants/view-opportunity.html?oppId=258674;

Title: NIH Science Education Partnership Award (SEPA) (R25); Limited Submission Funding;
Sponsor: NIH
Deadline(s): Anyone planning to submit a proposal in response to this program must send an email with the information described in the HOW section below to gcc19@columbia.edu by no later than 9:00 a.m. on Wednesday, June 25, 2014; Subsequently to NIH: July 30, 2014, June 22, 2015, June 22, 2016, by 5:00 PM local time of applicant organization. - See more at: http://grants.nih.gov/grants/guide/pa-files/PAR-14-228.html#sthash.sv9AIAYr.dpuf;

Title: Pathway to Stop Diabetes Accelerator Awards;
Sponsor: American Diabetes Association
Deadline(s): Internal Proposal Deadline – 9:00 a.m. on Friday, May 30, 2014; INSTITUTIONAL LIMIT – Final Sponsor Proposal: 1; WHEN: Internal deadline – 9:00 a.m. on Friday, May 30, 2014; Please combine all five elements of the internal proposal in a single PDF file and email to gcc19@columbia.edu and mbt2122@columbia.edu by 9:00 a.m. on Friday, May 30, 2014; External Deadline(s): July 1, 2014, January 1, 2015;
Contact: Please direct questions to Greg Culler; Associate Director | Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; 102 Low Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gcc19@columbia.edu;
Link(s): http://professional.diabetes.org/Diabetes_Research.aspx?typ=18&cid=93654;
American Diabetes Association Sponsor deadline – July 1, 2014; HOW: The internal proposal must include the following five components: 1) Cover Page; 2) Research Strategy; 3) Biographical Sketch (NIH 4 page format); 4) Letter of Nomination; 5) Research Funding. The subject heading of the email should be “ADA Pathways”. 
### OUTSTANDING INVESTIGATOR FUNDING OPPORTUNITIES

**Title:** Outstanding Investigator Award (R35); Grant;  
**Sponsor:** HHS; Department of Health and Human Services; National Institutes of Health  
**Deadline(s):** January 7, 2015;  
**Contact:** FBOWebmaster@OD.NIH.GOV;  
**Link(s):** [http://www.grants.gov/web/grants/view-opportunity.html?oppId=258669](http://www.grants.gov/web/grants/view-opportunity.html?oppId=258669);  

**Title:** Outstanding Investigator Award (R35);  
**Sponsor:** National Cancer Institute  
**Deadline(s):** Application Receipt/Submission Date(s): Application Due Date: October 20, 2014, by 5:00 PM local time of applicant organization. AIDS Application Due Date: January 7, 2015;  
**Contact:** Christine Siemon National Cancer Institute (NCI)  
Telephone: 240-276-6180 Email: siemonc@mail.nih.gov;  
**Link(s):** [PAR-14-267](http://www.grants.gov/web/grants/view-opportunity.html?oppId=258669);  

### FUNDING OPPORTUNITIES RELATIVE TO MUSCULAR DYSTROPHY

**Title:** Senator Paul D. Wellstone Muscular Dystrophy Cooperative Research Centers (U54) Grant;  
**Sponsor:** HHS; Department of Health and Human Services; National Institutes of Health;  
**Deadline(s):** November 28, 2014;  
**Contact:** FBOWebmaster@OD.NIH.GOV;  

**Title:** Notice of Intent to Publish a Funding Opportunity Announcement (FOA) for Senator Paul D. Wellstone Muscular Dystrophy Cooperative Research Centers (U54);  
**Sponsor:** National Institute of Arthritis and Musculoskeletal and Skin Diseases; National Heart, Lung, and Blood Institute; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute of Neurological Disorders and Stroke;  
**Deadline(s):** November 2014;  
**Contact:** Glen H. Nuckolls, Ph.D. National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS)  
Telephone: 301-594-4974 Email: nuckollg@mail.nih.gov;  
**Link(s):** [NOT-AR-15-001](http://www.grants.gov/web/grants/view-opportunity.html?oppId=263413);
ETHICS / BIOETHICS RELATED FUNDING OPPORTUNITIES

