**Additional Information:** [R2 has been apprised about this opportunity via multiple sources, that are presented below]

Columbia University is now accepting applications for the Public Voices Fellowship, a high-impact and prestigious initiative to accelerate the ideas and public impact of a core group of our nation’s most original and diverse thought leaders.; APPLICATION FOR PUBLIC VOICES FELLOWSHIP 2017; Please submit by Tuesday, December 20 to Azure Nowara, aen2129@cumc.columbia.edu. Please put “Public Voices Fellowship Application” in the email subject line.; PART A: COVER PAGE; 1. Please provide your (a) name, (b) university title, (c) department, and (d) contact information.; 2. Please confirm that you can attend all seminars: February 10 and 11; April 29; September 9; and November 11. (Only applications who are able to make every effort to attend all four gatherings will be considered). Y/N; 3. Please confirm that, if accepted, you commit to write (with the support of the program) a minimum of two op-ed essays. (We expect all participants to make every effort to publish a minimum of two op-eds, and hopefully many more.) Y/N; PART B: PERSONAL STATEMENT; Please address the following topics in 200 to 300 words each: 1. Your area(s) of expertise, research and/or scholarship; 2. How your ideas are underrepresented in the public sphere; 3. What you hope to get out of the Fellowship.; PART C: Curriculum Vitae; Please provide a CV that includes academic and non-academic publications as well as media appearances and related activities.; Dear CUMC Communicators,
Dear Colleagues,

For a third year, the Public Voices Fellowship program at Mailman School of Public Health is now accepting applications. This fellowship excels at training Mailman faculty to translate their scholarship into impactful action through the perspectives of high-level journalists and media insiders. Fellows will join monthly calls with high-level media insiders (NYT, TED, CNN, Wikipedia, etc.), receive weekly customized email support and news alerts, and be assigned to work with top journalist mentors for dedicated one-on-one coaching throughout the year. Upon completion of the fellowship, they will have access to The OpEd Project’s national network of high-level journalist “mentor-editors” for continuing support.

Fellowship Overview:

- The fellowship program’s launch in January 2014, Mailman fellows have made the Ebola health crisis, inmate education, and parental bullying of LGBT children. We invite you to experience the energy, excitement, and impact of the Columbia Fellowship by clicking through to the short videos from 2014-2015, 2015, and 2016 to hear the program described in your fellow faculty members’ own words.
- **How to apply:** To apply for the 2017 Columbia Public Voices Fellowship, please complete the attached application and submit via email by Tuesday, December 20. Fellows will be notified of their acceptance in mid-January. Only applicants who are available to attend all four convenings in full will be considered.

**THE PROGRAM**

Selected faculty will join a year-long fellowship program. They will meet for a total of four (day-long or 1.5-day) workshop convenings, scheduled at two- to three-month intervals over the course of nine months. The unique curriculum combines game-based learning with the latest research on influence, including how ideas spread, when and why minds change, how credibility is built, and how impact is created. Between convenings, Fellows will join monthly calls with high-level media insiders (NYT, TED, CNN, Wikipedia, etc.), receive weekly customized email support and news alerts, and be assigned to work with top journalist mentors for dedicated one-on-one coaching throughout the year. Upon completion of the fellowship, they will have access to The OpEd Project’s national network of high-level journalist “mentor-editors” for continuing support.

Further information is available here: Fellowship Overview & FAQs. Please Note: The 2017 Columbia Public Voices Fellowship convening dates are as follows and run from 10 a.m. to 5 p.m. (except Feb. 11). Only applicants who are available to attend all four convenings in full will be considered.

- Convening 1: Friday, Feb. 10, and Saturday, Feb. 11, 2017, 2-5 p.m.
- Convening 2: Saturday, April 29
- Convening 3: Saturday, Sept. 9
- Convening 4: Saturday, Nov. 11

**THE PAYOFF**

Columbia faculty members have described the Fellowship as “transformative,” “career changing,” and “life changing.” It’s also one of the few opportunities to work deeply with wonderful colleagues across disciplines; Prior Columbia Public Voices Fellowship participants have published in The New York Times, The Huffington Post, Slate, Pacific Standard, Al Jazeera, USA Today, The Chronicle of Higher Education, The Hill, The Boston Globe, and more. They have been interviewed on CNN, Al Jazeera America, and NPR. Columbia Fellows will join this national network of Fellowship alumni, facilitating knowledge sharing, collaboration, and innovation across institutions.

