| | Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic | National Institutes of Health | This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review |
meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as

Contact: Scientific/Research Contact(s); Shari Feirman, PhD; Office of the Director (OSP/OD); Telephone: 301-435-6350; Email: shari.feirman@nih.gov

Additional Information: New NIH Admin Supplement opportunity - FW: News from the NIH Office of Science Policy; I wanted to highlight this new NIH funding opportunity, Notice of Special Interest (NOSI): Administrative Supplement for Research and Capacity Building Efforts Related to Bioethical Issues (Admin Supp Clinical Trial Optional) https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-020.html; “Applications will be accepted until March 06, 2021, and all organizations administering an eligible parent award may apply for a supplement under this announcement. Interested applicants may supplement parent awards focused on bioethics or add a component related to bioethics to a parent award in which bioethics was not the focus.”; See below and the link above for details about this administrative supplement opportunity.; [brought to our attention by] Stephanie Scott; NIH Seeks to Fund Research and Capacity Building Efforts Related to Bioethical Issues; On November 17, 2020, the National Institutes of Health (NIH) announced a Funding Opportunity Announcement (FOA) for administrative supplements to support research on ethical considerations related to biomedical research and projects that support capacity building in bioethics. Consideration of ethical issues associated with biomedical research is intrinsic to the responsible conduct of science and the translation of scientific and technological advances into practice. The investment in, and the integration of, bioethics-related research and policy demonstrates NIH’s commitment to safeguarding the integrity of the research that it conducts and supports. Applications will be accepted until March 06, 2021, and all organizations administering an eligible parent award may apply for a supplement under this announcement. Interested applicants may supplement parent awards focused on bioethics or add a component related to bioethics to a parent award in which bioethics was not the focus. Issues addressed are expected to fall within the scope of research and policy activities of the NIH but may be beyond the focus of any one Institute or Center. In addition to overarching areas of interest, individual Institutes and Centers have indicated specific areas of research interest within the announcement. Complete Information, including how to apply can be found here; Questions about the FOA may be directed to the agency contacts included in the announcement.

[NTW] [US ECONOMIC DEVELOPMENT ADMINISTRATION]
US Economic Development Administration; : FY 2020 SPRINT Challenge (the Challenge) Notice of Funding Opportunity (NOFO)

**Sponsor:** US Economic Development Administration

**Deadline(s):** 12/03/2020

**Contact:** Office of Innovation and Entrepreneurship at oie@eda.gov

**Additional Information:** EDA Funding Opportunity - Due 12/3; **Opportunity Title:** FY 2020 SPRINT Challenge (the Challenge) Notice of Funding Opportunity (NOFO); **Dates:** The deadline for receipt of applications is **11:59 P.M. EASTERN TIME ON THURSDAY, DECEMBER 3, 2020.**

**Description:** EDA provides strategic investments on a competitive merit basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States. Under this NOFO, EDA solicits applications for investments that support regional innovation economies to address the economic, health, and safety risks caused by the coronavirus pandemic through entrepreneurship and innovation. Applicant organizations should articulate a clearly defined strategy to leverage grant funds to support one or more of the following activities to help address the needs of and unique operating environment necessitated by the coronavirus pandemic: scaling innovative biotechnology, health security, and supply chain technologies and solutions to market; increasing regional, national, and government connectivity across innovation clusters to support commercialization and entrepreneurship; developing new and unique investment capital models to address the financial needs of entrepreneurs; and developing and scaling innovative entrepreneurship support models to address the virtual and remote work environment of the pandemic.

**Eligibility:** (1) EDA-designated Economic Development Districts, (2) Tribes, (3) state & local government, (4) universities & colleges, (5) non-profits working with government.

**Award Details:** A total of $25 million has been allocated for this Challenge. Applicants may request up to $500,000 in Federal funds over a 12-month period of performance, or up to $750,000 over an 18-month period of performance. EDA will fund up to 80% and expects an industry match of 20% and may include in-kind contributions. Thus, with a cash match, the overall budget for this challenge would be $900,000. None of this funding can be used for investment in companies, either through equity, debt, or hybrid mechanisms. It can be used for services. **Contact:** Please direct all inquiries to: Sally A. Amero, Ph.D.; NIH Review Policy Officer; ReviewPolicyOfficer@mail.nih.gov

**Link(s):**

**Additional Information:** Extended Guidance for Applicants Preparing Applications During the COVID-19 Pandemic; The NIH issued the following notice: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-026.html; **Per announcement:** “The NIH is committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to extend the guidance below for applicants preparing applications during the COVID-19 pandemic (NOT-OD-21-122) until further notice.; NIH grant applications should NOT include contingency plans that would outline steps needed to recover from temporary, emergency situations, or institutional return-to-the-workplace plans, resulting from the COVID-19 pandemic.; Contingency plans will not be considered in peer review but, if needed, COVID-19 contingency plans will be requested and carefully considered by NIH staff before funding.; Reviewers will continue to receive instruction to assume that temporary, emergency problems arising from the COVID-19 pandemic will be resolved and complications related to COVID-19 should not affect their scores. Reviewers will be instructed to disregard situations due to the COVID-19 pandemic, e.g., temporary declines in productivity, availability of key personnel, proposed patient populations, animal facility shutdowns, etc.”;

[NTW] [EARLY STAGE INVESTIGATOR]

Introducing the Stephen I. Katz Early Stage Investigator Research Grant Program

**Sponsor:** NIH  
**Deadline(s):** 11/09/2020 (Release Date)  
**Contact:** ExtramuralNexus@mail.nih.gov  
**Link(s):** https://nexus.od.nih.gov/all/2020/11/09/introducing-the-stephen-i-katz-early-stage-investigator-research-grant-program/

