**Link(s):** https://www.publichealth.columbia.edu/people/our-faculty/faculty-awards/centennial-grand-challenges  
**Additional Information:** Dear Colleagues, During last month’s School Assembly, I was delighted to share that as part of Columbia Mailman’s Centennial, that we would soon be accepting applications for our Centennial Grand Challenges. The purpose of the Grand Challenges RFA is to spur the needed interdisciplinary team development and discovery to tackle some of the most critical public health challenges of this century. After consultation with faculty and members of the school community, we have identified these specific areas of focus as priorities: [1] Growing health inequities with high rates of obesity and chronic disease; [2] The health impacts of climate change; [3] Aging populations and longer lives that could be healthy but are not; [4] The inadequacy of food systems; [5] The global mental health crisis; [6] The likelihood of increased rates of future pandemics. I am pleased to announce that the website for our Centennial Grand Challenges has launched, and we are now accepting applications to this RFA. We are cognizant that our faculty may identify challenges not noted and we are therefore not limiting the call to these topics. I hope you will take advantage of this opportunity for the Centennial Grand Challenges RFA. All full-time faculty holding primary appointments in one of the School’s Departments or Centers are eligible. The deadline is 5 p.m. on Friday, February
Friday Newsletter 12/17/2021

18, 2022.; To apply, please complete this downloadable form, word document. ; Applications and all supporting documentation should be forwarded to Craig Kandell, Project Coordinator, ckk7@cumc.columbia.edu.; We look forward to receiving your submissions.

**Additional Information:** Applications open for KL2 Career Development Award; Columbia | Irving Institute for Clinical and Translational Research; KL2 Award Application; The KL2 Mentored Career Development Award combines didactic training, mentoring, exposure to multidisciplinary research, and ongoing evaluation to prepare young investigators for careers in patient oriented research (POR). The award serves as a "bridge" by which young junior faculty can achieve research independence. KL2 scholars complete a rigorous training program that guarantees exposure to a wide range of clinical and translational research methods in both classroom and experiential settings.; The KL2 program places special emphasis on multidisciplinary and interdisciplinary research, which must be reflected in the research, training, and team mentorship plans. By “team mentorship,” we mean that each applicant must identify KL2 mentors from at least two different disciplines to supervise his/her research progress during the period of the award.; Deadline: December 20, 2021; For complete details visit our web-page ; National CTSA: Career Development; The CLIC Career Development Community is an interactive space available to the CTSA Program and greater
translational science community where individuals can collaborate, network, and share ideas with their peers from across the consortium.; Three Focus Areas: KL2 Scholars, TL1 Trainees, & Clinical Research Professionals (CRPs); Each Focus Area includes: a message board; highlighted resources and activities; searchable user list to foster communication, networking, and collaboration; Questions? education@clinc-ctsa.org; ctwaedu@cumc.columbia.edu ; The typical duration of the KL2 award is two years, initially awarded as a one-year grant but renewable annually based on performance and renewal of the Irving Institute’s CTSA grant from NIH. Extensions beyond two years are possible but rare. (After two to three years as a KL2 scholar, individuals are still eligible for K awards from the NIH in most cases. Note that each NIH institute has its own policy on this issue and the institute should be consulted for clarification.); For complete details visit our web-page

University systems are currently being updated to accommodate the new rates. If you have any questions, please reach out to Fabrizio Carucci at fc2586@columbia.edu or Kristi Bazata at klv2102@columbia.edu or your project officer in SPA; Columbia | Research | Office of the Executive Vice President for Research

The memo is posted on our Institutional Information Page here:

https://research.columbia.edu/institutional-information

However, the actual rate agreement itself is not available yet. We are allowed, though, to use these new rates when preparing proposal budgets. The rate agreement itself will not be available for a few weeks.

Therefore, you need to rely on this memo, and speak with a SPA Project Officer if you have specific questions about how to use the new rates for proposal budgets.

Additional Information: 10th Annual Regeneron Prize for Creative Innovation; Deadline: March 7; Mission: To recognize and honor Excellence in Biomedical Science conducted by graduate students and postdoctoral fellows; Prize details: One (1) graduate student and one (1) postdoctoral fellow are selected to receive the Regeneron Prize for Creative Innovation each year. Each winner receives a check for $50,000. Finalists are each awarded $5,000. In addition, the home institution of the winners will each receive a $5,000 donation to support the institution’s seminar series. Approximately 8-10 applicants will be selected for finalist status. Finalists may be invited to visit Regeneron for the onsite competition, travel expenses paid.; Nominations: Each institution may nominate no more than two (2) PhD students and two (2) postdoctoral fellows. Each submission must include a signed institutional endorsement form, see attached. Applicants must prepare a description of their “dream” project and submit their full academic CV along with evidence of scholarly achievement. The proposal must be no more than two single-spaced pages (no smaller than 10-point font). References do not need to be included within the two-page limit, but any figures, etc. should be. Note that preliminary data is not necessary. ; The proposal should clearly define a specific experiment or series of experiments, and include a rationale, basic methodology/design (citing literature is fine), and discussion of how the experiment’s results would advance the field. ; Complete applications will include the following: Full academic CV; Institutional endorsement form signed by applicant and institutional endorser; Dream Project (up to 2 pages not including references, no smaller than 10-point font); Publications as evidence of scholarly achievement; All applicants will be asked to certify that the “dream” project proposal submitted is their original idea and does not appear in any publication or grant application where they are not the principal investigator. Project proposals found to the contrary may be disqualified. Please also note that joint/team proposals are not eligible to be submitted for the Regeneron Prize. Regeneron reserves the right to not award a prize if the judges decide that no application meets the requirements or standards.; Nominees should submit their online applications through Avature.; Contact science.education@regeneron.com with questions. Deadline for submissions is Monday March 7th, 2022.

NIH Operates Under a Continuing Resolution
Sponsor: National Institutes of Health
Deadline(s): 12/15/2021 (Release Date)
Contact: Questions regarding adjustments applied to individual grant awards may be directed to the Grants Management Specialist identified in the Notice of Award.
Additional Information: The Department of Health and Human Services (HHS), including National Institutes of Health (NIH), operates under the Further Extending Government Funding Act (Public Law 117-70) signed by President Biden on December 3, 2021. This Act (CR) continues government operations through February 18, 2022 at the FY 2021 enacted level, with no reduction. Continuing the procedures identified under NOT-OD-21-058 and consistent with NIH practices during the CRs of FYs 2006 - 2021, NIH Institutes and/or Centers may, at their discretion, issue non-competing research grant awards at a level below that indicated on the most recent Notice of Award. Upward adjustments to awarded levels will be considered after FY 2022 appropriations are enacted, but NIH expects institutions to monitor their expenditures carefully during this period. All legislative mandates that were in effect in FY 2021 (see NOT-OD-21-056) remain in effect under this CR, as well as the salary limitation set at Executive Level II of the Federal Pay Scale (see NOT-OD-21-057) and the Ruth L. Kirschstein National Research Service Award predoctoral and postdoctoral stipend levels and tuition/fees as described in NOT-OD-21-049.

**Additional Information:** Last week, the NIH implemented new system validations for Research Performance Progress Reports (RPPR) for clinical trial registration and results reporting. RPPRs that have associated clinical trials that are non-compliant with these requirements will receive errors preventing submission of the RPPR. See NOT-OD-22-008 for more details. As a reminder, failure to register or report results data for an Applicable Clinical Trial (ACT) as per FDAAA 801 and the Final Rule or the NIH Policy on the Dissemination of NIH-Funded Clinical Trial Information can result in immediate suspension or termination of funding, monetary civil penalties of up to $10,000 per day of non-compliance, criminal or civil prosecution, and/or a permanent notice of non-compliance publicly posted on the ClinicalTrials.gov record for a study. Of note, the FDA issued its first Notice of Noncompliance to an individual investigator conducting a trial sponsored by an academic institution. The Principal Investigator (PI) failed to submit required results data to ClinicalTrials.gov. As a result of this noncompliance, the ClinicalTrials.gov record for the study will be permanently marked with and searchable by the “FDAAA 801 Violations” field, even though results were posted a day after the Notice was issued. The requirements for registration and results reporting are as follows: Applicable studies must be registered no later than 21 days after enrollment of the 1st participant (i.e., date of when the 1st participant signs a study consent form). Results information for applicable studies must be submitted to ClinicalTrials.gov no later than one year after primary completion date (with limited exceptions) for the primary outcome measure, and one year after the study completion date for all other outcome measures, including safety data. If you require assistance with ClinicalTrials.gov registration or results reporting, please contact the University’s system administrators at ClinicalTrialsGov@cumc.columbia.edu. **Additional Information:** Sending on behalf of the Office of Research Compliance and Training, in collaboration with the Office of Postdoctoral Affairs. Please send all questions about this series to Shawna Benston at RCTraining@columbia.edu. These series of presentations are not just for postdocs, but for anyone interested, campus-wide. The Office of Research Compliance and Training, in collaboration with the Office of Postdoctoral Affairs, is offering our five-part series, "Responsible and Ethical Conduct of Research Training for Postdocs", starting in October. **Please note: This series is NOT limited to postdocs—we welcome anyone interested in any or all of these topics!** For postdocs, each of the training sessions will fulfill one of the eight required hours of RECR training for NIH.** At least the first two events will be conducted online via Zoom (more information on the final two events forthcoming). All events will feature experts in the following RECR-relevant subject areas: collaborative research, conflict of interest, ethics, science and security, issues of race in research ethics, and more. ; Please note: postdocs may earn up to five hours of RECR credit by attending all of the presentations listed below (the one in December will count for two hours). In order to fulfill the remaining hours of the RECR training requirement, please consult our RECR training site; Even if you do not require RECR credit, anyone is welcome to attend any of the sessions below; **These RECR credit hours do not replace required RECR training for T32 trainees;** Register for any or all of the sessions below: November 15, 1 - 2:30pm: Navigating Relationships with Industry. A faculty panel will discuss their experiences collaborating with industry, successful commercial licensing, and starting their own companies. Featuring: Andrew Lassman (John Harris Associate Professor of Neurology); I. John Kymissis (Professor of Electrical Engineering; Co-Director, Maker Space Facility); Darcy Peterka (Senior Research Scientist in the Mortimer B. Zuckerman Mind Brain Behavior Institute; Director of Cellular Imaging in the Mortimer B. Zuckerman Mind Brain Behavior Institute); Ofra Weinberger (Director of Licensing Associate VP for IP and Tech Transfer); Moderated by Michael Klein (Director of Research Compliance, Columbia Office of Research Compliance and Training); December 16, 1 - 3pm: Ethics, scientist as a responsible member of society, issues of race in research ethics. Featuring: Robert Fulfilove (Professor of Sociomedical Sciences, CUIMC; Associate Dean, Community and Minority Affairs, Mailman School of Public Health); Harriet Washington (writer and medical ethicist; Lecturer in Professional Studies, Columbia School of Professional Studies); Hilda Hutcherson (Professor of Obstetrics and Gynecology, CUIMC; Senior Associate Dean for Diversity and Multicultural Affairs; College of Physicians and Surgeons); J.C. Hallman (Adjunct Assistant Professor of Writing, Columbia School of the Arts); Michelle Browder (artist and activist); (Save the date) February 2, 12 - 1:30pm: Science and Security. Featuring: Naomi Schrag, Vice President for Research Compliance, Training, and Policy; April 2022 (exact date and time TBD): Publishing Ethics. In collaboration with Columbia Health Sciences Library.; Stay tuned for more information about and registration links for the remaining two training sessions, which will be held in Spring 2022.; Questions? **Sponsor:** https://nexus.od.nih.gov  
**Deadline(s):** 09/24/2021 (Release Date)  
**Contact:** ExtramuralNexus@mail.nih.gov  
**Additional Information:** By Mike Lauerm; When the public health emergency was first declared, NIH, working with OMB and HHS, quickly identified a long list of flexibilities to support the research community. The list has evolved since the pandemic began, so we would like to take this opportunity to remind the community of many of the current flexibilities we have in place.

**Additional Information:** By Mike Lauer; There has been a lot of focus on early stage investigator (ESI) extension requests in the community recently. And we certainly understand why. The experience of the COVID-19 public health emergency has brought into sharp focus that the effects of the pandemic on careers and life in general may continue for years to come. This fact has led us to revisit our approach to granting ESI extension requests.

