Dear Fellow Members of the Columbia Community,

As we approach 2021, I write to update you about an important requirement for Spring Term 2021 SARS-CoV-2 Gateway testing. Effective January 4, 2021, a NEW gateway test is required for all faculty, staff, and students accessing Columbia campuses and other facilities. This includes individuals who have been on a campus throughout 2020 and who previously complied with the requirements of the gateway testing program. This gateway test must be administered by Columbia University’s COVID Testing Program starting January 4, 2021 through January 25, 2021.

Due to our stringent quality and data management systems, the only acceptable tests will be conducted by Columbia’s COVID Testing Program at one of our five approved testing sites (Monday to Friday in Morningside Lerner Hall & CUMIC Black Building Schaeffer Gallery; Select dates at West 51st St, Lamont Doherty Earth Observatory, or Tarrytown Columbia Doctors). Tests submitted from other locations, including NYP or WHS, will not be accepted.

Access to all Columbia campuses and facilities via the ReOpenCU app (symptom checker app) and Columbia University ID card swipe system will only be permitted for those faculty, staff, and students who have completed the repeat gateway test requirement by January 25, 2021.

Register for this gateway test online beginning December 23rd, 2020. The schedule opens 10-14 days in advance. During the gateway period, there will be more than sufficient schedule capacity in the Morningside and CUMIC locations to accommodate all those requiring testing; however, schedule availability in each site will depend on the demand for specific appointment dates and time slots. We encourage you to plan ahead, schedule in advance, and consider all testing sites if a particular date and time is preferred.

For those who do not complete a new SARS-CoV-2 PCR test between January 4th and January 25th, access to the campuses and facilities will be reinstated within 48-72 hours of completion of a gateway test at an approved site.

More information regarding the testing plan for the Spring Term can be found online. We thank you for your continuing commitment to participating in the University testing program and the steps you take each and every day to keep our community safe.

with care for our community, Melanie J Bernitz, MD, MPH; Associate Vice President & Medical Director, Columbia Health; Associate Clinical Professor of Medicine (in the Center for Family and Community Medicine); More Information: covid19.columbia.edu

National Institute of Environmental Health Sciences; Telephone: (984) 287-3125; Email: anika.dzierlenga@nih.gov

**Additional Information:** Addresses the urgent need for mission-relevant research to understand the impact of environmental exposures on Coronavirus Disease 2019 (COVID-19) and its causative agent, the virus SARS-CoV-2. NIEHS is particularly interested in applications that will provide insight into the role of environmental exposures in pathogenicity, transmission, individual susceptibility, or prevention and intervention strategies. Examples of environmental exposures relevant to the NIEHS mission include: toxic chemicals, air pollutants, second hand tobacco smoke, e-cigarette vapors, metals, and other environmental chemical exposures that may impact health outcomes. NIEHS is accepting applications addressing COVID-19 through the administrative supplement, urgent competitive revision, and time-sensitive mechanisms.

**Additional Information:** An Update from the Columbia University Biobank (CUB) and COVID-19 research; This message is sent on behalf of the Columbia University Biobank (CUB) from Dr. Muredach Reilly, Director, Irving Institute for Clinical and Translational Research, and Dr. Michael Shelanski, Senior Vice Dean for Research, at the Columbia University Irving Medical Center.; For questions, contact: General questions: Danielle Pendrick, dp2657@cumc.columbia.edu ; Researchers can contact - PS-Officeforresearch@cumc.columbia.edu ; Participants can contact - CUbiobankCOVID19@cumc.columbia.edu ; As you will remember, the Columbia University Biobank (CUB) quickly pivoted in April 2020 in response to the urgent needs surrounding the coronavirus pandemic. Since then CUB has collected biospecimens from Columbia University Irving Medical Center/NewYork-Presbyterian Hospital (CUIMC/NYP) patients who tested positive for SARS-CoV-2, and re-distributed samples to researchers across campus. Currently we have over 90,000 biospecimens banked from more than 14,000 patients (both COVID-19 positive, and negative) including DNA, RNA, serum, plasma, urine, and other tissue samples. Given the number of patients treated for COVID-19 at CUIMC/NYP and the diversity of our patient population, Columbia's COVID-19 biobank is arguably the largest and most distinct in the United States. Additionally, CUB has consented more than 2,400 patients for genomic research and future research studies to further advance our understanding of COVID-19 and its devastating clinical consequences.; Since our last update, whole exome sequencing data has been generated on more than 1,000 patients diagnosed with SARS-CoV-2, and is currently available in AWS for download with the appropriate IRB and CUB approvals. Host and virome RNA sequencing and microbiome data generation is ongoing, and will soon be available to investigators with CUB approval. We are also excited to announce that Dr. David Goldstein has partnered with Vanda Pharmaceuticals to perform whole genome sequencing on 1,000 CUB COVID+ patients. Once generated, this data will also be available to CUIMC researchers for their own analyses.; Dr. Krzysztof Kiryluk in the Department of Medicine is spearheading an effort to generate SARS-CoV-2 genome-focused clinical phenotypes, which will then be combined with sequencing data generated by the Institute for Genomic Medicine, into a single dataset that will be available centrally through CUB. We hope that this data will be useful to any Columbia investigator performing genetics and genomics analyses to address SARS-CoV-2-related research. Additionally, the CUB Clinical Phenotype Committee (CPC), led by Dr. Mitchell Elkind, has been established to oversee efforts related to the generation of broader COVID-19 clinical phenotypes. The CPC is multidisciplinary working group which includes experts from the Departments of Anesthesiology, Surgery, Pediatrics,
Emergency Medicine, Biomedical Informatics, Obstetrics and Gynecology, and Medicine (Pulmonary, Cardiology, Nephrology and Transplant). The CPC has focused initial efforts on standardizing, validating, and refining core SARS-CoV-2 related phenotype definitions, which will be made widely available when completed. As of October 2020, over 140 requests to the biobank were reviewed by the CUB Sample and Data Committee, and more than 22,000 samples have been disbursed to support a wide range of research studies across the CUIMC community. With assistance from Drs. Kevin Roth, Eldad Hod, and Susan Whittier in the Department of Pathology and Cell Biology, we are able to continue residual clinical sample collections, which will be critical as the coronavirus continues to spread.; While CUB has initially focused on COVID-19 due to obvious needs, it continues to look past the pandemic and begin University-wide recruitment efforts with multiple partners and across multiple domains towards the ultimate goal of enrolling all CUIMC/NYP patients. To this end, we are excited to be partnering with the IGM's All of Us team. The Columbia University Biobank is now being offered to All of Us participants during their enrollment and retention activities. CUB looks forward to applying the lessons learned from the All of Us Research Program to the CUB recruitment efforts.; We encourage you to use the research resources offered through the CUB website. ; As we enter another chapter in the COVID-19 pandemic and again brace ourselves for potential challenges ahead, it is with great thanks that we acknowledge the strength of the Columbia community. Having the Columbia University Biobank now in full operation will significantly benefit the vital research yet to come.; Stay safe, Muredach Reilly, MBBCh; Director, Irving Institute for Clinical and Translational Research; Michael Shelanski, MD, PhD; Senior Vice Dean for Research; On behalf of the Columbia University Biobank

The RUNX1 Research Program (RRP), is a non-profit organization with the mission to improve the quality of life and prevent cancer in RUNX1 familial platelet disorder. RRP pursues its mission through funding world-class, collaborative research, and building an empowered patient network integrated within the medical research community. EvansMDS and RRP are working together to multiply our impact on a highly specific area of research that will benefit patients if given focused attention.; The joint FIRE Grant Program is particularly interested in funding projects that are considered high-risk/high reward. Priority will be given to projects that focus on RUNX1-FPD but other projects are welcomed. If submitting a project without focus in RUNX1-FPD, it is imperative the investigators clearly communicate how a proposed study has direct relevance to, or potential impact on RUNX1-FPD.; Other immediate priorities include: Strategies for therapeutic intervention in high-risk patient populations with germline mutations that predispose to MDS/AML; Leveraging FDA-approved or advanced investigational agents that target proinflammatory pathways to determine if such agents can halt disease progression; Inclusion of data derived from patient specimens to inform hypothesis-driven translational studies directed toward future clinical studies; Investigator-initiated proof-of-concept clinical trials.; Formation of multidisciplinary teams that include expertise in basic, translational and clinical research.; Through this funding mechanism, RRP and EvansMDS have allocated approximately $800,000 to this grant program. Each proposal can request funding for 2 years. We will support approximately two (2) studies. We anticipate this to be a highly selective and highly competitive process. Applications will be peer-reviewed by an independent review panel led by both RRP and EvansMDS.; For more information and to apply, follow the link here.; Request for Letters of Intent for Studies of Inflammation and Clonal Hematopoiesis; Award amount: Up to $200,000 per year for up to two years; Letter of Intent Submission Deadline: February 1, 2021; Letters of intent are due February 1, 2021 and will be reviewed by a Joint Reviewing Committee comprised of Scientific Advisors from each Foundation. All documents must be submitted in electronic form, as a single pdf file, by email, to grants@epefoundation.org. Applicants selected to submit a full proposal will be notified in early March 2021. The deadline for submission of the full proposals will be in early April 2021. It is intended that funding will be initiated by September 1, 2021.

Interested applicants may supplement parent awards focused on bioethics or add a component related to bioethics to a parent award in which bioethics was not the focus.”; See below and the link above for details about this administrative supplement opportunity.; [brought to our attention by] Stephanie Scott;

**NIH Seeks to Fund Research and Capacity Building Efforts Related to Bioethical Issues:** On November 17, 2020, the National Institutes of Health (NIH) announced a Funding Opportunity Announcement (FOA) for administrative supplements to support research on ethical considerations related to biomedical research and projects that support capacity building in bioethics. Consideration of ethical issues associated with biomedical research is intrinsic to the responsible conduct of science and the translation of scientific and technological advances into practice. The investment in, and the integration of, bioethics-related research and policy demonstrates NIH’s commitment to safeguarding the integrity of the research that it conducts and supports. Applications will be accepted until March 06, 2021, and all organizations administering an eligible parent award may apply for a supplement under this announcement. Interested applicants may supplement parent awards focused on bioethics or add a component related to bioethics to a parent award in which bioethics was not the focus. Issues addressed are expected to fall within the scope of research and policy activities of the NIH but may be beyond the focus of any one Institute or Center. In addition to overarching areas of interest, individual Institutes and Centers have indicated specific areas of research interest within the announcement. Complete Information, including how to apply can be found here; Questions about the FOA may be directed to the agency contacts included in the announcement.