**Additional Information:** New NIH Stephen I. Katz Early Stage Investigator (ESI) Research Grant Program; See article from Dr. Mike Lauer, Introducing the Stephen I. Katz Early Stage Investigator Research Grant Program (also below); **In summary:** Two new funding announcements were released today: PAR-21-038 - Stephen I. Katz Early Stage Investigator Research Project Grant (R01 Clinical Trial Not Allowed); PAR-21-039 - Stephen I. Katz Early Stage Investigator Research Project Grant (R01 Basic Experimental Studies with Humans Required); ESIs may apply for this program to support their innovative ideas if they are: Proposing research that is a change in direction from their past work and experience; and For which they have no preliminary data.; The first due date for applications is January 26, 2021.; See additional guidance for prospective applicants.; For a listing of the Scientific/Program Contacts by NIH Institute/Center to address your programmatic questions: Contacts for PAR-21-038; Contacts for PAR-21-039 [brought to our attention by Stephanie Scott; sfs2110@columbia.edu] Introducing the Stephen I. Katz Early Stage Investigator Research Grant Program: Stephen I. Katz, M.D., Ph.D., led the National Institute of Arthritis and Musculoskeletal Diseases from 1995 until his passing in 2018. Dr. Katz was a talented physician scientist, NIH leader, and civil servant throughout his career who was profoundly dedicated to mentoring and training the next cadre of scientists. During his memorial service at NIH, you can see this dedication on full display. I, along with countless NIH colleagues, were blessed with Dr. Katz’s mentoring and sage advice. That is why, in his honor, we are pleased to announce the publication of Funding Opportunity Announcements for the Stephen I. Katz Early Stage Investigator Research Project Grant program (PAR-21-038 and PAR-21-039); We know that early stage investigators (ESIs) experience intense competition for funding, which poses a challenge when embarking upon and sustaining an independent research career. This is one of the reasons we launched the NIH Next Generation Researchers Initiative (NGRI) in 201. NGRI, amongst other features, prioritizes funding for ESIs across NIH. As a testament to its success, NGRI has helped NIH to go from supporting less than 600 ESIs in FY 2013, to 1,316 in FY 2019, and at least that number in 2020.; The new Katz R01 award program will build on these successful NGRI efforts. ESIs may apply for this new opportunity to support their innovative ideas if they are proposing research that is a change in direction from their past work and experience, and for which they have no preliminary data. For those ESIs who have preliminary data for research projects or those who want to continue on with their current research direction, NIH’s Parent R01 funding opportunities are still available.; Why the focus on no preliminary data? Well, this means that talented individuals can still seek NIH funding and pursue creative and innovative scientific hypotheses even though they lack the initial findings. Moreover, this should expand pathways and opportunities for those early in their career, something called for by the Advisory Committee to the NIH Director in their 2018 NGRI working group report.; An investigator, importantly, would also be able to pursue a new direction through this program. These could include exploring a new approach, testing a new technique, using a new methodology, or even investigating a new paradigm in biomedicine. As part of their application, they will need to explain how the research direction is new to them and not an obvious or incremental extension of their prior efforts.; And what about peer review? All applications received as part of this funding opportunity announcement will be clustered and reviewed together in appropriate NIH standing study sections. This further aligns with related NGRI efforts giving applications from ESIs special consideration during peer review.; The first due date for applications is January 26, 2021. Be sure to read the entire funding opportunity announcement before applying and this additional guidance for prospective applicants. We look forward to receiving your ideas.

**Additional Information:** Columbia Precision Medicine Joint Pilot Grants Program; Deadline: December 1; Proposals are requested for one-year pilot studies in precision medicine for the Columbia Precision Medicine Joint Pilot Award for the 2020-2021 cycle. Studies must be relevant to advancing precision medicine basic science, pre-clinical/clinical approaches to tailoring medical care (prevention, diagnosis, and/or treatment) to the individual patient, and/or precision cancer research; The Vagelos Precision Medicine Pilot Grant program is made possible by the generous gift of Roy and Diana Vagelos to the Columbia Precision Medicine Initiative (CPMI) and is intended to support ground-breaking basic research in the field of precision medicine. Precision Medicine Resource of the Irving Institute for Clinical and Translational Research (IICTR) seeks to facilitate research studies to improve diagnosis and treatment of disease, and ultimately improve maintenance of health through more accurate prediction of disease risk. The Herbert Irving Comprehensive Cancer Center (HICCC) is dedicated to understanding the biology of cancer and to applying that knowledge to the design of cancer therapies and prevention strategies.; Example areas include, but are not limited to, disease mechanism studies, stem cell biology, genomic data, biomarkers, aggregated clinical/environmental data and/or patient-reported data to develop personalized medical care, decision support tools, new methods of working with precision medicine data and its integration with electronic health records, and new individualized approaches to effectively educate and communicate with patients. These pilot grants are intended to support feasibility studies that will establish a basis for applying for further research funding. As such, pilot grants are intended to generate preliminary data required to produce competitive grant applications to outside funders.; Up to five studies in total will be funded; Eligibility: Applicants must have a full-time Columbia University faculty appointment at the rank of an Assistant, Associate, or Full Professor. Preference will be given to proposals from early- and mid-career investigators.; Budget: $100,000 per fiscal year.; For more information, follow the link here https://precisionmedicine.columbia.edu/content/funding-opportunities.; For any questions about the application process, please email precisionmedicine@columbia.edu.; Submit documents by Friday, December 1st, 2020, via this link: https://columbiaprecisionmed.smapply.io

[NTW] [BEHAVIORAL PILOT]

Columbia Roybal Center Pilot Award Program for Health Behavior Interventions

**Deadline(s):** 12/15/2020

**Contact:** For questions about the scientific content, please contact Ian Kronish, MD, MPH; Director, Columbia Roybal Center, at ik2293@columbia.edu; For questions about the application process and format, please contact Darlene Straussman, at ds3900@cumc.columbia.edu

**Additional Information:** The NIA-funded Columbia Roybal Center for Fearless Behavior Change will fund one-year pilot studies relevant to developing health behavior interventions for patients who have suffered acute medical events. Prior research has shown that fear of recurrent events and interoceptive bias (i.e., excessive awareness of physiologic stimuli) are common in these patients and adversely influence health behaviors. Accordingly, the Center seeks to develop interventions that address these fear-associated mechanisms. Relevant study populations include, but are not limited to, patients with stroke, myocardial infarction, cardiac arrest, COPD, heart failure, respiratory failure, COVID-19, or recent diagnosis with cancer or end-stage renal disease. Relevant behavioral outcomes include, but are not limited to, medication adherence, physical activity, sleep, as well as measures of psychological distress and quality of life. The goal of the award is to help investigators obtain preliminary data to support independent grant applications to the NIH or other funders. Investigators are encouraged to follow the experimental medicine approach to intervention development. Applications are not required to be affiliated with Columbia University; **Deadline:** Applications must be submitted by Tuesday, December 15, 2020; **Notice of Award:** Awards will be announced on February 15, 2021. Funding will begin July 1, 2021; **Contact:** For questions about the scientific content, please contact Ian Kronish, MD, MPH; Director, Columbia Roybal Center, at ik2293@columbia.edu; For questions about the application process and format, please contact Darlene Straussman, at ds3900@cumc.columbia.edu

For any questions, please contact Ryan Lichtcsien at rdl2116@cumc.columbia.edu. See full announcement and applications instructions, attached.; The Gertrude H. Sergievsky Center has funds available to support 1-2 pilot studies. Awards will be made for clinical, epidemiologic, or genetic research on the causes or consequences of a neurological or neurodevelopmental disorder occurring at any time throughout the lifespan. These pilot grants are intended to support feasibility studies that will establish a basis for applying for further research funding, especially NIH funding. As such, we expect the pilot grants to turn into successful grant applications within two years. Junior investigators are particularly encouraged to apply.; ELIGIBILITY REQUIREMENTS: A full-time Columbia University faculty appointment at the rank of Assistant Professor. Postdoctoral research scientists or postdoctoral research fellows may apply together with their mentor, who must have a full-time, Columbia University faculty appointment. Applications from Associate and full Professors will be considered for the pilot funding only if the proposal represents a shift in their research program.; APPLICATION DEADLINE: December 1, 2020; Awards will be made for clinical, epidemiologic, or genetic research on the causes or consequences of a neurological or neurodevelopmental disorder occurring at any time throughout the lifespan.