Over the last three years of Public Voices at Columbia, sixty faculty members have infused national and global dialogues with their perspectives on topics such as the Ebola health crisis, inmate education, and parental bullying of LGBT children. We invite you to experience the energy, excitement, and impact of the Columbia Fellowship by clicking through to the short videos from 2014-2015, 2015, and 2016 to hear the program described in your fellow faculty members’ own words.

If you are interested in applying, please review our website and complete the application by Tuesday, December 20. I hope you will consider applying for this outstanding opportunity!

All the best, Gina; Gina Wingood, ScD, MPH; Sidney and Helaine Lerner Professor of Public Health

Additional Information: Subject: Request for Proposals for the Provost's Online and Hybrid Learning Grants; Dear fellow members of the Columbia Community: I am pleased to share an upcoming set of funding opportunities for Columbia faculty aiming to integrate new educational methods and technologies into their classrooms and learning environments.; (1) The Hybrid Learning Course Redesign and Delivery grant program provides support for faculty who are developing innovative and technology-rich pedagogy and learning strategies in the classroom. Instructors of selected courses will have access to resources and support from the Center for Teaching and Learning (CTL) for content development, instructional design, media production, assessment, and project management. Awardees will receive in-kind support from the CTL and will also be funded with a grant of up to $20,000. A key goal of this initiative, which began in 2014, is to measure the effectiveness of these efforts, and to improve instructional delivery methods and learning outcomes of Columbia University students from all disciplines. Faculty can apply for support for courses held during the 2017-18 academic year. The deadline for submission of applications is Monday, April 3, 2017. The link to apply for the Request for Proposals for Hybrid Learning Course Redesign and Delivery is available here via Columbia Online's website.; (2) The Office of the Provost will also continue to support open online courses taught by Columbia faculty via a Request for Proposals for Massive Open Online Courses (MOOCs). Columbia courses offered through MOOC platforms continue to attract and reach a large global learning community, stimulate curiosity and intellectual exploration, make teaching and research activities at the University more visible, and promote public engagement and dialogue through our open online courses. While the experience of developing and offering these courses can be rewarding, MOOCs require substantial time to prepare. Accepted courses will receive consultation services and hands-on support for instructional design and media production from the CTL. A limited number of grants of up to $25,000 each will be awarded. The deadline for submission of applications is Monday, April 24, 2017. The link to apply for the Request for Proposals for MOOCs is available here.; (3) The CTL will be holding a town hall on Tuesday, January 31st at 2pm in Butler 212 to give interested faculty members more information about the two RFPs and the application process. It will also hold open office hours the week of March 6, 2017 including Friday, March 10, 1pm - 5pm in Butler 212 where interested faculty members can walk in and receive consultation and feedback on their projects and applications. Finally, you can learn more about prior supported projects and interact with previous awardees at the Celebration of Teaching & Learning Symposium on Monday, March 6, 2017 in Low Library.; Please visit ctl.columbia.edu and online.columbia.edu to get an overview of Columbia's initiatives and resources in teaching and learning and online

