**Additional Information:** COLUMBIA PUBLIC HEALTH INNOVATION FUND CALL FOR PROPOSALS; The Office of Research Strategy & Innovation; Proposals Due: December 5, 2019; Dear Faculty, It is my pleasure to announce the launch of the Columbia Public Health Innovation Fund. The purpose of the fund is to support especially innovative and creative ideas to help advance the science of public health. Unlike the typical pilot grant funding, the initial round of innovation awards are intended to be very high risk and require no preliminary data or prior evidence of collaboration. The idea is to spark new collaborations, build new teams, and to pursue and obtain new research support. Applications are due December 5th and decisions and awards will be made by the beginning of January. The call for proposals is relevant to the types of effort that could be supported under this program. Click here to read the full call. I encourage you and your colleagues to take this opportunity to be daring, creative, and imaginative. Sincerely, Gary [brought to our attention by] Gary W. Miller, PhD, Vice Dean for Research Strategy and Innovation; Professor, Department of Environmental Health Sciences; [Please see the linked announcement for more information]

**Contact:** CDMRP Help Desk, help@ebrap.org  
**Link(s):** https://cdmrp.army.mil/funding/prgdefault

**Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website https://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil. Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420. Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity. eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

[Grant Review Submission Form (updated Spring 2019)]

Additional Information:
Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”
In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,
Pam Factor-Litvak

NIH eSubmission Items of Interest - July 31, 2018

Sponsor: NIH
Deadline(s): NA; 07/31/2018 (Release Date)
Contact: https://grants.nih.gov/support/index.html
Link(s): https://grants.nih.gov/grants/ElectronicReceipt/esub_items_interest_07312018.htm

Additional Information: NIH eSubmission Items of Interest - July 31, 2018; NIH sent the newsletter below the other day, which contains a lot of tips on the new PHS Human Subjects and Clinical Trial Information Form. In addition, they address Fellowship applications, and some things to keep in mind if the fellow is seeking clinical research experience. Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention.; I highlighted what I thought were the key points below. [brought to our attention by] Stephanie Scott; NIH eSubmission Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it's a real thing. And, why shouldn't it be? I vividly remember bringing my mutt home from a pet adoption event years ago and introducing her to her new “daddy.” “She’s two dogs long and one dog tall and looks like she’s made from spare parts,” Jeff said. All true. An emaciated basset-beagle-ish dog with ears longer than her bowed-little-legs isn’t going to win any beauty contests. But, our Dixie is the most lovable hound on the planet and we wouldn’t trade her for the world.; Mutts are amazing, but what do they have to do with grant application submission? Not much actually, but if you love your mutt as much as I love mine, then I've at least got your attention. Besides, who passes up the opportunity to celebrate? More wag, less bark!; Hopefully you'll find this edition to have an interesting mix ... not unlike your favorite mutt.; Where Do I Put the Information I Know You'd Want, But Didn’t Ask For?; You want to give staff and reviewers ALL the information you think they need to provide a thorough review of your proposal. There is certainly nothing wrong with that - right? Well, actually it depends. The application guide and funding opportunity announcement provide very specific guidance on what to include in your application and, in some cases, there are page limits you must stay within to convey the requested information.; If you have information that doesn’t fit in page-limited attachments like your Specific Aims and Research Strategy, rework those attachments until you tell the best story possible within the confines of the page limits. Do not try to stuff that extra information into other non-limited fields of the application forms. Similarly, if you have information that doesn’t have a “natural home” based on our instructions, don’t include it.; There are several form fields with tempting names like “Appendix,” “Other Attachments,” “Other Requested Information,” and “Other Clinical Trial-related Attachments.” DO NOT use those fields unless requested to do so in the application guide or announcement.; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn’t belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them.; NIH eSubmission Items of Interest - July 31, 2018; The Duplication Balancing Act: The application guide statement "do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form" appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a "Brief Summary" of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don't want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story.
human subjects form is meant to provide structured, supporting details for the study (sorry, it isn’t just extra space to expound on the research strategy). The Brief Summary in the Protocol Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible. The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.