**Additional Information:** Basser Center for BRCA 2021 External Research Grant Program Request for Applications; Deadline: December 21; The Basser Center for BRCA at Penn Medicine’s Abramson Cancer Center announces the Basser External Research Grant Program, which focuses on projects that have the potential to advance the care of individuals living with BRCA1 and BRCA2 mutations. Research grant applications in basic science, prevention, early detection, or targeted therapeutics and relevant to the study of BRCA1/2 will be considered. Submission by early stage investigators is encouraged. This funding mechanism is not intended for Faculty at the University of Pennsylvania. *Grants that demonstrate a potential for translation into clinical practice will be prioritized for funding.*; **Funding Level:** Basser Innovation Award. Three high-risk idea projects will be awarded (one-year projects, up to $100,000). Six-month progress updates are required. A three-month notice of termination will be given if lack of progress is demonstrated. Final reports are required; **A MANDATORY LETTER OF INTENT (LOI) IS DUE BY MONDAY, DECEMBER 21, 2020**; The purpose of the LOI is to allow the Basser Center time to assemble appropriate reviewers - not to approve grants for full submission. There will be no feedback provided to applicants regarding the LOI and anyone submitting an LOI is welcomed to follow through with a full grant application.; **Principal Investigator Eligibility:** [*] All full-time faculty are eligible to apply to the Basser External Research Grant Program. The proposed research cannot be funded through an existing or prior peer-reviewed national research grant (e.g., NIH, ACS, DOD or other equivalent funding sources).; [*] Non-faculty (e.g., residents, fellows) are not eligible. Faculty at the University of Pennsylvania are not eligible.; [*] International applications are welcomed.; Full details plus application forms are here: [https://www.pennmedicine.org/cancer/cancer-research/for-researchers/investigators-only/funding-opportunities/2021-basser-external-grant-program](https://www.pennmedicine.org/cancer/cancer-research/for-researchers/investigators-only/funding-opportunities/2021-basser-external-grant-program); Online submission portal for LOIs and full applications is here: [https://www.med.upenn.edu/apps/pgacc/users/sign_in](https://www.med.upenn.edu/apps/pgacc/users/sign_in); **Questions? **Link(s):** https://grants.nih.gov/grants/guide/pa-files/PAR-21-080.html

**Additional Information:** V Foundation V Scholar Grant for Black/African American Cancer Researchers; Deadline: November 20; The V Foundation is pleased to be able to offer the V Foundation V Scholar Grant for Black/African American Cancer Researchers, a V Scholar grant opportunity in 2020 supported by funds from the Stuart Scott Memorial Cancer Research Fund. The goal of this fund is to stop cancer disparities. Stuart was a dedicated friend to the V Foundation and a champion for cancer research. He enrolled in a clinical trial during his own cancer journey. Stuart was especially driven to improve outcomes for African Americans and other minorities disproportionately affected by cancer, and he became a passionate voice on their behalf.; The Stuart Scott Memorial Cancer Research Fund supports V Scholar scientists from minority racial and ethnic groups underrepresented in science. This gives minority researchers important, early-career funding to establish their labs and begin their careers as cancer researchers. The Fund also supports Translational Grants that fund research of cancer disparities experienced by patients of minority populations and include a focus on causes, aggressiveness, treatments or relapses of cancer.; This grant opportunity is specifically for researchers from the Black/African American community, a minority group that is underrepresented in the scientific community.; The V Scholar Award supports early tenure-track faculty by funding a range of projects from laboratory-based fundamental research through bench to bedside research. The total amount of grant funding is $200,000, paid in two annual installments of $100,000. Only direct costs of the research are supported by this award.; SPECIAL FOCUS AREA: Any area of adult cancer research.; WHO MAY APPLY: Each invited institution may submit one nominee who meets all eligibility criteria. Only researchers who self-identify as Black/African Americans are eligible for this second V Scholar grant opportunity in 2020. This particular grant opportunity will use Stuart Scott Memorial Cancer Research Funds to support Black/African American early tenure-track faculty; APPLICANT INSTRUCTIONS; HICCC will select ONE applicant as the nominee to submit a full application to the V Foundation for this award. To apply for the nomination, please submit: [1] A summary (no more than 1 page) outlining the proposed research and specific aims; [2] NIH formatted biosketch; EXTENDED INTERNAL SUBMISSION DEADLINE: MONDAY, NOVEMBER 23, 2020; For more information and to apply, follow the link [here].

**Additional Information:** Rascal IRB 2.1 Open Hours - Last Call!; Dear Members of the Columbia Research Community, The Columbia University Human Research Protection Office (HRPO) released an updated version of the IRB module in Rascal, “Rascal IRB 2.1”, on September 20. The majority of the changes affect the “review” side of Rascal. However, there are some changes on the “researcher” side that you should be aware of. These are presented in the Rascal IRB 2.1 training video for researchers that is accessible to you on the main Rascal IRB page www.rascal.columbia.edu/irb via the link labeled “New Rascal 2.1 updates! View tutorial here”; The last of our “open” hours was hosted on Zoom on Thursday, October 15. Rascal 2.1 questions [were fielded], or any other questions you have about the IRB process. If you are unable to attend this session, then we welcome your questions during our Monthly Investigator Meeting next week on October 22nd. Event details will be sent out soon.; If you are experiencing issues with any of the new functions in Rascal, please send an email to rascal@columbia.edu. ; Thank you for all your efforts in this process, as we continue to improve the efficiency and quality of the Human Research Protection Program here at Columbia. ; Best regards, Rascal IRB 2.1 Planning Team

**Additional Information:** CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching

Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.; **Eligibility:** All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.; **Amount:** Funding of up to $1,500 per proposal is available.; **Deadline:** Applications for the grants are open via rolling submission throughout the 2020-21 academic year.; **Description:** With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task.; To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.; Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.; We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply.; Best, Jozef; [brought to our attention by] Jozef Sulik; Senior Project Manager; Presidential Scholars in Society and Neurosciences; The Center for Science and Society; Columbia University in the City of New York; presidialscholars.columbia.edu; scienceandsociety.columbia.edu

**Additional Information:** [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott ; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; [eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects. ; Users with records currently in progress will need to modify the records to meet new FORMS-F requirements.; The changes listed below include items released by eRA in March and items released on June 13.; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.A.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.A.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen
— Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA.’; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. Additional Information: Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached "Changes from FORMS-E to FORMS-F"; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances; As soon as I have more information from NIH I will pass it along; [brought to our attention by] Stephanie F. Training Grant RPPRs and Survey

**Sponsor:** SPA/HICCC

**Deadline(s):** 10/01/2020 (Release Date)

**Contact:** [brought to our attention by Stephanie Scott, SPA] sfs2110@cumc.columbia.edu; If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu; For inquiries concerning the policy described in the NOT-OD-20-178 Notice, contact: NIHTrain@mail.nih.gov