**Additional Information:** Apgar Academy Call for Applications: 2022 Vanneck-Bailey Scholar Award; Columbia Vagelos College of Physicians and Surgeons; Apgar Academy of Medical Educators; 2022 Vanneck-Bailey Scholar Award; Call for Applications; The Virginia Apgar Academy of Medical Educators of the Vagelos Columbia University College of Physicians and Surgeons seeks applications for the Vanneck-Bailey Scholars Program, now in its seventh granting year. The award is conferred on a VP&S faculty member who will create and develop new educational programs for medical students that will “ensure that VP&S students are among the finest physicians entering the profession, skilled in the knowledge and practice of medicine and modeling compassionate, humanistic care to all patients.” This $40,000 amount is to be committed to salary and fringe support to give the scholar protected academic time for accomplishing the project. Applications are due by Friday, January 14, 2022.; Nominations must include: Statement of the proposed project: The proposed project must be directly related to undergraduate medical education at VP&S. It must be a project that will have a significant, demonstrable impact on medical student education. The statement must include background information about the project with at least three references, proposed methodology, plan for implementation, timeline, and proposed methods for evaluation (2 – 4 pages in length); Personal statement: The personal statement should outline the applicant’s credentials as a medical educator and scholar, including their track record of completed scholarly projects and career trajectory in medical education. The statement must also indicate the applicant’s...
willingness to report on the project to the Apgar Academy members and guests at the end of the year in the Vanneck-Bailey Presentation (2 – 3 pages in length); *Letter of nomination from the department chair:* In addition to information about the nominee’s credentials, this letter must indicate that, if selected, the nominee would have protected time for the project and would use the salary support for this purpose; *Letter from Vice Dean of Education, Associate Dean for Curriculum, course director, or clerkship director indicating that the project has been approved for inclusion in the curriculum* if the project would result in a course for VP&S students.; *Nominee’s current CV* – please use enhanced CV template to outline all educational activities.; The Vanneck-Bailey Scholars Program is executed and administered by the Virginia Apgar Academy of Medical Educators, and Vanneck-Bailey Scholars are encouraged to approach academy members as mentors. One Vanneck-Bailey Scholar will be chosen per academic year. Deadline for applications is Friday, January 14, 2022. Please contact Renée Russas rs3970@cumc.columbia.edu with any questions.

**Additional Information:** Apply for the 2022 RISE Competition; Dear Colleagues, We invite you to apply to the 2022 Research Initiatives in Science and Engineering (RISE) competition. Via a one to two year annual award of $80k, RISE seeds innovative, interdisciplinary, high-risk, and potentially high-impact research collaborations that are not ready to secure funding through conventional sources. All Columbia-employed, full-time researchers eligible to serve as Principal Investigators may apply for this internal seed funding opportunity, albeit with seven important restrictions and recommendations: **PIs and Co-PIs currently funded by the RISE program may not submit applications; Applications must be fully collaborative and must include at least two Lead PIs.** Applications from only one PI, or who name a Lead PI who is not a full-time Columbia faculty member, RISE will reject;
At least one of the two PIs must be a researcher from a scientific, engineering, and/or medical discipline; Applications from PIs that span two or more schools and departments are strongly encouraged; Applications from PIs that have never previously collaborated are preferred; Proposed projects must not have received support from Columbia’s other seed funding programs; Multiple applications from the same PI are discouraged. **About RISE:** RISE supports projects that conventional funding sources perceive as too risky or unfamiliar. RISE provides up to $80,000 for one year – with potential for a second year of funding – to enable researchers to produce the preliminary data and establish an initial proof of concept before submitting the proposal to government agencies, private foundations, and/or for-profit companies. Therefore, you should not submit proposals currently suitable for submission to such conventional mechanisms to RISE. The most frequent reason reviewers reject RISE proposals is that they believe that the project appears ready for conventional review; Since its inception in 2004, the RISE competition has provided approximately $13.3 million in seed funding to 89 project teams. Consonant with the high risk/high reward objective of RISE, approximately half the projects fail to prove out. However, the half that succeed have subsequently won over $78 million in extramural grants or a nearly six-fold return to our research community; Last year’s 2021 competition received 37 applications. RISE advanced thirteen to the secondary stage of consideration, and awarded funding to six teams. 102 Columbia faculty participated as peer reviewers of the applications; **Other Internal Seed Funding Programs:** The RISE competition is one of multiple seed funding programs internal to Columbia University. Should the project you are conceptualizing not fit within RISE’s purview of early-stage, discovery research, we encourage you to review other internal programs, which are identified via my Office’s webpage: [https://research.columbia.edu/content/internal-seed-funding](https://research.columbia.edu/content/internal-seed-funding); **How to Apply:** To apply for the 2022 RISE competition, please submit your application via InfoReady by 5:00 p.m. EST on Monday, October 18th, 2020. Internal peer review committees composed of researchers across the University review all complete and eligible applications. All eligible applications will receive anonymized feedback relayed by the RISE administrator team.; We invite a small handful of the very strongest applications to submit a four-page Round 2 proposal by January 2022. RISE awards up to six teams from Round 2 by Spring 2022.; For more information pertaining to the RISE program, including a list of Frequently Asked Questions and past awarded teams, please visit the website at [www.columbia.edu/rise](http://www.columbia.edu/rise). You may also refer to the sample Evaluation Form that reviewers will use when evaluating applications, which is attached to this email; With questions about the RISE competition or how to design the strongest application, please email rise@columbia.edu.; Sincerely, Jeannette M. Wing; Executive Vice President for Research

Columbia led this effort. We encourage you to apply. New York State Spearheads Defense Against the Next Pandemic by Launching a $40 M Biodefense Fund for Startups and Academic Researchers. Applications are now available for New York State’s new $40 million Biodefense Commercialization Fund that will provide grants of as much as $4 million to startups and academic research projects to help accelerate the development and commercialization of life science research that addresses serious
infectious disease threats, including COVID-19 and its variants. Eligible companies that are developing promising diagnostics, therapeutics, vaccines, and other innovations to prevent, treat or mitigate serious infectious disease threats may apply for grants of up to $4 million. New York’s academic research institutions will be able to apply for grants of up to $500,000 to help fast track advanced intellectual property that is on the cusp of moving to a commercial phase and university exit. An emphasis will be placed on supporting the development of innovations with the highest potential for commercial viability.; To submit an application or learn more about the Fund, please visit the program’s website at https://esd.ny.gov/biodefensefund, or email BiodefenseFund@esd.ny.gov

[NTW] [NIH ANNOUNCEMENTS/COVID-19]
Clarification and Guidance for Applicants Preparing Applications for the Fall 2021 Due Dates During the COVID-19 Pandemic

Sponsor: Office of the Director, NIH
Deadline(s): 08/25/2021 (Release Date)
Contact: NIH Review Policy Officer; ReviewPolicyOfficer@mail.nih.gov

Additional Information: Last week, NIH issued announcement NOT-OD-21-180, which provides additional guidance related to COVID-19 for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings. Please see text of the announcement below, especially highlighted section.; Purpose: The NIH remains firmly committed to supporting the biomedical research enterprise as the nation implements the President's Guidelines for Re-Opening America Again. The purpose of this Notice is to clarify the guidance provided earlier NOT-OD-21-026, for applicants preparing applications for the May 2022 Council round, beginning with the September 25, 2021 due date for Spring 2022 initial peer review meetings.; Reviewers will continue to receive instructions to assume that constraints arising from the COVID-19 pandemic (e.g., lab occupancy restrictions, declines in patient accrual, etc.) will be resolved during the project period and thus should not affect their scores.; Therefore, NIH grant applications should NOT include contingency or recovery plans for problems resulting from the COVID-19 pandemic. However, applicants may address effects due to the pandemic on productivity or other scoreable issues in their Personal Statement in the NIH Biosketch. Reviewers will be instructed to take these pandemic-related circumstances into account when assessing applicants’ productivity and other score-driving factors.; As with previous instructions, if needed, NIH staff will request and assess plans to resolve specific problems arising from the COVID-19 pandemic prior to funding.; [brought to our attention by] Stephanie F. Additional Information: NIH recently released new clarifications for the Other Support format pages and Biographical Sketches. Key clarifications include:

- Signatures are not required on the Other Support format pages until January 25, 2022, regardless of whether you use the old or new formats.
- Completed support from the last three years is no longer required in Other Support. Only include active and pending projects. Awardees must report significant changes in Other Support in RPPRs, such as a change in status of previously reported current or pending projects, or access to a new resource/in-kind contribution.
- Only unique, high-value materials and data received within the past three years, that are still in use, must be included as in-kind contributions in Other Support.
- Only current positions and scientific appointments are required in the Biosketch. Applicants may choose to include past appointments that they wish to highlight.
- Consulting agreements must be included in Other Support only when the PD/PI or other senior/key personnel will be conducting research as part of the consulting activities. Non-research consulting activities are not Other Support.
- Include estimates for the amount paid, rather than time and effort reflected in calendar months, for consulting that is disclosed in Other Support.

Rather than simply updating a previously submitted Other Support form, we strongly recommend that you create a new form from scratch, to ensure that you are able to implement all changes.

To assist you further, we created additional FAQs based on questions collected from researchers and administrators at Columbia University. They are meant to supplement NIH’s FAQs. In addition, we will be hosting monthly webinars to walk you through the forms. Stay tuned for a separate communication with the webinar schedule.