Katz Early Stage Investigator Research Project Grant (R01 Clinical Trial Not Allowed); PAR-21-039 - Stephen I. Katz Early Stage Investigator Research Project Grant (R01 Basic Experimental Studies with Humans Required); ESIs may apply for this program to support their innovative ideas if they are: Proposing research that is a change in direction from their past work and experience; and For which they have no preliminary data.; The first due date for applications is January 26, 2021.; See additional guidance for prospective applicants.; For a listing of the Scientific/Program Contacts by NIH Institute/Center to address your programmatic questions: Contacts for PAR-21-038; Contacts for PAR-21-039 [brought to our attention by] Stephanie Scott; sfs2110@columbia.edu Introducing the Stephen I. Katz Early Stage Investigator Research Grant Program: Stephen I. Katz, M.D., Ph.D., led the National Institute of Arthritis and Musculoskeletal Diseases from 1995 until his passing in 2018. Dr. Katz was a talented physician scientist, NIH leader, and civil servant throughout his career who was profoundly dedicated to mentoring and training the next cadre of scientists. During his memorial service at NIH, you can see this dedication on full display. I, along with countless NIH colleagues, were blessed with Dr. Katz’s mentoring and sage advice. That is why, in his honor, we are pleased to announce the publication of Funding Opportunity Announcements for the Stephen I. Katz Early Stage Investigator Research Project Grant program (PAR-21-038 and PAR-21-039); We know that early stage investigators (ESIs) experience intense competition for funding, which poses a challenge when embarking upon and sustaining an independent research career. This is one of the reasons we launched the NIH Next Generation Researchers Initiative (NGRI) in 201. NGRI, amongst other features, prioritizes funding for ESIs across NIH. As a testament to its success, NGRI has helped NIH go from supporting less than 600 ESIs in FY 2013, to 1,316 in FY 2019, and at least that number in 2020.; The new Katz R01 award program will build on these successful NGRI efforts. ESIs may apply for this new opportunity to support their innovative ideas if they are proposing research that is a change in direction from their past work and experience, and for which they have no preliminary data. For those ESIs who have preliminary data for research projects or those who want to continue on with their current research direction, NIH’s Parent R01 funding opportunities are still available.; Why the focus on no preliminary data? Well, this means that talented individuals can still seek NIH funding and pursue creative and innovative scientific hypotheses even though they lack the initial findings. Moreover, this should expand pathways and opportunities for those early in their career, something called for by the Advisory Committee to the NIH Director in their 2018 NGRI working group report.; An investigator, importantly, would also be able to pursue a new direction through this program. These could include exploring a new approach, testing a new technique, using a new methodology, or even investigating a new paradigm in biomedicine. As part of their application, they will need to explain how the research direction is new to them and not an obvious or incremental extension of their prior efforts.; And what about peer review? All applications received as part of this funding opportunity announcement will be clustered and reviewed together in appropriate NIH standing study sections. This further aligns with related NGRI efforts giving applications from ESIs special consideration during peer review.; The first due date for applications is January 26, 2021. Be sure to read the entire funding opportunity announcement before applying and this additional guidance for prospective applicants. We look forward to receiving your ideas.

Additional Information: K Award Course; 2020 – 2021; We are pleased to announce that the 2020 - 2021 cycle of the K Award Development Seminars will begin on Thursday, October 15th, 2020 and will run through Thursday, May 20th, 2021. As of now, seminars will be held virtually on the 3rd Thursday of every month from 10:00 am-11:00 am (with the exception of the May seminar which will be Thursday, May 20th; 10:00 am – 11:30 am). These seminars are to assist research fellows and junior faculty with preparing their proposal for a K Award, but also to expose the application process to those who are interested in learning more. Each monthly seminar has a faculty presenter or panel and focuses on a component of the K Award application. One of the seminars is a mock review, where seminar participants volunteer to have their applications reviewed by faculty and the class experiences a simulated review committee meeting. If you are interested in registering (or if you will be recommending others to take the course), please note that we are expecting participants to commit to the full cycle by attending each monthly seminar and be willing to share interim drafts for constructive comments. To register, please complete this survey form: https://www.surveymonkey.com/r/X5K8893. DSI Scholars Program; Call for Faculty Participation; Spring/Summer 2021 Cohort

**Sponsor:** Home - The Data Science Institute at Columbia University

**Deadline(s):** 01/01/2021

**Contact:** dsi-scholars@columbia.edu.

**Additional Information:** DSI Scholars | Call for Faculty Participation; DSI Scholars Program; Call for Faculty Participation; Spring/Summer 2021 Cohort; The Data Science Institute is calling for faculty submissions of research projects for the spring and/or summer 2021 sessions of the Data Science Institute (DSI) Scholars Program. The goal of the DSI Scholars Program is to engage undergraduate and master students to work with Columbia faculty, through the creation of data science research internships. Last year, we worked with 42 projects and received more than 730 unique applications from Columbia Students. The program’s unique enrichment activities foster a learning and collaborative community in data science at Columbia. [Apply here](https://cu-dsi-scholars.github.io/DSI-scholars/2020/12/call-for-faculty-participation-dsi-scholars-spring-summer-2021/), and find more details [here](https://cu-dsi-scholars.github.io/DSI-scholars/2020/12/call-for-faculty-participation-dsi-scholars-spring-summer-2021/). Funding support: For selected projects, the DSI will provide matching funds of up to $2,500 per project for internship-supporting stipends. Approximately 10 such stipend funds will be awarded. This fund is expected to be a fraction of a full stipend that is appropriate for the time and effort required by the research project. The DSI Scholars program recommends that the PI/lab engage DSI scholars approximately 5–8 hours a week during the academic semester and consider a full-time or part-time research internship during summer. Allocation of funds will be made via a first-come-first-serve need-based process, with efforts to balance allocation across disciplines, to prioritize new PIs/labs/projects, and support novel interdisciplinary research.; Administrative support: The DSI will collect faculty-submitted internship positions and create an umbrella application page to solicit student applications. The collected applications for each position will be compiled and sent to the hosting faculty/center/lab for review. The faculty/center/lab will then review, identify and notify the Scholars for their own projects. Funded projects will receive additional support through the coordination of stipends with Student Financial services.; Intellectual support via the DSI Scholars enrichment activities: The DSI education committee will organize the following enrichment activities for the DSI Scholars Program.; Bootcamps on Data Science Research Skills - During the first weeks of summer 2021, we will run bootcamps on data science research skills. All students who have been selected for a DSI Scholars project (receiving matching funds or not) are especially encouraged to attend, with additional seats available for other interested applicants.; Scholars in Data Science meetup series - Throughout this series, we will provide Scholars opportunities to learn about data science research outside their own project and a community of peer student researchers. Each session will be led by a data scientist at Columbia and will consist of a 45-minute seminar talk and a 45-minute hands-on activity.; Annual Research Poster Session: All DSI Scholars (receiving matching funds or not) will be invited to present their research during a DSI poster session at DSI Town Hall in the fall 2021 semester.; Questions? Get full details [here](https://cu-dsi-scholars.github.io/DSI-scholars/2020/12/call-for-faculty-participation-dsi-scholars-spring-summer-2021/) or see our [PI FAQ](https://cu-dsi-scholars.github.io/DSI-scholars/2020/12/call-for-faculty-participation-dsi-scholars-spring-summer-2021/). **Link(s):** [CALL FOR APPLICATIONS: Center & Institute Initiative to Enhance Remote Learning and Teaching](https://scienceandsociety.columbia.edu/content/call-applications-enhance-learning)

**Additional Information:**

Dear Colleagues, Please find below information about brand new grants offered by a consortium of Columbia centers and institutes, including the Center for Science and Society. We hope you will help us spread the word among your students and colleagues who may be eligible to apply. We encourage you to apply if you are teaching/taking classes online this academic year and have ideas for activities and initiatives that can improve the online teaching/learning experience. I am also attaching a PDF document with all the information about the grants.

**Eligibility:** All Columbia and Barnard faculty, instructors, undergraduate and graduate students, TAs, research fellows and postdocs (if teaching or taking a class in the 2020-21 academic year) are eligible to apply.

**Amount:** Funding of up to $1,500 per proposal is available.

**Deadline:** Applications for the grants are open via rolling submission throughout the 2020-21 academic year.

**Description:** With a challenging academic year ahead, a consortium of Centers and Institutes will offer funding for proposals that cultivate student engagement and enhance the online learning experience for Columbia students and instructors. As many universities and colleges grapple with the reality of online and hybrid instruction in the wake of the COVID-19 pandemic, faculty members, teaching assistants, instructors, and students prepare to learn and teach in unprecedented ways. Structuring engaging online or hybrid courses is not a simple task. To help ameliorate some of the challenges, the Center for Science and Society, the Center for the History and Ethics of Public Health, the Institute for Religion, Culture and Public Life, the Institute for Comparative Literature and Society, the Center for Justice, the Center for American Studies, and the Institute for the Study of Human Rights will offer funds throughout the 2020-21 academic year to proposals that aim to improve the online classroom experience and promote student engagement. We welcome proposals from any member of any course offered in the 2020-21 academic year - instructor, TA, or student. Successful proposals will lay out course activities (to be carried out inside or outside class sessions) that will enhance the teaching and learning experiences of remote learning; they can also suggest innovative pedagogical strategies and tools. They can be proposed at any time during an ongoing, or in advance of a future, course. This funding opportunity aims to make resources available quickly so that students and teachers can respond rapidly to class dynamics, ideas, and opportunities.

Activities might include forming online student-instructor groups, special events, public outreach activities or webinars, journal/book clubs, outdoor activities, in-home activities or demonstrations, financial support for assistance in the classroom, special speaker honoraria, etc.; We look forward to receiving innovative proposals, especially from students and TAs. Visit the Center for Science and Society website to apply. Additional Information: [SPA News] FW: eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; NIH sent this announcement yesterday after they had already made the changes in their Human Subjects System (HSS). Please see below, it outlines the changes made to the HSS and its integration with the updated FORMS-F PHS Human Subjects and Clinical Trials Form. [brought to our attention by] Stephanie Scott ; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; eRA Information: Changes in HSS Post-Submission Updates with FORMS-F Starting June 13; Monday, June 15, 2020; As of Saturday, June 13, 2020, all applicants and recipients submitting post-submission updates in the Human Subjects System (HSS) will use the updated FORMS-F PHS Human Subjects and Clinical Trials Information Form. These updates address new requirements for participant-level data on sex/gender, race, ethnicity, and age at enrollment for projects subject to the NIH Policy and Guidelines on the Inclusion of Individuals Across the Lifespan as Participants in Research Involving Human Subjects. ; Users with records currently in progress will need to modify the records to meet new FORMS-F requirements.; The changes listed below include items released by eRA in March and items released on June 13.; Key FORMS-F Changes to the PHS Human Subjects and Clinical Trials Information Form; [*] A new Inclusion Enrollment Report title field is now available. The human subjects study title will appear by default for all existing studies and may be changed by the user. For new studies and those with a work in progress study, the title will be blank and need to be filled by the grantee. See Figure 1.; Figure 1: Inclusion Enrollment Report Title Field; [*] For clinical trials, the “Brief Summary” field will no longer appear in Section 4. Information in this field prior to June 13, 2020 will continue to be available in the PDF images of applications and Research Performance Progress Reports (RPPRs) submitted prior to this change.; [*] Question 1.A.a. “Does the study involve human subjects/participants” now has a default value of yes and cannot be changed unless the user changes their response to the question “Are Human Subjects Involved?” on the Other Projects Information form. As a study record should be completed only for research involving human participants, the “No” option is no longer available for this question. See Figure 2.; Figure 2: Question 1.A.a. of the Clinical Trial Post Submission Study Record; [*] In Section 2.8 of the Study Record: PHS Human Subjects and Clinical Trials Information screen, the language has been changed from 'Enrollment of First Subject' to ‘Enrollment of First Participant.’; [*] A new question has been added to the Study Record: PHS Human Subjects and Clinical Trials Information screen...
— Section 4.6 asks ‘Is this an applicable clinical trial under FDAAA.’; [*] For a full list of significant FORMS-F changes, see the High-level Grant Application Form Change Summary: FORMS-F PDF.; Key Inclusion Across the Lifespan Changes; [*] Recipients reporting actual enrollment progress for a grant application submitted for due dates January 25, 2019 or later must provide participant-level data on sex/gender, race, ethnicity, and age at enrollment in the Inclusion Enrollment Report of the PHS Human Subjects and Clinical Trials Information Form using HSS; [*] Users must use the spreadsheet template available in HSS to submit participant-level data. The column titles must not be altered, and data should be provided using the values modeled in the template. Changes to the template may result in a submission error. See Figure 3; Figure 3: Download Participant Level Data Template button on the Inclusion Enrollment Report; [*] Participant-level data must be uploaded in .csv format. Users do not need to separately enter the individual numerical fields in the Actual (Cumulative) Inclusion Enrollment Report table once the .csv file is successfully uploaded. The data provided will populate the actual (cumulative) enrollment table within the system. See Figure 4.; Figure 4: Upload Participant Level Data Attachment button on the Inclusion Enrollment Report; [*] For more information on the requirement of individual-level participant data on sex/gender, race, ethnicity, and age at enrollment in progress reports for research supported by NIH projects, please see NOT-OD-18-116.; For more information, see: [*] Entering Inclusion Data Using the Participant Level Data Template (video and transcript); Participant-level Data Template ; [*] The eRA Human Subjects System (HSS) information page ; [*] Information about the PHS Human Subjects and Clinical Trials Information form ; electronic Research Administration (eRA); NIH Office of Extramural Research; Questions? Contact: https://grants.nih.gov/support/index.html ; SPA
Link(s): https://grants.nih.gov/grants/forms-f/data-tables.htm