**Additional Information:** Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKJMHjJQo5kp; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sgf2@cumc.columbia.edu Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPPR with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKJMHjJQo5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our session on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@cumc.columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@cumc.columbia.edu Thank you!; Stephanie F. Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

**Sponsor:** National Institutes of Health

**Deadline(s):** This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round.; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.; The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications.; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

[Grant Review Submission Form (updated Spring 2019)]

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.
Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

Health Data for Action
Sponsor: RWJF
Deadline(s): 12/17/2020
Contact: Maura Dugan, research assistant Email: healthdataforaction@rwjf.org
Additional Information: Researchers who work with big data will be excited by this opportunity: Tell us about your health research, and we will broker a one-year deal for you to access significant patient electronic health records data (anonymized, of course).; We know negotiating data access to big data is difficult—especially for researchers just starting out in their career. That’s why RWJF’s signature research program, Health Data for Action, has brokered deals with some of the biggest health data companies so you can access massive patient-level datasets for your research project. Successful applicants will be able to access data at no cost to the research team.; Learn more about eligibility, key dates, and more > ; Bring your questions to our informational webinars on November 16 and 17 to hear from all eight data providers.

**RWJF; Pioneering Ideas: Exploring the Future to Build a Culture of Health**

**Sponsor:** RWJF

**Deadline(s):** Open

**Contact:** pioneeringideas@rwjf.org

**Additional Information:** What can we do today to create a better, more equitable tomorrow? Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work. Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come. We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders- anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible. Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

**Additional Information:** Cancer Research Institute Technology Impact Award provides seed funding of up to $200,000 to be used over 12-24 months to address the gap between technology development and clinical application of cancer immunotherapies. These grants aim to encourage collaboration between technology developers and clinical cancer immunologists and to generate the proof-of-principle of a novel platform technology in bioinformatics, ex vivo or in silico modeling systems, immunological or tumor profiling instrumentation, methods, reagents and assays, or other relevant technologies that can enable clinician scientists to generate deeper insights into the mechanisms of action of effective or ineffective cancer immunotherapies. The most competitive applicants will address areas where technological innovation stands to benefit the field and cancer patients most, and that will ultimately lead to effective next generation cancer immunotherapies. These technologies may include but are not limited to: New bioinformatics methods or technologies that speed collection and analysis of large sets of patient-derived biological data; Computer simulations for modeling biological systems and responses to immunotherapy; Tools and methods that improve profiling of tumors to inform therapeutic strategies; Real-time visualizations of molecular and cellular activity to improve tracking of responses to immunotherapies; In vitro tissue culture systems that recapitulate the interactions between primary tumor cells and the immune system; For eligibility and to apply, follow the link here.

**Additional Information:** Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420; Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow’s leaders in the field. NIDA has developed two Avenir Award Programs, one for HIV/AIDS research and the other for genetics or epigenetics studies. The Genetics or Epigenetics of Substance Use Disorders Avenir Award program supports early stage investigators proposing highly innovative studies that open new areas of research for the genetics or epigenetics of addiction. These may be novel methods or approaches that can potentially be applied to the analysis of the genetics or epigenetics of addiction. Investigators outside the field of addiction interested in applying their novel approaches to the genetics or epigenetics of addiction are encouraged to apply. The award will support those in an early stage of their career who may lack the preliminary data required for an R01 grant, but who propose high impact research and who show promise of being tomorrow’s leaders in the field of genetics or epigenetics of substance use disorders. Municipal wastewater offers the potential to significantly increase the nation’s total available water resources. However, wastewater as a potential source water remains both a technical and economic challenge due to the potential variety of contaminants that can be present such as metals, salts, organic chemicals, nutrients, pathogens and emerging contaminants; This funding opportunity aims to support research into the development of standardized approaches to identify, characterize, and validate suitable viral surrogates and enumeration methods for quantifying the potential human health risks posed by the concentrations of human enteric viral pathogens found in reclaimed wastewater. EPA is requesting new information on the concentrations of infectious viral pathogens relative to the concentrations of viral surrogates. EPA is also looking for data on the inactivation or removal of viral pathogens and surrogates needed to (1) establish and verify viral pathogen log-reduction values for individual unit treatment processes and through treatment trains, (2) inform monitoring, and (3) optimize treatment train performance.; Applications should address at least one of the following research areas: [1] Viral Surrogates for Assessing Treatment Performance; [2] Identifying Quantitative Reductions of Viral Pathogens and Surrogates across Unit Treatment Processes and Full Treatment Trains for Water Reuse Applications; The STAR Program’s goal is to stimulate and support scientific and engineering research that advances EPA’s mission to protect human health and the environment. It is a competitive, peer-reviewed, extramural research program that provides access to the nation’s best scientists and engineers in academic and other nonprofit research institutions. STAR funds research on the environmental and public health effects of air quality, environmental changes, water quality and quantity, hazardous waste, toxic substances, and pesticides.; For information on eligibility, project specifications, or how to apply, visit https://www.epa.gov/research-grants/viral-pathogen-and-surrogate-approaches-assessing-treatment-performance-water-reuse ; Learn more about the Safe and Sustainable Water Resources (SSWR) Research Program. ; Learn more about EPA Research Grants. ; Informational Webinar for

Please see the Flexibilities Available to Organizations Impacted by COVID-19 clause in Section IV of EPA’s Solicitation Clauses.; **URL:** [https://www.epa.gov/research-grants/deployment-innovative-water-technologies-very-small-drinking-water-systems-areas-0](https://www.epa.gov/research-grants/deployment-innovative-water-technologies-very-small-drinking-water-systems-areas-0) [Open Date]: November 16, 2020; **Close Date:** January 12, 2021; **Informational Webinar:** [https://www.epa.gov/research-grants/new-epa-research-funding-opportunity-deployment-innovative-water-technologies-very](https://www.epa.gov/research-grants/new-epa-research-funding-opportunity-deployment-innovative-water-technologies-very)

**Background:** EPA is announcing a new funding opportunity to facilitate multi-state cooperation and adoption of innovative water technologies.; With this RFA, EPA is seeking research that provides technical assistance to deploy innovative water technologies to very small public drinking water systems (serving 500 persons or fewer) or areas served by private wells/source waters. Applicants should focus on how states consider sources of performance data and other information to make decisions to allow innovative water technologies to be used and establish effective ways for multiple states to cooperate to prevent or minimize state-by-state testing protocols.; **Expected outcomes of research from this RFA include:** [*] Reduced economic costs of deploying demonstrated innovative water technologies; [*] Improved public health and reduced risks of deploying demonstrated innovative water technologies; and [*] Streamlined approval process for demonstrated innovative technologies that provide clean drinking water supplies with minimal environmental impact.; Please note: Cost-sharing is required for this award. Each applicant must contribute a minimum non-federal cost share/match of 54% of the federal funds awarded. This is equivalent at a minimum to 35% of the total project costs.; This RFA is congressionally directed through the explanatory language of the FY20 appropriations bill and America’s Water Infrastructure Act of 2018,