Additional Information: Dear Colleagues, The Columbia Aging Center is a university-wide interdisciplinary center based at the Mailman School of Public Health. We are in our third RFP for seed funding on projects “relating to the study of optimal aging” and the deadline for faculty to apply is January 31, 2017.; We are looking for proposals from any discipline that advance a fundamental understanding of the biopsychosocial nature of the aging process and its positive modifiability.; Prior fellowship recipients are listed here and here; Application guidelines are below and funding is up to $30,000 per year for up to two years*.; Yours, Caitlin Hawke; Caitlin M. Hawke; Senior Science and Strategy Officer; Columbia Aging Center; Columbia University; cmh2197@columbia.edu; @ColumbiaAging; aging.columbia.edu; C A L L  F O R  A P P L I C A N T S ; Faculty Research Fellowships; Relating to the Study of Optimal Aging; Application Deadline: Tuesday, January 31, 2017; A University-wide center, the Robert N. Butler Columbia Aging Center seeks to bring together researchers from across the entire to enable the interdisciplinary study of the biopsychosocial nature of the aging process and its modifiability.; Sponsored by the Center under the direction of Ursula M. Staudinger, Ph.D., these faculty fellowships are open to all junior and senior Columbia University faculty members interested in innovative disciplinary and interdisciplinary research on aging and the lifecourse. Recipients will receive an award of $30,000 per year to support salary and/or research expenses for a total possible maximum of $60,000. The Faculty Fellowships are meant to lay the basis for subsequent larger scale funding efforts.; Successful past projects have explored the role of parathyroid hormone in cognitive decline; how mitochondrial protein quality control proteins can delay muscle deterioration in fruit flies and promote longevity; how hormones produced by bone change muscle function with age; how curiosity contributes to longevity; and how memories are normally stored in the brain. The Center is actively seeking as wide a range of proposals as possible.; As an important part of the fellowship, the Center’s Fellows will come together quarterly to discuss new research and exchange with the Center’s Faculty and visiting scholars. Over the coming years, the Faculty Fellows together with CAC faculty and affiliated faculty will build a rich network of Columbia aging researchers; To discuss guidelines or for information, please contact our Senior Science & Strategy Officer, Caitlin Hawke: ColumbiaAgingCenterPrograms@cumc.columbia.edu; FACULTY RESEARCH FELLOWSHIPS APPLICATION GUIDELINES; The Columbia Aging Center selection committee will favor multi- and inter-disciplinary projects addressing the biopsychosocial nature of the aging process and its positive modifiability or plasticity: Lifespan psychology has demonstrated that human development is the result of the interactions among three different sources: biology (maturation/senescence), culture (learning), and the individual person (attitudes/decision/action). This leaves much room for variation within and between individuals – a potential for variation in development that is labeled “plasticity” (e.g., Staudinger, Marsiske & Baltes, 1995). Plasticity is dependent on the internal and/or external resources available or built by a given person.; Qualifications: Applicants must be full-time Columbia University faculty at the rank of Assistant Professor or higher; Award Amount: $60,000; *Duration: 2 years, $30,000/year* (*Second year contingent on submission of progress report); Deadline: Tuesday, January 31, 2017 by 5 p.m. EST; Start Date: Summer 2017; Proposal submissions are to include the following: (1) Abstract (1 page); (2) Budget and budget justification; Note: Faculty who plan to use grant funds to pay for a research assistant must be aware that University policy may require that fringe benefits be included as part
of any compensation paid. Please include these amounts in your budget if applicable; (3) CV; (4) Summary of candidate’s most significant research accomplishments (200 words); (5) Research proposal (5 page limit); This should be innovative, with a cross-disciplinary orientation that emphasizes the positive modifiability of the aging process. Description should include the project title and 5-10 key words as well as: (a) specific aims; (b) background and significance; (c) impact; (d) preliminary results; (e) approach; (6) Current funding & plans for future funding; (7) References; Submission instructions: Please compile the components above into one PDF document. Save the document using the following format: LASTNAME_CACFRFGRANT2017.pdf. Email application materials by Tuesday, January 31, 2017, 5 p.m. EST to Caitlin Hawke, Senior Science and Strategy Officer, Columbia Aging Center: ColumbiaAgingCenterPrograms@cumc.columbia.edu. Selection will be made for a Summer 2017 start date. Visit our website: aging.columbia.edu

**Deadline(s):** 12/05/2016 (Release Date)

**Contact:** Written and telephone inquiries are encouraged. Please see the NSF program announcement for names and contact information for each of the participating NSF DOs and/or NIH ICs at [https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm](https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm)

**Additional Information:** This Notice announces the reissue of a joint initiative, Collaborative Research in Computational Neuroscience (CRCNS), among nine National Science Foundation (NSF) Directorates and Offices (DOs), and nine participating National Institutes of Health (NIH) Institutes and Centers (ICs). The CRCNS announcement is released under NSF 16-607 ([https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm](https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm)). This announcement supersedes NSF 15-595: Collaborative Research in Computational Neuroscience (CRCNS) – Innovative Approaches to Science and Engineering Research on Brain Function. The German Federal Ministry of Education and Research (Bundesministerium für Bildung und Forschung, BMBF [http://www.bmbf.de/]), the French National Research Agency (Agence Nationale de la Recherche, ANRS [http://www.agence-nationale-recherche.fr]), and the U.S.-Israel Binational Science Foundation (BSF [http://www.bsf.org.il]) are now formal partners in this program, along with the NSF and the NIH. At NIH, CRCNS is now affiliated with the NIH Blueprint for Neuroscience Research ([http://neuroscienceblueprint.nih.gov](http://neuroscienceblueprint.nih.gov)). Inquiries: Written and telephone inquiries are encouraged. Please see the NSF program announcement for names and contact information for each of the participating NSF DOs and/or NIH ICs at [https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm](https://www.nsf.gov/pubs/2016/nsf16607/nsf16607.htm)