**Title:** Ethical, Legal, and Social Implications (ELSI) of Genomic Research Small Research Grant Program (R03); Grant;  
**Sponsor:** HHS; Department of Health and Human Services; National Institutes of Health;  
**Deadline(s):** September 7, 2017;  
**Contact:** FBOWebmaster@OD.NIH.GOV;  
**Link(s):** [http://www.grants.gov/web/grants/view-opportunity.html?oppId=259276](http://www.grants.gov/web/grants/view-opportunity.html?oppId=259276);

**Title:** Ethical, Legal, and Social Implications (ELSI) of Genomic Research Regular Research Program; (R01); Grant;  
**Sponsor:** HHS; Department of Health and Human Services; National Institutes of Health;  
**Deadline(s):** September 7, 2017;

FUNDING OPPORTUNITIES RELATIVE TO EPIDEMIOLOGY

Title: Dermatopathology Research Grant;
Sponsor: Dermatology Foundation;
Deadline(s): 10/15/2014;
Contact: Medical and Scientific Committee; 1560 Sherman Avenue, Suite 870; Evanston, IL 60201-4808; U.S.A.; Tel: 847-328-2256; Fax: 847-328-0509; Email: dfrap@dermatologyfoundation.org;

FUNDING OPPORTUNITIES RELATIVE TO SKIN DISEASES / DERMATOLOGY

Title: Pilot Award;
Sponsor: Melanoma Research Alliance;
Deadline(s): 11/14/2014;
Contact: Laura Brockway-Lunardi, PhD; 1101 New York Avenue, NW; Suite 620; Washington, DC 20005; U.S.A.; Tel: 202-336-8935; E-mail: lbl@curemelanoma.org;
Link(s): Web Site: http://www.melanomaresearchalliance.org/; Program URL: http://www.curemelanoma.org/research/request-for-proposals/;

Title: Research Grants;
Sponsor: American Skin Association;
Deadline(s): 10/18/2014;
Contact: 6 East 43rd Street, 28th floor; New York, NY 10017; U.S.A.; Tel: 212-889-4858; Fax: 212-889-4959; Email: info@americanskin.org;

Title: Cooperative Research Agreements Related to the World Trade Center Health Program; (U01);
Sponsor: National Institute for Occupational Safety & Health/CDC/DHHS;
Deadline(s): 11/03/2014; 12/02/2014;
Contact: Travis Kubale, Ph.D.; CDC/NIOSH/OEP; 1600 Clifton Road NE, Mailstop E74; Atlanta, GA 30329-4018; U.S.A.; Tel: 513-841-4461; Fax: 404-498-2571; Email: TKubale@cdc.gov;
Link(s): Program URL: http://grants.nih.gov/grants/guide/pa-files/PAR-12-126.html;

FUNDING OPPORTUNITIES RELATIVE TO BLOOD PRESSURE

Title: Blood Pressure Measurement Technologies for Low-Resource Settings in the US and India (U01); Grant;
Sponsor: HHS; Department of Health and Human Services; National Institutes of Health;
Deadline(s): January 7, 2015;
Contact: FBOWebmaster@OD.NIH.GOV;
Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=259229;
Title: Blood Pressure Measurement Technologies for Low-Resource Settings in the US and India (U01);
Sponsor: National Institute of Biomedical Imaging and Bioengineering
Deadline(s): Application Receipt Date(s): Application Due Date: September 26, 2014, by 5:00 PM local time of applicant organization. AIDS Application Due Date: January 7, 2015 by 5:00 PM local time of applicant organization.
Contact: Vinay Pai, Ph.D. National Institute of Biomedical Imaging and Bioengineering (NIBIB) Telephone: 301-451-4781 Email: paiv@mail.nih.gov;
Link(s): (RFA-EB-14-002);

FUNDING OPPORTUNITIES RELATIVE TO EMERGENCY MANAGEMENT RESPONSES/PREPAREDNESS:

Title: Enhance global health security and advance International Health Regulations (2005) Grant;
Sponsor: HHS; Department of Health and Human Services; HHS - Office of the Secretary; Assistant Secretary for Preparedness and Response;
Deadline(s): August 30, 2014;
Contact: Grants.gov Contact Center Phone Number: 1-800-518-4726 Hours of operation are 24 hours a day, 7 days a week. The contact center is closed on federal holidays. support@grants.gov;
Grants.gov Customer Support;
Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=260127;

Title: Rapid Assessment Post-Impact of Disaster (R03);
Sponsor: National Institute of Mental Health / NIH / DHHS;
Deadline(s): Applications should be submitted within approximately six weeks of the identified disaster event.;
Contact: Farris Tuma, Sc.D.; Address: Division of Adult Translational Research and Treatment Development; 6001 Executive Blvd.; Room 7111, MSC 9632; Bethesda, MD 20892-9632; U.S.A.; E-mail: ftuma@nih.gov;

Title: Limited Submission; Irma T. Hirschl Research Awards; 
Sponsor: Irma T. Hirschl Trust; 
Deadline(s): Internal Application Deadline: 9:00 A.M. on Wednesday, October 15, 2014; 
Contact: gcc19@columbia.edu; and mb3952@columbia.edu; 
Link(s): please see below; 
Additional Information: WHAT: The Irma T. Hirschl/Monique Weill-Caulier Trusts Research Award will provide support for highly meritorious medical research conducted at Columbia University College of Physicians & Surgeons. The awards are paid at a rate of $35,000 per year for a period of five years.; WHO: The following general guidelines apply: (*) Applicants must hold a tenure-track position as an Assistant Professor in the College of Physicians & Surgeons and must have been in this position for at least one year as of September 1, 2014.; (*) Start date before September 1, 2013 required; (*) Applicants must be a biomedical scientist, holding a PhD and/or MD and exhibit an exceptional potential for high quality, productive research.; PROGRAM EMPHASIS: Support for researchers who are performing basic laboratory science in medically-relevant fields will be considered as well as those individuals working in highly-meritorious, clinically-related research. Clinical trials or purely clinical research projects will not be supported by this program.; WHEN: Internal application deadline – 9:00 A.M. on Wednesday, October 15, 2014; Sponsor deadline – November 3, 2014; HOW: The internal application should include the following components: (*) Cover Page with the applicant’s name, title, department, start date (mm/dd/yy), contact information and title of the proposed research project; (*) Applicant’s Biosketch (four-page limit); (*) Lay Scientific Abstract (one-page limit, double-spaced); (*) Research Plan (five-page limit) covering the background, goals, procedures and significance of the proposed research.; (*) Letter of
Recommendation from Department Chair. This letter should relate the importance of the scholar’s research and the department’s dedication to that research; (*) A list of sources and amounts of all research/fellowship support; (*) Proposed research may overlap with existing funded projects; (*) A list of the research facilities to which the applicant will have access; (*) A list of recently submitted papers, and the journals to which they were submitted.; Please combine all parts of the internal proposal in a single PDF file and email to gcc19@columbia.edu; and mb3952@columbia.edu: by 9:00 AM on Wednesday, October 15, 2014. The subject heading of the email should be “Hirschl Awards.”; For additional information, please contact: Greg Culler at gcc19@columbia.edu; or 212-854-6285. Please note the Irma T. Hirschl Trust does not maintain a website.; Greg Culler; Associate Director; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; 102 Low Library, MC 4312; 535 West 116th Street; New York, New York 10027; Phone: (212) 854-6285; Email: gcc19@columbia.edu;

Title: Limited Submission; Obama-Singh 21st Century Knowledge Initiative (OSI);
Sponsor: United States-India Educational Foundation (USIEF);
Deadline(s): INTERNAL PROPOSAL DEADLINE – 9:00 A.M. ON THURSDAY, OCTOBER 9, 2014;
Contact: gcc19@columbia.edu and mb3952@columbia.edu;
Link(s):

Title: Investigators in Pathogenesis of Infectious Disease;
Sponsor: Buroughs Wellcome Fund;
Deadline(s): 11/03/2014;
Contact: Victoria McGovern, Program Officer; Post Office Box 13901; 21 T.W. Alexander Drive; Research Triangle Park, NC 27709-3901; U.S.A.; Tel: 919-991-5100; Fax: 919-991-5160; E-mail: vmcGovern@bwfund.org;