Additional Information: PEPH: Citizen Science Symposium / Publication Opportunity: Happy Friday, PEPH friends! I just learned about the following opportunity through the American Philosophical Society. I have pasted the full call below; I know that many of you are doing work in this area. Note the specific areas of interest they have bulleted out in the call for papers, which are due on 12/18/2020. I found that these topics of interest resonate well with much of the community engaged research to address environmental health disparities and bring about environmental justice. The APS notes the connection between “citizen science” and “community-led science,” which is an important aspect of this conversation several of you have been emphasizing for years; In health, --Liam; Inspired by its 2021 exhibition Dr. Franklin, Citizen Scientist, the American Philosophical Society’s Library & Museum is organizing a symposium that explores citizen science as a phenomenon. The symposium’s theme reflects the work of Benjamin Franklin and others who lacked formal training and whose work sometimes went unacknowledged but whose contributions significantly added to the advancement of knowledge. It hopes to expand upon the theme of the exhibition by exploring understandings of citizen science over time, placing historical initiatives in conversation with present day projects as well as reflecting on the future needs and opportunities of the movement.; The Library & Museum invites innovative proposals from scholars from all disciplines whose research may contribute to a conversation about the past, present, and future of citizen- or community-led science. The chronological scope of the conference is open-ended and proposals from those whose work can provide a long historical perspective on these issues are encouraged to apply.; Potential topics include (but are not limited to): [*] Historical perspectives on the concept and definition of citizen science and the myriad of ways people have performed what we now often call “citizen science.”; [*] The diverse range of people who have contributed to the advancement of knowledge over time, including the work of lesser-known figures and historically
marginalized communities.; [*] The role of citizen science in promoting environmental and social justice, and for climate science.; [*] Outcomes of citizen science projects, such as new scientific knowledge, policy change, conservation action, or educational resources and their impact on the broader social, cultural, and political sphere.; [*] Recent developments in the citizen science movement, including best practices and innovative approaches. Of particular interest is the role of technology in developing projects and pedagogical techniques used to incorporate projects into the classroom.; [*] Issues of inequality in limiting access to scientific knowledge and participation, both historically and in the present.; [*] Challenges to collecting data and building trust through projects (including issues of scale), as well as possible solutions to those problems.; [*] Failed citizen science projects and the lessons they offer.; [*] The relationship between professional science and citizen science, over time and in the present, including the ways in which professionalization has changed the way scientific work is done and who can conduct it.; [*] International perspectives on citizen science.; Applicants should submit a title and a 250-word proposal along with a C.V. by December 18, 2020 via Interfolio: https://apply.interfolio.com/79883; Decisions will be announced in February 2021.; The symposium will be held the week of April 5, 2021 in Philadelphia. At this point, we have not determined if the conference will be online or in person. If in person, all presenters will receive travel subsidies and hotel accommodations. Accepted papers will be due a month before the conference and pre-circulated to registered attendees. Papers should be no longer than 15 double-spaced pages. Presenters may also have the opportunity to publish revised papers in the APS's Transactions, one of the longest running scholarly series in America.; For more information, visit https://www.amphilsoc.org, or contact Kyle Roberts, Associate Director for Library and Museum Programming at kroberts@amphilsoc.org or Adrianna Link, Head of Scholarly Programs, at alink@amphilsoc.org.

**Additional Information:** Louis V. Gerstner Jr. Scholars Program; Deadline: December 9; Columbia University Vagelos College of Physicians & Surgeons is pleased to announce the launch of the 2021 Louis V. Gerstner, Jr. Scholars Program which supports physicians who are on tenure track and conduct research that has the promise of ultimately bringing new treatments to patients. To be eligible, applicants must hold current faculty level appointments and currently have, have applied for, or are in the process of pursuing an NIH K or R award. An applicant with more than 5 years of faculty service, whether at Columbia or at another US institution, will be ineligible except in special cases which should be discussed with the Senior Vice Dean for Research prior to applying. All applicants must have a license to practice medicine in the state of New York. The applicant must have a senior faculty mentor who has current and sustained NIH research funding. Preference will be given to applicants who are on a rapid path to independence.; The fund will provide a stipend of $75,000 per year for up to three years to be used for salary or laboratory support of the awardees. During their time as a Gerstner Scholar, each investigator is expected to seek and obtain funding from NIH or other sponsors in order to effectively progress on an academic career track. Please note that due to the overlap in the terms of the award for the Louis V. Gerstner, Jr. Scholars Program and The Irving Scholars Program, faculty are eligible to hold only one of these awards at any one time.; It is important to note that all Gerstner Scholars are required to devote a minimum of 50% effort to translational research, and report on their progress to the Gerstner Foundation on an annual basis.;**

Applicants interested in applying to the program must submit all materials outlined below here by 5:00 pm EST on December 9, 2020; Cover Sheet (online); Letters of recommendation from Department Chair and faculty member who will be the applicant's principal mentor; Summary of the project that includes: project title, specific aims, background and significance, preliminary data and research methods (two single spaced pages, 1/2-inch margins, 11-pt Arial font); One page detailed budget; NIH formatted biosketch of the investigator and principal mentor; All questions should be directed to Naomi Hornedo, Administrative Manager of Research at nh83@columbia.edu. Awardees will be notified in March 2021, with funding to begin July 1, 2021.

Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page

**Additional Information:** New NIH Discrimination and Harassment letter for training grants; As per [NOT-OD-19-029](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-19-029.html) applications for NIH institutional training grants (T15, T32, T34, T35, T36, T37, T90/R90, T1L1, T1L4) must include a letter on institutional letterhead signed by a key institutional leader that describes the institutional commitment to ensuring that proper policies, procedures, and oversight are in place to prevent discriminatory harassment and other discriminatory practices.

We just updated this letter and it is available on our website for you to download to include with your Letters of Support into a single PDF file. It is dated January 14, 2020, signed by Deborah Stiles.; You can download the letter directly from here, or go to our Institutional Training Grants webpage and download the letter from the [Proposal Boilerplate/Template Text/Letters section](https://research.columbia.edu/directory/michelle-avallone). You will need your UNI and password to access the letter.; If you are applying for a new or competing renewal, you need to include this letter or else your application will be withdrawn by NIH. Please let me or your SPA Project Officer know if you have any questions.; [brought to our attention by] Stephanie F. NIH eSubmission Items of Interest - July 31, 2018

Contact: https://grants.nih.gov/support/index.html
Link(s): https://grants.nih.gov/grants/ElectronicReceipt/esub_items_interest_07312018.htm