Additional Information: The following announcement was just sent from the Office of the Executive Vice President of Research (EVPR). I can’t stress enough how important these changes are if you are an NIH applicant, PI, or senior/key personnel.; I strongly encourage you to read the announcement below, and register for an upcoming town hall.; Dear NIH Researchers, As previously announced, as of January 25, 2022, NIH will require new Biographical Sketches and Other Support format pages containing substantial changes. The updated forms and instructions are required for use in applications and Research Performance Progress Reports (RPPRs) due on or after January 25, 2022.; IMPORTANT: the revised Other Support form requires three new action items for all PIs and senior/key persons: Sign Electronically: The PI and other senior/key personnel must electronically sign the Other Support form to certify the accuracy of the information provided, and adhere to Columbia University’s Electronic Signature Policy. A typed name is not an electronic signature and is not acceptable. Acceptable methods for obtaining electronic signature are DocuSign, and a departmentally licensed version of Adobe.; PIs and Departments must retain the “original” electronic signatures, prior to the conversion to PDF format, and prior to submission to Sponsored Projects Administration (SPA).; Include Non-U.S. Supporting Documentation in JIT/RPPR Other Support Packet: With the electronically signed Other Support forms, PIs and senior/key persons must include copies of contracts/agreements specific to any non-U.S. appointments and/or employment for any non-U.S. activities and resources that are reported in Other Support. If the contracts/agreements are not in English, recipients must provide translated copies. These materials must be provided to SPA as part of the JIT/RPPR Other Support packet.; Upload Non-U.S. Supporting Documentation to Rascal: A new Rascal module has been launched to allow PIs and senior/key personnel to upload their supporting documentation for a limited, parallel compliance review by the Office of Research Compliance and Training (ORCT). Documentation need only be uploaded one time in the life of the agreement, but amendments and modifications must be uploaded. This upload is separate from the
submission to SPA noted above; We strongly recommend that individuals who have non-U.S. agreements related to Other Support upload the documentation to Rascal now, so that ORCT can review before submission to NIH.; To learn more about the changes to the Biosketches and Other Support forms, complying with the electronic signature mandate, and the new Rascal module for supporting documentation, sign up for an upcoming webinar: Schedule (click on the hyperlinks below to register, using a Columbia-affiliated email address. Other email addresses will be rejected): Wednesday, November 17, 1-2pm EST; Thursday, December 9, 1-2pm EST; Monday, January 10, 2022, 1-2pm EST; We will continue to provide updates as we get closer to January 25, 2022. We are also happy to discuss these updates at upcoming faculty or administrator meeting as scheduling permits. For questions about these webinars and speaking engagements, please reach out to Stephanie Scott at sfs2110@cumc.columbia.edu. **Additional Information:** With the NIH application due dates approaching in late September and early October, we wanted to take this opportunity to remind the research community of the latest required researcher disclosure requirements in proposals:  
Biographical Sketch (“Biosketch”) – The newest Biosketch format is preferred immediately and required to be used for applications and Research Performance Progress Reports (RPPRs) submitted on or after January 25, 2022 NOT-OD-21-073 and NOT-OD-21-110; The Positions, Scientific Appointments and Honors section of the Biosketch must include, in reverse chronological order, all current positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary). Regardless of whether you use the old or new formats, only current positions and scientific appointments are required in the Biosketch. Applicants may choose to include past appointments that they wish to highlight; The Personal Statement may now include including ongoing and completed research projects from the past three years that you want to draw attention to (previously captured under Section D. Research Support); Biosketches can be created using SciENcv, or using NIH’s blank format page in Word.; If you forgot to include an item in the Biosketch after submission, contact your SPA Project Officer as soon as possible.; Refer to NIH's Biosketch FAQs, Columbia’s supplementary FAQs, and contact your SPA Project Officer should you have any questions.; Disclosing a Foreign Component – If any significant scientific element or segment of your project will be performed outside the United States, either by you or by a researcher employed by a foreign organization, whether or not grant funds will be expended, your project has a “foreign component” that requires disclosure and prior approval by NIH. See NIH’s full definition of Foreign Component; You must answer Field 6 of the Research and Related (R&R) Other Project Information form to indicate whether your project involves activities outside the U.S. or partnerships with international collaborators.; If you indicate “Yes” to Field 6, you must include a "Foreign Justification" attachment in Field 12, Other Attachments.; If a project develops a foreign component during the course of the project, prior approval must be obtained. Contact your SPA Project Officer in this situation.; See NIH's Foreign Component FAQs.; We will be hosting several webinars in the coming months to provide the latest information on Biosketches and Other Support. Stay tuned for a subsequent announcement.; As always, all questions should be directed to your SPA Project Officer.; [brought to our attention by] ; Stephanie F. Additional Information: This announcement informs the research community of the creation of a central email inbox for inquiries related to changes to the biographical sketch and other support templates in response to the high volume of inquiries received.; Effective as of this announcement, please send inquiries related to changes to the biographical sketch and other support templates to nihosbiosketch@nih.gov.; NIH is diligently working to ensure complete and timely responses to inquiries received to date via existing email inboxes. The research community may elect to forward inquiries that are pending a response to the new central email inbox, as needed.; NIH encourages the research community to review the currently available resources related to this effort: Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found here.; Additional resources, including training videos and other materials will be posted on the pages above as they become available.; Related Announcements: NOT-OD-21-110 - Implementation of Changes to the Biographical Sketch and Other Support Format Page; NOT-OD-21-073 - Upcoming Changes to the Biographical Sketch and Other Support Format Page for Due Dates on or after May 25, 2021; NOT-OD-19-114 - Reminders of NIH Policies on Other Support and on Policies related to Financial Conflicts of Interest and Foreign Components; It is important for all NIH applicants and awardees, including PIs, senior/key personnel, and grants administrators, to read it in its entirety.; The updated Biographical Sketch and Other Support format pages will be required for applications and Research Performance Progress Reports (RPPRs) submitted for due dates on or after May 25, 2021. It is advisable that you bookmark these pages: NIH Biosketch format pages and instructions and FAQs; NIH Other Support format pages and FAQs; Please note: PIs and senior/key personnel will be required to certify that their Other Support information is true, complete and accurate to the best of their knowledge.; Our office is in the process of reviewing the updated forms and instructions. We are scheduling webinars in the coming weeks to provide an overview of these changes. NIH is also planning to release additional resources and training materials in the coming weeks. If you are in the process of creating either a Biosketch or Other Support
format page for applications and RPPRs due on or after May 25, 2021; Updated Biosketch resources, including FAQs and sample Biosketch format pages can be found [here](#); Updated Other Support resources, including FAQs and sample Other Support format pages can be found [here](#). One of the most important changes in the Biosketch instructions is Section B: “List in reverse chronological order all positions and scientific appointments both domestic and foreign, including affiliations with foreign entities or governments. This includes titled academic, professional, or institutional appointments whether or not remuneration is received, and whether full-time, part-time, or voluntary (including adjunct, visiting, or honorary).”; This is critical. The senior/key personnel, and mentors for training grants, have to include all positions and appointments, not just select ones, or ones relevant to the proposal. It’s not just the heading of Section B that changed, it’s the instructions to Section B.; The changes as outlined in the announcement are as follows:

<table>
<thead>
<tr>
<th>Format Page</th>
<th>Changes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biographical Sketch Format Page</td>
<td>Section B ‘Positions and Honors’ has been renamed ‘Positions, Scientific Appointments, and Honors’.</td>
</tr>
<tr>
<td></td>
<td>For the non-Fellowship Biosketch, Section D. has been removed. For the Fellowship Biosketch, Section D has been updated to remove ‘Research Support.’ As applicable, all applicants may include details on ongoing and completed research projects from the past three years that they want to draw attention to within the personal statement, Section A.</td>
</tr>
<tr>
<td>Other Support Format Page</td>
<td>The format page has been re-organized to separate funded projects from in-kind contributions.</td>
</tr>
<tr>

**Additional Information:** Policy Fellowship RFA and Upcoming Aging Talks; Dear Colleagues, Students and Friends of the Columbia Aging Center: I write to bring the call for applicants of the Health and Aging Policy Fellowship to your attention. The program has a broad interdisciplinary focus, and Fellowship cohorts have included physicians, nurses, social workers, psychologists, food scientists, city planners, healthcare administrators, epidemiologists, economists, and lawyers from academic and practice settings, spanning career stages from newly minted PhDs to senior professors and community leaders; Also a reminder that we wind up the year with a terrific variety of talks and a school panel on the impact of social determinants on biology. Information on registering for each below.; With best wishes to all for the year-end.; Caitlin Hawke; Associate Director, Programming; Senior
Science and Strategy Officer; Robert N. Butler Columbia Aging Center; Columbia University Mailman School of Public Health; About the Fellowship: https://www.healthandagingpolicy.org/; Call for 2022-2023 HAPF Applicants Now Open!; Are you committed to improving health and aging? Are you interested in learning about policymaking to increase your impact? If so, we invite you to apply to join the next class of Health and Aging Policy Fellows! The 2020-2021 Health and Aging Policy Fellows at their Capstone in Washington, DC; As a Health and Aging Policy Fellow, you have the opportunity to join a dynamic community of 166 Fellows who are committed to improving health and quality of life for older Americans. The one-year Fellowship runs from October 1 – September 30 and has full-time and part-time tracks. It is conducted as a hybrid program of mentoring, networking, learning and practicum experiences. Health and Aging Policy Fellows work across diverse fields of aging. They develop lifelong partnerships and networks. Individually and collectively they are improving the lives of older adults around the country.; Click here to learn more about Fellows’ recent placement experiences and accomplishments. Apply here! THE PROGRAM; The Health and Aging Policy Fellows Program aims to create a cadre of leaders who will serve as change agents in health and aging policy to ultimately improve the health care of older adults. The year-long fellowship offers a rich and unique training and enrichment program that is focused on current policy issues, communication skills development, and professional networking opportunities to provide Fellows with the experience and skills necessary to help affect policy.; PROGRAM TRACKS; The Residential track includes a year-long placement in Washington, DC or at a state agency. Residential Fellows are immersed full-time in a policy-focused placement that is determined in the initial phase of the fellowship. Placements may include working as a legislative assistant in Congress, as professional staff in executive agencies, or with ‘think tank’ organizations, for example.; The Non-Residential track allows Fellows to remain at their home institutions and requires that they dedicate at least 20% of their time to a “virtual” placement and/or project with federal agencies, Congressional offices, or health and aging policy organizations. This may involve short periods of travel throughout the year to relevant sites. Non-residential Fellows may focus on a health policy project that is global, federal, state, city, or community-based.; The VA Track is a specific non-residential track for VA staff to represent the Department of Veterans Affairs as a VA/Health and Aging Policy Fellow. VA/Health and Aging Policy Fellow participate through the non-residential track of the fellowship.; Areas of focus include but are not limited to: Behavioral Health; Societal Aging and Age-Friendly Public Health; Global Health and Aging; Aging at the Federal, State, and/or Community Level; IMPORTANT NOTE: Both residential and non-residential Fellows are required to attend the 6-week Orientation in Washington, DC at the beginning of their fellowship, from the end of October to the beginning of December. Nothing is scheduled during the week of Thanksgiving. Fellows are also brought together periodically over the course of the fellowship year for HAPF Program events.; WHO SHOULD APPLY?; The program has a broad interdisciplinary focus, and Fellowship cohorts have included physicians, nurses, social workers, psychologists, food scientists, city planners, healthcare administrators, epidemiologists, economists, and lawyers from academic and practice settings, spanning career stages from newly minted PhDs to senior professors and community leaders.; Apply here!; APPLICATION KEY DATES; Submission deadline: April 15, 2022; Notification of finalists to be interviewed: Mid-May; Interviews and selection of Fellows: Mid-June; Fellowship begins October 2022; Information Sessions for the 2022-2023 Fellowship Year; If you are interested in becoming a Health and Aging Policy Fellow and have questions, we are holding information sessions via Zoom on various dates between December 2021 and April 2022.; The schedule is as follows (in EST): Thursday, December 9, 2021 from 12–1 PM; Tuesday, December 14, 2021 from 3–4 PM; Tuesday, January 18, 2022 from 4–5 PM; *Wednesday, February 2, 2022 from 12–1 PM - With a focus on VA track; Monday, March 7, 2022 from 12–1 PM; Monday, April 4, 2022 from 12–1 PM; RSVP to hapfell@nyspi.columbia.edu.; For further questions, or to arrange a call with Dr. Harold Pincus or Dr. Kathleen Pike to discuss applicant eligibility or the application specifically, please contact the Program Coordinator at the above email address.

Additional Information: NIH-Wide Strategic Plan for FY 2021-2025 Now Available; We are pleased to announce that the NIH-Wide Strategic Plan for Fiscal Years (FYs) 2021-2025 is now available. This updated plan articulates NIH’s highest priorities over the next 5 years, outlining our vision for the future direction, capacity, and stewardship of biomedical and behavioral research.; The plan is organized around a framework of three key objectives: [1] Advancing Biomedical and Behavioral Sciences; [2] Developing, Maintaining, and Renewing Scientific Research Capacity; [3] Exemplifying and Promoting the Highest Level of Scientific Integrity, Public Accountability, and Social Responsibility in the Conduct of Science.; The plan weaves five cross-cutting themes across these objectives, centered around minority health and health disparities, women’s health, public health challenges across the lifespan, collaborative science, and data science. The plan also mentions several achievements made during the previous FY 2016-2020 plan, but please recognize that this plan is not meant to describe everything NIH does.; As Dr. Francis Collins, the NIH Director, notes in the opening statement, “NIH will [invest] efficiently and effectively in a wide range of basic, translational, clinical, and applied research, while at the same time supporting the workforce and infrastructure required for a sustainable research...
enterprise. As outlined in this Strategic Plan, this approach will enable NIH to build a solid foundation of fundamental knowledge about living systems that will serve to accelerate research aimed at addressing our most pressing health needs.”; We appreciate members from the research community, professional societies, advocacy groups, and the public who worked with us and provided feedback throughout the process to develop this plan.