Title: Limited Submission Funding Opportunity; 2015 W.M. Keck Foundation Science and Engineering Program and Medical Research Program;
Sponsor: W.M. Keck Foundation;
Deadline(s): Internal Proposal Deadline – 9:00 a.m. EST on Monday, October 27, 2014;
Contact: marley.bauce@columbia.edu; Gregory Culler; jcw3@columbia.edu;
Link(s): http://www.wmkeck.org/grant-programs/research/medical-research-grant-abstracts;
Project Questionnaire (required in the internal application): http://www.mailman.columbia.edu/sites/default/files/2014_Keck_Questionnaire_2.pdf;
[please note that as the above link may not open properly (possibly due to an Adobe Reader iteration issue), the content (9 questions) of the Project Questionnaire is (are) listed at the bottom of the Additional Information section; Please find linked above the Project Questionnaire form required in the internal application; Its [the Project Questionnaire’s] Content is: W. M. Keck Foundation Research Programs – Questionnaire; Please provide answers to the questions below in the space provided. These questions are taken from the Keck Foundation's Phase I application; thus responses are very important in the review of internal applications.]; (1) PI Name ; Project Title; (2) Unique Aspects: Describe unique or distinctive aspects of this project. What makes this project
particularly novel, creative or paradigm shifting? How is the proposed work high-risk?; (3) **Key Personnel**: Name the key personnel and describe their expertise, role in this project and any collaborations/partnerships.; (4) **Justification for Keck support**: Explain why support from the W. M. Keck Foundation is essential for this project. Has funding been requested from other sources for the proposed research project? If so please explain and include reviews as separate attachment.; (5) **Overview**: Provide an overview of this field and the need for this project.; (6) **Relevant Efforts**: Describe past and current efforts at your institution that are relevant to this project, including institutional resources that will support the work.; (7) **Peer Groups**: Name at least two other groups that are pursuing comparable or related work and explain how this project differs from their work. If none, please explain.; (8) **Goals and Methodology**: State the major goals of this project and summarize the methodologies and time frame to be used in achieving them.; (9) **Impact**: Describe the potential impacts of achieving these goals. Does the proposed work have the potential for transformative impact such as opening a new avenue of scientific exploration, the enabling of observations not previously possible, or an altered perception of a previously intractable problem? How? Describe breakthrough technologies, instrumentation or methodologies that are likely to be developed.;

**Title**: Limited Submission; Burroughs Wellcome Fund Investigators in the Pathogenesis of Infectious Disease; **Sponsor**: Burroughs Wellcome Fund; **Deadline(s)**: WHEN: INTERNAL PROPOSAL DUE – 9:00 a.m. on Monday, October 6, 2014; Sponsor Proposal due – November 3, 2014 by 4:00 p.m., Eastern Time;

**Contact**: For additional information, please contact: Greg Culler at gcc19@columbia.edu or 212-854-6285.; **Link(s)**: Burroughs Wellcome Fund created an eligibility quiz. All potential applicants are strongly encouraged to take this quiz. http://www.bwfund.org/pages/99/Eligibility/; http://www.bwfund.org/pages/474/PATH-sections-of-the-proposal/; http://www.bwfund.org/grant-programs/infectious-diseases/investigators-pathogenesis-infectious-disease;

**Title**: Reproductive Sciences: Preterm Birth Initiative; **Sponsor**: Burroughs Wellcome Fund; **Deadline(s)**: 12/01/2014; **Contact**: Rolly Simpson, Senior Program Officer; 21 T.W. Alexander Drive; Research Park Triangle, NC 27709; U.S.A.; Tel: 919-991-5110; E-mail: rsimpson@bwfund.org; **Link(s)**: Web Site: http://www.bwfund.org/grant-programs/reproductive-sciences/preterm-birth-initiative/; Program URL: http://www.bwfund.org/grant-programs/reproductive-sciences/preterm-birth-initiative/terms-grant;
### Title: McKnight Scholar Awards  
**Sponsor:** McKnight Endowment Fund for Neuroscience  
**Deadline(s):** 01/07/2015  
**Contact:** 710 Second Street South; Suite 400; Minneapolis, MN 55401; U.S.A.; Tel: 612-333-4220; Fax: 612-332-3833; E-mail: neuro@mcknight.org