Additional Information: NIH eSubmission Items of Interest - July
31, 2018; NIH sent the newsletter below the other day, which
contains a lot of tips on the new PHS Human Subjects and Clinical
Trial Information Form. In addition, they address Fellowship
applications, and some things to keep in mind if the fellow is
seeking clinical research experience. Since the fellowship
deadline is next week (August 8th), I wanted to bring this to your
attention; I highlighted what I thought were the key points below.
[brought to our attention by] Stephanie Scott; NIH eSubmission
Items of Interest - July 31, 2018; Happy National Mutt Day! Yep, it’s
a real thing. And, why shouldn’t it be? I vividly remember bringing
my mutt home from a pet adoption event years ago and
introducing her to her new “daddy,” “She’s two dogs long and one
dog tall and looks like she’s made from spare parts,” Jeff said. All
true. An emaciated basset-beagle-ish dog with ears longer than her
bowed-little-legs isn’t going to win any beauty contests. But, our
Dixie is the most lovable hound on the planet and we wouldn’t
trade her for the world.; Mutts are amazing but what do they have
to do with grant application submission? Not much actually, but if
you love your mutt as much as I love mine, then I’ve at least got
your attention. Besides, who passes up the opportunity to
celebrate? More wag, less bark!; Hopefully you’ll find this edition
to have an interesting mix … not unlike your favorite mutt.; Where
Do I Put the Information I Know You’d Want, But Didn’t Ask
For?; You want to give staff and reviewers ALL the information
you think they need to provide a thorough review of your
proposal. There is certainly nothing wrong with that - right? Well,
actually it depends. The application guide and funding opportunity
announcement provide very specific guidance on what to include
in your application and, in some cases, there are page limits. You
must stay within to convey the requested information.; If you have
information that doesn’t fit in page-limited attachments like your
Specific Aims and Research Strategy, rework those attachments
until you tell the best story possible within the confines of the page
limits. Do not try to stuff that extra information into other non-
limited fields of the application forms. Similarly, if you have
information that doesn’t have a “natural home” based on our
instructions, don’t include it.; There are several form fields with
tempting names like "Appendix," "Other Attachments," "Other
Requested Information," and "Other Clinical Trial-related Attachments." DO NOT use those fields unless requested to do so
in the application guide or announcement.; Why not? Even if you
have the best of intentions, you need to resist the temptation to
force fit information into your application where it doesn’t belong.
The page limits and guidance are there for fairness and you may
find your application pulled from consideration if you try to get
around them NOT-OD-11-088.; The Duplication Balancing Act:
The application guide statement "do not duplicate information
between the Research Strategy attachment and the PHS Human
Subjects and Clinical Trials Information form" appears to be
causing some angst in the community. In fact, our new human
subjects form invites a certain amount of overlap between the
sections. It would be difficult, for example, to provide a "Brief
Summary" of a protocol without talking about information
captured elsewhere in the application; The point we were actually
trying to make is that we don’t want you to copy and paste blocks
of text into multiple places in your application. Your Specific Aims
and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the study (sorry, it’s not just extra space to expand on the research strategy). The Brief Summary in the Protocol Synopsys section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible. ; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.; Space-Fill Compulsion: My mother, an interior designer, never saw a horizontal surface she didn’t want to decorate. For years I encouraged her to declutter and often she’d begrudgingly remove a knock-knock from a table of shelf. But the next time I’d visit a new knock-knock was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we’ve learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more pithy than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you’ve covered what you need to say in a few paragraphs, then stop. You don’t need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It’s OK. Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don’t bury your main point under unnecessary information.; Do Fellowship Awards Allow Clinical Trials?: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor’s oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves.; Dog Days of Summer: “Be the person your dog thinks you are.” ; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@nih.gov

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (CORG) provided a summary below. Here are some highlights: (*) **Registration and Reporting:** NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) **Funding Opportunity Announcements (FOAs):** NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospective basic science studies in November for due dates starting on January 25th, 2019.; (*) **The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E)** – they still expect that form for all applications involving prospective basic science studies.; (*) **Good Clinical Practice (GCP) training** is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see https://research.columbia.edu/content/good-clinical-practice-training or email NIH-GCP@columbia.edu; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic.; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu; or sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu/; NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; Dear COGR Members, NIH issued the following Guide Notice this morning, Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants.; As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency’s definition of “clinical trial” to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input on registration and results reporting standards best suited for prospective basic science studies involving human participants.; The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates that the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details. ; Lisa Nichols, Ph.D.; Council on Governmental Relations; 1200 New York Avenue, N.W., Suite 460; Washington, D.C. 20005; lnichols@cogr.edu; 202-289-6655

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School's new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared "to support faculty in preparing grant applications with the highest chance of success."

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: "It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again."

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline** —Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline** —For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.
If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

NIH single IRB (sIRB) policy

Sponsor: NIH

Deadline(s): (for NIH application submissions on or after) 01/25/2018

Contact: If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. Note: Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and Clinical Trials Information Form. We also have a one-page reference guide (Thank you Katherine Rochmat of School of Social Work for the initial template!)

**Policy:** The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can used in your grant applications, can be accessed here. The HRPO’s web page will continue to be updated with additional resources and more information becomes available to facilitate compliance with this policy.

NIH ANNOUNCEMENTS: On December 31, 2017
Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission

Sponsor: NIH
Deadline(s): 12/31/2017 (Effective Date)
Contact: Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Additional Information: NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH grant applicants: Grants.gov downloadable forms submission option retiring Dec. 31; NIH Grant Applicant; On December 31, 2017 Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission. ; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH’s ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization.; If there is no business reason to choose one option over another, give NIH’s ASSIST a try. It’s a user-friendly, online solution optimized for NIH applications. ; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original; Hope you have a great holiday season!; Sheri; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov

Changes to NIH policies and procedures related to human subjects research

Sponsor: NIH
Deadline(s): these proposal application changes in effect for proposals due January 25th, 2018 or later; 01/25/2018 (Effective Date)
Contact: [brought to our attention by] Meredith D. Temple-O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov; [and] Stephanie Scott; Director of Policy and Research Development; Sponsored Projects Administration; sfs2110@columbia.edu
These policy updates/changes also apply to individuals conducting research through contracts. **Why is NIH making these changes?** As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: [https://grants.nih.gov/policy/clinical-trials/why-changes.htm](https://grants.nih.gov/policy/clinical-trials/why-changes.htm).

**Additional Information:** Be Careful to Pick the Right Funding Opportunity Announcement (FOA); In follow-up to the announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post; **Key takeaways:** (*) If any part of your study (the specific aims, components, studies, etc) meets NIH’s definition of a clinical trial, then you must select an FOA that allows for clinical trials; (*) If none of the aims or studies within your project meet the definition, select an FOA that says “clinical trials not allowed” or “Clinical trials optional”; (*) "The participating organizations may vary between the “clinical trial not allowed” parent FOA and the “clinical trial required” parent FOA for the same activity code. Read the details of each FOA carefully."; (*) “Note that some institutes that participate on a “Clinical Trial Required” parent may limit their participation to mechanistic studies.”; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Officer named on the FOA to help you make the...