Dear Colleagues:

The National Science Foundation (NSF) has announced today a number of system enhancements for proposals submitted in Research.gov and FastLane, and upcoming revisions to the NSF Funding Opportunity Search functionality with enhanced features to help you identify opportunities quickly and easily. Please see below for the details. We’ll be sure to provide more information about these changes soon, and as always, please feel free to ask questions to your SPA Project Officer; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; sfs2110@cumc.columbia.edu; Website: https://spa.columbia.edu/

New Proposal Functionality, NSF Website Enhancements, and Updates to the Biographical Sketch and Current and Pending Support Formats; Dear Colleagues: The National Science Foundation (NSF) has enabled a number of enhancements for proposals submitted in Research.gov, FastLane, and Grants.gov. In addition, the updated NSF-approved biographical sketch and current and pending support SciEcnv and fillable PDF formats that fall under the revised Proposal & Award Policies & Procedures Guide (PAPPG) NSF 22-1 will be available to preview by September 17, 2021.; We are also excited to announce enhanced NSF Funding Opportunity Search functionality and revamped program pages on nsf.gov and beta.nsf.gov, the new version of the NSF website. As NSF builds its new nsf.gov website in small, iterative pieces using the https://beta.nsf.gov/ platform, we are not simply moving existing content from nsf.gov to the new site. Rather, the new website will improve how information is presented for use by various audiences including prospective proposers, grantees, and the general public.; Here’s what to know;

Research.gov Proposal Submission System Enhancements; Research.gov proposal features continue to expand to support the transition of all proposal preparation and submission functionality from FastLane to Research.gov by a target date of December 31, 2022. Many NSF funding opportunities are supported in Research.gov and clearly specify whether submission via Research.gov is available or required.; Effective August 30, 2021, Conference and Ideas Lab proposal types, renewal and accomplishment-based renewal submission types, and preliminary proposals for Ideas Lab solicitations are all now available for submission in Research.gov. FastLane must be used to submit preliminary proposals for proposal types other than Ideas Lab until that functionality is available in Research.gov.; The proposal preparation landing page has been revised, and Principal Investigators will now first select the proposal submission type from the drop-down options and then will follow the proposal setup wizard to initiate a new proposal. In progress and submitted proposals are accessible from the tiles on the revised proposal preparation landing page, after first selecting the submission type from the drop-down options.; New automated compliance checks and associated error and warning messages for the enabled proposal and submission types were also implemented. Error messages will prohibit proposal submission to NSF, whereas warning messages still permit proposal submission.; New Frequently Asked Questions (FAQs) were added to the Research.gov About Proposal Preparation and Submission page, and the Proposal Submission Capabilities page has been updated to reflect the latest development updates.; All supported proposal and submission types as well as associated compliance checks are also enabled in the Research.gov Proposal Preparation Demo Site.; Refer to the PAPPG NSF 20-1 for current proposal requirements. Guidelines in the revised PAPPG NSF 22-1 will apply for proposals submitted or due on or after October 4, 2021.; NSF-approved Biographical Sketch and Current and Pending Support Format Updates; Current and Pending Support Fillable PDF Updates; Based on feedback from the research community and NSF Program Officers, NSF has incorporated functionality as of August 30, 2021, in FastLane and Grants.gov to remove any pages which do not contain data entered by users (i.e., blank pages) from the NSF-approved current and pending support fillable PDF. This trimming functionality will be integrated in Research.gov on October 4, 2021, in coordination with implementation of the revised
PAPPG NSF 22-1 for proposals submitted in Research.gov and project reports submitted in the Research.gov Project Reporting System.; The trimming service only applies to the NSF-approved current and pending support fillable PDF and not to any other uploaded PDFs. Current and pending support PDFs generated in SciENcv do not include blank pages.; The current and pending support fillable PDF document is paginated, and the PDF page numbers will not be updated during the trimming process. This means that it is possible for the trimmed PDF to have skipped page numbers corresponding to the blank pages removed from the fillable PDF. NSF Program Officers are aware of this potential occurrence in proposals submitted to NSF.; Proposers with in progress proposals as of August 30, 2021, can delete previously uploaded current and pending support fillable PDFs from their FastLane or Grants.gov proposals and then re-upload them to trigger the trimming service.; Updated Biographical Sketch and Current and Pending Support SciENcv and Fillable PDF Formats; The updated NSF-approved biographical sketch and current and pending support formats will be available in September 2021 to preview before they are required on October 4th. The updated fillable PDF formats will be available for download from the NSF biographical sketch and current and pending support websites by September 3rd. Updated SciENcv formats will be available on the SciENcv Create a New Document screen by September 17th.; Biographical sketch format updates include increasing the page limit from two to three pages; Current and pending support format updates include the addition of new sections for information on objectives and overlap with other projects to help NSF and reviewers assess overlap/duplication.; Although submission of the updated NSF-approved formats is not permitted (i.e., Research.gov, FastLane, and Grants.gov will not allow the 22-1 forms to be uploaded) until implementation of the revised PAPPG NSF 22-1 on October 4, 2021, NSF is encouraging proposers and grantees to begin familiarizing themselves with the updated NSF-approved formats when they are available.; Enhanced Funding Opportunity Search Functionality and Revamped Program Pages; Based on extensive research with external and internal stakeholders, NSF has made significant improvements to the NSF Funding Opportunity Search functionality to help researchers. 

Funding Search results now include short program descriptions, programs incorporated in core program solicitations with links to the relevant guidelines, and Dear Colleague Letters; The revamped program pages include significant content and navigation improvements including information previously only viewable in solicitations.; For more information about NSF’s beta site, please visit https://beta.nsf.gov/about-beta. NSF will continue to enhance the site, and ongoing feedback from external and internal stakeholders is vital to the process. Feedback on the updated Funding Search and program page enhancements or any other aspect of the site may be directed to beta-nsf-feedback@nsf.gov.; Questions? If you have IT system-related questions, please contact the NSF Help Desk at 1-800-381-1532 (7:00 AM - 9:00 PM ET; Monday - Friday except federal holidays) or to rgov@nsf.gov. Policy-related questions should be directed to policy@nsf.gov.; Regards, National Science Foundation

Effective October 4, 2021, the National Science Foundation (NSF) made a number of system updates for proposals submitted in Research.gov, FastLane, and Grants.gov in accordance with the implementation of the Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 22-1); We'll be reviewing some of these changes during next week's Research Administration Forum, taking place on Wednesday, October 13th at 11am (link for more information about the Forum). As always, please feel free to reach out to your SPA Project Officer should you have any questions. [brought to our attention by Stephanie Scott] Now Available: New Proposal and Submission Types and System Enhancements to Support the Revised PAPPG (NSF 22-1); Dear Colleague: Effective October 4, 2021, the National Science Foundation (NSF) made a number of system updates for proposals submitted in Research.gov, FastLane, and Grants.gov in accordance with the implementation of the Proposal & Award Policies & Procedures Guide (PAPPG) (NSF 22-1). Please see the list of PAPPG (NSF 22-1) significant changes and clarifications for all of the updates. New proposal and submission types were also enabled in the Research.gov Proposal Submission System; New Proposal Types in the PAPPG; The PAPPG (NSF 22-1) incorporates two new "Other Types of Proposals": Planning Proposals; Planning proposals must be prepared and submitted in Research.gov; Refer to PAPPG Chapter II.E.1. for Planning proposal requirements; Career-Life Balance (CLB) Supplemental Funding Requests; CLB supplemental funding request must be prepared and submitted in FastLane; Refer to PAPPG Chapter II.E.8. for CLB supplemental funding request requirements; Updates to NSF-approved Biographical Sketch and Current and Pending Support Formats; The NSF-approved biographical sketch and current and pending support formats were updated to incorporate revisions in the PAPPG (NSF 22-1) and must be used for proposals submitted or due on or after October 4, 2021; The current formats are posted on the NSF biographical sketch and current and pending support websites. Updated system-related Frequently Asked Questions (FAQs) are also available: FAQs on using SciENcv and FAQs on using NSF fillable PDF; SciENcv documents created using the previous version (i.e., NSF 20-1) prior to October 4th are automatically converted in SciENcv to the current version after October 4th; Biographical sketch format updates include increasing the page limit from two to three pages; Current and pending support format updates include the addition of new sections for information on objectives and overlap with other projects to help NSF and reviewers assess overlap/duplication; Biographical sketches and current and pending support information also must be uploaded with Change of Principal Investigator (PI) and Add/Change co-PI requests in FastLane; When notifying NSF that active other support has changed since the award was made, or since the most recent annual report, current and pending support information must be uploaded in annual and final project reports in the Research.gov Project Reporting System; Research.gov, FastLane, and Grants.gov will remove any pages which do not contain data entered by users (i.e., blank pages) from the NSF-approved current and pending support fillable PDF; The trimming service is triggered in Research.gov and FastLane during document upload and during proposal submission in Grants.gov; The trimming service only applies to the NSF-approved current and pending support fillable PDF and not to any other uploaded PDFs. Current and pending support PDFs generated in SciENcv do not include blank pages; The current and pending support fillable PDF.
document is paginated, and the PDF page numbers will not be updated during the trimming process. This means that it is possible for the trimmed PDF to have skipped page numbers corresponding to the blank pages removed from the fillable PDF.

Research.gov Proposal Submission System Enhancements; The Grant Opportunities for Academic Liaison with Industry (GOALI) and Planning proposal types and the Letter of Intent submission type are now available for submission in Research.gov.; New automated compliance checks and associated error and warning messages for the enabled proposal and submission types were also implemented. Error messages will prohibit proposal submission to NSF, whereas warning messages still permit proposal submission.; All supported proposal and submission types as well as associated compliance checks are also enabled in the Research.gov Proposal Preparation Demo Site.; New FAQs were added to the Research.gov About Proposal Preparation and Submission page, and the Proposal Submission Capabilities page has been updated to reflect the latest development updates.; Research.gov proposal features continue to expand to support the transition of all proposal preparation and submission functionality from FastLane to Research.gov by a target date of December 31, 2022. Many NSF funding opportunities are supported in Research.gov and clearly specify whether submission via Research.gov is available or required.; Questions? Significant changes include: A new section covering requests for reasonable and accessibility accommodations regarding the proposal process or requests for accessibility accommodations to access NSF’s electronic systems, websites and other digital content; A table entitled, NSF Pre-award and Post-award Disclosures Relating to the Biographical Sketch and Current and Pending Support. This table identifies where pre- and post-award current and pending support disclosure information must be provided. Proposers and awardees may begin using this table immediately; Increasing the page limit for the biographical sketch from two to three pages; Updates to the current and pending support section of NSF proposals to require that information on objectives and overlap with other projects is provided to help NSF and reviewers assess overlap/duplication; Adding planning proposals and Career-Life Balance supplemental funding requests as new proposal types; Updates to travel proposals will require that AORs certify that prior to the proposer’s participation in the meeting for which NSF travel support is being requested, the proposer will assure that the meeting organizer has a written policy or code-of-conduct addressing harassment.; You are encouraged to review the by-chapter summary of changes provided in the Introduction section of the PAPPG.; NSF plans to conduct a webinar covering these changes. Visit the NSF policy outreach website to sign up for notifications about this and other outreach events.; While this version of the PAPPG becomes effective on October 4, 2021, in the interim, the guidelines contained in the current PAPPG (NSF 20-1) continue to apply.; If you have any questions regarding these changes, please contact the DIAS/Policy Office at policy@nsf.gov.; Regards, Jean Feldman; Head, Policy Office; Division of Institution and Award Support; Office of Budget, Finance & Award Management

Additional Information: May 28, 2021; Statement by NSF Director Sethuraman Panchanathan on the President’s FY22 Budget Request; President Proposes Crucial Investments to Advance the Frontiers of U.S. Science and Technology; The Biden-Harris Administration today submitted to Congress the President’s Budget for fiscal year 2022. As the Administration continues to make progress defeating the pandemic and getting our economy back on track, the Budget makes historic investments that will help the country build back better and lay the foundation for shared growth and prosperity for decades to come; “This request will bolster the U.S. economy and our leadership in critical and emerging areas of research and technological advancements, which are essential to our long-term economic and national security,” said NSF Director Sethuraman Panchanathan. “NSF’s mission is unique in supporting research across all fields of science, technology, engineering, and mathematics, and all levels of STEM education. Seven decades of experience building the necessary partnerships between federal, state, and local government, academia, and industry have produced remarkable results for the country. With this budget, we can rapidly scale our investments and build even stronger bridges between discovery, innovation, and commercialization.”; The Budget includes more details on what is proposed in the two historic plans the President has already put forward — the Americans Jobs Plan and the American Families Plan – and reinvests in education, research, public health, and other foundations of our country’s strength. At the U.S. National Science Foundation, the Budget would: Enhance Fundamental Research and Development. $9.43 billion, an increase of $1.55 billion above 2021 enacted level will support research across the spectrum of science, engineering and technology. This includes biological sciences; computer and information sciences; engineering; geosciences; math and physical sciences; social, behavioral, and economic sciences; and education. With this additional funding, NSF will continue to be the champion of basic and fundamental research and will strengthen it at speed and scale; Strengthen U.S. Leadership in Emerging Technologies. Includes the establishment of a new directorate for technology, innovation and partnerships within NSF to help translate research into practical applications. The directorate will work with programs across NSF and with other federal and non-federal entities to expedite technology development in emerging areas that are crucial for the United States’ technological leadership.; Advances Equity in Science and Engineering. +$100 million, an increase of about 50 percent, in funding for programs that aim to increase participation in science and engineering of individuals from racial and ethnic groups underrepresented in these fields. Funding will support curriculum design, research on successful recruitment and retention methods, development of outreach or mentorship programs, fellowships, and building science and engineering research and education capacity at historically black colleges and universities, and other minority-serving institutions.; Advances Climate Science and Sustainability Research. $1.2 billion for climate and clean energy-related research will fund a broad portfolio of research related to climate science and clean energy, including research on atmospheric composition, water and carbon cycles, modeling climate systems, renewable energy technologies, materials sciences, and social, behavioral, and economic research on human responses to climate change.; Continues Construction of Forefront Research Infrastructure. Invests in the continued construction of major NSF research facilities, including long-term upgrades of NSF’s major Antarctic infrastructure. It also supports construction of the Vera C. Rubin Observatory to enable astronomy research. In addition, the budget request seeks funding for the construction and procurement of smaller research facilities and equipment across the nation.; Enacting the Budget policies into law this year would strengthen our Nation’s economy and lay the foundation for shared prosperity, while also improving our Nation’s long-term fiscal health.; For more information on the President’s FY22 Budget, please visit: https://www.whitehouse.gov/omb/budget; For more information on the NSF budget, please visit: https://beta.nsf.gov/budget ; -NSF- [brought to our attention by Stephanie Scott / SPA]