DOD FUNDING OPPORTUNITIES

Title: DoD Gulf War Illness Research Preannouncement; Funding Opportunities for Fiscal Year 2014 (FY14);
Sponsor: Defense Health Program; Department of Defense Gulf War Illness Research Program
Deadline(s): Applications to be posted ~ early September 2014;
Contact: help@eBRAP.org; usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil;
Link(s): Grants.gov; http://cdmrp.army.mil; https://twitter.com/CDMRP;
http://www.youtube.com/user/CDMRP;
Additional Information: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $20 million (M) to the Department of Defense Gulf War Illness Research Program (GWIRP) to support innovative, high-impact research to improve the health and lives of veterans who have Gulf War Illness (GWI). The GWIRP is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). The GWIRP is providing the information in this pre-announcement to allow investigators time to plan and develop applications. FY14 GWIRP Program Announcement and General Application Instructions for the following award mechanism are anticipated to be posted on Grants.gov in early September 2014. Pre-application and application deadlines will be available when the Program Announcements are released. This pre-announcement should not be construed as an obligation by the government.; Innovative Treatment Evaluation Award 2; (*) Independent investigators at all academic levels (or equivalent); (*) Supports small-scale, early clinical trial evaluations of innovative treatments not previously studied in GWI; (*) Pilot Phase II or Phase II/II clinical trial combinations are allowed. (*) Provides opportunity to obtain proof of principle data to support future clinical trials.; (*) Preliminary data are not required, and if provided, do not necessarily have to come from the GWI research field. (*) Studies with clear potential to move forward to Phase II/III clinical trials are encouraged.; (*) Collaboration with industry and/or academic partners is encouraged.; (*) Maximum funding of $450,000 for direct costs.; (*) Period of performance not to exceed 3 years.; (*) Indirect costs may be proposed in accordance with the institution's rate agreement.; (*) All applications must conform to the final Program Announcements and General Application Instructions that will be available for electronic downloading from the Grants.gov website. The application package containing the required forms for each award mechanism will also be found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Submission deadlines are not available until the Program Announcements are released. Requests for email notification of the Program Announcements release may be sent to help@eBRAP.org. For more information about the GWIRP or other CDMRP-administered programs, please visit the CDMRP website (http://cdmrp.army.mil); Point of Contact: CDMRP Public Affairs; 301-619-9783; usarmy.detrick.medcom-cdmrp.mbx.cdmrp-public-affairs@mail.mil; Book mark the Congressionally Directed Medical Research Program (CDMRP) website: http://www.youtube.com/user/CDMRP; Follow CDMRP on Twitter at: https://twitter.com/CDMRP; View CDMRP research results on YouTube: http://www.youtube.com/user/CDMRP.
Title: FY13 - FY14 Department of Defense HIV/AIDS Prevention Program: Military Specific HIV/AIDS Prevention, Care, and Treatment Program for non-PEPFAR (President's Emergency Plan for AIDS Relief) Funded Countries; Modification 8; Sponsor: DOD; Department of Defense; Office of Naval Research; Naval Supply Systems Command
Deadline(s): October 31, 2014; Contact: If you have difficulty accessing the full announcement electronically, please contact: Janet Norton Contract and Grant Officer Phone (559) 998-2059 janet.norton@navy.mil; Link(s): http://www.grants.gov/web/grants/view-opportunity.html?oppId=206615;

Title: Prostate Cancer Biospecimen Resource Site Award; Sponsor: Department of the Army
Deadline(s): October 29, 2014; Contact: Address: Congressionally Directed Medical Research Program; 1077 Patchel Street; Fort Detrick, MD 21702-5024; U.S.A. Tel: 301-682-5507; Fax: 301-619-7792; E-mail: help@eBRAP.org; Link(s): Program URL:

[NIH-Investigators] DoD CDMRP Funds New Topic Areas;
There are two new areas of interest in the DoD CDMRP Cancer Research Program: cancers related to radiation exposure and myeloproliferative disorders. See details below. Note the pre-application due date is June 10th, 2014. As a reminder, all FY14 CDMRP funding opportunities can be found at: http://cdmrp.army.mil/funding/prgdefault.shtml; Current opportunities include: Autism Research; Breast Cancer Research; Gulf War Illness; Lung Cancer Research; Multiple Sclerosis Research; Ovarian Cancer Research; Peer Reviewed Cancer Research Program (PRCRP); Peer Reviewed Medical Research Program; Peer Reviewed Orthopaedic Research Program (PRORP); Prostate Cancer Research Program (PCRP); Please share this notice with others who may be interested; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

Subject: Peer Reviewed Cancer Research Program Funds New Topic Areas Good afternoon, New areas of interest for the Congressionally Directed Medical Research Programs Peer Reviewed Cancer Research Program: the Peer Reviewed Orthopedic Research Program (PRORP), and Prostate Cancer Research Program (PCRP); Please share this notice with others who may be interested; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director, Sponsored Projects, Administration (SPA), Columbia University, Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

Just released! FY14 DOD CDMRP Program Announcements: The Fiscal Year 2014 (FY14) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP). This e-mail is to notify the research community of the recently released funding opportunities from the following programs: Autism Research Program (ARP), Gulf War Illness Research Program (GWIRP), Peer Reviewed Cancer Research Program (PRCRP), Peer Reviewed Medical Research Program (PRMRP), Peer Reviewed Orthopaedic Research Program (PRORP), and Prostate Cancer Research Program (PCRP). Detailed descriptions of each of the funding opportunities, evaluation criteria, and submission requirements can be found in the respective Program Announcements. Each Program Announcement is available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org).
Autism Research Program (ARP); Clinical Trial Award; Idea Development Award; Gulf War Illness Research Program (GWIRP); Clinical Trial Award; Innovative Treatment Evaluation Award; Investigator-Initiated Research Award; New Investigator Award; Peer Reviewed Cancer Research Program (PRCRP); Career Development Award; Idea Award with Special Focus; Peer Reviewed Medical Research Program (PRMRP); Clinical Trial Award; Discovery Award; Focused Program Award; Investigator-Initiated Research Award; Technology/Therapeutic Development Award; Peer Reviewed Orthopaedic Research Program (PRORP); Clinical Trial Award; Clinical Trial Development Award; Idea Development Award; Outcomes Research Award; Translational Research Award; Prostate Cancer Research Program (PCRP); Biomarker Development Award; Idea Development Award; Synergistic Idea Development Award

*Note: The PCRP Clinical Exploration, Health Disparity Research, Laboratory-Clinical Transition, Population Science Impact, and Prostate Cancer Pathology Biospecimen Resource Site Award funding opportunities will be released in late May 2014. The PCRP Collaborative Undergraduate HBCU Student Summer Training Program, Exploration Hypothesis Development, Physician Research Training, and Postdoctoral Training Award funding opportunities will be released in early June 2014.

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. New for 2014 - CDMRP’s New Application Receipt System (eBRAP). For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP. However, you will only be able to view and modify your full application submission in the eBRAP system if you are accepted in eBRAP by the organization that is listed in blocks 5 & 19 of the S424 form in the Grants.gov application package. You will receive an email from the eBRAP system once this organization has accepted you. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/Unsubscribe” to program specific news and updates at https://ebrap.org; CDMRP also provides news and updates through Twitter and YouTube; Follow CDMRP on Twitter: https://twitter.com/CDMRP; Subscribe to CDMRP on YouTube: http://www.youtube.com/CDMRP

Title: Prostate Cancer Research Program--Idea Development Awards;
Sponsor: Sponsor: Department of the Army;
Deadline(s): October 24, 2014;
Contact: Address: Congressionally Directed Medical Research Program; 1077 Patchel Street; Fort Detrick, MD 21702-5024; U.S.A.; Tel: 301-682-5507; Fax: 301-619-7796; E-mail: help@eBRAP.org;