Additional Information: [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the
initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R, and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and Delamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle; For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates.; For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates.; Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

Deadline(s): NA (Announcement/Information)

Contact: Please see posting for individual contact links

Link(s): https://grants.nih.gov/grants/how-to-apply-application-guide/resources/contacting-nih-staff.htm

Additional Information: Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information.; See Who At NIH Can Answer my Question About….? Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting just-in-time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer; [brought to our attention by] Stephanie F. The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016

Sponsor: NA

Deadline(s): 07/01/2016 (effective)

Contact: Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Link(s): http://spa.columbia.edu/proposals/institutional-information

Additional Information: To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by] Stephanie Scott, SPA Communications and Outreach Director, sfs2110; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the “View Attachment” button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons. We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them again when viewing your application image in eRA Commons. This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov.; Carrie Wolinetz, Ph.D.; Associate Director for Science Policy; Office of Science Policy; carrie.wolinetz@nih.gov; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

of these transitions easier for you. This particular set of changes implements a number of policy changes impacting applications submitted in 2016, which we announced in a series of recent NIH Guide notices. We would like to give you a quick overview of what is happening; We will be rolling out the changes in two phases, as summarized in our notice published in the NIH Guide, since our new application forms will not be ready until the spring; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.; (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D;

**Simplification of the Vertebrate Animals Section of NIH Grant Applications and Contract Proposals;**

**Sponsor:** National Institutes of Health; **Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** For questions or further information, contact: Office of Laboratory Animal Welfare (OLAW); Telephone: 301-496-7163; Email: olaw@od.nih.gov;

**Additional Information:**

This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals.; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury.; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

**NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;**

**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality; **Deadline(s):** NA Release Date: 10/13/2015;

**Contact:** Please direct all inquiries to: NIHTrain@mail.nih.gov; **Link(s):** [http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html](http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html);

**Additional Information:**

This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: [http://grants.nih.gov/grants/funding/424/datatables.htm](http://grants.nih.gov/grants/funding/424/datatables.htm); Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction
NIH & AHRQ Announce New Form for PHS Awarding Component and Peer Review Requests;
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;
**Deadline(s):** NA Release Date: 10/13/2015;
**Contact:** Please direct all inquiries to: Division of Receipt and Referral; Center for Scientific Review (CSR); Telephone: 301-435-0715; Email: cardr@mail.nih.gov;
**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-008.html;
**Additional Information:** Applicants who want to communicate requests pertinent to the assignment and initial peer review of applications must use a new PHS Assignment Request Form beginning with applications for due dates on or after May 25, 2016. Use of this form will ensure applicant requests are effectively communicated to agency staff and may be used to expedite the processing and assignment of applications.; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive (“assign to”) and negative (“do not assign to”); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission).

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016
**Sponsor:** National Institutes of Health; Agency for Healthcare Research and Quality;

**Link(s):** http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;
**Additional Information:** This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications.; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams and charts is acceptable as long as it is legible when the page is viewed at 100%); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements; (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

Inclusion of Children in Clinical Research: Change in NIH Definition;
**Sponsor:** National Institutes of Health;
**Deadline(s):** NA Release Date: 10/13/2015;

For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;
**Additional Information:** The purpose of this notice is to notify NIH applicants/offerees and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; **What’s Changing:** Starting with applications/proposals submitted for...
due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy considerations. Applicants / offerors for NIH funding will still be expected to justify the age range of the proposed participants in their clinical research, with particular attention paid to addressing the inclusion (or exclusion) of children (or subsets of children). However, now that threshold applies to individuals under the age of 18 rather than under the age of 21; Reason for Change: Consideration of children as a vulnerable population for human protections from research risk and the NIH child inclusion policy are often conflated. While these are distinct policies, many think of children as under 18 years of age, typically the age of consent. This has sometimes led to confusion on the part of applicants/offerors, peer reviewers, grantees/contractors, and even NIH staff about how to ensure compliance with the child inclusion policy. By aligning the NIH definition for the age of a child with the typical age of consent and the common perception of the age of adulthood, the NIH can continue to implement this policy in a manner that focuses on the group of children that need particular attention.; The NIH recognizes that development continues well beyond 18 (and even 21, the current age); however, there is particular concern about ensuring the appropriate inclusion of individuals under 18 while also safeguarding this vulnerable group. NIH policies on inclusion are aimed at ensuring that appropriate individuals are included in clinical research and clinical trials. Results need to be generalizable to individuals that comprise the population under study. This includes consideration of age as a factor in the scientific design.; For more information on the child inclusion policy: https://grants.nih.gov/grants/funding/children/children.htm;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Resource Research and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015;

NIH Releases Protocol Template for Behavioral and Social Sciences Research Involving Humans

Sponsor: National Institutes of Health

Deadline(s): 03/26/2019 (Release Date)

Contact: Please direct all inquiries to: NIH Office of Science Policy SciencePolicy@od.nih.gov

Additional Information: Purpose: The National Institutes of Health (NIH) has released a clinical trial protocol template with instructional and example text for NIH funded investigators to use in writing protocols for behavioral and social sciences clinical trials. This template was developed in response to changes in NIH policies that expanded the requirements associated with clinical trials beyond FDA-regulated clinical trials to those studies including behavioral or social interventions. Use of the template is recommended, but not required.

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman Graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

CLARIFICATION - RE: 3rd Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

**Sponsor:** NIH

**Deadline(s):** Starting in October 2014;
Those who have completed undergraduate or graduate degrees must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report that could delay issuance of the next year's funding, complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduates and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;
addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you.; Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant,
individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/ Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. The NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at https://www2.gsas.columbia.edu/idp/node/3#summary. Please contact Rory Flinn (rf2531@columbia.edu), Director of the Office of Postdoctoral Affairs, with any questions about the program.;

**Additional Information:** Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards **must** have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. **Complete eRA Commons profiles are just as important as the ID itself.** NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu.;

NIH-Investigators FW: NIH eSubmission Items of Interest – Sponsor: NIH
Deadline(s): June 4, 2014
From Stephanie F. Scott, M.S., CRA;
Communications and Outreach Director;
Sponsored Projects Administration (SPA);
“NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and...
other word processors— they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:**
Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I've been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start talking about FORMS-D forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF 424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it somewhere else (e.g., Pre-application attachment on the SF 424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**NIH-Investigators Reminder eRA Commons IDs and Complete Profiles Required for Students and Postdocs**
This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as graduate or undergraduate students, postdoctoral researchers, and researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rpr. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.
Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all Type 5 Non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading→

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency.

Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading→

New Website for iEdison Invention Reporting Information:

You Ask, We Answer:
Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES
NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html: I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_q&a.htm: The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission
Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#shash.q3dTkMY2.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#shash.0l3doSVZ.dpuf.

(A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines.

**FEDERAL FUNDING TRAVEL POLICY**

**NIH-Investigators New Policy on Fly America Act:** Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: [http://policylibrary.columbia.edu/fly-america-act](http://policylibrary.columbia.edu/fly-america-act). This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: [http://spa.columbia.edu/policies/us-flag-carrier-policy](http://spa.columbia.edu/policies/us-flag-carrier-policy).