Additional Information: Data Tables for training grants; NIH just posted the latest Data Tables for FORMS-F required institutional training grant proposals. These tables will be required for applications due May 25, 2020 or later. Go to: https://grants.nih.gov/grants/forms-f/data-tables.htm; They did not post a significant changes document yet, so I took the instructions from the previous tables and did a comparison to the new tables. See attached “Changes from FORMS-E to FORMS-F”.; I have an email to NIH to clarify the significant changes, and any impact they may have in xTRACT. Upon first glance, the changes appear to be more of clarifications of the instructions, rather than anything drastically different.; I know a number of you are preparing training grant proposals for May. Please feel free to take a look at these changes, and let me know if you have questions. This way I can collect them all and send them to NIH for clarification. As every training grant program is different, you may also need to go to your Program Officials for direction on how they want the table completed for your specific set of circumstances.; As soon as I have more information from NIH I will pass it along.; [brought to our attention by] Stephanie F. [NTW] [SPA TRAINING GRANT RPPRS AND SURVEY]

Training Grant RPPRs and Survey

Sponsor: SPA/HICCC
Deadline(s): 10/01/2020 (Release Date)
Contact: [brought to our attention by Stephanie Scott, SPA], sfs2110@cumc.columbia.edu ; If you have any questions about it, please contact Stuart Fischer at sfg2@cumc.columbia.edu ; For inquiries concerning the policy described in the NOT-OD-20-178 Notice, contact: NIHTrain@mail.nih.gov
https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJ0q5kp

Additional Information: Training Grant RPPRs and survey; Training Grant RPPRs and survey; Hello, Training Grant PIs and Administrators. This is just a quick reminder to please take the very survey below from HICCC, available here: https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJ0q5kp ; For background, see below and attached. If you have any questions about it, please contact Stuart Fischer at sfg2@cumc.columbia.edu  Thank you! We will be contacting folks individually if we don’t hear from you.; Steph; Dear Training Grant Directors and Administrators, We have two important updates regarding Research Performance Progress Reports (RPPRs); To follow up on the TGA meeting we held on August 12 (see attached slides), we’d like to request that PIs complete the following Qualtrics survey indicating your willingness to share your next RPRP with the Herbert Irving Comprehensive Cancer Center (HICCC) administration. Go to https://cumc.co1.qualtrics.com/jfe/form/SV_dnlpKjMHjJ0q5kp to complete the survey.; Background: HICCC is an NCI-designated Comprehensive Cancer Center. Its Cancer Center Support Grant with Dr. Anil Rustgi as Principal
Investigator was recently renewed for a period of five years. Starting this year, as required by NCI, a new dedicated Cancer Research Career Enhancement (CRCE) Core, with Dr. Wendy Chung as Director, was established in the HICCC to coordinate education and training activities and provide educational opportunities at all levels, from high school to faculty.; CRCE serves all HICCC members, some of whom may be mentors on your active institutional grants. The NCI requires that HICCC collect data and submit reports on the education and training activities of HICCC members who are mentors on your grants. During our meeting on August 12, we discussed your willingness to share your RPPRs with the HICCC in order to meet NCI’s mandate. Attendees on the call were amenable to the idea. The information will be used solely for the purposes of enabling the CRCE Core to meet the NCI’s requirement and will allow CRCE to enhance the programming focused on trainees in cancer research.; SPA will provide a copy of the RPPR to HICCC if you select YES to the following statement: "As the P.I of this training grant, I am willing to share the Research Performance Progress Report of this training grant with the Herbert Irving Comprehensive Cancer Center administration." If you are unwilling to provide the RPPR to HICCC, please email Stuart Fischer at sgf2@cumc.columbia.edu and we will connect with you separately.; New Requirement for Trainee Diversity Report, beginning October 30, 2020; See full NIH announcement at https://grants.nih.gov/grants/guide/notice-files/NOT-OD-20-178.html ; NIH is integrating the Trainee Diversity Report into xTrain, which will now be generated electronically using trainees’ demographic data from their eRA Commons Personal Profiles. This electronically generated report must be included with the RPPR. RPPRs lacking an electronically generated report will not be accepted. We are waiting for more specific instructions on how this will work, so stay tuned and we’ll provide you with more information.; If you have any questions about the Qualtrics survey, please reach out to Stuart Fischer at sgf2@cumc.columbia.edu ; Thank you!; Stephanie F. Scott, MS, CRA; Director of Policy and Research Development; sfs2110@cumc.columbia.edu ; Website: https://spa.columbia.edu/

**Additional Information:**

Dear Mailman School faculty,

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

I’m happy to report that those using the services this fall have found them valuable. Katherine Keyes in Epidemiology spoke enthusiastically at the recent Assembly: “It was a great experience. I got to focus on the science without having to deal with any of the administrative aspects. I got really good feedback. I will be using these services again.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about them the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days ahead of the deadline. We will make arrangements with the editor. Comments will be returned to Craig and the PI for finalization and submission within a few days.

Please keep in mind that it may take you a day or two to incorporate comments and edits. For best results, get in touch with us **prior to these deadlines.**
Research Support Services cover first-time submissions, and we are pleased to expand the service to encompass resubmissions (if the support services have not been utilized for the grant) of R01, P, K, Center, T32, or other complex NIH proposals by full-time faculty with primary appointments in the School. I am available to provide feedback for grants that utilize this service and also for other grant types that are ineligible for the services.

If you have any questions about your eligibility or the above process, please visit Research Resources online or contact me at prf1@cumc.columbia.edu.

Best wishes,

Pam Factor-Litvak

Additional Information: Research Resources regularly posts funding opportunity announcements from the Department of Defense. The https://cdmrp.army.mil/funding/prgdefault link defaults to all current opportunities. Please see piecemeal programs and their individual opportunities for Deadlines. Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the Grants.gov website http://www.grants.gov, the CDMRP website https://cdmrp.army.mil/funding/prgdefault and the electronic Biomedical Research Application Portal (eBRAP) https://eBRAP.org. All CDMRP funding opportunities, both recently and previously released, are available on the CDMRP website https://cdmrp.army.mil; Subsequent notifications will be sent when additional funding opportunities are released. A listing of all open CDMRP funding opportunities can be obtained on the Grants.gov website by performing a basic search using CFDA Number 12.420.; Submission is a two-step process requiring both pre-application submission and full application submission. All pre-applications must be submitted through eBRAP https://eBRAP.org. Full applications from extramural organizations (non-DoD organizations) must be submitted through Grants.gov http://www.grants.gov. Intramural DoD organizations may submit full applications to either eBRAP or Grants.gov. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity; eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

Municipal wastewater offers the potential to significantly increase the nation’s total available water resources. However, wastewater as a potential source water remains both a technical and economic challenge due to the potential variety of contaminants that can be present such as metals, salts, organic chemicals, nutrients, pathogens and emerging contaminants; This funding opportunity aims to support research into the development of standardized approaches to identify, characterize, and validate suitable viral surrogates and enumeration methods for quantifying the potential human health risks posed by the concentrations of human enteric viral pathogens found in reclaimed wastewater. EPA is requesting new information on the concentrations of infectious viral pathogens relative to the concentrations of viral surrogates. EPA is also looking for data on the inactivation or removal of viral pathogens and surrogates needed to (1) establish and verify viral pathogen log-reduction values for individual unit treatment processes and through treatment trains, (2) inform monitoring, and (3) optimize treatment train performance.; Applications should address at least one of the following research areas: [1] Viral Surrogates for Assessing Treatment Performance; [2] Identifying Quantitative Reductions of Viral Pathogens and Surrogates across Unit Treatment Processes and Full Treatment Trains for Water Reuse Applications; The STAR Program’s goal is to stimulate and support scientific and engineering research that advances EPA’s mission to protect human health and the environment. It is a competitive, peer-reviewed, extramural research program that provides access to the nation's best scientists and engineers in academic and other nonprofit research institutions. STAR funds research on the environmental and public health effects of air quality, environmental changes, water quality and quantity, hazardous waste, toxic substances, and pesticides.; For information on eligibility, project specifications, or how to apply, visit [https://www.epa.gov/research-grants/viral-pathogen-and-surrogate-approaches-assessing-treatment-performance-water-reuse](https://www.epa.gov/research-grants/viral-pathogen-and-surrogate-approaches-assessing-treatment-performance-water-reuse) ; Learn more about the Safe and Sustainable Water Resources (SSWR) Research Program.; Learn more about EPA Research Grants.; Informational Webinar for

Applicants should focus on how states consider sources of performance data and other information to make decisions to allow innovative water technologies to be used and establish effective ways for multiple states to cooperate to prevent or minimize state-by-state testing protocols.; Expected outcomes of research from this RFA include: [*] Reduced economic costs of deploying demonstrated innovative water technologies; [*] Improved public health and reduced risks of deploying demonstrated innovative water technologies; and [*] Streamlined approval process for demonstrated innovative technologies that provide clean drinking water supplies with minimal environmental impact.; Please note: Cost-sharing is required for this award. Each applicant must contribute a minimum non-federal cost share/match of 54% of the federal funds awarded. This is equivalent at a minimum to 35% of the total project costs.; This RFA is congressionally directed through the explanatory language of the FY20 appropriations bill and America’s Water Infrastructure Act of 2018,