The Alliances are integral to NSF INCLUDES and bring together new partners from many academic and professional disciplines and leverage the five design elements of collaborative infrastructure to address a broadening participation challenge at scale. In FY 2018 and FY 2019, NSF INCLUDES funded a total of eight Alliances. For more information on funded NSF INCLUDES Alliances, visit https://www.includesnetwork.org/home.; NSF INCLUDES Alliances build the infrastructure necessary to foster collaboration and broaden participation in STEM by emphasizing the following five design elements of collaborative infrastructure: Shared Vision - Develop a shared vision and strategy (e.g., problem statement and theory of change) for broadening the participation of the target population(s) in STEM along with relevant metrics of success and key milestones/goals to be achieved during the project’s lifecycle; Partnerships - Develop multi-stakeholder partnerships and build infrastructure among them to decrease social distance and achieve progress on common goals targeted by the Alliance; Goals and Metrics - Contribute to the knowledge base on broadening participation in STEM through broadening participation and implementation research, sharing project evaluations, data, new scientific findings/discoveries, and promising practices; Leadership and Communication - Establish a “backbone” or support organization that provides a framework for communication and networking, network assistance and reinforcement, visibility and expansion of the Alliance and its partners, that will collaborate with the NSF INCLUDES Coordination Hub; Expansion, Sustainability, and Scale - Advance a logic model or other heuristic that identifies Alliance outcomes that reflect implementation of change at scale and progress toward developing an inclusive STEM enterprise.; NSF anticipates making up to three Alliance awards with a duration of five years, contingent on availability of funds and receipt of competitive proposals. Awards will range from $1.0 to $2.0 million per year for five years depending on the goals, objectives, and the size of the communities involved.; Eligibility: The lead PI must possess the experience and institutional support necessary to implement and manage the INCLUDES Alliance.; Deadlines: Internal Proposal due 9:00 a.m. on Wednesday, August 25, 2021.; Sponsor Letter of Intent due October 4, 2021; Sponsor Proposal due January 25, 2022; How: For more information, please visit the internal application at https://columbia.infoready4.com/#competitionDetail/1848662; Questions should be sent to Greg Culler at limitedsubmissions@columbia.edu.; Program Solicitation: https://www.nsf.gov/pubs/2020/nsf20569/nsf20569.htm; Research Initiatives; Office of the Executive Vice President for Research; Columbia University in the City of New York; To view current limited submission programs please visit: https://columbia.infoready4.com/#limitedsubmissions; COLUMBIA | RESEARCH

Under “Notice of Special Interest (NOSI): Research Supplements to Promote Reentry and Reintegration into Health-Related Research Careers” (NOT-OD-21-134), successful applicants will be able to participate in full- or part-time mentored research experiences through existing NIH research grants. Eligible for these reentry supplements are individuals whose research careers have been interrupted for at least 6 months because of family responsibilities or other qualifying circumstances. The reintegration supplements will enable individuals to find supportive scientific environments after departure from an unsafe or discriminatory environment resulting from unlawful harassment.; Most candidates for the reentry supplements will have a doctoral degree or equivalent; however, some awarding NIH Institutes and Centers may enable predoctoral students, including those enrolled in dual-degree programs, to apply. Postdoctoral and predoctoral students are eligible to apply for reintegration supplements to allow them to transition to a safe, supportive research environment and complete their graduate degrees.; Click here for more information, including detailed eligibility requirements and staff contacts. The first available due date for submissions is August 26, 2021, and the supplements program is set to expire on October 7, 2023.; Related Announcements: PA-20-272 - Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional)

DASHI Pilot projects in the intersection of Artificial Intelligence (AI) and Health Sciences Workshop 12.10.2021

Sponsor: Hosted by The Data Science Institute and Columbia University Irving Medical Center; The Data Science Institute and Columbia University Irving Medical Center have a new partnership focused on building collaborative research projects that leverage foundational data science for new clinical advances. On the biomedical side, this is driven by emerging access to large scale complex datasets due to recently deployed technologies, e.g. in imaging, genomics, and electronic health records. These data challenges are looking for analysis tools to tackle them. On the engineering side, method developers are seeking data to sink their teeth into and test their developments in real-world settings. The Data Science and Health Initiative (DASHI) aims to bridge this gap and create synergy between our institutional strengths.

**Additional Information:** Center for Precision Cancer Medicine Pilot Award; Deadline: February 1; The Center for Precision Cancer Medicine (CPCM) is excited to announce funding for pilot studies. The goal of this funding opportunity is to stimulate research that develops and implements novel approaches for defining biomarker-driven approaches for guiding cancer medicine. This initiative aims to support the early stages of translational and interdisciplinary research projects that have the potential to develop into long-term projects capable of attracting external grant support.; At least two projects will be funded for one year at the level of $100,000 per project. We intend to fund at least one project focused upon integrating cancer modeling with experimental therapeutics and omic technologies to evaluate therapeutic efficacy and pharmacodynamics.; **Topics:** Studies must be relevant to advancing precision cancer medicine basic science and pre-clinical/clinical approaches that will ultimately advance biomarker-driven clinical care.; Potential research project topics include:

- Innovative integration of preclinical model systems with new systems for interrogating cancer targets with functional genomic or pharmacologic tools;
- Development of novel systems for evaluating combinatorial therapies;
- Innovative application of multi-omic tools for evaluating the dynamic effects of perturbing therapeutic targets upon cancer cells (and, potentially, the microenvironment);
- Machine learning technologies for extracting data from large clinical and/or experimental datasets;
- Identification of biomarkers for individualized therapy;
- Aggregated clinical/environmental data and/or patient-reported data to develop personalized cancer care;
- New methods of working with precision oncology data and its integration with electronic health records;

https://proposalcentral.com/default.asp
Additional Information: Bladder Cancer Research Innovation Awards; LOI Deadline: January 12; The Bladder Cancer Advocacy Network (BCAN) is pleased to announce the 2022 Bladder Cancer Research Innovation Awards are now open for Letter of Intent submissions until Wednesday, January 12, 2022. The BCAN Bladder Cancer Research Innovation Awards support novel, high risk, high reward projects with great potential to produce breakthroughs in our understanding of bladder cancer. The proposed research may be basic, translational, clinical or epidemiological and must have direct applicability and relevance to bladder cancer. Applications must include innovative approaches and new ideas to be eligible for funding. These awards are available to full time, experienced, independent investigators affiliated with non-profit academic, medical or research institutions within the United States or Canada. Eligible applicants include investigators who have experience in other areas of cancer or biomedical and health science research with promising approaches that can be applied to bladder cancer research. BCAN will offer two Bladder Cancer Research Innovation Awards in 2022. Both awarded proposals will be funded for $300,000 for two years ($150,000 per year); Interested applicants must submit a Letter of Intent by Wednesday, January 12, 2022 by 5:00 PM EST and must be invited to submit a full application. This research is needed to assist communities throughout the United States in evaluating whether to invest in EAR strategies to improve water management and security. This new funding opportunity is titled, “Life-Cycle Analysis to Support Cost-Effective Enhanced Aquifer Recharge Request for Applications (RFA)”.; Using too much groundwater can lead to many issues that impact water quality and water security. EAR is the practice of using excess surface water to replenish and supplement existing groundwater supplies for storage, potential reuse, and to augment water supplies. In many locations, EAR can be a cost-effective way to increase water resource resiliency to mitigate the impacts of drought exacerbated by climate change and can also provide ways to combat saltwater intrusion near coastal communities, among other benefits. However, the growing rate of groundwater extraction outpaces the rate of EAR implementation.; This RFA is intended to address the key economic, technological, institutional, and legal factors that affect the
ability to implement EAR projects. The expected outcomes from this research include new tools, frameworks, and models that assist state, local and other decision-makers in understanding the costs and benefits of pursuing EAR strategies. Applications should address both of the following two research areas: Research Area 1: Identification of Priority Research and Development Needs to Support EAR; Research Area 2: Development of Tools, Models, and Frameworks to Support EAR Implementation; For information on eligibility, project specifications, or how to apply, visit: Life-Cycle Analysis to Support Cost-Effective Enhanced Aquifer Recharge Request for Applications (RFA); Learn more about EPA Research Grants; Informational Webinar for Applicants; Date: Wednesday, December 1, 2021; Time: 1:00 p.m. EST; Register: https://enhanced-aquifer-recharge-info-webinar.eventbrite.com; Join us for an informational webinar on this funding opportunity. Register at https://water_quality_benefits_info_webinar.eventbrite.com; The U.S. Environmental Protection Agency (EPA) is seeking applications for research that will address how measurable attributes of water quality improvements can be valued, either directly or through indicators. This research should focus on national level studies and/or valuation for underrepresented water body types and regions, improvements to water quality indices, and environmental justice valuation.; Across the United States, the beneficial impacts of healthy waterbodies can be surprisingly far-reaching. These benefits include recreational uses, such as swimming, boating, and wildlife viewing, as well as increased property values and reduced drinking water treatment costs. Quantifying these benefits supports national, state, tribal, and local water quality decision-making. However, there are several gaps in existing research on the value of water quality improvements in many areas of the U.S., the benefits of improvements to coastal areas, and how water quality changes impact underserved communities.; The goal of this request for applications is to

advance knowledge of how changes in water quality can be valued at appropriate spatial scales using advanced valuation methods. The research should help public and private decision makers and stakeholders at the state and local levels, by quantifying the behavioral and socioeconomic consequences of water quality regulations and related policy options across a full range of ecological and economic endpoints.; There are three distinct areas of research covered by this solicitation. EPA encourages applicants to focus on only one research area so that applications have the detail necessary to fully address one research area.; Research Area 1: National Level Studies and/or Valuation for Underrepresented Water Body Types and Regions.; Research Area 2: Improving Water Quality Indices (WQIs); Research Area 3: Environmental Justice Valuation: Physical Characteristics and Geography; For information on eligibility and how to apply, visit: Water Quality Benefits Request for Applications (RFA); Learn more about the Safe and Sustainable Water Resources (SSWR) Research Program.; Learn more about EPA Research Grants.; Informational Webinar; Date: Wednesday, December 15, 2021 Time: 2:30 p.m. – 3:30 p.m.; Join us for an informational webinar on the Water Quality Benefits funding opportunity. When food is wasted, all the resources used to produce the food – water, energy, fertilizers – and the resources used to transport it from farms to our tables, are wasted as well. Reducing food waste could significantly contribute to the prevention and reduction of air, water, and land pollution and help combat climate change.; Applicants should propose a research project that addresses at least

Additional Information: Call for Faculty Participation: Capstone Projects Spring 2022; Columbia University Data Science Institute; Spring 2022 Capstone Projects; Call for Faculty Participation; Greetings!; Education is one of the pillars of the Data Science Institute. Through educational activities, we strive to create a community in Data Science at Columbia. The capstone project is one of the most lauded elements of our MS in Data Science program. As a final step during their study at Columbia, our MS students work on a project sponsored by a DSI industry affiliate or a faculty member over the course of a semester.; There are two levels of engagement for DSI faculty in the capstone program: [1] The first is through faculty-sponsored capstone projects, where a DSI faculty member proposes a research project and advises a team of students working on this project. This is a great way to run a research project with enthusiastic students, eager to try out their newly acquired data science skills in a research setting. Interested faculty should submit a Capstone Project Proposal by December 15, 2021. This is especially a good opportunity for developing and accelerating interdisciplinary collaboration.; SUBMIT CAPSTONE PROJECT PROPOSAL HERE; [2] The second way a DSI faculty member can contribute is by serving as a faculty mentor, who will mentor a team of students working on a project proposed by an industry affiliate. While the students work with industry mentors, we have found that timely advising from a faculty member is absolutely crucial for the success of these projects. The faculty mentor will be jointly mentoring the students with the project’s industry mentor. This is a great way to participate in DSI’s industry affiliates program and network with data scientists from industry. As a faculty mentor you also gain a first-hand and close look at the MS in Data Science students’ skill set -- a nice opportunity for someone who might be looking for future research assistants with data science skills or who might want to propose a capstone project in the future. Interested faculty should fill out this form - Capstone project mentor sign-up form (deadline January 3, 2022); BECOME A CAPSTONE PROJECT MENTOR HERE; Specifically, to the center chairs/co-chairs on this list: Each DSI’s center or working group represents a unique focused area of data science, whose intellectual activities attract faculty and students across campus. There is a lot of potential for the centers and working groups to contribute to DSI’s educational mission, which is a great way to build up the center/working group’s research-education integration/convergence profile. We would like to increase the engagement from centers in our educational initiatives of DSI. We are hoping all the centers will help us recruit capstone project proposals and faculty mentors from your center’s members.; All submissions are subject to review and approval by the capstone committee. For capstone project proposals, the committee will do their best to provide timely feedback on how to make it fit with the mission of the capstone project.