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

**U.S.-Israel Binational Science Foundation (BSF) funding opportunities**

**Sponsor:** U.S.-Israel Binational Science Foundation (BSF)

**Deadline(s):** Please read description and piecemeal opportunities

**Contact:** [https://www.bsf.org.il/contact-us/](https://www.bsf.org.il/contact-us/)

**Link(s):** [https://www.bsf.org.il/funding-opportunities/](https://www.bsf.org.il/funding-opportunities/)

**Additional Information:** Upcoming dates at the BSF; Dear Colleague, This is a periodical reminder of the existing opportunities in the NSF-BSF joint funding programs, with the known dates of the next submission deadlines.; We would also like to bring to your attention two new CALLS that we uploaded to our website, RAPID and EAGER. Both are not new programs but rather parallel funding mechanisms to the conventional mechanism that can be usually applied to in all areas of research. RAPID is a mechanism for one year support with a quick response by the NSF. It is mostly used currently to support COVID-19 related work. EAGER is a mechanism for up to two years of support for high risk - high gain research, which is usually referred to as “Transformative Research”. We have added them as separate CALLS, even though they are actually also part of the regular CALLS, in order to increase their visibility, and encourage their use. For more information about this opportunity check our website: [here](https://www.bsf.org.il/funding-opportunities/); Please be reminded that the BSF allows to submit concurrently to both the regular program, as well as to the NSF-BSF programs, including the same research program. However, if the submissions are similar, or significantly overlap, only the NSF-BSF program will be funded.; Also, the BSF allows the submission of up to 2 NSF-BSF applications concurrently, as long as one of them is to a program with no deadline.; We would be happy to see you or your students (for the travel program only) among the applicants to any of these programs.; Sincerely, Rachel (Heni) Haring [brought to our attention by] Dr. Heni Haring, Assistant Director; U.S. – Israel Binational Science Foundation; 8 Hamarpeh St.; P.O.B. 45086; Jerusalem, 91450; Israel; Tel: 972-2-5828239 ext. 110; Fax: 972-2-5828306; [www.bsf.org.il](http://www.bsf.org.il); The following is a list of the deadlines in the BSF and NSF-BSF programs in the coming months: [*] BSF Regular Research Grants Program. Deadline for applications is November 18, 2020. The website opened on September 1, 2020. The regulations can be found [here](https://www.bsf.org.il/funding-opportunities/);

[*] BSF program Prof. Rahaminoff Travel Grants for Young Scientists program. Dates are not known yet, but are likely to be no earlier than Nov. 2020. Call for Proposals can be found [here](https://www.bsf.org.il/funding-opportunities/); These NSF-BSF programs have the following deadlines: Directorate of Mathematical and Physical Sciences: [*] NSF-BSF program in Mathematical Biology. Deadline for application by the U.S. partner to the NSF is September 8, 2020 and
by the Israeli partner to the BSF is September 14, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Materials**. Deadline for application by the U.S. partner to the NSF is November 2, 2020 and by the Israeli partner to the BSF is November 8, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Geometric Analysis; Topology**. Deadline for application by the U.S. partner to the NSF is November 3, 2020 and by the Israeli partner to the BSF is November 9, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Applied Math**. Deadline for application by the U.S. partner to the NSF is November 16, 2020 and by the Israeli partner to the BSF is November 23, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Astronomy and Astrophysics**. Deadline for application by the U.S. partner to the NSF is November 16, 2020 and by the Israeli partner to the BSF is November 23, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Atomic Molecular and Optical Physics – Experiment and Theory; Gravitational Physics – Experiment and Theory; Integrative Activities in Physics; LIGO Research Support**. Deadline for application by the U.S. partner to the NSF is November 25, 2020 and by the Israeli partner to the BSF is December 1, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Nuclear Physics – Experiment and Theory; Elementary Particle Physics – Experiment; Particle Astrophysics – Experiment; Computational Physics**. Deadline for application by the U.S. partner to the NSF is December 1, 2020 and by the Israeli partner to the BSF is December 7, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Computational Mathematics**. Deadline for application by the U.S. partner to the NSF is December 1, 2020 and by the Israeli partner to the BSF is December 7, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Elementary Particle Physics – Theory; Particle Astrophysics and Cosmology – Theory; Physics of Living Systems; Quantum Information Science**. Deadline for application by the U.S. partner to the NSF is December 9, 2020 and by the Israeli partner to the BSF is December 14, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Statistics**. Deadline for application by the U.S. partner to the NSF is December 15, 2020 and by the Israeli partner to the BSF is December 21, 2020. Call for Proposals can be found here.

Directorate of Computer and Information Science and Engineering:

[*] NSF-BSF program in **Computing and Communication Foundations**. Deadline for application by the U.S. partner to the NSF is November 12, 2020 and by the Israeli partner to the BSF is November 18, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Computer and Network Systems**. Deadline for application by the U.S. partner to the NSF is November 12, 2020 and by the Israeli partner to the BSF is November 18, 2020. Call for Proposals can be found here.

[*] NSF-BSF program in **Information and Intelligent Systems** (IIS). Deadline for application by the U.S. partner to the NSF is November 12, 2020 and by the Israeli partner to the BSF is November 18, 2020. Call for Proposals can be found here.

Directorate of Biological Sciences:

[*] NSF-BSF program in **Ecology and Evolution of Infectious Diseases**. Deadline for application by the U.S. partner to the NSF is November 18, 2020 and by the Israeli partner to the BSF is November 24, 2020. Call for Proposals can be found here.

These following NSF-BSF programs have no deadlines and are open for submission throughout the year:

[*] NSF-BSF programs in **Chemical, Bioengineering, Environmental, and Transport Systems** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF programs in **Ceramics and Condensed Matter and Materials Theory** in the Materials division are open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF program in **Electrical, Communications and Cyber Systems** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF programs in **Earth Sciences** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF programs in **Atmospheric and Geospace Sciences** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF program in **Cyber Security** is going to be open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF program in **Marine Geology and Geophysics** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF program in **Molecular and Cellular Biosciences** is open to receive applications anytime throughout the year. Call for Proposals can be found here.

[*] NSF-BSF program in **Integrative Organismal Systems (IOS)** is open to receive applications anytime throughout the year. Call for Proposals can be found here.
[*] NSF-BSF program in Environmental Biology (DEB) is open to receive applications anytime throughout the year. Call for Proposals can be found here.
[*] NSF-BSF program in Rules of Life (RoL) in the Biological Sciences Directorate (BIO) is open to receive applications anytime throughout the year. Call for Proposals can be found here.

Dear Colleague,

We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance. Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward. The following sections summarize the key changes to the Policy; however, those who are governed by the Policy should read it in its entirety. Forms to be submitted to the SPA Project Officer, accompanied with the grant proposal, if subrecipients are included; (*) Sub recipient/Contractor Classification Form - NEW FORM; (*) Subaward Face Page - REVISED FORM; (*) Pre-award Assessment of the Proposed Subawards, if applicable - REVISED FORM; (*) International Research Questionnaire (IRQ), if applicable; (*) Subawardee Financial Conflict of Interest Policy Form -