Additional Information: PEPH: Citizen Science Symposium / Publication Opportunity; Happy Friday, PEPH friends!; I just learned about the following opportunity through the American Philosophical Society; https://www.amphilsoc.org/blog/cfp-promise-and-pitfalls-citizen-science, I have pasted the full call below.; I know that many of you are doing work in this area. Note the specific areas of interest they have bulleted out in the call for papers, which are due on 12/18/2020.; I found that these topics of interest resonate well with much of the community engaged research to address environmental health disparities and bring about environmental justice. The APS notes the connection between “citizen science” and “community-led science,” which is an important aspect of this conversation several of you have been emphasizing for years.; In health, --Liam; Inspired by its 2021 exhibition Dr. Franklin, Citizen Scientist, the American Philosophical Society’s Library & Museum is organizing a symposium that explores citizen science as a phenomenon. The symposium’s theme reflects the work of Benjamin Franklin and others who lacked formal training and whose work sometimes went unacknowledged but whose contributions significantly added to the advancement of knowledge. It hopes to expand upon the theme of the exhibition by exploring understandings of citizen science over time, placing historical initiatives in conversation with present day projects as well as reflecting on the future needs and opportunities of the movement.; The Library & Museum invites innovative proposals from scholars from all disciplines whose research may contribute to a conversation about the past, present, and future of citizen- or community-led science. The chronological scope of the conference is open-ended and proposals from those whose work can provide a long historical perspective on these issues are encouraged to apply.; Potential topics include (but are not limited to): [*] Historical perspectives on the concept and definition of citizen science and the myriad of ways people have performed what we now often call “citizen science.”; [*] The diverse range of people who have contributed to the advancement of knowledge over time, including the work of lesser-known figures and historically

marginalized communities; [*] The role of citizen science in promoting environmental and social justice, and for climate science.; [*] Outcomes of citizen science projects, such as new scientific knowledge, policy change, conservation action, or educational resources and their impact on the broader social, cultural, and political sphere.; [*] Recent developments in the citizen science movement, including best practices and innovative approaches. Of particular interest is the role of technology in developing projects and pedagogical techniques used to incorporate projects into the classroom.; [*] Issues of inequality in limiting access to scientific knowledge and participation, both historically and in the present.; [*] Challenges to collecting data and building trust through projects (including issues of scale), as well as possible solutions to those problems.; [*] Failed citizen science projects and the lessons they offer.; [*] The relationship between professional science and citizen science, over time and in the present, including the ways in which professionalization has changed the way scientific work is done and who can conduct it.; [*] International perspectives on citizen science.; Applicants should submit a title and a 250-word proposal along with a C.V. by December 18, 2020 via Interfolio: https://apply.interfolio.com/79883 ; Decisions will be announced in February 2021.; The symposium will be held the week of April 5, 2021 in Philadelphia. At this point, we have not determined if the conference will be online or in person. If in person, all presenters will receive travel subsidies and hotel accommodations. Accepted papers will be due a month before the conference and pre-circulated to registered attendees. Papers should be no longer than 15 double-spaced pages. Presenters may also have the opportunity to publish revised papers in the APS's Transactions, one of the longest running scholarly series in America.; For more information, visit https://www.amphilsoc.org , or contact Kyle Roberts, Associate Director for Library and Museum Programming at kroberts@amphilsoc.org or Adrianna Link, Head of Scholarly Programs, at alink@amphilsoc.org.

Research Resources have been apprised that the R2eport distribution email to Faculty and other colleagues at times sorts to MS Outlook’s “Other” vs. “Focused” tab when web accessed. You may move an email from the “Other” to “Focused” in box tabs, by selecting Move to Focused if you want only the selected message moved; or you may select Always Move to Focused if you want all future messages from the sender to be delivered to the Focused tab. You may also Turn off Focused In Box when accessing MS Outlook via the web by accessing the settings (cog icon adjacent to your initial), accessing “all outlook settings”, activating the “Don’t sort my messages” button and saving this setting. Rectifying email sorting to Outlook’s Junk folder, may also be addressed. R2eports are posted weekly on our Reports Page

Since the fellowship deadline is next week (August 8th), I wanted to bring this to your attention.; I highlighted what I thought were the key points below. limited fields of the application forms. Similarly, if you have information that does not have a "natural home" based on our instructions, don't include it. There are several form fields with tempting names like "Appendix," "Other Attachments," "Other Requested Information," and "Other Clinical Trial-related Attachments." DO NOT use those fields unless requested to do so in the application guide or announcement; Why not? Even if you have the best of intentions, you need to resist the temptation to force fit information into your application where it doesn't belong. The page limits and guidance are there for fairness and you may find your application pulled from consideration if you try to get around them.\footnote{NOT-OD-11-086}; \textbf{The Duplication Balancing Act}: The application guide statement "do not duplicate information between the Research Strategy attachment and the PHS Human Subjects and Clinical Trials Information form" appears to be causing some angst in the community. In fact, our new human subjects form invites a certain amount of overlap between the sections. It would be difficult, for example, to provide a "Brief Summary" of a protocol without talking about information captured elsewhere in the application.; The point we were actually trying to make is that we don't want you to copy and paste blocks of text into multiple places in your application. Your Specific Aims and Research Strategy should include enough human subjects and clinical trial information to tell a cohesive and complete story. The human subjects form is meant to provide structured, supporting details for the story (sorry, it isn't just extra space to expound on the research strategy). The Brief Summary in the Protocol Synopsis section of the human subjects form aligns with what the public would see in ClinicalTrials.gov without the benefit of the full application. It should hit the key points at a very high level in as close to plain language as possible.; The bottom line is there will be some overlap of information within your application, but reviewers should not be reading blocks of text copied verbatim into multiple sections of the application.; \textbf{Space-Fill Compulsion}: My mother, an interior designer, never saw a horizontal surface she didn't want to decorate. For years I encouraged her to declutter and often she'd begrudgingly remove a knock-knock from a table of shelf. But the next time I'd visit a new knock-knock was sitting right it its place. My dad calls it space-fill compulsion.; Our new human subjects form has several text fields with large character limits (e.g., Eligibility Criteria - 15,000 characters; Brief Summary - 5,000 characters; Narrative Study Description - 32,000 characters). These character limits match those in ClinicalTrials.gov and were set artificially high so the system could accommodate more characters than are actually needed.; Here is a fun little tidbit we've learned ... folks who are already funded and entering information into ClinicalTrials.gov tend to be more picky than folks applying for funding. Could it be that while composing your response you see the character count is well below the available space and assume NIH wants more? Space-fill compulsion, perhaps?; If you've covered what you need to say in a few paragraphs, then stop. You don't need to fill the entire allotted space. Eligibility criteria is typically quite succinct. A Brief Summary typically runs 2,000 characters or less and the Project Narrative typically 5,000 characters or less. It would be unusual to come even close to the character limits for those fields. It's, OK. Cover the topics using only the space you need.; Remember, this is the supporting detail for your story, not the story itself. Less is more. Don't bury your main point under unnecessary information.; \textbf{Do Fellowship Awards Allow Clinical Trials?}: We encourage fellows to receive training in clinical research, including clinical trials. NIH-supported fellows just can’t independently lead them. The career stage of a fellow may not yet align with the responsibilities of navigating all the components, complexities and reporting requirements associated with a clinical trial. In addition, fellowship grants do not include sufficient research funds to support the majority of clinical trials. Consequently, all Fellowship opportunities are posted as independent Clinical Trials Not Allowed.; The sponsor is the responsible individual of record for oversight of the trial. He or she is ultimately responsible for tasks like interacting with relevant Institutional Review Board (IRB) staff, reviewing all informed consent documents, reporting potential serious adverse events, and maintaining responsibility for patient safety. But there are no restrictions on the responsibilities the fellow can assume with the sponsor's oversight.; If you plan on submitting a fellowship application, clearly delineate the roles both the sponsor and the fellow are undertaking. This can be done in the Sponsor and Co-Sponsor attachment for the sponsor and the Research Strategy for the fellow. It needs to be clear that the fellow is not the responsible individual. Overselling their role to the point where it looks like they are leading the trial can hurt more than it helps. It’s fine to show the fellow working side-by-side with his or her sponsor through every aspect of the trial. It’s not OK for them to be off on their own shouldering all the responsibility themselves.; \textbf{Dog Days of Summer: "Be the person your dog thinks you are."}; ~ George Eliot aka Mary Ann Evans; Stay cool and if you’re lucky enough to have one, give your mutt an extra hug.; Take care, Sheri; [brought to our attention] by Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@mail.nih.gov

**Additional Information:** NIH Guide Notice on Delayed Enforcement for Some Requirements Affecting Prospective Basic Science Studies Involving Human Participants; As I previously announced a few weeks ago, NIH will be delaying enforcement for some requirements affecting prospective basic science studies that also meet NIH’s definition of a clinical trial. NIH just released the official notice stating this, along with their future plans: https://grants.nih.gov/grants/guide/notice-files/NOT-OD-18-212.html; Please read the notice in its entirety. The Council on Governmental Relations (COGR) provided a summary below. Here are some highlights: (*) Registration and Reporting: NIH still expects the registration and reporting of these prospective basic science studies, but is giving flexibility to allow reporting on existing basic science portals, and expects the data to eventually be transported to ClinicalTrials.gov. Flexibility given through September 24, 2019. They are issuing a Request for Information (RFI) to collect stakeholder feedback on this topic; (*) Funding Opportunity Announcements (FOAs): NIH will not administratively reject any proposal application for submission to an incorrect FOA based on study-type designation, and they plan to issue an FOA specifically for prospectively basic science studies in November for due dates starting on January 25th, 2019; (*) The PHS Human Subjects and Clinical Trial Information Form (new in FORMS-E) – they still expect that form for all applications involving prospective basic science studies; (*) Good Clinical Practice (GCP) training is still being enforced for all personnel involved in the conduct, oversight, or management of prospective basic science studies involving human participants. As a reminder, Columbia offers GCP training in Rascal through Course TC3450. NIH, in response to report language in the Consolidated Appropriations Act of 2018, has released this notice NOT-OD-18-212 which delays enforcement of registration and reporting policies for prospective basic science studies involving human participants under NOT-OD-16-149. Per the notice, “through September 24, 2019, NIH will continue to expect registration and reporting for prospective basic science studies involving human participants, with additional flexibility to allow reporting on existing basic science portals, with the expectation that data will eventually be transported to ClinicalTrials.gov.” NIH will issue a Request for Information (RFI) to seek additional input “on registration and results reporting standards best suited for prospective basic science studies involving human participants.” The notice also provides a period of “leniency for applications submitted to the incorrect FOA based on the study type designation” during which time NIH will not “administratively reject any application for submission to an incorrect FOA based on study-type designation.” The notice also indicates that the agency “plans to issue FOAs specifically for prospective basic science studies involving human participants.” Please see the notice for details. ; Lisa Nichols, Ph.D.; Council on Governmental Relations; 1200 New York Avenue, N.W., Suite 460; Washington, D.C. 20005; lnichols@cogr.edu; 202-289-6655

I want to give you an update on Research Support Services—the School’s new program for pre-submission external review and final editing. As Dean Fried wrote in October, the program is geared “to support faculty in preparing grant applications with the highest chance of success.”

In my estimation, all the grants were greatly improved by these services. Of course, the ultimate test is how they are scored and funded. As soon I have that information, I will share it with you.

I encourage everyone to take advantage of Research Support Services to give your grants a competitive advantage. Please keep in mind the following deadlines:

- **5 weeks prior to submission deadline**—Inform Research Resources (via Craig Kandell at ckk7@cumc.columbia.edu) if you plan on using Research Support Services with information about they the type of grant at least five weeks prior to the grant due date. If you seek external review, please provide the name and contacts of at least three potential reviewers so we can reach out to them in your order of preference.

- **4 weeks prior to submission deadline**—Send us your science draft for external review three to four weeks prior to submission. We will forward it to the external reviewer. Generally, they provide feedback within a week.

- **2 weeks prior to submission deadline**—For editorial services, send us your manuscript at least 10 days from the deadline.

Updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements

Sponsor: Columbia | Research Human Research Protection Office; Institutional Review Boards
Deadline(s): NA
Contact: We look forward to hearing from you!

Additional Information: HRPO and IRB Updates; Dear colleagues, This email provides updates from the Human Research Protection Office (HRPO) on recent new or revised policies, regulations or requirements that may affect IRB activities and requirements.

Revised Policies: Revisions have been made to the new IRB Policy on the Privacy Rule and the Use of Health Information in Research (IRB HIPAA & Research Policy) and the IRB Data Security Plans Involving the Use, Storage or Transmission of Electronic Research Data Constituting Sensitive Data (IRB Data Security Policy). The IRB HIPAA & Research Policy, which was released on November 1, 2017, was revised to provide clarifications of definitions, scope, and when a Data Use Agreement is necessary. In addition, several case studies were added to assist with implementation of this policy. The IRB Data Security Policy was revised to include new terminology and definitions that are included in the IRB HIPAA & Research Policy. Sessions to explain the policy and review the examples will be scheduled. In addition, please let us know if you would like to have us come to your departmental meeting to review the policy!