Clinical Trial Award – Preproposal due June 25, 2014
Assistant Professor level or above (or equivalent); Supports the rapid implementation of clinical trials of novel interventions with the potential to have a significant impact on patient care in the topic area of interest; Investigational New Drug or Investigational Device Exemption applications, if needed, should be submitted to the Food and Drug Administration before the PRMRP Grants.gov application submission deadline; A clinical trial is expected to be initiated within 12 months of the award date

Preproposal submission is required; application submission is by invitation only; Funding limit not defined; requested funding must be appropriate for the scope of work proposed Maximum period of performance is 5 years

Discovery Award – Letter of Intent due July 16, 2014
All Investigators; Supports the exploration of a highly innovative new concept or untested theory; Not intended to support the logical progression of an already established line of questioning; Clinical trials will not be funded; Maximum of $200,000 for direct costs (plus indirect costs); Maximum period of performance is 18 months

Focused Program Award - Preproposal due June 25, 2014; Full Professor level or above (or equivalent)

New mechanism for FY14!
Restricted to the topic areas of Acupuncture, Congenital Heart Disease, Illnesses Related to Radiation Exposure, Metabolic Disease, Neuroprosthetics, Psychotropic Medications, Respiratory Health, and Segmental Bone Defects; Supports a synergistic, multidisciplinary research program of multiple distinct but complementary projects addressing an overarching goal in one of the topic areas listed directly above; Projects should work together to answer critical questions, resolve differing hypotheses, and translate laboratory findings to clinical applications Projects may range from exploratory/hypothesis-developing through small-scale clinical trials that together will address the overarching goal/question; Research team of highly qualified, multidisciplinary project leaders should be led by a Principal Investigator with demonstrated success in directing large, focused projects; individual projects submitted as part of a Focused Program Award application may be submitted to one other FY14 PRMRP Program Announcement/Funding Opportunity to increase chances of funding; however, accepting multiple grants to support the same project will not be allowed

Preproposal submission is required; application submission is by invitation only; Maximum of $10 million for total costs (includes direct and indirect costs); Maximum period of performance is 5 years
Investigator-Initiated Research Award - Preproposal due June 20, 2014: Assistant Professor level or above (or equivalent); Supports research that will make an original and important contribution to the field of research or patient care in the topic area of interest; Partnering Principal Investigator (PI) Option available; Clinical trials will not be funded

Preproposal submission is required; application submission is by invitation only: Maximum of $1.2 million for direct costs (plus indirect costs); Maximum of $1.5 million for direct costs (plus indirect costs) for applications including a Partnering PI Option; Maximum period of performance is 3 years

Technology/ Therapeutic Development Award - Preproposal due June 25, 2014: Assistant Professor level or above (or equivalent); Supports the development of diagnostics or therapies that have the potential to make a strong impact on patient care in the topic area of interest; Product-oriented: device, drug, clinical guidelines; Clinical trials will not be funded

Preproposal submission is required; application submission is by invitation only: Maximum of $1.5 million for direct costs (plus indirect costs); Maximum period of performance is 3 years

All applications must conform to the final Program Announcement and General Application Instructions that are available for electronic downloading from the Grants.gov website. The application package containing the required forms for the award mechanisms are also found on Grants.gov. A listing of all USAMRMC funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

A pre-application is required and must be submitted through the CDMRP electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org) prior to the pre-application deadline. Applications must be submitted through the federal government's single-entry portal, Grants.gov. Requests for email notification of the Program Announcement release may be sent to help@eBRAP.org. Email notifications of funding opportunities are sent as a courtesy and should not be used as a sole source of notification; applicants should monitor Grants.gov for official postings of funding opportunities.