**Space-Fill Compulsion:** My mother, an interior designer, never saw a horizontal surface she didn’t want to decorate. For years I encouraged her to declutter and often she’d begrudgingly remove a knick-knack from a table of shelf. But the next time I’d visit a new knick-knack was sitting right in its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we’ve learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you’ve covered what you need to say in a few paragraphs, then stop. You don’t need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It’s OK to cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves.; Dog Days of Summer: “Be the person your dog thinks you are.”; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminsas@mail.nih.gov

Friday Newsletter 11/15/19

September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov." NIH will issue a Request for Information (RFI) to seek additional input "on registration and results reporting standards best suited for prospective basic science studies involving human participants." The notice also provides a period of "leniency for applications submitted to the incorrect FOA based on the study type designation" during which time NIH will not "administratively reject any application for submission to an incorrect FOA based on study-type designation." The notice also indicates that the agency "plans to issue FOAs specifically for prospective basic science studies involving human participants." **Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: [https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html); Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019.; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies.; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see [https://research.columbia.edu/content/good-clinical-practice-training](https://research.columbia.edu/content/good-clinical-practice-training) or email NIH-GCP@columbia.edu; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. **Additional Information:** NIH Salary Cap: Guidance on Salary Limitation for Grants and Cooperative Agreements FY 2018; NIH issued guidance on the use of a new NIH salary cap, to increase from $187,000 to $189,600. See https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-137.html

The effective date of this increase is January 7th, 2018.; NIH has not received the final Fiscal Year (FY) 2018 appropriation and is operating under a continuing resolution through March 23rd, 2018 (see NOT-OD-18-136 also a very important notice). However, NIH issued this guidance until a budget is passed.; In summary, this is how the $189,600 salary cap can be applied: (*) NIH proposal budgets may be submitted using the new cap; (**) Active NIH awards may rebudget to the new cap if restricted to Executive Level II, and adequate funds are available, and the salary cap increase is consistent with the institutional base salary. The new cap should be prorated for the applicable months: (***) Cap is $187,000 through 1/6/18; (****) Cap is $189,600 from 1/7/18 – present; If you have any questions, please feel free to reach out to your SPA Project Officer. I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline** — Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us **prior to these deadlines**.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

NIH single IRB (sIRB) policy

**Sponsor:** NIH  
**Deadline(s):** (for NIH application submissions on or after) 01/25/2018  
**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites.; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process.  
**Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. **Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH
policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; **Stephanie Scott** Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; **How do I know if my study is a clinical trial?**; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants? (2) Are the participants prospectively assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: [https://grants.nih.gov/cl-decision/index.htm](https://grants.nih.gov/cl-decision/index.htm); **Why is this important? What are the implications if my study is considered a clinical trial?**; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multi-site human subjects research. Details about all updates/changes are available at [https://grants.nih.gov/policy/clinical-trials.htm](https://grants.nih.gov/policy/clinical-trials.htm); Note: These policy updates/changes also apply to individuals conducting research through contracts.; **Why is NIH making these changes?**; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: [https://grants.nih.gov/policy/clinical-trials/why-changes.htm](https://grants.nih.gov/policy/clinical-trials/why-changes.htm); We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards, Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS, Bethesda, MD 20892; NICHDTrials@nih.gov; Doing human subjects research? New policies will impact you! Learn more.; Updated application forms (FORMS-E) are required for due dates of January 25, 2018 and beyond; includes new Human Subject and Clinical Trial Information Form. Take a tour of the new form. **NIH FOAs with FORMS-E** **Sponsor:** NIH **Deadline(s):** 01/25/2018 (FORMS-E to be used with application due dates January 25th, 2018 or later) **Contact:** [brought to our attention by Stephanie F. Before initiating an application package, you must first determine whether the study meets the definition of a clinical trial, and then select the appropriate FOA: [https://grants.nih.gov/grants/guide/parent_announcements.htm](https://grants.nih.gov/grants/guide/parent_announcements.htm); If submitting an application with a due date before January 25th, 2018 (such as an AIDS-related application) due January 7th, you must select an opportunity that supports FORMS-D. For example, if preparing an R01 application: (*) Use PA-16-160 (FORMS-D) for the January 7th 2018 AIDS-related deadline. (*) Use PA-18-345 (FORMS-E) for the R01 clinical trial February 5th deadline; (*) Use PA-18-484 (FORMS-E) for an R01 application that is NOT a clinical trial due February 5th.; Due to the complexity of FORMS-E, in particular the new PHS Human Subjects and Clinical Trials Information Form, we very strongly suggest that you submit your proposals early to SPA and encourage submission five business days prior to the NIH deadline.; We have begun testing the new forms in both
Be Careful to Pick the Right Funding Opportunity Announcement (FOA)