Revised Standard Operating Procedures (SOPs): Version 5.0 of the IRB’s SOPs were recently released. Included in this version: (*) Comprehensive information on Expanded Access; (*) Incorporation of Columbia’s Institutional Conflict of Interest Policy; (*) Clarifications on when Unanticipated Problems are reported to federal agencies; (*) Updates to the sections regarding recruitment of inpatients at NYP; (*) Addition of the new Single IRB processes; (*) Clarification on the process for IRB disapproval.

Process for Implementing the NIH Single IRB Policy: The NIH Single IRB (sIRB) Policy is applicable to new and competing renewal applications/proposals for NIH funding that are due on or after January 25, 2018, and contract solicitations issued on or after January 25, 2018. It is applicable to NIH-funded multi-site domestic studies involving non-exempt human subjects research, whether supported through grants, cooperative agreements, contracts, or the NIH Intramural Research Program.

If you are preparing an NIH application that is due on or before March 5, 2018, it is important that you contact the HRPO immediately at hrpooffice@columbia.edu if your application proposes to: (*) Conduct non-exempt human subjects research; AND (*) The same research protocol will be conducted at multiple domestic sites.; The HRPO and SPA have developed tools to facilitate implementation of this policy. These tools, including an overview of our process and template language that can be used in your grant applications, can be accessed here. The HRPO’s web page will continue to be updated with additional resources as more information becomes available to facilitate compliance with this policy.

Upcoming HRPO Education Sessions: Monthly IRB-Investigation Monthly Meetings: (*) February 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) March 22, 3:30-4:30pm, P&S Amphitheatre 1; (*) April 26, 3:30-4:30pm, P&S Amphitheatre 1; (*) May 24, 3:30-4:30pm, P&S Amphitheatre 1; We want to hear from you! Please send us your questions as well as suggestions for topics for future education sessions; We look forward to hearing from you!

Grants.gov will no longer allow grant applicants to download an entire application form package as a single PDF for offline data entry and later submission; Since you were involved in a grant application submitted using downloadable forms in 2017, we wanted to provide a final reminder to switch to one of the following submission options for 2018 submissions: (1) NIH's ASSIST (learn more); (2) Institutional system-to-system solution (if your institution has one); (3) Grants.gov Workspace (learn more); Our submission options page can help you compare features and considerations for each option. Ultimately your office of sponsored research or other group responsible for grant application submissions will decide which option is the best fit for you and your organization; If there is no business reason to choose one option over another, give NIH's ASSIST a try. It's a user-friendly, online solution optimized for NIH applications; Although Grants.gov will stop presenting their legacy downloadable forms package as an option at the end of this year, Grants.gov and NIH systems will continue to process previously downloaded application packages through March 2018. If you plan to submit a downloaded application package after December 31, 2017, you might want to consider downloading an extra copy of the forms package for the opportunity before Dec 31 just in case you run into a technical difficulty with the original; Hope you have a great holiday season!; Sheri Cummins; Communications & Outreach; NIH Office of Extramural Research; cummins@niaid.nih.gov

Changes to NIH policies and procedures related to human subjects research

**Additional Information:** I wanted to pass along this email we received from NICHD. Regardless of whether you receive funding from NICHD, I thought it was a great summary of the recent NIH policies concerning human subjects research and the definition of a clinical trial. It also highlights contacting the NIH Program Officials when you are uncertain if your study meets the NIH clinical trial definition.; I promise you will see more communications from me as we prepare you for these proposal application changes in effect for proposals due January 25th, 2018 or later.; **Stephanie Scott** Changes to NIH policies and procedures related to human subjects research; Dear NICHD Investigator, NIH has broadened its definition of clinical trial, and it may impact your future applications (new, resubmission, or revision) and awards.; NIH’s definition of clinical trial now includes some research approaches not traditionally considered clinical trials. For example, many behavioral or biobehavioral studies that focus on underlying mechanisms of development may now be considered clinical trials. Also, conducting experiments that involve human subjects may be considered a clinical trial. If you are conducting studies involving human subjects, it is very important that you understand this definition and determine whether it applies to your research.; How do I know if my study is a clinical trial?; NIH has four questions that researchers need to answer to determine whether their study is a clinical trial. These questions may use terminology that has a different meaning than the typical meanings understood by certain research communities. It’s important to review the FAQs and case studies provided by the NIH Office of Extramural Research. If you answer “yes” to each of these four questions, your research will be considered a clinical trial by NIH: (1) Does the study involve human participants? (2) Are the participants prospectively assigned to an intervention? (3) Is the study designed to evaluate the effect of the intervention on the participants? (4) Is the effect being evaluated a health-related biomedical or behavioral outcome?; Here is a link that can help you determine if your research is a clinical trial: https://grants.nih.gov/ct-decision/index.htm;

**Why is this important? What are the implications if my study is considered a clinical trial?**; Beginning with applications submitted on or after January 25, 2018, if your application involves a clinical trial, you must: (*) Submit the application through a Funding Opportunity Announcement (FOA) that accepts clinical trials; (*) Provide additional information in the application, which will be subject to different and distinct review criteria for clinical trials; If selected for funding you will need to designate individual(s) to serve as the responsible party for the trial and to register and post results in the ClinicalTrials.gov system.; NIH has also issued other policy updates involving Good Clinical Practice training requirements and the use of Single Institutional Review Board (sIRB) approaches for domestic, multi-site human subjects research. Details about all updates/changes are available at https://grants.nih.gov/policy/clinical-trials.htm.; Note: These policy updates/changes also apply to individuals conducting research through contracts.; **Why is NIH making these changes?**; As stewards of public funding, NIH is implementing these changes in support of our scientific and ethical obligation to ensure that the burden and risk that volunteers assume as research participants ultimately contributes to scientific knowledge. In addition, these changes facilitate transparency in how NIH conducts and supports human subjects and clinical trials research and increases dissemination of data and conclusions derived from NIH-conducted or -supported clinical trials. More discussion of the reasons for the policy changes is at: https://grants.nih.gov/policy/clinical-trials/why-changes.htm;

We know this is a lot to process, but we are here to answer your questions. Please contact your Program Officer with any questions. If you’re uncertain who your Program Officer is, this information is available in your Commons account.; Kind regards,

O’Connor, Ph.D.; Senior Policy Advisor for Clinical Research; Division of Extramural Research; Eunice Kennedy Shriver National Institute of Child Health and Human Development; National Institutes of Health / DHHS; Bethesda, MD 20892; NICHDTrials@nih.gov

announcement I sent last night, Update: NIH FOAs with FORMS-E, Dr. Mike Lauer of NIH just wrote a blog on the importance of selecting the correct Funding Opportunity Announcement (FOA). See full blog post; Key takeaways: (*) If any part of your study (the specific aims, components, studies, etc) meets NIH's definition of a clinical trial, then you must select an FOA that allows for clinical trials.; (*) If none of the aims or studies within your project meet the definition, select an FOA that says "Clinical trials not allowed" or "Clinical trials optional".; (*) "The participating organizations may vary between the "clinical trial not allowed" parent FOA and the "clinical trial required" parent FOA for the same activity code. Read the details of each FOA carefully.; (*) "Note that some institutes that participate on a "Clinical Trial Required" parent may limit their participation to mechanistic studies."; If you are unsure whether your study meets the definition of a clinical trial, I highly encourage you to reach out to the Program Official named on the FOA to help you make the appropriate determination, and to clarify the appropriate FOA to be selected. Include in your application cover letter the name of the Program Official who assisted you, and confirmed, the selection of the FOA; [brought to our attention by] Stephanie Scott, sfs2110@cumc.columbia.edu

Additional Information: [adapted from] A MESSAGE FROM DEAN FRIED [previously distributed] to Faculty; Dear Mailman School faculty; In acknowledgement of the increasingly competitive federal funding environment, the School’s administrative and academic leadership teams have been working to develop new resources to support faculty in preparing grant applications with the highest chance of success. In the fall, we will announce and begin rolling out a suite of such supports; Given the initial fall NIH submission deadline of October 5, I write today to inform you about the first of these resources. The School is providing support for pre-submission external review and for scientific final editing of R01, P, K, Center or other complex NIH proposals for NIH’s October 5 submission deadline, for all full-time faculty with primary appointments in the School. These services will only apply to first submissions (not to resubmissions). Note that, at this time, other grant types such as R03 and R21 are not eligible for this service.; For the external review of applications, the PI will be requested to identify an external expert who they think would be willing to review the grant. Please remember that an individual who serves as a reviewer in this way would then become ineligible to review the proposal for NIH. The School will arrange for the review and provide reviewers a $750 honorarium for R01 review and $1,000 for review of P or other more complex proposals. This external review is independent of any departmental review of aims or entire proposals, is independent of review by R?, and is entirely optional.; For the final scientific editing, an outside company that has already been used by several departments will be engaged as needed. The editing review will polish writing, help with organization and logical progression, and assist with the production of figures.; Below is the timeline and process for requesting these services. This request must include: the type of grant, type of proposal, due date, and name of the suggested external reviewer with contact information.; (*) To ensure an adequate amount of time for grant review and/or editing, faculty wishing to participate must first contact Research Resources (via email at ckk7@columbia.edu) at least five weeks before the grant is due [in the case of the 10/05/2017 deadline, 09/01/2017] that you will be requesting one or both of these services. This request must include: the title of the grant, type of grant, due date, and name of the suggested external reviewer with contact information.; (*) For editing of grant proposals, Craig will send the revised manuscript to the scientific editor ten to 14 days prior to submission [in the case of the 10/05/2017 deadline], 09/21/2017 - 09/25/2017, and the editor’s comments will be returned to Craig and the PI for finalization and submission within a few days.; If you have any questions about your eligibility or the above process, please contact Pam Factor-Litvak at prf1@columbia.edu; I hope you will consider taking advantage of these new services and that you find them helpful.; With best wishes, Linda P. Fried, MD, MPH; Dean and Delamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine

Fringe Benefits Rates for Fiscal Year Beginning July 1, 2017 (FY 2018)

**Sponsor:** Sponsored Projects Administration
NA, FY2018 Announcements, brought to our attention on
**Deadline(s):** 07/06/2017
**Contact:** Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

**Additional Information:**
- To: Principal Investigators, Sponsored Projects Administrators; From: Barbara Hough, Vice President, Controller and Treasurer, Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 28.9% to 30.3%, effective July 1, 2017. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.75%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past several years.
- Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle. For information regarding student employees working during the academic year or summer, refer to http://finance.columbia.edu/content/fringe-benefit-rates.
- For grants administrators: FY17 Cost Transfers involving sponsored projects will continue to be processed with the FY17 fringe rates through the July 7th deadline. The new FY18 fringe rates will be introduced with FY18 payroll runs. The rate agreement is available on the SPA website on the Institutional Information page and on the Finance Gateway at http://finance.columbia.edu/content/fringe-benefit-rates. Any questions about the government fringe rate should be directed to AskRPIC@columbia.edu.

NIH to Limit Total Grant Support to PIs

**Sponsor:** NIH  
**Deadline(s):** NA  
**Contact:** National Institutes of Health; Office of Extramural Research; ExtramuralNexus@mail.nih.gov  
**Link(s):** https://www.nih.gov/about-nih/who-we-are/nih-director/statements/new-nih-approach-grant-funding-aimed-optimizing-stewardship-taxpayer-dollars

**Additional Information:** NIH to Limit Total Grant Support to PIs; NIH announced on Tuesday that it will implement a limitation on the total grant support it will provide to principal investigators (PIs) who have multiple awards. The agency will use a “Grant Support Index” that assigns point values to various types of grants. PIs who exceed a set point, linked to having three or more awards with a single PI, will be forced to adjust their portfolio with reduced resources. NIH said that the proposed formula will be discussed by institute and center councils during their spring meetings before a final formula is shared with the community. NIH says that it believes 6 percent of PIs will be affected and that resources will be freed up to fund about 1,600 additional awards. NIH insists that no existing awards will be rescinded; An article posted by *Nature* reports that some researchers believe the new policy will disincentivize research collaborations; Tentative plans are to make the process effective for applications submitted starting in September 2017. NIH also said that non-NIH funding sources will not enter the formula, nor would promised effort. Dr. Francis Collins released a statement on the announcement and Dr. Michael Lauer, NIH Deputy Director for Extramural Research, posted additional information about the proposal on his blog site. Both Drs. Collins and Lauer report that 10 percent of NIH awardees receive 40 percent of NIH extramural funding.