**Additional Information:** NIH releases NOSI on COVID-19’s impact on underserved and vulnerable populations; View it as a Web page. NIH NOSI to Support Studies on COVID-19’s Impact on Underserved and Vulnerable Populations; ORWH has announced its participation in Notice of Special Interest (NOSI): Social, Behavioral, and Economic Impact of COVID-19 in Underserved and Vulnerable Populations (NOT-MH-21-330). The COVID-19 pandemic has demonstrated that prevention and mitigation strategies for the pandemic are uneven—for a range of reasons, including a lack of trust in health systems, economic circumstances, and challenges in sustaining long-term adherence, especially for underserved and vulnerable populations. By increasing our understanding of the multifaceted effects of the COVID-19 pandemic and public health interventions that mitigate risk and promote resilience in high-risk populations, we can improve the long-term response to the pandemic and prepare more effectively for future public health emergencies.; To strengthen the understanding and response to social, behavioral, and economic effects of the COVID-19 pandemic, NIH is encouraging the submission of applications that will: Address the roles and effects of interventions, particularly those under the umbrella of digital health, as well as community-engaged and multilevel interventions in health care settings to address access, reach, delivery, engagement, effectiveness, scalability, and sustainability of services that are utilized during and following the pandemic; Encourage the leveraging of existing large-scale data sources with broad population coverage to improve prediction of various mitigation efforts (including vaccinations, masking, and physical distancing) on transmission reduction and on social and economic effects and assess the downstream health and health care access effects, with an emphasis on underserved and vulnerable populations; The first submission date is October 5, 2021, and subsequent receipt dates will extend through September 8, 2024.

The Naomi Berrie Diabetes Center of Columbia University and the Russell Berrie Foundation; Call for Applications: Pre-translational Diabetes Research Awards

**Sponsor:** The Naomi Berrie Diabetes Center of Columbia University and the Russell Berrie Foundation

**Deadline(s):** 01/15/2022

**Contact:** e-mail the completed application to Dr. Utpal Pajvani at up2104@cumc.columbia.edu. For questions, please e-mail Dr. Pajvani directly

**Link(s):** https://cumccolumbia.sharepoint.com/teams/r2eport/Shared%20Documents/Forms/AllItems.aspx?id=%2Fteams%2Fr2eport%2FShared%20Documents%2FRFA%20for%20Pre%20Translational%20Awards%20January%202022%2Epdf&parent=%2Fteams%2Fr2eport%2FShared%20Documents

**Additional Information:** Call for Applications: Pre-translational Diabetes Research Awards; The Naomi Berrie Diabetes Center of Columbia University and the Russell Berrie Foundation are pleased to announce the second cycle of a pilot award program in Pre-Translational Diabetes Research. This competition is open to all Columbia University faculty and will fund awards for up to 1 year with a maximum budget of $50,000. This new program is designed to support early "pre-translational" pilot research in diabetes mellitus and its allied disorders aimed at investigating novel disease mechanisms or interventions. These bench-to-beside studies must involve human subjects or specimens. Studies exploring novel areas of biology that may eventually lead to larger clinical studies are encouraged. Examples of eligible studies: Obtaining or analysis of human tissues to test hypotheses related to specific interventions for diabetes, obesity and associated disorders; Short term interventions (e.g. drug, exercise, diet) to mitigate disease; Imaging studies in human subjects related to diabetes- obesity-related phenotypes; Proposals will be reviewed on a rolling basis at 4-month intervals by a review panel comprised of Columbia and ad hoc extramural investigators. Applications will be evaluated primarily for the quality and relevance of the proposed clinical science and for the study’s potential for generating a go/no-go signal for further studies that might secure external funding. Novel and underrepresented research themes, collaborative efforts between basic scientists and clinical investigators, and “high risk” studies designed to test or extend novel concepts are encouraged. Application deadline is January 15, 2022, for an anticipated funding start date of April 1, 2022. Applications should include the following materials: 1) Cover Page, which includes the following information: PI Title, Department and Institution; Title of Proposed Project; 2) Description of Project (4 page maximum including figures, but not bibliography); 3) NIH-style biosketches for PI and key personnel.; 4) IRB approval, or plans for IRB approval; 5) Budget justification - funds (up to $50,000) can be used for salary, supplies and patient stipends. Salary for PIs is discouraged. Please collate all the above documents as a single PDF and e-mail the completed application to Dr. Utpal Pajvani at up2104@cumc.columbia.edu. For questions, please e-mail Dr. Pajvani directly.

NIH is requiring everyone to transition to 2FA, but is taking a phased approach.; I recorded this segment of the Forum. You can watch the video here, and follow along with yesterday's slide deck, see slides 61-76. I cover: Who needs to transition; When you need to transition; The two different options (Login.gov vs InCommon Federated); Essential tips for doing it correctly; Where to go for help; NIH also has their own videos and resources, but I do think listening to me explain it first will assist you in making decisions faster.; NIH Resources: NIH videos on transitioning to Login.gov; Overview of NIH eRA and 2FA; NIH FAQs on both Login.gov and InCommon Federated; If after watching my video and reading NIH's FAQs you feel you are in a unique situation then feel free to contact me.; [brought to our attention by] Stephanie F. **The HHEAR Data Center’s public data repository has recently been updated**

**Sponsor:** Sponsored by: National Institute of Environmental Health Sciences (NEIHS) | New York State Foundation for Science, Technology and Innovation (NYSTAR)

**Deadline(s):** NA

**Contact:** HHEARsupport@mssm.edu

**Link(s):** [https://hheardatacenter.mssm.edu/](https://hheardatacenter.mssm.edu/)

**Additional Information:** The HHEAR Data Center’s public data repository has recently been updated. To benefit the broader research community, the HHEAR Data Center hosts a public data repository that contains both de-identified original study and de-identified harmonized data from all studies accepted into the CHEAR and HHEAR program that have passed the embargo period. The goal of this repository is to promote the secondary analysis of pooled environmental health data by providing data in a manner that is findable, accessible, interoperable and reusable. The repository is searchable by a number of features and users are able to compile and download customized datasets from CHEAR and HHEAR research studies. The repository is updated periodically as studies come off embargo. To access both types of data, go to [HHEAR Data Center website](https://hheardatacenter.mssm.edu/). Thank you, The HHEAR Coordinating Center

**NOAA Announces new Environmental Literacy Program Funding Opportunity**
**Sponsor:** https://www.noaa.gov/office-education/elp/grants/apply  
**Deadline(s):** 05/17/2022; 04/16/2022 (Archive Date)  
**Contact:** For questions about the opportunity, please contact John McLaughlin John.McLaughlin@noaa.gov  
**Link(s):** https://www.noaa.gov/office-education/elp/grants/apply  
**Additional Information:** PEPH Colleagues, Here is a funding opportunity from NOAA that may be of interest to many of you;  
For questions about the opportunity, please contact John McLaughlin John.McLaughlin@noaa.gov.  
NOAA Announces new Environmental Literacy Program Funding Opportunity; Apologies for any cross postings. The NOAA Office of Education has issued a competitive funding opportunity for projects that develop the collective environmental literacy necessary for communities to take actions that build resilience to extreme weather and climate change in ways that contribute to community health, social cohesion, and socio-economic equity. This funding opportunity is soliciting two types of projects through separate competitive priorities; Priority 1 will support new projects ($250,000 - $500,000 per project) located in the following states: Colorado, Connecticut, Delaware, District of Columbia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Vermont, Virginia, West Virginia, Wisconsin, and Wyoming. The entirety of a project must only serve audiences located in one or more of these listed states. Please note: The previous funding opportunity for this program in 2020 covered the other states and territories of the United States; Priority 2 will support the evolution of projects ($250,000- $500,000 per project) funded under the 2015-2018 funding opportunities from this program. The list of projects that are eligible can be found here; For both priorities, eligible applicants are: institutions of higher education; K-12 public and independent schools and school systems; other nonprofits, including community-based organizations and informal education institutions, such as museums, zoos, and aquariums; state and local government agencies; and Indian tribal governments in the United States.; Please note that we do not anticipate issuing a solicitation for applications next year. Rather, applications to this funding opportunity may be funded with fiscal year 2022 and 2023 funds.; Deadlines: For Priority 1, pre-applications are required and will be used to determine which applicants are invited to submit full applications to this priority. The deadline for pre-applications is 11:59 pm EDT on November 1, 2021 and the deadline for Priority 1 full applications is 11:59 pm EDT on March 17, 2022.; For Priority 2, only full applications are requested and the deadline for Priority 2 applications is 11:59 pm EST on January 25, 2022.; Informational Teleconferences: For Priority 1, two informational teleconferences with the program officers will occur on Thursday, September 23, 2021 from 3:00 to 5:00 pm EDT and Monday, September 27, 2021 from 3:00 to 5:00 pm EDT. An informational teleconference for Priority 2 with the program officers will occur on Thursday October 28, 2021 from 3:00 to 5:00 pm EDT. Interested applicants may obtain the phone number and related teleconference information by visiting the Apply webpage. Whenever possible, individuals from the same institution should try to join the teleconference from the same phone line to maximize our ability to host as many interested institutions as possible.; Additional Information: Read the full funding announcement NOAA-SEC-OED-2022-200699 in Grants.gov for the complete requirements.; Sincerely, NOAA Environmental Literacy Program Grants Team; [ brought to our attention by] John McLaughlin; Education Program Manager; National Oceanic and Atmospheric Administration Office of Education; (202) 482-2893; John.McLaughlin@noaa.gov

Additional Information: Merck Foundation Alliance for Equity in Cancer Care; Deadline: LOI November 19; The Merck Foundation (the Foundation) is pleased to announce an exciting new funding opportunity to improve the delivery of patient-centered, equitable cancer care in the United States: Merck Alliance for Equity in Cancer Care (The Alliance). The Alliance aims to address persistent disparities across the cancer care continuum – from diagnosis to survivorship – and improve patient outcomes among adult underserved populations. The Foundation is committing $20 million over 5 years to support the development and implementation of innovative, multifaceted cancer care programs, as well as promote multisectoral
community collaborations to address barriers to care associated with the social determinants of health. The Foundation is seeking applications from eligible nonprofit organizations such as community cancer centers; oncology medical homes; community health centers and other health care organizations; community-based organizations; and units of state or local government. We invite you to join us in sharing information about The Alliance through your organization’s communications channels (e.g., list serves, newsletters, member-only sites). If you have any questions, please send them to Rabin Martin at cancercareequity@rabinmartin.com by November 5, 2021. For additional information about The Alliance and instructions for responding to the Call for Proposals, please click here. Letters of Intent from interested organizations are due by November 19, 2021.