[NTW] [ADMINISTRATIVE SUPPLEMENTS]

Administrative Supplement for Research on Sex/Gender Influences (Admin Supp);
Synopsis 1

**Sponsor:** NIH; HHS; Department of Health and Human Services; National Institutes of Health

**Deadline(s):** 02/13/2017; 03/16/2017 (Archive)

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-078.html

**Additional Information:** I wanted to forward this funding opportunity for administrative supplements. This program is designed to provide supplemental funding to NIH-funded researchers to encourage the consideration of sex and gender factors in their ongoing research. The proposed research must address at least one objective from Goals 1 through 3 of the NIH Strategic Plan for Women’s Health Research; See https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-078.html for the full funding announcement;

Supplemental requests are due February 13th, 2017 by 5:00 pm EST.; If you have recently attended a lecture on the NIH Rigor & Reproducibility Policy, presented by Dr. Michelle Benson and myself, you’ll know that this is an area NIH is most interested in. I want to highlight this from the announcement: “For the purpose of this administrative supplement (and within the scope of the parent application), the following approaches are considered responsive to the intent of the supplement: (*) Add the Opposite Sex/Gender: The addition of animal or human subjects, tissues or cells of the sex opposite to those used in the parent grant to allow sex/gender-based comparisons. Applicants should discuss measures to ensure comparability of new data to data already collected under the parent grant.; (*) Increase Sample Size: The addition of more animal or human subjects, tissues or cells to a sample which already includes both males and females in order to increase the power of a study to analyze for a sex/gender difference. Applicants should discuss methods used to ensure control of potential cohort differences related to the new data compared to data already collected.; (*) Conduct New Experiment or Comparative Analyses: Developing new experimental approaches, comparative analyses of existing samples or datasets to investigate the role of sex/gender. Applicants should explain how the proposed experiments or analyses expand specific aims already funded under the parent grant.”; For questions pertaining to your specific research project, NIH is encouraging you reach out to the Scientific/Research Contacts, listed here: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-17-078.html#Section_VII_Agency; Also, feel free to reach out to your assigned SPA Project Officer for questions concerning the supplemental request submission process. Thank you. [brought to our attention by] Stephanie F. Scott, MS, CRA; Communications and Outreach Director; Columbia | Research; Phone: (212) 854-0606; Cell Phone: (646) 248-8573; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/; Feed: NIH Funding Opportunities (Notices, PA, RFA); Posted on: Monday, December 12, 2016 1:27 AM; Author: NIH Funding Opportunities (Notices, PA, RFA); Subject: Administrative Supplement for Research on Sex/Gender Influences (Admin Supp); Funding Opportunity PA-17-078 from the NIH Guide for Grants and Contracts. The Office of Research on Women’s Health (ORWH) announces the availability of administrative supplements to support research highlighting the impact of sex/gender influences and/or sex and gender factors in human health and illness, including basic, preclinical, clinical and behavioral studies. Of special interest are studies relevant to understanding the significance of biological sex on cells and tissue explants; comparative studies of male and female tissues, organ systems and physiological systems; sex-based comparisons of pathophysiology, biomarkers, gene expression, clinical presentation and prevention and treatment of diseases. The most robust experimental designs include consideration of both sex and gender; therefore, applications proposing to investigate the influence of both sex and gender factors are highly encouraged. The proposed research must address at least one objective from Goals 1 through 3 of the NIH Strategic Plan for Women’s Health Research.; View article...