**Additional Information:** All, I wanted to bring a resource to your attention. WNYC is launching a new project called “The Privacy Paradox”. To quote its Website, it is for those of us who “…love the convenience of living online. But you want more control over where your personal information goes and who can see it.” This initiative combines a podcast, newsletter and even a “privacy quiz” designed to help you make more informed choices about who you allow to access your digital information.; If you are interested, you can check it out at: http://www.wnyc.org/story/privacy-paradox-launch/; [brought to our attention by] Elizabeth Tashiro, Associate Dean, Information Technology.

**Additional Information:** Please also note the highlighted final research report requirement below; Several updates to ASSIST happened [01.19.17], you can read about those updates below.; In addition, you may recall that NIH now requires the use of a Final Research Performance Progress Report (FRPPR). See NOT-OD-17-022. Section D.1 in the Participants section will now be included, per the email below regarding eRA Commons updates; I’ll need to provide more information on the FRPPR separately. It appears NIH just posted some FAQs on the FRPPR and Interim RPPR. See https://grants.nih.gov/grants/ppr/faqs.htm#5038. I’ll provide a separate email with this information.; Should you have any questions, please feel free to reach out to your SPA Project Officer. [brought to our attention by] Stephanie Scott; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; eRA Enhancements: eRA Commons Upcoming Release and Scheduled Downtime for Wednesday, January 18; Friday, January 13, 2017; Scheduled Downtime for the January Release: eRA Commons and ASSIST will be unavailable beginning at 9 p.m. ET Wednesday, January 18 and will return to service by 7 a.m. ET Thursday, January 19, 2017. When the system is available again, you will see new features and functionality have been added to the system.; Highlights of ASSIST’s January Software Release; (*) New Access Maintainer Role; (**) A new role called “ASSIST_ACCESS_MAINTAINER_ROLE” with Access Maintainer Privileges has been added to the Account Management System (AMS); (**) Only the Signing Official (SO) has the authority to provide this role to whomever they want to manage access to applications in ASSIST on behalf of the organization.; (**) By providing this role, the SO is delegating the authority to manage access to all applications at the organization level, rather than application by application level.; (**) Access Management within ASSIST for individual applications has not changed.; (**) Multi-Employment Functionality; (**) Senior Key Persons who are affiliated with multiple organizations will be able to select from their current employments so they can choose the most appropriate organization as it relates to their application.; (**) When the user provides their eRA Commons User ID and multiple active employments are associated with the account, the system displays the organization, the state, the city of each employment organization. The user can select the appropriate appointment and click the “Select” button.; (**) New Link for SOs from ASSIST to Commons Status Screen; (**) When SOs access the Application Information page, they will find a new link titled “To view Commons post submission actions” in the Agency section of the page.; (**) The link will take them to the Commons Status search page. From here they can search for the application under the Recent/Pending Submissions option so they can quickly reject the application if so desired/needed.; (**) This link is only available to Signing Officials.; (**) A Warning if Appendix Material is Submitted in Applications; (**) Per the policy outlined in NOT-OD-16-129, the submission of most appendix materials has been eliminated from NIH applications.; (**) If the system detects the submission of appendix materials, a new warning will advise the applicant to closely review the Funding Opportunity Announcement to confirm that these materials are requested as part of the application.; (**) Form Lock Message Includes User Name; (**) When a user opens a form screen in ASSIST to edit or add information, the system locks that form so others cannot simultaneously edit the same form.; (**) ASSIST displays a message indicating the form you are trying to access is locked by another user and now includes the name of the user who holds the lock.; Highlights of eRA Commons January Software Release; (*) Final RPPR Section D.1 Added; (**) As part of the transition to the use of the Final Research Performance Progress Report (FRPPR), Section D.1 of Participants is now included.; (**) & Section D.1 asks “What individuals have worked on the project?” This information will be the list of people who have worked on the project since the previous progress report. It does not include all the individuals during the lifetime of the award.; (**) New Design of the Status Information Screen for PIs and SOs; The Status...
Information screen will have a new look and feel. **Additional Information:** Contacting Staff at the NIH Institutes and Centers; In today’s NIH Extramural News blog, the NIH staff posted a handy chart of the major roles of NIH staff: Program Officials, Scientific Review Officers, Grants Management Officials, and staff of the Division of Receipt and Referral in NIH’s Center of Scientific Review. It explains each role’s responsibility, when it is appropriate to contact them, and where to find their contact information.; See Who At NIH Can Answer my Question About….?;  
Remember that your Sponsored Projects Administration (SPA) Project Officer must communicate with NIH staff directly when submitting proposals, negotiating awards, submitting Just-in-Time information, submitting formal requests for prior approval, submitting progress reports, clarifying NIH policies, and discussing financial or administrative issues. However, there may be times when contacting NIH directly is appropriate, for example, to identify the right type of grant program and/or funding opportunity for you and your research, or to verify that your idea fits within the mission and priorities of an NIH Institute or Center. When in doubt, reach out to your SPA Project Officer.; [brought to our attention by] Stephanie F. The Fringe Rate Applicable to Government Grants and Contracts will Increase from 27.1% to 28.9%, effective July 1, 2016

**Sponsor:** NA  
**Deadline(s):** 07/01/2016 (effective)  
**Contact:** Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.  
**Link(s):** http://spa.columbia.edu/proposals/institutional-information  
**Additional Information:** To: Principal Investigators, Sponsored Projects Administrators; From: Anne Sullivan, Executive Vice President for Finance; Rudi Odeh-Ramadan, Associate Vice President for Research Administration; We are writing to inform you that, based on the approval obtained from the Federal government, the fringe rate applicable to government grants and contracts will increase from 27.1% to 28.9%, effective July 1, 2016. For all funding sources other than government grants and contracts, the fringe benefit rate will be 29.5%. The increase in the rate is primarily driven by the significant increase in medical costs the University has experienced over the past year.; Please note that you may wish to take this opportunity to review the impact the change in the fringe benefits recovery rate may have on the allocation of personnel related costs for the remainder of the grant life cycle.; With respect to students, the fringe benefit rate applicable to salaries funded by government projects will not change and will remain at 8.15%. For all funding sources other than government projects, the fringe benefit rate will be 8.15%; For grants administrators: FY16 Cost Transfers involving sponsored projects will continue to be processed with the FY16 fringe rates through the July 15 deadline. The new FY17 fringe rates will be introduced with FY17 payroll runs.; The rate agreement is available on the SPA website on the Institutional Information page. It will be posted on the Finance website shortly.; Any questions about the government fringe rate should be directed to Carl Sparano at email cs16@columbia.edu or voice 212-854-1049.
Two items NIH fellowship applicants should be aware of

**Sponsor:** NIH  
**Deadline(s):** NA

**Link(s):** https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html

**Additional Information:** Please pass this on to anyone you know whom may be preparing an NIH individual fellowship application (pre- or postdoc). _Anyone who started a grant application for any of these fellowship opportunities prior to June 8, 2016 must return to the funding opportunity announcement and begin again._ There were problems in the fellowship forms packages attached to the funding announcements. NIH has since corrected the problem. See below for details, and https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-106.html. Impacts the Parent fellowship funding announcements as well as PA-16-130 from NIGMS and PAR-16-210 from NIDCD. [forwarded to our attention by] Stephanie Scott, SPA Communications and Outreach Director, ssfs2110; NIH Fellowship applicants, I’d like to bring two issue to your attention: (1) Anyone who started a fellowship application between June 3 and June 7 must return to their funding opportunity announcement to get an updated application package (NOT-OD-16-106); (2) If you use Grants.gov downloadable forms or Workspace to prepare your application, be aware that the "View Attachment" button associated with the 23. Resource Sharing Plan attachment on the PHS Fellowship Supplemental form displays the 22. Select Agent Research attachment instead of the expected one. This is simply an issue with the Grants.gov form interface. It does not impact how the attachments are sent to NIH or how we assemble your application image in eRA Commons. We are working with Grants.gov to address the issue. In the meantime, do not rely on the “View Attachment” feature for the Resource Sharing Plan. Instead, carefully check your attachments prior to uploading them and again when viewing your application image in eRA Commons. This issue only impacts the PDF version of the form. If you use ASSIST or a system-to-system solution to prepare your application, then you are not impacted.; If you have any questions, please contact Grants Information at grantsinfo@od.nih.gov; Sheri; Sheri Cummins; Chief, Grants Information; Division of Communications and Outreach; NIH Office of Extramural Research; cumminss@mail.nih.gov; 301-496-3405;

**Additional Information:** This Notice is to inform potential applicants and offerors that the requirements of the Vertebrate Animals Section (VAS) of grant applications, cooperative agreements and contract proposals has changed. The changes have been made to remove redundancy with Institutional Animal Care and Use Committee review while meeting the requirements of the Public Health Service Policy on Humane Care and Use of Laboratory Animals.; Updated VAS Requirements: If live vertebrate animals are to be used, federal policy requires applicants to address the following criteria: (*) Description of Procedures. Provide a concise description of the proposed procedures to be used that involve vertebrate animals in the work outlined in the application or proposal. Identify the species, strains, ages, sex and total number of animals by species to be used in the proposed work. If dogs or cats are proposed, provide the source of the animals; (*) Justifications. Provide justification that the species are appropriate for the proposed research. Explain why the research goals cannot be accomplished using an alternative model (e.g., computational, human, invertebrate, in vitro); (*) Minimization of Pain and Distress. Describe the interventions including analgesia, anesthesia, sedation, palliative care and humane endpoints to minimize discomfort, distress, pain and injury; (*) Euthanasia. State whether the method of euthanasia is consistent with the recommendations of the American Veterinary Medical Association (AVMA) Guidelines for the Euthanasia of Animals. If not, describe the method and provide a scientific justification;

Sponsor: National Institutes of Health; Agency for Healthcare Research and Quality;
Deadline(s): NA Release Date: 10/09/2015;

Contact: Please direct all inquiries to: reproducibility.nih.gov;

Additional Information: This notice informs the biomedical research community of updates to application instructions and review language intended to enhance the reproducibility of research findings through increased scientific rigor and transparency. These updates will take effect for most* research grant applications (including small business and complex research grant applications) submitted for due dates on or after January 25, 2016. For research contracts, this policy will be effective for proposals received on/after January 25, 2016 and expected to result in contract awards in Fiscal Year 2017 and beyond.; Updates include: (*) Revisions to application guide instructions for preparing your research strategy attachment; (*) Use of a new “Authentication of Key Biological and/or Chemical Resources” attachment; (*) Additional rigor and transparency questions reviewers will be asked to consider when reviewing applications; These updates focus on four areas deemed important for enhancing rigor and transparency: (1) the scientific premise forming the basis of the proposed research; (2) rigorous experimental design for robust and unbiased results; (3) consideration of relevant biological variables, and (4) authentication of key biological and/or chemical resources; The basic principles of rigor and transparency and the four areas of focus apply to the full spectrum of research, from basic to clinical. Investigators will need to consider how all four areas apply to their proposed research. Likewise, reviewers will assess whether these areas have been appropriately addressed by the applicant through revised language defining the peer review criteria. (*) *Notes & Exceptions: (*) Research grant activity codes excluded from this policy include C06, G08, G11, G12, G13, G20, R13, S06, S10, S21, SB1, U13, U55, UB1, UC6, UC7, UG4, UH4, X02, and 333; (*) Research Resource and Related grants or components (P30, P40, P41, P2C, R24, R28, U24, U41, U42, and U2C) may have slightly revised language: please refer to the Funding Opportunity Announcement.; (*) Refer to NOT-OD-16-012 for updates to Career Development Award application instructions and review language.; (*) Fellowship and Training grant applications submitted for the May 25, 2016 due date and beyond will include new instructions and review criteria to address this policy. Details on these changes will be available by December 2015.;