DoD/CDMRP - COVID-19 Impact on Research Awards
[No Link Provided]
CDMRP continues to be concerned about the impacts of COVID-19 on Service Members and the public. We are aware of the challenges it poses and are tracking some of the impacts to current awardees and ongoing research. While not every program will have financial resources available to assist, awareness of any significant unresolved issues affecting current research awards is important.; The intent of this notice is to remind recipients of the requirements in 32 CFR Part 1134, Subpart E Other Reporting. This provision specifies the requirement for recipients to disclose significant developments as soon as they become known. These include problems, delays, or adverse conditions that will materially impair your ability to meet the objectives of your awards.; Disclosures of significant developments may be made on your next interim performance report or at any point between scheduled performance reporting dates by contacting the Science Officer or Grant Specialist assigned to your award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation

https://nexus.od.nih.gov/all/2021/03/02/announcement-of-childcare-costs-for-ruth-l-kirschstein-national-research-service-award-nrsa-supported-individual-fellows/

https://nexus.od.nih.gov/all/2021/03/19/how-do-i-request-childcare-costs-in-my-fellowship-application/

**Additional Information:** Earlier today, NIH issued corrected instructions to request childcare costs for recipients of NRSA individual fellowships. See [NOT-OD-21-074](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-074.html), which replaces to announcement NOT-OD-21-069 referenced below. NIH also updated its FAQs; If you have any questions regarding how to make the request in a fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. We'll provide you with any updates [brought to our attention by] Stephanie Scott, Announcement of Childcare Costs for Ruth L. Kirschstein National Research Service Award (NRSA) Supported Individual Fellows; This week NIH announced a new policy to allow for childcare support costs to recipients of NRSA individual fellowships (i.e., F31, F32, etc). These costs must be specifically requested in new, continuation applications or through administrative supplements beginning on or after April 8, 2021. Please read the full announcement at [NOT-OD-21-069](https://grants.nih.gov/grants/guide/notice-files/NOT-OD-21-069.html), the FAQs, and supplementary information below.; **Some key takeaways:** The policy applies to full-time NIH-NRSA supported individual fellowship applicants and awardees. However, additional information is forthcoming later this year regarding expanding the policy to trainees on institutional training grants, anticipated for FY2022.; Each fellow is eligible to receive $2,500 per budget period for childcare costs. The childcare cost amount is not determined by number of children.; Childcare costs are permitted for dependent children living in the eligible fellow’s home from birth under the age of 13, or children who are disabled and under age 18.; Eligible childcare is care that is licensed and/or regulated by state and/or local authorities. See FAQs for more details.;

At a minimum, recipients must obtain and retain documentation verifying that a childcare provider is licensed and/or regulated by state and/or local authorities, and must document that the fellow is eligible to receive the childcare costs and has eligible dependents. The childcare cost is restricted for that purpose and cannot be rebudgeted without prior written approval from the NIH awarding IC. If you have any questions regarding how to make the request in the fellowship application, RPPR, or administrative supplement, please contact your SPA Project Officer. The announcement NOT-OD-21-069, and the FAQs, provide instructions on how to make the childcare support request. We’ll provide further guidance on these new costs at a later date.

[NTW] [MATERNAL AND CHILD HEALTH]
Notice of Information: NIMH High-Priority Areas for Research on Women's Mental Health during the Perinatal Period
Sponsor: National Institute of Mental Health
Deadline(s): 06/23/2021 (Release Date)
Contact: Tamara Lewis Johnson, MPH, MBA; National Institute of Mental Health (NIMH); Telephone: (301) 594-7963; Email: tamara.lewisjohnson@nih.gov
Additional Information: The purpose of this notice is to outline high priority areas of research related to women's mental health during the perinatal period. NIMH is interested in receiving applications that will provide new knowledge in perinatal mental disorders and that will test strategies for translating this knowledge into improved diagnostics, therapies, and services to improve women's mental health during the perinatal period. This Notice of Information applies broadly to most but not all Funding Opportunity Announcements (FOAs) that are aligned with NIMH research priorities.

Additional Information: ORWH announces administrative supplements to support research on the health of women in U3 populations; https://grants.nih.gov/grants/guide/notice-files/NOT-OD-22-031.html; National Institutes of Health; Office of Research on Women’s Health; ORWH Announces Administrative Supplements to Support Research on the Health of Women in U3 Populations; ORWH has announced the availability of administrative supplements to support research highlighting health inequities among populations of women in the U.S. that are understudied, underrepresented, and underreported (U3) in biomedical research. Applications should provide robust study designs that would explore sex and gender influences and social determinants of health in order to reduce health inequities. The proposed research must address at least one objective from strategic goal 1, 2, or 3 of Advancing Science for the Health of Women: The Trans-NIH Strategic Plan for Women's Health Research.; There is a complex intersection of internal (e.g., genetics) and external institutional and structural forces (e.g., social determinants of health and experiences of trauma) that play a role in the health status, disease presentation, treatment responses, and health-related quality of life of women across the life course. These administrative supplements will support projects highlighting common sources of disparities in the health of women and girls, with an emphasis on projects that propose to integrate measures beyond the individual level and consider perspectives from multiple disciplines. A broad range of research topics studied at the preclinical, clinical, behavioral, and translational levels are encouraged. Proposals incorporating multilevel interventions, using community-engaged approaches, and focusing on one or more NIH-designated health disparity populations are also desired.; Applications are due January 31, 2022.

Sponsor: National Institute of Allergy and Infectious Diseases; National Institute on Alcohol Abuse and Alcoholism; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institute on Drug Abuse; National Institute of Mental Health; Office of Behavioral and Social Sciences Research; Office of Research on Women’s Health

Deadline(s): 12/09/2021; 12/10/2021 (Expiration)

Contact: Scientific/Research Contact(s): Joanna Roe, BA; National Institute of Allergy and Infectious Diseases (NIAID); Telephone: 240-627-3213; Email: jroe@niaid.nih.gov

Additional Information: This Funding Opportunity Announcement (FOA) will support research that combines epidemiologic methods, digital technology, and data science approaches to better understand HIV prevention, transmission, and early care-cascade points for women living in the US. Applications must: 1) determine the best ways to identify, enroll, and retain cohorts of women living in the United States (US) who are behaviorally vulnerable to HIV; and 2) develop a knowledgebase comprised of cohort data from women augmented with other data sources including big data sources. Findings should not only lead to a better understanding of how women remain vulnerable to HIV but also inform future pilot interventions aimed at decreasing the incidence of HIV and other sexually transmitted infections (STIs) among cisgender, transgender, and gender non-conforming women.

Additional Information: NIH issues funding opportunity for studies on mitigating sexual harassment in the biomedical research enterprise; National Institutes of Health; Office of Research on Women’s Health; NIH issues funding opportunity for studies on mitigating sexual harassment in the biomedical research enterprise (govdelivery.com); NIH NOSI to Support Studies on Mitigating Sexual Harassment in the Biomedical Research Enterprise; ORWH has announced its participation in Notice of Special Interest (NOSI): Interventions Designed to Change the Culture to Mitigate or Eliminate Sexual Harassment in the Biomedical Research Enterprise NOT-OD-21-150. The cumulative effect of sexual harassment has a devastating and costly impact on individuals and the Nation. There are emotional, physical, mental, and legal consequences, which may have a direct impact on individual performance and career advancement, as well as social and fiscal effects on institutional settings, students, and co-workers.; The National Academies of Sciences, Engineering, and Medicine report titled Sexual Harassment of Women: Climate, Culture, and Consequences in Academic Sciences, Engineering, and Medicine demonstrates the urgent need to develop new partnerships to address this challenging
problem. NIH is encouraging applications to test interventions that would be designed to change the culture and mitigate or eliminate sexual harassment in the biomedical research enterprise.; The first available due date for funding opportunity submissions is October 13, 2021, and subsequent receipt dates will extend through October 14, 2023.

Additional Information: Longevity Impetus Grant Announcement; FYI Below. Yousin shared this. Applications open on 9/13: https://www.impetusgrants.com/; Impetus Grants provides funding for scientists to start working on what they consider the most important problems in aging biology, without delay.; www.impetusgrants.com; September 7, 2021; Dear AGE Member, I'd like to bring to your attention a new source of grant funding for bold ideas in aging research: the Longevity Impetus Grants. These grants will support bold ideas with the potential to change how the field thinks and works, including high-risk projects. For more information about the program and to apply, please visit the website.; The applications are ~1 page, and decisions are made within three weeks. Impetus Grants range from $10K to $500K, with a maximum of 10% institutional overhead. There’s no restriction on project period, and no strings attached.; The ideal application is able to explain how the project would broadly impact the field, by developing/validating new tools and/or changing how we think about aging biology. Such proposals could seek to prove or disprove common assumptions in the field, discover new ways to reverse aging processes, synthesize isolated manifestations of aging into a systemic perspective, and/or develop widely applicable methodologies.; Please consider sharing this email within your institution, and with anyone else you think should apply.; I highly encourage you to consider applying for a Longevity Impetus Grant.; Sincerely, [brought to our attention by] Matt Kaeberlein; CEO and Chair, American Aging Association; Impetus Grants provides funding for scientists to start working on what they consider the most important problems in aging biology, without delay. Such work should not be held up by red tape: we offer grants of up to $500k, with decisions made within 3 weeks. Our review process asks "what's the potential for impact" rather than "could this go wrong".; Our goal is to have a broad impact on the field, by supporting projects that challenge assumptions, develop new tools and methodologies, discover new ways to reverse aging processes, and/or synthesize isolated manifestations of aging into a systemic perspective. To ensure that we learn from every project, we're organizing a special issue of GeroScience to provide an opportunity to publish both positive and negative results from funded studies.; Applications will open on September 13, 2021.

Updated Guidelines for Enhancing Diversity and Creating Safe Environments in Conferences Supported by NIH Grants and Cooperative Agreements

Sponsor: Office of The Director, National Institutes of Health (OD)
Deadline(s): 01/22/2021 (Release Date)
Contact: Please direct all policy-related inquiries to: Office of Policy for Extramural Research Administration (OPERA); Division of Grants Policy; GrantsPolicy@OD.NIH.GOV

Additional Information: this new policy notice, which provides updated guidance on enhancing the diversity of conferences supported by NIH under the R13 and U13 activity codes. Per the notice, “Conference grant applicants (R13/U13) must include plans to enhance diversity during the selection of organizing committees, speakers, other invited participants, such as session chairs and panel discussants, and attendees. Plans to enhance diversity will be assessed during the scientific and technical merit review of the application. Though the proposed plans will not be scored individually, they will be considered in the overall impact score.” Please read the full notice for more details.

Additional Information: NIH Announces Funding Opportunity to Study the Role of Work in Health Disparities in the U.S.; ORWH recently announced its participation in The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) (PAR-21-275). The funding opportunity will support innovative population-based research designed to identify and characterize pathways and mechanisms through which work or occupation influences health outcomes and health status among populations with health and/or health care disparities. The main objective of this initiative is to determine the extent and mechanisms by which work, as a social determinant of health, both contributes to and helps alleviate disparities related to health and health care. Of particular interest are: Projects designed to examine pathways and mechanisms using conceptual model(s) grounded in minority health and health disparities theories that recognize that health disparities arise by multiple and overlapping contributing factors acting at multiple levels of influence; Intersectional approaches that consider different social identities and the embeddedness of individuals within families, households, and communities; Projects that explore whether work can explain the health or health care disparities seen within diseases or conditions (e.g., COVID-19, opioid use disorder, mental/behavioral health, diabetes, cancer, heart disease, asthma, and maternal and infant health); Projects that explore how work contributes to health care disparities—including, but not limited to, disparities in access to preventive, specialty, and emergency care in health insurance coverage and disparities in quality of health care; Applications for The Role of Work in Health Disparities in the U.S. (R01 Clinical Trials Optional) will open on September 5, 2021.

**Additional Information:** New York State Department of Health/Health Research, Inc. Comprehensive Cancer Control Program; Health Research, Inc (HRI) and the New York State Department of Health (NYSDOH) Comprehensive Cancer Control Program are soliciting applications from organizations to conduct projects in support of the New York State Comprehensive Cancer Control Plan and the work of the New York State Cancer Consortium (Consortium) action teams. The Consortium is a voluntary network of individuals and organizations that collaborate to address New York’s cancer burden. The Consortium recommends statewide and local interventions to: prevent skin cancer, promote the human papillomavirus (HPV) vaccine, promote programs and services to increase quality of life for cancer survivors, and prevent and promote early detection of colorectal cancer. The purpose of this funding opportunity is to support local interventions to address the burden of cancer in communities and across the state. This funding will support awards, valued at $1,000 each to implement one of the six (6) community interventions listed in the
attached solicitation.; Applications will be accepted beginning November 18, 2020, and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available; **Eligible applicants:** Nonprofit organizations and municipal organizations located in New York State including, but not limited to: local government and public health agencies, local educational agencies, academic institutions, community-based organizations, faith-based organizations, health care systems, primary care networks, professional associations, public and private schools, and volunteer associations.; **Applications will be accepted starting immediately and will be reviewed and awarded in the order received on a rolling basis until funds are no longer available.**; Please click on the link to the Community Project Application below to apply: Community Project Application

Participant-level Data Template

Additional Information: [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects.; Users with records currently in progress will need to modify the records to meet new FORMS-F requirements.; The changes listed below include items released by eRA in March and items released on June 13.; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.4.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.4.a of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from ‘Enrollment of First Subject’ to ‘Enrollment of First Participant.; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen — Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA.’; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS.; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3.; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter

**Additional Information:** Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25th, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm ; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. [NTW] [COVID-19]
Extending the Special Exception to the NIH/AHRQ/NIOSH Post-Submission Material Policy During the COVID-19 Pandemic

**Sponsor:** National Institutes of Health

**Deadline(s):** This Notice extends the special exception for post-submission material (see NOT-OD-20-123) to applications submitted for the May 2021 Council round.; For applications submitted for the May 2021 council (beginning with applications submitted for the September 25, 2020 due date for Spring 2021 review meetings), the NIH, AHRQ, and NIOSH will accept a one-
page update with preliminary data as post-submission materials for applications submitted under all activity codes, ONLY if the Funding Opportunity Announcement (FOA) used for submission allowed preliminary data in the application. One page of preliminary data will be accepted for single component applications or for each component of a multi-component application.