Translational research is broadly defined as research that will provide a scientific link between laboratory research and the clinic. Ultimately, such research would lead to improvement in diagnosis, prognosis, prevention, or treatment of the cancer. The Foundation is pleased to invite your institution to submit
one grant proposal. Your grant proposal will be reviewed by a Scientific Research Review Committee. The Research Review Committee is composed of noted members of the American medical and scientific community. It is our hope that you will identify and encourage the appropriate person within your Institution to complete the application. Only one grant application will be accepted from each accredited medical school. The grant will be up to $100,000 (combined direct and indirect costs) for a two-year period. If indirect costs are requested, they cannot exceed 15%. If selected, the funds will be paid in two payments. The first payment will be after receipt of the executed contract. The second payment will be mailed following receipt of the first year status report. The Foundation anticipates funding between ten and fifteen grants. To submit the grant application, please visit this link: http://support.marykayfoundation.org/grants The application must be completed no later than 5 p.m., CST, Friday, February 3, 2017.; Please feel free to call me if you have any questions. You can call me directly at (972)-687-5734 or contact the Foundation at (877)-652-2737 or mkcares@marykayfoundation.org; Sincerely, Michael L. Lunceford; President; The Mary Kay Foundation

**Additional Information:** Contacting Staff at the NIH Institutes and Centers: In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information.; See Who At NIH Can Answer my Question About….?; Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. **Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odoh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the SPA website should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.

Reminder: NIH & AHRQ Grant Application Changes for Due Dates on or After January 25, 2016
Sponsor: NIH; AHRQ;
Deadline(s): 01/25/2016 – 05/24/2016; Please read the reminder notice from NIH and AHRQ regarding the use of forms and application guidelines for proposals due on and between Jan. 25, 2016 and May 24, 2016.;

Regarding new application requirements and review language submitted on or after January 25, 2016:

Until the spring.; You may want to pay particular attention to the following changes, effective for applications submitted on or after January 25, 2016: (*) There will be new application requirements and review language regarding enhanced rigor and reproducibility (We’ll be elaborating on these requirements in a separate upcoming post.); (*) We will ask for less information in the vertebrate animal section of the application, to remove redundancy with information already included in IACUC reviews. (Some of this information will be shifted to the research strategy section.); (*) We are updating the NIH policy on inclusion of children to lower the age designation for children to include those under 18 years old. (The current age designation for children includes all research subjects under 21 years old.); (*) For training grants, information requirements will change and lower applicant burden; For due dates of May 25, 2016 and beyond, we will require use of new application forms (FORMS-D). We will remind you again this spring, but please understand that it is imperative that you submit your application on the right form package to ensure successful submission.; We will reissue fellowship, career development, training and all parent funding opportunity announcements this spring, to ensure the announcements include instructions that match the form requirements. We’ll also make a variety of resources available this spring to help ensure you submit using the right forms.; If you have been using the Grants.gov downloadable forms and haven’t tried ASSIST yet, members of my staff (the electronic Research Administration or eRA) are working on enhancing the copy application feature to make it even easier to move your application (including attachments) from one form version to another. During the last round of grant applications, over 25% of the applicants switched from using downloadable forms to ASSIST. They successfully submitted their applications on the first try over 90% of the time compared with only 60% of the time for those still using the standard downloadable forms.; So be on the lookout for new application instructions we will release at the end of November, and for more communications from us as we get closer to the time we move to FORMS-D;

NIH & AHRQ Announce Transition to New Research Training Table Formats for 2016 and Upcoming Release of the xTRACT System;

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIHTrain@mail.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-007.html;

Additional Information: This Notice serves to announce the availability of new research training data tables for use with FY 2016 institutional training grant applications and research performance progress reports (RPPRs). Table formats, instructions, and a completed set of tables with sample data may be found on the NIH website at: http://grants.nih.gov/grants/funding/424/datatables.htm; Where specified in the Funding Opportunity Announcement for a program, these tables may also be used in institutional career development and research education applications and RPPRs.; Background and Related Information: In keeping with the recommendations of NIH’s Advisory Committee to the Director’s Working Group on the Biomedical Research Workforce, we plan to introduce an electronic system, xTRACT, for creating research training data tables and storing the information reported in those tables. xTRACT is expected to be available for users to access via the eRA Commons beginning October 16, 2015.; In conjunction with the development of xTRACT, and to implement related recommendations from the Working Group, we have revised existing research training data tables to: (*) Reduce the number of tables from 12 to 8; (*) Minimize the reporting of individual-level information; (*) Extend the tracking of trainee outcomes from 10 to 15 years; Where possible, existing data will be used to pre-populate the xTRACT system, including trainee names and selected characteristics, institutions, grant numbers, and subsequent NIH, AHRQ and other HHS awards;
and assignment of applications; Fields included in the new form: (*) PHS Awarding Component (including NIH Institute/Center (IC) Requests), both positive ("assign to") and negative ("do not assign to"); (*) Study Section or Special Emphasis Panel Requests, both positive and negative; (*) List of potential reviewers in conflict, and why; (*) List of scientific expertise needed to review the application; The form is optional, and use of the form does not require completion of all fields in the form. For example, an applicant may wish only to request a specific awarding component or study section assignment and leave the other fields on the form blank.; The PHS Assignment Request Form complements the Cover Letter Attachment on the SF 424 (R&R) form. Although NIH will no longer check the Cover Letter Attachment for requests pertinent to the assignment and review of applications, the Cover Letter Attachment still may be used to communicate a variety of other issues, as specified in application guides (e.g., reason for late submission);