Dear Colleagues, We were pleased to see so many faculty and staff members at the annual HIPAA Privacy and Information Security Briefing. Those of you who were unable to attend the briefing can watch a video of it here: HIPAA Privacy and Information Security Briefing. The slides and video link are also on the CUMC HIPAA website under HIPAA Educational Information.; Although the session was not mandatory, it outlined important information about CUMC’s privacy and information security programs. We encourage you to familiarize yourself with the material.; Thank you for your commitment to safeguarding Protected Health Information at the medical center. Your partnership in this endeavor helps make CUMC one of the nation’s leading medical centers.; Sincerely, Karen Pagliaro-Meyer; Privacy Officer; Columbia University Medical Center

**Link(s):** If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page;

**Additional Information:** Dear fellow members of the Columbia community: As you may have seen in the media, Dr. Craig Spencer is being treated for Ebola at Bellevue Hospital in Manhattan. Dr. Spencer, an emergency department physician at New-York-Presbyterian/Columbia University Medical Center, recently returned from a humanitarian mission with Doctors Without Borders to one of the outbreak areas in Western Africa. We admire and appreciate all of those willing to do this vital and selfless public health work around the globe. ; It’s critical to bear in mind what our public health and infectious disease experts have emphasized – the risk to people in New York City and at Columbia remains extremely low. If you or anyone has any concerns, please visit the University’s Ebola Preparedness site or the New York City Department of Health Ebola update page. You may also contact Student Health Services at 212-854-2284 or Workforce Health and Safety for Faculty/Staff with Hospital Responsibilities at 212-305-7590; We must keep Dr. Spencer in our thoughts and wish him a full and speedy recovery, as we do the vulnerable populations he serves. We will also continue to keep the Columbia community informed as we learn more from City, State, and Federal health officials.; Sincerely, Lee C. Bollinger;

Note from Dean Fried;

**Additional Information:** Dear Colleagues, By now, many of you have learned that a New York Presbyterian physician, Dr. Craig Spencer, who recently returned from treating patients in Guinea, has tested positive for Ebola. I ask you all to keep Dr. Spencer, who is a 2013 Mailman School graduate, in your thoughts, and to acknowledge that the extraordinary efforts of our alumni, current students, and faculty continue to play a critical role in the containment, treatment, and understanding of this outbreak. ; At a moment of global distress, public health knowledge is vital. It is important to recognize that this crisis will continue, and that all available scientific information suggests the risk of transmission here is extremely low.; Dr. Spencer’s commitment is among many noteworthy examples of our colleagues passing seamlessly from science to service. As we move through this global crisis, we must all take pride in that commitment.; Sincerely, Linda; Linda P. Fried, MD, MPH ; Dean and DeLamar Professor of Public Health; Mailman School of Public Health; Senior Vice President; Columbia University Medical Center; Professor of Epidemiology and Medicine;

Clarification - RE: 3rd Reminder – eRA Commons IDs and Complete Profiles Required for Students and Postdocs; The requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097;

Sponsor: NIH;

Deadline(s): Starting in October 2014;

Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu;

Link(s): NOT-OD-13-097;

http://spa.columbia.edu;

Additional Information: This is to clarify the requirement for NIH eRA Commons IDs, as per notice NOT-OD-13-097. The Commons IDs, and complete Personal Profiles, are required for postdocs, graduate and undergraduate students when: (*) They have participated at least one person month on an NIH award, regardless if they were paid from the grant; and (*) Their participation is required to be included in Participants Section
Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;

**Sponsor:** NIH

**Deadline[s]:** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

**Additional Information:** This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer. Stephanie F. **Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs;**

**Sponsor:** NIH

**Deadline[s]:** Starting in October 2014;

**Contact:** Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

**Additional Information:** This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097. Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have "I Do Not Wish to Provide" as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile. If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. Finally, the Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer. Stephanie F. Scott, M.S., CRA; Communications and Outreach Director;
Dear PIs and Administrators, If you are planning to prepare and submit an NIH multi-project application over the next several months, please let me know. Examples of multi-project grant mechanisms include, but are not limited to, P01, P30, P50, and U19. All multi-project Funding Opportunity Announcements (FOAs) now require proposals to be submitted electronically using ASSIST (Application Submission System and Interface for Submission Tracking). For a listing of all multi-project FOAs, go to http://grants.nih.gov/searchGuide/ComplexOnly.cfm. If you plan to submit a multi-project application in the coming months, please contact me and your SPA Project Officer and we will schedule a time to meet to provide you with training and guidance. Please feel free to contact me if you have any questions. Our website contains many ASSIST resources: http://spa.columbia.edu/electronic-systems/assist. Thank you; Stephanie F. Scott, MS, CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; columbia.edu; Email: sfs2110@cumc.columbia.edu; Website: http://spa.columbia.edu.

The Columbia University Medical Center IRB Office has a standing "IRB Consultation Hour". This service provides an opportunity for researchers to stop in at the IRB office and meet with an IRB professional to discuss regulatory, policy, and procedural questions. The sessions are scheduled for every Tuesday from 10 am to 11 am. No appointment is necessary. The IRB office is located at 154 Haven Avenue, 1st Floor. Attendees should sign in at the IRB receptionist desk, and will meet with IRB staff in the order of arrival. If situations warrant, individual consultations may be limited to 15 minutes. Important Note: If you have questions about a protocol that has already been submitted to the IRB, please contact the staff members who administer the IRB to which the protocol is assigned rather than bringing those questions to a Consultation Hours session. Staff contact information may be obtained on the IRB website: http://www.cumc.columbia.edu/dept/irb. Researchers may also call during these times, to the IRB main number, for consultation: 212.305.5883. Email: irboffice@columbia.edu.

NEW ITEMS FROM THE NIH

NIH-Investigators Reminder for NIH-Investigators: eRA Commons IDs and Complete Profiles;
Sponsor: NIH eRA Commons IDs and Complete Profiles;
Deadline(s): Starting in October 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: ssfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): eRA Commons Manage Personal Profile; http://era.nih.gov/reg_accounts/manage_personal_profile.cfm;
Additional Information: Complete Profiles Required for Students and Postdocs; As we get closer to October 2014, I wanted to remind investigators and administrators of the new NIH progress reporting requirement regarding eRA Commons IDs. Postdocs, graduate and undergraduate students supported on NIH awards must have eRA Commons IDs, with complete eRA Commons Personal Profiles. Beginning with NIH progress reports due October 2014, NIH will not accept progress reports that have missing eRA Commons IDs and incomplete profiles. As you are aware, if NIH rejects a progress report, that could delay issuance of the next year’s funding.

The Research Performance Progress Report (RPPR);
Sponsor: NIH;
Deadline(s): starting October 17, 2014;
Contact: Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: ssfs2110@columbia.edu; Website: http://spa.columbia.edu/;
Link(s): NOT-OD-13-097; NOT-OD-14-092; eRA Commons Manage Personal Profile;
Additional Information: The Research Performance Progress Report (RPPR) format will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr/.; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.; Steph; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Campus Ph: 212-854-0606; Medical Center (CUMC) Ph: 212-305-1641; Email: ssfs2110@columbia.edu; Website: http://spa.columbia.edu/; This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.; Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational...
degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles; If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBiz@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile; RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rprp/. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed; Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer; Stephanie F. Scott, M.S., CRA; Communications and Outreach Director; Sponsored Projects Administration (SPA); Columbia University; Morningside Ph: 212-854-0606; CUMC Ph: 212-305-1641; Email: sfs2110@columbia.edu; Website: http://spa.columbia.edu/

NIH-Investigators FW: NIH eSubmission Items of Interest – Sponsor: NIH
Deadline(s): June 4, 2014
From Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects Administration (SPA); “NIH eSubmission Items of Interest” (June 4, 2014) (see below). In particular, it addresses the new Biosketch Pilot program, tips on using non-standard characters in form fields, and the cover letter attachment.

Don’t Forget the eSubmission Basics: I had the privilege of spending some time last week with the eRA Commons Help Desk and posed the question - “If you could tell the applicant community one thing about application submission what would it be?” I was a bit surprised to hear the same key messages that we have been pushing for years. On the other hand, that’s why we consider them ‘the eSubmission basics’.

So, here’s a quick reminder...

- Watch out for form fields required by NIH that are not marked required on federal-wide forms (e.g. Credential for PD/PIs and Organization for all entries on R&R Sr/Key Person Profile form; primary site DUNS on Project/Performance Sites form).
- Use PDF format for all attachments. Follow PDF Guidelines.
- Submit early – days, not minutes – to allow time to correct unforeseen errors.
- Track your submission in eRA Commons. Email can be unreliable.
- Check your entire assembled application image in eRA Commons. If you can’t view it, we can’t review it!
- If federal system issues threaten your on-time submission you need to notify the help desk and follow the Guidelines for Applicants Experiencing System Issues.

Impact of Biosketch Pilot on Non-pilot Applications: Did you see in the NIH Guide (NOT-OD-14-091) or in Rock Talk (Changes to the Biosketch) that NIH is piloting a new biosketch format? The pilot directly impacts applicants applying to a few Funding Opportunity Announcements (FOAs) (e.g., RFA-NR-15-001), but there is an immediate indirect impact to all applicants as well. In order to accommodate the pilot applications, eRA has changed the way we systematically validate the biosketch page limit for all applications. Specifically, a warning will fire if you submit a 5 page biosketch and an error will fire if your biosketch is over 5 pages. Applicants to pilot FOAs can ignore the 5-page warning, but everyone else should take action or risk post-submission rejection of their applications. After your application moves forward to NIH staff, we will do a manual check of the biosketches in applications to FOAs not participating in the pilot. If your non-pilot FOA requires 4 pages, but you included 5 and ignored the warning, then your application may not be reviewed. Applicants must read and follow all FOA and application guide instructions – even those that aren’t enforced by electronic systems.

Non-standard Characters in Form Fields: Although NIH systems now support a broader character set including Greek and other non-standard characters, Grants.gov systems currently do not. When completing application form fields type content directly from your keyboard. Avoid cutting and pasting from Word and other word processors- they often convert your plain text to rich text (e.g Word converts quotes to ‘smart quotes’ that curve towards the text between them and combines two dashes into...
one long em-dash.) Also, keep your text as simple as possible. The following characters are typically 'safe': letters, numbers, spaces, underscores, periods, dashes (not em-dashes), quotes (not smart quotes), parentheses, brackets, ampersands, tilde, exclamation points, commas, colons, semicolons, at signs, number signs, dollar signs, percent signs, plus signs, equal signs, and asterisks. Limit your use of fancier characters to the body of your PDF attachments.

**Submitting Applications with more than 5 Budget Periods:**
Although NIH typically allows only 5 budget periods to be submitted with grant applications, from time to time you will come across a FOA that allows more than 5 budget periods. Most NIH FOAs include the R&R Budget form which only accommodates data collection for 5 budget periods leaving applicants wondering what to do with the rest of the data. Applicants have been forced to use a rather clunky ‘workaround’ that includes adding the additional budget period information in the budget justification. eRA has just added system support for Grants.gov’s R&R Budget 10YR form that will allow for the collection of up to 10 budget periods of data. Going forward, this form will be included with the few, special FOAs that allow more than 5 budget periods. The bulk of NIH FOAs will continue to use the standard R&R Budget form.