The deadline for submitting all post-submission materials, including preliminary data, will be 30 days before the study section meeting. Because applications for emergency competitive revisions and urgent competitive revisions undergo expedited review, post-submission materials will not be accepted for those applications; All other materials listed in NOT-OD-19-083 as acceptable post-submission materials will continue to be accepted if submitted 30 days before the study section meeting.

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.
• **4 weeks prior to submission deadline** — Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they will provide feedback within a week.

• **2 weeks prior to submission deadline** — For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.

Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

**Evidence for Action: Innovative Research to Advance Racial Equity**

**Sponsor:** RWJF; https://www.evidenceforaction.org/  
**Deadline(s):** Open  
**Contact:** Email: evidenceforaction@ucsf.edu; Website: www.evidenceforaction.org
Additional Information: New funding opportunity: Innovative research to advance racial equity; As we enter into a year and a half of the pandemic there’s no doubt that we have had many difficult conversations as a country. One particular topic we should not stop discussing is the harm structural racism has on the health and well-being of society and how we can dismantle it.; RWJF’s Evidence for Action program is currently seeking proposals to evaluate specific policies, programs, and practices that have the potential to contribute to dismantling and counteracting the harms of structural and systemic racism and improving health, well-being, and equity outcomes. Knowing that some approaches to disrupting racism are in early stages of development; other types of research that can advance racial equity will be considered.; Learn more about eligibility an selection criteria >

**RWJF; Pioneering Ideas: Exploring the Future to Build a Culture of Health**

**Sponsor:** RWJF  
**Deadline(s):** Open  
**Contact:** pioneeringideas@rwjf.org  

**Additional Information:** What can we do today to create a better, more equitable tomorrow? Through this new funding opportunity, RWJF seeks to understand and anticipate what dramatic changes we might see in the next five to 15 years in four areas: 1) Future of Evidence; 2) Future of Social Interaction; 3) Future of Food; and Future of Work. Additionally, this call for proposals seeks to support unconventional approaches and breakthrough ideas outside of these areas that could improve health equity and well-being for generations to come. We welcome proposals from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a cutting edge idea that could alter the trajectory of health and increase opportunities for everyone in the United States to live their healthiest life possible. Please note, while this CFP is focused on broader and longer-term societal trends and shifts that were evolving prior to the COVID-19 outbreak, we recognize the unique circumstances and learning created by the COVID-19 pandemic may inform your response. It is at your discretion whether you propose a project related to the pandemic directly or indirectly.

**Additional Information:** ViCTER RFA Released!; Hello Colleagues, just wanted to share information about the release of NIEHS’s Request for Applications (RFA) for the multi-disciplinary “Virtual Consortium for Translational/Transdisciplinary Environmental Research (ViCTER)” RFA-ES-21-007, which posted yesterday evening.; The purpose of the ViCTER program is to foster and promote early-stage transdisciplinary collaborations and/or translational research efforts to address fundamental research among basic (technology and mechanism oriented), clinical (patient-oriented) and population-based researchers in the environmental health field. The newly established collaborative teams will come together in common interest to investigate potential linkages between human health and one or more environmental stressor(s). The ViCTER program is intended to support innovative high-risk, high-reward transdisciplinary/translational research projects that are more difficult to achieve in a typical R01 application. Collaboration among investigators at different institutions through a virtual consortium arrangement is encouraged. The next due date is February 1, 2022. There will be a free informational webinar on November 18th from 2-3pm ET. Please visit the ViCTER webpage for a link to register to the webinar and for any updates related to this announcement: https://www.niehs.nih.gov/research/supported/translational/victer/index.cfm.; I invite you to share this announcement with teams of researchers who might be interested in this funding mechanism. If you have questions, please don’t hesitate to reach out to me.; Thank you, Heather Henry; [brought to our attention by] Heather F. Research Resources has been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initials), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page,

[1]Temporary Extension of Eligibility for the NIH K99/R00 Pathway to Independence Award During COVID-19 Pandemic; NIH just released the following announcement regarding a temporary extension of eligibility for the K99/R00 due to the COVID-19 pandemic

[2] NIH Extramural Nexus relative to this announcement

Sponsor: NIH
Deadline(s): NIH will be providing up to a two-receipt cycle extension (roughly eight additional months) of eligibility for
prospective applicants meeting the requirements for submission of a K99/R00 application from the time period covered by the June/July 2020 due dates through the February/March 2021 due dates.

Notice of Requirement for Electronic Submission of all Administrative Supplements

Sponsor: National Institutes of Health

Deadline(s): [1] Effective immediately, NIH will begin accepting administrative supplement applications for multi-project awards electronically. Since the administrative supplement applies to the parent award as a whole, the single-project application form package used for research grants and cooperative agreements will be used for these submissions (e.g., Competition ID= "FORMS-F-ADMINSUPP-RESEARCH."); [2] Effective July 25, 2020, the streamlined submission method through the eRA Commons will be discontinued and replaced with the option to initiate the administrative supplement application within eRA Commons and leverage technology available in NIH ASSIST to complete submission.; [3] Effective July 25, 2020, all supplement applications to existing single and multi-project awards must be submitted electronically through Grants.gov using NIH ASSIST, Grants.gov Workspace, or institutional system-to-system (S2S) solutions.

Contact: Please direct all inquiries to: NIH Office of Policy for Extramural Research Administration (OPERA) Systems Policy Branch; Email: operasystemspolicy@nih.gov

Additional Information: Related Announcements: PA-18-591-Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp Clinical Trial Optional); PA-18-592- Research Supplements to Promote Re-Entry into Biomedical and Behavioral Research Careers (Admin Supp - Clinical Trial Not Allowed); This Notice alerts the extramural community of three updates to our administrative supplement submission policies.

NIH Guide Notice on Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants
Sponsor: National Institutes of Health (NIH)
Deadline(s): NA; 07/20/2018 (Release Date)
Contact: Please direct all inquiries to: NIH Grants Information; Email: grantsinfo@od.nih.gov (preferred method of contact); [brought to our attention by] Stephanie F. Scott, MS, CRA;
Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu or sfs2110@columbia.edu; Website: https://spa.columbia.edu/

Additional Information: NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH's definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019.
They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019.; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies.; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. For more information, see https://research.columbia.edu/content/good-clinical-practice-training or email NIH-GCP@columbia.edu.; Please read the notice in its entirety for more information, and stay tuned for more updates from me on this topic; [brought to our attention by] Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; Columbia | Research; Sponsored Projects Administration; Email: stephanie.scott@columbia.edu or sfs2110@columbia.edu; Website: https://spa.columbia.edu/; NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; Dear COGR Members, NIH issued the following Guide Notice this morning. Delayed Enforcement and Short-Term Flexibilities for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants.; As you know, COGR and other organizations have expressed concern that the NIH clinical trial case studies broadened the agency's definition of "clinical trial" to include basic science studies involving human participants. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving
human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input “on registration and results reporting standards best suited for prospective basic science studies involving human participants.”

The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details.

Additional Information: NIH Salary Cap: Guidance on Salary Limitation for Grants and Cooperative Agreements FY 2018; NIH issued guidance on the use of a new NIH salary cap, to increase from $187,000 to $189,600. See https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-137.html The effective date of this increase is January 7th, 2018.; NIH has not received the final Fiscal Year (FY) 2018 appropriation and is operating under a continuing resolution through March 23rd, 2018 (see NOT-OD-18-136 also a very important notice). However, NIH
issued this guidance until a budget is passed; in summary, this is how the $189,600 salary cap can be applied: (*) NIH proposal budgets may be submitted using the new cap; (*) Active NIH awards may rebudget to the new cap if restricted to Executive Level II, and adequate funds are available, and the salary cap increase is consistent with the institutional base salary. The new cap should be prorated for the applicable months: (***) Cap is $187,000 through 1/6/18; (****) Cap is $189,600 from 1/7/18 – present; if you have any questions, please feel free to reach out to your SPA Project Officer. **Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Services (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us prior to these deadlines.
Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types (such as R21s) that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@columbia.edu.

Best wishes,

Pam Factor-Litvak

**Sponsor:** NIH

**Deadline(s):** (for NIH application submissions on or after)
01/25/2018

**Contact:** If you are preparing an NIH application due on or soon after January 25th, 2018, you should contact the Human Research Protection Office (HRPO) immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND; (*) The same research protocol will be conducted at multiple domestic sites; If Columbia University is being proposed as one of the participating sites in an application to be submitted this month or soon after by another applicant organization, you must also contact the HRPO immediately. Moving forward, it is recommended that you contact the HRPO as soon as a decision is made to participate in a multi-site study to which the NIH sIRB Policy applies.; An official process that details the requirements for addressing the NIH sIRB Policy is being finalized, to be released shortly. In the meantime, PIs and/or departments can reach out to irboffice@columbia.edu to inform the HRPO about these applications. Upon receipt of your email, HRPO will send you an online form to be completed, and you will be provided with next steps.; In addition, we are offering several options to learn more about the sIRB process. **Note:** Protocols that address the same research questions, involve the same methodologies, and evaluate the same outcomes are considered to be the “same research protocol.” Additionally, sites that are accruing research participants for studies that are identical except for variations due to local context consideration would be considered to be conducting the “same research protocol”; If you have any questions, please contact irboffice@columbia.edu.; Our website contains resources to help you while you get accustomed to all of the policy changes impacting proposal preparation. We have an Excel checklist to help you complete the new PHS NIH Human Subjects and ClinicalTrials Information Form. We also have a one-page reference guide (thank you Katherine Rochmat of School of Social Work for the initial template); https://research.columbia.edu/content/nih-proposal-information; As always, feel free to contact your SPA Project Officer should you have any questions about NIH proposal preparation.; [brought to our attention by] Stephanie F. Changes to NIH policies and procedures related to human subjects research

**Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; Stephanie Scott Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants?; (2) Are the participants prospectively

Review the policy!: Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB's SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval; Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program; If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at irboffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be accessed here. The IRB’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.; Upcoming HRPO Education Sessions: Monthly IRB- Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you!: Please send us your questions as well as suggestions for topics for future education sessions!, We look forward to hearing from you!; https://research.columbia.edu/irb/; Medical Center Office: Phone: 212.305.5883; e-mail: irboffice@columbia.edu; Morningside Office: Phone: 212.851.7040; e-mail: askirb@columbia.edu; Columbia | Research Human Research Protection Office; Institutional Review Boards

assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome? Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/cl-decision/index.htm.

Why is this important? What are the implications if my study is considered a clinical trial? Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials.; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials.; If selected for funding, you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multi-site human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm. Note: These policy updates/changes also apply to individuals conducting research through contracts.; Why is NIH making these changes? As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm. We know this is a lot to process but we are here to answer your questions. Please contact your Program Officer with any questions. If you're uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards,

**Additional Information:** [adapted from] A MESSAGE FROM DEAN FRIED (previously distributed) to Faculty; Dear Mailman School faculty,: In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports.; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R*, and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting and utilizing these supports: (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) Research Resources will contact the external reviewer to ensure his/her willingness to review within one week. That office will also send the appropriate paperwork for paying the honorarium. Three to four weeks prior to submission, [in the case of the 10/05/2017 deadline], 09/14/2017 (3 weeks) or 09/07/2017 (4 weeks) the PI must send the draft of the science to Craig, who will forward it to the external reviewer to complete his/her review within one week. The external reviewer will return comments directly to Craig and the PI. If you think you cannot meet this timeline, please discuss with Pam Factor-Litvak, Associate Dean for Research Resources.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 – 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu.; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Additional Information: NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (Pis) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded.; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

additional information: NIH to limit total grant support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIS) who have multiple awards. The agency will use a “grant support index” that assigns points to variables to types of grants. PIs who exceed a set point, linked to having up to three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded.; An article posted by Nature reports that some researchers believe the new policy will disincentivize research collaborations.; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.