NIH & AHRQ Change Font Guidelines for Applications to Due Dates On or After May 25, 2016
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): Release Date: 10/13/2015; For Applications to Due Dates On or After May 25, 2016; 05/25/2016;
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); Telephone: 301-435-0714;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-009.html;
Additional Information: This notice informs the biomedical and health services research communities of additional flexibility regarding the fonts used in PDF attachments included in grant applications; For applications submitted for due dates on or after May 25, 2016, the following new guidelines apply: Text in PDF attachments must follow these minimum requirements: (*) Font size: must be 11 points or larger (smaller text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); (*) Type density: must be no more than 15 characters per linear inch (including characters and spaces); (*) Line spacing: must be no more than six lines per vertical inch; (*) Text Color: must be black (color text in figures, graphs, diagrams, charts, tables, footnotes and headings is acceptable as long as it is legible); Since some PDF converters may reduce font size, it is important to confirm that the final PDF document complies with the font requirements.; The following fonts are recommended, although other fonts (both serif and non-serif) are acceptable if they meet the above requirements: (*) Arial; (*) Garamond; (*) Georgia; (*) Helvetica; (*) Palatino Linotype; (*) Times New Roman; (*) Verdana; Legibility is of paramount importance. Applications that include PDF attachments that do not conform to the minimum requirements listed above may be withdrawn from consideration.;

Inclusion of Children in Clinical Research: Change in NIH Definition;
Sponsor: National Institutes of Health;
Deadline(s): NA Release Date: 10/13/2015;
Contact: Please direct all inquiries to: NIH Inclusion Policy Officer; Office of Extramural Research (OER); Telephone: 301-435-7124; Email: inclusion@od.nih.gov;
Link(s): http://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-010.html;
Additional Information: The purpose of this notice is to notify NIH applicants/offerors and grantees/contractors about a change related to the NIH policy on the inclusion of children in clinical research. NIH’s long-standing policy has been that children must be included in all human subjects’ research, conducted or supported by the NIH, unless there are scientific and ethical reasons not to include them. The policy was developed because medical treatments applied to children are often based upon testing done only in adults, and scientifically evaluated treatments are less available to children due to barriers to their inclusion in research studies. Therefore, applicants / offerors conducting human subjects’ research must include a description of plans for including children. If children (or a subset of children) will be excluded from the research, the application or proposal must present an acceptable justification.; What’s Changing: Starting with applications/proposals submitted for due dates on or after January 25, 2016, for the purposes of inclusion policy, the age of a child will be defined as individuals under 18 years old instead of under 21 years old, the current NIH definition of a child for inclusion policy.
Implementing Rigor and Transparency in NIH & AHRQ Research Grant Applications;
Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;
Contact: Please direct all inquiries to: reproducibility@nih.gov;
Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new "Authentication of Key Biological and/or Chemical Resources" attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources.; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, S21, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised review language; please refer to the Funding Opportunity Announcement; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