**Transition to FORMS-C To Complete in August:** If it seems like I’ve been talking about transitioning to FORMS-C for a year – I have. On May 30, 2013, we announced our first transition to updated application forms (FORMS-C) for application due dates on/after September 25, 2013 (NOT-OD-13-074). The Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs are our last remaining programs to use the older forms. These programs are scheduled to transition to FORMS-C for due dates on/after August 5, 2014 (NOT-OD-14-089) marking the end of a rather lengthy transition. Believe it or not, this summer my friends in policy will start pulling together requirements for the next OMB clearance of the PHS (agency-specific) forms used in our applications (they expire in August 2015). Before you know it we’ll be talking about ‘FORMS-D’ forms. For now, let’s celebrate getting through this one. Woo-hoo!

**CYA: Cover Your Application** - that’s what you thought I was talking about – right? NIH form packages no longer use a separate, agency-specific PHS Cover Letter form. The version of the SF424 (R&R) cover form included in FORMS-C packages has a new Cover Letter Attachment (item #21 at the very bottom of the form). If you plan to include a cover letter with your application – use this Cover Letter Attachment only! The eRA systems know to keep this attachment separate from your assembled application image and to limit access to it. If you attach it someplace else (e.g., Pre-application attachment on the SF424 (R&R) cover form, Other Attachments on the R&R Other Project Information form) it will become part of your assembled application image and will be visible to everyone with access to your application including reviewers.

**NIH-Investigators Reminder-eRA Commons IDs and Complete Profiles Required for Students and Postdocs**

This is a reminder that beginning October 2014, Research Performance Progress Reports (RPPRs) lacking an eRA Commons ID for graduate and undergraduate students will receive an error and the RPPR will not be accepted by the NIH without this information. RPPRs that are not accepted could delay issuance of Notice of Grant Awards. See full NIH notice at NOT-OD-13-097.

Currently, warnings appear in the eRA Commons screens to alert individuals identified as undergraduate students, graduate students, and postdoctoral researchers that the following fields should be completed in their eRA Commons profiles: date of birth, gender, race, ethnicity, disabilities, US citizenship status and country of citizenship. Some fields have “I Do Not Wish to Provide” as one of the acceptable responses. For those who have completed undergraduate or graduate degrees (graduate students and postdoctoral researchers), the highest educational degree, the degree date, and the institution where it was earned also should be completed. Beginning on October 1, 2014, those fields in the eRA Commons screens will be required for individuals identified in any of those three roles.

If you have graduate and undergraduate students supported on NIH grants who do not have eRA Commons IDs, please have them request an eRA Commons account from SPA at SPA-eBio@columbia.edu. In addition, graduate and undergraduate students, and postdoctoral researchers should complete their Personal Profiles in the eRA Commons, ensuring all fields listed above are complete. Tutorials on the Personal Profile can be found at eRA Commons Manage Personal Profile.

RPPRs will be required for all Type 5 non-SNAP progress reports beginning October 17th, 2014 (the paper PHS 2590 forms are being phased out). See NOT-OD-14-092. If you are not yet familiar with the RPPR format, resources are available at http://grants.nih.gov/grants/rppr. Therefore, if you have students supported on non-SNAP awards, now is the time to ensure they have eRA Commons profiles completed. Please share this information with your students and postdocs who are supported on NIH grants. If you have any questions, you may contact me, or your assigned SPA Project Officer.

Mentorship Matters for the Biomedical Workforce
Deadline(s): Posted on June 6, 2014 by Sally Rocky
Nature Medicine asked me to share my thoughts on the role of mentorship in the biomedical workforce, and I want to share this article with Rock Talk readers, as well. .... Mentorship Matters for the Biomedical Workforce: The mentorship of early-career scientists is necessary to their individual career success and the future of the biomedical research enterprise as a whole. Recently launched NIH programs and tools aim to facilitate this important type of training. .... Continue reading →

RPPR Required for Non-SNAP Progress Reports Beginning October 17, 2014
NIH currently requires use of the fed-wide progress reporting format — known as the RPPR (Research Performance Progress Report) — to submit progress reports for Streamlined Non-competing Award Process (SNAP), fellowship, and multi-year funded awards. In April we opened the RPPR for use for all Type 5 Non-SNAP progress reports in anticipation of an October 2014 requirement for RPPR use. Now, it’s official — all type 5 non-SNAP progress reports submitted on or after October 17, 2014 need to be submitted through the RPPR module of eRA Commons. .... Continue reading →

Promoting Research Integrity: Building the Foundation of Trust
Exemplifying and promoting the highest level of scientific integrity, public accountability, and social responsibility in the conduct of science are among NIH’s main goals as an agency. Research integrity is not about being flawless. It is about conducting science using honest and verifiable methods, complying with rules and regulations and adhering to professional standards. Ultimately, it is also about trust, the foundation upon which the scientific research enterprise is built. We’ve recently updated our website on research integrity, .... Continue reading →

New Website for iEdison Invention Reporting Information:
True or false: iEdison is the newest Apple™ light bulb. Well, for now at least, false. iEdison – which stands for “interagency Edison” – is a system for reporting inventions resulting from federal funding. iEdison is now part of NIH’s electronic Research Administration (eRA) suite of services, and our new website helps iEdison users access information and resources related to invention reporting. .... You Ask, We Answer:
Can I Resubmit My Grant Application While It Is Under Appeal of the Initial Peer Review Results?
What is the Deadline for Resubmitting My Unfunded Application?

NIH REVISED SUBMISSION RULES

NIH & AHRQ just released more clarifications on the new resubmission policy. In this announcement are clarifications on due dates, applicability, time limits, and the various options PIs have. See NOT-OD-14-082: http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-082.html; I know this revised policy is important to you and has many implications. Please feel free to me or your assigned Project Officer questions. I am following up with additional information on the important announcement I sent last week regarding NIH and AHRQ’s new resubmission policy (see below). NIH just posted extensive FAQs describing various scenarios when you may submit applications as ‘new’ that were previously submitted, resubmitted and not funded (including competing renewal applications that were not funded). Refer to the following resources and articles: FAQs: http://grants.nih.gov/grants/policy/resubmission_qa.htm; The policy announcement: NOT-OD-14-074: A Change in Our Resubmission Policy – Rock Talk article explaining the reasons for the change; NIH Policy on Resubmission Applications; Science Magazine article: NIH to Relax ‘Two Strikes’ Grant Submission Policy; Deciding whether to submit an application as a resubmission or as a new submission can sometimes be complex. You may need to speak with an NIH Program Official or Program Director regarding your specific situation. Please feel free to ask me, or your SPA Project Officer, questions as they arise. Please read full announcement, NOT-OD-14-074 at http://grants.nih.gov/grants/guide/notice-files/NOT-OD-14-074.html Effective immediately, for NIH and AHRQ applications due after April 16, 2014, following an unsuccessful resubmission (A1) application, applicants may submit the same idea as a new (A0) application for the next appropriate due date. The NIH and AHRQ will not assess the similarity of the science in the new (A0) application to any previously reviewed submission when...
accepting an application for review. Although a new (A0) application does not allow an introduction or responses to the previous reviews, the NIH and AHRQ encourage applicants to refine and strengthen all application submissions. Please read the full announcement for more details on the background of this policy change and the policy details. The NIH time limit for accepting resubmission (A1) applications remains in effect, as does the policy for New Investigator R01 resubmission deadlines. Stephanie F. Scott, M.S., CRA

Additional Information for the two above mentioned announcements: This Notice alerts grantees to a change in the implementation timeline, previously announced in NOT-OD-13-120 and NOT-OD-14-093, for the NIH transition to new U.S. Department of Health and Human Services (HHS) payment policies for domestic, non-competing continuation awards and use of Payment Management System (PMS) subaccounts. It also announces a change in how competitive revisions/administrative supplements (Type-3s) awards will be processed. This Notice only applies to domestic non-competing continuation awards that have not yet transitioned to PMS subaccounts. In response to critical feedback from the grantee community, NIH requested an amendment to its subaccount implementation plan to delay the transition of domestic, non-competing continuation awards to PMS subaccounts for an additional year; e.g., now beginning October 1, 2015. HHS’s Office of the Assistant Secretary for Financial Resources recently approved the request. This additional time is provided to allow grantees to prepare their systems to accommodate the changes. Grantee with inadequate systems in place to appropriately manage this transition by October 1, 2015, may be unable to appropriately access PMS accounts and risk losing their ability to draw down funding. Grantees are advised that there will be no additional implementation delays considered and no exceptions granted to the deadline. As of October 1, 2015, NIH will utilize only subaccounts for awarding grant funds. Every grant that is awarded funding in FY 2016 (whether it be in the first, second, third or fourth quarter of FY 2016) will be in a subaccount. NIH will continue transitioning payment of grant awards with new document numbers to domestic institutions to PMS subaccounts in FY 2015 as announced in Notice NOT-OD-13-120. The administrative changes announced in NOT-OD-14-093 will now apply to the transition that will occur between October 1, 2015 and September 30, 2016. This Notice reiterates those administrative changes for non-competing continuation awards and highlights the revised implementation timelines and T-3 award process for all domestic awards. - See more at:

**FEDERAL FUNDING TRAVEL POLICY**

**NIH-Investigators New Policy on Fly America Act:** Sponsored Projects Administration (SPA) and the Accounts Payable (AP) department is happy to announce the release of an updated version of the Fly America Act policy, effective immediately. SPA and AP have partnered together on this effort, resulting in a clearer, more comprehensive policy to ensure compliance with the Fly America Act. You can find the full policy in the Administrative Policy Library at: http://policylibrary.columbia.edu/fly-america-act. This link contains: * Full policy text, including links to resources; * FAQs; * A Decision Tree Diagram; * A new form, the Fly America Exception Checklist; These resources can also be found on the SPA website at: http://spa.columbia.edu/policies/us-flag-carrier-policy/

The Fly America Act is a Federal regulation that states that any foreign air travel that is financed by Federal funds must be booked on U.S. Flag Air Carriers, regardless of cost or convenience. Only Federally funded sponsored projects are subject to this policy. The Fly America Act is not a new policy. Rather, our offices updated our existing policies, which now live in a central location in the Policy Library. There are specific exceptions to the Fly America Act that allow travelers to use Federal funds on foreign carriers, but only under certain circumstances. These exceptions can be quite complex to interpret. Therefore, our offices created a Fly America Exception Checklist and Decision Tree Diagram to assist travelers when booking flights internationally as part of the work to be done on a Federal sponsored project. In cases of exceptions, the Fly America Exception Checklist Form will need to accompany the Columbia Travel & Business Expense Report (TBER) to be submitted to AP. Appropriate back-up documentation should accompany the Checklist. The full policy and FAQs outline this process.

Anyone planning to travel internationally as part of work to be done on a Federally sponsored project is responsible for knowing and adhering to this policy. Please share this information with all faculty, administrators, postdocs and students who may be traveling internationally.

When questions arise that are related to the Fly America Act (for example, what is allowable vs. unallowable, Open Skies Agreement exceptions, etc.) you may contact your SPA Project Officer or myself. However, if you have specific questions about reimbursement of travel expenses or regarding your supporting travel documentation, you should contact AP through the Finance Service Center or call 212-854-2122. Thank you.

Thank you, Stephanie F. Scott, M.S., CRA: Communications and Outreach Director; Sponsored Projects; Administration (SPA); CUMC