For more information about the PRMRP or other CDMRP-administered programs, please visit the CDMRP website (http://cdmrp.army.mil). Point of Contact: CDMRP Help Desk; 301-682-5507; help@ebrap.org

Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP). FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

Clinical Translational Leverage Award – Pre-announcement is due June 3, 2014, full application (if invited) is due August 27, 2014

Must be an independent investigator at or above the level of Assistant Professor (or equivalent)

Department of Defense Ovarian Cancer Research Program; Funding Opportunities for Fiscal Year 2014 (FY14)

The FY14 Defense Appropriations Act provides $20 million (M) to the Department of Defense Ovarian Cancer Research Program (OCRP) to support innovative, high-impact ovarian cancer research. This program is administered by the US Army Medical Research and Materiel Command (USAMRMC) through the Office of Congressionally Directed Medical Research Programs (CDMRP).

FY14 OCRP Program Announcements and General Application Instructions for the following award mechanisms are available on the Grants.gov website.

New for 2014 - CDMRP’s New Application Receipt System (eBRAP)  
For FY14, CDMRP has replaced eReceipt with the electronic Biomedical Research Application Portal (eBRAP). As in the past, application submission is a two-step process requiring both (1) pre-application submission through the eBRAP (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/), with application status available on eBRAP. A key feature of eBRAP is that organizational representatives and Principal Investigators (PIs) will be able to view and modify their Grants.gov application submissions, but only if their organization, Business Officials and PIs are registered and affiliated in eBRAP to the organization listed in blocks 5 & 19 of the Grants.gov SF424. Submission of either the pre-application to eBRAP or the application to Grants.gov does not require registering an organization and affiliating its Business Officials and PIs in eBRAP; however, the ability to view and modify the Grants.gov application in eBRAP is contingent upon this registration and affiliation process. Please do not respond directly to this message. To be added or removed from this email list please use the “Subscribe/unsubscribe to program specific news and updates at https://ebrap.orgystal. CDMRP also provides news and updates through Twitter and YouTube.

FY14 DOD CDMRP Program Announcement(s)

The Fiscal Year 2014 (FY14) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).

This e-mail is to notify the research community of the recently released funding opportunities from the following programs: ALSRP, BMFRP, and BCRP. Detailed descriptions of each of the funding opportunities, evaluation criteria, and submission requirements can be found in the respective Program Announcements. Each Program Announcement is available electronically for downloading from the Grants.gov website (http://www.grants.gov), the CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org).

Amyotrophic Lateral Sclerosis Research Program (ALSRP)

Therapeutic Development Award
Therapeutic Idea Award

Bone Marrow Failure Research Program (BMFRP)

Idea Development Award

Breast Cancer Research Program (BCRP)

Era of Hope Scholar Award
Innovator Award
Breakthrough Award Levels 1 and 2
Breakthrough Award Levels 3 and 4

All funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil). Subsequent notifications will be sent when additional funding opportunities are released. A listing of all CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.

The Department of Defense (DoD) Peer Reviewed Medical Research Program (PRMRP) just released a pre-announcement to allow investigators time to plan and develop applications. The FY14 PRMRP will solicit research applications for 25 topic areas, listed below. The official funding announcements and application instructions will be released in April. See below for details.

Defense Health Program

Department of Defense Peer Reviewed Medical Research Program

Funding Opportunities for Fiscal Year 2014

The Fiscal Year 2014 (FY14) Defense Appropriations Act provides $200 million to the Department of Defense Peer Reviewed Medical Research Program (PRMRP).

PRMRP pre-announcement

Congressionally Directed Topic Areas. The FY14 PRMRP will solicit research applications for the following 25 topics areas: Acupuncture; Arthritis; Chronic Migraine and Post-Traumatic Headaches; Congenital Heart Disease; DNA Vaccine Technology for Postexposure Prophylaxis; Dystonia; Epilepsy; Food Allergies; Fragile X Syndrome; Hereditary Angioedema; Illnesses Related to Radiation Exposure; Inflammatory Bowel Disease; Interstitial Cystitis; Lupus; Malaria; Metabolic Disease; Neuroprosthetics; Pancreatitis; Polycystic Kidney Disease; Post-Traumatic Osteoarthritis; Psychotropic Medications; Respiratory Health; Rheumatoid Arthritis; Segmental Bone Defects; Tinnitus

Military Relevance: Relevance to the healthcare needs of the military service members, veterans, and beneficiaries is a key feature of each FY14 PRMRP award