Additional Information: Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post.; Key takeaways: (*) If any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “Clinical trials not allowed” or “Clinical trials optional”; (*) “The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully.”; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.”; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA; [brought to our attention by] Stephanie Scott, sfs2110@columbia.edu

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty.; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports.; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, R, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R5, and is entirely optional.; For the final scientific editing an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)

Sponsor: Sponsored Projects Administration

NA, FY2018 Announcements, brought to our attention on

**Link(s):** http://finance.columbia.edu/content/fringe-benefit-rates

http://spa.columbia.edu/proposals/institutional-information

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years. Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates. For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates. Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

**The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016**

**Sponsor:** NA

**Deadline(s):** 07/01/2016 (effective)

**Contact:** Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice (212) 854-1049.

**Link(s):** http://spa.columbia.edu/proposals/institutional-information

**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odeh-Ramadan, Associate Vice
President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Two items NIH fellowship applicants should be aware of

Additional Information: Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc). Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again.; There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by Stephanie Scott, SPA Communications and Outreach Director, sfs2110; NIH Fellowship applicants, I’d like to bring two issues to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons.; We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons.; This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@odi.nih.gov; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cummins@mail.nih.gov; 301-496-3405;

Change is Coming: Updates to NIH Application Forms and Instructions; Summary from the NIH "Open Mike" Blog Regarding the Many Changes Taking Place with NIH Application Forms and New Policy Requirements;

**Sponsor:** NIH; Extramural Nexus Blog

**Deadline(s):** 01/25/2016; effective for applications submitted on or after January 25, 2016;

**Contact:** Please see appropriate links;

Electronic Research Administration: http://era.nih.gov; Additional Information: Below is a nice summary from the NIH “Open Mike” blog [provided by Stephanie] Scott regarding the many changes taking place with NIH application forms and new policy requirements. I reviewed these changes this week with departmental/grants managers during the Research Administration Forums. I will certainly continue to provide updates and summaries of these changes for faculty and the rest of the research community. Stay tuned for more.; Step; We periodically need to update our application forms and instructions to accommodate changing policy, new business needs, and sometimes (not often enough) to reduce the amount of information we ask of you. Given our constraints, we have been working to provide systems support to make the mechanics of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening.; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We'll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to reduce redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring to ensure the announcements include instructions that match the form requirements. We'll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven't tried ASSIST yet, members of my staff (the electronic Research Administration or era) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D.;

Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;

**Sponsor:** National Institutes of Health;

**Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-006.html;

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed
procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification.;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;
Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm.; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards;
page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements.; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;

For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm

Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH's long-standing policy has been that children must be included in all human subjects' research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants/offerors conducting human subjects' research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.;

What's Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21.;

Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.;

The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.;

Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/or after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.;

Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) 1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.;

The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical.

Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria.; 
*Notes & Exceptions: (*) Career Development Award activity codes excluded from this policy include K02, K05, and K24, as candidates for these awards are expected to have independent, peer reviewed research support at the time the career award is made.; (*) Refer to NOT-OD-16-011 for updates to Research grant application instructions and review language; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Additional Information: Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in Proposal Development (PD) in InfoEd, the new fringe rate will be reflected in the system next Monday. Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd; Thanks: Rosa [Rivera], Director, Sponsored Projects Administration; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; 
(*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; 
(*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing the split between accounts 59010 and 59020 will shift; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets; Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC.; If you have any questions, please contact the Finance Service Center. Additional Information: I wanted to forward the latest NIH eRA Items of Interest to you to highlight a new video created by the NIH on using the eRA Commons for grants closeout. Closing out a grant properly is a very important part of the grants lifecycle, and there can be serious consequences if final progress reports, financial reports, and invention statements are not filed in a timely manner. The video is seven minutes long and demonstrates how to: (-) initiate the closeout process; (-) Access required reports; (-) Respond to Final Progress Report Additional Materials (FRAM) requests; This video, as well as other NIH tutorials, can be found at http://era.nih.gov/era_training/era_videos.cfm#closeout;