**Additional Information:**

Dear All, The federal fringe rate changed from 28.2% to 27.1% for FY16. Please see below for details. The new DHHS Rate Agreement, dated 9/21/2015, has been posted to the Sponsored Projects Administration (SPA) website, and can be found at http://spa.columbia.edu/proposals/institutional-information; If you are currently working with your Project Officer on an upcoming proposal submission, (s)he can advise on the budget preparation for the submission. If you are currently working on a proposal in the system next Monday, Budgets will automatically adjust in InfoEd to reflect the new rate for proposals submitted Monday and thereafter.; As always, please feel free to contact your assigned Project Officer, or SPA-eBiz@columbia.edu; if you have specific questions concerning InfoEd.; Thanks: Rosa [Rivera, Director, Sponsored Projects Administration]; To all Budget Tool users, FY16 Fringe Rates: (*) For salaries charged to government grants and contracts, the FY16 fringe rate is 27.1%; (*) For salaries charged to all other funding sources, the FY16 fringe rate is 30.5%; (*) For student employees (less than half-time or matriculated enrolled in a degree-granting program), the FY16 fringe rate is 8.15%; [emphasis added]; The Budget Tool has been updated with the new government fringe rates and the new fringe benefit assessments have been calculated in the Payroll module. Although the overall fringe assessment on non-government grant accounts is not changing, the split between accounts 59010 and 59020 will shift.; The lower fringe rate for government grants and contracts will require users to review their grant projections and make necessary adjustments. [emphasis added]; Users will need to apply these changes to update their FY16 current estimate and future year budgets. Next Steps: When you open the Budget Tool, a message that says “You have unapplied payroll changes” will appear. You must apply and confirm these amounts from the Payroll module and then have them approved before the transaction will post to ARC. If you have any questions, please contact the Finance Service Center. You can log an incident or request a service by using a self-service web form, or you can contact the Service Center by phone at (212) 854-2122 Monday, Tuesday and Thursday, 9:00 am – 5:00 pm; Wednesday 9:30 am – 5:00 pm; Friday 9:00 am – 4:00 pm.; Thank you; The Budget Tool Team;

Sponsor: HHS; Department of Health and Human Services;
National Institutes of Health; John E. Fogarty International Center

NIH seeks research applications to study Zika in pregnancy, developing fetus;
Dear Colleagues,

By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding. Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the eRA Commons Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/.

Reminder-eRA Commons IDs and Complete Profiles
Required for Students and Postdocs;

Additional Information: This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.; Please share this information with your students and postdocs who are supported on NIH grants. **Additional Information:** Formula for Innovation: People + Ideas + Time; Posted on July 17, 2014 by Sally Rockey and Francis Collins; In these times of tight budgets and rapidly evolving science, we must consider new ways to invest biomedical research dollars to achieve maximum impact—to turn scientific discoveries into better health as swiftly as possible. We do this by thinking strategically about the areas of research that we support, as well as the process by which we fund that research. .... We often hear from investigators at all career stages that they spend a significant portion of their careers writing grant applications, consuming precious time that could otherwise be spent conducting research. .... Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to [http://grants.nih.gov/searchGuide/ComplexOnly.cfm](http://grants.nih.gov/searchGuide/ComplexOnly.cfm). If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: [http://spa.columbia.edu/electronic-systems/assist](http://spa.columbia.edu/electronic-systems/assist). Thank you; **Stephanie F. The Columbia University Medical Center IRB Office has a standing “IRB Consultation Hour”. This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb/
Researchers may also call in during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu;

Additional Information: Dear Colleagues: The Office of the Executive Vice President of Research (EVPR), including the Office of Postdoctoral Affairs, and the Graduate School of Arts and Sciences (GSAS) are pleased to announce the introduction of an individual development plan (IDP) program for National Institutes of Health (NIH)-funded graduate students and postdoctoral researchers (postdocs). An IDP consists of a self-assessment of skills, interests and values that guides the development of short and long term plans to achieve career goals. In 2012, the NIH published a task force report on the current state of the biomedical workforce which found, among other things, that universities need to better prepare biomedical graduate students and postdocs for a broad range of career opportunities beyond academia. As one of a number of initiatives designed to address the recommendations of the task force, the NIH issued a policy, released on July 23, 2013 and revised on August 4, 2014 (http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-113.html), that does not require, but strongly encourages recipients of NIH awards to develop and use IDPs for graduate students and postdocs supported by the NIH. In addition, the revised policy provides that, beginning on October 1, 2014, annual progress reports relating to NIH awards must include a description of whether or not the institution uses IDPs and how they are employed to help manage the training and career development of graduate students and postdocs associated with such awards. The University’s IDP program will begin later this month and will include seminars on topics relating to the development of an IDP. Optional workshops will assist participants in completing an IDP. Career panels and networking events will be held to offer opportunities for participants to learn more about potential career options and the skills and experiences needed to gain employment in a wide array of fields. Complete IDP program details, including registration information, can be found at https://www2.gsas.columbia.edu/idp. Faculty members should strongly encourage their NIH-funded graduate student and postdocs to register and participate in the IDP program. A description of the Columbia IDP program to be utilized in progress reports can be found at
https://www2.gsas.columbia.edu/idp/node/3#summary. [NIH-Investigators] Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;

Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.; Complete eRA Commons profiles are just as important as the ID itself. NIH can reject the progress report if the following fields are not complete in the profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the

**REVISED:** New Biosketch Format Required 5/25/15;

So, here's a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g., Credential for PD/Pis and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!

...and the key message is:

**Don’t Forget the eSubmission Basics**

I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

**Impact of Biosketch Pilot on Non-pilot Applications**: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

**Non-standard Characters in Form Fields**: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors - they often convert your plain text to rich text (e.g. Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into one long em-dash.) Also, keep your text as simple as possible. The following characters are typically ‘safe’: letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tildes, exclusion points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.
Submitting Applications with more than 5 Budget Periods:
Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

Transition to FORMS-C To Complete in August: If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

CYA: Cover Your Application - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

[NIH-Investigators] Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.
If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed.

Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

**RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014**
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. ... Continue reading →

**Promoting Research Integrity: Building the Foundation of Trust**
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. You Ask, We Answer:

Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?

What is the Deadline for Resubmitting my Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_qa.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html

Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

**Additional Information for the two above mentioned announcements:** This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing, continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.0l3doSVZ.dpuf; http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-103.html#sthash.q3dTkMY2.dpuf;

FEDERAL FUNDING TRAVEL POLICY

[NIH-Investigators] New Policy on Fly America Act;
Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy.

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC

FY16 DOD BCRP, PRP, PRARP and ERP Program Announcements; This e-mail is to notify the research community of the recently released Fiscal Year 2016 (FY16) funding opportunities for the Department of Defense (DOD) Breast Cancer Research Program (BCRP), Parkinson’s Research Program (PRP), Peer Reviewed Alzheimer’s Research Program and Epilepsy Research Program (ERP) managed by the office of Congressionally Directed Medical Research Programs (CDMRP); Breast Cancer Research Program; Breakthrough Award Levels 3 and 4; NOTE: A Breakthrough Award Levels 1 and 2 Program Announcement will be released in late August 2016.; Parkinson’s Research Program (formerly known as the Neurotoxin Exposure Treatment Parkinson’s Research (NETPR)); Focused Idea Award; Impact Award; Peer Reviewed Alzheimer’s Research Program; Convergence Science
Program; award negotiations and period of Health Affairs, https://eBRAP.org/—specific affect the general population but have a (New for –http://www.grants.gov—s for accuracy as well as Contact Deadline(s) Program Department of Defense Peer Reviewed Cancer Research Program; Please do not respond ensure proper ordering as specified in this Program Submission is a two—application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://ebrap.org/); All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website (http://cdmrp.army.mil/); Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both (1) pre-application submission through the electronic Biomedical Research Application Portal (eBRAP) (https://eBRAP.org/) and (2) application submission through Grants.gov (http://www.grants.gov/). Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov.; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization’s representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant’s responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.; Please do not respond directly to this message. **Sponsor:** [http://spa.columbia.edu/](http://spa.columbia.edu/);  
**Deadline(s):** NA  
**Contact:** Should you have any questions about the Policy or forms, please feel free to contact your assigned SPA Project Officer.;  

**Additional Information:** Sent on behalf of Sponsored Projects Administration (SPA) and Research Policy & Indirect Cost (RPIC); Dear Colleague, We are writing to announce the release of the revised Sponsored Project Subawards Policy, which can be found in the Administrative Policy Library here. This Policy was recently revised to reflect the provisions of the Uniform Guidance.; Principal Investigators (PIs) are required to properly monitor the progress and spending of subrecipients as specified under the rules in the Uniform Guidance. To ensure compliance with these provisions, key changes in the revised Policy include new forms to be submitted to Sponsored Projects Administration (SPA) during proposal review, and a new process to determine a subrecipient’s risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward.; The following sections summarize the key changes to the Policy;