Additional Information: Dear Colleagues, We were pleased to see so many faculty and staff members at the annual HIPAA Privacy and Information Security Briefing. Those of you who were unable to attend the briefing can watch a video of it here: 2016 HIPAA Privacy and Information Security Briefing. The slides and video link are also on the CUMC HIPAA website under HIPAA Educational Information. Although the session was not mandatory, it outlined important information about CUMC’s privacy and information security programs. We encourage you to familiarize yourself with the material.; Thank you for your commitment to safeguarding Protected Health Information at the medical center. Your partnership in this endeavor helps make CUMC one of the nation’s leading medical centers.; Sincerely, Karen Pagliaro-Meyer; Privacy Officer; Columbia University Medical Center

**Additional Information:** Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at NewYork-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe; It's critical to bear in mind what our public health and infectious disease experts have emphasized – that the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590.; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak.; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia

CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;
Sponsor: NIH;

Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
Link(s): NOT-OD-13-097;
http://spa.columbia.edu;

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and; (*) Their participation is required to be included in Participants Section (D.1) in the Research Performance Progress Report (RPPR) – (*) note some select NIH grant mechanisms may be exempt from reporting in this section. (*) The RPPR Instruction Guide contains Supplemental Instructions for Specific Grant Types (such as training awards and multi-project awards), which can be found at: http://grants.nih.gov/grants/rppr/rppr_instruction_guide.pdf; TIP – when preparing your RPPR, click "Check for Errors" prior to routing the report to your SPA Project Officer. You will be alerted of missing eRA Commons IDs and incomplete profiles. This is the best time to contact SPA-eBiz to request IDs, or to alert individuals to complete their Commons profiles.; If you are requesting an eRA Commons ID from SPA-eBiz@columbia.edu, please include the following information with your request: (*) Full Name; (*) UNi; (*) Email address; (*) Campus (Morningside or CUMC); SPA-eBiz will work with you to determine the appropriate eRA Commons role.; Please feel free to ask me, or your assigned SPA Project Officer, any questions. Thank you for your patience!; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/;

Additional Information: As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees
Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;

**Deadline(s):** Starting in October 2014; 

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu; 

**Link(s):** NOT-OD-13-097; NOT-OD-14-092; http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; 

**Additional Information:** This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on **October 1, 2014**, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for **all** Type 5 non-SNAP progress reports beginning **October 17th, 2014** (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Stephanie F. **Link(s):** http://grants.nih.gov/grants/guide/notice-files/PAR-19-037.html

**Additional Information:** Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/PAR-19-037.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for...
graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IPD program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IPD program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (r2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.

NEW ITEMS FROM THE NIH

NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;

**Sponsor:** NIH eRA Commons IDs and Complete Profiles;

**Deadline(s):** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: [http://spa.columbia.edu/](http://spa.columbia.edu/);

**Link(s):** eRA Commons Manage Personal Profile; [http://era.nih.gov/reg_accounts/manage_personal_profile.cfm](http://era.nih.gov/reg_accounts/manage_personal_profile.cfm);

**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress reports, that could delay issuance of the next year’s funding.

Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest
educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; if you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.

NIH-Investigators FW: NIH eSubmission Items of Interest – Sponsor: NIH
Deadline(s): June 4, 2014
From Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’. 
So, here's a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/Pi and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications:** Did you see in the NIH Guide (NOT-OD-14-091) or in RockTalk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields:** Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g., Word converts quotes to 'smart quotes' that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically 'safe': letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:** Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific NIH Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

NIH-Investigators Reminder- eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPRP will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPRP format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: [link] I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: [link] The policy announcement: NOT-OD-14-074: [link] A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at [link] Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. [link]

It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards.
that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

**FEDERAL FUNDING TRAVEL POLICY**

NIH-Investigators New Policy on Fly America Act; Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy;

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies
Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**Additional Information:** Defense Health Program; Department of Defense Peer Reviewed Cancer Research Program; Funding Opportunities for Fiscal Year 2016 (FY16); The FY16 Defense Appropriations Act provides $50 million (M) to the Department of
Defense Peer Reviewed Cancer Research Program (PRCRP) to support innovative, high-impact cancer research. As directed by the Office of the Assistant Secretary of Defense for Health Affairs, the Defense Health Agency, Research, Development, and Acquisition (DHA RDA) Directorate manages the Defense Health Program (DHP) Research, Development, Test, and Evaluation (RDT&E) appropriation. The managing agent for the anticipated Program Announcements/ Funding Opportunities is the Congressionally Directed Medical Research Programs (CDMRP); FY16 PRCRP Program Announcements and General Application Instructions for the following award mechanism is posted on the Grants.gov website; Congressionally Directed Topic Areas: To be considered for funding, applications for the FY16 PRCRP must address at least one of the Topic Areas as directed by Congress. Research applications in the areas of breast, prostate, lung (excluding mesothelioma), or ovarian cancer will not be accepted.; The FY16 PRCRP Topic Areas are: Bladder cancer (New for FY16); Liver cancer; Pancreatic cancer; Colorectal cancer; Lymphoma (New for FY16); Pediatric Brain Tumors (New for FY16); Immunotherapy* (New for FY16); Melanoma and other skin cancers; Stomach cancer; Kidney cancer; Mesothelioma; Listeria vaccine for cancer; Neuroblastoma; *As derived from the National Cancer Institute Dictionary of Cancer terms*: Immunotherapy is a type of biological therapy that uses substances to stimulate or suppress the immune system to help the body fight cancer. Cancers studied under this topic area should be within the scope of the Congressional language and the intent of the Program Announcement(s); The FY16 PRCRP Military Relevance Focus Areas are: To address the cancer health needs of both deployed and non-deployed personnel, their dependents, retirees, and Veterans, the FY16 PRCRP seeks to support studies that are responsive to the Military Relevance Focus Areas listed below: (*) Militarily relevant risk factors associated with cancer (e.g., ionizing radiation, chemicals, infectious agents, and environmental carcinogens); (*) Gaps in cancer prevention, screening, early detection, diagnosis, treatment, and/or survivorship that may affect the general population but have a particularly profound impact on the health and well-being of military members, Veterans, and their beneficiaries; Applications that address exposures, conditions, or circumstances that are unique to the military, or disproportionately represented in a military beneficiary population, are the highest priority, though any applications that address the above focus areas will be considered.; http://cdmrp.army.mil/funding/prcrp.shtml; DoD Preannouncement for Peer Reviewed Medical Research (UNCLASSIFIED); The Defense Health Program; Department of Defense Peer Reviewed Medical Research Program; Funding Opportunities for Fiscal Year 2016; Sponsor: Department of Defense (DOD); Deadline(s): NA likely posting date (on grants.gov) ~ March 2016; Contact: Point of Contact: CDMRP Public Affairs; 301-619-9783; mailto:usarmy.detrick.medcom-cdmrp.mx.cdmr-public-affairs@mail.mil; Link(s): https://eBRAP.org; http://www.grants.gov/; Requests for email notification of the Program Announcements’ release may be sent to help@ebrap.org. More were recently released for the Autism Research Program (ARP) and Prostate Cancer Research Program (PCRP); FY16 DOD BMFRP Program Announcement; Sponsor: Department of Defense; Deadline(s): NA; Contact: NA; Link(s): http://cdmrp.army.mil/funding/prgdefault.shtml; https://eBRAP.org; http://cdmrp.army.mil; http://www.grants.gov/; Additional Information: JUST RELEASED! FY16 DOD BMFRP Program Announcement; This is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Detailed descriptions of the funding opportunity, evaluation criteria, and submission requirements can be found in the Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov; CDMRP website (http://cdmrp.army.mil/funding/prgdefault.shtml) and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org; All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website http://cdmrp.army.mil; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section IIA for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PI's to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full
applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; To be added or removed from this email list please use the "Subscribe/unsubscribe to program specific news and updates at https://ebrap.org;
